Need Heavy Scrap For War Industry

Farmers Are Asked to Make Intensive Campaign to Salvage Materials.

The need for heavy scrap to mix with the enormous supply of light scrap collected this fall is urgent according to word from the War Production board in Washington. Farmers are asked to devote some of their spare time during quiet winter months to gathering such materials at their farms.

American industry and farms constitute the best source of supply for these heavy materials. Because of the demand for greater farm production and due to the shortage of labor on farms, it is believed that much heavy scrap remains on farms.

"Ice, snow, rain and mud will not stop our fighting forces, and we must not let the weather halt our efforts to harvest scrap which our men must have to win the war," states Donald Nelson, WPB chairman, in urging the fullest cooperation in the emergency.

Civilians Can Aid In War Bond Drive

Goal for December Largest Ever Set by Nation in Any Circumstance.

The nine-billion-dollar war financing program, which is the goal set for December by the national treasury department, furnishes an opportunity for home folks to help in the fight to preserve democracy. Money is an essential part of war strategy, and everyone who lends funds to his government is doing something to gain victory.

The amount asked is the largest sum ever sought, either in peace or war, here or in any other country.

Purchase of war bonds by all helps prevent inflation. Each is asked to invest to the maximum amount possible in government securities which have a continuing value.

Graduate of Wayne Gets Appointment

Leonard L. Larson, Wayne graduate, has been appointed assistant state superintendent by Wayne Reed, newly elected state school head. Mr. Larson received his A. B. degree at Wayne in 1929 and afterward earned his M. A. in school administration at the University of Nebraska.

Reed states that he will completely reorganize the state department. He will have two major heads. The director of registration of nurses and the director of certification will be under Larson's supervision. He will also have charge of business administration. Larson's other major responsibility will be coordinating wartime activities carried on through schools.

The other major head in the department will be coordinator of supervision and curriculum research, whose appointment will be announced soon. He will supervise rural, elementary, secondary and adult education.

Have New Campaign To Sell War Bonds

The new rural campaign for sale of war bonds and stamps is well under way in Dixon county. Rev. Kent Clifton of Allen, chairman for the county in this drive, has met many school boards to explain the plan. Each school director is asked to formulate a list of all farmers in his district. The plan is then presented either at meetings or by individual contacts.

Speaks to Group on Church Symbols

Mrs. Victor West Explains Importance of These in Phases of Living.

Life is lived and expressed in symbols, stated Mrs. Victor West in speaking to Wayne branch of A. A. U. W. Thursday evening on "Church Symbolism." The fish is one of the earliest church symbols, first used by the persecuted Christians. This was chosen because the first letters of the Greek word for fish mean "Jesus Christ, Son of God, Saviour." So to these early people the fish meant "we love our Lord and Saviour."

The cross was the first Roman form of execution. The death of Jesus on the cross brought this symbol into sacred meaning. Now the cross is one of the most beautiful symbols and is used in the finest architecture. Of the 400 forms of the cross, 50 are used in the Christian church. The cross denotes the spread of the gospel to the four corners of the world. The cross also means faith, the anchor hope and the heart charity. The three are often together.

Mrs. West mentioned some of the symbols found in the church. Two spires are symbolic of God and man. A pointed arch is for inspiration and a rounded arch for hospitality. A center aisle leading to the altar means that nothing should stand in the way to God. The baptismal font at the back of the church is symbolic that the baptized child is starting his way upward. The elevated pulpit denotes the realm of spiritual.

Candles are symbolic of the teaching that Christ is the light of the world. Two candles refer to God and man, three to the holy trinity, five to the wounds of Christ and seven to the Lord's perfect life.

The cup denotes the sacrament, the sun, the son of righteousness, dove, the descending of the holy spirit; crown, sovereignty. The hand of God is pictured with the thumb and two fingers extended, referring to the trinity. The ship is symbolic of the soul on its voyage to the heavenly home.

Numbers, stars, animals, birds, colors and flowers all have their symbolic meaning, Mrs. West explained. In closing Mrs. West referred to three of the most precious symbols in the lives of Americans. The Bible, the symbol of God, religion and the church; the cross, Christ's suffering and resurrection; and the American flag, the symbol of free people.

Lesson Is Given For Project Group

She demonstrated the making of cranberry muffins, nut bread and biscuits. Reading leaders were in for special help and Miss Stanek reviewed for them "The Drum Goes Dead." A January meeting will probably be held on fixing home equipment.

Laurel Soldier Killed in Europe

Pvt. Eldon Larson 'Is Lost In November, According To Word Received.

Pvt. Eldon Larson was killed in action over western Europe November 8, according to word received Friday by his parents, Mr. and Mrs. C. G. Larson of Laurel, from the war department. The 26-year-old soldier was a gunner in the armored infantry.

Eldon Larson was born at Wakefield but spent most of his life at Laurel. He was graduated from Laurel school.

Born his parents, Pvt. Larson leaves three sisters and two brothers. A half brother, Harold Olson, is in the armed forces.

The young man went to California a year ago to be employed. He entered the service in June.

The parents were informed that they could claim the body of their son after the war.

Pvt. Larson is the first Cedar county boy killed in action although another accidentally lost his life in training.

Family Separated By War Year Ago Is Now Reunited

Mr. and Mrs. Elton Fee and little daughter, Judith Bell, former Laurel residents who were separated at the time of the Pearl Harbor attack, have been reunited, according to word received by kinfolk through the Red Cross.

Mr. and Mrs. Fee were on their way from the island of Cebu, Mr. Fee on business for an oil company, a year ago and had left their little daughter with a nurse when the war struck. The child was placed in a hideout. Mr. and Mrs. Fee were rescued from the chilly waters and were interned at Manila at St. Tomas university.

After months of effort, this message came: "Judith Bell Fee arrived August 22. All well. No cause for worry." Mrs. Fee is a daughter of the W. F. Grahams, former Laurel residents.

Transportation in Long Beach is a serious problem, states Miss Lyons. Thousands of people are coming from work, defense industry and school now have to take buses. The city has ordered a fleet of 40 buses from New York but the order has been delayed by demands from defense plants.

Statistics show that the average defense worker travels 26 miles. Many go as far as 50 and 75 miles. To relieve the congestion, it has become a practice to "stagger" dismissal from stores, schools and defense plants. Schedules are arranged so that the number released at one time is smaller.

On many intersections in Long Beach one sees in bold print this sign, "Military restricted light zone, dim out headlights." Housekeepers are required to see that every shade is closely drawn so that lights go on. All street lights are dimmed on the south side so no reflections show on the ocean. This makes one walk very gingerly and many accidents result. The result is that fewer people leave home after dark, writes Miss Lyons.

First was reported two mornings this month. The thermometer reached 50.

Miss Lyons is staying with Dr. Grace Homman and caring for a lady 90 years old in a nearby home. Dr. Homman took Miss Lyons to hear the internationally known violinist, Yehudi Menuhin. The artist rendered some of his selections which are on recordings in England and America.

Miss Lyons recently visited Miss Loretta Cullen, formerly of Winside. With Miss Cullen are her sister, Mrs. Hanna, and daughter, also Mrs. Russell Cullen and baby. Dr. Russell Cullen is in service in the Pacific. Dr. Bernard Cullen and family live in Long Beach also. Dr. Bernard is on the staff of St. Mary's hospital.

An immense navy hospital is under construction in east Long Beach.

In closing Miss Lyons states that a profusion of poinsettias and tree-dahlias are beautiful now.

Talks on England Given at Meeting

Mrs. W. F. Dierking and Miss Mildred Ronspies Speak For Woman's Club.

Wayne Woman's club, meeting Friday at the club rooms, heard messages from Mrs. W. F. Dierking and Miss Mildred Ronspies, both about England.

Mrs. Dierking explained the present political situation in England. Her general election has been held there since 1935, according to the speaker. This is due to the fact that people have been living in one case. It is also due to the fact that halls have been destroyed or are used for other purposes so that crowds cannot gather to discuss issues. England has elections only when public opinion forces these. The conservatives are now in power, and any vacancy in parliament is filled by one of the same party.

Following the African campaign, public sentiment in England divided regarding the attitude toward Darlan. Mrs. Dierking explained the political pamphlets are issued by the millions, and changes are being felt. A commonwealth movement, opposed to the parliament elected in 1935, is increasing in strength. An election is likely to result.

Mrs. Ronspies of Pinedale, college student, read "White Cliffs of Dover," a stirring selection following Mrs. Dierking's message.

Mrs. E. W. Huse presided and introduced the two speakers. She expressed the regret of all in Mrs. Dierking's moving to Mason City this week.

Mrs. Clarence McGinn led the club in singing "America" and in the flag salute. Mrs. T. T. Jones was at the piano.

Mrs. W. C. Corryell, house chairman, reported that the committee had decided that no furniture was to be taken from the club room. Card tables will be rented for 5 cents each in the room of in the auditorium.

The club sent a note to Mrs. E. J. Huhtermer whose son is reported missing in the Pacific.

Mrs. R. W. Casper, treasurer, reported that the club cleared \$54.27 from the Victoria exchange, and that \$137 worth of war stamps were exchanged in this.

The club gave \$2 each to Father Flanagan's home, Nebraska Home for Crippled Children and Child Saving Institute.

Refreshments were served by Mrs. McGinn, Miss Mary Mason, Mrs. L. J. Kilian, Mrs. Clarence Wright, Mrs. L. W. Sand and Mrs. Earl Merchant.

Because of Christmas, the club meets this Friday. Mrs. McGinn will lead Christmas carols and Mrs. W. S. Bressler will read the scriptures. Mrs. R. R. Smith will tell a Christmas story. Mrs. J. G. Miller is serving chairman.

Farmers Will Get Essential Supplies

Farmers will be given enough gasoline to operate farm equipment and will get such other assistance as necessary to meet the 1943 food production goals, the government assures. Wm. Jeffers, head of the rubber conservation program, directed all rationing authorities to see that all farmers and other producers get all the gasoline they need for their trucks. Similarly, Donald Nelson, chairman of the war production board, gave assurance to farmers that they would have "all possible assistance to meet the 1943 goals."

Don Meyer's Beef Tops Omaha Mart

Hereford Brings All-Time High When Sold Friday To Manufacturer.

"Skinny" Don Meyer's fine Hereford which took 4-H grand championship at the state fair in Lincoln this fall, has chalked up another record. The 1,214-pound beef was bought Friday by John Nixon, Omaha manufacturer, for \$24 per hundredweight, an all-time high fat steer price for the Omaha open market.

"Skinny" was auctioned after the state fair and was bought by the Lincoln hotel for 47 cents a pound. But it was found that the animal could not be slaughtered due to OPA restrictions on custom butchering.

The calf was then presented to the state agricultural college with the understanding that proceeds from his sale go to the school's student fund. Since the ban on custom butchering has been lifted, agriculture students who find the going difficult will have approximately \$290 added to the loan fund.

Morningside Wins Over Wayne State

Free Throw in Last Seconds Gives Sioux City Team Game Thursday.

Wayne players lost to Morningside Sioux City in a closely contested game last Thursday evening by the score of 40-39. During the game neither team were able to lead the other by more than five points at any time.

Wayne led at the intermission 23-19, but Morningside wiped out the deficit early in the second half. The game proceeded on an even keel until the very last moments, when, with 45 seconds to go, Rhoades of Morningside, was awarded a gift shot on which he made good, thereby breaking the tie and giving Morningside the win by a one-point margin.

Fitch and Best, both veterans on the Wayne squad, were high with nine points each. This was the first game under the tutelage of Coach Raymond Schreiner, who for the present will handle the Wayne States until Coach Z. H. Madras's successor can be obtained. Schreiner was well pleased with the showing of the Teachers. He assures the public that if the team can be kept intact for the season that it will be well up in the conference race.

Library News

Here is a partial wide to all. A wealth beyond the mind. A friendly treasury of books. Democracy of print.

And while these volumes wait our call, Stand ready on our shelves. We have for ignorance no plea. No blame, but for ourselves.

We have five, good magazine articles to recommend to you this week. The first one on our list is from Harper's for December. It is called "Is the Novel Done For" and is written by Wallace Stegner. This is the answer to all of those people who wonder what has happened to the novel writers of our day. He explains that this is an age of fact not ideas and as long as the world is in crisis facts look more important than fiction, and facts more important than ideas.

We live in an age of things, not of ideas, and journalism, not fiction, is the true literature of fact. This does not mean that we will not have interesting reading; for non-fiction is easier to read than it used to be. Another interesting article is found in the U. S. News for December 4 and is called "The Nation's Birth Rate Has a War-time Boom." "Britain's Burning Question," by Mollie Downes, in the Saturday Evening Post for December 7 is another good one as is "So You Think Your Home is Cold," in the January American. Joseph C. Grew is still getting publicity on his report from Tokyo and an interesting account of this is to be found in Life for December 7.

Our book of the week is "What About Germany," by Louis Lochner.

Farm Home Lost In Thursday Fire

Donald Podoll Is in Wayne When Blaze Destroys House Near Winside.

Fire which is thought to have started from an overheated furnace destroyed the Donald Podoll farm home four miles west and one north of Winside last Thursday afternoon with a loss estimated at \$4,000. The two-story structure belonging to the Herman Podoll estate, was insured. Most of the furnishings were saved.

The fire marked the second piece of trouble within a week for Mr. Podoll who suffered a fractured leg December 2 when his horse fell with him.

Mr. and Mrs. Podoll and little son were in Wayne and did not know of their loss until the Wayne fire department returned from the call.

Mr. Podoll had tended the furnace shortly before his family came to Wayne. The blaze originated in the basement, according to a brother who was at the place and who discovered the fire, so it is thought the furnace became overheated.

Winside firemen responded and thought they had the blaze under control. But after about 30 minutes the fire broke out again and Wayne firemen were called. The house was so nearly gone then that attention was devoted to saving other buildings. Winside firemen had removed furnishings when they saw that the blaze was increasing in intensity.

Mr. Podoll is a son of Mrs. Joy Podoll who had held a farm sale at her place two miles west of Winside Wednesday last week preparatory to moving to Lincoln.

Miss Hazel Brove directed the activities staged by the Wayne Players and under the sponsorship of the Wayne Chapter of Commerce. Miss Ruth Ross directed the play, "Goodnight Please," presented by the Wayne Players.

The evening entertainment closed with the singing of "The Star Spangled Banner" by all present.

Moist, Cool Rooms Best for Vegetables

Cool temperature and moisture are necessary for keeping vegetables in best shape during winter, according to Ernest Hopper of the extension service. The coolness delays the ripening process and the moisture prevents the vegetables from drying and wilting. Ordinarily a basement room is cool enough. Moisture can be maintained by sprinkling the floor with water or by keeping shallow pans of water in the room. Some prefer keeping carrots in a large crock but Hopper advises keeping them in moist sand in a box.

Rural School News

Educational Funds Report Is Compiled

Nebraska board of educational lands and funds has a total of 1,636,045.33 acres the income of which is divided among schools of the state every six months. The total value of the land is placed at \$6,527,512.19. The average value per acre is set at \$3.99. None of the state school land is in Wayne county. Thurston county also has none. In Dixon county 93,382 acres valued at \$16,243 or an average of \$17.39 belong to this school fund. Cedar county has 1,966.91 acres valued at \$45,619 or an average of \$23.19. In Pierce county are 6,080 acres valued at \$58,710 or an average of \$9.66. Dakota county has 94,515 acres of this land, valued at \$18,058, an average of \$19.11. In Cumming county the 40 acres have value of \$1,600, an average of \$40. Stanton county's 400 acres, valued at \$1,470, have an average of \$11.18.

The permanent school fund was instituted in 1867 when sections 16 and 36 in each township were granted to the state for support of education. In each county the lands were to be appraised by three persons and offered for sale to the public. No lands were to be sold for less than \$5 per acre. This gave the school fund both money and land.

The new constitution of the state, adopted in 1920, provided that no lands owned or thereafter acquired for educational purposes should be sold except under special conditions.

In 1936 the state voters abolished the office of commissioner of public lands and buildings. Then in 1940 the constitution was amended to name the state superintendent a member of the board of educational lands and funds. Since then the board, composed of the governor, secretary of state, state treasurer, attorney general and state superintendent, has managed the school lands and invested the school funds derived from the sale or rental of lands. Total assets now amount to \$21,000,000.
