Crime Wave Hits; Shoplifters Take Radio, Two Men's Suits

One Man Is Fairly Well Described

A minor crime wave has hit Wayne. Organized shoplifters staged a campaign in the local stores over the weekend. Chamber Secretary John KVI announced.

Among the articles known to be missing are a portable radio, valued at \$60, and two men's suits.

The suits were taken from the McDonald store Friday. The radio was stolen from the Firestone store Monday.

A check with the merchants indicates there were two men who probably are responsible for the thefts. One of the men carried a brief case.

One of the men was described by several of the merchants as being about 5'10", having brown bushy hair, wearing around 180 pounds and being rather nervous. He was dressed in a rust colored suit.

Merton Ellis reported the above described man entered the Firestone store and bought a roll of 12 1/2 inch tape. After Ellis had made the purchase, he waited upon another customer. Later, he noticed the radio was missing.

Swan's clothing reported two suspicious men had been in the store Monday. A check revealed one of the men was dressed in a new gray shark skin suit answering the description to one of the suits stolen at McDonald's. A measurement made at the store indicated the man would probably wear about size 39, the size of the stolen gray suit.

A pair of men answering the same descriptions were observed at several other stores. It was not known Tuesday evening whether other articles had been stolen. A complete report sent to the Betty Business bureau and city and county police officers have sent out all available information to state police departments.

Election Party at Auditorium

Community members are invited to attend the election returns party at the city auditorium Tuesday night from 8 p.m. to 1 a.m.

Democratic and Republican Wayne county central committees have leased a closed radio circuit for the occasion.

Exclusive election returns from wire services and state and national correspondents will be piped to the auditorium from Norfolk and broadcast over a public address system.

Cards and other games may be played by the listeners during the evening.

Vote Tuesday and then plan to attend the election return party at the auditorium that evening.

Council Requests No Outdoor Fires

The city council requested Tuesday night that Wayne residents burn no leaves or trash outdoors until the extreme dryness is alleviated.

There has been no moisture for over five weeks and the fire hazard in the region is extremely dangerous.

Instead of burning leaves, sack or box them up and send them to the city dump.

Wayne county farmers are flocking to the local PMA office to make application to seal some of their 1952 corn crop.

Since Tuesday, Oct. 21, when the first loan was granted Lester Lutt, a total of 67 applications had been made at the PMA office up to mid-afternoon Tuesday. Lutt sealed 1,569 bushels.

Of the 67 applications made so far, 26 of them have been completely processed. The 26 loans put 34,637 bushels of corn under seal. County Chairman Thomas P. Roberts reports that the moisture content has dropped almost two percent in a matter of two weeks.

The first corn tested had a moisture content of around 18 percent. Corn brought in the first part of the week was averaging around 16.5 percent.

Alvin Prabin, Winside, had corn that tested as low as 13.2 percent. As the harvest of the bumper corn crop continues, it is expected a record amount of corn may be sealed.

Clothing Drive —

(Continued from page 1)

2,161,638 pounds of clothing, approximately five million garments. "We cannot stress too much the desperate need for clothing that exists among children in this country and overseas," Mrs. Dalton said. "I am sure the citizens of Wayne will want to lend a helping hand. The 'Bundle Week' provides a practical and effective means of clothing collection, and at the same time, teaches youth in our schools to share with the less fortunate. Participation in the national Children's Clothing Crusade will help foster a sense of brotherhood and lay a foundation for international good-will."

Clothing collected by the Federation is used to aid needy children and families in Korea, in war-depleted countries of Europe and the Middle East, and in disadvantaged rural areas of the United States. In the United States clothing is distributed in low-income rural areas of eight southern and mid-western states and on the Navajo and Papago Indian reservations. If it were not for the "Bundle Week" collections, thousands of these rural children would not be able to attend school because of the lack of adequate clothing. Mrs. Dalton said that wearable clothing of all types, in babies', children's and adult sizes; blankets, sheets and other bedding; and low-heeled shoes are especially needed.

"I hope we will give a bit of ourselves with these gifts, by cleaning and mending the garments so they will express our good wishes for the children who receive them," she added. A large number of shipping bags have been ordered from the federation, and leaflets will be given to all children in the school system to take home during the week, stating the purpose of the drive and asking the cooperation of parents. The Nebraska association of the Future Homemakers of America is sponsoring the "Bundle Week" in 81 schools.

Branch Oats Being Sold, Not Recommended

Lincoln—Branch oats, a variety being sold in some sections of Nebraska, is not recommended for growing in this state by the University of Nebraska Agricultural Experiment Station. Salesmen have been selling this variety of oats to farmers in this region, County Agent Harold Ingalls reports. Agronomists said the variety yielded 25 bushels less per acre than the Nebraska and Cherokee varieties in tests at the university's agronomy farm and it matures 10 days later than the recommended varieties. The testness of maturity makes it more susceptible to rust. The Branch variety, which was released by the Wisconsin Agricultural Experiment station in 1951, grows tall but lodges more than the recommended varieties.

100 Persons Attend Dixon SCS Banquet

Approximately 100 persons attended the annual Dixon county soil conservation banquet held at St. Peter's hall, Newark. James Wallace, manager of Iowa State college foundation farms, was the principal speaker of the evening. He told of his experiences in rebuilding the worn-out farms that he has given to manage. He illustrated his talk with colored slides and emphasized the greatest single resource to consider in rebuilding any farm was the human resource — the family. Roy T. Kirkpatrick, area conservationist, spoke a few minutes on the seriousness of soil erosion and its ultimate effect unless we do something to restrain it. Charles R. Chinn, chairman of the Dixon county soil conservation district, introduced the honored guests, Mr. and Mrs. Paul Koester, Mr. and Mrs. Wymore Wallin, Mr. and Mrs. Elmer Pearson and Mr. and Mrs. Nick Kneiff winners of the 1952 Permanent agriculture program.

Carrier Sails; Solve Big Fleet Supply Problems

Third of a series edited by Mark E. Cramer of The Herald, who was one of 40 American newsmen assigned to observe U. S. Atlantic fleet and Allied units in NATO maneuvers during September off northern European coast. The past two weeks he reported on interviews at General Matthew Ridgway's headquarters and a conference at the U. S. Embassy in Paris.

Arriving in Norfolk, Va., I immediately notified the public relations office of SACLANT (Supreme Allied Commander Atlantic), and in a short time a jeep from the USS Midway was on hand to take me to the ship. This big aircraft carrier was to be my home for the next two weeks.

This first night my bunk was the top one in a tier of three, snugly located against the ceiling, and one of nine (three tiers) in the bunk room.

Next morning our motley group of some 40 newsmen were handed instructions, taken to headquarters for "processing" (which included checking passports, international immunization records, North Atlantic Treaty Organization accreditation... and final approval for the cruise).

Meet Our Host

But in late afternoon we had the pleasant opportunity to meet our host, Admiral Lynde D. McCormick. After a session of picture taking and visiting by all of us, on the terrace of the navy officers' club, we were entertained on the eve of sailing by Admiral McCormick and his staff at the club. Most of the newsmen present were members of the National Editorial Association, of which the Wayne Herald is a member. But among us were representatives from papers as large as the New York Times, the cross country and magazine men.

Ship Get Under Way

And so the next morning ships of our fast carrier task force cast off lines from their piers and we were "under way" to Groenoch, port of Glasgow, Scotland.

There was a sense of history in the making by those aboard Uncle Sam's mighty task force scheduled to take part in Exercise Main Brace. For this was the first official practice-at-war to acquaint the armed forces of eight NATO nations with the job we hope they will not be called upon to perform.

The extent of preparations for this war problem between the Blue forces, representing NATO, and the enemy Orange forces, was shown by the fact that 150 warships, plus hundreds of aircraft, participated in carrier, antisubmarine and convoy operations.

General Plan

In general, the war games exercise was divided into five parts, planned as follows:

- Part one: An allied carrier force will sail north from the United Kingdom for operations off the coast of Northern Norway.
- Part two: The carrier force will move southward, replenishing with fuel on passage to join in exercises in Denmark.
- Part three: Convoys to and from Scandinavia will be protected by surface forces and carrier and shore based air forces.
- Part four: An amphibious force

including U. S. Marines will sail from the United Kingdom to aid land forces in Jutland. This expedition will be strongly escorted and will include its own air support for the troops when ashore.

Part five: In the Kattegat, and the Baltic approaches to Denmark, light forces from Denmark, Norway and the United Kingdom will exercise under Danish command with submarines and coast defense to protect the shores of Denmark.

The Meaning

...written aboard ship

All of us recognize the implication of this exercise. It will point up weaknesses to the members of NATO as well as tell Russia, in effect, that if she starts World War III she will have these eight nations to combat under an organized command that is preparing realistically for possible eventualities.

Russia already has made certain threats to friendly Scandinavian countries, particularly Sweden, which is not a member of NATO. From all indications Russia's implications amount to nothing more than perfunctory opposition. The co-ordinated exercise is one of the few positive steps taken by the Allies to advance their own cause by serving a bold notice which stirs the hearts of free men everywhere.

Supply Problems

If you want a problem that will keep you up all night, just try to figure out how many potatoes, or beef roasts will be needed by some 40,000 men aboard some 80 U.S. ships during this cruise.

Then break down that total figure to providing for a crew of 3,000 aboard six of the largest carriers and down to members on the submarine crews. To find that one is easy, then try to figure the salt, the ham, the five-inch shells, the amount of gasoline needed for airplanes, the bandages and headache pills necessary for a strenuous six-week exercise.

The supply problem for a major fleet is tremendous. Everything must be co-ordinated to arrive almost exactly on schedule and without fail, in order to permit handling in time to sail. But all this was finished in a few bustling days, and Uncle Sam's ships began departure exactly on schedule at 10 a.m.

"Organized Confusion"

What looked like organized confusion suddenly fell into place just minutes before anchors were weighed.

I couldn't help but feel sorry for the navy women who lived the dock and waved with something of a desperation in their demeanor.

And, on the other hand, I couldn't help but wonder if the wives of the 34 accredited correspondents from the New York Times

No Socialism Wanted

Recently I have seen and experienced the results of Socialist government in Great Britain.

We do NOT want that kind of general stagnation in this country.

It is a silly economy. Yes, in my opinion, it has come to the place where it is utterly foolish. For example:

Wages are controlled — a skilled laborer makes perhaps 8 pounds (\$22.40) per week. Then foodstuffs are kept low in price, by subsidy. (If a farmer gets 30 cents a dozen for eggs, 10 cents of that is paid by government — the eggs are sold at 20 cents retail to the laborer, yet under rationing he can have about one egg per week... so of course he can afford the egg.) Money for all the many, many subsidies comes from taxes: And what taxes!

Of course — black market prices are about equal to our retail prices.

As one British newspaperman said to me, with sadness and restraint in his voice, "England is the most heavily taxed country in the world." Rents are controlled and subsidized, money for the subsidy comes from your taxes — to subsidize and help pay your rent.

But it is all a vicious circle, from taxes to subsidy — round and round. And rationing of "hot so good" foodstuffs — about 4 ounces of meat, an ounce of butter weekly.

England's once proud cities definitely show the pinch. They appear to be rotting and decaying. You have the feeling that the country is "busted" — yet the Socialist dreamers frown on and forbid enterprise.

It is evident in our own country that the New Deal government has championed some dreamers that are akin to the Fabian Socialists of England. One British writer made me feel that his opinion of paternalism in English government was comparable to the English people believing that Socialism was merely a method of thinking they had found a political way to obtain perpetual motion.

This London Times military writer is resigned to thinking that the consequences of Socialism would have to run their economic course to bankruptcy before the people will be willing to admit they cannot get something for nothing.

Dwight Eisenhower has had a close-up look at this cause-and-effect Socialism business in Britain. He is the one candidate for the presidency who is NOT a starry-eyed dreamer... he knows definitely that the U. S. government "drifts" towards the socialist state is the wrong direction.

Let's give him the chance to go to work come next Tuesday.

Makes the Job Easier

Being a husband is like any other job — it makes it a lot easier if you learn to like your boss.

Mandatory Retirement?

There are many men who have reached the mandatory retirement age of 65, many women who have reached age 60, who do not wish to retire. This growing resistance to mandatory retirement became stronger with the announcement that the cost of living has risen to a new high.

Compulsory retirement at fixed ages is much less attractive with the cost of living at 190.8% of the 1935-1944 average. With the cost of living more than 12% higher than it was before the Korean War started, many workers eligible to retire would prefer to keep working rather than retire on pensions with little purchasing power.

A recent study revealed that "at the older ages — particularly after 65 years, employment falls off; nevertheless, at ages 65-69 close to 50% of all men are still working, and nearly 3% are looking for work," and further revealed that "even at 70-74 years almost 40% are in some gainful activity."

It is difficult to select any mandatory retirement age because there are bound to be individuals who are mentally alert and physically active after reaching that age. At the same time there will be others who should retire before reaching the selected age. Another thing that adds to the problem is the ever increasing life span.

25 Years Ago

Oct. 27, 1927 — Wayne county schools as observing American Education week Nov. 7 to 13, and Board E. Sewell is sponsoring general arrangements. Confirmation exercises were conducted at the St. Paul's church southwest of Wayne Sunday with the pastor, Rev. William Fischer, in charge. Edna Koch, Mildred Wacker and Charlotte Gehner comprised the class. H. M. Auker, August Biermann, Henry Kay and C. J. Johnson each shipped a can of hogs to Sioux City the past week. A. D. Davis, Masonic grand master, presented Ed Reynolds with the Redway representative pin Friday evening at an open meeting of the church. About 100 young folks from Baptist churches in Northeast Nebraska met here Saturday evening and Sunday for the annual rally.

20 Years Ago

Oct. 27, 1932 — A five to 20 percent reduction of salaries affecting all city employees was adopted by Wayne city council at Tuesday night session. Wayne college high school and Laurel met here Friday in football and Laurel won by 6 to 0. Wayne and Bloomfield high schools met in football at Bloomfield last Friday and Wayne lost by 20 to 0. Ed Laughlin shipped a load of hogs to Sioux City last Thursday and topped the market at \$3.40. Rev. William Kearns spoke at assembly period Thursday at Wayne city school about his summer trip to Europe, dwelling especially on the preparation for foreign travel, life on shipboard and his travels to Dublin, Cork and to the Killarney lakes.

15 Years Ago

Oct. 28, 1937 — Walter Gilbert, small son of Mr. and Mrs. Frank Gilbert, was badly cut and bruised when he fell from a moving automobile late Tuesday afternoon. A broken water main on Main street between Second and Third was discovered on Monday. Larrylia Whitmore and Arthur Gulliver of Wayne college high were chosen first among the 22 girls and boys who took part Saturday in the annual Wayne county young citizens' contest at the court house. Theban society of Wayne high school presented Betty, Helen Ellis and James Kingston in the first of a series of one-act plays at high school convocation Wednesday morning. Lee Stauffer, Wakefield, picked 1571 bushels of corn in 80 minutes before a crowd of 3,000 Monday on the land south of Wakefield farmed by Lawrence Hanson, to win the Wayne county corn husking contest.

10 Years Ago

Oct. 22, 1942 — Phyllis Foster fell Monday while playing on the teeter-totter at school and broke her right forearm. Elmer Peters suffered severe injury to the three middle fingers on his right hand Tuesday when the members were caught in the husking rollers of a corn picker. Dixon county gathered a total of 670,390 pounds of scrap in a drive last Friday when all business places were closed. Plans are being made for the November session of civilian pilot training at the college. Prof. W. A. Wollenhaupt has been employed temporarily as secretary of Wayne Chamber of Commerce, succeeding W. H. Swett, who went to St. Louis.

ELECTION DAY AT THE LIBRARY — When you vote next week we hope you will visit the whole family and not confine yourself to the voting booth. Come in the back door and go out the front! The old superstition says that will bring us more company and that is what we want. We will be looking forward to seeing many people who haven't been in since last April. Some folks who came at the time have been coming back as library patrons ever since. We are looking forward to a day of open house at the library.

Hobby Classes — So far we have had requests for photography, stamp collecting, figure painting, oil painting, knitting, and one group wants to make Christmas cards and then go on to making creative ideas suitable for gifts. After the holiday season they will turn to crafts of a wide variety, so if you join that group you should be able to find something of interest to you. Talk to your friends about hobbies and then either come into the library to sign up or telephone your request. Our number is 177W and is listed under Wayne public library.

CHILDREN'S BOOK WEEK — In preparation for their annual visit to the library during the week of November 16 to the 22, the children of each grade in both schools are making posters which will be exhibited during the week. These posters carry out the theme "Reading Is Fun", taken from the slogan selected by the National Children's Book Council. The grade making the best poster will be eligible for a prize.

NEW BOOKS — "Anyone Can Scape" by Arthur Saldenberg makes you want to try it right away, if only with a piece of ivory soap for a starter. "Giant" by Edna Ferber is a powerful Texas story which has caused a good deal of furor among the Texans. "Confessors of the Name" by Gladys Schmitt, who wrote "Dorothy the King" a few years ago is a serious, religious novel written with great care and much preliminary research. "The Power of Positive Thinking" by Norman Vincent Peale is a practical guide to mastering the problems of everyday living. It will be found on the religious shelf.

would like to be in a position to stop working and retire when he reaches a certain age, if he then elects to do so. A great many individuals who have passed the so-called retirement age continue to work, however, although they do not need the money. Work, it seems, can be a source of happiness, and under normal conditions it seems a pity to deprive anyone of a job well done, a contribution to well-being of society.

Wayne's Three Grid Teams Grab Decisive Victories

Wayne State Takes 20-13 Win from Chadron State

Chadron — The Wayne State Wildcats defeated the Chadron State Teachers 20 to 13 here Thursday night to take possession of the No. 3 spot in the Nebraska College conference grid standings.

This was the fourth win of the season for Coach Barney Lewellyn's charges. The loss pushed Chadron into the No. 7 slot in the conference standings.

All the scoring was produced in the first half as the invading Wildcats repulsed threat after threat by Chadron the final 30 minutes.

Chadron drove 81 yards to Wayne's six before losing the ball with 90 seconds left, then regained the ball on a fumble with a minute remaining.

The Eagles were on Wayne's seven when time ran out.

Chadron opened the scoring when Joe Zowada smashed 12 yards.

Two quick Wayne strikes in the second period provided the winning margin.

Don Groulik Scores
The Wildcats recovered an Otto Weltring fumble on Chadron's 23 and Don Groulik went the last three yards.

Kay Plunges Over
Then a 70-yard push made it 20-7. John Kay, Pender, freshman, plunged over from the two.

A spectacular 71-yard pass play, Bill Darnell to Bill Sollars, gave Chadron its final tally with a minute left in the half.

The pass covered 41 yards with Sollars running the last 30.

Score by quarters: 7-6, 0-0, 13-7, 13-0, 20-13.

Stanton 14; Wisner 13
Neligh — It was a tight battle Friday night at Wisner, as the Bulldogs lost 13-14 to the Stanton Mustangs. West division leadership in the Husker conference was at stake and the win made it three straight for the Mustangs.

The Stanton-Wisner battle was one of the hardest played in the Husker circuit this year.

In the first quarter Phil Johnson went over for Stanton from the four and plunged for the extra

Wayne High Overpowers Scribner

Wayne High exploded with a six-touchdown barrage to bury Scribner's undermanned grid machine 40 to 0 there Wednesday afternoon.

Coach Lloyd Horton's Blue Devils were in complete command of the situation during the entire game. Horton was able to sweep the bench and give the "subs" some game experience.

Larry Johnson and Bill Palmer put a couple of runs back-to-back to open the scoring. Johnson went 24 yards to Scribner's five where Palmer plunged over. Gordon Zapp's placement was good. He kicked four extra points during the game.

Johnson scored the second counter with a 11-yard ramble and passed to Jim Honegar for the third touchdown.

This march began on Wayne's 18 yard line. Palmer went for 37 yards to Stanton's 45 yard marker to set up the pass play. Johnson flipped to Honegar who took the ball on the 15 and went on to the end zone.

There was no scoring in the second period but Mark Tietert opened the third quarter with an 82-yard runback of the kickoff marking the beginning of the second half.

Rod Tietert scored the fifth tally and Zapp passed to Honegar for the sixth and final touchdown. Zapp threw to Honegar from a fake field goal formation on the 20.

Wayne will be host to Wisner Friday afternoon for the season's finale. Game time is 2:30 p.m.

The Wisner Bulldogs tied it up with Davis crossing the goal for the touchdown and Jim Kane passing to Jerry Holland for the conversion.

The Mustangs again scored in the second period on a pass. Lane Wood to Clair Paskopik. Stan Hasselbit plunged over to convert.

The Bulldogs scored in the third period on a pass, Holland to Warren Heller, but failed to convert and it went that way 14-13 to the final whistle with both teams grinding away around mid-field.

There were numerous penalties in the game. Several Stanton touchdowns were called back and Wisner crossed the Stanton goal on the last play of the game but it was nullified.

Oakland 40, Wakefield 6
In winning from Wakefield, Oakland chalked up 14 first downs to the losers' nine.

Ron Kohlmeier scored three touchdowns and Del Hanson two touchdowns for the winners. Gene Paetler went over in the final period for Wakefield's only

score.

Larry Larson, guard and Bill Jips, back, stood out for Oakland. It was Wakefield's homecoming game.

West Point 32, Madison 0
West Point entertained Madison in a Wednesday night game and routed the visitors, 32-0.

Hard running of Russel Silla, 155-pound Cadet back, the defensive play of Dayton Daberkow and the all-around offensive play of Dleg Seelmer turned the game into a romp for the Pointers. Rod Daberkow, Cadet end, was outstanding on defense.

West Point meets Lyons Friday night in an east division struggle for bottom place in the standings. Madison takes on the west division leader, Stanton, in a home game Wednesday night.

Lyons 39, Valley 26
Lyons picked up a win outside of conference play Wednesday night on the Lyons home field by defeating Valley, 39-26.

Lyons made a total of 431 yards (354 yards rushing and 77 passing). First downs: Lyons 19, Valley seven.

The entire Lyons crew played well with Buck Hayes outstanding on offense and on defense. Johnson and Haessler did a good job for Valley.

Lyons has another home game, a conference tilt with West Point next Friday night.

O'Neill 38, Neligh 19
O'Neill, traditional foe of the Neligh Warriors, took the long end of a 38-19 score at the Warriors' homecoming celebration Wednesday night.

The Eagles went to the dressing room with an 18-0 halftime lead. Robert Carroll reeled off 60 yards in the third quarter to lengthen the lead. A pass, fly to George Kitzon, was good for a 50 yard touchdown.

Neligh scored in the third period when a Warrior recovered an O'Neill fumble on the 11. Ron Welch went over on the third play.

Jerry Miller elminated a Warrior drive in the final period going over from the seven. Don Rice scouted 50 yards to the 10 in the closing minutes of the game and on the next play went over for the third Neligh touchdown.

NEBRASKA FARM OUTLOOK

(The MONTHLY FARM OUTLOOK is reprinted from Notes on Nebraska Farm Business, a monthly publication of the Department of Agricultural Economics, Agricultural Extension Service, College of Agriculture, University of Nebraska, Lincoln. This authoritative report is reprinted each month by the State National Bank of Wayne as a service to our customers and friends.)

"Our Roots are In This Land"

Economic Situation

Business executives and government economists are beginning to express concern over the possibility of a mild business down-turn expected to begin in 1953. This concern is based upon the expectation that government military spending will have reached its planned peak (some say it has already reached a peak) and is leveling off. Actual defense expenditures are now at rate of around \$50 billion annually. For agriculture this means that farmers when planning for next year should keep in mind that prices are likely to be lower. This may bring about greater interest in possible government storage and loans in 1953. Wholesale prices, particularly in agriculture, have shown slight declines the past few weeks. Prices for corn and soybeans are expected to show further declines during the coming harvest.

Consumer buying has sprung back from its July low to highest rate since February, 1951. Consumer credit has risen by about 7% since early May when credit controls were terminated. Prospects are that more and more controls will be discontinued if prices continue to sag.

Cattle

Fairly Steady

Cattle numbers going to market are increasing. Prices of quality cattle remaining fairly steady - breaks in lower quality cattle. Heavy feeder cattle runs now under way. Prices discouraging to feeder cattle producer. Activity in Sand Hills slow.

Cattle Situation ... Efficient Feeding Prime Concern for Profit

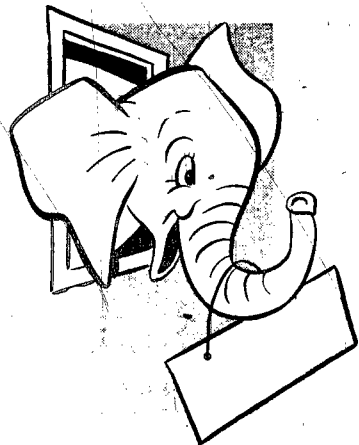

In view of the big corn crop coming up in the Corn Belt, the BAE expects a record number of cattle to be fed this winter. Slaughter of grass cattle will be up next year too - because of the current stage of the cattle cycle.

So we'll probably see a fully normal spring seasonal decline in the price of slaughter cattle in 1952. As things now stand, \$29 to \$30 (possibly \$31) for choice fed cattle at Chicago next summer probably is a good figure to shoot at in planning a 1952-53 cattle-feeding program.

This means that Nebraska farmers will have to make their main feeding profits in the coming year from feeding for the gain - margins aren't likely to be large. Thus, efficient feeding becomes a prime concern. The newer developments in the way of supplements take on added significance.

Corn ...

Prospects now are for a bumper corn crop in Nebraska with an average yield of over 36 bushels.

Ike Says ...

"Americans who fail to register and go to the polls actually are voting by default for minority rule. Let no one forget that in every instance in which modern totalitarian rulers have seized power they have done so with minority rather than majority support. I wish every success to The National Non-Partisan Register and Vote Campaign."

Dwight D. Eisenhower

Our country is FREE

Sometimes we use our freedom badly—forget about it—trade it cheaply—and fail to fairly give as much to some as others. But we know no people on earth have more freedom, or love it better, or will fight so hard to keep it.

Listen! Read! Look!
Talk! Argue! Think!
Then VOTE

Hog Situation

Corn Belt farmers raised about as many early pigs last spring as they did the year before. But along in March, they began to cut back farrowings in earnest. April and May farrowings fell 14 percent below the figure of a year earlier.

So we would expect the major difference from last year in hog marketings—and in hog prices—to begin along in October. November and December hog sales by farmers should be from 10 to 15 per cent below those of a year earlier. And hog prices should be stronger accordingly.

Hogs Outlook Brighter

Prices continue weak, but not expected to decline much more this year unless large numbers flood the market. Pork fat doesn't carry a premium - worth only 11 cents per pound.

Even so, chances are that the hog market will drop enough between now and the seasonal low (probably somewhere around Thanksgiving) to take away the profit from feeding hogs to heavy weights between now and then. It seldom pays to carry hogs that are ready for market in October to heavier weights. The market price goes down faster than you can gain by putting on more pounds of pork.

To make a profit from holding hogs for heavier weights, the market must be steady or rising. This situation may develop in December, January and early February. But it seldom happens in October and November.

Poultry ...

Egg prices are expected to remain strong, but meat prices may continue to decline.

VOTE

Dairy ...

Prices to rise more than seasonally this fall for fluid milk. Population increasing faster than milk production. Trend is toward more skim milk and margarine.

NOV. 4

Wheat ...

Dry weather is beginning to affect wheat prospects for 1953 seriously. Moisture has been sufficient to sprout wheat in the western sections but not in the southern and eastern.

VOTE STRAIGHT REPUBLICAN!

To win in any kind of contest, the whole team must win. Whenever any member of the opposition goes through our line and scores a touchdown, it counts for their whole team. You can't stop corruption, clean up the "mess" in Washington or get our boys back from Korea by letting the "good" boys on the opposition team win.

Only a complete change in our national administration and a completely Republican State Administration in Nebraska will give us a team that can accomplish the clean-up we need and must have.

Most of the candidates on the political ballot this year are for State and National Offices, and are members of a party team. For a winning organization, it is necessary that all players be united and loyal.

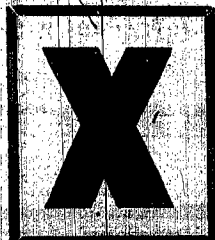

Exercise your right TO VOTE

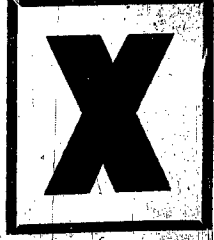

AND ANOTHER THING—YOUR vote is needed! Voters staying at home, or too busy to be bothered, help the opposition. So shut off the tractor, get the boys in the pick-up, and hustle over to the school house and vote.

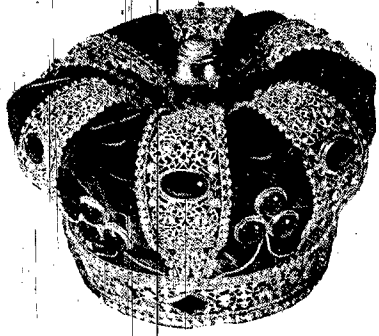

Let's Elect A Straight Republican Team!

Expected to Win

Political experts are agreed that Dwight Griswold, the Republican nominee, will be elected next Tuesday for the short term in the United States senate, to fill the balance of the term of the late Senator Wherry.

Griswold was elected governor in 1940, 1942 and 1944, winning by the largest majorities ever received in Nebraska's history. He was always fair in his approach to public questions and gave Nebraska excellent leadership during the tough war years.

Dwight Griswold's parents were homesteaders in western Nebraska in 1885 and he was reared out in the "short grass" country, having a fine understanding of the state's problems. He is a former State Commander of the American Legion and a former President of the State Press association.
