

Metal Drive Is Now On — Local Contest to Stimulate Active Participation by County's Schools — Sioux City Host to Editorial Group — Latest Arrival to Herald Staff.

The purpose of another special scrap drive just launched, is to furnish manufacturing plants with needed supplies to turn into implements of war. This effort is vital to victory and the survival of free peoples. Whatever we give to winning the war will be too little if we should happen to lose. It is better to surrender every material possession than to surrender precious liberties. If Jap and Nazi war lords should win, they would not invite us to contribute anything. They would move in, take everything and enslave us to boot. Thus, the extra time and energy required to gather otherwise useless junk and make it available for fighting equipment will mean everything to the boys who are carrying the burden of the conflict. Wayne county is asked to contribute, and we believe it will be found in the forefront of contributors. It is our responsibility, and we would not shrink if we could, and we could not, if we would.

The Nebraska-Kansas scrap gathering contest is stimulating, but of course is subordinate to the main objective. In addition, a local contest has been planned as an extra incentive to the schools of the county. List of prizes, rules and regulations may be found on page one of the second section of today's Herald, and also other details appear elsewhere in this newspaper. The local awards, totalling \$100, are not lavish but we hope large enough to help enliven substantial interest and to speed fiery parcels to would-be subjugators.

Saturday, October 17, is expected to celebrate the climax of the present campaign—a sort of re-birth and rededication of how obsolete junk. Prof. John R. Keith will be on hand with his streamlined college band and other patriotic notes will be sounded. More complete details of the day's doings will appear in next week's Herald. We hope result of the campaign will amply justify the unfurling of flags and will inspire feelings of triumph on the Saturday designated.

Editors Are Alert. — Sioux City was the scene of an annual meeting of editors drawn from four states Thursday night and Friday. We attended the Friday morning session and listened in on a discussion of the nation-wide scrap metal campaign and other matters pertinent to prosecuting and winning the war. The editors showed themselves alert to their responsibilities. Sioux City still bears the pioneer spirit in knowing how to lead visitors to derive largest values from a meeting.

While in Sioux City we journeyed over to the Journal office and visited briefly with its veteran editor, A. F. Allen, and other members of the editorial staff. Editor Allen who has belonged to the Journal since long before the passing of the newspaper's founder, Geo. D. Perkins, is still young in spirit and body. He is deep in the work of his desk every day, and he has no reason or inclination ever to retire. A son in the service in Honolulu adds a profoundly personal touch to his interest in the war.

John Carey, managing editor for many years, carries the load like a Trojan. He doesn't have time to consult a doctor about when he should have, hardening of the arteries. Editor Woodson who writes the editorials for the Morning Journal, remembers with satisfaction his speech-making visits in Wayne. He is known as equipped with an exhaustless store of information. Editor Moon whose name is appropriately associated with the Evening Journal-Tribune, writes the editorials for that edition, and the daily quality of his product shows that, unlike the moon, he does not radiate reflected light. The Journal-Tribune consolidation strengthens Sioux City's newspaper achievement, and eminently satisfies both readers and advertisers.

Coming Citizens. — A late arrival in the Herald family will give added stimulus to a soldier father's war effort. Like innumerable other little fellows who have been coming into a war-ravaged world without knowing any of the ways of warfare, he will quite unconsciously, what determination to preserve the American way of life in which everybody has a chance. Little children everywhere deserve to be freed—deserve the protecting hands of parents and government—deserve protection from the evils of an alien social order—deserve opportunities that can only be guaranteed in a democracy.

Many are coming into the world and many are going out of it—the occasion of intermittent joys and sorrows—and, intensified by the reality of cruel war, we are mystified but not baffled. Lack of certainty does not destroy reason for hope.

School Vacation May Be Shifted

Students and Faculty Will Decide on Proposal to Help in Husking. The matter of shifting Thanksgiving and Christmas vacations at Wayne State Teachers College, to permit students to help with corn picking during the period when farmers are so urgently needing help for harvest, is being considered at the local school. Dr. J. T. Anderson presented the proposal to the state board of education here Sunday. The board took no action, leaving the matter to decision at each school. Peru and Wayne are the only state colleges affected greatly by the corn harvest season.

To assist in the critical labor shortage on farms, Dr. Anderson suggested that two weeks' vacation might be allowed in November with two days, December 24 and 25, for Christmas. The matter will be considered by the student council and faculty before decision is reached. Another proposal of Dr. Anderson is that of making the physical education program in the college fit more closely the requirements for military service. The faculty discussed this at a meeting Tuesday.

Called to Serve In Army Center

Dr. H. D. Griffin Reports to Headquarters in Omaha Monday This Week.

Dr. H. D. Griffin reported at Seventh army corps headquarters in Omaha Monday as an army specialist. He received word last Friday that he had passed all examinations and had received the commission of first lieutenant effective September 20. He will be located at one of the induction centers to conduct testing and statistical analysis. Dr. Griffin has asked for leave of absence from his duties at the college here and Mrs. Griffin is taking his classes temporarily.

The army appointment came to Dr. Griffin without his solicitation. About two years ago he was one of a number in the nation who filled out questionnaires for scientific societies, these reports designed to show the available supply of men in various lines of scientific work providing an emergency arose. In July of this year Dr. Griffin was approached by the adjutant general's office and asked if he would accept a position as army specialist. The Wayne instructor took the physical examinations at that same month.

First word on outcome of the examinations came Friday when Dr. Griffin was called to report in Omaha Monday. Dr. Griffin has been on the local faculty since 1931.

Foster, early Wayne contractor, who died Sunday shortly before noon from effects of a stroke he suffered Wednesday last week. He was taken to a hospital Saturday afternoon. Rev. G. Gieschen officiated. Mrs. Clarence McGinn sang "O Love That Will Not Let Me Go" and "Just as I Am." Committal followed in Greenwood cemetery. Jacob H. Foster was born May 8, 1858, in Washington county, Tenn., and thus reached the age of 84 years, 4 months and 19 days. He took up the building trade early and was a carpenter contractor all his life. He came to Nebraska in 1883, settling in Butler county. Mr. Foster married Miss Alice Madden in 1885 in Red Oak, Iowa. Four children were born to this union, three of whom survive. The family lived at Rising City, Nebr., until 1903 when they came to Wayne, chiefly because of the educational advantages offered here. An interesting coincidence is the fact that the first building erected by deceased after coming to Wayne was the residence now used as the Hiscox funeral home in which rites for him were held. Mr. Foster's wife died in 1915. He married Mrs. Mae Bryan, nee Carlstrom, in 1917. Mr. Foster's health began to fail five years ago and he had been confined to his home the past three years.

Noted Norwegian Will Speak Here

Public Is Invited to Hear Aase Gruda Skard Who Escaped Nazi Rule.

Aase Gruda Skard, distinguished scholar and writer who has personally experienced Nazi terrorism, is being brought to Wayne, Tuesday, October 27, by the local branch of the American Association of University Women for a public address at the municipal auditorium. With two sets of twins, Mr. and Mrs. Skard miraculously escaped and were able to make their way across the Soviet Union, Japan and the Pacific ocean to the United States, reaching here in December, 1910. Not only have they had thrilling experiences, but they were able to study conditions that help interpret present situations in the world conflict. When the Nazis overran Norway, Mrs. Skard was in Stockholm doing research work in Swedish elementary schools and studying at the university on a fellowship from A. A. U. W. With her was one set of twins. The other twins were with Mr. Skard in Trondheim. Mrs. Skard's father, recent Norwegian minister of foreign affairs, Dr. Halvdan Koht, fled with the government of King Haakon into exile in London.

Madame Skard's husband reached Sweden on skis. Months passed before the other two children were smuggled out of Norway to join the family in the long journey to this country. Mr. Skard is now in the congressional library and Mrs. Skard is in demand for lecture engagements.

Mrs. Skard is one of Norway's most distinguished child psychologists, teachers, writers and lecturers. She is a graduate of Oslo university and did research at the Sorbonne and Ecole des Hautes Etudes in France, at Harvard where she was a fellow of Radcliffe. (Continued on Page Three)

County Enlists in Intensive Drive

KILLING FROST IS TOO LATE TO HURT THE MATURED CORN

DREZZLING rain all day Friday was followed by a frost that made tender vegetation look as though it had had a spell of sickness. Many leaves were nipped — foreshadowing tree skeletons and cold winter. Corn hereabouts was beyond frost danger on the contrary benefited as a rule and made easier to pick. September moisture could not have come with better regard for soaking into the ground no damaging floods — just gently falling rain. Snow predicted for the week-end fell in some sections of the middle west, but fortunately missed this area. Indian summer is still due, and if it arrives as usual, it will serve advantage in the corn gathering task. At this juncture artificial heat is necessary, and colds are common.

Winning Streak Is Snapped by Stanton

Wayne State Teachers opened the 1942 football season here Friday with a decisive victory over Western Union of LeMars, Ia., by the score of 46-0.

The game opened with Wayne kicking off to Western Union. After two attempts Western Union was forced to punt from its own 20 to Wayne's 40. Wayne then took the ball and drove to the 30-yard line of Western Union, and from that point Bud Best, Wayne's fleet-footed back, took the ball over on a left end sweep for the first score. Bobber converted for Wayne and the score was Wayne 7, Western Union 0, as the quarter ended. The second quarter found neither team able to score, although Wayne did have the ball on Western Union's 5-yard line.

The second half opened with Best scoring a second time with a run to the left of 14 yards. Bobber's attempt to convert was wide and the score was Wayne 13, Western Union 0. Wayne then kicked off

Wayne High Breaks Record Of Twenty Wins Thursday By Close Game.

After playing two full seasons and part of the third without a defeat, Wayne high football squad lost 6-0 here Thursday to Stanton, the team that had last defeated them back in the season of 1939. So Wayne high's 20 straight wins ended when Stanton high, playing inspired ball, gave their Coach Evans a win over a team that he had never defeated in his entire coaching career.

Stanton's line play was the margin of difference in the two teams. By constantly rushing the Wayne backfield, the visitors were able to stop the Wayne backs in their tracks. At no time did the Wayne team threaten to score other than on a long pass into the end zone to right-end, Strahan, who he barely missed by inches. Bob Stull, although constantly watched by the forward Stanton wall, was able to furnish the longest runs of the game, by returning both kick-offs for 40 yards each and skirting left end once in the second quarter for about 37 yards. With a little better downfield blocking Stull would have scored. Rod Lave furnished the only other thrill for the Wayne fans when he took a shovel pass for 42 yards, only to be dropped by the last Stanton man between him and the goal posts. So, in the end Wayne really had the chances to score, but lacked that essential thing, blocking, at the proper time to cash in on threats.

Stanton scored from Wayne's 3-yard line in the third quarter, after recovering a Wayne fumble on Wayne's 18-yard line. This was indeed a good break for Stanton and the visitors were able to capitalize on it and score. At no other time in the game did they come close to scoring until the last quarter, when they again recovered a Wayne fumble on Wayne's 5-yard line. After five attempts they failed by inches to push it across. The game ended with the ball on Wayne's 5-yard line and in Wayne's possession.

Mandel and Bransford were outstanding for Stanton, both on defense and offense, while Beale, Strahan and Lessman looked best for Wayne.

Friday, Wayne goes to Hartington for their third game of the season. Last year Wayne defeated Hartington 34-14.

Wayne High Breaks Record Of Twenty Wins Thursday By Close Game.

After playing two full seasons and part of the third without a defeat, Wayne high football squad lost 6-0 here Thursday to Stanton, the team that had last defeated them back in the season of 1939. So Wayne high's 20 straight wins ended when Stanton high, playing inspired ball, gave their Coach Evans a win over a team that he had never defeated in his entire coaching career.

Stanton's line play was the margin of difference in the two teams. By constantly rushing the Wayne backfield, the visitors were able to stop the Wayne backs in their tracks. At no time did the Wayne team threaten to score other than on a long pass into the end zone to right-end, Strahan, who he barely missed by inches. Bob Stull, although constantly watched by the forward Stanton wall, was able to furnish the longest runs of the game, by returning both kick-offs for 40 yards each and skirting left end once in the second quarter for about 37 yards. With a little better downfield blocking Stull would have scored. Rod Lave furnished the only other thrill for the Wayne fans when he took a shovel pass for 42 yards, only to be dropped by the last Stanton man between him and the goal posts. So, in the end Wayne really had the chances to score, but lacked that essential thing, blocking, at the proper time to cash in on threats.

Stanton scored from Wayne's 3-yard line in the third quarter, after recovering a Wayne fumble on Wayne's 18-yard line. This was indeed a good break for Stanton and the visitors were able to capitalize on it and score. At no other time in the game did they come close to scoring until the last quarter, when they again recovered a Wayne fumble on Wayne's 5-yard line. After five attempts they failed by inches to push it across. The game ended with the ball on Wayne's 5-yard line and in Wayne's possession.

Mandel and Bransford were outstanding for Stanton, both on defense and offense, while Beale, Strahan and Lessman looked best for Wayne.

"Norway Today, Our Fighting Ally," "Around the World with Two Sets of Twins," "What Happened in Norway," "War Comes to the Children," "Nazism in Conflict with Norwegian Mentality" and "Hitler's Quislings in Different Countries" are among the topics Mrs. Skard uses in her messages.

This scholarly Norwegian woman had one date open between engagements in Detroit and Logan, Utah, and she will come to Wayne at that time, making only the one stop in Nebraska. Wayne branch of A. A. U. W. is going to contribute expense to bring Mrs. Skard here. No admission will be charged but a free will offering will be taken to help defray expenses.

Wayne group is extending a special invitation to Norfolk branch for the evening of October 27. The visiting members will have dinner with the local branch before the address.

Plans for the gathering were completed last Thursday when Wayne branch met at the student union for dinner and business. Mrs. J. T. Bressler, jr., presided. Miss Ruth Paden, program chairman, announced about Mrs. Skard's visit.

Study groups were organized. The meeting last Thursday was in charge of the social committee with Mrs. R. P. Cuff chairman. Others are Mrs. R. R. Smith, Mrs. T. S. Hook, Mrs. G. W. Gesterian, Miss Louise Wendt and Miss Lettie Scott.

County Enlists in Intensive Drive

(Continued from Page One)

Mr. Gates represents implement dealers and Mr. Huse was appointed by Governor Dwight Griswold.

In Wayne it is asked that scrap be placed in front of residences and business houses October 8 when trucks will make the collection. Wire and sheet metal are sought along with heavier pieces.

Persons having pieces too heavy to be moved are asked to notify the AAA office, telephone 120, and men will be provided to take care of these.

Farmers are asked to cooperate by having their pieces together so they will be easily loaded.

George Linn telephones that all Carroll business houses are going to close Friday, October 9, from 9 a. m. to 6 p. m. so that all may help in picking up scrap.

Have Community Piles.
Community scrap piles have been established in Wayne at the W. C. Coryell lot on east 2nd street, in Winside at the Chicago lumber yard, in Carroll across from the Linn produce station, in Hoskins on the railroad property east of the depot. About 15 tons have been gathered at Carroll already and about eight tons in Wayne. After the scrap drive is concluded, the community scrap heaps will be sold to highest bidders.

People who have scrap may either sell it or donate it to the war cause.

Program to Be Planned.
The program climaxing the drive October 17 will feature music by the college band under direction of Prof. John R. Keith, Welsh singer, address by a prominent speaker and perhaps other numbers.

Much Scrap Remains.
Wayne county AAA committee-men, now completing a thorough survey of rural areas, are compiling reports which show how much scrap each farm has furnished and the amount still available there. T. P. Roberts estimates that not more than half of the total was gathered in the first collection.

Reports of nine of the 39 men making the survey show that 372,010 pounds of scrap were gathered in the first drive and 170,500 pounds are still available. These few early totals are as follows: Logan precinct, 80,500 pounds in, 31,850 pounds still on farms; Plum Creek, 58,900 in, 47,600 available; Sherman, 31,750 in, 25,100 available; Strahan, 58,400 in, 9,250 available; Leslie, 83,000 in, 15,200 available; Hunter, 4,000 in, 9,300 available; Chapin, 56,060 in, 32,200 available. A number of farms had indefinite amounts which are not included in this report.

Husband of Former Resident Appears on Hobby Program

William Wallace, husband of Ethel Ford, formerly of Wayne and now of Chenebot, R. Ia. appeared on Hobby Lobby program Tuesday evening. He is a magician of memory. As a hobby Mr. Wallace had memorized the 1100 pages of the Boston edition of Sears & Roebuck catalogue of the summer of 1942. Pictures, prices and descriptions on each page were memorized. During the radio program some 10 or 12 people in the audience asked for the name of the articles and prices on various pages of catalogues which the mail order company had furnished the audience for the program. Mr. Wallace was able to enumerate correctly articles and prices on each page. Memorization of the entire catalogue required a little less than 20 hours, according to Mr. Wallace. His average is a page a little less than a minute. He also does other feats of memory such as mental multiplication of four numbers by four numbers. Mr. Wallace appears on the public platform frequently as a memory and mental entertainer.

PROCLAMATION

Whereas, the Parent-Teacher association has dedicated its service to the care, education and protection of children and youth,

Whereas, today these needs require particular attention if the children of the nation are to be protected from the physical hazards of war,

Whereas, it is necessary to call the attention of the public to these needs;

Therefore, as Dwight Griswold, our governor, has designated the week of October 4 to 10 as the tenth annual statewide Parent-Teacher week, we have a great call to membership for our wartime enrollment.

The theme, "America's Children—Democracy's Heirs." The purpose, to urge the interest of every parent, every teacher, every citizen in this vital program in recognizing the need for better cooperation between our homes and our schools and to acquaint every person with the Parent-Teacher association's place and part in the nation's war program and to enroll them in membership in an organization alert to needs, emergencies and in step with the times.

Therefore, I anticipate a hearty cooperation of all during the week of October 4 to 10 in this P. T. A. membership campaign.

In This THE Lincoln Journal reflects the feeling of the middlewest Area in resenting suggestions that people here are complacent. As pointed out, they are keenly aware of the seriousness of the conflict in Russia, and in occupied countries; in Libya, in China and in the southwest Pacific. The Journal comments in conclusion: "It is probably more true to say that war workers, and that includes nearly all of our population, are intent on doing their jobs, making it possible for our men in the front lines to put up the best fight possible to equip our armies, to feed them and the home population, and to get the most out of our resources; labor included."

"Those who read the Sunday morning story from Stalingrad must have resolved that they want none of that here, that enemies must not invade this country, that the battle of the Atlantic and the struggles in the Pacific must be won, that territory lost must be retaken and that our enemies must be beaten at every turn. The war began badly for this country, but America is now getting into its stride. The result must be victory."

"These show some of the reasons why Nebraska goes enthusiastically into its second scrap campaign, why our people are buying bonds, why our sons are going to war and why we are training men in every state of the union, not for defense so much as for attack on our enemies when and where we find them. There is no complacency in the middlewest and little patience here with controversies involving congress and the administration that might well be compromised. We are for winning the war out here and for getting it over with as quickly as may be possible."

Peace A KIWANIS bulletin advises discussion and planning in the hope of permanent peace after the war has been won. It quotes Herbert Hoover, former president, as saying: "We were told in the last war to destroy the Kaiser and discuss peace afterward. We went to the peace conference in 1919, animated by the loftiest and most disinterested ideals, but we were totally unprepared for the gigantic actualities that had to be met at the peace table. As a result we secured neither freedom, nor prosperity, nor justice, nor peace."

The bulletin suggests: "This statement shows how important it is that we prepare now and anticipate the future."

Result Is Uncertain CONCERNING the Norris senatorial candidacy which was generally expected, the Norfolk Daily News offers this concluding comment: "Just what effect his candidacy will have can hardly be guessed until it is settled whether Ed Burke will also get into the fight as an independent and as Omaha's second candidate. In a three-way contest the question will be whether Norris will draw more heavily from Foster May than from Kenneth Wherry. If the vote is cut four ways the issue will have new complications."

Senator Geo. W. Norris, past 81 and completing 39 years in the senate and house, has accepted petitions to put his name on the November ballot to succeed himself. Foster May, radio announcer, will contend with Norris for new deal support; Kenneth Wherry is the republican nominee, and he will likely draw full party strength with personalities brushed aside and chief weight given to local economic policies. Norris' entrance into the race will increase May's anxieties, but materially decrease his chances.

We are often reminded that we are not suffering from war consequences as Britain has suffered. If would seem fortunate for Britain and other allies that we are not, because if we were, we could not supply the help in present proportions now going forth to liberate shackled peoples. The fiercer this nation is from attack, the more it can turn out to prosecute the war and hasten the day of deliverance.

We wish Senator Norris had not said in explaining his acceptance of the senatorial nomination as an independent that his failure in the campaign would in effect be a repudiation of his 40 years of public

service. This could not be a sound conclusion, and it seems unfair to voters who had supported him through the years.

The same skill and speed with which American industry turned out automobiles, are now in evidence in building tanks, bombing planes, battle ships and other war essentials. Automobile manufacturing plants, converted to making war implements, are decreasing the cost through mass production.

It is reported that schools have closed at this time in the Alliance-Scottsbluff-Kimball area to permit students to help gather potato and sugar beet crops. When the corn picking season comes on it may be advisable to grant school vacations to boys who are able to give valuable assistance in taking due care of the crop.

In addition to the war and its multiplying obligations we have with us many colds and coughs of varying degrees of severity, caused no doubt by weather extremes. If a fellow can stand the rigors of cold without sometimes being successfully attacked by shafts of sickness, he shows noteworthy endurance.

A woman with a son of 18 said she would like to see compulsory military training after the war. She thinks it would give young men straight backs, solid muscles and good poise which they now often lack. She believes it would build sturdier manhood.

The way some automobiles sound when gears are shifted, gears could be substituted for whistles, and the latter could be saved. Instead of sounding whistles, shift gears. The result would be equal noise and more careful driving.

We wish radio spieles would let up on telling us how bad off we are going to be in months to come. Let us handle immediate trials and tackle new and greater ones as they come along.

Officials in Washington could help the war effort by being sure of their facts and avoiding contradictions and confusions.

The Farm Boy Fighter

It is not pleasant to see a boy go off to war. This is particularly true in the case of the farm boy, whose services are so badly needed at home.

But it is gratifying to realize that, wherever he goes, the lad from the country will perform with the best. For he possesses every requisite of a good soldier.

First, his health is well above average and, needless to add, he is well conditioned for long hours and hard work.

Years of experience in a hazardous business have developed both his courage and his initiative. Moreover, his daily life has impressed upon him the value of cooperation.

He has acquired a mechanical skill which is of great importance to the soldier of today. A boy who has mastered the workings of tractors, combines, balers and corn pickers will have little trouble with tanks, range-finders or anti-aircraft guns. He knows how to use his hands.

Finally, there is the matter of morale. In the fight to preserve our rights and our land, who has a stronger incentive than the boy who has always lived closest to the land?

It seems more than likely that the farm boy, long toughened and trained in the battle for existence, will distinguish himself on any field.

Scrap Harvest

The National Scrap Harvest, which is the official name of the War Production Board's drive for farm scrap, is now in full swing from coast to coast. The quota is "all there is on every square foot of every farm in the country."

You may ask—just what is back of all this furor about scrap? Why all the rush? Won't it be just as useful next year as it is now?

The answer is that industry is forging the largest and most powerful fighting force Uncle Sam has ever had. This force is to be the finest and best equipped on the face of the globe... and it must be equipped NOW. To do this an abundance of all the necessary materials used in the production of war weapons is necessary.

Rubber and metal are the two most essential materials needed, since our supply of rubber has been almost entirely cut off and steel is made of, roughly, 50 per cent virgin iron ore and 50 per cent scrap.

It's going to take a tremendous amount of scrap iron to keep those hungry furnaces going this winter—cold months when many roads will be blocked and scrap more difficult to collect. So gather it NOW! If you see huge piles of scrap in junk dealers' yards don't jump to the conclusion that there is plenty. That scrap is moving all the time... flowing in a steady stream to the mills where it is needed.

Remember, those charged with the heavy responsibility of seeing that our armed forces are adequately equipped with the sinews of war are banking on the farmers of America coming through with a bumper scrap crop.

FARMERS.

Raymond Clapper, columnist, blames congressmen for listening to the farm bloc in conflict with a presidential demand. Clapper does not complain of delay in fixing ceiling over union wages, though, as a matter of fact, wages scaled under into costs of farm production. Due to the draft and to high wages paid in war plants, farm labor has become alarmingly scarce. Food is rated on a par with munitions as a war essential, and its production in ample quantities is up to the farmers. It is only reasonable that limitations should be placed on wages simultaneously with those placed on agriculture. Farmers are not clamoring for unreasonable advantages. They justly want labor to get down from its high perch and accept returns consistent with prevailing costs. Farmers are doing a wonderfully satisfactory job in food production. And right now draft boards should be authorized to defer farm rates until the matured corn which is necessary in the war, is picked and housed.

Announce Wedding Planned This Fall

Miss Iola Mae Hubbard, daughter of Mr. and Mrs. T. J. Hubbard of Newport, Wash., and Harold Preston, son of Mr. and Mrs. H. A. Preston of Wayne, have announced their engagement. They plan to be married in late October or early November in Seattle. Miss Hubbard is employed at Portland in the Bonneville power administration under the department of interior. Mr. Preston is a petty officer in the 13th naval district offices of the U. S. coast guard in the pay and supply section. He is in Seattle.

Things Move Fast At Airplane Plants Located in Kansas

"Everything moves so fast here that one cannot keep up," writes Miss and Mrs. Byron Ruth of Wichita, Kan., formerly of Wayne, September 21. "The city has a drive on to build new homes, additions of what have you, for 15,000 people who are either here or on their way to the airplane factories. The government has brought in between 600 and 1,000 trailers which rent for \$6 to \$8 per week, depending on the size. Several thousand demountable houses are built and being built as fast as possible. "Transportation is a very serious problem. New buses have been put into operation but they can't get enough of them to do the job. One taxi cab company has gone out of business on account of tires and the others run only part time. "Women are rapidly filling the factories to replace the men who leave for branches of service. So many of them do not have cars that transportation is again a problem. I haul five and six passengers to work every day," states Mr. Ruth. "I have a 3-A classification in the draft. I want to see about enlisting but I cannot because of working in a defense plant, so I will have to wait until they call me."

"We just received a card notifying us that our son, Sgt. Ralph Van Allen, has landed over seas, but we do not know where. His address is: Sgt. Ralph Van Allen 17019456, 35th Bomb Squadron, 308th Bomb Group, APO 8400, care of postmaster, New York City.

"We had a light frost this morning but not enough to nip anything. The corn around here and to the south is very good. It looks like 60 or 70 bushels to the acre. Not much fruit here as so many of the orchards were killed in November of 1940. New ones have been started, however. "In closing we wish to send greetings to everyone we know," conclude Mr. and Mrs. Ruth.

Suffers Broken Ribs. Jimmie Strahan suffered broken ribs last Thursday in the Stanton-Wayne football game.

CONGRESSMEN.

Paul Mallon, columnist, quotes Harry Hopkins of the presidential inner circle, as saying in a speech that the test in congressional elections this year should not be whether candidates are democrats or republicans, but whether they "want to win the war." It is not conceivable that anyone qualified in such manner as to be prepared to be a member of congress could be anything but eager to win the war. An early and victorious conclusion of the hard conflict transcends in importance every other consideration. But waving aside the Hopkins suggestion as hitting nowhere, differences between candidates may be rationally determined on a basis of statesmanship believed best qualified to lead in the war effort and in the reconstruction period to follow. If voters think new dealers have proved the ablest and soundest leaders in the present crisis, they should support them in the elections. If on the other hand, they have more confidence in the judgment of anti-new dealers, believing they would blunder less and reach desired objectives sooner with less sacrifice, they should and doubtless will vote for them. It is extremely doubtful if Hopkins has any ground for his suspicion.

Inspirational Talk Is Given for Club

Women Will Send Delegates To State War Conference Planned in Lincoln.

"What Have You in Your Hand?" This was the subject of the message given to Wayne Women's club Friday afternoon at the club rooms for the first session of the group this fall. In this inspirational talk Mrs. Lutgen pointed out how each can render most valuable service by doing well the thing at hand.

Washington, D. C., September 22, 1942

The word "czar" seems to be popular among some newspaper writers including columnists in Washington. "Czars" as rulers of nations have become as extinct as the dodo, and recollections of them do not linger with favor among those who remember their despotism, and their disregard for the rights of humanity. Why should such a word or such a name be used in connection with any official position in our republic at such a time? No matter what power they may exercise, they need not be despotic, as such a term would imply.

Secretary Ickes became "oil coordinator" and immediately he was named the "oil czar." Eastman became director of transportation, and at once he was referred to as "transportation czar." Henderson heads the new OPA and is referred to as the "price czar." Donald Nelson is mentioned as "czar of war production," and now that Mr. Jeffers, president of the Union Pacific railroad, is named as director of rubber conservation following the report of the Baruch committee, many newspapers flared the announcement in big headlines that he is to be the "rubber czar." These are only a few of the so-called "czars" who have been selected to aid and direct the war production effort.

Conflict in press releases from the numerous federal agencies again brings statements from President Roosevelt and Donald Nelson, to the effect that the progress of war production does not warrant the optimism occasioned by them. The president declares that present production is not half sufficient, that it must be rapidly increased. Donald Nelson warns that much more must be done. Then come the explanations and alibis of lesser officials which further confuse the public mind and seemingly also the minds of those who have been drafted to official positions on the basis of experience and efficiency. The facts are that the gain in production has been remarkable. It even exceeds the demands made a year ago, and those of a few months ago. But as the situation abroad grows more serious, demands from Britain, Russia, China and Australia increase along with greater needs for ocean shipping to transport materials. With ever growing demands, even the marvelous production of the present is, as the president says, insufficient.

Donald Nelson demands of the war and navy departments estimates of their need for materials so that allocations can be made accordingly. The money is available for all purposes and to meet all such estimates. There are some industries which have materials in plenty, while others are obliged to curtail operations for lack of them. Mr. Nelson states that there is an ample steel supply for present purposes were its distribution properly made. Mr. Kaiser wants to supplement ship building with cargo planes. As yet his proposal awaits sufficient materials. Other shipbuilders are producing enormous

FIGURES ON NEEDS FOR HOGGING CORN

The hogging of more corn is one way to make up for shortage of farm labor. Extension Agent Howard Gillispie says this week in calculating the ground to be allotted the pigs, the first thing to do is to make a reasonable estimate of the yield per acre. Then, the following figures can be used as a guide: One bushel of corn will feed 10 pigs weighing 75 to 100 pound for one day, or eight pigs weighing 100-150 pounds or five or six pigs weighing 150-200 pounds. If a corn field will yield 45 bushels to the acre, one acre would feed 50 pigs weighing 100 pounds for nine days.

Christian Science Services

"Unreality" is the subject of the lesson-sermon which will be read in Churches of Christ, Scientist, throughout the world, on Sunday, October 4.
 The Golden Text is: "He that soweth to his flesh shall of the flesh reap corruption, but he that soweth to the spirit shall of the Spirit reap life everlasting." (Galatians 6:8.)
 Among the citations which comprise the lesson-sermon is the following from the Bible: "I made me great works; I planted trees in them of all kind of fruits;... I gathered me also silver and gold, and the peculiar treasure of kings, and of the provinces;... And whatsoever mine eyes desired I kept not from them; I withheld not my heart from any gift;... Then I looked on all my works, and on the labour that I had laboured on, and, behold, all was vanity and vexation of spirit, and there was no profit under the sun;... Ecclesiastes 2:4, 5, 8, 10, 11."
 The lesson-sermon also includes the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures," by Mary Baker Eddy: "The fading form of matter, the mortal body and material earth, are the fleeting concepts of the human mind. They have their day before the permanent facts and their perfection in Spirit appear. The crude creations of mortal thought must finally give place to the glorious forms which we sometimes behold in the career of divine Mind, when the material picture is spiritual and eternal. Mortals must look beyond the fading forms, if they would gain the true sense of things." p. 252.

With hybrid corn, the important thing is NOT where the seed was grown, but how it performs where you plant it. The best way to compare varieties and decide which one suits you the best is to see them growing side by side in a soil and climate similar to yours. That's why DeKalb has more than 3300 proving grounds or demonstration fields, scattered throughout the corn-growing areas.

Another reason why you should visit your DeKalb proving ground is to keep acquainted with the newest varieties that DeKalb is continually perfecting. Be sure to visit the DeKalb proving ground in your neighborhood. Your DeKalb dealer will be glad to show you the varieties that you are interested in and what they will do for you on YOUR FARM.

New Plan Permits Coast Guard Entry

A new program permitting the immediate enlistment of all qualified applicants has been announced by the United States coast guard recruiting office in Omaha.

The men will be sent home after being sworn in, and will remain on inactive duty until called for assignment to a training station.

This plan amounts to an unlimited quota of enlistments, since all the men who qualify will be accepted.

The recruiting office suggests that men living some distance from Omaha write for application blanks. The applicants will be called in for enlistment as soon as their character references are checked, then returned to their homes to await their call for active duty.

The office urges that all applicants keep their jobs, as the waiting period after enlistment may be as long as several weeks, during which no salary is paid by the coast guard.

Neither is any transportation furnished to the recruiting station or back home. This expense must be born by the applicant. The coast guard starts providing transportation when a new recruit leaves the recruiting station for active duty.

However, after being sworn in, a man will be a full-fledged member of the coast guard reserve, and is no longer subject to call by selective service. The recruiting station notifies the local selective service board of a new recruit the day he is sworn in. Being registered for the draft is no bar to enlistment in the coast guard, the recruiting office pointed out.

Men between the ages of 17 and 55 are eligible for enlistment in the coast guard. The same salary and allowances for dependents are paid as in the other three military services.

The condition of affairs here in Peru has changed so much since I last wrote a general letter that it seems time to contact up North America way again.

After seeing various interesting letters from members of the armed forces mailed at all points of the world it seems only natural to add a note from those fighting in the 'mental battles'.

No doubt we all have the same general aim in mind—that is to help build a better world.

The last year has been a decisive period for world politics in the minds of many ordinary citizens.

Fortunately the majority of those who were undecided between democratic principles and totalitarian methods have come to grasp at something firm.

Today, Peru as a nation of common people, definitely backs the allies. Surely there is still the axis gang with their claims and with their propaganda, open and secret.

Some of the governmental officials would like to see the axis win the war but every day they are losing more and more influence.

The Peruvian of almost any social class can see how some of his hopes and faiths and loves are tied up in this world struggle.

Hemispheric defense has taken on a realistic significance. The Pan American congress, which last convened in Rio, January 15, 1942, found Peru as a nation ready to assist the United States and other republics in preserving the values they treasured. Peru in return has received some financial and industrial gains by way of North American money to build up the rubber industry and funds to store the cotton surplus that Germany and Japan formerly purchased.

Who's that squeaking on the floor? It may be noisy, but it's fashionable. So says Mrs. Esther Tufty, journalist just back in New York City from England. "The war has made squeaky shoes fashionable in London. A poor grade of leather used is responsible—but it's patriotic," she said.

Killing Freeze Nips Vegetation

Odgen Short Line in Early Years Meets Problem in Crossing Missouri.

Early Days from the Wayne Herald for September 30, 1926: Frost descended this week and killed tender vines. It did not come as soon as some years but it hit harder than usual for first appearance and vegetation received a staggering blow. But maturing corn is generally benefited by the freeze as it stops growth and tends to harden kernels. The corn will exceed expectations. The first frost is the first touch of winter. Soon will appear schools of box-closter bugs, the only animated things that have sense enough to light but not enough to get up and move on. These bugs will carry until struck by a sharp blast from the north.

\$ E. Auker, a corn grower with years of experience, says now is the time to select good seed corn. He picks seed corn carefully at this time and dries it on racks for the following year.

A basement has been finished and kitchen added at St. Paul Lutheran church.

Nels Jorgensen of Winside, and Miss Anna Olsen of Carroll, were married September 30, 1926, and plan to live in Milwaukee.

Mr. and Mrs. Chas. Mitchell of Allen, celebrated their 55th wedding anniversary in 1926.

Maxine, one of the twins of Mr. and Mrs. Lenis Kenay of Shales, died September 26, 1926.

A son was born to Mr. and Mrs. Ben Wilson of Hoskins, September 24, 1926.

Miss Laura Puls and Irvin Ulrich of Hoskins, were married September 26, 1926.

Miss Arlowyn Slater and Glen Wingett of Carroll, were married September 13, 1926.

A son was born September 13, 1926, to Mr. and Mrs. George Hansen of Safford, Ariz. Mr. Hansen formerly headed Winside school.

Early Events in Wayne

From Wayne Herald for October 25, 1904: Frank McDonald built a new barn on his farm. Hay Payne moved to Sioux City

Corn husking is starting... Carl Ludwig Hanson died at Wakefield October 14, 1906, at the age of 86... T. E. Evans and son bought the Grovjohn & Klebe implement shop at Carroll... Otto Martin of Winside, and Miss Winifred Owen of Carroll, were married October 22, 1906... Nels Johnson of Carroll, had a piece of corn husk removed from one of his eyes the husk having been in these several months.

Hoskins residents who have petitioned for naturalization are: Christ Eckmann, Magnus Eckmann, Hans Gottsch, Otto Krueger, Henry Langbehn, Conrad Kniss, Karl Wetzlich and William Schrieber... Miller, Wilson Rickabaugh, J. R. Rundell, Sam Davies, Bert Surber, Fred Bernshoff, C. B. Thompson, A. Jones, Charles Shulteis and Ellis Giffon... Cornerstone of the new recreation building at the normal was laid October 19, 1906, by the Grand Lodge of Masons, Dr. E. C. Egan, Baptist pastor here, delivered the sermon. A. A. Wiet spoke of the good done by the school.

Dixon County Happenings.

From Ponca Journal for October 31, 1889: The Sioux City and Odgen Short Line remains blocked at Covington and unable to cross the bridge. In the meantime winter is coming on and weather will soon close the project until spring... Alas the butter boom has busted. The 20 kegs of bleomargarine shipped to Newcastle were wrongly shipped. They should have gone to Newcastle, Wyo. The oleo was to be used to grease packages for men who are building the railroad in the west.

Comes by Clipper From Egypt to See Folks at Randolph

Sgt. Albert Broer of Randolph, was in Egypt, according to all the news which his parents had. But early last Thursday morning he arrived home from the war zone to surprise his parents. Wakened by a knock at their door, the Broers could scarcely believe their son was really home. While in Egypt the youth distinguished himself by commanding an American tank crew which knocked out three German tanks in a five-day battle that helped stop Gen. Rommel's forces.

Sgt. Broer explained his surprise visit. After the battle, which lasted from August 30 to September 4, he flew from Egypt to the United States via clipper plane, along with 15 American tank crews which had been sent to Egypt four months ago to test General Grant tanks in actual battle. Given a 10-day furlough, Bro-

Tenth Anniversary

Ten years ago, on October 1st, 1932, the firm of **SELLON & PETERSON**, Livestock Commission Merchants at the Sioux City Stock Yards, opened its doors for business. The policy of this firm was then, as now, based on **PERSONAL SERVICE**.

By this we mean—a service that is **TRULY PERSONAL**. Each member of this firm is actively engaged as a salesman, and well knows that **YOUR** satisfaction means his own success. This fact we knew ten years ago, and it has been well proven since.

Hence—down through the years this firm has steadily progressed and advanced. Our volume of business has greatly increased and our personnel added to—and we are now in a better position than ever before to give you the very best.

For our ten successful years of business we wish to thank the good people of this vicinity—to all our friends both old and new who have availed themselves of our **PERSONAL SERVICE**; and to you who have not—we invite you to try us with your next consignment, and we pledge ourselves to give you our very best in **GOOD SALES, GOOD FILLS AND PROMPT REMITTANCES**. Thank you.

Appreciation

To each one of you whom I have been privileged to serve, I wish to express my sincere appreciation.

I am going into the armed forces, so I will discontinue my plumbing and heating business "for the duration."

I'll look forward to serving you again after the war is successfully concluded.
