

Urged to Prevent Automobile Tragedies—Reverse Program Order—Freeze Tax at Two Per Cent—Many Hours Devoted to Task.

Speaking on motoring hazards and accident preventives, Sgt. Harry Brl of the state safety patrol, told a Wayne meeting, sponsored by the American Legion, that this town should have stop lights and official cruisers on Main street.

The speaker said most car accidents are caused by drivers, under the influence of hard liquor. The soberest person behind the wheel of a high-powered car runs risk enough.

The patrolman's idea is to employ every possible safeguard, and not try to save a few dollars that wisely invested, might prevent loss of life or limb.

Motorists must understand the necessity of looking out for pedestrians—especially for those too young to look out for themselves—and travelers afoot—especially elders—must be on the alert.

Wayne should disabuse itself of any notion that its setup is so nearly perfect that it does not need to improve and make changes for the better.

It would be more agreeable to an audience if the main speaker on a program appeared first instead of last.

The chief attraction came at the close. That is all right if the road to the end is not too narrowly and impatiently—They would—revels over on preliminary gruel before reaching the main meal.

In a recent magazine article, John T. Flynn is sharply critical of the way the old age pension plan is handled by the federal government.

He explains how a comparatively small amount of the tax accumulated is needed for old age purposes. He says the excess is put into government bonds which now reach nearly eight billions of dollars.

The speaker said most car accidents are caused by drivers, under the influence of hard liquor.

Five Appointed To Aid Veterans

New Servicemen's Set-up Is Put Into Operation by County Board.

The Nebraska legislature recently voted to institute servicemen's committees in counties of the state to replace the soldiers' and sailors' commission which has handled veterans' problems.

The law provides that various veterans' organizations be contacted and that appointments be scattered over the county. The board did so in naming the committee Monday this week.

The soldiers' and sailors' commission has included Paul Mines and A. L. Swan of Wayne and Frank Krause of Winside.

Herbert Utecht resigned as assessor in Hunter precinct and John H. Sievers was appointed to the place.

CONVENTIONS OVER WEEK-END BROUGHT MANY PEOPLE HERE

FRIENDLY weather over the last week-end not only encouraged farmers, but contributed to the comfort of delegates attending two district meetings—district Women's convention and district music contest.

Local leaders had looked carefully after all preliminaries, and if there were any flaws, they were not apparent.

One delegate remarked that visitors were delighted with Wayne and its hospitality. Citizens long ago learned the value of friendships, and they are sincere in their manifestations.

They are uniformly courteous, because they feel that way. Convention delegates learn what the college has to offer in equipment and training, and they help build enrollment.

Contacts afforded help the school and the town. The cream of high school musical talent came for the two-day series of events. Participants and fans were here in large numbers, and they were eminently pleased.

MAKE SPRING CLEANING EASIER
Get the right aid for each job...at SAFEWAY

Before you begin the big spring house cleaning task skip down to Safeway and arm yourself from the wide assortment of soaps, cleaners, brushes and other cleaning aids you'll find on the shelves. The right cleaner for each job saves elbow grease—saves time. And Safeway's low prices save you money, as well.

Useful hints about spring house cleaning

If spring house cleaning is due to start at your house, then you're probably looking for an idea or two to make it easier. One way of cutting down on the time and effort needed for a thorough house cleaning is to use the many good preparations available for specific house cleaning jobs—scouring powders, wallpaper cleaner, paint cleaner, upholstery cleaner, window cleaner, polishes and waxes—to name only a few. In using any of these special preparations, be sure to read the labels and follow directions exactly for best results.

TIPS ON LAUNDERING CURTAINS

Though the laundering of curtains is a job that's usually included in spring house cleaning, frequent launderings will make curtains last longer than if they are allowed to become very soiled. . . Shake out dust from curtains, then dip into a tub of clear, lukewarm water. . . Gently knead and squeeze curtains in heavy suds for 3 or 4 minutes, or until soil is loosened. Extra soap takes out dirt easily, cuts down on friction on the fabric, and protects with a sudsy cushion. Change to fresh suds at least once; oftener if water is very dirty. Rinse once in a quantity of water small enough to stay slightly soapy. Rinse twice in plenty of water. To the last rinse add a thin cooked starch, or use one of the new liquid starches. (The directions on your starch will give you the proper proportions.)

WAXING YOUR FLOORS

... Clean off the old wax with a soft cloth moistened with liquid wax. . . Apply a thin coat of paste or liquid wax with an applicator made of two or three thicknesses of cheesecloth or a soft lintless cloth about six inches square. Too much wax will make the floor slippery. Let dry from 15 to 30 minutes and then polish with a soft cloth, weighted polisher or electric floor polisher. . . Apply a second thin coat for increased luster and wear. Let each coat dry and then polish before applying the next coat.

FOR CONVENTION—
(Continued from Page One)

gar stressed, is for culture which is the root of all civilization. Depicted in Nebraska's capitol is this culture, the reverence, sacrifice and toil that are the basis of a great people. The sower atop Nebraska's capitol symbolizes these. "We cannot afford to trifle with the eternal."

Mrs. H. C. Hanna of Superior, state president, spoke Thursday on "The Open Road." She mentioned the need to keep well informed, to be courteous and to serve others. "Don't become bogged down," she advised.

The program at the Methodist church opened with welcome by Mrs. R. W. Casper, Wayne club president, Dave Theophilus for Kiwanis, K. N. Parke for the Chamber of Commerce, Mayor L. W. McNitt for the city and Dr. V. P. Morey for the college.

Vocal music was furnished by Mrs. James Kinnier of Albion, Miss Virginia Harms of Bancroft, Robert Hansen of Emerson, Mrs. Fred

Largen of Creighton, Miss Veva Moore, Mrs. Clarence McGinn, city school girls' triple trio and Mrs. R. M. Carhart of Wayne.

Women of the Methodist church served noon luncheons.

Prof. John R. Keith directed college musicians while delegates gathered at the college. A tour of the campus followed.

Miss Russia. "America's Foreign Policy" was the subject of the address given by Attorney Lyle Gill of Fremont, at the convention banquet Thursday evening. "We do not need to fear communism but the Russian people themselves," Mr. Gill, who was stationed at American headquarters in Russia during the war, told that Russians do not trust anyone and not even their own folks. They are curious, fearful and treacherous.

Mr. Gill gave his personal observations. He told that much lend-lease material such as ships, planes, etc., had been sent from America but the labels are changed to Russian. In stores foreigners visit the first floor where items are scarce and very high priced. The second floor had more for less, and the top floor is filled with scarce items which can be secured in black market trade. Mr. Gill found that promises made and orders given could never be trusted in Russia. "I am terribly biased against Russia," he added. "America gave so much and received no cooperation."

The only way this nation can get along with Russia, Mr. Gill believes, is to show that country that America is strong.

Mrs. Andre Smith of Fremont,

formerly of Belgium, who came to this country as a war bride, described the terrible oppression which the Belgians suffered when the Nazis took over their country. She then explained the uplift of spirit that followed arrival of the Americans. "I love Belgium but America is paradise," she concluded.

Leonard Bissembe of Fremont, a young man from British Guiana who is studying at Midland, told of how much America means to him. He said he likes the hospitality of this country and is much impressed with his "new world."

The college robed choir, directed by Prof. Russell Anderson, sang several numbers. The pageant, "Nebraska the Beautiful," was directed by Mrs. Esther Dewitz Carison and the college class in pageantry. Mrs. W. H. Hasebrook of West Point, sang.

Introduce Officers. Mrs. I. E. Levine of Columbus, district president, who said "we shall be as strong as our traditions," introduced the past presidents as follows: Mrs. H. L. Keefe of Walthill, 1905-06, pioneer worker who gained recognition in the General Federation hall of fame; Miss Fannie DeBow of Coleridge, 1923; General Federation "evangelist," Mrs. B. F. Farrell of Schuyler, 1926-27, the business leader; Mrs. S. A. Lutgen of Emerson, 1938-39, the poet and busy president; Mrs. B. E. Trump of Plainview, 1940-41, the drama lady; Mrs. W. H. Hasebrook of West Point, 1942-43, the president of song; Mrs. Pehr Wagner of Norfolk, 1944-45, the war service leader. Wayne BPW gave a hand-embroidered sash to each.

Pioneers Honored. The 38 pioneer club women of the district were paid a tribute by Mrs. S. A. Lutgen. With the assistance of Ardis Ann Levine of Columbus, and Patty and Dickie Strong, each was presented an autographed copy of Mrs. Lutgen's poems given by Wayne Women's club and BPW division. These pioneers are: Mrs. G. W. Viengutz and Mrs. Harry Lohr of Columbus, Mrs. R. E. Cates and Mrs. Bert Graff of Bancroft, Mrs. Fred Masen and Mrs. Gus Long of Emerson, Mrs. A. D. Nichola of Elgin, Mrs. R. S. Owen and Mrs. Henrietta Hansen of Emerson, Mrs. W. C. Wanger of Hartington, Mrs. R. H. Smith of Hartington, Mrs. Elizabeth Gonder of Leigh, Mrs. Jay Ames of Neligh, Mrs. A. R. Gwynn of Newman Grove, Mrs. Geo. Christoph and Mrs. J. J. Cleland of Norfolk, Mrs. W. E. Doane of North Bend, Mrs. James Clark, sr., of Oakdale, Mrs. Wm. Hahlbeck and Mrs. Ed. Swanberg of Pender, Mrs. F. J. Rastede and Mrs. R. H. Brodhagen of Pierce, Mrs. A. H. Heckendorf of Pilger, Mrs. Myrtle Woepfel and Mrs. Edith Underberg of Stanton, Mrs. H. L. Keefe, Mrs. F. S. Schmiedekamp and Mrs. A. J. Caldwell of Walthill, Mrs. A. McEachen, Mrs. C. Shults and Mrs. E. W. Huse of Wayne, Mrs. Gus Hampton of West Point, Mrs. O. E. Bishop, Mrs. S. Emley and Mrs. Thomas Thompson of Wisner, Mrs. W. Wertzell of Albion, Mrs. A. R. Set-

tell of Bloomfield, and Mrs. B. F. Farrell of Schuyler.

The tribute to junior leaders was given by Mrs. Edmund Schueter of Wisner. The juniors sang "I'll Be Loving You Always" as a tribute to pioneers and past presidents.

Nebraska Federation officers presented by Mrs. R. W. Casper, toastmaster, are: Mrs. H. C. Hanna of Superior, president; Mrs. Russell Freidell of Dorchester, vice president; Mrs. Bibe Robinson of Albion, recording secretary; Third district officers introduced are: Mrs. I. E. Levine of Columbus, president; Mrs. Guy Thompson of West Point, vice president; Mrs. Franklin Bowersox of Fremont, secretary; Mrs. James Kinnier of Albion, treasurer. State chairmen presented are: Mrs. Roy Marshall of Omaha, foreign club; Mrs. James Northrup of Omaha, press and radio; Mrs. Pehr Wagner of Norfolk, American Home; Mrs. Harold Herse of Albion, international relations; Mrs. Grace Welsh Lutgen of Wayne, poet laureate; and Mrs. B. E. Trump of Plainview, scholarship loan fund.

District chairmen introduced are: Mrs. Fred Largen of Creighton, American Home; Miss Bess Findley of South Sioux City, education; Mrs. Edmund Schueter of Wisner, juniors; Mrs. John Platenberg of Emerson, law observance; Mrs. I. G. Wolbertson of Stanton, literature and art; Mrs. W. C. Mangels of Fullerton, parliamentarian; Mrs. Roy Pilgrim of Norfolk, press and radio; Mrs. Robert Day of Ponder, public welfare; and Mrs. M. V. Goldsberry of Tekamah, youth guidance.

BPW Is in Charge. The Wayne BPW club, with Miss Bonnie Kugler, president, had charge of the Thursday evening banquet at the auditorium. Paper doll favors, flowers and programs carried out pastel colors. Redemptive Aid, with assistance of girls of the church, served dinner to about 400. The BPW made Nebraska placecards for honored guests.

Speak on Friday. Dr. M. H. Hanawalt of Wayne college staff, who spoke Friday on "Education's Three-Lane Highway," stated that to be well educated one must travel a three-lane highway to knowledge. He must learn of the non-human physical world, this including the sciences in school. He must acquaint himself with the human world outside himself, this dealing with the social sciences. And finally he must travel the lane that lies within himself. He must gain self-knowledge through the humanities. He needs to study art, literature and music and follow the advice of Socrates to "know thyself."

In speaking on "Mental Illness and What to Do About It," Dr. G. Lee Sandritter of Norfolk Friday told the women mental illness is coming to be recognized as one form of sickness just as other illness, and when it strikes, the patient seeks a cure at a specialized hospital. Care in initial stages is doing much to help the patient recover. With additional doctors, the Norfolk hospital now has no waiting list for men and a short one for women.

Resolutions Are Passed. Resolutions passed unanimously by the convention thank civic groups that assisted; state, district and local presidents and chairmen for their services; the college for its hospitality, music, 100-piece choir and pageantry class; individual and group musicians; outstanding speakers; the help of juniors and especially the Wayne BPW; the Methodist ladies for luncheons; Redeemer women for the banquet; scouts and press; and everyone for friendly, helpful attitude.

tional problems. Its own way, stubbornly upheld, is so much in conflict with objectives to which it had previously agreed, that Secretary Marshall and Senator Vandenberg and others cannot yield. Stopping the march of communism simply means to stop the expansion of Russia and the ruthless extension of its dictatorship. It is believed helping Greece and other small nations would check the soviet union's insatiable ambition. No one wants to hurt Russia. Contrariwise, no one wants that country to wrap its tentacles about the rest of the world.

Pulling against poor judgment—evident in every business and social stratum—is like pulling up stream. In politics, church, business and in all walks, there is a conflict in judgment. In private affairs, if a fellow does not consult anyone but himself, then he has no one to blame for errors but himself. In considering a matter vital to the public, a majority may be wrong and make a mistake. If a majority proves right, the faulty minority will soon get far enough from the role of obstructionist to feel the pulsations of triumph. No one can exercise faultless judgment all the time, but everyone should be able to do it enough of the time to keep out of intolerably hot water. There is probably more feeble judgment in the world than any other one thing. It accounts for most troubles, most failures, disappointments and worries.

H. J. Gramlich, general agricultural agent of the Chicago and Northwestern railway system, urges extra care in saving the spring pig crop. He says: "Never before has each precious little porcine parcel had such a high value—probably not less than \$12 to \$15 at birth. Most baby pig ailments are due to nutritional disturbances. Give them every chance. Get feeds of the right kind if you do not have them. Get the pigs out on clean pasture at the earliest possible date. The national average is three pigs to market out of every four farrowed. You can better the average. Sows which lost their litters in March storms should be rebred at once. Their pigs will be needed."

In a speech at Los Angeles, Elliott Roosevelt described Henry Wallace as a "political messiah." Elliott added the prediction that in 1952 "a new president will be elected who will finally solve the problems which today's leaders are incapable of handling." We wonder if Elliott thinks by that time he will be drafted for the task. Main danger in exalting Wallace as a messiah is that he will believe it and become even more of a threat to soundly constructive policies.

Lack of sufficient kitchen quarters was emphasized in handling the big banquet at the municipal auditorium Thursday night. There is talk about building an annex to meet the problem. A capacity crowd causes serious hardship. This could be cured by more room.

With Fingers Crossed

OUR FINGERS are crossed as we write this. We are not boasting. We just reflect on compensations for a not overly pleasing climate. We have had extremes in weather. It is sometimes bitterly cold, sometimes blisteringly hot, occasionally too dry, seldom too wet. A few years in sixty-five or seventy—very few, indeed—we have been devastated by ravenous insects. Not since the first tornado turned over virgin prairie has one settler descended on this area to wreak havoc. Not one earthquake has disturbed our modest architecture. No ruinous tidal waves have been possible. No ships have been blown up in our harbors—security enforced by having neither ships nor harbors. We disagree in ideologies, but we have no flaming bitterness, nor do we engage in incurable violence, as frequently evidenced in cosmopolitan areas where rivalries breed unspeakable bitterness.

As we read of the terrible holocaust in Texas, lethal storms there and elsewhere, fatal conflagrations and numerous mass tragedies on land and sea and in the air, we feel, despite a sometimes disagreeable climate, most fortunately situated. We should be able to appraise advantages above disadvantages. We are profoundly sympathetic, deeply concerned over the safety and welfare of distant peoples, but our comparative good fortune should inspire higher satisfaction over our lot. In writing this we assume continued freedom from serious calamities.

At This Distance OPINIONS over proposed aid to Greece and Turkey are sharply at variance. Differences in high official circles justify lack of understanding and agreement on the part of the masses who are out of close touch with the facts. It is clear to most persons far removed from official headquarters, however, that Russia is out of accord with a self-governing world order. It kicks over the traces on every proposition offered to solve interna-

REDISTRICTING.
 An easy and generally accepted way to secure needed rural school consolidation is found in the Pritchard redistricting bill reported out by the legislative education committee. Two other bills that took too much authority away from school patrons were killed. The proposed law would ask approval of voters interested before changing or enlarging district boundaries. Commenting, the Norfolk Daily News says in conclusion: "There are many one, two or three-pupil districts which should be merged with other districts or operated under contract with another district. Road conditions in some parts of the state are a hindrance to regular bus service. Parents object to the inconvenience of getting their children ready and sending them out in the winter morning twilight to catch the early school bus. It is a characteristic of Americans, too, that they want the closest control of the schools their children attend. This bill lights the way to a better reorganization of the school system where the people want a reorganization."

Meetings Are Held For Presbyterians

Niobrara Presbytery, meeting Tuesday and Wednesday last week at Madison, voted against permitting women to serve as ministers. The matter will be taken up at each Presbytery. Bohemian Presbytery of the central west recently took action to dissolve and to join the English speaking groups, and Niobrara Presbytery voted to admit this group to membership. A church at Thurston will as a result become a member of Niobrara Presbytery. Rev. Hal F. Schenk of Madison was elected moderator of Niobrara Presbytery. Rev. Omer B. Proett of Wayne is slated clerk and his term continues two more years. He attended meetings both days and conducted devotions Wednesday. W. R. Ellis and Prof. A. F. Gulliver were present both days. Vet's Corner

Supplying glasses on out-patient basis, can be done by the Veterans Administration only on proper prima facie evidence that the eye condition was service connected. If the veteran states in his 2877 form that he suffered a traumatic blow on the head while in the service, followed by eye disability, that should be fairly acceptable prima facie evidence. On the other hand, a progressively increased congenital defect, such as myopia, presbyopia and numerous other eye disabilities, without showing proper cause for same in the service will not be honored. There is one other method whereby veterans can be supplied with new lenses to correct eye disability. That involves veterans who are training under Public law 16. In these cases the rule is that anything which may arise (service connected or otherwise) to retard progress in the rehabilitation training, may be treated or corrected on the same basis as an actually service-incurred disability, in order that the training may progress without interruption. A service-connected veteran whose pension rights come from a wound in the foot, if he is training under Public Law 16 (not Public Law 346) and finds that he is in need of glasses, without which his training will be interfered with, is entitled to benefits. The veteran takes the matter up through the training officer. Correction is provided in order that training may continue without interference due to the physical defect.

EARLY DAYS

From Wayne Herald for April 23, 1931:
 A sudden change in the weather with snow flurries and the temperature dropping to freezing April 20 resulted in no serious damage. Plum blossoms that were out may have been damaged somewhat. Other fruits were not yet in blossom. Small grain may be retarded somewhat. This area is accustomed to such experiences so no special concern is given to it. Rollie W. Ley was president of the district bankers' association which met in Norfolk. Mrs. S. A. Lutgen's "Nebraska, By Native Land" has been voted the best state song by the American Education Press. Some wooden shelving used in the court house at LaPorte and moved to Wayne when the seat of government was changed is being replaced with steel cabinets. The shelves are in the offices of the clerk and treasurer. Those in the district clerk's office will continue to be used. Some of the shelves are valuable, being of black walnut. A meteor clipped the power lines near Herman and caused flames that leaped 40 feet into the air. Mrs. Ernest Bostelman of Aramont, Wyo., sister of Mrs. J. T. Bressler of Wayne, died in April, 1931.

Your cooperation is greatly appreciated. The cooperation and understanding which telephone users have shown so completely the past several days are most sincerely appreciated by all telephone people who have tried to "carry on."

The fact that you have kept calls requiring the services of an operator to a minimum has made it possible for us to keep the service available for important and urgent calls and for emergencies.

Your friendly attitude and the fine comments you have offered have been most encouraging to those who stayed on the job to render as much service as possible.

The company regrets exceedingly any inconvenience that you are being caused.

Safeway Aims to Reduce Food Prices This Way

As a distributor, Safeway does not control the wholesale prices of raw or manufactured foods and other products. With few exceptions* Safeway buys currently at going market prices the kind and quantity of products needed to supply the demands of the consumer-customers of Safeway neighborhood stores.

Thus Safeway has no control over and cannot influence the prices at which it buys and which account for the largest part of the retail price.

However, Safeway can and will contribute to reducing the cost of living by strictly living up to the following policies:

1. When merchandise is acquired at lowered costs, Safeway will immediately drop its retail prices on its existing inventory to the new lower market level. The inventory mark-downs involved will be charged to profit and loss.
2. The Company's full resources and years of experience are intensively aimed at bringing about still further reductions of the in-between costs of distributing foods. This is the way in which Safeway increases its productivity with consequent benefits to consumers, producers, employees and stockholders.
3. Small profits on large volume will continue to be the keystone of the Company's operation. In 1946, net profits were 1 1/2% per dollar of sales.

*Safeway maintains inventories of a few commodities which must be purchased during the harvest and stored for later consumption.

Here is a machine that should be a part of your plans for a better tomorrow... a totally different field baler for the family-sized farm as well as larger operations. It brings, for the first time, one-man field baling, plus new ROLLED bales ideally suited for mechanical handling at every step from field to feedlot.

This Allis-Chalmers baler is a truly one-man machine... power take-off driven and completely self-acting. Yet its capacity equals or exceeds that of conventional pick-up balers requiring 3-man or 4-man crews. A two-plow tractor in good operating condition provides the necessary power.

Another new hay tool worth waiting for is the Allis-Chalmers side-delivery rake with power take-off drive and air tires... a sturdy rake, equipped with anti-friction bearings and especially designed for tractor use, which will bring you straighter, more uniform windrows and higher raking speeds with less damage to the hay crop. This rake will be ideal for use with the one-man baler, but will be equally adapted for other types of raking and tedding.

With Allis-Chalmers you can now plan for power having all the way from standing crop to storage. This new labor-saving system will be made possible by a matched line of new hay tools, each of them power-driven and with large capacity, yet engineered to the requirements of the family-sized farm.

Allis-Chalmers Divisional Manager Mr. Proud of Milwaukee, Branch Manager C. D. Troyer, Asst. Mr. Syfers and Blockman Ray Shalander held a two-day school at the Wayne Implement Co. for dealers and service men of northeast Nebraska and parts of Iowa. One dealer flew in by plane to attend this school.

This school is being held to better acquaint the dealers and servicemen with the operation of these two machines so they in turn can furnish the customers with all necessary information in operating these new hay tools.

Butchering No Longer Seasonal Proposition

There was a time, not so long ago, that butchering and caring for the family meat supply was a week-long job and necessarily seasonal due to weather conditions, field work, harvest, etc., that would come first.

Now, however, you need only to step to your phone. Your beef or hog will be picked up, taken to our slaughter house, butchered, placed in our cooler until properly chilled. If you wish, your meat will be processed, your lard rendered, sausage or hamburger ground, summer sausage made and smoked, ham and bacon cured and smoked.

All meats will be properly cut, wrapped and sharp-frozen at 20 degrees below zero temperature, then placed in your locker.

There is no need, then, to run low on fresh or cured meats. Just phone 222. The Quality Market for prompt service. a2411

Library News

Spring fever seems to come with the season. In spite of days when windy breezes remind us that winter hates to leave us. Inside the library too, the urge of spring is felt. Spring-variationing students hunt material for notebooks and almost due assignments; reading clubs seek for appropriately lighter topics with which to wind up their season; inventory looms ahead and work taken along home seems more than ever likely to come back again undone. We think longingly of the country.

Other folks seem to have the same idea. They are borrowing books that have the feel of the country in them, aids for gardening, camping, fishing and choice titles for long-delayed personal reading. Travel books and guides are being sought; spring is the time of mental wanderlust. Not is a physical trip necessary to satisfy this urge. A look through Holiday magazine or reading The Great Salt Lake which is the new book of the Lake series, might satisfy that craving.

The Miracle of the Bells would do for some of the lighter reading. And for something really good, Three Came Home, by Agnes Newton Keith, will fill the bill. You may remember that this author wrote Land Below the Wind, before the war. She and her husband and small son spent the war years in a Japanese prison camp and this book is an account of their experiences. She is a good writer, a woman of great courage and has told her story well.

May first begins a new fiscal year at the library, so reports are being made ready to send to the city treasurer and to the library commission at Lincoln.

Plan for Clinics To Detect Cancer

Many Will Be Given Help If Funds Are Ample to Finance Project.

Tumor clinics will be established and financed by the Nebraska division of the American Cancer Society provided that funds become available as a result of the April campaign. Information coming to Mrs. F. S. Morgan states that to these clinics physicians will bring patients who wish a thorough examination for cancer. It is felt that the resulting public awareness of the importance of early detection of cancer will enable many persons to seek treatment during the primary stages when chances of complete cure are most favorable.

Sweden is making use of blood tests to detect cancer in early stages.

Brooder, Chickens Are Lost in Fire

A brooder house, 500 three-day-old chickens and an oil brooder stove were lost in fire about 5:30 Friday morning at the Gordon Jorgensen place a mile east and three-fourth south of Wayne. The property was not insured. The brooder which belonged to John Luschen was valued at \$200 and the chickens and stove which belonged to Jorgensens were valued at \$125.

Shortly after Mr. and Mrs. Jorgensen arose the brooder house broke into flames. Wayne firemen responded and protected the garage nearby.

The Jorgensens live on the John Luschen place.

**Plan for Clinics
To Detect Cancer**

**Many Will Be Given Help
If Funds Are Ample to
Finance Project.**

Tumor clinics will be established and financed by the Nebraska division of the American Cancer Society, provided that funds become available as a result of the April campaign. Information coming to Mrs. F. S. Morgan states that to these clinics physicians will bring patients who wish a thorough examination for cancer. It is felt that the resulting public awareness of the importance of early detection of cancer will enable many persons to seek treatment during the primary stages when chances of complete cure are most favorable.

Sweden is making use of blood tests to detect cancer in early stages.

Columnist Elsie Robinson, who lost her only son 22 years ago at the age of 21 due to cancer, appeals to the public to give toward the cancer fund which will save many

**SEMINARY GROUP
WILL APPEAR HERE**

One of 42 student groups organized by the Cincinnati Bible seminary, Cincinnati, Ohio, in its national evangelistic campaign will have charge of the morning service at the Church of Christ April 27. The group will include John Casey, Robert Kahn, Miss Norma Jean Smith, Miss Zella Bond and Walter Cruzan. They will present musical numbers and one of the group will deliver a gospel message. This program will be a challenge to young people and a great encouragement to all.

Mrs. H. E. Ley and Miss Ruth Ross spent Sunday in Sioux City.

of the 181,000 who now die annually in this country from the disease.

Dr. J. J. Bitner of Minnesota thinks that if the same energy were devoted to finding a cure for cancer as is devoted to the atomic bomb, the disease could be conquered in a few years.

Wayne county's quota is \$450 and to date only \$83 has been turned in, aside from donations in cans which are placed about town. Leaders of the drive urge each one to help in this worthy cause.

**Brooder, Chickens
Are Lost in Fire**

A brooder house, 500 three-day-old chickens and an oil brooder stove were lost in fire about 5:30 Friday morning at the Gordon Jorgensen place a mile east and three-fourth south of Wayne. The property was not insured. The brooder which belonged to John Luschen was valued at \$200 and the chickens and stove which belonged to Jorgensens were valued at \$125.

Shortly after Mr. and Mrs. Jorgensen arose the brooder house broke into flames. Wayne firemen responded and protected the garage nearby.

The Jorgensens live on the John Luschen place.

**NEW TYPE TESTS
WILL BE GIVEN**

The state examinations for 8th graders of rural schools are of a new type this year and all will be given by Miss Marie Wright. Students may take them at Wayne Monday, May 5, Winside Tuesday, May 6, or at Carroll Wednesday, May 7. No 7th graders will be permitted to take tests.

Date for Commencement.

Miss Marie Wright has set May 24 as the date for 8th grade promotion exercises in Wayne county. These will be held at Wayne auditorium.

TO HOLD MUSICAL FOR DIXON CLUBS

Dixon county 4-H music committee announces a 4-H musicale for June 9 or 10 at Allen. Each 4-H club will have a chance to display musical talent in solos, small or

large groups in instrumental and vocal selections. Mrs. Altunis Tullis of the University of Nebraska will be present to conduct a music clinic.

To Tour of Washington. Mideham Donald F. Harvey,

son of Dr. and Mrs. E. L. Harvey of Wayne, participated in the educational tours of Washington, D. C. this month. The Annapolis cadets went to the naval gun factory, White House, main navy building, Lincoln Memorial and Jefferson Memorial. Enroute to

the army-navy country club for lunch they toured the city and viewed the tomb of the unknown soldier and the Pentagon building. They stopped at the naval research laboratory and then went to the capitol to see congress in session.

Broadcasts Are Given. Lincoln men's chorus, in which several former Wayne men sing, gave a radio program from KFOR, Lincoln, April 20 at 3:30. Lincoln Governmental Research Institute, Inc., broadcasts on housing Monday, April 28, at 9:30 p. m.

This program, "The Voice of the Citizen," is given the last Monday evening of each month, writes Mrs. J. G. W. Lewis.

In Army Day Program. Pfc. Howard H. Sala of Wayne participated in the Browning auto-

matic rifle demonstration held at Fort Knox, Ky., last week in celebration of Army day. Pfc. Sala has been in service one year and is now attached to the demonstration unit at the replacement training center. It was an impressive Army day program, opening with a review of

3,000 troops by Gov. Simeon Willis of Kentucky and Mayor E. Leland Taylor of Louisville while planes from adjacent Godman Field roared overhead.

Bob Otten of Pierce had Sunday dinner at Pete Petersen's.
