Bewitched is a tune that definitely does that to me. You've been hearing the disc jockeys play this one in the past week and they're giving it top billing. Listen to it. It's really a lovely, haunting tune. The Honey-dreamers do the vocal.

Silver Dollar; Plaything The Honeydreamers
Silver Dollar is a clever little tune. It starts and stops with the sound of a silver dollar spinning to a stop.

Citizens Who Care

When a large number of people turn out to vote, it's a healthy sign.

It's a sign they care enough about their community to care about who's going to run it.

The heavy voting at Wayne and Wakefield last week points to such communities. When such citizens are interested enough to take time off for the ballot box, they're interested in the progress of their communities.

When people "don't care" — then it's time to look out.

There were 93,000 more persons injured in U. S. motor vehicle accidents last year than in 1948.

Editors Want Balanced Budget

Of 500 small town newspaper editors recently polled on the question, "What do you consider to be the two most important things for Congress to accomplish at the new session?" 79 per cent indicated a balanced budget, reduction of government costs or cuts in federal payrolls, and 85 per cent would like to have tax laws rewritten and simplified.

These editors also advocated enacting reforms recommended by the Hoover commission, curbing "welfare-state" bills, strengthening and clarifying foreign policy, strengthening and streamlining defense, and taking action to restore confidence of business in the future.

Speeding on U. S. streets and highways last year killed 10,000 men, women and children.

Heel at the Wheel

What makes an automobile driver an Emily Post as a host and a heel at the wheel?

The answer to that question would go a long way toward solving the traffic accident problem which brings death to more than 30,000 Americans every year, the National Safety Council says.

Common courtesy is so important to safe driving that the month of March has been designated by the Council for a nationwide campaign on motor manners.

The propaganda guns will be leveled at these six high binders of the highway:

Gangway Gus—This is the fellow who gallantly holds the door open for the ladies or patiently waits his turn at a buffet luncheon. But at the wheel he's a "me-first" guy who bluffs out the right-of-way at every intersection, weaves and jockeys through heavy traffic and forces pedestrians to jump for their lives when turning corners.

Sid Scatback—"What's the rush?" is his motto at home when it's time to mow the lawn or dress for dinner. But the minute he climbs in his car, every second counts. He roars away from stoplights, fudges on top signs, slides his passengers off the seat when he stops, and on the open road keeps the speed needle around the 70 mark.

Ronnie Rulebook—This character lectures his son on playing the game according to the rules. At the bridge table he's a junior grade Culbertson when he quotes chapter and verse to his partner. But to him the traffic regulations were written by dopes, and he breaks them every time he thinks he can get away with it.

Tom Tooter—At home and in business, he believes that a "soft answer turneth away wrath." But at the wheel he has a horn for a brain and blasts his way through traffic by sheer volume of sound. Many a pedestrian is prematurely gray from meeting him.

Bert Bullhead—This fellow can be either a driver or a pedestrian. He just won't give in to the other guy. He carries a great big chip on his shoulder and dares anyone to knock it off. But in the drawing room his friends think he is an agreeable cuss.

Gil Galahad—In his home, this fellow insists that you take the most comfortable chair or have the last piece of steak. But don't try to take the last parking space from him, or he'll lock fenders with you at the drop of a hat.

Twenty-five per cent of all drivers involved in fatal automobile accidents in the U. S. last year were between the ages of 18 and 24.

Another War?

Is there going to be another war? This oft-repeated question is being asked again following conclusion of hearings for our national defense services. There are persons in Congress who believe there will be a war "sometime" and guesses range from three to ten years and beyond.

However, the best reply is that there is no logical indication of a war at this time unless there should be an "incident." No one knows when and if such an incident can occur.

IN BOOKLAND

Next to a cage of monkeys an excavation is probably the most fascinating attraction for people of all ages. The library board members have been a little worried about having enough funds to complete the new addition so it occurred to us the other day that it might be a good idea to put up a collection among the spectators every day.

Will the library be closed? That question is being asked frequently these days. Yes, it will be closed a part of the time but it will be operating just as usual for the next couple of months while the new addition is being built.

Have you read the Cardinal, I My Ancestor, Jubilee Trail or The Feast? These are especially good novels and you will find them on the rental shelf these days if you are lucky.

For the small fry we have just received some new biographies about Will Rogers, Amelia Earhart and Houdini. These biographies are very popular with the children. Last February one little boy brought the book about George Washington to the desk to be checked out. He wanted it he said because he had heard about him on the radio program "People Are Funny."

it doesn't take a FORTUNE to get security

Envy the man who has an oil field a few thousand feet under his winter wheat? He has one type of security, no doubt about that, and you'd be right to count him as a lucky and enviable individual.

But a full measure of security that is sound and adequate is available to the average man with an income, too, fortune or no fortune.

For a few dollars a month you can enjoy the solid financial security produced by the pooled resources of millions of people like yourself.

It would take an oil field of 2,000,000,000 barrels to give the equivalent of resources that are cooperatively pooled in The Equitable Society. And every member of the Society shares in the protection these resources offer.

The financial protection provided by life insurance and annuities is available to your family and every family with foresight enough to plan their future. It's the kind of security your family should not be without.

Wayne Kiddies Find 1500 Eggs In 10 Minutes

Three hundred children scrambled around Bressler park hunting for the 120 dozen eggs hidden by the Chamber of Commerce members. The Chamber was the sponsoring group for the egg hunt.

Winners in the different age groups in finding colored eggs were Carol Chance with 15 eggs in the one to six-year-old group; Roger McDonald with 18 eggs in the seven to nine-year-old group; and Don Denkinger with 26 eggs in the 10 to 12-year-old group.

Carole Obye, Marlene Flege and Lynn Jeffrey were finders of the "lucky" Easter eggs with writing on them.

The park was divided into sections and the children hunted in the section for their age group only.

All children were guests of the Chamber of Commerce at a free movie Saturday afternoon.

Elmer Meyer, Ed Seyler, Orval Hickerson and John Kyl, members of the retail committee of the chamber, were at the park in the wee small hours of the morning hiding eggs. They reported that it took 2½ hours to hide the eggs and only about 10 minutes to find all of them.

The most and loudest fun in Wayne in some time was the Easter egg hunt at Bressler park Saturday morning. Three hundred kids trying to outdo each other vocally as well as finding the most eggs makes quite a ratty. Pity the members of the Chamber of Commerce committee who hid the eggs in the cold and dreary dawn Saturday. But they certainly could have warmed up again on the kids' enthusiasm.

Easter hats and corsages took quite a beating from the weather Sunday. If observation over the years is correct, the best investment for an Easter parade is a gay new umbrella.

The roof is leaking!

AN EMERGENCY always points up the convenience, speed, and all around usefulness of the telephone. Yet, because some particular calls saves valuable time or a big sum of money, you don't expect to pay, say, ten times the going rate even though the call might still be worth it. No, other factors set the price.

Our emergencies always cost us money. We expect them, meet them when they arise, pay the bill. They account for part of the cost of doing business, the total of which must be covered by what you pay us for service. Above our costs, we count on a fair profit. Profit tells the world the business is sound, that it is deserving of new investment dollars for improvements and expansion which in turn must earn a profit. WHS Thin Clads Bolstered by Six Lettermen

Seven lettermen from last year's cinder squad along with a large group of starting hopefuls will bolster Wayne city school stock in this year's track meets.

Drill started two weeks ago with a total of 24 men reporting to Coach Lloyd Horton for practice.

Returning veterans include Dwayne Atkins who participated in the high hurdles and pole vault, Reno Pflie who participated in the broad jump and relay, Don Skeehan who ran the 400 and relay but is not out for track this year.

Bob Carhart who ran the 100-yard dash, 220 and relay, Alan Cramer who ran the 100-yard dash, 220 low hurdles and relay, and Victor Kneishe who threw the shot. Jack Fisher lettered in the 100-yard dash, 220 broad jump and relay but is not out for track this year.

Promising material includes Harold Cyrzine, Jim Atkins, Marvin Goshorn, Warren Price, Jim Hemenway, Bill Palmer, Gale Weir, Jim Birdsall, Jerry Lupp and Dick Cannon. David Meyer has not reported for practice as yet due to an injured ankle.

Coach Horton reports that interclass meets will be held this week to determine who will represent Wayne High in the meets that are scheduled in the near future. Since this is the first time that interclass meets are being held and records kept, the athletes will be setting records for the coming track season to attempt to better.

Three definite meets have been scheduled to date, with Coach Horton attempting to schedule a another dual or triangular meet to keep his thinclads in trim.

The district qualifying meet stands first on the list when Wayne high will travel to the meet Wednesday, April 19, and two days later when they will participate in the Norfolk Invitational meet. Tuesday, May 2 the Blue Devils will take part in the Husker conference meet, usually held at Hartington.

Coach Horton believes the Wayne cinder team should acquit itself in good fashion, but admits weaknesses along certain lines. Many of the men out are underclassmen, and should build into a strong team in the future. He attributes the renewed interest in track to George Bailey, coach last year at the high school, who worked with the would-be tracksters with good results.
