Proper Timing May

Seve Farmers' Money

Formers may be able to make some important savings on the amount of taxes paid on their 1953 incomes by proper timing of income and deductible expenses, according to Everett 4E. Peterson, extension agricultural economist of the University of Nebraska. This possibility has arisen because of two factors—farm in 1954 than in 1953, and tax rates to down on January 1, 1954. Peterson says this means that, in come and the same of two factors—farm in 1954 than in 1953, and tax rates to down on January 1, 1954. Peterson says this means that, in come whenever possible and legal normal factors of the peter ind to take all possible deductions this year.

Another possible way of reductions and the same of the peter in the same of the same of the peter in the same of the same of

tions this year.

Another possible way of reducing the tax would be to take capital losses in 1935 and defer capital gains until 1954. Of course, this shouldn't be overdone or the farmer may find himself in a higher tax bracket in 1954.

Why the big swing

More than a million buyers decided on Ford this year . . . because Ford's

"worth more when you buy it . . . returns more of its worth when you sell it!"

They like it in traffic!

They're swinging to Ford for good reason. Only Ferd in its field offers you a choice of V-8 or Six, with the smooth, agile performance you need for getting around in today's kind of traffic. You get a choice of three great

matic, the only automatic in Ford's field with an auto matic intermediate gear for extra GO. You get the full visibility you want, too . . . the most in Ford's field.

They like it in the hills!

Both V-8 and Six give you hill-flattening GO on "regular," thanks to the Automatic Power Pilot. And Master-Guide power steering, available on all V-8's, makes turning up to 75% easier yet retains the natural "feel" of steering on the straightaway.

They like it for ride, for room.

and for just plain good looks!

Front end road shock alone is

reduced up to 80%! Ford's wide seats accommodate six, while the trunk is a whole suit-

Despite the advances mankind has ade since Pilgrim times, events from me to time occur that remind us how dendent on God we are, also.

Such an event occurred in Wayne county just a week before Thanksgiving. Abundant rains and snows fell, breaking a drought which had produced some of the bleakest crop prospects in recent years.

Working for

America...

50 million telephones!

Now—50 million telephones serve America. All the rest of the world together has only 39 million.

Your telephone means convenience, safety, and personal satisfaction. It is in the lifeblood of American business, providing the communications channels that move crops and manufactured goods, that make life easier, more meaningful to all of us.

And the telephone industry in America safeguards our national liberties by providing facilities for aircraft warning systems while its research laboratories help in the invention and development of the nation's secret defense weapons.

In Nebraska, there are 425,500 telephones tying together the social and business life of all communities, tying together more closely our rural areas and our towns and cities.

To Nebraska, it means an industry that is one of the state's largest employers, one whose service is vital to the progress and property of every county and cities.

To Nebraska, it means an industry that is one of the state's largest employers, one whose service is vital to the progress and prosperity of every county and city. There are 161 telephone companies serving the communications needs of Nebraska.

It's a particularly American type of industry, that telephone business, owned by Americans, made up of 800,000 telephone people working in their home towns for 5,300 telephone companies, and serving 50,000,000 telephones. It's service is available to just about everyone, everywhere—quickly, easily, and at low cost.

The telephone industry has for 77 years played a big part in America's growth and development. It intends to keep on providing this nation with the best telephone service in the world.

YOUR DREAMS FOR YOUR CHILD—a better life, an education—can you guarantee they will ever become realities? You can, if you start saving today! Not next month, not in a dozen years or so, but now is the time to build for his future. It's easy and it's sure with the Payroll Savings Plan.

Here's why it works: Once you join, your saving is automatically done for you before you even draw your pay. Just think—if you sign up to save \$3.75 a week, in 5 years you'll have \$1,025.95. In 9 years 8 months, \$2,137.30. And in 19 years 8 months you'll have \$5,153.72! So that about the time that baby of today is ready to enroll, you'll have the amount he'll need to see him through.

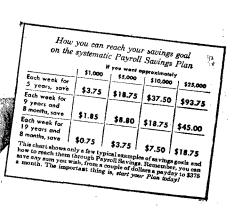

you in lave the amount he is need to see and intrough.

A college education, a home of your own—whatever your objective, it's yours for the asking when you sare systematically. Join the Payroll Savings Plan—or, if you are self-employed, join the Bond-A-Month Plan where you bank.

Your baby's future starts NOW! . . . with

Biggest money's worth in Pickups—FORD!

• Compare the Ford Pickup, point by point, with any other make. You'll discover that every dollar buys a bigger dollar's worth in a Ford! Handles tough jobs, too—the kind you might think only a heavier truck could handle. No wonder Ford Pickup sales are up 115%!

BIG LOADSPACE! Loads easier, faster!

New stronger bolted-construction Pickup box, with 45 cubic fiet of payload space, no wheelhouse obstructions! Stronger, more rigid tailgate resists bending under heavy loads. New exclusive Ford toggle-type latches clamp tailgate shut tight!

For ruggedness, durability!

Only the Ford Rickup gives you a choice of five transmissions! 3 Speed, 3 Speed Heavy Duty. 4 Speed. All Synchro-Silent Allso Fordomatic Drive to save time on stop-and-go jobs—and Overdrive to cut your gas bill!

BIG IN POWER! Only Ford Pickups give choice of V-8 or Six!

Most service-proved V-8 in trucking, Ford's world-famous 106-hp. Truck V-8—or, efficient 101-hp. Cost Clipper Six with Low-Fractron design to cut piston travel 18%, cut friction "power waste," deliver more usable hauling power!

FRUIT CAKE AND HAPPY HOLIDAYS

Good all the year around, it's at the holiday season particularly that the spicy, aromatic fruit-cake—gaily wrapped and beribboned rings and squares and oblongs that sparkle invitingly from every bakery and food store shelf these days—really comes into its own. Black as the devil, heavy as sin, and sweet as young love" is the way an Englishman has described similar ceremonial cakes of his country; solid, romantic, and frequently good, but with quite a different kind of goodness from our own more casual sort which, as gifts, as center-pieces for the holiday decked table, as luxirious eating, have been steadily growing in popularity each year.

Only right and proper that they should, too, says the American Bakers Association, pointing out that over the past twenty years the stepped-up pace of food research in laboratories and testing-ovens has brought about many changes and refinements in the traditional fruit-cake. No longer, for example, are ingredients used in a crude or coarsely ground state, because research developed methods of preservation of both fruit and flavors produced from spices, herbs, and roots.

A wider selection of fruits and nuts has been made available and experimentation with this variety has developed a light and dark type of cake. Candicd fruits and leings are used for decoration and, taken all in all, the long history of the fruit-cake to the present time appears to be only a prelude to its limitless popular future. Good all the year around, it's at the holiday season at the spicy, aromatic fruit-cake—gaily wrapped an

District No. 25
(Marian Dahlman, teacher)
A Halloween party was held for the pupils and mothers Oct. 28.
Wild life scenes from stories in their reading books have been modeled in clay by the fourth graders.

their reading books nave uses interested in clay by the fourth graders.

The first and second graders are making booklets on the care of their pets.

Beginners have enjoyed dramatizing some of the fairty tails, such as "The Three Pigs" and "The Three Billy Goats Gruff".

The room is decorated with papier mache pumpkins and spool turkeys. The art class also made scribble designs.

In social studies class, the beginners have finished a study of the farm and are making a miniature farm, while the third grade is making a miniature town.

District 15
(Mrs. Robert Boeckenhauer, teacher)
In observance of American Education week, open house was held Friday morning, Nov. 13. Guests were Mrs. Herman Fruoss, Mrs. Herman Geewe, Mrs. Hattie Westeen, Mrs. Eimer Echtenkamp, Mrs. Richard Baier and Mrs. Orville Nelson and Sherry. Birthday treats were brought by Verna Mae Geewe on her eleventh birthday, Nov. 4 and by Larry Echtenkamp on his sixth birthday, Nov. 11.

Beefcake with Rumalife... Feeds "Bugs" That Feed Cattle

New Feed Discovery Unlacks Hidden Nutrition in Roughage THE SECRET OF

This new plan for cattle feeding helps turn low-grade roughage and home grown feed into efficient, highly nutritious feed. Nutrena Beefcake with Rumalife balances "rough feeds," stimulates rumen action and feeds the important "bugs" that feed your cattle. When roughage is balanced with Nutrena Beefcake, gains are fast and cheap. Order your first Nutrena Beefcake now, you'll never go back to old, expensive feeding methods.

Rumalife

Nutrena's new discovery Rumalife actually feeds helpful bacteria in the rumen and helps them to grow and multiply. These "bugs" are an important source of nutrition to cattle and are vital to fast, low-
