Two PRESIDENT Truman has been in a perplexing pickle over two Vetoes bills—tax reduction and labor regulation—both of which he vetoed Veto of the tax measure escaped being overridden by a narrow margin. The house, promptly swept aside veto of the proposed labor law by an overwhelming majority. The president

proposed labor law by an overwhelming majority. The president doubtless labored long and hard with sympathetic help to fashion what he deemed plausible reasons for his two vetoes. Many figured that wise econ-omy would take care of a diminished tax load. They think unnecessary subsidies, un-necessary government hangers-on and un-necessary waste would contribute to whole-some geomomy as well as enable business and industry to save for improvements and more easily survive any unfavorable trade winds. The president complained that the labor bill was not just right. He said he would support some other kind. The two houses worked many weeks on the mea-sure, and it turned out too drastic for some and not drastic enough for others. Fact is, the president was bombarded by thousands of carefully planned telegrams from labor leader sources demanding his disapproval. He finally yielded, but he wabbled pain-fully. of carefully planned teiegrams active leader sources demanding his disapproval. He finally yielded, but he wabbled pain-fully. Veto of the labor bill will be especially agreeable to Henry Wallace, who wants nd straw thrown into the path of labor domi-nance. Henry will chuckle. The president, with 1948 in mind, will wonder. Henry is consistently left wing. In trying to satisfy two extremes, the president is likely to find himself out on a limb. Labor leaders, contrary to many unicn members, have outraged the country, and people generally know restrictions are ur-gently needed. Talk of strikes is in the air John L. Would it not be better more accur-ately to define those in actual need and help them, and let others dig out their own necessities? Indigent old and feeble de-serve assistance. Evidently many others with hands extended, do not need it, but lack the pride and self-respect to resist it.

A Washington report states that there are still 2,232,143 civilians drawing pay as employes of the federal government. It is stated the number rose to a million in September, 1940. There were 3,649,769 at the close of the war in August, 1945. Since then the number has decreased, but not so fast as economy-minded people have ex-pected. Eliminating useless help is the way to meet essential costs, and congress should see that that is done. see that that is done.

Hanson W. Baldwin declares in the July Reader's Digest that "peacetime con-scription—particularly the six-month uni-versal training now advocated—is a horse-and-buggy military policy in an atomic and missile age." One need pointed out above others is "an industrial mobilization" plan calculated to make quick use of our indus-trial superiority."

The Missouri Synod Lutheran Church teaches and believes that the Bible, word for word, is inspired by God and therefore the sole authority and rule of faith and life of the Christian and the final court of appeals in all things pertaining to Christian doctrine and to life. The Bible therefore must be accepted word for word without a mental reservation.

The cardinal doctrine of the Scriptures, stressed and emphasized by the Missouri

Synod Lutheran Church, is the doctrine of Justification by Faith. To justify means

to make just, to acquit because another has paid the penalty. Jesus paid the sin-

penalty with His blood when He died on the Cross. Those who accept or bekeve that

Nebraska's Liquor Control Laws Widely Approved

The citizens of Nebraska have proved repeatedly at recent elections that they endorse the state's liquor control laws. [Their ballots show they feel this law is in the interest of the public welfare.

Their action is evidence that they approve the manner in which their officials are administering the law.

Our liquor control statute en-acted in 1935, is widely re-garded as one of the best in the nation. It is often considered the "model law" by legislators of other states.

This Committee has contin-This Committee has contin-ually cooperated closely with the authorities in urging strict enforcement. When occasion has arisen, we assist in taking action against any who abuse their license privileges.

We've never had a tire that sold as fast as the new

The better the tire, the faster it sells...that's why we've had such a hard time keeping the new B.F. Good-rich Silvertown in stock. There's extra demand because these tires are built with a wider, flatter tread that spreads the wear over a wider area. The cords are of an 'entirely new and stronger type with more of them, with greater resistance to "road shock." It's a proven tire of extra toughness and durability with millions of test miles on police cars, taxis and special test cars behind it. These features make it the tire that's uell worth waiting for.
