Something We Can See!

Paying out money is a lot less painful when we can see what our dollar is buying. Often the uses of our tax dollar are as well hidden as the methods of collection. That's why, following a snowstorm, it's good to step outside in Wayne and see the swift, efficient job of our tax-paid snow re-movers

swift, efficient job of our tax-pain snow re-movers. Hardly before you can get your car go-ing, the plows and graders have cleared the roads and streets. Even our alleys get cleared. Then the truck and tractor shovel go down the sides of our streets, systemat-ically clearing one block of parking space after another. Yes, it's certainly nice to see such a necessary job done so efficiently.

Famous last line : We believe in this gov-ernment's foreign Good Neighbor policy but we believe that some of our Hollywood stars are carrying the thing too far!

'Painless' Taxes

"Painless' Taxes In an editorial called "Those Hidden Taxes," the New York Herald Tribune ob-serves, "The chizen who grins and bears it each week when he takes note of deduc-tions from his take home pay, or who gulps when he makes the quarterly payment on his income tax, has perhaps mercifully been spared a consciousness of the hidden taxes which fall upon him every day. "The problem of tax reform, however, requires knowledge on the part of the citi-zens. It is to the advantage of the individ-ual that he sees through the tax smoke screen which the experts have laid down-that he feel the pain of what has been de-vised to be pashes."

This is the pain of what has been de-vised to be painless." The paper ran a series of factual articles, by Robert S. Bird, dealing with the impact of hidden taxes on the ordinary taxpayer. It is a sure bet that not one citizen in ten thousand has any accurate idea of how deep taxes cut into his earnings. For instance, on a \$10,000 house it was found that no less than 639 hidden taxes were involved in the construction, develop-ment of site, and purchase financing. These taxes, Mr. Bird says, were collected by the federal and state governments from the architect, builder, banks, agents, insurance companies, contractor, manufacturers, job-

being and others. Hidden taxes are not confined to big pur-chases like a house. The Tax Foundation found that 131 taxes applied to a loaf of bread. A woman's spring hat carried 150 taxes. A man's suit came in for 116. A humble egg accounted for 100. Mr. Bird writes: "In mone of these studies were local taxes taken into account, nor the federal and state levies on the various steps behind the sopply and manufacturing point."

behind the supply and manufacturing point." No one knows the actual total of hidden taxes. Estimates indicate they may run as high as \$700 per family per year. And, of course, they come on top of all direct taxes. The magnitude of the latter is shown by the fact that in 1949 the average taxpayer worked one month for the federal govern-ment to pay the federal income tax alone. The federal government is the biggest tax dollar, while the states take 15 cents and local units 14 cents. By contrast, in 1932, the federal government took but 22 per cent and in 1939, 39 per cent. What to do about this tremendous prob-lem? The article concludes: "The overlapping of tax jurisdictions, the continuance of taxes which have out-lived their original purpose, the crushing proportions of the tax burden as a whole, require the most carefully study. . . . But the first step is to know; the second is to be arguined.

THERE ARE SOME UNANSWERABLE QUES-tions and according to the LAPL Broadcaster the prize for the finist unanswerable went to the young-ster who called the library and queried over the telephone, "What I want to know is, What's going on in Congress?" We are happy that we didn't have to try to answer that one but we do have the answers to most of the questions so next time you are stump-ed you might try us. We just received a book about social security by IK. Lasser who has written so completely about your income tax. It might pay you to read it for it will answer your questions about social security and tell you what to do NOW to avoid LOSING the maximum moncy-benefits due to you and your family.

THE CRIME AND GORE ADDICTS ARE GOING THE CRIME AND GORE ADDICTS ARE GOING to be scrambling to be first to get their hands on the new crime club selection THE BECKONING DOOR by Mabel Seley; She hasn't written many mysteries but you may remember reading THE CASE OF THE CHUCKLING FINGERS which was her first one and very successful and different. She has been cotsidered one of the top craftsmen in the mystery field ever since. Her new book came out with a great deal of advertising and fanfare but although we are not passionately fond of mysteries ourselves we must admit that this is definitely one of the bet-ter ones. This novel has not appeared in any form prior to book publication either. Even the locale is different as the scene is the lake region of Minnesota. LLEAP OVER THE WALL AN WONICE BALD.

different as the scene is the lake region of Minnesota. I LEAP OVER THE WALL &Y MONICA BALD-win is a fascinating and most unusual book. Its au-thor, a nicce of Sianley Baldwin, left an enclosed convent for the world after 28 years of cloistered life. To Catholic and non-Catholic alike, the por-tion of the book which deals with the convent is tremendously interesting as is her adjustment to the world which she finds had changed—clothes man-ners, travel, social conventions, even the appear-ance of the London she had known. Aside from these changes there were all the disasters and dislocations of a world war. This book is an unusual personal history.

LAST WEEK WE MENTIONED THE NEW Literary Guild book Jubilee Trail but we want to birns it to your atterntion again as we feel that it is going to be one of the most popular books we have had for a long time. To meet the demand for it we have procured two copies.

MARCH IST **Our First Hatch!**

Our first hatch will be off Feb. 28 and will be ready for delivery March 1, and we are hatching every Tuesday and Friday throughout the season.

Order your chicks today, so that you will be assured of getting the breed you want, when you want them.

will check on the source of the chicks he plans to buy as well as the veracity of the hatcheryman. This is important. We highly recommend that you be choosey when you buy chicks. Check on us and check on the quality of chicks that we produce and we are sure you will send us your order. We are in the hatching business to stay. We cannot afford to sell anything but the best quality chicks.

Bigger Profits from Early Chicks

Start your chicks early and hit the top market. Early chicks make early friers, command big summer prices. You get earlier layers, too, for high priced fall eggs. Early chicks have less disease loss; make faster gains Order now, to be sure of the kind and quantity you want.

Wayne Chick Starter

We are introducing this spring a new starting mash which will grow your chicks 15% faster than in previous years. We've been proud of the job Wayne Chick Starter has done in the past, but you'll be amazed at the difference. Ask us about it.
