

Buyers Crowd Wayne Stores Friday — Fathers Receive Due Attention — Rainfall Speeds Up Since September 1.

It seemed like a big circus had arrived last Friday. Crowds poured into the business district from residential Wayne and the neighboring countryside—all because of the opening of the new Larson-Kuhn clothing store and the special on scarce articles at Gambles and Brown-McDonald's.

The Herald, which was printed Wednesday and generally circulated in outlying areas by Thursday noon, announced the special events, as it does every week. Local dealers put effectiveness in advertising by doing more than they promise to do.

Dads Have Inning. Dads appear to be reaping some rewards. They do not expect much, and are not usually conscious of deserving much.

COMMUNITY EFFORT MAY CURB DEVIL'S ANTICS HALLOWEEN

HALLOWEEN will be along in another week. It is not intended to give vent to devilishness. It grants no license to disarrange or destroy property. It is just as unlawful to invade private rights on that day as on any other day of the year. In some countries it is the vigil of the feast of All Saints. In some other countries, including the United States, it is observed by merry-making and divination of the future. It thus affords a measure of satisfaction and diversion. In that way it does no harm if no pronounced good. The devilish spirit which has found expression on Halloween has been eased into law-abiding channels by some thoughtful community groups that have provided wholesome entertainment. Youths who want to do something will usually do the right thing if led in that direction.

Action of Court Favors Plaintiff

Judge Rules That City Must Complete Sheriff Sales For Valid Titles.

District Judges Lyle Jackson and F. H. Pollock, in special session here Tuesday, entered a judgment in favor of Clyde Oman in the quiet title action filed by Mr. Oman against the City of Wayne.

Mr. Oman sold to the city the site on which the auditorium stands for \$5,000. He was paid \$4,500 and for the other \$500 was to receive lot 30 in Taylor & Wachob addition. This lot had been bought by the city at tax foreclosure. The city paid no amount into court, transferred the lot to the name of J. E. Brittain who then gave the deed to Mr. Oman. Mr. Oman sold the property to Mrs. Anna Stoltenberg and later found he could not give a good title because the sheriff's sale procedure had not been carried through by paying the money into court.

The record states that in Wayne are a few dozen other properties on which the city attorney or city clerk attempted to bid in properties at similar foreclosure sales without paying the amounts bid, and wherein the title was taken in the individual name of the bidder who then attempted to convey to other persons at the instance and for the benefit of the city. It further explains that such procedure operated against the taxpayers for not only the city but the county and school districts share in such payments. Therefore, the court ordered that such deeds are void.

The court found that the city's deed to Mr. Oman was void. It ordered that the city shall pay its foreclosure bid and that upon confirmation thereof, the sheriff shall execute a valid conveyance to Mr. Oman who in turn will then be able to give a good title to Mrs. Stoltenberg.

W. A. Crossland is attorney for Mr. Oman. F. S. Berry for the city. Burr Davis for the county, and H. E. Siman for Mrs. Stoltenberg.

MOST CONTROLS TO VANISH BY NOV. 1 IS LATEST REPORT

EASING tension in the meat supply problem has been evident since decontrol took place. The market was immediately flooded with livestock, and prices shot up. Following the initial rush prices began to slip somewhat. Supplies promise to increase steadily until they will be ample. Retail price marks will be governed largely by the purchasing public. If buying slows on account of price, and the supply grows accordingly, costs to consumers will naturally drop to a lower level. Decontrol with exercise of individual judgment is the way of free peoples and the way to practical operation of the law of supply and demand. Since removal of meat controls, the prospect indicated in Washington is that all controls, excepting possibly those restricting rents, will be boosted through the transfer by November 1. Speaking of popular aversion to OPA hamstringing, the Saturday Evening Post says: "In any event, price control is a system so foreign to a free economy that it can have no justification beyond that created by the war and its immediate aftermath. Simms OPA seems to read its commission not so much to tide us over an emergency as to create new ones, we urge the end of this agency as soon as congress can act."

The National Guard, which performed peace-time service, and whose members carried through to high honors in World Wars I and II, is being reorganized in this state. The goal has been set for 5,777 officers and men. Equipment provided by the war department for the new guard unit will include more than 1,000 motorized vehicles, 35 planes and 80 tanks.

The United States army will provide the equipment and pay. The state will furnish the men and housing facilities. For the state, the Guard provides internal security. (Work done by guardsmen in the Republican valley and Missouri river flood emergencies and in riots still is fresh in the minds of Nebraskans.)

For the nation, the Guard is the nation's first line of defense, an M-day force. Advantages to Guard members include the opportunity to keep up the training that veterans have had in the armed services, financial return as they draw regular army drill pay, and a vacation, 15 days with pay, during the annual field training period.

Nebraskans eligible for the Guard include: Anyone not subject to induction by selective service, (18 to 29-year-olds only) enlist subject to induction call and obtain advance training which will benefit them when they are inducted into the army, anyone 18 to 45. If the applicant has previous service connection he will be accepted up to 63.

If a Guard member has been in the armed services he will receive 5 per cent additional pay for each three years in service. Rate of pay for enlisted men ranges from \$2.50 to \$5.50 per drill according to rank.

The Nebraska Guard will be divided into three combat teams, southeast, central and western. All will form part of the Fifth Army which will hold annual maneuvers at Fort Riley, Kan.

Lincoln will be state headquarters and also headquarters for all units.

Speaks to Club About Yucatan

Officers of Kiwanis Club For Coming Year Are Nominated Monday.

Legends of the past as well as present civilization in Yucatan are most interesting, according to C. H. Bright, who told Kiwanians Monday about that part of Mexico where he and Mrs. Bright visited in 1934. Yucatan is a province of Mexico on a peninsula between that country and Central America.

Mr. Bright stated that as a young man he desired to travel so as to see the things about which he read. His 40 years of teaching gave him opportunity to do so. He and Mrs. Bright taught in the Philippines and visited China and Japan on their 44,000 mile trip. They went to Mexico in 1928 and to Yucatan in 1934.

Natives of Yucatan, the Mayas, migrated to the peninsula from farther inland and built a unique civilization. They were more interested in gold as a means of decoration than for its value in trade. They built many beautiful structures which were elaborate in gold trimming.

The Mayas are said to have had huge wells in which they sacrificed beautiful young maidens after ceremonies atop a huge pyramid. Men from Smithsonian institute are said to have examined the bottoms of these wells, or cenotes as they called them, and found (Continued on Page Two)

"Paranoiac Delusion" MOLOTOV, Russian big gun, thinks highly of himself and evidently wants to make a big show of invincibility, according to Time Magazine. That publication comments: "Vyacheslav M. Molotov habitually lectures the world as though he held an invisible birch rod in his hand, and his Western colleagues are often so irked by his unflinching self-righteousness that they pay little heed to what he actually says. "But in Paris last week they paid attention, for never before had 'The Hammer' so plainly and openly charted the cleavage between East and West. Molotov made it clear that the 'iron curtain' is not a mere physical barrier, impeding free movement and free information; it is a partition between two world views, two kinds of morality, so that words, ideas, ideals, logic and precedents lose their meaning when they pass from one side to the other. "What Molotov had to say was logical and moral by the Soviet terms of reference. To Western ears it sounded like the elaborate logical structures of a paranoiac delusion."

Secretary Explains ON his return from the Paris peace conference, Secretary of State Byrnes reported on work of the international group and the present state of foreign relations. He reflected the earnest endeavor of American representatives to achieve a sound basis for lasting peace. Disagreements were numerous, but capable of settlement among fair-minded persons.

It was made apparent from his speech that the sharpest differences were projected by the soviet union. The secretary spurned the Russian charge that the United States had profited by the war or desired to enslave Europe. Does not the latter suggest Russia's bold ambition? He mentioned that this country advanced ten billion dollars to the soviet union in lend-lease. This in addition to American soldiers in the thick of battle to turn back nazi armies. The secretary made plain America's eagerness for peaceful relations with Russia without forfeiting cherished principles for which the allies fought.

Secretary Byrnes stressed the frequently repeated idea that this country did not

go into the war to gain territory or to interfere with peaceful nations. Rather, it seeks to let each country determine its own course and live in its own way. It wants to get along at peace with the soviet union and all other governments. Will Russia understand and permit it to do so? It probably will if we are firm as well as just. The secretary said in conclusion: "Whatever political differences there may be among us, we are firmly and irrevocably committed to the principle that it is our right and the right of every people to organize their economic and political destiny through the freest possible expression of their collective will. We oppose privilege at home and abroad. We defend freedom everywhere. And in our view human freedom and human progress are inseparable. "The American people extend the hand of friendship to the people of the Soviet Union and to all other people in this weary world. May God grant to all of us the wisdom to seek the paths of peace."

The little consideration given the public in recent years by labor union leaders now weakens the plea for defeat of the proposed constitutional amendment which would restrict the powers of such organized groups. The proposed amendment is fair to unioners and non-unioners alike. It will be refreshing to see Nebraska roll up a big majority in favor of the amendment and against union domination. It will be an example for the rest of the nation to follow in putting a crimp into a condition that had become almost intolerable. It should be as much desired by unioners as by the rest of the citizenry.

A late poll by the Des Moines Register shows Henry Wallace has slipped in popular approval among fellow-citizens. Another poll indicates that the president has recently lost much ground in public favor. A prediction is made that the next congress will have a republican majority with present chances of the senate going the same way. Bungling OPA management with vacillating judgment on the part of the administration has apparently aroused a tide of opposition. At this time it looks as though the Truman regime were headed for defeat.

It is only reasonable to suppose the coming legislature will be aroused by the campaign for the proposed school amendment to investigate school needs and make provisions accordingly. It is likely to awaken school districts to provide more adequately for their educational systems. We suspect voters will sidestep the proposed amendment and pass the responsibility on to the legislature and different school units.

New corn against bang boards will soon be heard. Husking will start around November 1, and it will no doubt continue as fast as the weather will permit. It is estimated that Nebraska's corn crop will amount to 236,280,000 bushels, 22,000,000 under last year's total. Corn not suitable for storing will go into silos and then in time into cattle and pigs.

Hunters were up and out early with the opening of the pheasant season Saturday morning. They crowded eating places for breakfast, and then speedily motored into the country to bag the popular game. Metropolitan centers contributed large numbers who took advantage of the occasion to enjoy a vacation.

BROMFIELD.

Louis Bromfield, farmer and author, spoke to an organization known as Friends of the Land in Omaha Friday night. Mr. Bromfield owns an Ohio farm and he has a very practical idea of agriculture and livestock. He also writes for newspapers and magazines and is the author of books. He is said to work sixteen hours per day. He depletes the waste of valuable soil, but is encouraged by increased efforts to save it. He thinks a new generation will do more and more to stop squandering both land and timber resources. Preserving the soil means greater production, and greater production insures essential plenty. In some areas farms have been so robbed of fertility that difficulty has been experienced in making a living or justifying investments. This will change as lands are reclaimed and fertility is restored. He points out that maximum production will reduce food costs and improve farm income. Farmers are increasingly up in arms to preserve rich soil, and this determination augurs well for the future.

Tax Exempt. Terminal leave pay whether in cash or bonds is tax exempt, but the interest on the bonds is not. The law specifically makes this exception.

Vets for Congress.

The number of World War II veterans nominated for both the senate and the house of representatives now stands at unofficial total of 183.

Priority Evasions.

Some manufacturers and non-veterans have found a method of short-circuiting veterans' priority rights. Their system is based on a little known loop-hole of the law giving the Civilian Production Administration the authority to issue "urgency certificates" to non-priority buyers of surplus heavy machinery, beds, blankets, etc. The War Assets Administration is

AMERICAN WAY.

"I can" and "I will" have more of the winning American spirit than the doubtful "I can't" or "I don't know." A story in the current Kiwanis magazine is captioned "Private Enterprise Can Reclaim Blighted Areas." That is stimulating and optimistic. Its author would not turn to socialism as a remedy, but to the proved power of individual initiative and resourcefulness. Making comparisons, the author says: "We have built better American cities than any socialists have ever built. We can and will rebuild our towns and cities upon a better planned pattern for better living and a better place to work, and in accordance with American traditions of private enterprise, initiative, resourcefulness and freedom. Rebuild your town, of course, and provide more beautiful homes and more ideal conditions under which to live and work. Confine your efforts to these objectives. Don't let the repetition of party line arguments mislead you."

helpless to check this practice, according to word received by W. A. Lerner.

The 79th congress passed 78 public laws in the veterans' behalf before adjourning. PL 529—Increased burial allowances from \$100 to \$150. PL 704—Armed force leave pay bill.

PL 718—Employment of retired officers in the Veterans Administration offices. PL 293—Established department of medicine and surgery in Veterans Administration.

Effective October 1, 1946, a veteran may file his self-employment claim (finance form 1387) on or before the last day of the month following that for which the claim is filed. For good cause shown the period during which the claim may be filed may be extended to not later than the 10th day of the second month following the month for which the claim is filed.

A representative of the Norfolk office will be in Wayne October 24, November 7 and 21, December 5 and 19, at the court house at 9:30 a. m. when claims may be filed.

Life Insurance for 1917-18 Vets. Many veterans of World War I are not aware that they may still purchase United States government life insurance. Ex-servicemen of World War I are urged to seek the advice of their local service officer for the early determination of their individual eligibility. Since May 29, 1928, veterans who served from October 6, 1917, to July 2, 1921, are eligible to buy United States government life insurance if they did not surrender their original \$10,000 contract for cash or paid-up insurance and are now able to pass a physical examination. Under United States gov-

ernment life insurance there are seven types of policies available to eligible veterans.

Veterans of World War II who permitted their NSL policies to lapse can now reinstate without a physical examination. This is true up to February 1, 1947. Pay the month last payment due and current monthly payment and be reinstated. In lieu of the physical examination the veteran must sign statement that he or she is in as good physical condition as at time of discharge from the service. See your service officer relative to new insurance provisions.

REPORT TO THE 16TH DISTRICT AS TO WHO SHOULD BE ELECTED OUR LEGISLATOR THIS YEAR: Statisticians tell us that another depression is due to hit us after this inflation. I have gone through three depressions (1913-1921-1933) and my judgment was good enough to bring my business through in sound condition. I have never been a flash in the pan, rich today, broke tomorrow. My long successful business career and sound judgment provide me with the foundation of a Good Legislator. The Golden Rule is the best measurement of success that anyone has ever found. I have always used it in my business and if I am elected as your legislator, I will continue to use it.

Doane Is Winner By Single Point

Tigers Defeat Wildcats in Close-Battle on Local Gridiron Friday.

For the first time this season the Wayne State Teachers College football squad tasted defeat Friday when Doane College took a 7-6 victory here. It was a tough game for the Wildcats to lose as they outplayed and outgained the winners. It was ten first downs for Wayne and five for Doane. It was also the first time the Wayne goal line had been crossed.

On the first play of the second quarter Valenta, fleet halfback for the Tigers, went through his own left tackle for 30 yards and a touchdown. Just before the first quarter ended the Doane men had started their touchdown drive on their own 35-yard line. The drive started with Butler going for three yards. Then Valenta carried the ball to midfield and in two plays had the ball on Wayne's 32-yard line. Tyson picked up one more yard when the whistle blew to end the first quarter. Valenta converted for the extra point.

Midway in the third quarter Dick Peterson blocked a Doane punt on the visitors' 25-yard line. At the point the Wildcats started their drive toward the goal line, with Mandl and Cunningham carrying the ball. Cunningham went through center from the one-foot line to score the touchdown. The kick for extra point was blocked.

The Wildcats started the ball game as though they were going to rip the Doane team to pieces when they rolled down the field strictly on ground plays to the Tiger 23-yard line. At that point Wayne was penalized 15 yards for holding. Bahr and Cunningham worked the ball back to the 20 but did not make enough for a first down and Doane took over.

In the early part of the fourth quarter the Wildcats once again drove deep into Doane territory. They worked their way to the 16-yard line but a bad pass from center stopped the drive and the Tigers took over again on downs.

Westphal, Sondergaard, Cunningham, Mandl and Schmiedeskamp were our heroes for the Wildcats, while Kasperek, Valenta, Tyson and Redmann stood out for the Tigers.

Starting line-ups:
Wayne (6) Doane (7)
Peterson K. Butler
Cypers J. Redman

Wildcat 'B' Men Win Close Game

Wayne Wildcat "B" team defeated Morningside college "B" team, 13-12, in a game played at Morningside Wednesday last week. Kanzler scored for the first touchdown. The losers scored their touchdowns in the second quarter on pass plays.

Harder, Bryant and Moyer were outstanding for the Wildcats.

The "B" team game scheduled for this Saturday has been postponed until November 11 because of the teachers' convention.

Helping Patients. Is Aim of Board

Mrs. Lorena Hahn Addresses Legion and Auxiliary At Joint Meeting.

Rehabilitation is one of the aims of the state board of control in dealing with patients in state institutions, stated Mrs. Lorena Hahn of Lincoln, chairman of the board, in speaking to Legion and Auxiliary members here Tuesday evening last week at dinner in the Women's club room.

The possibility of having out-state clinics and a voluntary commitment law is being studied, Mrs. Hahn explained. It is also proposed each patient taken to hospitals be moved in an ambulance with a doctor or nurse in attendance.

Another proposal is that of establishing a code of laws which would equalize punishment and crime. Many feel that justice is done to those committing lesser offenses, and the condition is not conducive to reform.

The importance of having cases studied by criminologists, psychologists and psychiatric doctors is also under consideration, Mrs. Hahn, who just returned from California, reports that that state gives extensive mental and physical tests to all patients. Nebraska is giving some tests and Mrs. Hahn feels that more of this should be done. The need is to try to save the patients and rehabilitate them.

Teachers for state institutions have usually been brought from eastern states. The University of Omaha now has a department for training instructors who can go to the school for the deaf, Wesleyan University may put in a department to train teachers as occupational therapists for mental hospitals.

Mrs. Hahn's address followed dinner for Legion and Auxiliary members. Mrs. Hahn came here with Mr. and Mrs. C. A. Orr, who visited until Wednesday with Mr. and Mrs. E. Kostomilatsky and Mr. and Mrs. A. T. Cavanaugh.

Russia and the United States—two nations upon whom the eyes of the world rest! Do they both want peace? For better understanding, read "The Great Globe Itself," by William Bullitt. Your librarian can suggest other books on this and similar subjects. An unusual new mystery on the rental shelf is "The Big Clock," by Kenneth Fearing. Only one person knew who the man was who stood in the misty shadow near the apartment house on 48th street and watched another person walk to a violent death. That person was the man himself. Two days later, all unwittingly the murderer assigned to this man the task of finding—himself. To refuse would have cost him a livelihood and a career. To accept—and he chose acceptance—placed his life in continuing, increasing peril. This is a novel of predicament and pursuit original in its conception. Viking Press has sent us a new book called "Moonrise," by Theodore Strauss. It is a psychological drama with plenty of action and excitement.

Attention, high school students! There is a book in the library which would make a wonderful book report, make your ancient history more real to you, besides being a thrill to read. Ask for "Alexander of Macedon," by Harold Lamb. A gift this week from Mrs. J. T.

From where I sit... by Joe Marsh

Are Returning Veterans "Different"?

During the war you heard a lot about how hard it was going to be for returning veterans to get adjusted to civilian life... how they'd be "different."

Well, plenty of them have returned to our town, and a finer, steadier bunch you couldn't ask for. Most of them are back at the same jobs... going with the same nice home-town girls (getting married, some of them, and getting up families)... renewing the same old friendships.

Even their amusements are the same. Nothing more exciting than fishing Seward's creek or pitching horseshoes... enjoying an outdoor barbecue with friendly wholesome beer and pleasant talk.

If they've changed at all it's in the direction of maturity and tolerance... tolerance for everything except dictators, and those who would destroy our democratic principles of live and let live. And from where I sit, that's another reason to be proud of them.

It's not that we don't love our work!

WE DO LOVE our work—but these days, we almost dread leaving home and going to our showroom.

So many people want new Packards, and there are so few coming through!

But you can't build cars without materials!

The factory is straining every effort to get more parts and material so production can be increased.

We're doing our best!

Some cars have been shipped with wooden bumpers, some without window regulator handles. This costs the factory a lot of money, for it means that replacements must be shipped and installed later.

Under such difficulties, it's a wonder the folks at the factory have done as well as they have. This year, compared to the same period of 1941, Packard has built a higher percentage of cars than the industry as a whole.

We don't dare predict!

Our customers have been so patient that we'd like to sound some optimistic note.

But word from Detroit says that parts and materials are still scarce. Steel continues to be limited. Shortages of lead, copper and other materials are looming up.

Scrap iron has been so scarce that Packard drove the ball rolling on a nation-wide collection drive!

Take care of your present car!

Until you're sure of getting a new one, give your present car the best of care.

Lots of cars are running better and lasting longer because our trained mechanics have serviced them right. Give us a chance to catch those little troubles before they grow up into big ones.

Bring your car in any time. We're short on new cars, but we're long on helpful, car-saving service.

First Frost Comes Middle of October

Speaker Describes Russian Form of Communism As a Dictatorship.

Early Days from The Wayne Herald for October 23, 1930:

First frost of the season came almost simultaneously with the first snow October 16, 1930. The heavy rain, which preceded the snow and frost, was accompanied by unseasonable thunder and lightning. The first cold snap put corn in good condition for picking and the grain is expected to yield 40 bushels to the acre.

Dr. Lawrence McGrath, head of commerce at Wayne college, addressed Kiwanians on the plan of soviet Russia, whose communism he described as military dictatorship. The influence, he stated, is being extended through Germany, England and the United States. The Russian experiment, growth of nationalism and expansion of scientific invention are the three ruling influences of the times. Dr. McGrath warned against adopting the Russian form of government.

The Randolph mill is being torn down after 39 years of use.

Mrs. Elizabeth Schroeder bought the W. C. Heikes farm near Newcastle for \$107.50 an acre.

Highway traveling south of Pilger is in progress.

Miss Edna Pratt and Albert Jones were married in October, 1912, and went to Harlington where Mr. Jones is engaged in the theatre business. Jens Hansen and Roll Tidrick had a runaway with one of the Ben-shoo livery rigs when they met Iver Prince in his car. The team dashed through the Carl Hayden cornfield and damaged the buggy. An electrolier with a cluster of lights was erected at 3rd and Main streets. The improvement is so outstanding that the city plans to have a string of electroliers the full length of Main street.

File Applications For Tree Seedlings

Application blanks for Clarke-McNary seedlings are now available at the office of County Agent W. R. Harder. These trees may be had at cost to farmers for planting windbreaks, shelterbelts or woodlots. Farmers desiring the trees

should apply soon as many varieties were exhausted by January last year.

Last spring 18 Wayne county farmers planted 5,500 of these trees.

Among broadleaf varieties available are Russian mulberry, American elm, Chinese elm, green ash, honey locust, black locust, cottonwood, Russian olive, caragana and soft maple. Evergreens are the Ponderosa pine, Jack pine, red cedar, the first two being recommended for this area.
