his is the result of two potent forces ich, in combination, have reduced the chasing power of the dollar on one id, and have made it impossible for even Dec 10, 1931 le with very large gross incomes to substantial sums on the other.

Force one is inflation. Today's dollar, one by the government figures, is orth only a little more than half as tuch as the prewar dollar. Force two is xation, which now bites deeply into e incomes of people of moderate eans, and takes most of the carnings of cople in the upper brackets.

As the magazine points out, the salited, white-collar groups have been hit urdest so far. Wage earners have fared uch better—the article says, "Inflation as raised their pay far more than it has used their cost of living, and taxes are we where levied at all."

The average manufacturing worker, conliently, has had an increase, in real
gesiof some 30 per cent since 1989. Howit, future tax increases, if they come,
if of necessity cut deeper and deeper into
ver income groups, so this situation may
the permanent.
In any event taxation and inflation are
biggest problem millions of middleiss Americans now face, it and that's why
agress is getting more and more restive
the Administration's spending plans.

Farmers' Point of View

Only 21:3 per cent of farmers and farm ty-dmen said they would vote for President tunian if he were running for re-election day, according to a spot check made by chartry Gentleman magazine.

The national farm magazine reports at 71.4 per cent said they would not te for President Truman and 7.3 per nt were undecided.

nt were undected. he magazine's check was made by field eapondent's in 23 states. The question ad was, "Would you vote for President man if he were up for re-election to-2"

the 1948 presidential election the farm

re the 1948 presidential election the farm te was generally regarded as playing a cisive role in President Truman's victory. General Eisenhower was most frequently inentioned as the man farmer wild like to see on the Republican ticks, followed closely by Taft, both being goested several times as often as Maccinum Dewey, Warren and Stassen, the magazine says.

Ship Me To AHAMO Where More Büyers Can See Me!

E is a man who's been doing a lot of thinking.

Someday, he's told himself, I'm going to turn in my old car and get a new one.

And he said, still talking to himself, when I do that I'm going to size up the field—give 'em all a real You see him here at the wheel of a Buick. He hasn't bought it—yet. It's a demonstrator, and he's trying

But the more he tries it, the more he knows he's been

wasting a lot of time.

From the moment he looked inside, he said: Here's the room—and the comfort—and the style I've been looking for.

Then he nudged its Fireball Engine into action. It's a high-compression valve-in-head, as you probably

He eased out into traffic Stopped and started for a couple of traffic lights, and said something to the effect that this Dynaflow Drives is a honey. Why don't they all build 'em this way?

He saw a bump ahead, Place where the pavement

had been torn up. Other cars were braking down to a creep to cross it. He held back—rolled right across at regular speed with barely a bobble.

It's hard to believe, he said, but what they say about Buick's ride is right.

Ten minutes later he was out on an open stretch of road. Tried an experimental push on the gas treadle. Boy—what a take-off! You couldn't want more power than that.

Ten minutes more—and he knew something else. You don't really sfeer a Buick. It just about steers itself. Stays right on the beam on the straightaway. Even straightens itself out after a curve.

To make a long story short—he's found out that nothing else he's tried out can hold a candle—not even a little Christmas candle—to this bonnie beauty.

Back at the Buick showroom, he's going to get one more surprise. The price of a Buick is a lot less than he'd guessed it would be.

Moral: Smart Buy's Buick-right now.

"Galacia Jones" ceners around a farmer's son,
eccully graduated from
aw actool, who thwarts
the efforts of a big-time
crook to profit from his
colitical connections. It is
a present day problem picture with a moral and

are included in the fast-maving program, accord-ing to Mr. Brandstetter.
One of the film, "The Big Payoff," features Tom Gordon, head of the mem-orable Gordon clan, who has been so popular in pre-vious John Deere Day pic-tures. Another picture, "Oddities in Farming" is patterned after last year's popular film of the same name. "What's New for

'52" will acquaint those in attendance with New John Deere implements and is sure to prove of interest to every farmer and his family. "The March of Harvest Time" and "Voices of Experience"—the two movies that complete the program —deal with subjects close to the heart of every farmer.

Admission will be by

Admission will be by ticket and farmers who have not yet received theirs may obtain them by calling at the Brandstetter store in Wayne. Farmers are urged by Mr. Brandstetter to get their tickets early. The show starts at 7:30 p.m.
