

Scarcity Reported Acute Inadvisable Government Agencies—Local Political Organizations—Disturbing Word from Washington—Dealer Complains Letters to Wayne County Boys—Car Thefts in Omaha—Reflecting Reader Interest.

F. B. Decker, former Wayne county superintendent, and now of the state superintendent's office in Lincoln, was looking after official business here last week-end, and in commenting on coming teacher problems, he expressed the belief that greater scarcity than ever will be experienced. Not only are different branches of government service absorbing teachers, but eastern school heads who are suffering agonizing scarcity, have been coming into the state and persuading recruits on the strength of increased pay.

As Mr. Decker points out, more elderly men and women whose teaching experience was gained 25 or more years ago, and necessarily reinstated to serve in the emergency. Also, girls whose education is abbreviated and teaching experience is nil, are employed. Therefore, Nebraska schools find themselves in a disquieting plight. However, we suspect that notwithstanding handicaps, the middle west will, in contrast with the east, continue to reflect superior intelligence.

So Called Social Security. It is doubtful if many employers or employees are in the least interested in maintaining the unemployment insurance or old age benefit setup. Payments are made to swell huge central funds that are not likely to yield one picayune of benefit to the average worker the country over. It is rare indeed that one finds himself so far out of commission that he would feel disposed to turn to either government source for support which would be meagre at best. It would seem then in authority might well inquire around among constituents and ascertain whether they sanction these two forms of so called social security, or whether they would have them promptly junked as a relief to individual resourcefulness.

Maintain Two Parties. The fact that municipal and school affairs have been handled so satisfactorily that no competition developed between the two local parties this year does not mean that either organization should be dissolved, leaving no machinery for post-convention dissent. It is well to keep both parties alive and afloat for use when needs arise.

Butter Stiefs. Congressman Karl Stefan's report that 200,000 pounds of butter in the war food administration's stockpile of 130,000,000 pounds have spoiled disturbs wayfarers who are conscientiously trying to squeeze down consumption of essentials. Wastage is inevitable in handling large quantities of perishables, but it would seem emphasis should be more equally divided between looking out for supplies on hand and urging consumers to skimp and save.

Delaying Shipments. A local business man complains that freight is often held disappointingly long at intermediate junction points waiting for enlarged shipments before completing transit to destinations. Meeting war demands causes many unavoidable delays, but anything that can be reasonably done to avoid interrupting the flow of goods for civilian use, would appear eminently proper.

To Boys in Armed Forces. A committee of the local War Dads has issued letters to Wayne county boys in the armed forces, expressive of deepest interest and inviting answers to questions concerning post-war ambitions. Results may reveal the fighting boys' state of mind and aid cooperation in solving his problems. A survey of employing possibilities in Wayne county and of contemplated improvements is proposed.

Crimine Increase. Juvenile crime has greatly increased in Omaha, according to a recent report. The record shows that car thefts mounted 300 per cent in that city during January and February as compared with those of the same period last year, and all of the offenders were boys of 17 or under. The shocking facts justify utmost vigilance and the exercise of preventive influence by individuals and groups.

Used a Richer Word. Incorrectly using "Dear Alben" instead of correctly "Dear Alben," referring to Senator Barkley, in an editorial last week, brought enough reminders to convince us of reader interest. But we think "Alben" is more richly resonant than "Alben," especially when used to express profound endorsement.

Condition Is Same. Oscar Peterson, who is in a Sioux City hospital recovering from a recent buzz saw accident, is reported as being about the same.

Reported Improving. Miss Tillie Saxton, home demonstration agent for Cedar, Dixon, Knox and Wayne counties, is reported improving slowly at a hospital in Lincoln.

NUMBER FORTY-ONE

AMERICAN BANKERS IN OPPOSITION TO PUBLIC SUBSIDIES

THE AMERICAN Bankers association has issued a statement calling attention to its opposition to subsidized government competition. The association recognizes the rights of farmers or other groups to establish and maintain cooperative credit enterprises. Says the statement: "The American Bankers association believes that the agencies of the Farm Credit administration should be farmer-owned and farmer-controlled cooperative credit institutions, operating on a self-supporting basis and that income should be adequate to cover the costs of operation including credit losses. It is recognized that direct relief by the government in times of serious economic stress may involve granting of loans from public funds as a temporary emergency expedient. However, the continued practice of making unsecured loans from public funds violates the principle upon which credit rests. The American Bankers association has long been opposed to the socialization of credit by the government." The statement mentions that the nation-wide opposition to subsidized lending was led by the Nebraska Bankers association.

Conduct Salvage Paper Campaign

Former Decision Sustained Here

Settlement of S. E. Auker Estate Will Likely Go To Supreme Court.

In the new trial of the action filed by W. F. Auker, Delpha Merchant and Earl Merchant against Bertha Hendrickson, et al., concerning settlement of the S. E. Auker estate, District Judge F. H. Pollock last Wednesday entered a decree for defendants. Decision was practically the same as the ruling of last September 1. The judge also ruled that the petition of plaintiff and cross-petition of other defendants be dismissed. The matter may be taken to the supreme court.

In the case of Bertha Hendrickson against Earl Merchant, et al., filed shortly after the above mentioned action, Judge Pollock ruled that all rentals be paid to the clerk of the district court and that said surbs be held by the clerk until final determination of the first mentioned action. David J. Hamer, clerk, was appointed receiver without bond with authority to handle the funds as stipulated.

Hugo Nicholson is attorney for Earl Merchant, H. E. Siman for the Aukers, Burr Davis for the interest of the First National bank and Mark Ryan for Hendrickson. In other cases the judge made formal entries.

Program Is Given For Kiwanis Club

Committee Is Appointed to Consider Possible Ways To Improve.

Miss Evelyn Patrick, Wayne college soloist, one of four chosen to compete in the national event in which one will be picked for the "Hour of Charm" chorus, sang for Kiwanians Monday noon. Supit, J. W. Litherland told of Miss Patrick's achievement and introduced her and also Miss Ruth Danjue who accompanied her. One of Miss Patrick's numbers was "Tea for Two" by Vincent Youman, from "No No Nannette," by Harbach and Caesar, this being one of the songs she gave in Omaha. Others were "The Gypsy Maid," by Donizetti, and "Gavotte," by David Popper.

Dr. J. T. Anderson appointed a special committee to look after improving the appearance of signs at entrances to Wayne. The committee will also see about securing a movable sign which may be placed in front of the hotel on Kiwanis days. W. C. Coryell, A. V. Teed and M. C. Carhart were named to look after these matters.

Dean Clarence McGinn was asked to see if a Kiwanis song can be secured for the club. A letter from Major J. C. Johnson told Kiwanians of his being moved from Fort Robinson to Camp Carson, Colo.

The public affairs committee, with R. W. Ley chairman, sat together at the meeting to discuss possible movements to improve Wayne.

It was decided that members pay for all meals whether they are present or not. The only excises will be given for extended absence or special illness.

W. C. Swanson requested that his name be dropped from the membership list until his business permits his more regular attendance.

A/S J. M. Pile was a guest of Dale Anderson.

Red Cross Drive Moving Forward

Earliest Reports Indicate Substantial Increase Over Last Year.

The first report on Wayne county's Red Cross war drive shows \$864.15 turned in to Wm. Bockenbauer early this week. A number have made collections which are not included in this amount. The quota to be raised during the month is \$5,500.

Most districts are showing at least 10 to 20 per cent increase over last year, and some are doubling their amounts. Mrs. Floyd Conger turned in one of the outstanding reports. From the block north of the depot she realized \$300.50. A year ago she collected \$156.15 in the same block.

Mrs. Oscar Liedtke collected \$53 this year in comparison with \$33 from the same area last year. Frank Heine brought \$41.25 from Roosevelt park where he got \$29.25 last year. A. T. Claycomb already brought \$61 last year and he is not yet finished. The court house has \$45.50 and its record was \$41.50 last time.

Mr. Bockenbauer urges solicitors to complete their canvases as soon as possible.

Young Man Missing In Occupied France

CANDIDATES FILED FOR DELEGATES TO TWO CONVENTIONS

WAYNE county republicans were more neglectful than Wayne county democrats in filing as candidates for places as convention delegates. For those to national conventions, however, republicans were more ambitious than democrats. Seventy-one republicans filed to fill 30 places as delegates and alternates. Some republican slates are pledged to certain candidates, but they will not be identified on the ballots, and so voters will likely be led more by popular names than by presidential preferences. Twenty-nine democrats have filed for 24 places as delegates and alternates. Rollie W. Ley, Wayne banker, appears as one of the two alternates from the Third congressional district to the democratic national convention, and as he is sure to be chosen and to attend, he can be depended on to talk up Wayne county's resources to delegates from the effete east and deep south.

A much heavier demand is noted for state purity and germination tests for crop seeds, according to County Agent Walter R. Harder. Samples submitted for analysis are largely oats, alfalfa, barley, broom-sorghum and some soybeans. Testing records are required on seed bags to show germination, purity, other crop seed kind and amount of weeds. Tests protect against new weed infestation.

Gasoline Rations Will Be Numbered

Each motorist who receives a general of his "B" and "C" supplemental gasoline rations and every farmer on other off-highway user who gets new "E" and "R" coupons for gasoline-powered equipment will receive, instead of a ration book, a strip of coupons in cardboard folder, each coupon bearing a number. Serial is an effective means of tracing coupons.

THE KNOT-HOLE Vol. 7 Wayne, Neb., Thurs., March 9, 1944 No. 3 Leader at village band practice: "Ezra would use a whole tankful to clean her undies and I still have enough left to blow up the kitchen?" "Need any woven wire?" "Then you'll want some of this 26-inch, 12 1/2 gauge fence we have on hand. This is the same 26 inch fence you have always used, the same weight, same height, same number of bars. Get yours now." "If you are planning on painting your farm buildings this spring, get your barn paint while it is available. Right now we have a fair supply of Glidden Soyalastic red barn paint. How long it will last we do not know, but if you want to be sure of getting yours, do not put off buying it any longer." "We've been hanging on in hopes that the prospect of an egg would elicit a further comment from Mr. Ickes who lately remarked, 'I can't make coal.'" "There is no water mixed paint just like Spred, because no other is made the way Spred is made. Results are what count, after all, and you have only to see a Spred job to realize the difference. Unfair Attacks Writing for the Miami, Florida, News, Columnist Louis Bromfield defends congress—the product of democracy and representative of democracy—against unfair attack which, he says, "does not come from rural areas or small towns, and very little of it comes out of our large inland cities."

"Nearly all of the discrediting attacks come out of Washington and New York. Tracing the attacks further, they seem to emerge principally from four groups. (1) The communist-socialist elements who actually hold all democratic government in contempt. (2) From those elements in the administration, mostly bureaucrats and political intriguers, to whom the powers of congress are a constant threat. (3) A small but articulate "liberal" element of "do-gooders" who believe you and me incapable of governing ourselves and would like to do it for us. (4) An even smaller under-cover group of axis sympathizers, disloyal not only to democracy but to the nation itself.

"When people attack congress, they are attacking democratic government at its roots. They are attacking you and me because we are the ones who elect our congressmen. When you talk of doing away with congress or attempt to override its will, you are striking at democracy itself. As a footnote, it might be well to remember that when an attempt was made to 'pack' the supreme court because it stood in the way of certain ambitious reformers, the same sort of whispering attack was made against that cornerstone of our democracy. Some may regard it as a pity that the founders set up the supreme court to defend the American constitution and congress to represent the will of the people, but it is very fortunate for all of us ordinary citizens that it is so."

Soldier Voting WE HAVE a sample of the proposed soldier ballot presented in the Green-Lucas bill which is the object of sharp disagreement in Washington. The ballot contains blanks for writing in preferences for president, senator and congressman. It makes no provision for expressions on governors or other officers. It does not identify presidential or other candidates.

Opposed to the federal plan is one by which the different states propose to grant full participation by members of the armed forces in the election. Such absentees would thus be furnished the names of candidates and be privileged to choose from among them. The proposed federal plan would prevent the full expression guaranteed to civilian voters. It is labeled by opponents as unconstitutional. It is held by the latter that the war and navy department could handle transportation of ballots without in the least interfering with the war effort.

Every person in and out of congress wants members of the armed forces to exercise the electoral franchise. Differences exist over the course to follow in accomplishing desired ends. The proposed short cut with absence of candidates' names is considered too incomplete to secure a full and fair expression.

Definitely Regular WE HAVE a communication from Peter Parkert, Hooper, and Hans O. Jensen, York, announcing themselves as candidates for delegates to the democratic national con-

Congress AS SEEN BY KARL STEFAN Washington, D. C. March 1, 1944. More than 10,000 people are on the waiting list for telephone installation in this town. Lloyd Wilson, president of the Chesapeake and Potomac Telephone company that serves the nation's capital, lived when a boy, at Plattsmouth, Neb. The company provides telephone service for more than a million families. Wilson got his start in Nebraska as a night telephone operator and helped build telephone lines all over the state. In addition to his regular job, he is chairman of the Red Cross war fund campaign here and a trustee of the National Geographic Society and George Washington university. He hopes to retire soon and to enjoy life thereafter on a Virginia farm that he owns.

War and depression have been good to Washington. During the depression, business was good. War made the nation's capital the biggest boom town in America.

vention from the Third congressional district. They endorse President Roosevelt for a fourth term and get behind Vice President Wallace to succeed himself, commending his "ever normal graney" as a boon to agriculture, without mentioning his other row to reduce production early in destruction of pigs and plowing up every the new deal. The two candidates applauded the administration's gift of Secretary of Agriculture Claude R. Wickard to farm populations, giving him credit for last year's satisfactory food production. They pledge continued big crops under his farm leadership, the inference being that he has and can successfully command the elements and bring proper proportions of moisture and sunshine.

Henry in The Lead IF GALLUP'S poll may be depended on to reflect feeling within ranks of the democratic party, Vice President Henry Wallace is clearly in the lead to succeed himself among persons mentioned for the place. The president hasn't said he doesn't want Henry again, but any coolness suspected of having developed on the part of the chief executive with reference to the vice president may be modified by evidence of popular demand.

It is inconceivable to an impartial or prejudiced observer that Henry would lend strength to the ticket, though perhaps careful comparisons would find he had slipped less in popular esteem than others who had seemed to dominate new deal ranks. Senator Byrd, Jeffersonian democrat, administration critic and a statesman of high standing, had fewest votes in a list of six.

Hopelul Outlook The encouraging prediction is made by republican leaders in Washington that most of the 1,050 delegates in the coming national convention will be uninstructed and that no deadlock or dark horse is likely. The dark horse is usually dragged out of partial obscurity with no proved qualities of executive leadership. This happened in nominating Harding, and no convention delegate with a clear idea of present and coming problems will yield to a repetition of that blunder. Sound, farseeing leaders are under consideration, and from them two may be picked for first and second places with reasonable certainty of victory and constructive service. Compromising by selecting weak candidates would be a serious mistake, which, we are glad to be assured, is not going to happen.

Following the Barkley flareup last week, Congressman Wesley E. Disney, Oklahoma democrat, is quoted as making this declaration: "This is an anti-congress fight. This is an anti-congress message, designed for the 1944 campaign. We must accept that battle here and now. Let me warn the chief executive that not once in the course of Anglo-Saxon history has a contest between rulers of the people and the representatives of the people been lost by the representatives of the people!"

Present onion scarcity leads us to predict coming abundance will equal every demand with the odor rising to the sky from every garden plot. Onions are as persistent in growth as they are in smell, and no abridged crop will again be permitted. The restraint on onion addicts will not last long.

Reviewing the president's 11-year record in the White House, David Lawrence, columnist, draws this conclusion: "But a big proportion of the people at the end of eight years did want a change and perhaps a larger number want a change now."

Time magazine illustrates a thousand years of English royalty by publishing faces from Alfred the Great to Queen Victoria, and as they are all gone, they cannot protest, as their looks might reasonably suggest.

People generally agree that it would be as proper to draft money as to draft men, but it should be done through legal processes, and not at the command of unauthorized individuals.

Fine humanities spurn the directly self-seeking policy of considering everything from a standpoint of dollars and cents. be extended, whether or not amended, if price control is to be continued.

BEYOND NECESSITY. A sermon by Dr. Harry Emerson Fosdick, appearing in condensed form in a current magazine, emphasizes going the "second mile" to realize a contented life. He points out that the fellow who watches the clock, who does no more than he is forced to do, and who does what he does reluctantly, travels only the first scant mile. On the other hand, the fellow who relishes work, likes his job and takes pride in his product, translates duty into privilege. "All the slavery of work has vanished for such a man," says Fosdick. "These folk of the more abundant willingness travel with us the first hard mile of compulsion, but they make it beautiful with the second mile of consecration." The author goes on to say: "This principle of Jesus, then, divides a man's conduct into two parts, the compulsory and the voluntary, the things he must do and the things he chooses to do, the first mile and the second. It says, moreover, that only as the voluntary overspreads and saturates the necessary can life cease to be slavery and come to its full meaning of dignity and value."

TUGWELL. Puerto Rico legislators have asked for the removal of Rexford Guy Tugwell as governor general, and while we are in full sympathy with the complaining islanders, we would hesitate to sanction a change through fear it might be given a more influential place. The complaint charges, according to the Associated Press, that Tugwell has built up "a vast bureaucracy at great expense to the people of the island in order to gain supporters, and has sought to bring under government ownership every possible type of private business and every aspect of the island's economic life." Tugwell was one of the chief engineers of the new deal in its incipient stages, and from Puerto Rico reports, we judge he has been applying his dizzy textbook theories to inhabitants of the island. It is possible we could capture and hold enough atolls in the southwest Pacific to furnish one apiece to fellows of the Tugwell variety. Inhabitants accustomed to little to wear and little to eat and with no ambition would not mind having their coral islands turned into laboratories for social experimentation.

All holes are being filled or drained over the complete reservation. It's a big job but, with the number of men we have it shouldn't take long."

Then we were allowed on the deck where we yelled at guys working on the dock. The Camp Edcote Seabee swing band was there then and played 'Shoo Shoo Baby,' 'Bye Bye Blues,' etc. They said a prayer over a loud speaker and sang a hymn for us. It was still dark and raining slightly then."

NUMBER FORTY-ONE

Destructive Fire Is Worst in City

Four Buildings Are Lost And Number Injured in Blaze at Neligh.

Property valued at \$100,000 was lost and about 30 persons injured, one seriously, Friday morning about 6 when fire broke out in the Waken drug store at Neligh. This store, the J. C. Penney store, Moon theatre and Loo Hewitt drug store were destroyed. Carl Sprouts, Sioux City, supervisor for the Council Oak stores, was struck on one leg by flying glass and he walked a quarter block before he collapsed from loss of blood. He was taken to a Tilden hospital.

About an hour after the fire started, an explosion that rocked the entire town tore out both ends of the theatre and lifted the roof 30 feet. Windows a block away were shattered by the concussion. Many people were cut by flying glass. Some goods may be salvaged in the jewelry and Penney stores but not from the other buildings.

Neligh, Elgin, Oakdale, Bruns, Wick, Tilden and Clearwater fire departments battled the flames a couple of hours before they could get them under control.

Successful Season Closes for Players

Wildcats Win Seven Out of Ten Basketball Games Played in Term.

Wayne State Teachers college. Wildcats closed a successful basketball season in which they won seven out of 10 games played. No veterans from last year's winning team were available, but Coach Ralph Ginn built a well-balanced team around men with high school experience.

The team got off to a slow start, losing to Midland 30-26, but came back strong the following week to trounce Olson's Sports of Sioux City 27-57. The Teachers then lost 54-39 to the strong Omaha university Indians, later they beat Morningside 21-35. Second semester registrants, Jack Dale and Tony Olson, boosted Wayne stock and helped beat Norfolk Junior college 32-26. Next, the Wildcats avenged an earlier defeat by outpointing Midland 30-39, then swamped Morningside 26-47.

Omaha university again won over Wayne, this time 53-39 after a close first half. Coach Ginn's team then beat the Army Sub-Dept team from Sioux City 31-71 and later put on a spectacular last quarter rally to win from the Norfolk college Blackhawks 34-39.

Dale Dicks led the scorers with 125 points. He was followed by Gordon Johnson, Hiram Hansen and Rodney Love with 69, 62 and 60 points respectively. Jack Dale with 50 points in six games was second high in average points a game played.

Wayne scored 411 points during the season, while opponents were scoring 336.

Leave Hospital.
Mrs. Herbert Neitzke and infant son of Hoskins, were dismissed last week from a Norfolk hospital.

Mrs. Harry Crawford of Hollywood, arrived Friday to visit her husband, A. S. Crawford. She is staying in the L. A. Fabske home, while in Wayne. Mrs. Crawford is employed in the planning and production department of the Lockheed plant.

Rename Officers For Local Posts

Incumbents Are Nominated By Both Parties Holding Conventions Here.

At conventions and ward caucuses in Wayne last Wednesday evening present city officials whose terms expire this spring were nominated as candidates for reelection by both parties. They are: Herman Lundberg, mayor; W. S. Bressler, clerk; L. W. Ellis, treasurer; G. A. Lamberson, police judge; Jack Meister, W. A. Haddock and L. B. McClure, councilmen in First, Second and Third wards, respectively; Joel Smolski and P. L. March, school board members. Election will be April 4.

The Citizens' party elected Prof. O. R. Bowers chairman and T. S. Hook secretary.

The People's party chose A. G. Wert chairman and Burr Davis secretary.

Supply of Teachers In State Inadequate

Recent reports from 20 of the 23 teacher-training institutions of higher learning in the state indicated that only 488 of their students are now completing work that will qualify them to enter the state teachers' exam in the close of the 1943-44 school year. No assurance is given that all of this number will actually enter the teaching profession next fall. Many may be attracted to better-paying jobs in business and industry or be drawn into the services of the armed forces.

Approximately 1,600 new teachers are yearly supplied each year by teacher-training institutions. This year that supply has diminished to one-third of normal.

From these 488 new teachers 188 will be qualified to teach in the high schools of the state, 214 in city and village elementary schools and 88 in the rural elementary schools. The rural-teacher supply will be increased by high school graduates completing the normal training course. A few additional high school graduates will pass the state teachers' examinations and complete requirements for teaching in rural elementary schools by enrolling for a 12-weeks summer course in one of the regular colleges. The high schools will probably furnish 1,000 rural teachers this year.

Under normal conditions, Nebraska schools employ 2,700 new teachers each year. The anticipated need for the school year 1944-45 is much greater than this number. It is evident that the 1,488 new teachers who are now enrolling in the colleges and high schools of the state cannot be expected to fill the many vacancies which will exist.

Rural boards of education should consider the advisability of contacting the institution with a neighboring school for the emergency period. In addition, it is hoped that former teachers and persons now teaching on temporary certificates will further prepare themselves for teaching next year by earning additional college credit either by extension or by attending campus classes before next fall.

May Bring Riding Devices Here Again

Wayne Legion post last Wednesday discussed the matter of again bringing the Midway company here to stage a carnival sponsored by the organization. Providing that the grounds can be secured and help available, the company will likely be here the last of June or in July. The same company brought riding devices to Wayne last summer under sponsorship of the Legion.

Dr. L. Kilian, L. W. Ellis, Frank Heine, Floyd Conger, A. L. Swan and W. R. Harder reported to the post on the Legion meeting which they attended in Grand Island.

Wilbur Hall spoke to the group about Alaska.

Former Residents Have Anniversary

Mr. and Mrs. Emil Hefti of Cole-ridge, former residents of Wayne, observed their 51st wedding anniversary February 28.

Mr. Hefti, who was born in Switzerland May 17, 1871, came to this country as a child with his parents who first located at Charlestown, Va. Mrs. Hefti, who was born October 1, 1870, at Oshkosh, Wis., came to Blue Hill, Neb., with her parents. The couple were married at Wayne and lived north of here for some time. They went to Cole-ridge 40 years ago.

Library News

Someone has said that reading should be active, not passive; it should furnish nourishment for living—above all a philosophy for times of tribulation and suffering.

A book called God's Front Porch has been written by a young woman by the name of Ketti Frings. She has made a noble effort to try to dispel some of the world's gloom, to make those who are frightened a little less frightened, by asking them to imagine with her what might be the most comforting answer to the world's most haunting question, "Why this misery, oh Lord?" Surely this book should furnish us nourishment for living and help us to find a philosophy for times such as these. It is a story so startling, so original, so provocative that you will never forget it—by the author of the brilliant novel, "Hold Back the Dawn."

The book jacket of God's Front Porch tells us that it is about Cpl. Pinky Harrison who didn't want to die. He was eager and confident and he wanted a German scalp to take back to Martha—his Martha who was just about to have a baby. Instead, he found himself on that train going up, up, up, while the clouds streamed by the window.

The other passengers seemed perfectly content. Particularly the AP reporter who kept busily writing and gaily laughing at the thought of a dispatch starting: "Somewhere in Heaven—" And the young German soldier said he was glad to go—he was so tired. Bul Pinky wasn't!

And then the train pulled into Heaven Bend Junction and there was someone to meet almost everybody. There was Buddha to greet the Chinese passengers; Allah, the Hindus; and Jehovah came right up and took Mod Kazinsky by the arm. But the reporter and Pinky were left on the platform.

Then they saw him hurrying towards them—a genial elderly man with soft gray hair (slightly in need of cutting) apologetic and out of breath, saying: "Emily, I'm so sorry. Pinky, will you forgive me?" They would have known him anywhere.

And so the story of God's Front Porch begins. Read it and you will laugh and you will weep, but you will find comfort there.

We have received several more books this week but will wait until next week to tell about them.

Mrs. Chas. McClure has charge of stories Saturday. Several stories will be acted out in pantomime by some of the children and the others will try to name the stories.

Mrs. Ley is as lively and alert as ever and says she is going to live to be 100. She visited Mr. and Mrs. Ray Larson at Huntington Park, and Prof. and Mrs. Jessie Coleman at Pomona. Clinic Is Arranged For Wayne County

A sewing machine clinic will be held in Wayne county April 14 with Miss Ruby Loper, state extension engineer, in charge.

Those interested are asked to see or telephone County Agent W. R. Harder as soon as possible as the place for holding the clinic will be determined by preliminary enrollment.

Thirty Wayne county women attended two similar clinics in Wayne county last year. All have spoken favorably of this. The women cleaned and adjusted their own sewing machines under the supervision of Miss Loper who has assisted Nebraska women with several thousand sewing machines in the past few years. Machines used in the clinic should be in running order. One that cannot be operated after being properly cleaned could not be adjusted that day.

Interest Manifest In Bang's Testing

Sixty-five Herds in Area Are Being Checks by Visiting Officer.

Wayne county farmers are taking considerable interest in eradicating Bang's disease from their herds and 65 in this area have already had animals tested. Dr. H. E. Hittle, state and federal veterinarian, will make tests as time permits until a herd is cleaned of Bang's disease. After a herd is once cleaned, future tests in keeping the herd in good condition are made by local veterinarians.

Herds which have been tested in this vicinity include the following:

Wayne, Wayne Gilliland, H. Ward Gilliland, Joe H. Beckenbauer, Albert Watson, Clarence Mann, Edwin Cauwe, Alfred Sydow, Harry Sydow, Martin Olson, Harold Sorenson, Fred Baird, Charles Tomme, Otto Lutt, Donald Lutt, William Roe, Robert Turner, Elmer Shieloe, Robert Lutt, Erwin Fleer, Emil C. Lutt, Donald Beckenbauer, John Beckman, Arthur Longe, William Von Seggern and Cliff Penn.

Wakefield, Ray Roberts, Carl Anderson, Charles Pierson, Roy Sundell, Vern Carlson, Benjamin Anderson and Clare Buskirk.

Windsor, Thomas Roberts, John Davis, Dell Jones, August Longe, Wm. Jones and Enos Williams.

Carroll, John L. Bush, Lloyd Morris, John W. Owens, David Rees, Wesley Bubeck, John Francis, Ambrose Jordan, Glenn Worring, Oberlin Morris, C. H. Morris, Clarence D. Morris, Levi Roberts and William Swanson.

Randolph, Lee E. Sclion, Rex Brandt, Ludwig Bauer, Henry Rohde, Henry G. Lienemann, Gail C. Sellon, Joseph Hinkle, Erwin Wittler, Leonard Bruggeman, Ray L. Spahr, Owen Jondis and Frank Rees.

Hoskins, Fred W. Bargstadt.

Dr. Hittle reports that as a group Wayne county herds have not had many reactors, though a few herds had from one to five reactors.

Animals that are reactors must be sold and removed from the premises. This precaution is required to secure the state and federal payments available through Bang's disease control program.

Herd owners interested in Bang's disease testing may notify County Agent W. R. Harder.

Vacation Is Found Strange Experience After Steady Duty

A vacation with the privilege of deciding how to spend one's time is a strange experience after putting in seven days a week for two years, working never less than 70 and often up to 120 hours a week. And to be on land after tossing about in a small boat on rough seas between rocky islands makes even more unusual.

Mr. Hall was in the north two years ago in January, he spent nearly a year with the Siems-Drake Construction com- pany helping build an air base on Kodiak island. The army camp was well started then and he helped with work that put that strategic location into one of the best de- fended in the region. Kodiak is at the beginning of the Aleutian chain of islands. Many civilians who helped construct the big base returned to the United States after- ward.

The Japs could have taken the Aleutians two years ago if they had known how insufficient were American defenses in that region, states Mr. Hall. But now no dan- ger exists, and Attu, Kiska and other far points are strongly gar- risoned.

When the army construction work was done, Mr. Hall joined the transport branch of the civil service. Since then he has been helping operate the small boats which carry supplies, brought in by large steamers, to outposts.

These small boats have 30-ton ca- pacity and are manned by five. Not only do the boats carry supplies, but they transport mail and trans- fer officers and other men from one station to another. The ships move hospital patients, make emergency trips to supply repairs or pick up officers who have had trouble. At times a crew stays on the ship six to eight weeks with- out landing.

Most islands in the Aleutian chain are barren rocks with deep, rough seas lashing them. Hundreds of outposts are established on the islands. Some of these stations have large numbers of men. Other- ers have very few who are on weather or outlook duty.

Weather Is Factor.

Weather is an important factor in the far north. In the winter storms are almost constant with some days are worse than others. Snow and rain are very frequent and wind always blows. Fog is al- most always prevalent, even when snow falls. Temperatures this win- ter never went lower than 6 or 8 above zero, but that's plenty hot with the dampness that prevails. In the summer much rain falls and winds blow often, but many days are nice. Then the sun goes down about 11:30 p. m. and is up again at 1 a. m. so daylight is almost constant.

Flowers are beautiful in sum- mer months. On the rocky islands west of Kodiak only grass, rasp- berry bushes and moss grow. These islands have no real soil. They are covered with a three-foot layer of ash deposited in 1912 by eruption of a volcano.

Hunting and Fishing.

Hunting and fishing are great sports in the north. Caribou, deer, bears and those are as common as rabbits here. Mr. Hall shot five caribou in one day. His ship crew killed seven Kodiak bears in self defense. The Kodiak bear, the largest carnivorous animal in the world, weighs 1,800 to 2,000 pounds, whereas the grisley weighs 600 to 800.

Fox ranches are common on the Aleutians. The owners skin the animals and ship the raw hides to this country in the trapping sea- son.

Fishing is the chief industry in the islands. Halibut often weighs up to 300 pounds. During the six- week salmon season which opens the last of April, salmon [are caught by the thousands and can- ned at big establishments there. The firms operating canneries take large numbers of people from the states to Alaska to help during the canning season, bringing them back afterward.

No food is rationed in Alaska, according to Mr. Hall. Vegetables and other perishables are not available, and the only milk is that which comes in powdered form.

On his journey here, Mr. Hall came in one of the 65-foot boats from Kodiak to Seattle. The trip took 15 days. Crossing the gulf to Cape Spencer was extremely rough and required 50 hours. Waves were often much higher than the ship. From Cape Spencer, the crew took the inside passage to Seattle. The boat was brought to dry dock for repairs.

Mr. Hall leaves March 15 for Seattle where he will again join a boat crew. He was allowed a leave of 30 days out of Seattle.

S. Sgt. Richard Kuehler, son of Robert Kuehler, Wisner, is report- ed missing in the European area.

Mr. and Mrs. Albert Gamble and children and Mr. and Mrs. Melvin Bruze spent Saturday evening in the Mrs. Stella Chichester home.

Mrs. Alfred Fisher left from Fremont Friday for her home in Los Angeles after visiting in the Ben Ahlvers home here. Her hus- band who is recuperating from a major operation is remaining here two weeks longer before joining his wife in the west.

They have some small quarters and clubs—anything you want they have or can arrange."

Youths Accepted In Reserve Corps

Four Wayne high school youths, who would enlist in the army air forces reserve corps last week in a public ceremony at the high school, were qualified recently by an aviation cadet examining board that was here and were given their physical examination at Fort Crook.

The four enlisted are: Merton Ellis, son of Mr. and Mrs. A. R. Ellis; Lynn Wayne Gamble, son of Mr. and Mrs. Roy Lyle Gamble; Lawrence J. Smith, son of Mr. and Mrs. Robert Smith; Richard Sala, son of Mr. and Mrs. Edward Sala. All are seniors except Sala, a junior. Ellis has lettered two years in football and three years in basketball.

Part of the training army airmen receive includes five months of college study in such subjects as physics, chemistry, mathematics, meteorology and civil air regulations. Further tests at an army air forces classification center will decide the aptitude of the boys for pilot, bombardier or navigator training. Graduates are commissioned a second lieutenant or appointed a flight officer, (the flying duty pay in either case \$291 monthly for those single; \$327 for married men).

Also qualified by the board for the air combat training was Mern Marvin Mordhorst, 18, son of Chas. Mordhorst, Rapid City, S. D., nephew of Mrs. Roy Langenfeldt, Wayne. He will complete his enlistment by voluntary induction through his draft board. Mordhorst is a junior at Wayne high.

MAYBE... future cars with glareless lighting

BUT... OIL-PLATING YOUR ENGINE is like outdoing the future — today

3,965,194 people bought the "latest" cars—mostly 1941 models. Twenty-odd million cars are still older. All the probable new car orders—even if dated today—won't be quickly filled. Then what future car improvement is likely to mean more than the instant improvement of your present car's health?

OIL-PLATING defies engine acids. These infect every engine; they're part of every explosion. They tend to corrode metals most when your engine's driven little—not heated throughout—often re-started after full cooling. Yet even for more favorable postwar driving you'll want acid-resistant OIL-PLATING. Why not get it without waiting? Today! Simply change to Your Mileage Merchant's Conoco Nth oil for Spring. Continental Oil Company

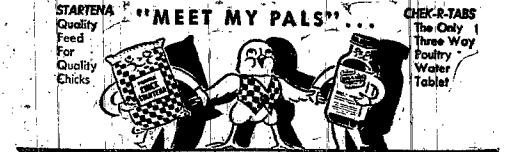

The least you can do for it is to have unsuitable scratchy old Winter oil drained. But get more than an oil change; adopt the major advancement of oil that OIL-PLATES—simply by getting Conoco Nth motor oil for your indispensable Spring oil change. Conoco Nth adds protective OIL-PLATING to working parts by "magnet-like" effect. This comes from the special modern synthetic in Conoco Nth oil... at regular price.

Speaker at Farm Institute Shortens Program but Gets Wrong Speech.

In a long line at the internal revenue offices in Chicago, was an elderly woman who wore a hearing apparatus, waiting to receive aid in filling out income tax forms. As she reached the head of the line a field deputy asked what services she needed. "I can't hear a word you're saying," she shouted to the deputy. The seven men on the speaker's panel at the National Farm Institute in Des Moines were asked to keep their remarks brief. When his time came, Dean Homer J.
