### Miss Laura Lyons Writes from West

Miss Laura Lyons writes from Long Beach, Calif., that 39 is the lowest the thermometer has gone there this winter.

California has 17 of the first 25 agricultural counties of the United States with Los Angeles county not only first in the states but in the world.

Construction work is continuing at a record pace on the coast. A new bridge has recently been completed to shorten the distance from Long Beach to Terminal Island. A naval ammunition depot

is to be erected on 5,000 acres of seaside land by Seal Beach. Douglas Aircraft is constructing 26 Stratoliners of tremendous size at a cost of \$40,000,000. The ship will be twice as large as a Pan-American Clipper.

The Press-Telegram merged with the Morning Sun January 1. A large three-story addition is being erected adjoining the present building. As soon as war conditions permit a \$300,000 Goss high speed press with electric controls, multiple color attachments and other modern equipment will be added to the plant.

Miss Lyons had the pleasure of

hearing Dr. Walter A. Maier, the speaker on "The Weekly Lutheran Hour" at a church rally in Long Beach, December 3. One of the ushers was Paul Rothwisch, formerly of near Carroll. The following Sunday a Lutheran Service center at 38th and Pine avenues only two blocks from the pier was dedicated.

Rev. Leslie Eads, formerly of Wayne, is now preaching in Alhambra as well as giving a program over KGER Thursday from 9:05 to 9:30 p. m.

Lura Otte Roberts, former student at the college in Wayne, is now in Tennessee caring for her

father who is ill. Mr. Roberts says that Mrs. G. J. Hess is his former Sunday school teacher.

Private Betty Hinkle of Randolph, was an attendant at the marriage of Private Marcella Hawkins of Long Beach, to M. Sgt. Roscoe Stocall of Henderson, Tenn., at a service at a quaint Anglican church in Italy.

"Evelyn Starmer, daughter of Mr. and Mrs. Magnus Jensen, formerly of Winside, whose husband was killed in the Pacific, was recently married and moved to Tucson, Ariz. Magnus Jensen is still fireman at station No. 1 and his wife is employed four hours a day at Douglas feeder plant. Her brother, Ralph Parker, is in service in the Pacific as keeper of the guns in the coast guard. Elizabeth Jensen Glass and family moved to Newport recently as they sold their home in Whittier. Her husband is working with the boats while her son, Walter, is physically unable to enter service.

Miss Lyons tells that "when McKenzie relatives of this vicinity went to their parental home in Bakersfield they found the Christmas tree decorated with 39 \$25 war bonds, one for each of McKenzie's 11 children, 17 grandchildren, one great grandchild and 10 in-laws."

Miss Lyons closes with best wishes to all.

Will Move to Wayne.

Mr. and Mrs. John Lorenzen who held a farm sale January 3, will move to Wayne where they bought Mrs. J. B. West's property on west Second street. The E. M. Morris family move this spring from near Carroll to the Lorenzen farm.

WILBUR Club Meets.

Wilbur club members and Mrs. Mike Draghu, Mrs. Chas. Junek of Carroll, and Mrs. Will Hansen met Tuesday afternoon in the Leslie Phillips home with Mrs. Lloyd Dunklau assistant hostess. The group did Red Cross sewing. Mrs. Emil Hogelen will have the next meeting. Mrs. Arnold Reeg will assist.

Successful Year Closed by Church

Annual reports for Grace Lutheran church reveal a most successful year just completed. Records compiled by Rev. Walter Brackensick show 319 members eligible for communion, counting 25 in the armed forces, and 449 baptized. The Sunday school has 115 enrolled, Saturday school 48, voters' assembly 54, Ladies' Aid 32, young people's society 48 with 15 of these in the armed forces, Men's club 18.

A total of 16,336 worshiped at Grace church last year, this being an average of 264 for English services and 24 for German. This is an increase over the 15,154 total of the previous year. Communion was taken by 946. Besides the 23 confirmed, 13 were added by confession of faith and 21 by transfer.

The pastor officiated at baptism of 11 babies and one adult, confirmed 16 children and seven adults, performed four marriages and conducted one funeral. He preached 80 sermons in the home church, 12 in other churches and 13 on the radio. He also conducted Saturday school, confirmation instruction and Bible instruction; helped the Aid, Walthier league, choir, teachers and men's clubs; issued many bulletins for local members and for the armed forces; and made scores of pastoral calls.

The congregation has paid \$6,500 on its church indebtedness the past year, leaving only \$2,000 to clear the new building. A grand

## Rural Areas Asked To Aid in Fat Drive

A two-point program to stimulate rural used fat collections was announced by the war food administration, which agency is working with the extension service and county agents in a drive to collect fats. It is believed that an additional three to five million pounds of used fats monthly can be collected in rural and small town markets. A recent survey showed these areas supplying one-fifth pound of fat per month per occupied dwelling whereas the army and navy are saving more than four pounds per man per year. The fat salvage is a serious wartime obligation. To facilitate the work of the war food administration, the railway express agency has issued a statement instructing 23,000 local agents to pick up used fats from meat dealers and deliver them to renderers.

## Motor Truck Needs Far From Supplied

The total authorized program amounts to 186,792 light, medium, light heavy and heavy-heavy trucks, or 24.1 per cent of the GDT stated requirements of 773,935 vehicles. To obtain new vehicles, truck operators must show that the vehicles will be used in operations directly related and necessary to the war effort or the maintenance of essential civilian economy.

## Nebraska Senators Score High Record

The republican conference of the senate met on Thursday, January 4, to select the members for the regular standing committees, and Nebraska was recognized in a very complimentary manner. Senator Hugh Butler was selected a member of the important committee on agriculture. He continues on two other major committees, finance and banking and currency. He is also a member of the committee on irrigation and reclamation and the committee on territories and insular affairs.

Senator Kenneth S. Wherry, in addition to being reelected as republican whip, was made a member of the important committee on appropriations, and the committee on audit and control of the contingent expenses of the senate. He continues as a member of the judiciary, claims, and public buildings and grounds committees.

With the selections made by the senate, Nebraska's two senators will be accorded the opportunity to represent every angle of the state's interests. These committee assignments indicate the splendid records made by Nebraska's two senators, who have each established the record of being hard-working members. Few people realize that the real worth of their elected representatives in the congress of the United States lies in their ability to work in the committees.

## CREDIT ASSOCIATION TO MEET IN NORFOLK

## RETAILERS OF MEAT MAY ASK ADJUSTMENT

Retailers and wholesalers of meats and fats may apply for a point adjustment if, on the basis of the new point values, they have a current net point inventory that is less than 75 per cent of their allowable inventory and it is a hardship for them to operate on the points they have. These inventories can be taken on any day before December 31, 1944, and January 27, 1945. All applications must be received by the local war price and rationing board with which the applicant is registered on or before February 10, 1945.

## Certificates of War Necessity Are Good

Certificates of war necessity issued to commercial motor vehicle operators are good indefinitely and need not be renewed on an annual basis. Operators need not have their certificates reissued unless they propose to change the character of their services or the territories for which present certificates were issued. As handling of gasoline rationing functions relating to temporary allotments of gasoline was transferred from ODT to Office of Price Administration October 15, commercial vehicle operators should have turned in all fourth quarter rations on hand at the end of 1944 to that office.

## Library News

In checking over the circulation statistics for the year 1944 we find that the book which led the list was "The Robe" by Lloyd Douglas. Other popular fiction books this past year were "Leave Her to Heaven" by Ben Ames Williams, "A Tree Grows in Brooklyn" by Betty Smith, "A Bell for Adano" by Jody Hersey, and "Dragonwyck" by Jody Seton. On the non-fiction list Eric Pyle leads the list, with his two books, "Here Is Your War and Brave Men, I Never Left Home," by Bob Hope, "God Is My Co-Pilot," by Scott, and "The Sad Sack," a cartoon book of the war, have also been very popular. In fact books on the war by reporters or service men have been much in demand. More non-fiction was read this year than last year although the demand for technical books has fallen off since the beginning of the war. The number of children reading increased last year and the number of teen age readers has also increased. The secretary of the state war finance committee, urges the importance of keeping books. "The cost of the war goes on from day to day and we must have money to make sure that our boys on the fighting fronts have plenty of equipment. Bonds are an investment in America."

Leon J. Markham, executive secretary of the state war finance committee, urges the importance of keeping books. "The cost of the war goes on from day to day and we must have money to make sure that our boys on the fighting fronts have plenty of equipment. Bonds are an investment in America."

# An Army That's Never Been Beaten

**THIS vast American agricultural army doesn't know the meaning of defeat.** These millions of American farm and ranch people are advancing along the road to final victory, shoulder to shoulder with the men and women in the armed services. No "E" flags fly from the ridge-poles of their barns. . . no medals are pinned on their shirt fronts. Their reward is the inner satisfaction of a job well done. Look at their record of victories! In 1944, food production again reached an all-time high - 158,950,000 meat animals were slaughtered; 3,101,000,000 bushels of corn, 1,115,000,000 bushels of wheat; dairy products, poultry, eggs, etc., in record or near-record quantities! And because they produced all this food, the meat packing industry was also able to process and distribute a record volume of meats - 25 billion pounds. Each year since the war started, what seemed to be "impossible" goals were set for food production. Each year these objectives have been reached and surpassed in spite of shortages of help and machinery. Farmers and ranchers have produced the staggering tonnages of foods required to feed millions in the armed services and the rest of the nation at home. America is proud of the victories won by this "Army That's Never Been Beaten."

**\$5.00 FOR YOUR GOOD IDEAS!** Practical ideas which you have found helpful around your farm or ranch are worth money. We invite you to send in brief descriptions of any original idea or handy gadget that has helped you in your farm or ranch work of producing livestock, dairy and poultry products, soybeans, cotton or other crops. Selected ideas will be published on this page, and we will send you \$5 for any item of yours which we print. Items cannot be returned to the sender. Mail your ideas to Swift & Company, Agricultural "Good Ideas" Editor, Chicago 9, Illinois.

**CEILING PRICES ON LIVE HOGS** Under the present regulations, the ceiling price for all live barrows and gilts is \$14.75 per hundredweight and for all sows, stags and boars the ceiling is \$14.00 per hundredweight. These ceiling prices are for Chicago only, and vary from market to market. The difference between the ceilings for sows, stags and boars, and for barrows and gilts is 75c at all markets, however. Present support prices are as follows: "Good" to "Choice" barrows and gilts that weigh between 200 and 270 pounds have a floor price of \$12.50, Chicago basis. At terminal and interior markets other than Chicago, the support price is \$2.25 below the ceiling price (as of Nov. 15, 1944) at that market for hogs within the 200 to 270 pound weight range. These support prices will remain in effect until June 1945.

## What's Ahead for 1945?

**FARM AND RANCH MOVIES** Three professionally made talking pictures: (1) Cows and Chickens, U. S. A., (2) Nation's Meat, (3) Livestock and Meat, of intense interest to farmers and ranchers. Ideal for farm and livestock organizations, lodge, club or school performance. All you pay is transportation one way. Can use these films only on a 16 millimeter sound projector. Please order a month in advance.

**SODA BILL ALLOWS:** -If you use all the steam to blow the whistle, what'll you do for power to turn the wheels? -A man is successful when his earnings catch up with his yearning. "What do you know?" Answers: (1) Argentina (2) 25,000

**Another new year starts, full of promise, and questions for American agriculture.** Will the war end in 1945? How much food will Europe need from us? Will rationing and price controls be relaxed? What about the feed situation? These are but a few of the "ifs" we are up against when we make plans for the coming year. To help livestock producers, we here condense opinions recently expressed by War Food Administration economists.

**CATTLE:** They foresee for '45 an increase in the number of cattle and calves slaughtered, partially as a result of the tendency to reduce the size of herds. They also expect an increase in the number of cattle fed for slaughter. From 1946 to 1949, they expect a gradual decline in slaughtering, with yearly slaughter around 28 to 29 million head.

**HOGS:** Their estimate of total 1945 hog slaughter is about 79 million, against approximately 100 million in '44. They expect hog production in 1946 to be close to 1945 levels, depending on the feed situation.

**SHEEP, LAMBS:** Slaughter in '45 will likely be the smallest since 1929, due to recent selling of breeding stock. By 1946, they see a demand far exceeding the supply, leading to possible expansion of flocks over the following five years. This trend may be upset by wool-factor uncertainties.

**THE EDITOR'S COLUMN** In nearly 20 years with Swift & Company, I have talked with thousands of farmers and ranchers in all sections of the United States, and have tried to bring about a better mutual understanding in the American livestock and meat industry. I have benefited greatly from these talks. But even in 20 years, a man can get the viewpoint of only a relatively few people. That is why this page has been born, so that we can talk things over with more of you than it is possible to do personally. We want your constructive ideas, views, and thoughts for the betterment of the livestock and meat industry. We will welcome your suggestions and fair criticisms. Any questions you raise will be answered in these columns, or by letter. Should you feel like writing me a letter about any agricultural matter, please do so. Or if you are in Chicago, drop in at my office at Swift & Company, Union Stock Yards. If you haven't time to visit, perhaps you can phone me at this number - Yards 4200, local 710. May the new year bring to all of you good weather, good crops, good returns for your work, good health, and an end of war. F. M. Simpson, Agricultural Research Department

**Writes from Philippines.**

From somewhere in the Philippines, Cpl. Wendell Ballinger, formerly of Wayne, writes to Mr. and Mrs. Robert Aulker that there is "some excitement around here quite often, but we have been lucky so far. Some get hurt now and then but a person can expect that."

"The people I have seen here are very nice," the soldier continues, "and are willing to help all they can to get the war over, so all can be free again. They are very short on clothing as the Japs took it from them. We make little trades with them, clothing for things to eat such as bananas, eggs, chickens, fish, etc."

"Most of those I have met have a good education and are very polite. I almost adopted a small boy, 14. He certainly is a nice boy, and he really cried when we told him we could not take him with us. We meet a lot of them like that. The girls are quite pretty even if they haven't gotten to fix themselves up with. One gave me

a very nice piece of handwork and I hope to get a pillow to put it on when I get back to the states.

"More of the boys right along are going back to the states on rotation. Hope my number will come up before long."

Cpl. Ballinger tells that many of the boys have monkeys and parrots for pets.

"We will spend Christmas here in the Philippines but it is not going to be a white one or a happy one either. But we will just make the best of it and maybe next year it will be more happy."

**NEBRASKA CHICKEN ENJOYED BY YOUTHS**

The chicken-canning fame of Mrs. Alma Peters of near Norfolk, is spreading. Twelve infantrymen in New Guinea have voted Mrs. Peters "the girl we would most like to have prepare our meals." And soldiers in France have enjoyed Mrs. Peters' chickens.

Cpl. Donald Bierman of Battle Creek, writes from New Guinea that "pinup girls are swell for building morale, but the quickest way to a soldier's heart is through his stomach." The youth has convinced his pals that Nebraska and its people are swell.

M. Sgt. Wayne Overmire, writes from France, that he and his buddies huddled around a little stove in a shell-torn depot that leaked the cold, monotonous rain, to enjoy some Nebraska chicken canned by Mrs. Peters. The men cooked the can of chicken and enjoyed the "most beautiful golden-brown fried chicken the world has ever seen."

**Word Is Received From Prison Camp**

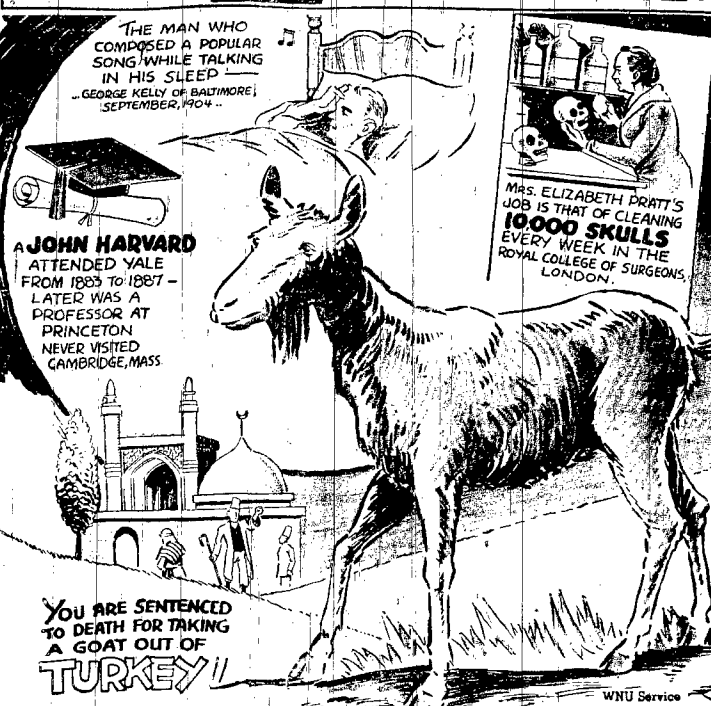

Cards written by 1st Lt. Beverly Canning August 19 from a German prison camp reached his wife and parents here just before Christmas. The young man said he is well and is even getting fat, likely due to eating many potatoes and having little exercise. He mentioned that the weather had been quite nice and he had attended a play. An earlier card told that the men had been allowed out of the fenced and gun-guarded enclosure long enough to go swimming in water near the camp which is in northern Germany.

Mrs. Beverly Canning recently had a letter from Lt. Sidney White of Milwaukee, one of the men who had been with Lt. Canning and who returned on an exchange ship. Lt. White and others who came home because of serious illness or injury, said that July 19 the Wayne youth was well. Mrs. Canning answered Lt. White's letter but has had no further word from him.

Lt. Canning, who had been based in Italy, went down in February. In August he had not yet received mail from home but expected some soon.

Miss Agnes Spangler of Stanton, teacher at Winnetka, Ill., has written three texts in English for service men. These are self-teaching courses distributed through the armed forces institute.

Harder has been informed. Cumming county in northeast Nebraska is reported moderately infested. Weather conditions from August to October were ideal for hatching and developing second generation bugs. Not much damage was done because grasses and other food plants were so plentiful.
