Looking to Bond Issue. Memorial park is making progress. Local clubs have been endorsing proposed improvements, and they will no doubt get behind the bond proposition when it is launched.

Wayne can well afford to develop this park and make it attractive for strangers as well as for local families.

Unfortunate Condition. What a surplus of ingrates in the world! China whose bacon was saved from Japan by American arms, now wants U. S. soldiers to get out and go home, Russia which was rescued from Nazi tentacles by American equipment and genius, is severely critical of its savior.

Resumption of weekly band concerts in Bressler park affords delightful pastime. Every Friday evening, weather permitting, A. J. Atkins, music director of the city school, tunes up for an hour's program. The first one of the season last week attracted a big, appreciative crowd. The park's foliage is magnificent, the music inspiring and reasons to think of the good and forget the bad uppermost. At the weekly concerts, people rub shoulders, visit and warm friendships. The occasion is highly worth while.

HOME COMING DAY AT COLLEGE WILL REVIVE MEMORIES

FRIDAY of this week the Teachers College here will have its annual homecoming. In connection, the 1,066 members of the school alumni serving in World War II will be duly honored.

Of the number, 36 made the supreme sacrifice, and they will be appropriately memorialized. The annual homecoming brings together many former students. If possible, they will be on hand to share in revived memories. Since the state acquired the institution in 1910-36 years ago large numbers have earned diplomas of graduation. Many are now parents, and often their children have been enrolled as students. The college has been a source of pride and satisfaction through the years. Growth of the physical plant has kept pace with growing demands. Quite a contrast with what it was in 1910! Former students will return to renew friendships and exchange experiences. The years have brought numerous gray hairs. Steps are often not so elastic. Recollection will reveal some permanent vacancies. The homecoming with its procession of past events is an important occasion.

Apprehend Four In Store Theft

Kansas Man, Three Winside Youths Are Implicated In Winside Robbery.

Harvey Bowden, 31, of Newton, Kan., Francis Nelson, 20, Lyle Nelson, 22, and Alfred Smith, 17, of Winside, were charged with breaking and entering in connection with the theft early Sunday morning of two cases of beer, about \$30 in cash and some cigars and cigarettes from the S. E. Porter beer parlor at Winside. At preliminary hearing for the three Winside youths Monday in county court, each was placed under \$500 appearance bond, which was furnished, and they were bound over to district court for trial. Bowden's appearance bond was fixed at \$2,000. As he was unable to furnish this and as he asked for an attorney and secured the services of E. D. Addison, he was lodged in jail until his preliminary hearing this Thursday.

Mr. Porter was at his store until 12:30 Saturday night. Shortly after that a window in the store basement was broken and the property taken through this entrance. The loss was discovered about 9:30 Sunday morning by Frank Krause, who came to the store.

Through a telephone call for a Norfolk taxi, placed at the Winside power plant, Sheriff Hans Tietgen and Mr. Porter were able to trace the intruders. The officer apprehended Francis Nelson at Winside about 5 Sunday afternoon. It is reported that Francis admitted in court that he had entered the building and had handed the property out the window. The other two youths were arrested at Winside, and Sheriff Tietgen took Bowden into custody at Norfolk Monday morning, bringing him to Wayne. Mr. Bowden is a trucker for a Kansas grain firm.

Still a Vexing Problem—
ture Turns on Heat—Now
for Elections — Park Im-
provements — Many In-
grates.

The housing problem is still
acute in Wayne, as it doubtless is
in every thriving community. The
sixty-six government units to ac-
commodate soldier students are al-
together inadequate to meet de-
mands, as we are reliably in-
formed. Unless something can be done
to furnish living quarters for those
wanting to come here to attend
college, the enrollment will be
limited. The city council and
Chamber of Commerce are urged
to cooperate more actively with
the college head to make maximum
enrollment possible. These bodies
may well find out what is wanted
and then move speedily and effec-
tually in the desired direction.

Besides cultural values that are
strengthened by an enlarged col-
lege enrollment, there is an in-
creased trade volume, of vital im-
portance.

Hot Weather.
Caloric elements descended
with a terrific punch Thursday,
and corn sprouts that had shivered
in their respective cavities were
aroused to promising life. Cold-
weather garments were quickly
discarded, and bed covering was
reduced to nothing. People suffer-
ed from the sudden change rather
patiently, as they reminded them-
selves of the need. Add necessary
moisture, and by the Fourth of
July—a revealing point in crop
growth—vegetation of all kinds
will be properly advanced.

Candidates Named.
The primary contest over, sore
spots within party ranks will heal,
and voters will move on to the
November finals, disagreeing over
ideologies rather than over person-
alities.

In the pre-election campaign
alignments will often be influenced
by threats of labor union domina-
nce. Citizens want organized
labor to have its full quota of
rights, but they feel justly uneasy
over its apparent determination to
run the show and coerce non-
unionists into cringing subservience. That promises to be an issue
in Nebraska and everywhere.

Looking to Bond Issue.
Memorial park is making prog-
ress. Local clubs have been endors-
ing proposed improvements, and
they will no doubt get behind the
bond proposition when it is launch-
ed.

Wayne can well afford to de-
velop this park and make it at-
tractive for strangers as well as
for local families.

Unfortunate Condition.
What a surplus of ingrates in
the world! China whose bacon was
saved from Japan by American
arms, now wants U. S. soldiers to
get out and go home. Russia which
was rescued from Nazi tentacles by
American equipment and genius, is
severely critical of its savior. Of
course, in helping countries under
attack and turning defeat into vic-
tory, the United States helped it-
self, but the future would be more
secure and more encouraging if
nations would demonstrate a more
grateful spirit and cooperate more
fully in furtherance of permanent
peace. Like individuals, nations
often get what they want and then
kick their benefactors.

Weekly Concerts.
Resumption of weekly band con-
certs in Bressler park affords de-
lightful pastime. Every Friday even-
ing, weather permitting, A. J. At-
kins, music director of the city
school, tunes up for an hour's pro-
gram. The first one of the season
last week attracted a big, apprecia-
tive crowd. The park's foliage is
magnificent, the music inspiring
and reasons to think of the good
and forget the bad uppermost. At
the weekly concerts, people rub
shoulders, visit and warm friend-
ships. The occasion is highly worth-
while.

SOME COMPLAINTS
THAT BIRDS VOICE
SONGS TOO EARLY

SINGING birds are said to
awaken sleeping neighbor-
hoods too early. As the rising
sun slowly dissolves the morn-
ing twilight, innumerable feath-
ered songsters start their daily
concerts. They sing with won-
derful gusto. They know nothing
about the world's troubles. The
late war and subsequent
trials and tribulations are for-
eign to their ideas. They know
or care nothing about strikes,
nothing about food shortages,
nothing about rival political
ambitions, nothing about man's
duplicity and cussedness. If ed-
ible varieties become scarce in
one area, they go where they
are more plentiful. All the work
they do in that connection is to
find what they want and help
themselves. They sense no dan-
gers, but if they happen to get
killed, they just lapse into per-
manent forgetfulness. They do
not stay out late nights, attend
no midnight parties, drink no
hard liquor. They retire when
the sun goes down and are up
and singing with souls full of joy
when the dawn breaks. Their
habits are worth emulating.

Homecoming Day
At College Will
Revive Memories

FRIDAY of this week the
Teachers' College here will
have its annual homecoming. In
connection, the 1,066 members
of the school alumni serving in
World War II will be duly hon-
ored. Of the number, 36 made
the supreme sacrifice, and they
will be appropriately memorial-
ized. The annual homecoming
brings together many former
students. If possible, they will
be on hand to share in revived
memories. Since the state ac-
quired the institution in 1910 -
36 years ago - large numbers
have earned diplomas of gradu-
ation. Many are now parents,
and often their children have
been enrolled as students. The
college has been a source of
pride and satisfaction through
the years. Growth of the phys-
ical plant has kept pace with
growing demands. Quite a con-
trast with what it was in 1910!
Former students will return to
renew friendships and exchange
experiences. The years have
brought numerous gray hairs.
Steps are often not so elastic.
Recollection will reveal some
permanent vacancies. The home-
coming with its procession of
past events is an important oc-
casion.

Apprehend Four
In Store Theft

Kansas Man, Three Winside
Youths Are Implicated
In Winside Robbery.

Harvey Bowden, 31, of Newton,
Kan., Francis Nelson, 29, Lyle Nel-
son, 22, and Alfred Smith, 17, of
Winside, face charges of burglar-
ing and entering in connection with
the theft early Sunday morning of
two cases of beer, about \$30 in cash
and some cigars and cigarettes from
the S. E. Porter beer parlor at
Winside. At preliminary hearing
for the three Winside youths Mon-
day in county court, each was plac-
ed under \$500 appearance bond,
which was furnished, and they
were bound over to district court
for trial. Bowden's appearance
bond was fixed at \$2,000. As he was
unable to furnish this and as he
is asked for an attorney and secured
the services of H. D. Addison, he
was lodged in jail until his prelimi-
nary hearing this Thursday.

Mr. Porter was at his store until
12:30 Saturday night. Shortly
after that a window in the store
basement was broken and the
property taken through this en-
trance. The loss was discovered
about 9:30 Sunday morning by
Frank Krause, who came to the
store.

Through a telephone call for a
Norfolk taxi, placed at the Winside
power plant, Sheriff Hans Tietgen
and Mr. Porter were able to trace
the intruders. The officer appre-
hended Francis Nelson at Winside
about 5 Sunday afternoon. It is
reported that Francis admitted in
court that he had entered the
building and had handed the prop-
erty out the window. He implic-
ated the others. The other two
youths were arrested at Winside,
and Sheriff Tietgen took Bowden
into custody at Norfolk Monday
morning, bringing him to Wayne.
Mr. Bowden is a trucker for a
Kansas grain firm.

Home from Hospital.
Mrs. John Gewe returned home
Sunday from a local hospital
where she had had an operation.

Former Resident

Chas. S. Beebe of Portland, early
resident of Wayne and Carroll, is
reported very ill at his home in
Portland. Mr. Beebe suffered a
heart attack about a month ago.
He is now in a hospital for a time but
is now at home, with a nurse help-
ing Mrs. Beebe care for him.

Butler Sweeps State

Stassen Support

Convention Endorsement
Seems to Influence
Voters' Choice.

In a primary election which has
attracted national attention, Ne-
braska voters Tuesday favored
Senator Hugh Butler two to one
over Gov. Dwight Griswold for the
republican nomination for U. S.
senator on the republican ticket.
The race was of special interest be-
cause former Gov. Harold E. Stas-
sen of Minnesota, had come into
the state to lend support to Gov.
Griswold, three times governor.
The campaign was also reported to
be a test of Stassen's popularity as
a possible presidential choice of the
next republican convention. But-

58,979 to Griswold's 31,917.

Party convention endorsement
seemed to influence voters in the

for the senate over Geo. W. Olson.

ing endorsement as republican
candidate for governor with a
nearly two to one lead over his

gressional incumbents in the state
were nominated. Stefan had a big
lead over Richard N. Johnson in

Creamer, son of Walter Creamer of Bloomfield, and nephew of Mr. and Mrs. Herman Reith of Concord, were married Sunday afternoon at 2 o'clock at the Methodist church here with Dr. Victor West performing the double-ring ceremony.

Baskets of multi-colored flowers, palms and ferns decorated the church.

Mrs. C. N. Olson played the wedding marches and accompanied Miss Delores McNaught who sang "Because" and "All Through the Years."

The bride, who was given in marriage by her father, wore a white silk street-length dress with a white net overskirt. Her corsage was of red roses. She carried a small white Bible from which fell white satin streamers. She wore pearls, a gift of the bridegroom, and carried a handkerchief which belonged to the bridegroom's aunt, Mrs. Herman Reith.

Miss Virginia Straight, sister of the bride, served as bridesmaid. She was dressed in a two-piece pink dotted Swiss dress.

LeRoy Creamer, brother of the bridegroom, served as best man. Both he and the bridegroom wore dark suits with white carnation boutonnières.

Miss Iona Heikes and Miss Bonnie Lessman were in charge of the gifts. Waitresses were Dorothy Helgren, Donna Jean Young, Rayoma Heikes and Mrs. Howard Gaunt.

## Warns of Danger In Use of DDT

County Agent W. R. Harder received word that the state department of public health and game, forestation and parks and the department of entomology of the University of Nebraska college of agriculture are studying a mosquito control program proposed by a number of Nebraska cities.

M. H. Muma, extension entomologist at the college of agriculture, in discussing such a program, warned that DDT can be dangerous to wild life. When used in strengths greater than one-fifth of a pound per acre in an oil solution, the insecticide is known to kill fish and crayfish. When used at strengths greater than two pounds per acre, it may kill birds, amphibians and mammals.

DDT, Mr. Muma pointed out, should not be used in the emulsion form where it is liable to affect wild life. "The emulsion is the more toxic form to wild life."

In no case should the insecticide be used outside of city limits or on waterways except under close supervision.

Is Injured in Fall. Otto Lutt suffered injury Saturday morning when he fell about ten feet from a porch ledge while painting at his place here in town. He is in a local hospital. X-rays reveal no broken bones.

**Controlling Elections**  
 IT appears that the CIO-PAC outfit has plenty of money, squeezed out of union workers, to use in attempts to control the government. Whitney of the railroad union, boasted not long ago of having \$75,000,000 for the purpose mentioned. It is now reported that Nebraska unions are to be asked to contribute money to fight the proposed constitutional amendment in this state to outlay the closed shop. But Nebraska is too smart to fall for that kind of persuasion. Money to defeat the proposition will no doubt help carry it to triumph in November.

Using big cash sums to influence electors proved a flop in New Jersey. The Norfolk Daily News observed that outcome with this comment:  
 "The CIO-PAC-OPA political pressure group did not show the expected power in New Jersey's Tuesday's primaries.  
 "Washington correspondents who had been press-agenting for OPA had predicted that Representative Fred A. Hartley, Jr., would face a hard fight because CIO-PAC was pouring money into his district to defeat him for leading the house fight against unrestricted OPA powers.  
 "PAC put up the cash, but the prophets were wrong, Hartley didn't have a hard fight. He won renomination in a walk.  
 "A few such victories and Sidney Hillman's threats against those who do not toe the CIO line will lose some of their force."

**Crucial Juncture**  
 THE Sioux City Journal speculates editorially on the kind of man needed for president of the United States during coming crucial times. The nation's chief executive will be chosen in 1948. Unless the present incumbent can arouse support by unexpected evidences of ability, he will go down to defeat.  
 In the past, presidents have been selected from the ranks of congressmen, senators or governors, but the Journal questions the possibility of finding in groups mentioned one big enough in all essentials to meet extraordinary demands. It is suggested that other fields be combed over to find the right qualities of leadership—one who has the courage, wisdom, foresight and common sense to steer the ship of state away from dangerous breakers. The Journal comments:  
 "Indeed, a big man is needed. It isn't necessary for him to be a politician, an officeholder. In fact the less the next president played politics the better off all of us, including himself, might be. What is needed, of course, is a man of irreproachable character, of good education, one honest and unafraid, one energetic and one possessed of his share of common sense, a man well balanced and well grounded in knowledge of government. That kind of man ought to be the next president."

**The Old and New**  
 IN the Lincoln Journal, J. E. Lawrence briefly traces the development of rural Nebraska, pointing out how it survived drouth and grasshopper years, learned to practice soil conservation and resist unfavorable weather. He mentions how

**Speaks to Kiwanis About Boys' State**  
**Richard Banister Presents Account of Training Gained in Lincoln.**  
 Cornhusker Boys' State held for the sixth annual time at Lincoln under sponsorship of the American Legion, was described for Kiwanians Monday by Richard Banister, whose trip was sponsored by the local club. Wayne was also represented by Jim Nissen and Janice Johnson, the latter at Girl's State.  
 Richard told that Boys' State was held at the college of agriculture from June 1 to 8 to instruct young folks in the duties, privileges and responsibilities of American citizenship. The group organized the mythical 49th state and conducted state, county and city government. Boys chose their political parties by lot. Richard belonged to the Nationalists and the other party was the Federalists.  
 Mornings and early afternoons were devoted to education, late afternoons to recreation and sports and evenings to entertainment. A number of interesting lectures were provided. Each day was thrilling.  
 Richard mentioned that he learned how to get along with people whom he had not known before. He gained knowledge of principles of American government and equality of races. He found that

mortgages have been lifted from farms and how all kinds of indebtedness have been decreased. Full cellars and feed lots in the old days are remembered. Always an abundance for the farm table appealed. But Lawrence concludes with this reference to the present:  
 "To some extent the tradition prevailed, but quite unnoticed and unmentioned Nebraska moved on to a new rural life. There are those who say it is not as good as the old, and perhaps they are pessimists. For today there are lights, electricity on the farms; there are all-weather roads leading to town; the automobile provides for quick transportation; and the old drudgery that fell so cruelly and heavily upon the shoulders of the farm women has in part lifted. But good or bad, each year sees some little change in this state."

**Preparing Graduates**  
 LOUIS Bromfield, columnist, deplors the many failures that follow high university and college degrees. He says even some recipients of Phi Beta Kappa honors are too often "shallow-minded, hazy and uninformed." The columnist reasons in conclusion:  
 "We must make of our colleges and universities places to which young people come because they want to learn what they cannot find elsewhere, and not simply places where they go to get the magical college degree which may fall them later on or because their parents want them to go to college because in college they can make contacts useful in business later on. The whole system must be made more flexible, a system in which the naturally gifted may forge on ahead and the dullard must somehow be infused with the divine spark of intellectual curiosity."

Reports from Washington the first of the week indicated extensive deflation of OPA powers, or entire overthrow of the agency. Many injustices are charged against OPA. It is accused of hampering business and industry. Benefits in some price ceilings are offset by too many obstructive controls. More individual freedom and less encouragement to the black market would, as pointed out, stimulate production and orderly processes. Besides either trimming OPA or wiping it out completely, a movement is on foot in high official circles to stop all subsidies. These are believed unnecessary, operating against initiative and upsetting laws of supply and demand.

Democratic party leaders have aroused themselves to jack up their political hopes. They were disappointed two years ago when Geo. Olson, Martin bomber plant chore boy, captured the gubernatorial nomination on account of his popular Scandinavian name. This year they became fearful as the same fellow filed for the United States senatorship. Leaders recall the dynamic Wm. J. Bryan and Gilbert M. Hitchcock as foremost party forces, and they are yearning for similar stalwart leadership again. In doing so, however, they will no doubt find it advisable to cut loose from the Washington variety of new dealism.

In the national capitol and in state capitols are found persons who are have-beens in politics. They have at some time held official jobs, and as they drop from public life, they find themselves without profitable anchorage anywhere. They just hover around, perhaps hoping political fortune will again turn their way. But it seldom does, and they put in time fraternizing with old and new acquaintances and recounting memories of long ago.

In taking a straw vote on senator and governor in Omaha recently, a World-Herald reporter says he found some who did not know a nominating primary was to be held, and others who had never heard of the candidates for the two offices mentioned. Is it any wonder metropolitan centers unwittingly yield to government circulars from the plane which performed the task. A dozen of the circulars contained certificates worth a pair of nylons.  
**Son Is Born.**  
 A son, weighing 7 pounds, was born Saturday morning to Mr. and Mrs. James Fredrickson of Carroll.  
**PRICELESS TRUTH.**  
 Nation's Business stresses conversion to truth now that the war is over. The need to conceal facts was accepted as necessary during hostilities, but with no longer an open enemy to shoot at us there would seem no good reason to mislead the public. The magazine contends that propaganda should be branded as such, and not dished out as a recital of facts. Differences between Russia and the western powers could perhaps be clarified by acknowledging and setting forth the whole truth. Understanding may be reached easier if the world is allowed to know what is what. No one wants war, and everybody is eager for lasting peace. One insurance against future trouble is to give the press and radio full rein. Nation's Business concludes: "If and when the reconversion to candor and plain talk does take place, the towering truth of two worlds will be generally acknowledged. The effects will be wholesome. We will be closer to reality, and the world of tomorrow must be built on reality."

The Legion is an excellent organization of capable leaders.  
 The Wayne young folks were chosen for high scholarship and outstanding leadership. All are juniors in high school.  
 C. L. Pickett, president, explained that Monday was Dr. Ray Bryan's last meeting with the club before going to Ames, Ia., and expressed the group's regret at his leaving.  
 With F. L. Blair and Prof. Russell Anderson as leaders, Kiwanians joined in "Song of Kiwanis," "Old Oaken Bucket" and "Jingle Bells."  
 Besides 48 members, guests were Arnold W. Peterson with Ernest Peterson, Coach Don Emery with Dr. J. F. Anderson, Col. J. R. Byerly of Coral Gables, Fla., with Prof. C. R. Bowen, Dr. Earl Wiltse of Omaha, and Frank Heinisch of Omaha, with Dr. Ray Bryan, Wm. Lerner with Dr. Gordon Shupe, and Richard Banister. Dean Clarence McGinn speaks to Kiwanis next Monday on his experiences in USO.  
**Has Major Operation.**  
 L. Gramberg underwent a major operation Monday at a local hospital.  
**Drops Nylon Circulars.**  
 An unusual item in the May 16 issue of the Wayne Herald mentions the dropping of thousands of recruiting circulars at Bayonne, N. J., as an aid in recruiting army personnel. Lt. Dale Samuelson of Montclair, N. J., son of the E. E. Samuelsons of Wayne, dropped the

**CHRONIC DELAY.**  
 Procrastination is a war hangover. During the armed emergency people got into the habit of putting off doing things on the ground of insufficient help and lack of material. By reason of strikes and interrupted production, too few supplies furnished ground for delay, but with millions of soldiers back in civilian life, the problem of help would seem possible of solution. It should invalidate the old and bewhiskered excuse that puts something off until tomorrow or next week or next month. Wages are high in accordance with renewed growth, but liberal pay does not appear to whet interest or fire ambition. It would be a wonderful contribution to living standards if employers and employees would be spurred by extra compensation to do things now and do them well and cheerfully. Tough times should not be necessary to wipe out indifference and speed highly rewarded endeavor. Everybody could help the world out of a bad fix by getting down to brass tacks and giving full values.

**Home from Hospital.**  
 Edward Dunklau returned home Saturday night from a Lincoln hospital where he had received medical care the past two months on his right hand which was injured in a corn picker last October. He will go back to the hospital again in two weeks.

Parent-teacher institute Monday and Tuesday, and remedial speech clinic all this week are special features at Wayne State Teachers College.  
 The parent-teacher conference was conducted with national and state leaders in charge. This developed the philosophy that the best possible education of the child depends on cooperation between home and school. It pointed out the methods of organization and benefits of the association. It suggested good working relationships in education.  
 Guest speakers were Miss Mildred M. Wharton of Chicago, extension specialist of the National Congress of Parents and Teachers, Dr. Earl W. Wiltse of Grand Island, superintendent of schools, president of the Nebraska State Education association and educational chairman of the State Congress of Parents and Teachers, Frank Heinisch of Omaha, secretary of the Omaha Educational association, Mrs. Chas. A. Snyder, president of the State Congress of Parents and Teachers, Mrs. Alton Wagner of Lincoln, elementary supervisor for the state department of public instruction, and Miss Thelma Myers

of Sioux City, student here. Each expressed a different point of view. The visitors spoke to four classes Monday and five Tuesday. They also held conferences with training school faculty members.  
 The work shop and remedial speech techniques is in progress all week, with Miss Alice Liljgren of Omaha, speech specialist, demonstrating methods and techniques of speech education, Orson Perkins of Omaha, executive secretary of the Nebraska Society for Crippled Children, tests the hearing of all training school pupils and others who visit the clinic. Free examination is given to all children from Wayne and nearby counties. Speech defects are diagnosed and remedies suggested.  
 The work shop June 17-21 will be on public and professional relations, aimed at creating a favorable opinion toward education.

**Will Be Married In Late Summer**

The engagement and approaching marriage of Bernard Pollard, formerly of Wayne, and Miss Gertrude Wyers was announced May 25 for a tea for 150 guests at Mrs. Tenuis Wyers' Columbia river bluff residence at Trout Lake, Wash. The wedding is planned in August.  
 Mrs. Allis N. Pollard, mother of the bridegroom, was presented a corsage at the tea. Mrs. Newell Pollard, sister-in-law of Bernard, was one of those who presided in serving.  
 The bride-to-be taught social science in White Salmon. Mr. Pollard,

who recently received his honorable discharge, has been postmaster at White Salmon seven years.

### Vet's Corner

Army passed 11 hospitals to the veterans' administration. These hospitals contain 24,000 beds. Fourteen other institutions have been earmarked for transfer, Maj. Gen. Norman T. Kirk, army surgeon general, announced.  
 Gen. Bradley urges states to support on-the-job training programs. The government's on-the-job training program was not designed to provide veterans with a "bonus" nor to subsidize their labor for industry, but to sustain them during a period of occupational training. On-the-job training was planned as an investment in the earning capabilities of veterans. It is used to equip the veterans with a marketable job skill.  
 Veterans' housing plans around the nation are bogged down as non-housing projects grab the material from sources of production, according to Joseph M. Stack, commander in chief of the Veterans of Foreign Wars. The tragedy of the situation is that the materials which should be going into veterans' homes and housing units go into non-housing channels. It is known that 75 per cent of the building materials produced in the state of Oregon go from the source of production into non-housing channels. Surely the right of servicemen to have homes to live in, adequate jobs in addition to veterans' administration benefits are not unreasonable expectations.  
 Veterans who seek dental care by own dentists must submit a completed 2827 form and also add judgment form No. 7. Both available at county service office.  
 Blood type request cards will be

mailed to some 75 World War II veterans through this office. Local doctors will have a list of different blood types for emergency transfusion purposes.  
 Federal agencies, formerly the largest buyers of surplus automobiles, can't get them anymore. They are all set for the veterans. The senate appropriations committee acted recently to delete from appropriations bills a requirement that agencies needing cars buy surplus rather than new automobiles. Maj. Gen. Glen E. Edgerton, assistant war assets administrator, notified the senate appropriations committee that since veterans now have top priority on passenger cars, jeeps, station wagons and trucks under 2 1/2-ton capacity and their demands are greatly in excess of "foreseeable supply" none will be available for the government.  
 Q. Where is the service record of an enlisted man of the army kept after his discharge?  
 A. Service records are kept at Demobilization Personnel Records Branch, Records Administration Center, 400 Goodfellow Blvd., St. Louis 30, Mo.

Ill., spent from Saturday to Tuesday in the J. J. Ahern home. Mrs. Lippold is a daughter of the Aherns.

 Miss Violet Reibold of Fremont, spent last week-end in the George Reibold home. Miss Hazel Winbold of Emerson, Dean Rusehuson of Hubbard, and Wilbur Reibold of Niobrara, were Sunday evening guests at Reibold's.  
 Mrs. Lillard Pratt and David of Torrington, Wyo., and the former's brother, Chester Walters, who recently returned from the Pacific, visited Sunday and Monday in the Everett Rees home. They left Monday to go to Torrington.  
 Miss Marilyn Milder of Washington, D. C., is spending the month of June with her parents, Mr. and Mrs. F. A. Milder, Mrs. Grace Anderson and Mr. and Mrs. A. L. Krause of West Point, spent Sunday in the Milder home.  
 Mr. and Mrs. Franklin Henkel, who had spent two weeks here with the former's parents, Mr. and Mrs. Peter Henkel, left Sunday for Greeley, Colo., where the former attends school this summer. They accompanied Mr. and Mrs. Walter Henkel and son of Eugene, Ore., who had visited here and who left the same day for their home. Big Six Loses Close Game To Stanton Team Last Sunday Afternoon.

Playing before the largest crowd of the season at the local diamond Sunday afternoon, Wayne's Pioneer team overpowered a strong Schuyler team, 6 to 4. The victory boosted the infant Wayne team into a three-way tie for second place in the league standings. Tekamah, Schuyler and Wayne, each with three victories and two defeats, are deadlocked behind the leading Fremont team, which boasts four wins and one loss.

Schuyler opened the scoring in the second inning here Sunday, pushing over two runs on a hit by Jonas, an error by Otto and a hit by Schaffer.

The score remained at 2-0 for the visitors until the last half of the 5th inning, when the Wayne boys went on a scoring spree. Al Bahe started things with a scorching double. Dickens was safe on an error by Oberg and Benton received a base on balls.

Wayne advanced the count to 6-0 in the last half of the 6th when Bahe reached first on an error by Jonas, advanced to second on Dickens' sacrifice and scored on Benton's smashing triple.

With victory practically assured, the Wayne boys dropped in a fielding slump in the first half of the 9th to give the visitors two runs on successive errors by Otto, Best, Otto and Van Auken.

Wayne's players meet their crucifix of the season next Sunday when they tangle with the top-spoiled Fremont nine at the Fremont park.

Editor Eats Hat In Keeping Wager

Dentist and Soldier Meet In Pacific and Again In Home Town.

Pretty Jean Ward, editor of the University of Utah yearbook, Salt Lake City, told fellow workers months ago that if the publication was not off the press by a May 28 deadline, she would eat her hat. And that's just what she ate. It was straw garnished with a sweet sauce by Student Marilyn Merrill and onlookers. University officials said to blame, the paper shortage was really, So Jean ate part of the hat.

While serving in the Admiralty islands during the war, Ray Nelson, Litchfield, Minn., had some temporary work done by an army dentist. On his return home after discharge he decided to have the job completed and went to a Litchfield dentist's office. After he told the dentist about the temporary works, he recognized him as the one who had started the job in the Pacific.

Is there a louse in your house? If so, maybe you can cash him in at the Brookfield zoo, Chicago. Zoo Director Robert Bean says he'll pay \$1 a pair for bedbugs and lice. He needs six pairs of each for an exhibit of invertebrates.

Phillip Rupp of Springfield, Ill., was driving his automobile in the business district when he saw it was on fire. He stepped on the gas and drove to the downtown engine house. All the firemen were out fighting a blaze, so the telephone operator summoned firemen from another station six blocks away. The visiting firemen extinguished the blaze just as the downtown station firemen returned.

"My boy is getting out of hand," complained William C. Smith over the telephone to Yonkers, N. Y., police. Surprised patrolmen, prepared for a juvenile problem, arrested Charlie Smith on a disorderly conduct charge. Charlie is 45; his father 75.

When two gunmen invaded Benjamin Lerner's Chicago grocery store he picked up a bottle of pop and slugged one over the head. The robber retaliated by slugging Mr. Lerner with his gun. Then both bandits fled, empty handed.

Mumps did not keep Rev. Paul Olson, Triumph, Minn., mum. After preparing what he believed was an especially good sermon for Sunday, the Rev. Mr. Olson came down with the mumps. Not wishing to expose his flock, he hooked up a loud speaker at the Mission Covenant church and spoke from his home.

A San Francisco labor union official, CIO, was telling the fact-finding board of Pacific Gas and Electric company at a hotel about the rising cost of living. The board interrupted to order two pitchers of ice water for which it paid room service \$1.50 plus a 50-cent tip. "There!" said the speaker. "See what I mean?"

The police station at Laurel, Mont., has been locked and bolted. Police Chief James Bare took the action to keep thieves out. He reported three pencils and two dime store notebooks missing.

To a prisoner before him in town last Chicago police court on a disorderly conduct charge the judge said: "John Muldoon, you don't look like an Irishman to me." "I'm not," My name is Muldovich. But I like Muldoon because it's easier to pronounce. "Use your own name and I'll dismiss you. The Irish have enough trouble as it is," sighed Judge John R. McSwaney. Mr. Muldoon, nee Muldovich, agreed.

Police officers at Olean, N. Y., should emulate newspaper writing style in making written reports of investigations so the reports will be clearer. City Attorney Thomas L. Kelly of Salamanca, Pa. said at a FBI school for area policemen.

D. B. (Bud) Horton, the 82-year-old patriarch of Stella, Wash., has sold his town for a reported \$42,000. The little village on the Columbia river 12 miles west of Longview consists in its entirety of one dock, store, hotel, two houses, garage, service station, tavern and dance hall. Seven families live in Stella. The sale was made to the Cleek and Bain families of Longview. The former owner said he would retire to dream about the 90's when Stella was a thriving lumber town and river port.

Show Treatment With DDT Spray

Leaders Are Here Friday To Demonstrate Value Of Insecticide.

W. W. Derrick of the animal husbandry division of the extension service of the University of Nebraska, Lincoln, and Martin H. Mum, entomologist from the university, conducted DDT demonstrations on two farms near Wayne Friday. Like demonstrations are being carried on in 26 counties in the state, with two to four in each county.

Nearly 60 farmers and others interested from Wayne, Dixon and Cedar counties attended the morning demonstration at the Fred Wittler dairy farm near Winfield. The dairy cows, one dairy barn, one call barn and two poultry houses were sprayed at the Wittler place.

At the Carl Meyer farm southeast of Wayne, in the demonstration Friday afternoon, 64 head of feed lot cattle, eight dairy cows, two cattle barns and one dairy barn were treated to DDT.

The extension agents suggest that one quarter of 1 per cent DDT in suspension be sprayed on animals for horn fly control, and a 2 per cent DDT in suspension be sprayed on barns and out buildings for stable and house fly control.

Vet's Corner

Veterans who entered school at their own expense will be reimbursed. Those who entered school at their own expense while they were on terminal leave or while they were hospitalized and awaiting discharge before Dec. 28, 1945, may receive refunds for tuition, books and supplies under a veterans' administration procedure announced this week. No provision was made for such cases in the original GI bill passed June 1944. But the amended GI bill approved December 28, 1945, did cover them.

An attempt to pass the terminal leave bill by unanimous consent Monday, May 20, was blocked by objections that no measure involving such amounts of money should be passed in such a manner. A special order of business has been given for the measure by the house rules committee, and action will be taken on the bill about June 10.

With strikes looming across the horizon as fast as a flight of P-80's, it looks as if the United States is up to its ears in a man-sized game of truce or consequences. Veteran farm loans are rising. More than 25,000 veterans throughout the nation have applied to FSA for operating and farm ownership loans. Of these more than 10,000 have been approved.

The census bureau reports that eight out of nine veterans have found jobs. Of the 9,100,000 discharged veterans, figures show that 8,120,000 are now gainfully employed.

The man who has promised the nation 2,700,000 new homes by the end of 1947 is dynamic 40-year-old Wilson Wyatt who was appointed by Pres. Truman on January 25 as administrator of the national housing agency. His first major effort was giving intravenous injections to the Patman Bill, or known as the veterans' emergency housing act and this serves as the white flag of hope to discouraged veterans all over the country. Wyatt has dedicated himself to the proposition that there shall be a home for every veteran.

Veterans must become impatient because houses are not mushrooming into existence following congressional approval of the \$400,000,000 for material subsidies. The war department in response to numerous questions from veterans and industrialists, today assured employers that activity in the enlisted and officer reserve corps is entirely voluntary, and that the government has no intention to force workers to leave their jobs for periods of military training.

Q. Can a veteran receive dental care from his own dental free of charge? A. A program providing dental care from home town dentists has been announced by the veterans' administration but it has not yet been set up. As announced, it would provide care for service-connected dental disabilities.

Library News

Story hour for the children will be held Thursday afternoon at 3 o'clock. Many new books are ready for the summer reading club and we hope to have a nice turn out. The Teenie Weenie stories have been so popular with the children and this summer we have a new book with lots of new stories about them. The sand box project will also feature the Teenie Weenies.

According to our circulation statistics, the fiction reading has taken a big jump ahead of the non-fiction. Those lazy days are now upon us when light reading is what we require. We have made a special effort to stock up on just this type of reading. Dangerous Honey-moon by Axel Kielland is one of these books and The Winds of Desire by Edginton is another.

If you like to read poetry you will like The Golden Book of Catholic Poetry edited by Alfred Peters.

Captain Grant by Shirley Seifert is one of these biographical novels which are so popular nowadays. It is a big book so you will have to save it for the time this summer when you have lots of leisure.

Last Chapter by Ernie Pyle is a slim little book containing the final reporting of Ernie Pyle's war experiences. It is a brave little book published from his writings collected after his death on Ie Shima in April, 1945.

We should like to call your attention to some interesting pamphlets which have been coming into the library. Perhaps they are not what you want for summer reading but some time they may contain just the information which you are seeking. One is a report on the international control of atomic energy. Several are on Yugoslavia and the case against Mikhailovich. One reports a consultation among the American republics with respect to the Argentine situation and a report on postwar Britain.

We are working hard this summer with our pamphlet files, trying to get them organized so that we can make the best use of this valuable literature.
