Call Us Before Buying Advertising Service or Copy

Our press association has warned us that there are a number of "hot shot" advertising copy and out-town salesmen being offered to Nebraska merchants by out-of-town salesmen. Some are reputable and some are not.

Many of the contracts are tricky, and if the merchant does not use the copy and mats EXACTLY as authorized he will be sued or hedged into an expensive settlement.

We want you to know The Wayne Herald does not endorse and is not a party to any of the advertising sales or copy services being offered.

Only employees of this newspaper are authorized to act as our advertising representatives.

This newspaper subscribes to an advertising mat service, for which we pay good money for your use. That advertising mat service and the services of our staff are available to you without extra cost.

We suggest that you call No. 130 when approached by an out-of-town salesman who wants to sell you a service. Perhaps we have all the services you need, and can save you needless expenditure.

House No. A-106

There's something appealing and durable about America's justly famous Cape Cod home designs...

Actual working drawings of this house are available to readers at \$20.00 a set and \$5.00 for each additional set.

Area: 1484 sq. ft. Cubage: 23,022 cu. ft.

Interior Finish—Wood is adaptable to a greater variety of fine finishes than any other building material known.

Plumbing and Heating—As these facilities are roughed in the house, it's a good idea to check location of everything...

Electricity—Know what you want and allow a generous supply of outlets. Changes are costly and it is wise to wire for any type of modern electrical equipment that you plan to install "some day."

Q—I'm confused by the terms, wainscot, dado and chair rail. How do they differ?

A—Wainscot describes a completely paneled wall treatment. A dado is a low wainscot paneling on a lower part of a wall...

Q—Are dark colors going out? A—No, because hardly any color ever "goes out." If you like dark colors, use them. The latest trends in color styling naturally...

Q—May I use contrasting woodwork in my rooms? A—Contrasting color draws attention to wood trim. If you have a large room with beautifully detailed woodwork...

Q—My neighbors say I won't be able to use central heating on a house I'm building because the roof is nearly flat. Is this true? A—No. A new method of applying asphalt shingles to roofs with slopes as low as two inches per horizontal foot means that you have all the roof areas you want to choose from...

Q—Question: I am having trouble with paint peeling from my outside walls. What can I do about this? Answer: Your trouble might be that your home cannot "breathe"...

Modern appliances and bodies of hot water create excessive vapor inside the modern home which works out through the walls and condenses, then loosens the paint. You can usually correct it by one or all of the following steps...
