

Store Front
A Wayne business got its face bashed in Saturday morning when a car jumped the curb in front of Fanske's Jewelry and crashed into the store front. The car, driven by Mrs. Ivi Nelson, Pilger, broke plate glass and pushed the store front back about two feet. No one was injured. Fanske was not in the store at the time. Fanske said an estimate of damage is not yet complete. —Herald Staff Photo

Main Street Parking, Armory Site Discussed by Councilmen

Pool Income Tops \$6,450

Discussion of possible sites for a new National Guard armory and methods of solution of Wayne's parking problems were the main order of business for the city council Tuesday night.

Mayor Glen Houdersfield told Guard Commander Kenneth Whorlow that the city will offer several possible armory sites for inspection within the next week. The final site selected must receive approval from the Adjutant General's office.

Whorlow told the council two weeks ago of the approval of Wayne for a new armory. Cost of the building will probably be about \$150,000. However, the city must first acquire a site containing about 90,000 square feet.

Several suggestions for sites are already being considered. Adam McPherson has offered to sell the city the southeast portion of his new addition. This would place the site on Ninth street, north of the French Penn property, which was also suggested as a possibility.

Other proposals included: William Wheeler's near Roosevelt park; Clifford Johnson tract near the fairgrounds; Elmer Harrison acreage on East Seventh.

Acquisition of the site can be made by the council through straight purchase or condemnation. Cost would be paid by issuing eminent domain warrants and levying a tax for five years to pay off the warrants.

Parallel parking on Main street may be instituted on a trial basis in the near future. The council discussed the move at considerable length and decided to feel out public sentiment on the arrangement.

Such a switch was made this week on Pearl street between Third and Fourth to reduce a traffic hazard near the hospital. Construction of diagonal parking strips on Third street from Pearl west to the alley is planned this fall to create additional parking facilities.

Councilman William Pribl proposed installation of parking meters on the new strips around the city hall. He said this would offer easier parking for shoppers who wished to make faster buying trips at local stores.

Pool Report
The council also heard a financial report on operation of the swimming pool this summer. City Clerk Walter Bressler said receipts totaled about \$6,450, an average of slightly over \$100 per day. Expenses, some of which were for permanent improvements, ran to about \$4,500. This figure does not include electricity and water.

Two building permits were issued. One for a 23x40 addition to clothing store at 218 Main. Estimated cost was \$2,500. Mgr. Leonard Lessman, 19x40 residence at 1204 Douglas. Estimated cost was \$5,000. Lessman was also granted a permit for a 20x40 shop and garage on the rear of the same lot at an estimated cost of \$4,000.

Permit to build a Ground Observer Corps tower on the city lot west of the water standpipe was granted Marvin Wehlich. This would be an 8x8 observation post on 30-foot poles. The local unit is now operating at the airport but finds it inconvenient for manning the post 24 hours daily.

About 60 attended, electing Mrs. Joe Corbit, vice president, and Mrs. Howard Witt, secretary-treasurer. Mrs. Wilmer Marra and Mrs. Al Kern are new directors. Mrs. Norris Weible and Mrs. Louis Lutt are holdovers.
 New officers and Past President Mrs. Charles Sieckman, met Wednesday to set up this year's work and program. Outgoing directors are Mrs. Orval Hickerson and Mrs. Walter Woods.
 Personalized souvenir plates with picture of Wayne High school and history were presented to Mrs. E. G. Smith. Earl Green had John Carlson. Plates have been ordered to sell and raise money for which a fund has not been named.
 The band received \$100 from the Wayne County fair and \$150 from the State fair. Mr. Carlson stated that if the choir was as good as last year the group has been invited to sing at Joselyn Memorial in the spring.
 A committee was named to investigate possibilities of attending Grand Island Harmony of Music program this fall.

No Easy Decision

Though the Highway 35 battle isn't a complete victory yet, Gov. Victor Anderson improved the picture immensely last week when he gave orders to go ahead with relocation.

Gov. Anderson's actions are noteworthy. It's too bad, however, that he hedged on the decision long enough to prevent start of construction this year.

Acting under both new and already existing laws, he carried out a plan that will affect the state's road system for many years—that of keeping a network of highways to serve the traveling public.

It was not an easy decision to make. No matter which way he moved, he was certain to make someone unhappy. That, however, is one of the crosses public officials have to bear.

Had he allowed the protest on relocation, every relocation project in the state would be in jeopardy and work could be held up indefinitely or never accomplished.

Another person deserves much credit for the relocation approval. He is Senator L. M. Schultz Rogers. He led the fight for relocation in the legislature and was present at many of the important meetings to speak out for relocation. Without his help it looks fairly certain that the relocation of Highway 35 would still be in question.

Way Back When...

30 Years Ago

Sept. 10, 1925: The fear that we would again find a place in school geographies as a part of the Great American Desert and have no further use for umbrellas or rubber coats was dispelled Monday

when a great flood of moisture spread over Northeast Nebraska. To have served all the 25 years of his ministry in one congregation and to have been the only pastor of a church since it was built is the record of Rev. H. L. Barneman of south of Wakefield. Carpenters last week finished putting up the forms under the second floor of the new training school building at the WSTC, and masons started work Monday on the brick work of the second floor wall.

25 Years Ago

Sept. 11, 1930: Magnesium has been discovered on land near Oacoma, S. D. across the river from Chamberlain, twelve miles from a quarter section owned by A. L. Dragon, of Wayne. Dragons believe that similar deposit of this valuable mineral may be on their property. Livestock fed by James B. Grier, Wayne, topped the Chicago and Sioux City markets this week. Mr. Grier sold four carloads of cattle at Chicago Monday for \$12.60. The animals averaged 1,396 pounds. Golf Prices Reduced to 5c at "Putter Here" Course. Dr. U. C. Condit has purchased a tract of 160 acres north of the college grounds from J. K. Johnson. The grounds will be used as an athletic field for the training school. Consideration was \$350 an acre.

20 Years Ago

Sept. 12, 1935: Mrs. Tom Dunn of Wayne, has just completed making an end table using thread spools and two pieces of wood. The spools are glued together for legs of the stand. WPA applications in Norfolk district comprising 23 counties call for an expenditure of \$3,200,000. Among these is water extension improvement in Wayne for \$2,701,401; fairgrounds improvements at Wayne, totaling \$1,890,000. City council met Tuesday evening at the city hall. A resolution was adopted that the city councilmen file an application for loan and grant for a new 40-bed, fire-proof city hospital through the Public Works Administration, to cost \$60,000. Forty-five percent of the sum proposed is asked through the PWA and the remainder from revenue bonds, out of earnings of the institution. Application has been wired into Washington, D. C.

15 Years Ago

Sept. 12, 1940: Stanley Merchant, son of Mr. and Mrs. Earl Merchant of Wayne, has been chosen chemical engineer in the National Carbon and Carbide company of Charleston, W. Va. Wise voters, at a special election Tuesday, defeated the proposal to secure electric power for the village from the Columbus plant, the same source as for Wayne county rural lines. The vote was 129 against and 64 in favor of the change. Everyone interested in playing in Wayne municipal band is asked to meet at the auditorium next Monday evening at 7:30. At that time the band will have its first rehearsal under Director K. D. Hanson.

10 Years Ago

Sept. 13, 1945: Dr. Gordon W. Shupe, who has been honorably discharged under the point system after serving five years as dentist in the army, two years in the European theatre of operations, will open an office in Wayne in the former Dr. C. T. Ingham rooms at 216 1/2 main. Members of the First National bank staff went to the girl scout cabin Monday evening for a picnic in honor of Mrs. Alden Lewis who is leaving the employ of the bank to be with her husband when he returns from Italy. It has been my observation after traveling about the state of Nebraska that the further drafting of farmers and farm laborers should be immediately terminated. Nebraska Senator Hugh Butler asserted that Miss Paula Herman has accepted a position on the dietetic staff at Iowa State College in Ames. She went to Ames Sunday and began her new duties Monday.

MR. CHAIRMAN, LADIES AND GENTLEMEN

That is a phrase you will be hearing soon now that meetings have started in full swing. Norman Thomas, as well known for his speeches, making a written book about making speeches. "Mr. Chairman, Ladies and Gentlemen" is a book for readers who want to pick up pointers about public speaking for readers who want to increase their critical powers when listening to speeches—it is full of practical pointers for those who are doing so (teaching by lecture), to lawyers (the critical of their courtroom speech), to political campaigners (he's run for many offices), and to Mr. and Mrs. Citizen attending a P. Fertilizer Survives

Fertilizer is one farm investment that can survive any cropping weather or year and come back the next to build high yields and profits says M. D. Weldon, soils specialist at the University of Nebraska.

He points to work done by George E. Smith, University of Missouri agronomist. There, up to 50 bushels of wheat is being harvested on land where corn burned out in a drought last year.

"Even though last year's corn crop was a complete failure on some farms last year, the fertilizer used on it will be paid for by the increase in wheat yields this year," Smith says.

Weldon says fertilizer is definitely not a one-year proposition—its residual value can pay dividends to the farmer for a year or two after the fertilizer is applied.

Help Sell Pork

Bacon is a No. 1 seller—ham is another. Pork chops sell relatively easy in butcher shop. These three items total not much over 50 pounds of dressed pork. We all know that whoever purchases an average hog for slaughter will wind up with better than 150 pounds of salable product. This is not a satisfactory or highly profitable condition.

A few years ago, when beef was lagging over the counter, cattle men, along with practically every livestock organization in the country, combined to make a concerted effort to move beef into food channels. Time has proven that they were successful. The per capita consumption of beef has risen to a place where possibly we should

have it rightfully belongs, but we hate to admit that it has been done at a price which bears no relation to the effort to sell pork. It can be done and will be done, if we all shoulder the responsibility. Radio and television magazine and newspaper advertising is doing the job for soap, cigars, beer, processed food, even manufactured products. Even sawdust can be sold if properly presented to the buying public.

Maintain Legumes

It is possible to maintain alfalfa or other perennial legumes in pastures for an indefinite period of time through good management. The controlling factors are rotation grazing, adequate fertility and avoidance of early or late grazing.

Alfalfa has been maintained in bromegrass for a period of 12 years in the University of Nebraska sheep pastures by dividing the pastures into smaller units and rotating grazing from one unit to another. The length of the grazing period was determined by the time required to graze the pasture to an average height of four inches.

In addition to rotation grazing, a high fertility level was maintained through the combined use of barnyard and commercial fertilizers. Adequate phosphorus levels will favor legumes in the mixture.

Pastures from which grazing animals are removed three weeks to a month before killing, frost and which are not grazed before May 1-17 in the spring will start earlier and will maintain a more desirable stand of legumes than pastures that are grazed from early spring until frost.

Blind School

There were some indications that a fight might come again in the 1957 Legislature over whether the State School for the Blind should be moved away from Nebraska City.

Parents of blind children being schooled there appear to be determined that the institution be moved to some more centrally located place. They feel they were given their point to be taken down. For this reason the State Board of Control has been taking its time about building anything new at the institution.

The issue was one of the most touchy in the recent legislative session. A continued session could bring the same differences on both sides into the open again.

paying time this November. A compilation by the Nebraska Citizens council, a tax research group, shows that the average tax bill will go up 10.4 percent.

County estimates on the average will show the most, about 16 percent. State levies account for about a 16.8 percent increase, the council's estimates showed. School expenses are up on the average 10.5 percent. City governmental units have done the best job of holding down climbing expenses, for an average of four percent.

The Council warned, "In some areas of the state taxes are reaching the point of being onerous."

CAPITOL NEWS

BY MELVIN PAUL
Nebraska Press Association Statehouse Correspondent

Lincoln

Repercussions were still echoing this week from the abrupt firing by the State Board of Control of its employee, George Morris, superintendent of the State Reformatory for Men.

The dismissal came as a climax to weeks of critical statements by Morris—duly printed in the press—blasting the Board, Gov. Victor Anderson and the administration of the State Penitentiary.

The Board gave as its only reason that it considered firing Morris to be "in the best interests of the Nebraska State Reformatory."

But it took no searchlight to figure out that the Board had become fed up with Morris' insubordinate statements. Earlier the Board had been advised to wait until controversy had died down before firing the superintendent.

But Morris made a speech before the Legislature, in which he blasted Gov. Anderson for "setting the stage" for the Aug. 16 arson riot at the State Penitentiary by his act in taking charge during the March 29 hostage rebellion. Morris also said that the Board of Control members "are nice people but they don't know much about institutional operation."

That did it. The Board, which had often been criticized for failing to take decisive action, lowered the boom quickly this time.

Reporter who visited Morris right after the action said he seemed stunned. He frankly said he was "surprised."

Appointed in his place was M. L. Wimberly, who had compiled a good record during the 23 years he worked up the ladder of command at the State Boys Training School, Kearney. Wimberly took immediate charge, including squelching a "protest" riot the first night of his command.

Repercussions were that early indications were that the whole Morris affair might eventually become injected into politics. There was bound to be an effort to include his dismissal in those things that forthcoming Legislature could do to correct grand jury would be probing.

It might well be brought into politics, particularly by those unfriendly to the Republican administration of Gov. Anderson. There was strong evidence that in the new Legislature the Board of Control met behind closed doors to decide the fate of Morris its members decided for themselves. On this occasion apparently they

Norfolk Youth Cops Golf Tourney in Playoff Sunday

Three-Way Tie Forces Extra Holes

Gary Blackman, Norfolk, won the annual youth amateur golf tournament at Wayne Country Club Sunday after showing his brother, Glen, and Bob Harrison a three-hole sudden-death playoff.

The three had tied for the championship at 113, four over par, after seeing his brother fall out on the first extra hole. Blackman missed a short putt on the second which would have won him the match. He then garnered a par 3 on the third hole to take the match as Harrison had a bogey 4.

Harrison missed an opportunity to take the title on the first extra hole when he missed a three-foot putt and settled for a tie. He then took bogeys on the second and third holes with a 36 qualifying round.

A total of 105 golfers participated in the annual event. They competed for 100 prizes for merchandise prizes.

Defending champion Carl Wright, Wayne, missed an opportunity to repeat after trailing the leaders by only one stroke after the first 18 holes. He then five holes to tie the round to finish four strokes off the pace.

Larry Harris, Wayne, finished only a stroke behind the leaders in a round with an one-over-par 37.

First and second place winners in the flight and their scores were:

First: Lyle Solerson, Norfolk, 113; Bob Scoville, Hartington, 117.

Second: Roy Christensen, Wayne, 123; Glen Adams, Norfolk, 126.

Third: B. C. Hegert, Hartington, 124; Perry Ferris, Hartington, 131.

Fourth: Doug Bernard, Hartington, 129; David Graber, Norfolk, 131.

Fifth: A. D. Lewis, Wayne, 131; Keith Schorling, Plainview, 133.

Sixth: Fred Zimmer, Hartington, 141.

Passes, Fumbles Bring 58-7 Loss For Wayne Prep

Wayne Prep succumbed to superior weight and a brilliant passing attack Friday in dropping a 58-7 decision to Rosalie.

The winners scored seven touchdowns on long pass plays and garnered three more on Pilen fumbles.

Wayne's only tally came on a 65-yard run by John Bernthal with Larry Kelley adding the extra point. Don Sherry led the Prep defense.

Prep Coach Frank Williams' blamed the size of the Rosalie squad, vastly outnumbering the Panthers. Wayne was also suffering from the loss of Dave Ratzlaff, starting quarterback who transferred to Wayne High.

Kelley filled in at quarterback but was injured in the early minutes and saw limited action thereafter.

Wildcats Conservative in Scoreless Tie Saturday

Playing conservative football and relying mainly on a ground attack, WSTC's Wildcats battled to a scoreless tie with Augustana Vikings at Memorial stadium Saturday night.

Both teams offered two scoring threats but neither could gain the last vital yards. Wayne's best effort stalled on a Viking 1-yard line late in the first quarter after a 56-yard punt return by Halfback Don Dean. A minute later Wayne again was at the door but was stopped on the 22.

Augustana's threats came in the last half. The Vikings marched 37 yards with a recovered fumble midway in the third period but were stymied when Mike Dahl fumbled on the Wayne 5. Stan Hansen recovered for the Wildcats.

The Vikings tried again as the fourth quarter opened, but Dean Baker's field attempt from the 26-yard line went under the crossbar.

Most of the game statistics favored the Sioux Falls club. Wayne was outscored 9-3 and did not get its initial first down until three minutes were gone in the final quarter.

Defensively Wayne rose to the occasion several times. Missing the statistics:

Blue Devils Eke Out Victory Over Allen In Opener Friday

Locals Stop Four Eagle TD Threats

Showing little in the way of an offensive effort, Wayne High's Blue Devils eked out a narrow victory over Allen's Eagles Friday night at WSTC's Memorial stadium.

Their strong defensive stands, Wayne's only significant participation all night, prevented Allen from tying the score in the second half. The Eagles controlled the ball throughout most of the second half and were constantly threatening to knot the count.

Wayne scored midway in the first quarter, having a 43-yard march. Bob Schwartzbach went into the end zone from five yards out to climax the drive. Biggest play of the series was a pass from Don Wrightman to Larry Hofelid good for 24 yards. Wayne had started the drive after recovering an Allen fumble.

Wayne mustered another offensive threat late in the first half but the attack fizzled out when two passes fell incomplete.

Early in the third period Wayne

again got to the Allen 22 but a fumble prevented any score. Allen found itself in a bind when the Blue Devils in constant trouble.

The Eagles rolled off five first downs and moved to the Wayne 7-yard line. Les Pederson moved the ball to the three, but Larry Sheppard showed a great defensive spurt by racking ball carriers for 22 yards in losses on the next three plays.

Wayne had the ball only for seconds. Hofelid fumbled on the next play and the Eagles again threatened. Wrightman's interception of a pass by Larry Good halted the threat.

A 45-yard pass, good to Pederson brought the next Eagle threat late in the final quarter. Good defensive work by Sheppard again saved the victory as Allen moved to the Wayne 8-yard line.

Definite need for defensive work was shown by the Blue Devils. They were constantly outcharged by the Eagles forward wall. Allen found the quarterback keeper play very effective in the opening periods as the Wayne line failed to meet the attack.

Another weakness for Wayne was the lack of a sufficient passing threat. The Blue Devils completed two of eight passes for 28 yards but failed to spread out the

Eagle offense enough for big gains.

Improper use of the backs was another mistake shown by Wayne. Big Hofelid was used mainly to skirt the ends while Schwartzbach was employed as a line cracker.

Hofelid, used only seven times as a ball carrier, got five yards each try into the line but was held to 11 yards on four carries around the ends. Schwartzbach reeled off two nice gains around end but his rushing average suffered when he couldn't bull his way through the Eagle line.

There were one or two bright spots in the Blue Devil performance. Bob Vogel threw one beautiful block to spring Glenn Houbert on a punt return.

Defensive work by Sheppard and Bob Long was also noteworthy. Terry Wilcox showed considerable bravery in defense after being shifted to linebacker.

Quarterback Don Wrightman was effective on the keeper plays around end but lacked protection enough to aid his passing attempts. Chuck Mellor got several nice tackles and succeeded in turning Allen ball carriers.

Statistics show the two teams were almost equal. Wayne dominated first half play but had to rely on every bit of luck in the last two periods. Wayne held a 106-33 yard margin in the first half but was outgained 89-32 in the final two quarters.

The statistics:

Wisner Trounces Pilger In Friday Tilt 34-6

Wisner's Bulldogs opened their grid season Friday night with an easy 34-6 victory over Pilger.

Paced by Tom Hoels, who scored two touchdowns, Wisner rolled to a 13-0 halftime lead and increased it to 27-6 after three periods.

Schulz also scored two tallies for the winners. D. Hoels and Barelman were outstanding on defense for Wisner.

Oakland Romps to Easy Win Over Valley, 26-0

Oakland's Vikings continued their winning ways Friday night with a 26-0 victory over Valley.

The Vikings took the game's opening kickoff and marched 70 yards through rain to score. Lonnie Johnson, Bruce Carlson and Nile Johnson scored 13, 7 and 6 points respectively.

Long Runs Provide Plainview Victory

Three long touchdown runs provided Plainview with a 25-0 victory over O'Neill Friday night. The tallies came on two 80-yard and one 60-yard runs.

Ed Prange scored twice while C. T. Hunkleson and Jerry Loney added one each.

Battle Creek Blanks Wakefield 24-0 Friday

Battle Creek scored a touchdown after two minutes of play Friday night and rolled to a 21-0 victory over Wakefield's Trojans.

The winner's opening touchdown followed a Wakefield fumble. Wakefield moved within Battle Creek's 20 three times but failed to score on any of them.

Announcing a New Service for Our Borrowers

Leading banks throughout the country are offering to the members of their communities a plan of 'loan cancellation' which cancels a borrower's debt in event of his death.

We are happy to announce that we have made arrangements to offer this protection to our borrowers. Because the law permits a bank to subscribe to a 'group plan' we are able to offer this service at an extremely low rate. To illustrate the low cost, protecting a \$2,000 loan is no more expensive than subscribing to a daily newspaper.

On loans made on or after September 15, 1955, any qualified borrower who is not more than 65 years of age will be entitled to take advantage of this protection at a cost of only 7 1/2c per month for each \$100 of indebtedness. The maximum protection per person is \$5,000.

This new feature is not compulsory. We offer it to you as another service of this bank. However, in view of the wonderful protection it provides for the families of our borrowers we sincerely recommend that each of our borrowers take full advantage of it.

AMERICAN REPUBLIC

Plans of Protection

Hospital : Medical : Surgical : Nursing

All residents of Wayne and Wayne County who qualify will have the opportunity to have the American Republic Plans of Protection. These famous Plans now protect many thousands of individuals and families against expensive hospital, surgical, nursing and doctor bills for either sickness or accidents. The program to explain this protection to all residents of the county is now beginning and it will continue until all residents of the county have been contacted and the American Plans of Protection are explained to them.

TWO GREAT AMERICAN REPUBLIC PLANS

PLAN "A"

- * HOSPITAL
- * SURGERY
- * NURSING

This is the tremendously popular Hospital, Surgical, and Nursing Plan. It now protects thousands and thousands of individuals and families. If you and your family are not protected under this plan you may learn how it may be available to you if you qualify.

PLAN "B"

- * MEDICAL
- * SURGICAL
- * NURSING

This is the Plan that pays toward Doctor Bills in the home, at the doctor's office, a clinic, or a hospital—in fact anywhere. It covers sickness, accident and delivery charges for childbirth. The benefits for doctor's bills, operations and nursing, will give added protection to the American Republic Hospital, Surgical and Nursing Plans or to any other plan of protection.

County - Wide Program

WE ARE PLEDGED TO INTERVIEW ALL COUNTY RESIDENTS! THE AMERICAN REPUBLIC PLANS OF PROTECTION WILL BE EXPLAINED TO INDIVIDUALS AND FAMILIES.

During the time necessary to contact all county residents, representatives will be interviewing individuals and families. The American Republic Plans of Protection will be explained by fully qualified, specially trained representatives. They are pledged to contact all residents and make the plans available to all who qualify.

A FEW MINUTES TIME IS ALL THAT IS NEEDED

Just a few minutes of your time is needed for you to receive a full explanation of the Plans. The representative who calls on you will arrange a time that is convenient for you to receive full information.

INCOME PROTECTION

Ask the representative who calls on you about the American Republic Protector Plans that give you a monthly pay check when you are sick or injured.

YOU WILL BE CONTACTED

WATCH FOR THE MAN WITH THE CARD!
This card identifies an authorized representative. He alone is qualified to explain the Plan.

Here Are A Few Reasons Why It Is Important For You To Hear a Full Explanation Of The American Republic Plans:

- * THEY ARE A SAFEGUARD AGAINST GOVERNMENT CONTROL OF HOSPITALS AND DOCTORS. Socialized medicine is unnecessary for you and your family if you are protected under American Republic Plans.
- * HOSPITAL AND MEDICAL CARE HAS BECOME TREMENDOUSLY EXPENSIVE. If you or a member of your family has been recently hospitalized and has had expensive medical or surgical care you know the importance of an American Republic Plan to prepay the cost of this necessary but expensive care.
- * ONE PERSON OUT OF EVERY TWO FAMILIES WILL BE A HOSPITAL PATIENT THIS YEAR. The Advanced medical techniques and the ultra-modern hospital facilities are being used now more than ever to safeguard health and prolong life. If you or a member of your family takes sick or meets with an accident, you too, may become a hospital patient. And 6 out of every 10 hospitals require expensive surgical operations.
- * YOU MAY PREPAY EXPENSIVE HOSPITAL, SURGICAL, MEDICAL AND NURSING AT LOW COST: American Republic Plans are low in cost. You will be surprised at the small monthly deposits to keep them in force to protect you and your family.

If You Already Have A Plan, Have You Enough Protection ?

You possibly now have an American Republic Hospital and Surgical Plan, or you may have some other Plan, or be protected through your employment in a Group plan of some kind. GET A MEDICAL PLAN TOO!
REMEMBER—American Republic pays benefits direct to you, or to the hospital or doctor as you direct. Benefits are NEVER prorated or reduced on account of any other protection you may have or any payments you receive from any other source. A low cost American Republic Plan will give you the protection you need.

ASTONISHING PERFORMANCE!

And that's only half the Chevrolet story

Great Features back up Chevrolet Performance: Anti-Disc Braking—Ball-Race Steering—Out-rigger Rear Springs—Body by Fisher—2-Volt Electrical System—Nine Engine-Drive Choices.

A lightning-quick power punch that makes your driving safer!

That's one of the reasons for Chevrolet's winning stock car record—but it's not the only one. Not by a long shot!

The sizzling acceleration of Chevrolet's new "Turbo-Fire V8" is half the story; but it takes a lot more besides. Cornering and handling qualities really count on the NASCAR* Short Track circuit where Chevrolet's king—just as they count for safer and more pleasant highway driving. And even the high-priced cars don't slice through a tight turn as neatly—or handle as sweetly—as this beauty. The record proves it! Come on in and sample all the things that give Chevrolet its winning ways. We're keeping a key ready for you!

Stenciled Designs, Pine Paneling Are Wall Feature of Carl Nelson Home

Large Rooms Give Added Living Ease

One of the first highlights seen by an observer in the new Carl Nelson home at 418 West Eleventh is the use of stenciled painted walls.

Walls of the entrance hall, living-dining room and hallway are light gray with a white stencil design painted over the gray. Stencil designs were also used on walls in the master and guest bedrooms and walls and ceiling of the bathroom.

Entrance hall is furnished with a desk, bookcase and clothes closet. It is often used for a study room. Cinnamon carpeting was used here and in the living-dining room and hallway.

The combined living-dining room measures 15x30. Figured drapes run from wall to wall on picture windows at the north and south ends of the room. Cornice boards are covered with the same fabric. Davenport is light green. Two occasional chairs are red.

An artificial fireplace with a mirror built in above is on the west wall. The cherry dining suite has lime green upholstery on the chairs.

Woodwork throughout the house is natural finished birch. Floors are oak. The hallway leads to the two bedrooms, bath and a cedar-lined closet for storage. A linen closet is situated at the end of the hall between the two bedrooms.

Guest bedroom is 12x14. Three walls are painted blue with the fourth blue and white stripes. A stencil design was painted in blue on the white stripes. Red drapes were used on the southwest corner windows. Furniture is bleached mahogany. The two-panel sliding door closet is equipped with lighting that switches on as the door is opened.

Bleached mahogany furniture was also used in the 12x11 master bedroom. A color scheme similar to the other bedroom was used here, except rose was substituted for blue. Chaise longue drapes over the northwest corner windows. A three-panel closet extends the entire length of the east wall.

Both bedrooms have throw rugs and bedspreads to match drapes.

A multi-color stencil design was used on the off-white upper walls and ceiling of the 6x13 bathroom. Lower walls are covered with rose tile with burgundy feature and cap. Fixtures are white with chrome accessories.

The lavatory is set in a vanity with grey Formica top. Inlaid linoleum on the floor is multi-colored. A three-foot wall extends to the ceiling between vanity and bathtub. Glass brick was used on the upper half of this wall to provide adequate light. Tile was used on the lower half. The room also contains a closet for storage of bath linen.

Grey and rose inlaid linoleum was used in the 19x10 kitchen. Upper walls are Nile green, lower are grey tile with maroon trim. Mrs. Nelson has her stove, sink, automatic dishwasher and work counters on the north wall.

Added work space and the refrigerator are on the south wall. A grey and white diquette set is at the east end of the kitchen between corner windows. Drapes are figured. Counter tops are deep pink.

A door on the south wall leads to a small hallway to the outside, garage and basement.

Upper half of garage walls are knotty pine. Lower half is Celotex. Bamboo curtains are painted green.

Basement steps are covered with the same kitchen linoleum. Walls of the stairway are yellow. The large basement utility room is where Mrs. Nelson spends a great deal of her time. Here she washes, sews, irons and has storage space in her freezer and fruit room. Floors are painted green. North and east walls are varnished brick. Others are like those in the garage. The furnace and water heater are also situated in this room.

The recreation room, measuring 38x15, has red, black and cream floor tile. Three walls are varnished brick with the fourth a match to those in the garage. Nelsons used this room as a dining room in hot summer weather.

Basement hallway and bedroom have tile floors. The bathroom has green upper walls with maroon tile on the lower half. The bedroom has two knotty pine and Celotex walls and two of varnished brick. A moveable humidifier provides sleeping and working comfort in the basement. Steam heating is used in the home.

Measurements of the house are 32x82. The lot is 75x125. Exterior of the home is white with green trim and roof. The roof overhangs 2 1/2 feet on each side.

Rose bushes have been planted along the front of the house. There are also three evergreens in the front yard. Two spruce and a weeping willow tree stand on the west side. A hedge, though not fully grown, closes in the back yard.

Mr. and Mrs. Nelson moved into their home three years ago. They have eight children, all married.

Do-It-Yourselfers Can Hang Own Wallpaper with New Ideas

Step 1: Cut strips, 16 inches longer than height of wall. Unroll one strip at a time and brush on paste. Lift up both ends and fold over to center of strip. Now wallpaper is ready to hang.

Step 2: Catch top half of paper so that lower half will free itself when fit top and side to wall. Smooth out air pockets. Unfold lower half and repeat.

Step 3: Smooth out seams with roller of sponge and remove all paste before it dries. Then trim overhanging paper at top and baseboard with a disc cutter or razor blade.

before the paper is to be applied. If your walls are already papered, you can go right on applying the new wallpaper. For old plaster and painted walls, you had best first repair cracks with patching plaster.

Once walls are smoothed out, apply a good glue sizing to all walls except those already papered.

In older homes, walls may stand slightly crooked. Just to make sure to get your paper on straight, drop plumb line from ceiling to floor and mark line with chalk. Then cut strips of wallpaper and cut paper the height of your walls plus an extra 16" to spare.

Now comes the pasting. If you are right-handed, have top of

Fuel Savings Can Pay Total Cost Of Insulation

Insulation plays the dual role of making the home cooler in summer (by keeping the heat OUT) and warmer in winter (by keeping the heat IN).

Actually, insulation is a self-liquidating home improvement as it can pay for itself in fuel savings in a relatively short time. Fuel consumption may be reduced from 20 to 40 percent depending on the type and amount of insulation used.

Usually a home owner can do his own attic insulation, either by stapling blanket insulation between the roof rafters or by spreading bulk insulating material between the attic floor joists.

House walls cannot properly be insulated from the outside by amateurs. The job calls for a thorough knowledge of house construction as well as professional skill and equipment.

Insulating materials are made of mineral wool, rock, glass or slag, paper pulp, gypsum, asbestos, cork, aluminum foils, vermiculite, cotton and other vegetable and mineral matter.

There are four basic forms of insulation material, as follows:

Flexible insulation takes the form of "blankets" enclosed in heavy paper covering. It comes in long rolls, "batts" and pre-cut sections, all of such size as to fit in hollow spaces between studs, rafters and joists in walls or under the roof.

Flit-type insulation comes in bales or bags. It is loose material which can be poured into place. It can be either dumped between floor joists in the attic, put into small spaces by hand or blown into walls or ceilings.

Insulating boards, rigid or semi-rigid, may be used as a base for plaster or can become the decorative finish themselves. They are especially popular for finishing off an attic or basement.

Reflective materials, such as aluminum foils bonded to tough building paper, insulated by turning back heat in much the same manner as a mirror reflects light.

New Counter Top Assembly Helps Modernization

Installation of a new kitchen sink counter top that provides work surface and backsplash in a single water tight unit, is now made easy for "do-it-yourself" craftsman who is bent on doing something nice for mother.

Only a minimum of tools and effort are required to assemble and set the unit into place. The result can be not only a work saver, but a big lift for the appearance of the kitchen sink area.

Construction is of 1 1/16th inch stain resisting plastic, bonded to a 3/4 inch plywood core.

Work surface and backsplash are joined in a sweeping curve to eliminate any dirt catching seam. The assembly has a deck width of 26 inches and comes in three different lengths.

There are also three different patterns to choose from.

Install Own Door Mirror

Full-length door mirrors have achieved a definite place and function, both utilitarian and decorative, which has created a greater demand for them than ever before in the average home.

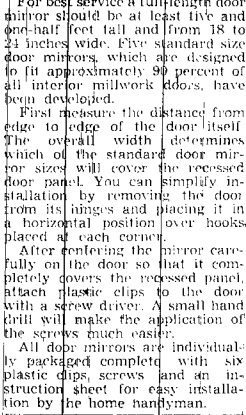

In the few minutes it takes to install a door mirror, economy-minded homeowners can realize a savings in their budget. Also, the dividends a good full-length mirror pays in good grooming for the family, as well as in home decor, far exceed the modest initial cost.

For best service a full-length door mirror should be at least five and one-half feet tall and from 18 to 24 inches wide. Five standard size door mirrors, which are designed to fit approximately 99 percent of all interior millwork doors, have been developed.

First measure the distance from edge to edge of the door itself. The overall width determines which of the standard door mirror sizes will cover the recessed door panel. You can simplify installation by removing the door from its hinges and placing it in a horizontal position over hooks placed at each corner.

After centering the mirror carefully on the door so that it completely covers the recessed panel, attach plastic clips to the door with a screw driver. A small hand drill will make the application of the screws much easier.

All door mirrors are individually packaged complete with six plastic clips, screws and an instruction sheet for easy installation by the home handyman.

HERE'S HOW... MAKE A TOOL CABINET

A tool cabinet keeps tools neat and clean and safe from children.

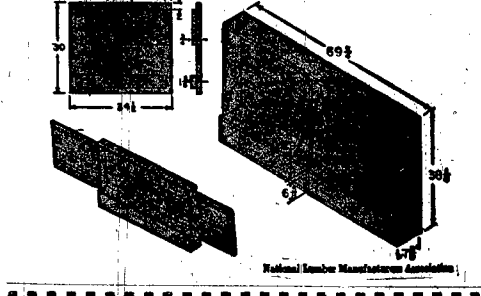

The cabinet is made of 3/4 inch finished lumber, and is assembled with No. 6 wood screws, 1 1/2 inches long, countersunk.

Each door is made of three pieces of lumber 1 1/2 inches wide, cleated together at the bottom with a piece of 2 by 4, and at the top with an 1 1/2 inch board. The 2 by 4, with holes bored in its upper edge,

serves also as a rack for bits, punches, etc.

The doors are hung on 2-inch hinges, recessed in both the doors and the cabinet ends to the thickness of one hinge leaf.

The cabinet is fastened to the wall with 3-inch lag screws, 3/4-inch in diameter. For a brick, concrete or cinder block wall, drill holes 2 inches deep, and 3/4 inch in diameter and insert expansion shields for the lag screws.
