

SIXTY SECOND YEAR

WAYNE, NEBRASKA, THURSDAY, OCTOBER 5, 1944.

NUMBER THIRTY-ONE

Soldier Is Killed In French Sector

Sgt. Dale Frink Is Serving In Tank Division When He Loses His Life.

Sgt. Dale Frink, 24, son of Mr. and Mrs. Harvey Frink of near Carroll, was killed in France August 17, according to a telegram sent by the war department to his parents Wednesday, September 27. The young man was with the 3rd armored division in an infantry regiment. He had been in service since November 3, 1941, and had been in France since D-day. Sgt. Frink went to England about a year ago.

The youth has two brothers in service, Wilfred in India and Donald in New Guinea.

Sgt. Frink was one of a family of 11 children of Mr. and Mrs. Harvey Frink. He was graduated from Carroll high school and assisted his father on the farm until he entered service.

Besides his parents and the two brothers in service, the young man leaves the following brothers and sisters: Jack in Washington state, Vern at home, Annie, now Mrs. Ola Brogren of Dalton, Minnie, now Mrs. Earl Wade of Winslow, Mae, now Mrs. Glenn Wade of Winslow, Florence, now Mrs. Louis Jenkin of Winslow, Tillie, now Mrs. Frank Graffis of California, Glenn of Hoskins.

It is believed the plant here is big enough and sufficiently equipped to serve 2,000 students. That may well be the goal for local groups. And it may be reached by meeting student requirements and engaging in a united pull to convince the legislature. Multiplied educational opportunities would be service alike to northeast Nebraska and to the worthy town of Wayne.

Superior Farm Area. The agriculture achievement award to Walter Herman of Wayne county, by the W. G. Skelly company, following a nation-wide broadcast Saturday morning, reminded a fellow-traveler who knows, to make the observation that this and neighboring counties have more farmers of evenly balanced and vitally constructive activities than any other part of Nebraska. The whole state is good, but it happens that nature favored this section rather more generously than the rest, and thus all needed to secure superior production was the right kind of human fiber. This came with first settlers, and it has developed and strengthened during the years.

Nerve Disorders. The British veterinarian employed in the motion picture "Psychiatry in Action," presented by Dr. Geo. Sebeck for local War Days Thursday night, was England's pronunciation does terrible violence to the land-warfare idea of how to handle the language. And probably the British think ditto of us. However, the picture revealed the gigantic task involved in nerve breakdowns and the skill and tact required to restore suffering individuals to normal. As emphasized by this picture, the war puts a severe strain on delicately fashioned human nerves, and often the burden reaches the breaking point. Most persons realize that courage is essential both in the armed forces and on the home front, and all are hoping and striving for the least possible impairment. The readiness of Dr. Sebeck to provide late pictures for local groups is appreciated.

Sidestepping Truth. Too much sophistication tends to rob one of wholesome genuineness. The worldly-wise guy may show his fitness by sidestepping the truth. He slickers his way along in the hope of serving his purpose and avoiding detection. He often does neither. But he thinks he does, and that false assumption makes him extremely satisfied with himself.

Teachers of County To Meet Saturday. Wayne county teachers meet at the courthouse Saturday this week for a day of special training conducted by instructors of the college. This is the first of a series of such meetings planned in several counties. Attendance is not compulsory but it is expected that all rural teachers will wish to avail themselves of the opportunity offered.

Come from Pender. Mr. and Mrs. Bert Wrench of Pender moved to Wayne Monday into the house located at 923 Windmill street. Mr. Wrench is employed at Chevrol garage as implement service mechanic. The Wrenchs were Sunday dinner guests in the R. D. Stalander home.

Shows Improvement. Mrs. C. Shulteis, who is in a local hospital, reports that she feels much better. She thinks all who have remembered her with flowers, cards and gifts.

Walter J. Herman Earns Award. The Skelly company Saturday presented the agricultural superiority award to Walter J. Herman of near Wayne. In the picture, from left to right, are Norman J. Johnson of Norfolk, district representative, who made the presentation, Walter J. Herman, Mrs. Herman, Leland Herman and Roy Langemeier, local dealer.

Patrolman Comes Once. A patrolman will be here only once this month, the afternoon of October 26, at the court house.

UNCERTAIN MONTH INVITES PLANS TO MEET ICY WINTER

OCTOBER is an uncertain month, sometimes bathing the earth in agreeable sunshine, often bringing chill elements that kill vegetation and forecast winter. It is the time of comforting fruition, but its satisfactions may be streaked with sorrowful recollections. Every month emphasizes some one's losses. Particularly in time of grim war, every month brings sad memories of precious ones lost in foreign battle arenas. Like those who cannot forget dark spots on the different calendar units, we cannot forget the one in October. The rich harvest, the often blue skies, and soft zephyrs cannot remove overhanging shadows.

Newspaper Week Is Observed Here

To observe National Newspaper week October 1 to 8, Wayne Kiwanis club Monday awarded a certificate of citation to the Wayne Herald as a testimonial of appreciation for its contribution to the nation's war program. Dean of Grand Rapids, president of Kiwanis International, and O. E. Peterson of Chicago, secretary of Kiwanis International.

National Newspaper week has been observed for several years by Kiwanis International. However, Canadian clubs are also participating this year in the observance and are awarding certificates of citation to local newspapers.

The context of the certificate states that it was presented "in recognition of the service which this newspaper and the other newspapers of the United States and Canada have rendered our two nations during these critical war years. For accurate and comprehensive reporting of the war news; for generous and unremitting support of wartime activities on the home front; for fostering sound morale; for fearless and independent editorial opinion; and for untiring vigilance in safeguarding the basic liberties of free speech and a free press."

Presented by Dr. Anderson. In his presentation Dr. Anderson stated that many countries today have no freedom of the press but the government controls all publications. "In America the press is still free. Not only that, but the

Jeep Accident Fatal To Youth in France

CORN generally over the state is reported out of the way of frost, and a record-breaking yield is announced. Some would welcome frost, while others would postpone this check on vegetation as long as possible. An extra good field in Washington county predicts that it will turn out from 85 to 100 bushels to the acre. It is probable such specially favored ground could be found in this area. Frequently hereabouts goals have been fixed at 75 bushels. An average of 30 bushels for Wayne county is one man's guess. A wet, cool summer threatened much soft corn, but delayed frost modified the danger, and the prospect now is for a well matured crop generally. Any lacking quality, due to floods and late planting, will go into silos. With extraordinary abundance, the coming seasons will be unusually fortunate for feeders. Gathering the big crop will start in earnest the middle of October, and with help shortage, the task will be heavy.

Action in Europe Progresses Well

S. Sgt. Don Denbeck's Crew Finishes Missions and Earns Citations.

Progress of the war in Europe is encouraging and an early conclusion should be possible, according to S. Sgt. Don Denbeck who arrived home from England Tuesday after completing his missions over the continent as a tail gunner. Temporary lulls are inevitable in such a gigantic movement, but the overall outlook is bright in that theatre.

The Wayne youth man, who has been in service 20 months and overseas seven months, took part in bombings of Berlin, Hannover, Frankfurt, Hamburg and a number of other places.

S. Sgt. Denbeck was with the armada that led the D-day invasion, and he says that the view of the English channel from the air that day is something never to be forgotten. The miles and miles of water were completely filled with thousands of ships carrying out their operations in clock-like precision.

People of liberated countries are so happy after they have been freed that their reactions give one a great satisfaction. S. Sgt. Denbeck was impressed with the way the English jumped up and down with glee recently after their lights were on again. They had been maintaining complete blackouts since 1940.

Robots have done great damage in England, the Wayne flier notes, and people there suffered losses for several weeks before the world was told of the flying bombs. Since the sending stations have been destroyed, the bombs are launched from planes and this method is not so effective.

S. Sgt. Denbeck's entire crew completed 32 missions and all the original group returned home, one, the navigator, suffered injury. One of his hands was cut. The men flew B-24, named Virgin Vampire, on about half of the missions and a B-17 on the others. Crews have turns in taking a ship on missions and on one of the trips, Virgin Vampire went down with one of the other squadrons. It was then that this crew began making trips in a Fortress.

The Wayne youth's crew received presidential citation and the oak leaf cluster, which means that the group had been given special recognition by the president twice. S. Sgt. Denbeck holds the distinguished flying cross and the air medal with three oak leaf clusters.

S. Sgt. Denbeck flew home from England, landing on the east coast Saturday. He telephoned his mother, Mrs. Emma Denbeck, here that day. He flew to Chicago and arrived here Tuesday. After about 30 days at home, he goes to Edgewater Beach hotel at Santa Monica, Cal., for four weeks' rest before his new assignment which will be in this country. The young man had had no sleep in four days but he says fliers get used to that. He was thrilled to be home again.

The officer's sister, Mrs. Joyce Darling of Los Angeles, started home Wednesday and will be here the last of the week to see her brother.

Will Divide Property. A partition action seeking to divide property was filed in district court Saturday by James Nielsen, et al., against Soren Peder Jakobsen, et al.

Move to Carroll. The Frank Millers have moved to the Louis Mellick farm about three miles east of Carroll.

Pvt. Walter Meyer, Jr., Loses Life September 3 While Serving in France.

A jeep accident in France September 3 resulted in the death of Pvt. Walter Meyer, Jr., 23, of Wayne, according to word coming last Wednesday, September 27, to his wife and father here. The war department stated that a letter would follow. Pvt. Meyer was with a tank destroyer battalion.

Pvt. Meyer entered service December 28, 1942, and trained first at Camp Bowie, Tex., and later at Camp Hood, Tex. He then went to Camp Polk, La., for specialized instruction and left from New York for England February 14, 1941. He was in England until he was moved to France, arriving in the latter country August 8. He had been serving with American forces advancing through France since.

The last letter received by Mrs. Meyer was written September 1 when Pvt. Meyer expressed the hope that the war would be over soon so that he might come home. He told that he was in France and expected to reach Germany shortly. The letter reached his wife September 18.

Pvt. Walter Meyer, son of Walter Meyer and Meta Wischhoff Meyer, was born in Dixon county northeast of Wayne January 3, 1921. He was graduated from Wayne high school and afterward helped his father on the farm. He married Miss Gertrude Hall of Cozad at Ponca, August 18, 1941. Mrs. Meyer and son, Walter Lavern, who was 2 August 9, and the soldier's father have been living in Wayne. Besides these three, Pvt. Meyer is survived by two sisters, Mrs. Ed. Kirchner of Concord, and Mrs. Rudolph Roeder of northeast of Wayne. His mother died in February, 1927.

Slightly Wounded For Second Time

V is for Vitamins. And Q is for Quality. Don't forget! It isn't enough just to "take vitamins." The important thing is to be assured that you get the right vitamins, of full potency, and in the correct proportion to meet your particular needs. Ask your physician to make a careful diagnosis of your case. Then bring his prescription here to Vitamin Headquarters.

### Sharp Predictions of the war and of the outcome of the presidential campaign keep people's feelings on the qui vive. Not long ago a wave of optimism spread with an encouraging observation from Britain's Winston Churchill, and then later gloom engulfed sensibilities by his guess that the war against Germany might run into 1945. Also the political barometer has been changing. The new deal's cocksureness of a fourth term has been checked by ascending Dewey strength.

Keeping track of the war's turns and of the presidential race has enlivened the home front's thinking and speculations. Terrific battles go on abroad with rumors of a massing of forces to strike decisive blows.

This week top-notchers in the political arena will intensify interest. President Roosevelt will speak Thursday night, and he will be answered by Gov. Thos. Dewey Saturday night. During the week Gov. John W. Bricker, republican vice presidential nominee, and Gov. Earl Warren of California, have been making speeches against a fourth term. Senator Truman, vice presidential nominee of the new deal ticket, has been talking in behalf of keeping the president in power.

So, people have plenty to think about in both war and politics, and they generally grab indications that point to an early conclusion of the European conflict and to complete overthrow of America's new deal.

Republican speakers are charged with mud slinging. But facts which new dealers attempt to dodge, cannot be justly defined as mud. This country still has a two-party system, and republicans cannot be expected to ignore a faulty record and permit perpetuation in office unchallenged and unopposed. Higher-ups in new deal circles

act mad because any one dares to question the soundness of their domestic policies or interfere with their thirst for continued preferment. People want the facts, and they will decide what is mad and what isn't.

Prating over the radio about the importance of subsidies to agriculture, new dealers misjudge the farmer's temper. Farmers know subsidies mean their work is planned for them in Washington and that exercise of their own judgment is thereby cramped. They know when they accept subsidies they are surrendering individual liberties by which successful agriculture and live stock growing are determined. They would prefer fair prices based on demand with preservation of traditional independence.

Changing the official status in Washington by way of China works wonderfully well. Vice President Wallace was gracefully disposed of after interviewing the quiet, and now Donald Nelson, returning from a journey to that remote quarter, finds it advisable to resign. Anyway, China receives a lot of personal attention.

A thirty-hour work week, proposed by labor unions, would, if carried into farming and rural industries, flatten production and paralyze sources of employment. And what incentive could one have to work 30 hours if he loafed and snoozed for 138 hours.

Complaints about republican campaign spending is a manifest attempt to cover appalling guilt. Contributions charged to republicans are inconsequential in contrast with huge sums dumped into the new deal exchequer by the CIO.

Gifts of costly jewels to prominent women who are honored in christening government ships, as reported this week, find a new way to get rid of taxpayers' money. A congressional investigation of this leak is proposed.

If Gallup's poll is fairly indicative of coming results the next congress will have a republican majority, and that would mean tough sledding for new deal planners if the fourth term should happen to squeeze in.

Newspaper week emphasizes the need of preserving the free press which has become quite extinct in totalitarian countries. It is clearly essential to other liberties.

**DEPOSIT INSURANCE.**  
The new deal boast that it was responsible for the national bank deposit guaranty law has led the Saturday Evening Post to issue a sharp reminder. It points out that the amendment to the national banking law was prepared and introduced by Senator Vandenberg, republican of Michigan, and that at the time it was pending, President Roosevelt gave strong opposition. It quotes Senator Glass of Virginia, as saying, that representations were made to the president and secretary of the treasury that the amendment was the "only constitutional way of bringing about a desirable unified bank system in this country." The Post says: "In 1934, Judge L. E. Birdzell, at that time general counsel for the federal deposit insurance corporation, told the bankers of Michigan at their convention that Senator Vandenberg 'is perhaps more responsible than any other individual for putting into the Banking Act of 1933 the provisions which made it possible to insure deposits in banks beginning last January. Leo Crowley, chairman of the federal deposit insurance corporation from the beginning has often been quoted as describing Senator Vandenberg as 'the father of bank-deposit insurance.'"

**OBEYS CAMPAIGN.**  
The first of the week Governor Dwight Griswold launched his campaign for reelection though the prospect would not seem to call for any uneasiness or effort on his part. In his initial campaign speech the governor said: "When I was inaugurated I did not find any bad messes. I didn't have to prosecute anyone for graft or corruption. I can truthfully say that since I have been in office we have been able to make many improvements in administration, but it was not a case of uncovering graft." Despite a general upswing in costs, he mentioned that Nebraska is now collecting less tax than any other state except Kentucky. He said the main reason for good state administration is to put departments under competent heads and then hold them responsible. Speaking of the government in Washington, the governor said: "After all, the important thing is that our federal government needs some team work now, and I think Governor Dewey, with his open mind and his administrative ability, is the man we need for president."

Go To Church Every Sunday . . . . . We Preach Christ Crucified

Saint Louis, Missouri (Special) Sunday, October 8, will mark the initial broadcast of the twelfth Lutheran Hour season. The first program will be heard over the Mutual System and affiliated stations in connection with a mass meeting in Washington, D. C.

This day likewise signals the return to the air after a summer intermission of Dr. Walter A. Maier, professor of the Old Testament at Concordia Theological Seminary, Saint Louis, and regular speaker on the broadcast. During the Twelfth Lutheran Hour Dr. Maier will enjoy a leave of absence from Concordia Seminary, so that he can devote his full time to the work of the Lutheran Hour.

The International Lutheran Hour has grown from but two stations in the Midwest, until it has become one of the world's largest broadcasts. In the United States it is heard over a network of 242 stations, comprising all the outlets of the Mutual System, plus others. In addition, a total of 180 transcription stations in the United States feature the program.

Domestic broadcasts are supplemented by more than 200 outlets featuring English, Spanish or Portuguese broadcasts in Alaska, Argentina, Bolivia, Brazil, British Guiana, British West Indies, Canada, Chile, Colombia, Costa Rica, Cuba, Dominican Republic, Dutch Guiana, Ecuador, Haiti, Hawaii, Honduras, Mozambique, Nicaragua, Panama, Paraguay, Peru, Puerto Rico, Uruguay and Venezuela.

During the Eleventh Lutheran Hour, the last broadcast of which was aired October 1, more than 3,000,000 people wrote in to express their appreciation of Dr. Maier's stirring, challenging messages. The largest total of letters for a single week was 2,500; for a single day, 5,500.

SERVICE NEWS

Sunday morning from Nashville, Tenn., to tell them he left Monday for San Diego, to enter navy training. The young man has been playing with the southern division of the Chicago Cubs this summer.

Leaves for Trinidad. R. T. LeKermit Florine left last Thursday from Chicago for Norfolk, Va., where he will await transportation to return to Trinidad. The officer had a 30-day leave which he spent with his wife here and relatives in Chicago. Mrs. Florine accompanied her husband as far as Chicago where they spent a week before the officer left.

In New Location. Pfc. LeRoy Sund, son of Mr. and Mrs. L. W. Sund, writes that he is now in a new location in the Pacific after visiting Pearl Harbor and the Marshall Islands. He says that marines who have been overseas two years are being allowed trips home and since he has been there 25 months, he hopes he may be here by Christmas. The word was the first from the youth in two and a half months.

Is Home from Europe. Yeoman First Class Geo. Voss, who arrived recently to spend a month with his parents, Mr. and Mrs. Ferdinand Voss of Winside, has been in two major engagements, those of Africa and Sicily. He went overseas in March, 1943, and had been in England, Scotland and France as well as in Africa, Sicily and Italy. His duty in the navy is to help unload men and supplies. He reports at New York October 25.

Completes Course. Aviation Cadet J. M. Pile of Wayne has just completed instrument flying instruction at Pensacola, Fla., and is now in final squadron. This is his last phase before receiving wings. He is now flying multi-engine planes and after completion of this he will be a land-based multi-engine pilot.

The Wayne youth spent last week-end with Lt. Kenneth Peterson at Eglin field, about 35 miles from Pensacola, and the two plan to be together as often as possible. J. M. reports the weather in Florida hot and says he'll appreciate getting to a cooler part. He says "thanks a million for the swell paper."

Gets Infantry Badge. Cpl. LeRoy L. J. Bonawitz, son of Mr. and Mrs. H. W. Bonawitz of Los Angeles, formerly of Wayne, was recently awarded the combat infantryman's badge for conduct in action against the Japs while on Bougainville. The youth is a veteran of the Bougainville engagement of last March when Japs launched their suicidal attack. He is still in the southwest Pacific. Cpl. Bonawitz entered service in April, 1943, and has been overseas 10 months. He was employed in a Los Angeles market prior to entering service. He is in the American division, the only active combat division without a number.

Mrs. Richard Jügel received the word about LeRoy from her sister, Mrs. Bonawitz.

Arrives from Corsica. The Walfrid Carlsons were happily surprised Saturday evening when Sgt. J. C. Gullion of Louisville, W. Va., arrived to spend Sunday with them. The youth, who had been with T. Sgt. Alvin Carlson for three years, was in Lincoln and telephoned the Carlsons. He hitchhiked here, leaving Lincoln at 11,

stopping a few hours in West Point with the mother of another buddy and reaching Wayne at 6 in the evening. He stayed over Sunday and the families of Russell Pryor, Gilbert Danberg, Clarence Carlson and Donald Carlson were there for Sunday dinner and to visit him. Sgt. Gullion and T. Sgt. Carlson started training together in California, both as mechanics for bombers. When they went overseas about 24 months ago, Carlson was in England for three months before the two were together again. They were in Africa, Sicily, Italy and then in Corsica. Sgt. Gullion left Corsica in early September and he did not know until he reached Italy that he was coming home. T. Sgt. Carlson is showing afterward for France. The young man reports the Wayne youth well.

Sgt. Gullion was brought back for special schooling which he starts soon.

WAYNE YOUNG LADY IS NAVAL RESERVE. Miss Betty Lou Sund, daughter of Mr. and Mrs. L. W. Sund of Wayne, has been sworn into the naval reserve and expects to be called to active duty in about three weeks. She arrived Tuesday from Chicago, where she has been on duty nursing, to visit at home until she goes to Hunter college in New York for basic training.

PVT. STANLEY GAMBLE HAS FOOT OPERATION. Pvt. Stanley Gamble who suffered injury to his left foot from Jap snipers in the Pacific, was to have the fourth toe and part of the tarsal bone removed in an operation at a hospital on the New Hebrides islands Saturday, September 23. The youth writes his parents, Mr. and Mrs. Lyle Gamble, that he is doing well and he hopes to be back with his outfit.

BRONZE STAR AWARD PRESENTED TO TWO. Two Wayne county young men, T4 Norman H. Beck of Hoskins, and Pvt. Don C. Backstrom of Wayne, have been awarded the bronze star medal by the war department. The citation states that "in action from November 21 to December 27, 1943, in Italy" Beck and Backstrom and other members of the communications section of the battalion "worked tirelessly under the most disagreeable weather conditions and under intense shellfire to lay wire and maintain the communications of the battalion."

Places of Interest Visited in Italy. First Sergeant W. A. Lerner writes his parents, Mr. and Mrs. Antone Lerner, that he recently visited Rome and Pisa in Italy. He liked Rome and the catacombs. In Pisa he saw the famous leaning tower which is still standing though much of the city is badly battered. Pisa was taken by the allies in early September. The Wayne soldier tells of a wonderfully productive garden which men of his group raised in Tunisia, north Africa. They prepared the ground in a plot about 50 by 75 and purchased seeds from an "entrepreneur" in a nearby village. They planted carrots, radishes and lettuce. The plot was watered by use of the company decontamination tank and was hoed by those who were subject to a little disciplinary restraint. The garden especially pleased "the mess sergeant who finds it difficult to get fresh vegetables for his men. The one plot produced enough for 100 men four times and sufficient for salads twice. All regretted that they had to move to Italy before some of the vegetables could be used. "The top kick is as busy as the proverbial eel," writes Sgt. Lerner. "At present the company is scattered on detached service to the four winds. There have been times when I haven't seen the men in six months. I feel confident that our small part in this big drama is helping make the nazis throw in the sponge."

**Sixth War Loan  
Date Designated**

Campaign for Investment Of Fourteen Billions Starts in November.

The Sixth war loan drive will start off November 20 with the national goal set at 14 billion dollars, according to word from State Chairman W. Dale Clark.

While details will be announced later, the forthcoming drive will follow the pattern of recent campaigns, with "E," "F" and "G" bonds bought during November and December counting in the purchase of other "basket" securities will be confined to the four-week period, November 29 to December 16.

Although the national goal is two billion dollars less than that of the Fifth war loan held last June and July, Mr. Clark urged Nebraskans to begin making plans for investing all they possibly can in government bonds during the next campaign.

State war bond officials pointed out that the success of the Sixth will depend, to a large extent, upon individual participation. Nebraska over-subscribed its \$106,000,000 goal during the Fifth by more than \$31,000,000, but this was primarily through heavy buying by corporations and other non-banking sources.

Among reasons advanced for the cut in the national quota is the unusually good cash condition of the treasury, resulting from the \$4,000,000,000 over-subscription of the summer campaign, and the light bond redemptions expected to result from the simplified redemption plan which went into effect on October 2.

**Project Training  
Given for Clubs**

Home demonstration membership day was conducted Friday at Wayne city hall with Miss Lois Davis and Miss Mary Burbank of Lincoln, in charge. About 30 leaders and officers of women's project clubs in Wayne county were present. The women had cooperative luncheon together at noon.

**Psychiatry Picture  
Shown War Dads**

Dr. George Soeck showed the motion picture, "Psychiatry in Action," Thursday evening at the War Dads meeting in the social center.

The picture showed the skillful treatment given to 600,000 neurotic patients in an English hospital. Although this is the most difficult illness to cure, results have been highly successful.

Dr. J. T. Anderson offered the prayer. During the business meeting T. S. Hook told that Pender and other near-by towns hope to organize chapters soon.

**Instruction Given  
At Masonic School**

Grand Custodian Lute Savidge of Omaha, was here last week Wednesday and Thursday to conduct a Masonic school of instruction for about 35 Masons from Wakefield, Pierce and Wayne lodges. Ray Dilts of Wakefield, assisted Mr. Savidge. Masons from Winslow and Laurel were also present.

**Find Western Calf  
Lost from Yards**

The 550-pound black heifer which strayed away from Wayne stockyards September 16 when Louis Dinklage of Wisner, was having the carcasses of western cattle he purchased unloaded preparatory to trucking them to his farm, was found last Thursday morning at 8:30 in the middle of the road one-half mile east of Wayne airport.

John Horstman, who lives on a farm three miles east of Wayne, noticed the animal in a corn field a week ago. He reported it but the animal disappeared again. Sheriff J. H. Pile and a special agent of the Minneapolis and Omaha railroad, Mr. Gutzberg of Boone, Ia., traced the animal last week Wednesday by the damage done in a cornfield east of town.

**Banks Will Cash  
Bonds for Holders**

The United States treasury recently made it possible for banks to cash war bonds directly. This was done to enable folks to hold their bonds longer, as after the required 60 days have passed their money will be available at once upon actual occurrence of any necessity. The government urges holders of bonds not to cash them as this unnecessarily hampers the war effort.

northeast Nebraska. Such recognition, he added, stimulates all to do their best.

Roy Langemeier, local Skelly dealer, expressed pleasure at having one of the national awards come to this area. He gave much credit to farmers for producing such abundant crops with a shortage of labor and equipment.

E. W. Huse stressed the mid-west's superior citizenship which is shown in accomplishments everywhere. People in this region are unsurpassed.

Brief responses were made by Mr. and Mrs. Frank Erleben, Mrs. E. W. Huse, Mr. and Mrs. Ray Ash, Mr. and Mrs. Carl Meyer, Mrs. Herman Lundberg, Mrs. Roy Langemeier, Mr. and Mrs. Herman Stuve, Mrs. Victor Mordhorst, Mr. and Mrs. Ernest W. Lundahl, Mrs. Curtis Wiberg, Mr. and Mrs. F. W. Nyberg.

From Lloyd Burlingham, chairman of the award committee, gave the radio presentation honoring the Herman family. In a statement, this committee says that "By putting into operation the Skelly plan for recognizing and rewarding superior achievement in agriculture, Mr. Skelly has filled a long-felt need for the farmer—a need that has never before been crystallized. In a manner that is typical of the way he does things, Mr. Skelly has put his heart into the job of bringing fuller appreciation to the layman of just what increased food production means to those who must produce it. Mr. Skelly's interest in this vital work is that of a man who loves the boys and girls and the home life of the farm."

In his radio broadcast Saturday, Mr. Burlingham began as follows: "Reveling now in one of its greatest food production years is Nebraska. Nebraska is from the Indian name 'Ne-brath-ka' or 'shallow water. From the Platte river, Nebraska, seen first by white men, when Coronado's expedition touched its southern boundary about 1540, then by Marquette in 1673, and crossed first by two Frenchmen in 1739. Claimed as French soil, as Spanish and as English, it became part of the United States with the Louisiana purchase.

"Far toward the South Dakota and Iowa boundaries is Wayne county, named for General 'Mad Anthony' Wayne, though he was never west of Ohio. County seat is Wayne, laid out in 1881 when the railroad, built from St. Paul to Sioux City, crosses the muddy Missouri to tap the farming wealth of Wayne county and the country beyond.

"Far-visions as were those pioneers who laid the first steel rails in northeastern Nebraska, even they could hardly foresee such farms as the 428 acres owned and tilled by Walter Herman, a food factory which County Agent Walter R. Harder says is typical of at least a hundred farms in the county."

Story of the Hermans. To produce 200,000 pounds—100 tons—of beef annually is a major contribution to the nation's food supply and it is a full-time undertaking for Walter J. Herman and son, Leland Herman, who together own and operate a 428-acre farm in Wayne county two miles north and three east of Wayne. The Hermans fatten an average of 400 head of cattle that help boost the country's larder and furnish a profitable means of marketing their large supply of corn, alfalfa, brome and hay. The Hermans feed all the corn they raise and in addition buy corn. They use approximately 175 tons of ensilage and the same tonnage of alfalfa and brome hay each year in their operations.

In Livestock Business. In addition to their livestock feeding, the Hermans have commercial Hereford cows. Leland has started his own purebred Polled Hereford herd. The Hermans feed the steer calves for market. They cull the heifers and save the best for replacement in their herd.

The life story of Mr. and Mrs. Herman is typically American in that they started with little except lots of courage and ambition and have, through individual initiative, established an outstanding farm and stock business. They are leaders in their community, church and school, and a host of friends look to them as good neighbors.

Is Native of County. Mr. Herman is a native of Wayne county. His father, the late Nels Herman, came here in 1881 when the railroad was extended from Sioux City westward through northeast Nebraska prairie and when the towns of Wayne and Wakefield were established on the new line. His father, young and ambitious, established his home seven and a half miles east of Wayne and there Walter J. Herman was born. Walter Herman was of sturdy stock and early learned the joy and reward of industry. His early home life schooled him in meeting and overcoming hardships. He learned to the cooperative spirit of midwestern farmers. He was exceptionally well equipped to start out "on his own."

Mrs. Herman Helps Much. When Mr. Herman married Julia Lundahl, who came to Wayne county from Red Oak, Ia., the couple established their home on their present place, first renting 240 acres. That was in 1920. Meeting financial demands was hard at first but Mr. Herman says that Mrs. Herman "kept up the morale with her sunny disposition" and by 1928 they were able to buy the 428 acres. They paid \$160 an acre for this and of course had to manage carefully for some years to pay

HAS LONG RECORD OF OVERSEAS DUTY

Pfc. Lyle Lincke writes the Herald from France as follows: "There isn't much we can write about but I want to let you know I am happy to receive the Herald. It helps me keep in touch with many men in service. "I was with the first group to leave Wayne county for military training. Seventeen of us left February 27, 1941. We were all in different branches so I don't know where the others are. "So far I have spent 34 months overseas. I was in the southern jungles for many months. Then I was sent to Camp Shelby, Miss., for eight months. Next I went to England and then to France. "It's a kind of a bad life. We sleep on the damp ground in holes. I haven't seen a bed or eaten from a plate in months. The rats of our big guns and dive bombers jar the teeth at night. I certainly like England lots better, even though the climate there is damp and cool.

Now we are only getting two meals a day. If we want anything else to eat we have to find it. Three of us traded tobacco for a nice bunch of strawberries. "I am sorry to say I must close. This candle is almost out. Hope to be home soon."

CARROLL YOUNG MAN PROMOTED BY ARMY

Oliver O. Koles, son of Mr. and Mrs. C. H. Koles, Carroll, was recently promoted to rank of captain, according to announcement by war department officials.

Captain Koles, a graduate of Carroll high school, later attended Iowa state college where he was awarded a state teacher's certificate. He enlisted in the medical corps November 29, 1936, transferred to the finance department January 13, 1938. He was appointed a warrant officer May 15, 1942, and received a direct appointment to first lieutenant in November, 1942. Arriving in Europe Oct. 11, Nov. 30, 1943, Captain Koles has held the position of finance officer since that date. A sister, Miss Wilma L. Koles, WAC, is in the army postal service in New York City. Previous to entering the army, Captain Koles was a school teacher in Wayne county.

YOUTH TRANSFERRED TO PACIFIC ISLAND

Pfc. Arthur Jewell was recently transferred from New Guinea to another Pacific island. He writes the Herald that the papers have been reaching him quite regularly. "I wish to thank you again for sending it to me. It contains a lot of information that I have no other way of receiving. The young man writes, "I wish to thank the Legion for holding funeral services for my brother and the studio which painted his portrait. It means a lot to us here to know that people are willing to help all they can when we are unable to be there. The young man writes that he has been over there a long time and hopes to return home soon. He comments that "the war bows its good now and will soon be a lot better."

WAYNE YOUNG MAN AIDS PLANE REPAIR

M. Sgt. Robert C. Adams son of Mr. and Mrs. A. G. Adams of Wayne, serves in a depot supply squadron at an 8th air force service command station in England. Sgt. Adams is a chief clerk in air corps supply, supervising the operation of his section that handles priority requests on parts for battle-damaged Liberator bombers. His section assures quick action on such requests so as to repair the planes with the least possible delay, that they can take to the air against the enemy. A 1930 graduate of Wayne city high school, Sgt. Adams entered Wayne State Teachers college where he was a member of Lambda Delta Lambda fraternity. He was graduated from there in 1935. The officer entered service in June, 1941, and has been overseas since December, 1943.

LIKES NEW SERVICE IN FAR ALEUTIANS

Cpl. Sol Grunke is now in the Aleutians, being transferred there about three weeks ago. He made the trip to his new station by air and said he enjoyed it. The young man writes "I'm not working in an office now. In a way I'm glad as 14 months in that type of work was enough. I am now doing first and second echelon maintenance work on 'jitneys' and 'fork lifts.' These machines are used in unloading cargo from ships. "The weather out here on the islands is not as pleasant as on the mainland of Alaska. It rains a great deal and is cloudy most of the time. However, the last two days have been just like a fall day at home. Another thing, at times the wind is terrific. You might think you have wind back there, but believe me you don't know how hard it can blow. "Cpl. Grunke does not believe the war with Japan will be over for quite awhile. He believes it is a different type of war altogether than the war with Germany. A Japanese soldier is hard to take prisoner, and he thinks that may cause the war to last longer. "Because of the recent transfer Cpl. Grunke missed his 15-day furlough by about three weeks. "I can take it all right, but when a guy gets that close to a furlough and then misses it, it hurts." "Cpl. Grunke says he enjoys receiving the Herald very much. Gene Clerry of Laurel, navigator based in England, has completed 50 missions over Europe.
