

Error Finds Wayne Well Prepared—Need of Planning Committee—Youth Leaving Farms—Celestial Phenomenon.

How much, if any, will Wayne suffer if the nation-wide coal strike is long continued? That is a question...

The college uses natural gas, and therefore has no fuel problem to solve. The city school has enough coal to run until March 1...

Wayne does not feel smug, but it does feel well fortified in fuel requirements against the beetle-browed union boss design to hurt the nation at a crucial time.

Whether recreation centers serve better to be scattered as they are in Stanton and Schuyler is a question on which people could honestly disagree.

Altogether, proposed plans to take care of recreation demands would appear to be sound. Danger to early realization might be in having too many farms in the fire at one time.

The agricultural experiment station of the Iowa State College at Ames has issued a booklet captioned "Iowa's Vanishing Farm Youth and Their Schools."

During a ten-year period ending in 1940, Iowa towns and cities had population increases totalling 115,000.

The report says cost of schooling per pupil in rural areas is greater than in urban centers. There are other disadvantages than the cost in the country.

Migration from the farm is disturbing. Hard work is found in agriculture as it is found in anything undertaken with determination to succeed.

Partial eclipse of the sun Saturday forenoon drew little attention here. The ancients interpreted a solar eclipse as foreboding great, impending evil.

The Angel and Joe Dusek will oppose each other in a wrestling match at Wayne municipal auditorium Thursday, January 9.

Wayne college classes will be dismissed Thursday and Friday for Thanksgiving vacation. In order that students would be able to take the 2:20 bus home Wednesday afternoon, classes that day were changed.

Sounds Appeal To Rebuild Soil

Wayne County Winners Are Honored By Kiwanis at Monday Program.

"Let us turn our farms over to our children in better shape than when we received them and hope that they turn them to their children in even better shape."

Mr. Watson told that nature provided this area with a rich soil that was covered with grass when pioneers came here.

If farms continue to produce well, they must be rebuilt, Mr. Watson explained. Growing legumes will replenish the nitrogen and allowing stalks and hay to decompose will supply humus.

Wedding Service Is Held in Church

Miss Bonnie Wagner Bride Of Robt. Felt Sunday At Rites Here.

St. Paul's Lutheran church of Wayne was the scene of an impressive wedding Sunday afternoon at 4 when Miss Bonnie Jo Wagner became the bride of Robert E. Felt. Nuptial vows were exchanged at a double ring ceremony performed by Rev. T. J. C. Schuldt in the presence of relatives and friends.

The sanctuary was banked on either side with white tapers, palms, ferns and with baskets of white chrysanthemums, interspersed with pink pompons. Before the ceremony Miss Margaret Elaine Woods of Carroll, at the organ, played "Always" and "Love's Old Sweet Song." She accompanied Wendell Peterson of Ceresco, who sang "I Love You Truly" and "Because."

Preceding the ceremony Billy Jim Wagner and Jimmy Grier, brother and cousin of the bride, lighted the tapers. To the strains of Lohengrin's wedding march the bride party proceeded down the aisle. Miss Ruth Vernelle Roberts and Miss Miriam Roberts of Carroll, and Miss Bonnell Grey of Wayne, were bridesmaids and Miss Betty Wagner, sister of the bride, was maid of honor. The bridesmaids wore gowns of pastel colors. Each had a corsage. The maid of honor was attired in formal gown of rose, marquisette nylon. Her head dress was a coronet of matching flowers, and she wore a corsage of pink carnations and white chrysanthemums.

Billy Reeg, cousin of the bride, was ring bearer. He wore white trousers and dark coat and carried the rings on a white satin pillow. Kaye Wagner of Carroll, also a cousin of the bride, was flower girl. She wore floor-length dotted Swiss dress. Donna Jean Hughes and Patty Strong, who were train bearers, wore street-length dresses of white wool.

The bride, who entered with her father, Wm. H. Wagner, wore a floor-length gown of white marquisette tulle over satin. The bodice of the bride's dress was white brocaded silk nylon fashioned with a drop shoulder tulle yoke. The full skirt swept into a long train. Her trailing veil was the one used by her aunt, Mrs. Arnold Reeg, and was a French illusion banded with Chantilly lace which fell from a seed pearl tiara. She wore a gold sweetheart locket, a gift of the bridegroom, and a gold bracelet which was worn by her grandmother. She carried a shower bouquet of pink roses and white pompons with white streamers interwoven with sweetpeas.

Mr. Felt and his attendants, Alfred Hitz and Wallace Felt, his brother-in-law and brother, wore dark suits and white carnation boutonnières as did Clayton Anderson and Marvin Bichel, who served as ushers.

Mendelssohn's was played for the recessional after which a reception was held in the church parlors for the wedding party, relatives and friends. The room was decorated in the bride's colors of rose and white and with baskets of chrysanthemums. Miss Joyce Stanley and Miss Mollie Mae Lage of Carroll, and Mrs. Paul Peterson presided at the table which was centered with a three-tier wedding cake and rose tapers. Miss Bonnie Nissen was in charge of the gift table and Miss Dorothy Hamer, the guest book.

When the couple left for their new home in Tucuman, N. M., the bride wore a black and grey ensemble.

Mrs. Felt, eldest daughter of Mr. and Mrs. Wm. H. Wagner, was graduated from Carroll high school and attended Wayne college. She taught in a Wayne county school and for the past year had been stenographer with the John Deere Implement Co. in Wayne.

Mr. Felt, eldest son of Mr. and Mrs. Elmer Felt of Wakefield, was graduated from Wakefield high school and attended Wayne college. He was inducted into service where he held the rank of major in the air corps division. For the past eight months he has been located in Tucuman, N. M., where he is in business and where the couple will make their home.

Ward Reynoldson Will Argue Case

W. Ward Reynoldson, son of Mr. and Mrs. Walter S. Reynoldson of Madrid, Ia., formerly of Wayne, has been selected as one of 16 juror law students to argue hypothetical law cases next month before judges of the eighth judicial district of Iowa in the old capital building at the state university of Iowa, Iowa City, Ia.

Originally 120 freshman law students participated in these arguments. This group was cut to 60 by the results of the freshman arguments, and further narrowed to 16 by scholastic averages.

On the basis of their arguments before the district judges, four winners will be chosen to argue a hypothetical case before the nine judges of the Iowa supreme court on Supreme Court day next spring. Reynoldson served in the navy from August, 1942, to January, 1946. He was an instructor at Northwestern Midshipman school, Chicago. He served aboard a destroyer in the Atlantic and Mediterranean, and was stationed at Pearl Harbor from the end of the war until last January. When discharged he was a lieutenant in the naval reserve.

Reynoldson is a member of Gamma Eta Gamma, national law fraternity.

A freshman in the college of law in Iowa City, Reynoldson was graduated from Wayne State Teachers College, Wayne, in 1942. He enrolled in the University of Iowa last February.

Students are now returning and trying to get along in temporary makeshift buildings. Much suffering is reported from cold and malnutrition and especially from tuberculosis.

The speaker asked American students to assist these needy young folks.

Make Application For Tree Planting

Farmers interested in Clark-McNary trees for farmstead windbreaks should order the trees immediately, states County Agent Walter E. Harder, as the supply is limited this year. The red cedars are all sold. The western yellow pine, however, is still available and is a good native plant for northeast Nebraska. The broadleaf varieties are the Russian mulberry, American elm, Chinese elm, green ash, honey locust, black locust, cottonwood, Russian olive, Caragana and soft maple. Seven farmers have ordered 2,400 trees to date. Mr. Harder thinks that the 1947 planting season should be favorable for trees, due to the moisture supply available already. Applications for Clark-McNary trees are available at the extension agent office at the court house.

TEN YEARS OF MINE WAGES (Norfolk Daily News)
Defiance of the government and people of the United States by John L. Lewis and his miners is the harder to stomach when we look at the steady rise of wages in the bituminous field in the last ten years.
In 1935, under an increase granted two years before, soft coal miners were receiving 74 1/2 cents an hour for an average 26 1/2-hour week, or \$19.58 a week, a pitifully small wage, all will admit. But in the following years pay went up steadily—\$23.88 a week in 1939, \$30.86 a week in 1941, \$41.58 in 1943, \$58.20 in 1945.
This brings us to be waltz of last April which put the country on slim coal rations until the miners suddenly ended their strike after the government had seized the mines and bided their time until this fall when the impending cold weather would permit them to produce a real crisis.
On May 29, Secretary of the Interior Krug signed a contract providing that mines should be operated nine hours a day, with overtime after seven hours, and with a five-day week. The wage increase was put at about 17 per cent, \$106 a week at a year was allowed, and a relief fund amounting to about \$25 million a year was granted to be financed by a levy of 5 cents a ton on all coal mined. This was to be administered by three trustees, but the union was to continue to administer existing medical aid, financed by wage deductions.
Under this agreement, wages last August, after an increase of 58 1/2 cents a ton in the price of coal was allowed, were put at \$14.64 an hour, 42 1/2 hours a week,

Spirit of Wrath

POPULAR wrath has descended on Boss John L. Lewis and his subordinate chieftains because of the coal strike with which the country has been afflicted. What the government can best do to relieve a grievous situation presents a real problem. If Lewis were put into jail, as proposed, his role as a martyr might solidify striking forces and aggravate a bad situation. If he were heavily fined, doubtless unions would be assessed to pay, and hardship on helpless members would be increased. Forced to accept the dictum of autocratic leadership, many miners suffer consequences in common with the rest of the country, and are no doubt praying for an early end of the conflict. It is hoped the reassembling of congress will see headed for the legislative hopper laws with sufficient teeth to compel settlement of labor disputes without upsetting the economics of the country. Plenty of laws are on the federal statutes to restrict management, and now they should be made to correct union faults. No group—management or labor—should be allowed to defy the government or flout the public welfare.

The fellow who does more than he is expected to do, wins employer approval, and is a real cog in the machinery of private enterprise. That fellow negates the whisperings of government paternalism.

Statesmen disagree over the advisability of an early reconvening of congress to handle the coal strike crisis. At this distance, with limited information, it would

appear that if congress could do something effectively in January, it could do so now, and thus possibly prevent a lot of hardship and loss.

Ugly things said, contemptible things done are never forgotten by those who say or do them. Victims may forgive and forget, but sense of regret sticks to the guilty. A bad utterance or a bad deed lingers as long as memory lasts. Therefore, one in youth or later needs to guard his tongue and watch his step.

We note that Governor-elect Val Peterson has already made one official appointment. At this rate, he should have all places filled by the time he takes over. We recall that former Governor Sheldon delayed appointments until even those who won were peeved. Sheldon lasted one term, and he was followed by Shellenbeger who lost no time in getting rid of available places.

Last week's Town Meeting of the air discussed the question of preventing another major depression, and the speakers on both sides said it could be done, but did not see eye to eye on how it could be done. One side favored lowering on the government. The opposition would look to private enterprise. All saw the need of increased production to head off future economic paralysis.

We have advice from the state department of health on how to dodge influenza. Avoid contact with persons who have it, keeping well out of the range of sneezing and coughing. Use only sterilized drinking cups. Wash hands before eating. Keep out of crowds. If everybody followed that one, there would be no crowds. Now we are wondering where the first flu victim caught the disease.

Louis Bromfield, columnist, mentions that hundreds of thousands of unioners voted against the CIO and the PAC in the late election, doubtless in protest against arbitrary and unreasonable leadership. Bromfield thinks greatest alarm over that eventuality should be felt among union bellwethers. In losing approval of their own members, they must acknowledge justly popular resentment which forecasts weakness and loss.

President Truman reached Washington last week-end after a refreshing vacation spent in Florida. On arrival it is said he took personal charge of the coal strike situation. If "personal charge" means anything to solution of the problem, he should have cut short his Florida sojourn and hastened to his post of duty earlier. Fanfare over joyous leisure is wholly out of accord when a country's essentials are in peril.

DEFEATISM. The Saturday Evening Post says the generally circulated aphorism, "It is later than you think," is the most illogically pessimistic phrase in the language. It is an invitation to give up and lie-down. It suggests defeatism. It is not a spur to getting the world's work done. An old biology professor, 77, still digging for facts and reasons, taboos the "too late" stuff. It is late or early according to one's feelings. One may be up and doing at 75, or he may dull ambition at 30. Taking exception to this inanity, the old biologist said: "I believe that humanity is young enough to be much more optimistic. Right now we are just getting out of the habit of hanging by our tails. I am confident, if we buckle down to work, that within ten or twenty thousand years we should begin to learn how to live together like human beings."

THANKSGIVING.

Another Thanksgiving holiday finds the world beset by much mental conflict and numerous threats to a peaceful order. Violence in the Holy Land, continued trouble in China and outbreaks in other quarters of the globe oppress the spirit that rises in grateful acknowledgments. Assault on tranquility and plenty, manifested in the nation-wide coal strike, defying authority and spurning human need, weighs on the heartstrings as we enter the holiday season. But we may be thankful for good we may be able to do as a nation and as individuals. We may be thankful for the predominant American will to help the distressed everywhere, unimpeded by race or religion. We may be thankful for strength of resources to aid in quieting discordant elements and gradually filtering understanding into hitherto inconciliable minds. We may be thankful for loyal families and helpful neighbors. We may be thankful nature does not become disgusted over the way people act, and quit dishing out elements that bring autumn's rich fruition. Nature probably just reasons: "Well, the fools may learn." We may be thankful as we leave routine for a day to reflect that America's bounty has helped and is helping assuage hunger in many less fortunate lands.

OUT OF OLD NEBRASKA

By James C. Olson

Superintendent, State Historical Society Nebraska's first Thanksgiving was celebrated November 30, 1854, a day set aside by proclamation of Acting Governor Thomas B. Cuming. Thus in addition to being the state's first Thanksgiving, it was the first legal holiday ever to be celebrated in Nebraska.

The press of the state—consisting at that time of but one paper—the Bellevue Palladium—remarked, "Although we have, as in all new countries, comparatively little to be thankful for, we have sufficient to inspire out gratitude and blessing."

It really was more a celebration of what was to come, rather than in thanksgiving for what already had arrived, for by Thanksgiving day, 1854, the territorial pioneers had not yet given the soil of Nebraska an appreciable test.

Frankly, those early pioneers were not too much interested in farming. Most of them were more concerned with the quick fortunes to be made in laying out town sites, selling town lots, and engaging in commerce. As J. Sterling Morton later said, the greater part of their time was spent "talking and meditating upon the prospective value of city property. Young Chicago, incipient New Yorks, precocious Philadelphias, and infant Londons were duly staked out, lithographed, divided into shares, and puffed with becoming unction and complaisance!"

Those pioneers, confident of the suc-

cess of their enterprises, had no qualms about giving thanks for blessings still in the future.

A mass meeting was held in the Presbyterian mission and Rev. William Hamilton preached a sermon appropriate to the occasion. According to the Palladium, "considering the place, a large and respectable audience attended."

The editor was pleased also "to witness the general interest, which this festive occasion seemed to awaken among our citizens, and the zeal which they manifested to manifest in the exercises that long to this time-hallowed institution."

Doubtless the editor's mellow view of the day was in part brought on by the "excellent Thanksgiving dinner" which he enjoyed at the home of G. S. Tozer, "whose lady knows full well how to provide for such an occasion."

Indication as to some of the dishes enjoyed by the editor may be found in Peter Sarpy's advertisement in the paper of the same date. This famous Missouri river fur trader and merchant announced that he had just received "a large assortment of selected merchandise adapted to the wants of all in the new and thriving community."

Among the grocery items were included: "Crushed, clarified, leaf and brown sugar, molasses, syrup, molasses, golden syrup, superior tea, Rio and Java coffee, saffron, ginger, pepper, cloves, spice, cinnamon, ground ginger, nutmegs, snuff, tobacco, cigars, pipes, soap, candles, vinegar, pickles, pepper-sauce, etc."

Gambles advertisement for Christmas Eve gifts. Features images of pajamas, pants, slippers, and a bed jacket. Text: 'FOR YOUR CHRISTMAS "EVE"'. 'Lovely gifts she can use at her leisure. A lasting remembrance.' 'WOMEN'S CHENILLE ROBE' (8.99), 'LADIES' PAJAMAS' (3.98), 'LADIES' RAYON PANTS' (98c), 'NYLON PANTIES' (1.98), 'LADIES' SLIP' (2.98), 'COTTON PANTIES' (49c), 'BED JACKET' (1.95).

Rural Mail Service 50 Years Old

A half-century of service to rural America is observed by the post office department in October, for in 1896 three routes were established in West Virginia to inaugurate the federal system of rural free delivery. By way of marking the anniversary, Mary E. Garner, Rochester, Mich., greets Rex Dolph, of the R.F.D. service, with home-made doughnuts guaranteed to cause a minor interruption in this courier's 'swift completion of his appointed rounds.' Approximately 26,000,000 Americans are served by R.F.D., and with U. S. mail traveling by sis, dog-sleds, ice-boats and snowshoes, Carrier Dolph gets there faster in his new Chevrolet.

USED FAT SALVAGE CHIEF HOPE FOR MORE SOAP AND SUPPLIES

World Scarcity of Fats and Oils Means That Kitchen Grease Saving is Principal Source of Additional Supplies

Hundreds of letters are received every day by the Department of Agriculture and the American Fat Salvage Committee regarding the relation between fat salvage and soap. "It takes a week or even two weeks' supply of packaged soap, or five weeks' supply of toilet soap, or eight weeks' supply of laundry bar soap," the letters say, "and that is a lot of work."

When a housewife turns a pound of used cooking fat over to the meat dealer, she enables industry to make six bars of laundry soap that otherwise could not make, according to the figures released by Washington experts.

One pound of used fat salvaged is enough to help make approximately one large box of packaged laundry soap—the kind that is currently hard to get—or six bars of toilet soap.

Increases Supply. On the basis of these figures, if a housewife turns over to the meat dealer one pound of used cooking fat, she makes for herself two weeks' supply of packaged soap, or five weeks' supply of toilet soap, or eight weeks' supply of laundry bar soap. It is pointed out by the American Fat Salvage Committee.

Further, if it had not been for fat salvage, consumers would either have gotten thirteen per cent less soap in 1945, or the government would have had to divert food fats to the manufacture of soap. During

1945, the statisticians say, salvaged household fat supplied enough fats to produce approximately half of the toilet bar soap, all of the yellow bar soap, about 25% of the heavy duty packaged laundry soap, or twice as much as was needed to produce the fine fabric packaged soaps.

By-Products Too. All this in addition to the by-products of soap making, that help make paints, printing ink, fabrics, cellophane, electrical appliances, linoleum and hundreds more everyday necessities.

Wills, Jodean Jones and Lois and Marvin Goshorn.

The following received 80 or above in all quarterly examinations: Patricia Nettleton, Dale Hintz, Bonnie and Deon Papstein, Irene Hansen and Marvin Goshorn. "Star" has been read for opening exercises.

CANINE OLDSTERS BOAST INTERESTING CAREERS

THE search for the oldest dog in America, conducted by the Gaines Dog Research Center, New York, as part of the 1946 observance of National Dog Week, unearthed some exceedingly interesting stories.

The oldest one found was Laddie Boy (named after President Harding's dog), 25½ year old male of dubious ancestry owned by Mrs. E. C. Baynard, of Rocky Mount, N. C. This age in a dog is equivalent to 135 years in a human. Though dogs half his age are considered old, Laddie is perfectly well and has required no veterinary attention in over four years.

Jiggs, a large cross-bred owned by Mrs. Oscar Bengtson of Anaheim, Calif., is now 21 years old. When he was 10 years old, the Bengtson family moved to Anaheim from Truman, Minn., leaving Jiggs behind with a friend. After staying with this friend eight weeks, Jiggs vanished. Two and one-half years later he turned up at the Bengtson home in California, having traveled nearly 1800 miles through strange territory to find his family.

Vet's Corner

The veteran population of the United States on September 30, 1946 was 17,511,000 of whom 13,585,000 were veterans of World War I and 3,926,000 of World War II. Other wars and regular establishments. The veterans' administration summary discloses that 116,324 disabled veterans were being rehabilitated under Public Law 16, and that 1,251,844 non-disabled veterans were taking education or training under Public Law 346. A total of 422,998 veterans had negotiated guarantee loans to purchase homes, farms, or go into business.

GRANDPUP INSPIRES AMPUTEE
Aut Student Roy Leonard, 19, Minneapolis, who lost his left leg in Luxembourg, says his grandfather inspired him to minimize his loss and proceed with his studies under provisions of Public Law 16. The grandfather, now both legs 10 years ago and they had to be amputated. "I said to myself," he recalls, "if grandfather can get along so well with both legs gone, I certainly should be able to maneuver on one." Aut teachers say Leonard shows considerable talent.

Ritz Rachmaninov, a purebred Samoyede owned by Mrs. Daniel McKnight of Vallejo, Calif., and now 15 years old, distinguished himself at the age of 12 (75 in human equivalent) by siring a litter of four healthy puppies.

Susie, 16, owned by Al Johnston, a government trapper of Logan, Mont., still goes hunting with her owner every day. She has pulled down over 600 coyotes and once helped capture a wolf weighing 103 pounds.

Aelona Wire Girl ("Acie"), purebred Wire Foxterrier owned by Mrs. B. J. Blackburn of Roseville, Mich., is still sporty-looking and svelt of figure despite her 13 years. Acie has produced 10 litters of puppies and raised all of them. Besides nursing her offspring, she has acted as foster-mother on three different occasions for other dog mothers who had more puppies than they could take care of.

Buddy, a Shepherd (Collie type) belonging to Mrs. Stoddard Porter of Grahamsville, N. Y., is still working for a living at the age of 16. He brings the cows home from pasture every afternoon. In addition, he has completely eliminated woodchucks from the Porter farm.

In Somerset, Pa., Mrs. William E. Griffith has a toy Black and Tan Terrier male, named Zippy, now 19 years old. She told the Gaines Dog Research Center folk, "Zippy" has traveled extensively, stopping at the very best hotels in the country.

Mrs. Robert E. McKinley, of Federalburg, Md., boasts that her 17-year-old mixed Terrier, Buster, "can actually talk." She claims he says such words as "I'm hungry" and "I want to go out." This claim places Buster well ahead of the much-publicized English dog Ben who is said to be able to distinctly say, "I want one."

A white female Spitz, "Midgie," owned by Fred Oertel, of Keokuk, Ia., had a litter of three healthy puppies in May, 1946, when she was 16 years old. On other occasions, when she had no puppies of her own, Midgie mothered a litter of white rats, some chickens, and another dog's four puppies, and still another time simultaneously nursed a puppy and a kitten.

Panel Discussion Concerns Schools

Liberal Arts and Vocational Training Considered By Wayne Club.

"Tomorrow's High School" was the topic of a panel discussion conducted for Wayne Women's club in the club rooms Friday by Mrs. F. S. Morgan, Mrs. C. H. Lindahl and Mrs. J. T. Gillespie. Mrs. Morgan gave the opening message. Mrs. Lindahl spoke on the value of liberal arts in developing the mind in ability to think. She quoted Robert Hutchison of the University of Chicago, Mark Van Doren of Columbia university and the Harvard report. These agree that all students should have training in liberal arts to become good thinkers.

Mrs. Gillespie reported on the value of vocational training. She noted the complete vocational course offered at Denver's East high school and mentioned the car driving course at Newark, N.J. The contention is that students will do better by taking training along the lines in which they are especially interested.

Mrs. Morgan closed the discussion with magazine articles which advise training that keeps to the middle course, offering both liberal arts and vocational work so that students may make selection after they have had some of each. All children should assume the responsibility of becoming good citizens, and school should provide them with right guidance.

At the business session it was voted that the president should appoint three to carry on correspondence with women's club representatives in Argentina, France and Czechoslovakia as a means of creating good will.

It was announced that the Chamber of Commerce may bring Sigmund Romberg here in April. The club gave \$2.50 to girl scouts.

Mrs. C. E. Bush played piano solos.

Mrs. W. C. Coryell, Mrs. B. J. Brandstetter, Mrs. W. S. Bressler, Mrs. O. R. Bowen, Mrs. R. H. Banister, Mrs. I. Anderson, Mrs. Nettie Call, Mrs. John R. Kiehl, Mrs. S. A. Lutgen and Mrs. H. H. Hahn served.

The club meets December 13 when Dr. M. H. Hanawalt will speak.

Practice Starts For Hotel Team

Practice starts December 4 for the Morrison hotel basketball team. Among the former Wayne college "greats" who will play are Kenneth Whorlow and James Anderson and possibly Jim Strahan. Several local boys plan to try out for the club, and a couple may come from out of town.

J. H. Morrison expects to schedule games with Sioux City, Omaha, Norfolk and other teams. Several good traveling clubs will likely be here.

Effort is being made to bring Jess Owens, sprinter and winner of three Olympic events, here for a demonstration in connection with one of the games.

Irving Anderson Expects to Quit Colorful Career

Irving Anderson of Hoskins, one of the finest jockeys ever to come out of Nebraska, is soon to end his riding days. He writes his sister, Miss Bonnie Anderson of Omaha, that he finds it's increasingly difficult to make weight. Anderson says he is looking for a training position which will let him give up riding and still remain in the business he loves.

"Anderson has been a big-time racing rider for the past 10 years, except for army duty between 1912 and 1914. His greatest number of winners in a single year came in 1936, when he booted 151 horses home out of 782 mounts. But in later years Anderson concentrated on big stake races rather than on getting a lot of winners at cheap claiming races.

"During his career, Anderson won most of the big stakes, too. And none gave him more satisfaction than his triumph in the rich Lassic Stakes at Arlington last July. Four days before the Lassic, Anderson rode Four Winds to victory for a \$55,200 mutual payoff, in the Dixiana Stable filly's first start. Then he repeated by four lengths with Four Winds to earn \$51,000 in the Lassic. That's one reason Irving hates to retire from racing this year—he'd like to be aboard Four Winds in the Kentucky Derby next spring."

Is Chief Engineer For Big Structure

Carroll G. Petersen, who recently received his discharge after serving two years with the army engineers, will be chief engineer for the construction of a bridge over the Carritos channel at Long Beach, Calif. The bridge will be a mile long, have six lanes, require 10,000 tons of steel and will have a vertical lift in the center to allow passage for ships. The project, three times the size of the Needles bridge for which he was assistant engineer, will require a year and a half to construct.

Mr. Petersen was with the American Bridge Co. and was connected with the Chicago office before going into service. He will now be with the San Francisco office of the same company but will be at Long Beach.

Mr. Petersen had been at Ft. Belvoir, Va., and he and his wife arrived here Friday after stopping in Florida, New Orleans and Chicago. They are with Mr. and Mrs. Edw. Seymour and Mrs. C. C. Petersen until Friday when they leave for Long Beach.

All over the land the day of Thanksgiving brings Americans near to each other and to the ideals and traditions of the generation since our Pilgrim fathers. Observe Thanksgiving with a truly thankful heart.

Stirtz Oil Co.

Sincere Thanksgiving Greetings

Thanksgiving holiday revives memories of Pilgrim Fathers who were industrious, friendly and honest, and who were grateful to God for the meagre blessings accorded to them in this new land... This religious reverence that prompts expressions and feelings of gratefulness is one of the bulwarks of American democracy... May this religious foundation established by our forefathers ever prompt us to keep our ideals high so that America may lead the world to enduring peace.

A SMALL-SIZED, GREAT-TONED piano

- More "Minipianos" are bought than any other piano in the world.
- The "Minipiano" originated in Europe under Swedish patents more than 20 years ago. Due to its universal acceptance, "Minipiano" sales have increased phenomenally during recent years, with the result that the name has become almost a household word. Today "Minipianos" are being manufactured in the United States, England, Canada, Sweden, Belgium, France, Greece and other countries.
- In the United States the "Minipiano" is manufactured exclusively by Hardman, Peck & Company, makers of the famous Hardman Piano for more than a century.
- The extraordinarily clear and ample tone of the "Minipiano" is due to the basic scale plus the fact that its patented sides are hollow and become resonators, thus augmenting the function of the sounding board. The "Minipiano" will actually stay in tune longer due to its basic design.
- The heavy patented flanged plate eliminates the necessity of back posts (the flange of the plate might be likened to a building girder), adds rigidity, and saves several inches in the depth of the case.
- The patented lever keys of the "Minipiano" not only increase leverage and repetition of the action, but save an additional several inches in case depth.
- The "Minipiano" occupies less floor space than any other full-scale 88 note piano.
- The "Minipiano" meets the modern demand for compactness, tonal richness and cabinet beauty.

Library News

During the critical London meeting of the United Nations the New York Times carried a two-column wire-photo from London headed: UN DELEGATES READ IDEAS HAVE LEGS. It pictured the representative from Iran, on whose table lay two copies of this fast-selling, thought-moving book. This remarkable work by one of Britain's most powerful writers supplies the clue to the confused world picture facing the democracies today. IDEAS HAVE LEGS is the story of the next 20 years in the making. In the many colored perspective of one eventful life we meet the men and the ideas that shape our times. Churchill, Beaverbrook, Lenin and a host of others step through its pages. Howard's diagnosis has the refreshment of valid hope. He goes beyond criticism to cure.

Margaret Halsey who wrote With Malice Toward Some and Some of My Best Friends Are Soldiers, has written a book called Color Blind. For the first time a white woman writes about the negro, not scientifically, not fictionally, but in terms of her own experiences in meeting negroes as social equals. During the war she worked at an interracial center. This is a different kind of book about negroes and white people because it is not a "problem" book. It is a solution book for each individual.

Tail of the Brave, by Fletcher, who wrote Lusty Winds For Carolina, is another historical novel with some of the same characters who were introduced in the first book.

Readers who have enjoyed the Mrs. Meigs series of books will welcome a new book by their author, Elizabeth Corbett. The Title of the new one is Lady With A Parasol.

The library will be closed Thanksgiving day.

Happy Thanksgiving

This truly American holiday was founded by colonists who were appreciative of the great heritage of freedom, opportunity and abundance which they found in this land. Let us pause to express appreciation for the many advantages they instituted for us, and also for the blessings which have come the past year. May we be able to make peace permanent! . . . For health, contentment and prosperity, we are truly grateful.

Observes Second Birthday Amidst Different Sights

The world onto which David Walters looked November 13 was strangely different from his surroundings when he was born two years ago. The little son of Capt. and Mrs. Wayne Walters has traveled half way around the world, and celebrated his second birthday in Ludwigsburg, Germany. Though he may not be able to remember, his parents will never forget the odd group of 24 youngsters attending the party. Children included the offspring of high-ranking officers and enlisted Americans. Also in the group were children of German royalty and peasants. The great scarcity of everything has brought all close together.

Mrs. Walters, the former Norma Fuesler of Wayne, writes that now, "Skip" was thrilled with a rag doll and ball made for him by maids. He was also delighted with two oranges and cookies which they arranged on a small table to surprise the child when he awoke on his birthday. Oranges are a special treat as the family has had none for weeks. Two playmates brought David some flowers, which is a general birthday custom.

Mrs. Walters says it would be a real treat to visit a store to get vegetables, fruits, toys or nutrients without finding lots of children gathering to beg. It is a pitiful sight to see young and old so hungry, ragged and cold. When clothes wear out or are torn, none are to be had to replace them. People go to bed early because they have so little fuel. All summer and in winter everyone picks up every tiny stick and piece of paper to stave for winter warmth. Many grab for every cigarette stub cast aside by Americans.

Sincere Thanksgiving Greetings

Americans today observe Thanksgiving day with the same thought in mind as was the tradition when the Pilgrim Fathers first set aside the holiday in 1621—as a time of expressing our gratitude for all things dear to us.

Let us see that this tradition remains always the same.

How to Handle a Fortune

Some months ago I reported in the *Clarion* how Mel Bate's uncle died up north, and left him with a tidy fortune.

Naturally, our town was curious, to see how Mel would spend it: Traveling around the world... getting a new house or car... wearing fancy clothes... or dining on cold pheasant and champagne...?

We can now report, Mel hasn't changed a bit! Drop in on him any night, and you'll find him in his shirt sleeves by the fire, chatting with the Missus, sharing a mellow glass of beer with friends.

From where I sit, Mel has learned the art of handling money—as well as handling people. You don't let cash-in-the-bank push you around any more than you let people push you around. If you like the simple, homey life; companionship and quiet ways; a glass of beer and friendly talk—that's worth a fortune, after all!

Aged Indian Goes Far for Exercise

Blind Barber Is Successful
In Catching Tricky Trout in Utah.

Geraldi Lefountain, a Sioux Indian who says he is 93 years old, arrived in Amanda, O., by horse and wagon to visit his sister, Mrs. Mary Ann Wilson, 63. Mr. Lefountain said he came all the way from Little Rock, Ark., leading his horse instead of riding on the spring wagon. "The exercise does me good," he said.

Ernest Hill, 65-year-old blind retired barber, Murray, Utah, had trout for breakfast, part of his catch of five beauties with which he closed the 1946 season. The fishing enthusiast, who has been blind for 20 years, explained his system: "My stick locates the trail and the bushes and the bank of the creek; my ears tell me when my worm hits deep water. Patience does the rest."

San Diego, Cal., lost \$37 on a downtown parking meter—\$35 as value of the meter, which someone pulled up and carted away and \$2 in nickels and pennies in the coin box.

Wilbur Dunnington of Chillicothe, Mo., knew there was a shortage of white shirts, but he didn't know it had come to this. Wearing one, a presser made him walk into a clothing store. A clerk eyed the garment and offered to buy it explaining, "I'm all out of shirts myself." Mr. Dunnington didn't sell.

S. Sgt. Robert E. Copeland of Centralia, Ill., has sent home autographs of the late Nazi war criminals, explaining that he traded one cigarette each for signatures of Herman Goering and others. Sgt. Copeland was a guard at the Nurnberg trials.

For one day nylons were sold to men only by a Du Quoin, Ill., department store whose manager explained: "Just giving husbands a break on early Christmas shopping for their wives."

Russell Gill of Los Angeles had two automobiles one day and the next day he didn't have any. One of the cars disappeared from a parking place in front of a theatre. When he got home he discovered the other machine had been stolen from there.

A Pueblo, Colo., woman accompanied her son as he registered to vote for the first time. "Is your son a citizen by birth?" asked the clerk. "No," the mother replied, "he was born in Missouri."

The city police officer at North Bend, Ore., isn't quite sure what would be the best thing to do if he arrests a drunk and finds it necessary to give the offender a place to sleep it off. When the state liquor store's lease expired at North Bend recently the city council voted to allow the store to use the jail temporarily.

Coast Guardsmen at Astoria, Ore., were incredulous when they were roused out to free the schooner Columbia from a river bar. The schooner carried only river pilots, who meet all ships to pilot them across the treacherous Columbia river bar. Among those aboard was a veteran of 20 years' piloting.

Dob Robertson hunted pheasants near Twin Falls, Idaho, for two days without any luck. Later he went to his field to gather corn stalks to decorate the American Legion hall. A pheasant jumped from under his feet right into his hands.

The traffic violations bureau in Seattle, Wash., opened an envelope to find a marked entry in the

Seattle Times' weekly contest to guess the outcome of 20 major football games. The Times received an envelope with a traffic ticket and a \$2 check to cover it. Telephones jingled. An exchange was made. But the confused guesser-motorist didn't win the contest. He had only 14 correct.

Sheriff Lester W. Hayes, Bedford, Md., started out with a warrant for Wm. Blanton, 45, of Mitchell. The search was long and futile. Blanton was not to be found. The sheriff gave up and returned to the county jail only to find Blanton in a cell there. The man had been arrested by Mitchell police on another charge and had been brought to the jail a short time after the sheriff left.

Last fall when Mrs. Mildred Franks, 42, of Lyons, near Chicago, saw a pheasant on her farm, she got an idea for a new hat. She shot the pheasant and saved the feathers until last week. Then she made a hat, fashioning it from the feathers of the pheasant and estimated it would have cost nearly \$50 if she had bought it in a store.

Burglars set to work on a 2½-foot square safe at a restaurant and in the ensuing four hours police said they rolled it round on the floor, attacked it with iron bars, heaved it down a flight of marble steps, tore at its bottom with kitchen knives, cleavers, forks and every other kind of implement available in the kitchen. They finally got it open and made off with \$3,000 in cash and jewelry.

At Crawfordsville, Ind., a train struck a truck, the truck struck back, but the train won the decision. Lester Arthur Shelton, 51, was driving the truck when it was hit by a speeding passenger train. The truck was shoved into a yard, remained in gear and ran back into the side of the train. It bounced along for about a block before disentangling itself. Mr. Shelton was treated in Culver hospital for minor injuries.

Traffic Is Slowed Up During Heavy California Rains

Heavy rains in southern California have resulted in slowing up travel, writes Miss Laura E. Lyons of Long Beach. When buses discontinued because of the deluge, Miss Lyons took a taxi to work. Traffic lines were heavy in the high water but drivers were careful. Miss Lyons saw said bags at the door of a big lumber firm, and one fellow at a garage was wading knee deep in water.

Capt. Willis Bradley, new representative, has been requested to do all possible to save Colorado river water which is such an asset to southern California.

The army and navy land, air and sea forces prepared a theoretical enemy invasion on southern California from Long Beach, Los Angeles and San Diego to the Mexican border for November 25.

A new Augustana Lutheran church is to be built at Carson and Elm in Long Beach and the one down town has outgrown its capacity. Rev. Orville Martin, whose father served Wakefield Salem church, is pastor.

A new rubber factory to be built in Long Beach will make all kinds of rubber articles and will also process paper pulp into wall-board.

Miss Lyons visited CBS studios and gave a transcribed interview for Harriet Harris. This will be broadcast on the "Hello From Hollywood" program over KFAB station Saturday, November 30, at 9:15 a. m.

After the recording was made Miss Lyons and a friend visited an internationally known cafeteria. Downstairs they visited the re-

production of the Palestinian home. Three women guided the visitors, one dressed as a Galilean, one a Judean and one a Samaritan. Water jars and ancient oil lamps were used. In a room adjoining they sat in the grotto of the rock and heard a choir singing hymns. They heard a voice record the "Influence of One Life down through the Ages." A reproduction of Jacob's well was there. Lastly they went into the garden near the brook of Kidron and could view reproductions of the city of Jerusalem. In the background was the Hill of Golgotha with three sleeping disciples and the olive trees. A full-sized sculptured likeness of the Saviour was in prayer before crucifixion. The holy scene is one never to be forgotten.

Vet's Corner

It is always easy to "let things slide" particularly in these days when everything we need costs so much, but has it ever occurred to you that laxity in the veteran cause could cause disaster?

The year 1945-46 was pretty good to most war veterans and their dependents. Some pensioners who were assisted in recent years were passed over by last congress, it is true, but unless all signs fail, the 80th congress that meets in January will be reasonably liberal, and we as veterans can look forward to continued corrections.

However, it would be well to remember that every war in our history there have come demands for governmental economies. There are now rumblings of discontent. By the time this war comes to an official end, the country will have 15,000,000 new veterans. Nearly 2,000,000 World War II beneficiaries are on the pension rolls and more names are being added daily. About 800,000 World

War I are pensioners, and that number is increasing. The Spanish war list is nearly 200,000 and it is not diminishing rapidly because many widows are being added monthly, so if we include peacetime veterans and widows and a few from the other wars who are on the pension lists, another 100,000 must be counted. Add these figures - 3,000,000 pensioners, and more coming.

We as veterans must stick together and be ever watchful. We must be ready to help one another and be prepared to fight the enemies of veterans when economy demands come. Never did self-preservation dictate more the need to combine for a common purpose. The veteran who left his loved ones behind and served his country shall not become a forgotten citizen as the years roll by. The ghostly picture of the "apple and pencil sellers" shall never appear before the public eye, as Abraham Lincoln once stated, it is the moral obligation of the United States to care for the veteran who is in need.

Q. Name some leave periods that will NOT be counted on terminal leave pay applications.

A. Periods of assignment of combat troops to rest areas; rehabilitation and rotation furloughs (when ordered by a medical officer); rest and recuperation fur-

loughs (under similar circumstances); repatriated prisoner of war; sick leave and convalescent leave.

You and each of you will take notice that on the 16th day of November, 1946, The City of Wakefield, Nebraska, a Municipal Corporation, filed its petition in the District Court of Wayne County, Nebraska, against you and each of you, impleaded with others, which is Case No. 5275 of said County and appears on Page 85 of Docket No. 15, records of the Clerk of said District Court of Wayne County, Nebraska, the object and prayer of which petition are to obtain a decree of said Court foreclosing tax liens as evidenced by certificates of tax sale and liens for subsequent general taxes and special assessments, if any, hereinafter set forth, of which plaintiff is now the owner and holder, same being liens against the following tracts of real estate, located in the City of Wakefield, in Wayne County, Nebraska, further identified by cause of action number, tax certificate number and amount of lien to August 7, 1942, to wit:

CAUSE OF ACTION NO. 1; TAX CERTIFICATE NO. 2, \$824.90, on Lots 1, 2 and 3, Block 3, Heikes' Addition, in the City of Wakefield, in Wayne County, Nebraska.

CAUSE OF ACTION NO. 2; TAX CERTIFICATE NO. 3, \$37.80, on Lot 5, Block 4, Heikes' Addition, in the City of Wakefield, in Wayne County, Nebraska.

Together with interest on said certificates and subsequent general taxes and special assessments, if any, all as alleged in said petition; and praying further that the proportionate share of the costs in each cause of action and separate attorney fees of ten per cent of the amount of the decree in each cause of action be assessed against each of said parcels of real estate described above, each of said parcels being a defendant, as a part of said tax liens; and finding that the several parcels of real estate described herein and in said petition were subject to taxation for State, County, School District, Municipal and Public purposes for the several years enumerated in the petition; and finding that said tax liens are first liens on said premises; and further praying that unless the same is paid by you or any of you, a decree will be entered in said Court foreclosing and forever barring you and each of you of any and all claims upon, interest or estate in, right or title to, or lien upon, or equity of redemption in or to said herein described real estate, and, in default of the payment of said tax liens, interest, costs and attorney fees, said premises or so much thereof as may be necessary to satisfy plaintiff's liens shall be sold in accordance with law to satisfy the amounts found due; and further praying for such other and further relief as equity requires and as to the Court may seem just and equitable.
