# ASSESSOR'S NOTICE

Wayne County Assessment Begins

# MARCH 10

All Personal Property Owners and Those 21 to 50 Subject to Old Age Assistance or Poll Tax Are Required to File!

Nebraska Revenue Laws:

77-409

County assessor shall examine and check, all returns of personal property for taxation. He shall have the power to examine under oath the person making the return to determine that all personal property of the taxpayer is listed for taxation at its actual value.

77-1229

Every person owning personal property is required to make out and verify a statement of all such property, which shall be delivered by the person to the county assessor on or before April 20.

77-1235

Where any person fails, neglects, or refuses to make out and deliver the statement required, the county assessor shall evaluate the article of property belonging to that person and shall add fifty per cent to

# An Assessor Will Call At Your Home To Prepare Your Return!

An assistant Assessor will call on each inceive a work sheet.

Will you please cooperate with whomever dividual taxpayer in the rural and residential calls to assist you in making out your personal districts in Wayne County, so you will not re- property tax schedule. Thank you for your

cial Newspaper of the City of Wayne, the Count of Wayne and the State of Nebraska

on lands donated for the purpose.

Whats the value of an experimental farm? It wides information that the farmer can get from other source, unless he wishes to conduct these retiments with his own land and crops. Someties the experiments prove costly and of no value. sometimes they pay off.

The experiments are performed under conditions similar to those on the individual's farm.

Here are a \*\*tew of the questions the experi-

6. What is the influence of different grazing-angement practices on beef-cattle gains on sture?

7. How may roughages be harvested, stored used most advantageously?

8. What feeding and management practices will provide for the most advantageous use of toughages, pastures and grain by beef cattle?

9. How can weeds be controlled most effecting. Mrs. F. A. Mudner

9. How can weens be committely?
10. How can plant diseases and insect pests he best controlled?

I serve.

Experimental stations have proven so populin our neighboring state of lowa that they we operate II installations. Best known in this ea is the Castana experimental farm in western to be aluable guides to farming and livestock feeding

whether Northeast Nebrasko has such a form will depend on the response of individuals to the distribution campaign. For most efficient operation the group feels the form should be at least 320 acres. All of of \$25 shares will be needed to make such a purchase. . . but one experiment can pay dividends worth much more.

# Way Back

Feb. 28, 1935; Mrs. F. O. Hamur, Wayne county over 55 years, will be 5 this Thursday... GOLDEN WEDDING HELD, Mr. and Mrs. George Hofeldt on One Farm Half Centuly... BILL TO 41D FARMERS, Congressman S Farmers Be Allowed To Pay in Grair checker contest Wednesday evening las Meister's team won from Zimmerman's

nos similar to those on the individual's farm.

Here are a "few of the questions the experiented station will be able to answer:

1. What are the effects of terracing, conjunctions of the conservation practices on water mosts, so illustrations of the conjunction of the conjunction of the conjunction over a period of years?

4. What grasses, legimes and combinations are best results on different soils?

5. What varieties of crops are best adapted different conditions in Northeast Nebraska?

6. What is the influence of different against the influence of different against

## In Bookland

City Librarian

10. How can put the best controlled?

Such a farm should be centrally located in the area it is to serve, be accessible and have soils and topggraphy representative of the counties it will serve.

IT HAS LONG BEEN AN ACCEPTED FACT that the library is a potential dating bureau for teen agers but last week we were brought up should wonder how early the younger generation starts. The last soil of the story hour. Now we wonder how early the younger generation starts.

## CAPITOL NEWS

Nebraska Press Association Statehouse Correspondent

Lincoln—First signs that a prosessive bloc may be emerging in a Legislature were to be seen sweek.

The railroad lobby has operat smoothly and so quietly that moutsiders don't know it exists. When the taxtion of rails and of motor vehicles. Igning it were Senators Mon-Bixler, Harrison William Metz-Cedar Creek, Joseph Martin, not Island, and Donald McGin-Ogallata. It was behind the railroad body prohably the common of these senators have some more and more consequent that the railroad lobby prohably the control of the country railroads and pushed. But this anonymity broke down somewhat in the splicing lobbics, which have been widely prohably the probably the control of the country railroads and the pushed. But this anonymity broke down somewhat in the special session of the Legislature last April, where certain constitutional tax reform and lover, the country railroads.

SINCE SHELDON WROTE HIS HISTORY OF Nebraskia we haven't had a new book along this line. Now James C. Olson of the State Historical society has written his "History of Nebraska." It was published by the University of Nebraska." It

WICHITA (Special)—J. Wayne
Geen, Director of Rogers, Inc., Ildir and Sealp Specialists, on state that any person rusts by solid because baldness exists in the family, What it does say is find the Cur yind an exclusive interview. The individual microscopy of the family, what it does say is find the Cur words and sealp treatment for the hair and scalp treatment lean prevent baldiness on turn coloriess fuzz, and sealp treatment lean prevent baldiness can turn coloriess fuzz and scalp treatment for the hair and scalp treatment for the hair and scalp will be idemonstrated in Wayne, Nebraska
This revolutionary method of home treatment for the hair and onto the fact of the scale of the sca

day ONLY. There is no cost or obligation, and you need no appointment.

Reason For Baldness

There is always a reason for baldness, continued this nationally known authority. 'Hair cannot grow through a scalp that is infected with dandruff, excessive oillness, or extreme dryness. A scalp that has never been expected to produce healthy hair.' Men, and yes, women too, walk the firects to day, completely devoid of nature's greatest onnament—hair. Simply because they were growing up. 'The simple answer,' emphasized this expert, 'is that children should be taught the same simple basic rules of hair and scalp has ized this expert, 'is that children should be taught the same simple basic rules of hair and scalp hygiene while they were growing up. 'The simple answer,' emphasized this expert, 'is that children should be taught the same simple basic rules of hair and scalp hair this were the case, baldness would be a rarity today!'

Horedity, Not Involved

Trichologist Green dodged no issues, He quickly took up the most widely spread theory of paldness—heredity. 'Men, kinds' un-realistic belief that baldness is hereditary' or obligated in any way.

I ground the common be elegted. We struct to the common and the hair and scalp hygiene while they were growing up. 'The simple answer,' emphasized this expert, 'is that children should be taught the same simple basic rules of hair and scalp hygiene while they were growing at the latter's home. Mrs. Clair Theophilus and sary defined with reductive who envired the common drive and Mrs. Clair Clair Theophilus and sary defined with reductive from the defined.'

There will be Holsteins, Swiss and Guernseys from the best herds and artificial breeding. They have been ripised on calf ration and require no milk. They are beautiful calves—you will like

HARRY M. GROSS-owner

## WE HAVE THE ANSWERS TO YOUR QUESTIONS ON Stilbestrol!

Q. What is stillbestrol?
A. It is a synthetic hormone which has been made commercially for years and used in human and veterinary medicine.

Why feed stilbestrol to cottle?
When properly mixed at the right level in a well-balanced supplement, stilbestrol will produce amazing gains...and on less feed.

A. At the Purina Research Farm an average of test results with stilbestrol shows. 17.2% faster growth and a saving in feed of 9.4% against check lots getting

no stildestrol.

Q. Why is Purina's Micro-Mixing important to the cardle feeder?

A. Micro-Mixing assures the feeder that every bite is mixed just right. Every steer gets his share so he can make maximum daily gains—you market an even bunch of cattle.

Q. What basic rations show response when fed with a supplement containing stilbestroi?

bestroi?
Well-balanced supplements fed with
either high-grain or high-roughage rations show good response. Remember
there's a Purina Steer Fatena to fed
with both good-quality and poor-quality

roughage.

Q. If my cottle are now on a supplement without stillestrol will they go off feed if I change to stillestrol feeding?

A. No, Purina Steer Fatena containing stillestrol tends to sharpen the appetite rather than dull it.

rather than dull it.

Q. How does time on feed effect results when stilbestrol' is fed?

A naimals respond to the istimulant very quickly. Work at Jowa State College shows response is maintained over long feeding periods as well as shorter ones.

Q. How does Purino's work compare to other research done with stilbestrol?

A Average of tests at Jowa State College showed fattening rations with stilbestrol increased gain by 19% and cut feed costs by 11%.

Q. Should cattle be taken off supplement

by 11%.

Q. Should callle be taken off supplement with stillbestrol for a certain length of time before slaughter?

A. Yes. The FDA has ruled that cattle be taken off their stillbestrol ration 48 hours before slaughter. Cattle should be put on a comparable ration without stillbestrol at this point.

Q. What effect does stillbestrol fed in the supplement have on cartass quality?
A. Research work to date shows no effects on carcass quality.

ing stock?
Possible breeding trouble is the main objection.

A. Too little of this growth stimulant work produce maximum gairs...too much might be toxic, producing adverse health condition.

Q. What about hag follow-fed stilbestrol?

A. More than a year. Purina now has mo cattle on feed than ever before as search for even more efficient beef-pu ducing rations. Q. Can I use stilbestrol in a Check-R-Mix ration? A. Yes. See your Purina Check-R-Mix

THERE'S A STEER FATENA FOR EVERY NEED SEE US BEFORE YOU ORDER CATTLE FEED WITH STILBESTROL

Wayne Grain & Feed

Your Store with the Checkerboard Sign

To what class cattle are Purina Steer Fatena and Beef Chow with stillbestrol recommended at the present time?

These products are recommended for slaughter cattle, and are not recommended for club calf feeding because of the refined characteristics desired in the show ring.

Can stilbestrol be fed to sheep?

The FDA has not approved its use for lamb fattening However, there is work being done along these lines at various agricultural colleges and at the Purina Research Farm.

A. Evidently not harmful to market hogs, but not a recommended practice at the present time where brood sows and gills follow cattle.

A. We can speak only for the Ralston
Purina Company. Purina is furnishing
the stilbestrol in Steer Fatena and Beef
Chow at cost.
