Wildcats' Title

Over Weekend

Hopes Squelched

Wayne State's Wildcats had their conference title aspirations squelched over the weekend as they dropped two decisions to unbeaten Chadron 83-78 and 74-73.

Wayne now has a 2-4 mark in the league, Chadron paces the field with six straight wins. Hastings is close behind with a 5-0 record.

Wayne pulled close in the final half Friday night but couldn't overcome the lead built to by Larry Lytle and Jim Hampson. Dob Tushia paced Wayne with 15 points white Larry Buhl and Erik Radke added 16 each. 13 the and Hampton hit 19 spiece.

"The best ball we've played

a 53-52 victory over Wayne Propa a 53-52 victory over Wausa's Vikings.

Berres stole the ball and was fouled while driving in for a shot. The basket counted to tie the count at 52-all.

The victory moved Prop into second place in the Corntassel conference standings. Crofton still leads the pack with a 5-0 mark. It was the first loss of the season for Wausa.

Prop was forced to stage a final quarter comeback after trailing 41-32 after three periods. Berres and Roger Anderson started to two points with 35 seconds remaining to set the stage for Berres ball theft.

Berres thad, his second straight big scoriffs might. He totalled 32 points on 13 field goals and six of 10 free throws. Anderson followed with 15.

the FORD V-8

Just look at these official registration figures for the first 11 months -January through November, 1955

Here's why!

People just naturally gd for 8 cylinders in the FORD package!
And to a world record extent!
Just think, in the first 11 months of 1955 alone, 344,496 more people bought Ford V-8's than the two other low-priced competitive eights combined!
Of course, the reason the Ford V-8 is the largest selling eight-cylinder car in

brand of performance. the kind that comes with the car!

These people aren't amateurs in judging engines. Nearly 24 years of building Ford V-8's to supply their demand is convincing proof of that.

And the Ford V-8 of today is the best yet . . by a country mile!

THE light is red and you're ready.

It flaslies green and you go - but quick.

And that's when you discover the Number One about Bulck's new Dynaflow...

That it gives you brilliant new getaway response for city traffic at only part throttle even before you switch the pitch of this airplane principled transmission (And think of the big gas savings that means!)

Next comes the Number Two discovery - out on the road. For here still without switching the pitch-you have plenty more nimble acceleration to surge or

Just What Is The Nebraska Public Power System?

Here is how NPPS helps supply Nebraskans with plenty of power at lower rates than neighboring states.

If you live in the eastern two-thirds of lebraska (excluding Omaha and vicin-y), the power you get from your local ectrical distributor probably is supplied y the Nebraska Public Power System.

It is important to your pocketbook and future to know these facts.

NPPS is owned and jointly operated by the Loup River Public Power District and the Platte Valley Public Power and Irrigation District.

Here is how NPPS operates, what it has done for your area since 1940, and that plans NPPS has to make sure you will always have plenty of low-cost power.

Since World War II, NPPS has kept pace with growing power needs with an expansion program averaging approximately \$4,000,000 a year. eraging approximately \$4,000,000 a year.

Further expansion will soon be necessary. Power use in Nebraska has doubled since 1950 and is expected to continue to increase at this rate. Although some NPPS expansion plans have been temporarily delayed by circumstances beyond our control, NPPS is moving forward with new construction—to provide you with plenty of low-cost power.

For more facts on public power, write for the NPPS Question and Answer booklet, Nebraska Public Power System, Dept. CY, Columbus, Nebraska.
