LARGER GARDENING URGED AS RULE TO FOLLOW THIS YEAR

PEOPLE are being encourage ed to grow bigger and bet-ter gardens this year. Besides answering increased food de-mands of war time, gardening is healthful exercise. It counter-acts the ill effects of bad nerves. War is hard on the nervous system, and digging into mellow ground and later smelling juxuriant vegetation

a valuant in the skies and on indistinction we know the truth (11 has of the Republic the knirt seeds on the same and the result of the knirt seeds on the same and schools, the same and schools, of churches and legislative balls record we are whole dealer.

IN A radio address Sunday, Toseph III voltave, United States district attorney for ompled by the request of Alal Francis Biddle, explained or of allens in this country is ever known, and that most roved their loyal devotion to liens in

Giving Admiral kimmel priority over forty six other officers when he was appointed to the post from which he was deposed, weakens his position in the minds of critical observers.

Spincone has made the practical suggestion that the state invest in defense bonds the money spent in maintaining a useless comptroller system for state leachers

Defeat of America's enemies will insure to tuture liberties of such enemies. Americal army will break the chains that now inc., helpless subjects to rithless dictators.

Persons who flaunt bravery when there is danger; are usually at heart the veristicowards.

The Sugar Situation.

(1915) man souther statement of restricted and the fault does not lie with America and sugar beet farmers. The and the tault does not lie with Ambrah choosen of sugar beet farmers. The ault lies in Washington which has cut pwi the acreage of sugar beets and cane to deter to encourage larger sugar imports for Cuba. Hawaii and the Philippines. here, islands cannot ship sugar now, on coon of the war and our domestic suprily that cause to meet our own needs and the other states.

Waste Not . . . Want Not.

Book-of-the-Year.

But skinping hastily past the flowers we thimb the pages for our real interest, verytabiles for the war garden.

First come the carrets—long luscious roots of streamlined succulence. Then the squashes and poidstoes and radishes and peas and bears and eggplant—every one of such excellence as to set the gastric juides running at full flood. Even the parsint, in these pages, takes on a tolerable if not entirely attractive aspect.

But the climas comes in the chapters devoted to the tomato. Page after page is given over to red and scarlet monsters of
