

SIXTY-THIRD YEAR

WAYNE, NEBRASKA, THURSDAY, MARCH 7, 1946

NUMBER FORTY-THREE

Day Comes This Week — Dust Storms — Teaching Problem — An Involved Question — Good Philosophy — Enterprise at York.

Friday of this week has been set apart as special Farmers' day when qualified speakers will be present to discuss current problems involving agriculture and livestock. Besides information from experts, exchange of ideas will be valuable. Farm production was never more necessary, and the judgment of many may contribute to practical conclusions.

Townspice will be alert to due courtesies. Merchants have arranged attractive trade advantages. So, farm visitors may profit from buying opportunities as well as consideration of farm practices. The meeting is held sufficiently early not to interfere with the annual spring rush.

Rain Needed. Reports of dust storms on the west Nebraska-Kansas line, destroying considerable planted wheat, cause uneasiness that can be cured only by soaking rains. Too little moisture in past months arouses fears of repetition of what happened in the sadly remembered "thirties." Farmers, generally agree that heavy spring rains are more important than an abundance of snow, but coming moisture is still uncertain. The need of stored water and irrigation is emphasized. Everybody is hoping for the best. And at no time were big crops more necessary than now.

Improved Pay. The teaching profession received a liberal airing in Town Meeting of the Air Thursday evening. Generally inadequate pay was frequently mentioned as reason for teacher scarcity. More pay would warrant higher expectations. Over-critical patrons hinder content in teacher ranks. The P. T. A. was commended as a helpful organization. Humoring school boards, parents and pupils is a formidable task. Parents are prone to saddle home responsibilities on school heads, and then blame the latter for child delinquency. It was agreed that teaching qualifications have improved steadily through the years.

Question of Sin. Next week this column will be devoted to the subject of sin, for which definitions were recently invited. Response to our query reflects so far none of the fundamental opinions. If the question arouses people to think and to evaluate good and bad, its consideration will be worth while.

Shows Courage. A farmer whose house burned, showed refreshing courage when he said he did not feel like giving up. He promptly faced ahead, set about repairing damage and accepted unavoidable losses without complaint. His philosophy is sound and serves him well in the task of rebuilding.

Bonds for Aviation. The city of York is reflecting the spirit of live communities by voting \$28,000 worth of bonds to establish a municipal aviation field. York is not only orderly and good looking, but it is making progress.

Sound Film Shows Promising Future. Vast Improvements Appear In Prospect for World Within Few Years.

A future that is as modern and beautiful as humans can conceive awaits the world in about 1960, according to the technicolor sound film, "The New Horizons," produced by General Motors and shown to Kiwanians Monday by Dr. Geo. Seck.

New horizons mean new things and new places. Engineers and scientists are planning and building for tomorrow. New beauty and conveniences in homes, lessened risks, reduced diseases, fine highways of many lanes that can be traveled with greater speed and more safety, turning-off lanes that are elevated or depressed for convenient driving, more amusement parks, improved transportation and communication, model airports, picturesque towns, landscaped river banks and quarter-mile skyscrapers with landing decks for gyro are among the things included in prospects for tomorrow.

The future is what man makes it, and much vision is shown in prospects for that time, the film showed. Dr. Ray Bryan presented Dr. Seck. With Jean Boyd and Prof. Russell Anderson in charge, the group sang "Kiwanis Lives," "America the Beautiful" and "Now Thank We All Our God."

House Is Bought By Curtis Foster. Mr. and Mrs. Curtis Foster, Jr., this week bought the house at 109 west 9th belonging to Mrs. Elma Baker of Norfolk. The Dan Turners, who live in the property, will move in April, and the Fosters will then move to their property.

Leaders Named For Red Cross

Annual Membership Drive Will Be Conducted in Area This Month.

Mrs. Lawrence Ring, who has served as vice chairman of Wayne county Red Cross chapter for several years, is new chairman. Supt. Stuart Baller is vice chairman, K. N. Parke secretary and J. C. Carhart treasurer.

The annual membership drive, which is being held during March, is in charge of Dr. J. T. Gillespie. Supplies are to be sent within a few days to solicitors who are asked to complete the solicitation as soon as possible.

To clear a recent question as to why Red Cross funds were given to AF of L and CIO, Chairman Basil O'Connor explains that the labor organizations solicited for all war relief programs among their 40 million people. All money was turned to the Red Cross and the latter refunded expenses of the drive to the labor groups. Mr. O'Connor reports that the plan resulted in generous support of the welfare programs and reduced the number of wartime appeals.

HERALD RECEIVES SUFFICIENT PAPER TO FILL BASEMENT

AFTER a hard winter trying to replenish a diminishing supply of news print paper, we have succeeded in capturing shipments from three sources, and our basement is now filled. We got down to 2,000 pounds that would last two weeks. We used the telephone repeatedly. The delay was exasperating. We figured out a round-about and costly way to meet our responsibility in case the stock ran down to nothing. Luckily that did not happen. We escaped by a narrow margin. We will now be able to devote more time to worrying about other things particularly world affairs which are in a bad fix.

Resolutions Are Passed by Dads

Art Thomas, State Chairman For Group, Is Speaker Here Thursday.

Resolutions regarding housing, on-the-job training, tax exemptions, demobilization, military court-martial, and musical therapy were adopted by Wayne county chapter of War Dads Thursday evening when about 50 met at the Women's club rooms. Art Thomas of Norfolk, state publicity chairman for War Dads, was guest speaker.

The resolutions adopted were prepared by the national executive committee of War Dads at Kansas City.

Because of the extreme housing shortage and because the home is the cornerstone of civilization, War Dads declared in their housing resolution that available materials should be released for veterans' projects, that surveys should be made to help veterans locate housing, that civic groups take active steps to provide housing for veterans, and that surplus government material be made available to veterans at fair prices. It was further resolved that federal land used for camps and war projects be made available for purchase by veterans at fair price for small farms.

War Dads' resolution regarding on-the-job training asks that a special committee be appointed to make a thorough investigation of the program with a view to determining a specific, practical plan whereby the setup can yield the greatest possible benefits to veterans and employers. War Dads feel that lack of control and supervision have resulted in confusion and misunderstanding for both veterans and employers in this training plan.

The organization believes that veterans transferring from service to civilian life are confused by income tax and other deductions and that this confusion often leads them to accept government allowances while seeking occupations. War Dads ask that the law be amended to exempt from income tax the first \$2,500 earned salary per year of World War II veterans and extend this exemption to a period of three years from date of discharge to give veterans time to become rehabilitated. It is believed this will reduce the number seeking government remuneration for 52 weeks under the GI unemployment section.

War Dads expressed regret over the demonstrations by American (Continued on Page Two)

WARM SUNSHINE IS NO ASSURANCE OF CLOSE OF WINTER

THE last days of February and the first days of March were reminders of warm springtime. They imparted the urge to haul off rubbish and other unsanitary evocators, to put up screens, remove storm doors and get into fields to prepare ground for planting. Days were so mild in February and early March that oldtimers looked forward doubtfully. They were not satisfied the weather would remain free from snow and cold. They will hold back eagerness to plow until the season is sufficiently advanced to guarantee permanency. Spring may be considered early without starting in February. The weather will be eyed suspiciously until well into April.

boys who are disappointed in the manner of demobilization. War Dads express confidence in Gen. Dwight Eisenhower and ask that he be supported in his demobilization plan.

In another resolution War Dads seek investigation of the court-martial system of the army and navy. They recommend that committees of congress examine the system in operation and if injustices and inequities are found, the committee shall ask congress to enact measures necessary to correct any wrong conditions.

Because specialists recommend music for some veteran patients and because the government has surplus organs and other instruments, War Dads ask that proper government agencies make this equipment available at once to hospitals in which musical instruments are needed.

Mr. Thomas stressed the importance of large membership in War Dads so that the group may have weight in Washington on such requests as those presented in the resolutions and on others that may arise for benefit of the veterans. He explained the movement for better hospitalization and rights under the GI bill.

Two Are Featured In Farm Magazine

Two Wayne county farmers, C. J. Exleben and Herman Dinklage, are featured in articles in the March issue of Capper's Farmer, a nationally circulated magazine.

Mr. Exleben's very simple scheme is to mow the cheat immediately after it heads. He seeds smooth brome in spots where the cheat is likely to flourish and this crowds it out.

Mr. Dinklage, who lives near Wisner, is featured in the article "Cheaper Steer Gains." Alealini with the advantages of bromo-alfalfa pasturage. Mr. Dinklage had 200 steers in his pasture and found that they ate seven pounds less corn a day from April 10 to marketing time than they would have in a dry lot. How to Make Lenten Menus Interesting

For a satisfying lunch I serve these sandwiches along with Cream of Pea Soup. Then for dessert I like a Frosted Apple Dumpling and plenty of hot coffee or tea.

Make sandwiches using a well-seasoned tuna salad mixture. For each 3 sandwiches mix together 2 slightly beaten eggs, 1/2 cup of milk and 1/2 teaspoon salt.

LIMA BEAN AND CHEESE SALAD Buttered spinach or Swiss chard, hot iron muffins and chocolate cake for dessert combine with this salad to make a complete supper or lunch.

To 2 cups of cooked dried lima beans, well-drained, add 2 cups American cheddar cut in small cubes, and 1/2 cup pickle relish. Toss lightly with Thousand Island Dressing. Serve in bowl lined with cabbage leaves. Serves 6 generously.

Thursday, March 7, 1946.

Truman Slipping IF President Truman could have continued as he began, by showing stout resistance to CIO and other pressure groups, he would have grown instead of diminished in executive stature. By swearing defiance to designing politicians, forgetting party politics and another term, he could have risen above limited qualifications and left a record satisfactory both to himself and to his friends. But he has been flirting with his party's left and right wings, and as a consequence he has been losing ground. The probable outcome of this year's elections will reduce his power over congress to nothing.

History shows vice presidents have not fared well as candidates for the presidency. The Norfolk Daily News mentions that Theodore Roosevelt and Calvin Coolidge were the only ones to become presidents. The News goes on to explain:

"Of the other four—John Tyler, Millard Fillmore, Andrew Johnson and Chester A. Arthur—Tyler and Johnson did not belong to the party that put them on its ticket and so had no claim for renomination. Both had split the party that elected them. Fillmore had offended the anti-slavery element which was becoming strong in the Whig party and could not gain the aid of the southern wing.

"Political historians will probably note a similarity between the career of Chester A. Arthur and that of President Truman. Arthur owed his rise in politics to the not very savory New York Republican machine. But when he became president, he rose above his early associations and went in for reform. The result was that he offended his old machine associates and could not gain the confidence of the reformers. He had little support for renomination.

"President Truman also was a machine politician and rose with the help of the corrupt Tom Pendergast of the Kansas City gang. He is evidently trying to play the game with the two opposing groups in the Democratic party—the New Dealers and the strong municipal bosses. But his appointment of Ed Pauley is losing him the confidence of the good government element in both political parties, and it is doubtful if the city machines can force his nomination, if the New Dealers oppose him.

"Unless he can learn to ride two horses which are trotting on divergent paths, he is likely to take the same tumble as Arthur and the three other vice presidents who were unable to unite their party factions behind them."

Wherry Refuses IT now looks as though the Butler-Griswold contest for United States senatorship must go on to the finals. Prospect last week indicated a possible switch of Senator Wherry to the republican national chairmanship, and in that event his resignation from the senate. That led to speculation touching Governor Griswold's resignation and his appointment to the proposed senatorial vacancy. But this happy solution was knocked but when the junior senator announced his intention to stick to his present post.

If Senator Wherry were to accept the national chairmanship, he might or might

not be agreeable to the next republican presidential nominee, and if not, he would be expected to retire. Then he would be out and have to start over. He is too long-visioned to run that chance.

Senator Wherry and Senator Hugh Butler, the latter of whom is out in the dustings for a deserved second term, are doing wonderful team work. Both are soundly constructive, and they are pulling together for a greater Nebraska and an unimpaired nation.

The International Teamster of which Daniel J. Tobin, president of the organization, is editor, publishes in its March issue names of congressmen who went on record for and against the Case bill which is designed to regulate labor unions. The obvious intention of publishing the names is to direct the labor vote. Union members are asked to remember the November election. And farmers and townspeople who have become incensed over the way strikes have obstructed reconversion, will also remember the November election. All Nebraska congressmen voted for the Case bill.

We are confident American statesmen will accord every right to Russia and do everything in their power to avert trouble with that country. That tallies exactly with popular desires in the United States. No doubt Russian people feel the same. The rational masses nowhere want war. If leaders of the soviet union would consult home people and be influenced by their wishes, they would be fair in their approach to international problems and abide by the letter and spirit of their agreements, thus preventing conflict that would only multiply losses.

Killed in Nebraska motor accidents in February were fifteen, or six more than in the same month last year. January and February brought forty fatalities as compared with twenty-three in the same months of 1945. Captain C. J. Sanders of the Nebraska safety patrol, attributes increased accidents to careless driving. He urges exercise of greater care on the part of the person behind the wheel to avoid piling up an all-time high in highway tragedies.

The story of Theodore Roosevelt by the late William Allen White, revealing Washington's inner political circles some forty years ago, suggests many bitter personal hatreds among party leaders. This is rather disheartening. A close-up view of party stalwarts tends to trim down high appraisals. It would seem men big enough to lead should be big enough not to be influenced in public service by personal piques.

Troublesome John L. Lewis announces steps looking to a strike of 400,000 coal miners. This threat comes at the wrong time of year to cause the most trouble to coal users. Tying up fuel production in November when winter and happy Christmas season approach, is the time to inflict the most hardship on the innocent public. Demands for more pay now ought to be settled before next autumn.

Columnist Louis Bromfield thinks mechanics and industry have become masters instead of servants, and as a consequence people have been losing soul values which are more important than any other values. He advises using mechanical marvels advantageously under control, and not allow them to rule men's minds and weaken human fiber.

If ceilings on wages and prices do not put a ceiling on opportunity, they hinder the latter a good deal at this time when plenty could be done if there were enough to do with. Opportunity wants to knock at every door, but it is held back by a lot of government restraints and resulting scarcities.

We have long been of the opinion that an editor needs the thick hide generously provided for the rhinoceros.

HIROSHIMA.

David Lawrence, columnist, suggests that the United States rebuild destroyed Hiroshima "as a symbol of spiritual awakening." Japan's city of 400,000 inhabitants was reduced to shambles by the atomic bomb. Helpless women and children were slaughtered. Lawrence is not unimpressed of the savagery practiced on American soldiers in the Philippines, but he would set a Christian example as a contribution to future understanding and world peace. He would be just and humane with ample force to use if necessary. He would be firm without revenge.

INITIATIVE. An article in Nation's Business urges the spirit of private initiative as the spur to spread prosperity and maintain a high standard of living. The policy to redistribute wealth has been tried and has failed. The rule of merit is being restored. "If the incentive to unlimited opportunity is permitted to operate," says the magazine, "the American way of life will perform miracles as great in peace as in war." Says the magazine in conclusion: "A prosperous nation will assure to our government abundant federal revenues. In turn, adequate revenues and reasonable economies in government are our best assurance of sound government credit. Prosperity is geared to quantity and quality production of goods—the natural brake on rising prices. The private wealth of this country is more equitably and geographically distributed throughout the nation today than at any other time. It is in the fertile fields of production and profits that we plant the seed of encouraging the orderly creation of wealth and the broadening of the invested capital base of the nation. Upon these cornerstones rests a healthy and vigorous economy."

After a short trek to the highway, two cars brought all to Wayne—tired but satisfied with the day's efforts.

Library News

As a rule men are more interested than women in reading about politics, foreign countries, vocations, science and invention. Women are more interested than men in human behavior, interesting personalities, religion and homemaking. Whatever your interest, there are books for you at the public library. Borrow them! Take them home and read them at your leisure. If you don't like the novels of today turn to some of the other types of reading matter. You will discover a whole new world of books which has become more and more interesting while the novel has deteriorated.

Just nine more days before the deadline for income tax returns. Have you made sure about the exemptions to which you are entitled? Any doctor's bills this year? Organization dues and magazine subscriptions connected with your work? There is still time to check your return by consulting Lasser's Your Income Tax. This simple book may be borrowed from the library or bring your blanks to the library and work on them right there.

One of the new books which will interest returned service men is a new one just received by Morton Thompson called How to Be a Civilian. Beneath the banner in the book there lies a serious and often angry purpose. It advises the veteran on how to meet the complications which will confront him the moment he steps out of the peace and security of army life into the shambles of the civilian world. It is full of fun, but seriously meant as a book for the discharged soldier, his family and his friends.

One of the most delightfully written books to come into the library in a long time is Lovely Is the Lee. Here is the simple and ancient life which still exists in Ireland. The book is full of anecdote and story, folklore and scenery, bird-love and fishing, and, above all, good talk. The \$10,000 Harper prize novel.

by Jo Sinclair with the title Wasteland is a book dealing with a psychological study in family relationships, and something of a masterpiece in its ability to evoke the emotional frustrations of Jewish life in America. We are proud to have this book in our library.

IS IT NOTHING TO YOU? ARE you among the preoccupied crowd that rushes heedlessly by the Saviour year after year? Can you afford longer to neglect the vital issues of life? What is life? Why are you here? Where are you going? Are you created merely for this brief, restless existence here on earth, to live your short span of life and then cease to exist? When death comes, what then? Are you ready to meet your God? The man or woman who puts these questions off and lives on with thoughtless abandon from day to day is gambling with eternity. Do not try to choke your conscience. It is the best friend you have. Let it speak. Do not try to silence it with the argument, "I am all right. I am doing the best I can. I am doing no wrong; I am living a decent, honest, upright life. I am ready to meet God without the ministrations of the Church." The God whom you must meet sooner or later says: "There is none that doeth good, no not one." "Ye shall be holy, for I, the Lord, your God, am holy." "If we say we have no sin, we deceive ourselves and the truth is not in us." Remember, God demands perfection in thought, word, and deed. Remember also that sin is damnable. "The soul that sinneth it shall surely die." Your sins will testify against you unless they are removed. You need a Saviour. Your greatest problem in life is not solved until you have found Him. You are not ready to die unless you have found peace in Him. He says: "I am the Way, the Truth, and the Life; no man cometh to the Father, but by Me." "Believe in the Lord Jesus Christ and thou shalt be saved." What are you going to do about it? Your whole life is misspent unless you make provisions for a blessed eternity. Are you trifling with your soul's salvation? Do not argue, "I am just as good, and even better, than many church people." Perhaps you are. But your argument is wrong. Both you and the church member are sinners in need of salvation. The sincere church member has found his Saviour while you have not. That is the difference. We are talking to you straight from the shoulder because we have something you need, and we are really desirous of offering its blessings to you. It is nothing strange or new. It is as old as time. It is the Gospel of the crucified Redeemer, the old story of man's sin and God's pardoning grace, the "sweetest story ever told," the solution of all man's problems. Is that "old-fashioned"? But so is man's sin. Modern man with all his advancement in knowledge and all his achievements in many fields of human endeavor is not inherently different from his forefathers. He is still a sinner and still needs a Saviour. He still dies and faces the great issue of eternity. To this day the Word of God alone gives satisfactory answer to the anxious questions of the heart. Wake up, friend, and get busy with the main business of your life. Come to church! We cordially invite you. If you have drifted away, use the Lenten season to come back. If you have never been connected with a church, come and give its message a hearing. (Whatever you do, stop drifting and give serious thought to your own soul's needs.)
