Lawrence Morey Is Eagle Scout

Awards Are Presented Here At Court of Honor to Two Troops.

The Eagle Scout award, the highest in scouting, was presented to Lawrence Morey, son of Dr. and Mrs. Victor P. Morey, Thursday evening when Troops 174 and 175 held Court of Honor at the college high school. The youth's mother received the pin which is given to mothers of Eagle Scouts. The Eagle badge was presented by Rev. Oliver B. Proett, district chairman of scouting. The badge was given to Dr. Morey, who pinned it on his son's coat. According to scout rules, Lawrence then pinned the miniature Eagle award on his mother who is entitled to wear it.

The Eagle award is given for completion of 21 merit badges and after definite written evidence from pastor, teachers, scoutmaster, neighbors and others that the scout is practicing scout principles and has developed leadership ability. Less than one per cent of registered scouts attain this honor.

Lawrence completed most of his scout work before he joined Troop 174. This troop has had 11 other Eagle scouts, James Morrison, Bill (Continued on Page Two)

Palestine Issue Presented Here

Rabbi Marx Sees Major Test For United Nations in Near East Case.

Interest in Jews in Palestine is purely humanitarian a matter of saving human lives and solution of the problem will be a major test of the strength of the United Nations, stated Rabbi Meyer H. Marx of Lincoln in addressing the Wayne college faculty club, students and guests at dinner Monday evening in the student union.

The anti-Semitism in Europe and the disincination of other countries to admit Jews have emphasized Zionism, a movement started in 1898 to establish a Jewish nation in Palestine, the original home of these people. Jews who have been admitted to Palestine have paid for every bit of land they own and many have paid twice. Others who arrive there are turned away and are placed in temporary detention camps awaiting settlement of the issue. Still others in Europe have no place to go.

Rabbi Marx described Palestine as about the size of New Hampshire with climate much like California. The population of 1,800,000 includes 1,000,000 Arabs, 650,000 Jews and the rest Christians and others. Arabic, Hebrew and English are spoken.

Farms in Palestine are operated on three plans, individual ownership, communism, and a combination of the two. Potash, diamond manufacturing and other industries are carried on. One of the little known facts of the war is that Palestine produced for Great Britain the implements which enabled Montgomery to drive Rommel back across Africa.

Romans overran Palestine in 70 A. D., and that country has not been independent since. The nation's caravan was strategic in early caravans days just as it is to-day.

MOST BOND ISSUES FOR IMPROVEMENTS CAPTURE SUCCESS

MUNICIPAL and school bond propositions are numerous for new enterprises or to enlarge and improve old ones.

Needs are so manifest that most of them carry. Sometimes too little active interest is awakened and frustration and setback follow. That happened in Central City last week when a proposed airport scored too few votes. The result is delay.

At the Ernest Feed place, the intruder went through three doors and took a billfold with \$30 and an overcoat. This coat is the one which it is thought the man was wearing at Winside.

Gus Schroeder was awakened about 11:10 by sounds made by the robber and by his flashlight. Mr. Schroeder called out and the intruder fled, leaving doors open behind him. Nothing was taken at Schroeder's.

Mrs. E. H. Solt heard footsteps and thought her son Jim, was downstairs. She called to him and the robber dashed out the back door. He carried two pairs of Rev. Solt's trousers and dropped these on the back porch after moving a billfold and checkbook. About \$18 was in the billfold and a check for \$25 which had been received for a pedigreed dog which the minister sold. In his pockets, the robber was found a block south, across the street and another block south. The billfold, ripped in pieces, and the check were found in a basket frozen into the snow in a parking place.

The Wilson home is on Main street and the others are east of Main street.

Tracks indicated that the burglar had looked into windows at the Clyde Wilson and George Smith homes but did not enter.

Sheriff Hans Tietgen went to Hoskins to gain information about the burglaries.

Make Level in the Desert a Highway for Our God' was the theme of the service prepared by Mrs. Isabel Caley, a member of the staff of Ewing Christian college at Allahabad, India. She likened the desert to meditation, the mirage to confessions, oasis and caravans to thanksgiving and Jesus, the head of the caravan, to intercession.

Mrs. Marcel Ring led devotions on "The Praying Hands." Mrs. Ring, Miss June Dawson, Miss Bonnie Kugler, Miss Marybelle Samuelson, Miss Myra Alderson and Miss Kathryn McGinn gave short talks and each sang a solo as part of the service.

Mrs. C. V. Wait listed the causes for which an offering is given. Rev. S. K. de Fresse gave the offering prayer, and Mrs. Charles Steekman, Mrs. W. P. Conning and Miss May Pearson assisted.

Sack lunch was served at noon. The committee in charge included Mrs. M. L. Ringer, Mrs. L. W. Vath and Mrs. Oscar Liedtke.

Hoskins Homes Are Burglarized

Intruder Makes Specialty of Billfolds on Visit to Homes Thursday.

Homes in Hoskins, burglarized Thursday night by a man who is believed to be from Sioux City, are those of Gus Schroeder, father of Senator Norris Schroeder, Rev. E. H. Solt, Manley Wilson and Ernest Proett. The intruder specialized on billfolds and got away with considerable money.

A stranger came into Hoskins by bus Thursday evening and was seen at several places that evening. Tracks in the snow indicate that he peeped into windows to watch families before entering between 8 and 12. He looked into several homes which he did not visit. It is believed that he hitchhiked to Winside early enough Friday morning to catch the 7:30 bus east. A stranger seen in Winside that morning was wearing a coat which is described as one taken at Hoskins.

Checks totaling \$2,000 and some cash were taken from Manley Wilson. School girls found the billfold and checks under a culvert the next day, but the burglar kept about \$15.

At the Ernest Feed place, the intruder went through three doors and took a billfold with \$30 and an overcoat. This coat is the one which it is thought the man was wearing at Winside.

Gus Schroeder was awakened about 11:10 by sounds made by the robber and by his flashlight. Mr. Schroeder called out and the intruder fled, leaving doors open behind him. Nothing was taken at Schroeder's.

Blaze Damages Home in Wayne

W. H. Hoguewood Property Loss in Fire Saturday Is Quite Heavy.

Fire which is thought to have started either from the chimney or from wiring badly damaged the W. H. Hoguewood residence in the northwest part of Wayne Saturday afternoon. Insurance is carried on the loss. Mr. and Mrs. Hoguewood, the latter in very frail health, were taken at once to the home of their daughter, Mrs. Alex Jeffrey.

The roof is burned off the kitchen and back bedroom and the attic is damaged considerably. Water caused plaster to fall in the dining room.

Mr. and Mrs. Hoguewood were eating lunch in the enclosed east porch shortly after 1. Mr. Hoguewood smelled smoke and when he looked at the dining room stove he noticed the room full of smoke. The stove seemed to be all right so he went outside and found smoke pouring from the roof. He turned in the alarm and arranged for moving Mrs. Hoguewood.

Both Wayne fire trucks responded and firemen had to cut a hole in the roof to reach the blaze.

Fire a few years ago destroyed the barn at the Hoguewood place.

Bring Speakers To Local Group

Chamber of Commerce Will Have Regular Meetings For Membership.

At the board of directors meeting of the Chamber of Commerce February 18, the group voted to hold monthly membership meetings for members of the Chamber of Commerce and their guests.

Each committee will have charge of one meeting and bring in a top speaker on the topic proposed. In this way, membership is assured of a wide variety of topics. The date for the first meeting has not been set, but the committee will have plans formulated soon.

General plans for such meetings include short, brief committee reports, entertainment, dinner and speaker.

The board also discussed plans for an annual sports banquet honoring athletes of the city and college schools as well as the independent sports in Wayne. Every effort will be made to have an outstanding coach or sports commentator speak for the occasion.

Representatives from the Chamber of Commerce will call on the Wayne city council in the near future to discuss with them and make recommendations for problems confronting Wayne. Among these are parking, speeding, public rest rooms, and recreational facilities for school age children.

The next board of directors meeting will be March 18.

Wayne Merchants Offering Values in Dollar Days Event

Chamber Plans Poultry Contest

Improvement to Be Sought In Meat and Eggs in This Region.

More and better meat, greater egg production, shorter period of growth and cheaper cost of production are objectives of the agricultural committee of the Wayne Chamber of Commerce in plans for this county's participation in the "Chicken-of-Tomorrow" contest. The committee met last Wednesday when plans were discussed. Another meeting will be called soon to make final arrangements.

In the past five years, according to material presented to Secretary Ernie Keefe, the quality of poultry has decreased considerably. It is reported that chickens dress out 65 per cent first grade, 34 per cent second grade and one per cent total loss. Marketing competition is keen and poultry from other states is said to be selling in this area on an ever-increasing scale.

The matter of good poultry, both from egg production and meat viewpoints, is basically one of proper feeding and sanitation in the yard. Quality checks are, of course, a requisite.

The Chamber of Commerce committee will attempt to interest 4-11 boys and girls as well as adults in the contest. Flocks will be not less than 100 and not more than 300 birds. Judging will be 50 per cent on management, sanitation and feeding, and 50 per cent on the dressed bird. Further details of the contest will be announced soon. It is hoped that at least 100 flocks in Wayne county will be entered.

Local feed dealers, hatcherymen or the Chamber of Commerce will furnish further details.

The public is invited to attend. Mrs. Hendricks will likely speak at the high school also.

Home nursing courses in charge of Miss Margaret Bosworth, Red Cross nurse, are in progress in Wayne, Carroll and Winside.

Has Operation Here. Fred Exkeben underwent a major operation at a local hospital Monday.

CITY AUDITORIUM KEPT BUSY DURING MOST OF THE YEAR

WHAT a wonderful contribution to community service was made by the building of the municipal auditorium in 1933! It is recalled that after favorable voting, court action was attempted to block the enterprise. It is also recalled that due to delay, increased construction costs boosted the final price \$24,000. A reminder of what happened to prevent one of the most desirable public-service investments ever made here is needed to show that obstructions are usually mistaken. Suppose the effort to provide an auditorium had been defeated! Nearly every evening in winter and often during other seasons it is used for one public gathering or another. And nothing here could answer the purpose. It is doubtful if those who opposed at the time would now be willing to get along without it. Progress is usually made over barriers projected by short-sighted judgment.

Former Wayne Resident Dies

Rites for Mrs. O. G. Randol Are Held on Wednesday At Ponca Chapel.

Mrs. O. G. Randol of Ponca, formerly of Wayne, passed away February 23 at her home in Ponca at the age of 78 years and 11 months after several months' illness. Funeral rites were held at Mohrs chapel in Ponca February 26 at 2 o'clock, with Rev. B. A. Wagge of the Community church in charge. Burial was in the Ponca cemetery.

Emma Rebecca Zook, daughter of Menno King and Barbara Kauffman Zook, was born at Goshen, Ind., March 30, 1868. While still very small she moved with her family to Missouri.

She was united in marriage to Otto G. Randol in Kansas City, Kan., December 19, 1889. To this union were born eight children.

The family moved from Missouri to this locality in 1900. They went to Pipestone, Minn., in 1910 and lived there three years. They then moved to Wayne where they lived until 1925 when they returned to Ponca. They have since made their home there.

Mrs. Randol was a member of Eastern Star and Rebekah lodges. Deceased leaves to mourn, her husband; seven children, Walter of South Sioux City, Ward of Scarvate, N. M., Jess of Denver, Colo., Mrs. Veina Durham of Emporia, Kan., George, Mrs. Earl Curry and Mrs. Pearl McKinley, all of Ponca. A daughter, Mrs. Jane Hammond, passed away April 6, 1946. Her five brothers and four sisters all preceded her in death. Deceased also leaves 24 grandchildren and one great grandchild.

Chamber of Commerce Group One of First in Nation Promoting Program.

"Bargains galore in every store" stresses the big values that will be available to all in Wayne stores Friday and Saturday this week during Dollar Days. This is the first such trade event held in Wayne or any other Nebraska city since 1941. The Chamber of Commerce is informed that only two other cities in the United States have reintroduced the program.

Banks have shipped in 6,000 silver dollars for the occasion. These represent the effort to which merchants have gone to make Dollar Days a reality in Wayne once again.

Geo. Shreff, chairman of the merchants' trade promotion committee of the Chamber of Commerce observes that "Wayne store people have been primed for the promotion and nearly all the goods in Wayne's event represent current stock and not goods purchased especially for the occasion."

Not only are merchants doing all possible to make Dollar Days the best trade event in Wayne's history, but comment indicates that customers await the event eagerly. One young lady said, "It seems like old times again."

It is value for every dollar instead of the actual dollar sale pushing. Stated Ernie Keefe, secretary of the Chamber of Commerce. "This promises to be the biggest weekend that Wayne has had for a long time. I certainly hope that all who can will come to Wayne and take advantage of the saving opportunity offered."

Need to Stress Heart's Wisdom

Rabbi Meyer H. Marx Gives Message to Kiwanians Monday Noon.

Rabbi Meyer H. Marx of Lincoln, in addressing Kiwanians Monday at the Women's club rooms, stressed two kinds of wisdom, one of the mind and one of the heart, and urged the importance of developing both as a means of saving civilization.

The speaker, introduced by Dr. Victor J. Morey, quoted Philosopher William James as saying that people use only about 50 per cent of their ability and if they worked to capacity they could accomplish marvelous results.

The Hebrew word, Torah, translates to mean wisdom of the heart and Hochmah, wisdom of the mind. These give two approaches to life. Man has developed the wisdom of the mind to a great extent, splitting the atom, discovering television and finding other inventions. Wisdom of the heart should be stressed to improve relationships and enable all to live together in peace.

Wisdom of the mind is evident in industry and business, but people need to learn how to get along with each other. "The atom is likely to split us or destroy us unless we use the wisdom of the heart."

The rabbi questioned why the ten commandments were given from Mt. Sinai, the mountain whose name means hate. Perhaps, stated the speaker, it was to show that out of the worst can come love.

Unfinished peace parleys must understand both wisdoms to gain success. Rabbi Marx added. Religion has not failed but wisdom of the heart must be developed. The speaker quoted one who has the proper attitude, "May God revitalize the world and begin with me."

The rabbi concluded by quoting from the Bible the Lord's wish that each "love thy neighbor as thyself." A synthesis of wisdoms will work for the good of the world.

Besides 34 members and Rabbi Marx, C. D. Tinker was with Wm. Beckenhuider, Dave Hamer with Jean Boyd, Rev. T. J. C. Schuldt with C. A. Bard, Dr. Howard Tempero with Dean Clarence McGinn and Rev. S. K. de Fresse with Dave Theophilus.

Coming Friday and Saturday—Attention to Some Local Defects.

Dollar Days, scheduled as extraordinary attractions the coming week-end, do not mean things will be sold only for a dollar. They mean special money values. They mean, as we understand, a saving on numerous essential articles purchased to offer for the occasion. The idea is that a dollar will buy more wanted goods. Care has been taken to assemble popular needs and set them forth in today's Herald.

Such price-shaving events have not been possible since before the war. During the conflict and last year, almost insuperable barriers were in the way of satisfying demands. More goods are now coming to buying markets. More things are available. Live merchants are anxious to serve, and Dollar Days are an expression of that determination.

So, barring snow storms and impassable roads, next Friday and Saturday will witness a carnival of buying in Wayne. Old and new shoppers in this district will find unusual values and an eagerness to see expectations in quantities and prices fully met. Everybody knows difficulties encountered in trade centers during the past. Special buying opportunities are evidence of success in overcoming scarcities.

Pressing Needs.

Some not overly costly, but urgently important local needs have been called to our attention. A street, referred to last week, and reported installed and properly supervised in many live communities, brought numerous favorable reactions.

Ivar Jensen, who is a real force in getting things done, is now trying to solve the garbage problem. Gravel sprinkled on the road to the municipal junk dump would help. Some downtown alleys that would mire a duck in wet weather are shouting for gravel in the absence of more substantial paving.

For a day or two, police officers made good headway in straightening out parking irregularities, but then they relaxed, and the former haphazard space-wasting fashion was resumed. Double and sometimes triple parking often interferes with even one-way traffic. We understand a movement is brewing to persuade local dealers to keep their cars in home garages during busy Saturday nights. That would leave more room for visitors who have to park in order to trade.

The Oldest Established Paper in Wayne County

SUBSCRIPTION RATES: In Wayne, Pierce, Cedar, Dixon, Thurston, Cuming, Stanton and Madison counties: \$2.50 per year, \$1.25 for six months, 75 cents for three months. Outside counties mentioned: \$3.00 per year. All payable in advance.

Thursday, February 27, 1947.

NEBRASKA became a full-fledged state March 1, 1867—eighty years ago. President Johnson who was in the saddle at that time, failed to sign an act admitting Nebraska in 1866. This caused delay. The final act which was passed over a presidential veto, provided that no person should be denied the elective franchise on account of race or color excepting Indians not taxed.

Nebraska has made marvelous improvement in eighty years. Trees have dotted the landscape everywhere. Unbroken prairies have been brought under cultivation. Increased irrigation has taken care of too scanty water supply. What seemed waste has been transformed into luxuriant growth.

The state has had all kinds of weather experiences. It has survived drought and grasshoppers and blizzards. Its frequent hardships have fused iron into citizen backbone. Climatic variety has insured against intolerable monotony.

A magazine article makes a fairly good case for dogs in contrasting them with human beings in the exercise of common sense. The author says a dog has sense enough not to overeat, but if perchance it does, it knows enough to abstain and give its internal equipment a rest. It has the sense to get plenty of sleep and not overtax its nervous energy. It is grateful for kindnesses even to the extremity of licking its friend's hands, though the latter may be unwashed and unsanitary. The author thinks a great deal could be learned from the habits of dogs.

At Monday's noonday luncheon, Kiwanians were treated to a masterly address by Rabbi Marx of Lincoln, who attributed much of the world's trouble to

too little emphasis on the soul. He made plain that society has been long on material achievements of the mind, but dangerously short on consideration of eternal values.

Louis Bromfield, columnist, thinks this country is falling down in education. He should and doubtless does know that learning is largely up to the student. The columnist mentions over-emphasis on athletics and an overflowing program of social activities as deterring influences. Sometimes education takes hold early, sometimes late, often not at all. A youngster has to be fired with an appreciation of mental training—values lost if indifference and neglect are allowed to interfere.

Some one has figured that February is the shortest month because Julius Caesar wanted an extra day for his July, and then Augustus Caesar, peeved, wanted another day for August, and so both grabbed a couple of days out of February. But no one cares. The shorter the month, the sooner March will be in and over. That month's weather is often nothing to inspire bliss.

The bold opposition of some school board members to a legislative move to require publication of claims paid is surprising. It would seem persons responsible for handling public funds would want all the facts connected with their use made known. The proposed cost of publication—one-third the usual rate—is too trifling to warrant objection.

An acute boxcar shortage is reported notwithstanding truck competition and abandonment of many branch lines during the last twenty years. A plan to distribute 10,000 boxcars every month is being undertaken. Altogether, evidence reflects growing transportation demands which suggest a very healthy condition.

Time for final income tax payments approaches with relentless resolution. They involve the harrowing task of making out forms and the no less harrowing experience of satisfying the government's cash demands.

As advised by the Saturday Evening Post, the only way to prevent scientists from creating things that could do great harm as well as great good is to allow no one to become smart enough so to invent.

Marry at Service In Wayne Church

Miss Doris Barnes Is Bride Of Clarence R. Jeffrey Friday Evening.

Miss Doris Barnes, daughter of Mr. and Mrs. John W. Barnes of Wayne, and Clarence R. Jeffrey, son of Mr. and Mrs. James Jeffrey of Allen, were united in marriage at a candlelight service Friday evening, February 21, at 7:30 in the First Baptist church. Rev. R. J. Bulljey, performing the ceremony in the presence of relatives and friends. A picket fence decorated with flowers and greenery and a candelabrum at each side formed a pretty background.

Mrs. W. C. Swanson, who played the nuptial music, wore a peach net formal and a corsage of white carnations. She also accompanied Mrs. Clarence McGinn who sang "If I Had My Way" and "Always." Mrs. McGinn was attired in a formal fashioned with a dusty rose bodice and black skirt. Her corsage was also of white carnations.

The bride, entering the church with her father, wore a white gown fashioned with fitted bodice which had lace and ruffles over the shoulders ending in a bow of lace at the waist in back, and sleeves which ended in points at the hands. The full skirt of taffeta was designed with an overskirt of net ending in a train. The fingertip veil, bordered in lace, fell from a crown and cap of lace decorated with sequins. Miss Barnes' double-strand pearl necklace was a gift of the bridegroom, and she carried a bridal bouquet of light pink roses.

Miss Amy Pearl Barnes, who served her sister as bridesmaid, wore a pink net gown. Her bouquet was of white carnations tied with wide blue ribbon.

Mr. Jeffrey and his attendant,

Maynard Schroeder of Allen, wore dark suits with white carnation boutonniere.

The tapans were lighted by Miss Betty Jeffrey, sister of the bridegroom, who was gowned in blue net over pink satin with sequin trimming. Her corsage was of pink carnations.

The bride's mother wore a blue dress and a corsage of pink roses and blue sweetpeas. The bridegroom's mother was gowned in pink and her corsage was of white carnations.

A reception was held in the home of the bride's parents for the immediate families of the couple. The table was centered with a two-tiered cake topped with a miniature bride and bridegroom and with dandles tied with ribbons of pink and blue, the bride's colors.

Mrs. Howard Tribble of Lebanon, Mo., cut the cake, and Mrs. Howard Townsend of Loretto and Miss Betty Jeffrey served. Mrs. Townsend and Mrs. Tribble are sisters of the bride. Mrs. W. C. Swanson had charge of the guest book.

Mr. and Mrs. Jeffrey left for a short trip. The bride chose a medium blue suit with white nylon blouse and corsage of pink roses for her traveling outfit.

Mrs. Jeffrey is a graduate of Wayne high school and attended Wayne college. She taught the past year and a half in Wayne and Dakota counties.

Mr. Jeffrey is a graduate of Allen high school. He received his honorable discharge last July after serving two years with the U. S. army, nine months of the time in Korea.

Mr. and Mrs. Jeffrey will reside on a farm near Allen.

Honor Dormans On Anniversary Silver Wedding Day Is Observed

The silver wedding of Mr. and Mrs. Walter J. Ulrich was observed at their home February 15. Prizes in games went to Mrs. Eileen Vahlkamp, Mrs. John Hersmann, W. H. Racherhaumer and Edward Mann. Luncheon was served.

The Ulrichs received many gifts and several decorated cakes. Guests were Mr. and Mrs. Maunso Ulrich, Mrs. Chas. Ulrich, Mr. and Mrs. Aug. Witter and Charles, Miss Fannie Witter of Norfolk, Mr. and Mrs. Joe Klima of Pilger, Mr. and Mrs. Louis Schulte, Mr. and Mrs. Victor Kniesche, Victor and Gerald, Mr. and Mrs. W. H. Racherhaumer and Harold, Mr. and Mrs. Clarence Mann, Edward, Ronald and Clarence, Mr. and Mrs. John Hoesmann of Norfolk, Mr. and Mrs. Ervin Vahlkamp, Janice and Lynelle, Miss Wilma Bolton, Frank Schulte, Mrs. Aug. Allermann, Leslie and Wilma, Mr. and Mrs. Otto Everett, Mr. and Mrs. Fred Reez, Mr. and Mrs. Fred Mann, Mary Lee, Nancy Sue and Elizabeth, and Dale Ulrich.

The installation of a steam ferry in the summer of 1854, the same year in which the town was platted, was announced with this enthusiastic advertisement:

"Attention! Settlers of Nebraska! The General Marion runs regularly between Council Bluffs and Omaha City. There need be no fear of detention as the boat is in constant readiness for stock, teams, or foot passengers, with steam up and ready crew. Come on, emigrants, this is the great central ferry! Hurrah for Nebraska! Ferry Co., June 23, 1854."

Omaha was not the only Nebraska town boasting a steam ferry in 1854. Bellevue, its bitter rival for the territorial capital, was served by Peter Sapp's new steam ferry boat, the "Nebraska." The Iowa terminal was the now extinct town of St. Mary.

Although, as has been mentioned, the Missouri was the most important center of the Nebraska ferry boat business, ferries were established on many other Nebraska streams. One of the most important of the early inland ferries was Shinn's, which crossed the Platte just north of the present town of David City.

This ferry was in service from 1859 to 1862, and provided the only crossing of the Platte, except by fording, between Omaha and Denver.

Brenna Precinct Boosts for Roads

Wayne drew within two points of the Broncos at the start of the final half. Mellicee led the scoring for Hastings with 14, and Walsh was high for Wayne with 11.

OUT OF OLD NEBRASKA

By James C. Olson, Superintendent, State Historical Society

If a Nebraskan of the 1850s wanted to get in on the ground floor of what was considered a sure thing, he invested in a newly-organized ferry company. For a man with money to invest, there were plenty of opportunities. The first territorial legislature almost issued 37 bridge and ferry charters, and subsequent territorial sessions added to the number.

Many of the early ferries were crude and awkward. Often they were propelled simply by the force of the current flowing against a keel, and were moved back and forth on a cable to which they were fastened by a rope and pulley. Later, steam ferries replaced these early contrivances.

The Missouri river, quite naturally, was the scene of much of the early Nebraska ferry business. Of the 37 charters issued by the first legislature, 22 were for ferries across the Missouri. The Big Muddy was one of the great water barriers to overland travel west, and helping emigrants across it had definite possibilities for profits.

Then, too, any Missouri river town which had visions of greatness and try to find one that did not simply had to have a ferry. It goes without saying, therefore, that the relationship between the ferry company and the town company frequently was quite close. In the case of Omaha, destined to become the most important point on the upper Missouri, the town and ferry companies were one and the same.

The townsites of Omaha was laid out by a Council Bluffs ferry company. Town lots were offered free of charge to anyone who would improve them, and to give the place some of the appearance of a city a brickyard was induced to locate there. The first capitol of Nebraska was a building constructed for the purpose by the ferry company.

DEADLINE FOR VETS MOVED TO MARCH

The deadline on which combat wounded vets may be reenlisted in their former grade has been moved from January 31 to March 31, 1947, according to Capt. Adam Ohle of Norfolk recruiting station. All applicants for enlistment must meet existing physical standards for general military service with the exception of their specific combat-incurred disability. Capt. Ohle will furnish additional information to anyone interested.

OUT OF OLD NEBRASKA

By James C. Olson, Superintendent, State Historical Society

Someone once called the buffalo, "the department store of the Indian." It is an apt characterization for the buffalo filled a long list of the Indian's needs, ranging all the way from food and clothing to religion.

Like the modern meat packer, who "uses everything but the squeal," the Indian found some use for virtually every part of the shaggy, thick-set animal which once roamed the great plains by the millions.

Probably the most important product of the buffalo was food. The animal was skinned and dressed where it fell, and the meat was divided according to tribal regulations. The hump, tongue, tendon, and other choice parts went to the killer, with the remainder being divided among his helpers. Part of the meat was eaten fresh, and part was dried and smoked or made into pemmican.

Other sources of food were the intestines and bones. The former were cleaned and eaten raw or baked on hot coals. The latter were cracked after boiling, and the marrow was extracted and kept in bags until needed for food. Bones also were shaped into tools and ornaments of all sorts, including awls, chisels, hoes, beads and pendants.

The tough, pliable buffalo hide was the Indian's primary source of shelter and clothing. Dressed with the hair on, the hides were used for winter robes, bed clothing and floor rugs. With the hair off, they were made into tepee covers, clothing, quivers, ropes, webbing and bags of all kinds.

There were many other uses—enough so that a bare enumeration would more than fill this column. It is little wonder that the Indian held the buffalo in great veneration, and associated it closely with his religious beliefs.

It is little wonder, too, that when the white man came to the

plains, driving the buffalo almost to extinction, it was the Indian who fought back with all his power. There was little thought that the Indian could do to stay this onslaught against himself and his primary source of food, clothing and shelter.

Gradually the boundaries of the buffalo range—which at one time extended over central North America from near the Atlantic coast to Nevada—were pushed toward a center located on the plains east of the Rockies. In 1850, the transcontinental railroad cut the buffalo into two herds. By 1873 the southern herd had been practically exterminated, and within a decade the northern herd met the same fate.

"WITH CURTIS WOODWORK

I made the Old Home New—

AND I DIDN'T SPEND MUCH EITHER!"

"The biggest improvement on the outside of our house was made by our new Curtis Entrance. Here's the one my wife liked best. It makes the whole house stand out, so that friends hardly know the place."

"We put in new Curtis Kitchen Cabinets, too. My wife worked with Curtis in planning it, got just what she wanted. Now she's happy with her modern, efficient kitchen. She says she's never tired any more. The cabinets save her many steps."

"Our dining room was very much out of date so we put in this new Curtis China Cabinet. Then we decorated and you'd never know it was the same room."

"We put these new Curtis Shutters on the front windows. They didn't cost much and they add a lot to the house. We also put in a few new Silentite Windows."

"Here's the Curtis Mantel we selected for the living room. It was inexpensive and it's the best looking mantel I've ever seen."

You, too, can modernize your home—quickly, thoroughly, inexpensively, with Curtis Woodwork. See the beautiful Curtis designs prepared by Dwight James Baum, the famous New York architect-designer. Stop in or phone for literature and information. There's no obligation.

MOST MOTHERS DO THIS

If Baby Has A Cold

AT BEDTIME rub VapoRub on throat, chest, back while child sleeps to relieve coughs, muscle soreness, stuffy nose, and tightness.

Best-known home remedy you can use to relieve distress of children's colds is comforting Vicks VapoRub. Even while you rub it on, VapoRub starts to work to ease distress... and it keeps on working during the night. No wonder most mothers always do this with a cold-stricken child.

"38,376 MILES ... carrying heavy loads ... over unpaved roads." writes R. J. Morrisette Ogdensburg, N. Y.

"34,112 MILES ... an additional 15,000 miles before tread will disappear." writes Ray Anderson Arcadia, Calif.

"33,664 MILES ... over all types of roads at comparatively high speeds ... still has good tread." writes E. B. Palmer Denver, Colo.

Your Money Goes Farther in the Tire That OUTWEARS PREWAR TIRES

Millions of test miles on police cars, taxi fleets and special test cars helped prove postwar B. F. Goodrich Silvertowns would outwear prewar tires. Today... as the above testimonials and many others are proving... in rough, tough, actual car owner use, the new Silvertown tire outwears prewar tires. If you want better than prewar tire mileage, come in today... equip your car with new Silvertowns... the best in the long run. And, for greatest economy, put in every tire you buy a new B. F. Goodrich tube... the tube that increases tire mileage and holds air many times longer.
