National Guard.
The states have begun the job of recruiting 680,000 officers and men necessary to man the post-war National Guard.
The personnel of the guard will come mainly from World War II veterans. The guard will not enlist non-veterans aged 19 through 29. Veterans may be discharged from the Enlisted Reserve Corps for National Guard duty. Guard enlistments are for three years, requiring one night each week for training and 15 days in summer camp. In emergencies the guard may be called out for state and federal governments.
Pay will be \$2.50 a night for privates. Higher grades will also receive one thirtieth of the new monthly pay for their grades held.
On-the-Job Training Survey.
This survey will be made by regional VA offices, which will determine whether courses vets are taking qualify as actual apprentice training or meet the new on-the-job training standards. Preliminary reports will be due in Washington October 15.
The "humbs down" attitude on state bonus was recently shown by Maine voters. Soon the states of New York, Illinois, Michigan and Rhode Island will vote on state bonuses for their veterans.
National "Employ the Physically Handicapped" Week, Oct. 6-12.
In war or peace, the 28,000,000 physically handicapped of America, including disabled veterans, deserve consideration as workers and producers. They have proved their worth in practically every kind of work. During the war years they

Trojans Winners Over Bloomfield

Wakefield Team Makes Nice Comeback in Game Here Last Friday.

Displaying a brand of football which was altogether different from that of last week, the Wakefield Trojans surprised the spectators with an 18-14 upset of a favored and much heavier Bloomfield eleven on the local field Friday.

The rejuvenated Wakefield team outcharged, outshined and outplayed its larger slower opponents from the opening whistle. A line which consisted mostly of reserves started the ball game and proved itself capable by aiding in the first touchdown drive. This drive ended early in the game with a pass from Anderson to Erickson who carried it over.

Bloomfield then took complete possession of the situation for the only time during the entire encounter and scored after a series of thrusts through the center of the Trojan line. They made their try for the extra point and led, 7-6. This was the only time they were on the long end of the count.

Ronald Lueders put Wakefield in the lead again by running 37 yards with an intercepted pass. The half ended 12-7 for Wakefield.

The Trojans continued to dominate the play during the last half. Several long runs by Schwartz, plus some Anderson-to-Kruse passes, put the ball in scoring position once more. Tell then took a short pass from Anderson over the goal which completely fooled the Bloomfield secondary.

With Pospisil and Hylse carrying the load in the backfield, aided by Felt and Jelinek in the line, Wakefield marched to the opponent's seven-yard line, only to have its threat broken up by a penalty and a bad pass from center. Bloomfield recovered and scored its second touchdown two minutes before the final whistle.

Conner, VanValin, Fischer, Borg, Fredrickson and Kinney deserve credit for the victory, besides the boys mentioned. Kruse and Schwartz were bulwarks on the defense and were ably backed by Harold Tell. Anderson's passing was a bright spot throughout the game. Bob Erickson, who suffered a fractured wrist early in the game, missed most of the encounter.

Wakefield's starting lineup follows: Felt, lc; Dahlgren, S, lt; Jelinek, lg; Conner, c; Lubberstedt, rg; Fredrickson, rt; Kinney, re; Anderson, qb; Kruse, lb; Schwartz, rh; Erickson, fb.

The Trojans travel to Wisher Friday afternoon, September 27, for their second Husker conference tilt. Wisher has a record of two wins and no losses for the season.

SET YOUR SIGHTS

It takes planning to achieve a goal

Some young men know what they want and plan for it. Others are still looking for their niche. The new Regular Army can help both.

Perhaps you want to go to college but can't afford it. If you enlist in the Army, you'll get your chance. Honorably discharged after a three-year enlistment, you are eligible for 48 months of education at any college, trade, or business school for which you can qualify. The Government will pay your tuition, laboratory fees, etc., up to \$500 per ordinary school year, plus \$65 a month living allowance—\$90 a month if you have dependents.

If you haven't found your spot, an Army enlistment offers you training in any of 200 trades and skills. You leave the service eligible for further training at the best civilian schools.

You can assure yourself of the benefits of the GI Bill of Rights if you enter the Army on or before October 5, 1946. See your nearest Army Recruiting Station for details.

HIGHLIGHTS OF REGULAR ARMY ENLISTMENT

- Enlistments for 1 1/2, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
- Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in Army, who may enlist at any age, and former service men depending on length of service.
- A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
- A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Offices.
- Muster-out pay (based upon length of service) to all men who are discharged to enlist or reenlist.
- Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
- Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

LIQUIDATION SALE Of the Well Know Woods-Updike Farms A LARGE LAND AUCTION 24 QUARTER SECTIONS with 7 Sets of Improvements Located in Burt and Washington Counties, Nebr. Monday, Oct. 7 12:30 p. m., in the City Auditorium, Tekamah, Nebr. The land is located 6 miles south of Tekamah, or 1 mile north of Herman, or 36 miles north of Omaha. The land joins paved Highway No. U. S. 73, and all the land is either on gravel or a short distance from gravel. All is rich Missouri river bottom land with almost inexhaustible fertility and is considered to be some of the most productive land in the State of Nebraska. The land will be sold in tracts ranging from 160 acres up. Farm No. 1 has one of the most complete sets of improvements in the midwest including 3 houses, 2 completely modern; a 50,000 bushel grain elevator with a railroad spur; double corn crib with overhead granary and elevator; large barn; office building and truck scale, and complete set of smaller buildings. The other 6 sets of improvements are complete with house, barn, corn crib, granary and smaller buildings. The land is being sold as the owners of the corporation are getting along in years and desire to dispose of their land holdings. The land is clear of encumbrance and the taxes are reasonable. Inspect the land before sale and attend the auction prepared to buy. Possession of all the farms and land except Farm No. 1 is March 1, 1947. Farm No. 1 is selling subject to the lease for 1947. Possession of grain elevator, office, etc., located on Farm No. 1, May 1, 1947. TERMS: 20% cash on day of sale, balance on or before February 1, 1947. Purchasers not having made financial arrangements can avail themselves of at least a 60% loan up to \$10,000 on each deeded quarter section at 4% interest on an amortized basis offered by one insurance company. Someone will always be at the Woods-Updike office, one mile north of Herman, to show the land. Write the Auctioneers for an Illustrated Sales Booklet Woods-Updike Land Co., Owners, Herman, Nebr. HOW'M I GONNA DO A SLICK JOB WITH SLICK ROLLERS? Keep Your CORN CROP off THE GROUND Use "Noursite" Picker Roll Compound for better picking and cleaner husking. Don't blame your corn picker. Those dry husks make the best rollers slick and cause part of your crop to fall to the ground. "Noursite" is an especially prepared petroleum adhesive for use on the rollers of mechanical corn pickers. Noursite is economical — light applications to both picking and husking rollers several times a day will keep your pickers on the job 100%. Use it sparingly for best results—a little goes a long way. Save every ear—order a supply of Noursite Picker Roll Compound from your Noursite dealer today. NOURSE OIL CO. KANSAS CITY, MO. Business is Good

Farmers Know What a Profit Is For AS his own boss, the farmer has long since found out that a profit is not just an extra sum, above the bare cost of doing business, which can be used as you please. It is the main source of funds necessary to pay for a new silo, buy better machinery, and improve the house and the barn. In spite of the great rise in income, farm profits are no more than necessary to keep the farm plant producing efficiently. It's the same with the iron and steel industry which makes the materials for the farmer's tools. In 1945 steel companies had left, after meeting all expenses but before paying dividends, only a little more than one-tenth of one cent on each pound of steel sold. The profit on each dollar invested was less than five cents. Year by year since 1941, when the war started, earnings have been declining. Although last year's output of steel was 19 per cent greater than in 1940, the last prewar year, pay rolls were nearly double but dividends were lower. There are many misunderstandings and misrepresentations about profits. Some people forget that reasonable profits are a necessary incentive of the American system, which results in abundant low-cost farm products and abundant low-cost steel products. It is up to those who know what profits are for, and what they can do, to see that they are not destroyed—and with them our high standard of living. Steel mills need all the scrap iron and steel they can get. The shortage is serious. Farmers can get extra dollars and help increase steel output by sending worn-out machinery, etc., on its way to the furnaces. AMERICAN IRON AND STEEL INSTITUTE, 350 Fifth Avenue, New York 1, N. Y. The Institute has printed a booklet STEEL SERVES THE FARMER. Write for a copy and it will be sent gladly.

Handicaps Are Overcome by Couple Who Lead Most Useful, Happy Lives

Seeming handicaps are not handicaps at all, and they can be overcome to enable one to lead a useful, happy life. This is proved by Mr. and Mrs. Merle N. Hook of Madison, Wis., who were here last week visiting the former's aunt, Mrs. J. J. Hook, and cousin, T. S. Hook, and family. Mr. and Mrs. Hook are both deaf and dumb, and Mrs. Hook is also blind. They prove that the deaf do hear, the dumb talk and the blind see, using methods that are different from the usual ones. They also prove that they can be of wonderful service to society and that they can be independent and happy. How inspiring it would be for all to know Mr. and Mrs. Hook!

Mr. Hook, who is 54, lived at Fitchburg, Wis., near Madison, as a child and it was there he lost his hearing at the age of 18 months when he had scarlet fever. Mrs. Hook, who is 58 and a native of Canada, has been deaf and blind since she was 7. At that time she had measles and catarrh. Both attended the school for the deaf in Delavan, Wis., where they met. Mrs. Hook was obliged to leave school in 1911 on account of poor health. Mr. Hook was graduated from the high school there in 1915.

Both learned the sign language in school and they converse readily, in fact faster than do those who speak. Mr. Hook talks to his wife against the palm, placing his hand inside hers. Mrs. Hook knows the alphabet on both hands and uses either one. Mr. Hook reads lips

some. Mr. Hook learned to speak at school and he often answers verbally. However, as a rule he converses by writing notes back and forth.

Has Novel Glove.
Mrs. Hook has a novel glove which she uses in talking to those who do not know the sign language. This glove, devised by an Arkansas minister, is white with letters and figures printed on it. The palm side of the glove has several letters on each finger and Mrs. Hook knows the position of the letters. On the back of the glove are figures. In talking to her one spells out the questions by touching the letters or figures on the glove. Mrs. Hook answers on the typewriter. Both Mr. and Mrs. Hook use the typewriter and the latter's has raised letters. Mrs. Hook writes perfect typewritten letters to her relatives and friends.

Mrs. Hook knows the braille but Mr. Hook did not learn that because he has his sight. She calls her braille equipment a slate. This consists of two perforated small metal pieces hinged together, at one side. She places a sheet of very heavy paper between the metal plates. With a sharp instrument she punches holes which represent letters. In a minute or two she wrote in braille, "My name is Mrs. Hook," and the entire alphabet.

Mrs. Hook subscribes for a braille publication called Monthly Magazine of Matters of Interest to Blind Women. This contains news and much other information. The publication is about the size of the Saturday Evening Post but the paper used is heavier and the magazine thicker because each page has the raised letters.

Hand Work Beautiful.

Persons with sight marvel at Mrs. Hook's beautiful handiwork. She crochets with three colors of thread and makes fancy designs in her work. Some of her crocheted holders have raised flowers. Others are of the complicated sunflower design. To keep her colors separate, she has her husband tell her the color of a ball and she makes a braille slip noting the color and places this slip inside the ball. She can then shift from one color to another by consulting the braille note. She also weaves holders and makes two-color designs in these. Neighbors and relatives taught Mrs. Hook these arts. Mrs. Hook remembers various colors from her childhood.

Sewing is another of Mrs. Hook's arts and she threads a needle in split-second time. In fact, she threads a needle two ways. By one method she places the needle eye and the end of the thread on her lips and she has the needle threaded at once. Mrs. Hook also threads a needle by feeling the eye and thread with her fingers. She does all her own mending.

Mrs. Hook does all her own house work excepting the washing and cooking. Mr. Hook does these

because he feels that the moving machine and the gas stove might be dangerous. Mrs. Hook makes a beautiful bed and irons perfectly. She gets around her home easily alone daytimes but she does not go out of doors alone. She knows the position of furniture after being shown once by her husband. When the Hooks came to Wayne, Mr. Hook showed his wife about the home once and after that she got around by herself. The same is true at meals. Mr. Hook tells her where various foods are on her plate and she dines more artistically than many who see.

Mrs. Hook identifies people by the senses of smell and feeling which are highly developed. She can tell immediately when her husband comes home, even before he reaches her side. She identifies Mrs. J. J. Hook by her wide band ring, Mrs. T. S. Hook by her narrow ring, Mrs. Marjorie Whitmore by her watch and shorter dress, etc. She always identifies a person who gives her something to eat or drink.

Mr. Hook Perfect Worker.
Mr. Hook has been employed the past six years at the Heidelberg Hofbrau cafe in Madison in cooking, helping with parties, doing odd jobs and janitorial. His employer and others call him a perfect worker.

Mr. Hook does the buying for the family. He selects his wife's clothes and takes pride in getting her nice ones. She likes stylish garments and that's the kind Mr. Hook gets for her. She wants her dresses the length others wear them, but she teases older women who wear open-toed shoes.

Mr. and Mrs. Hook have a keen sense of humor and joke back and forth much. Mr. Hook asked his wife if she loved him and she jokingly answered in the negative and then laughed heartily. Mrs. Hook always enjoys her husband's wit.

Football, art, reading are favorite pastimes of the Hooks. Mr. Hook does much reading and relays information to his wife. The Hooks, who saw their relatives here for the first time in 35 years, went to Omaha and Council Bluffs September 12. They visited Boys Town and called on friends in Council Bluffs. They also went to Whiting, Ia., to visit relatives and returned here September 14. T. S. Hook took them to Huron, S. D., and they left Wednesday last week on their return to Madison.

Miss Jean Meyer arrived Friday from Kansas City to spend a couple of weeks with her parents, Mr. and Mrs. Chas. Meyer, and sister, Mrs. Leonard Strong.
