Aluminum Office Chairs

"A Chair For Every Seated Worker"

No. 922

UTILITY

COMFORT

DURABILITY

Wherever a worker is seated, the chair becomes an important part of the job. For greatest worker efficiency the chair must provide the worker with a maximum of comfort, proper posture and mobility yet be durable and attractive. When you have a seated worker, look to Cramer chairs, engineered for posture.

No. 921

Increase Efficiency ...

With your worker seated in an aluminum posture chair, his efficiency is greater, due to greater comfort, proper posture, easy instant control of height, Airflow seats and cushions.

No. 920

REDUCE FATIGUE ...

Posture Chairs keep fatigue at a minimum by holding the worker in the proper posture easily and comfortably throughout the working day. Fatigue costs money you can save with aluminum Posture Chairs. No backache or cramped muscles.

No. 903

ADD BEAUTY ...

Though these chairs are engineered first for proper posture, they have the true beauty that comes with utility and simplicity of design. Their lightweight aluminum framework, enhanced with modern, durable covers, are a bright spot in any office.

No. 902

VARIETY OF COLORS AND FABRICS

Aluminum Posture Chairs are available in a variety of fabrics all in standard colors to match other office equipment. Tough, durable Naugahyde plastic, Grospoint mohair or Claremont fabric. When you buy chairs, look to Cramer, for the best.

"BROMUS"

MR. FARMER!!

Many of our friends and customers who have Bromus fields that may be harvested for seed have inquired of us what the market situation may be for the 1957 crop. It is impossible at this time to quote any definite price, as there are so many unknown factors at this date. The total harvested and the yield per acre will of course determine the price of the 1957 crop. The cheap price of Orchard Grass and other pasture and hay grasses will also be a factor affecting the Bromus market, but following is the high price that Bromus reached during the 1956 season it may be expected that it will be a profitable seed crop, although present prospects are for a larger crop in the U.S. this year. It is too early to know anything definite about the Canadian crop, and that is always a large factor in Bromus market prices.

We shall give Bromus growers the same service as we have in the past. We are equipped to give you the proper care when delivered to you in the best of the combines. We will pay you the market price when the seed is delivered, or we will process the seed and bag it. If it seems advisable to you to hold your seed for a later market, you may do so. We will buy your seed at whatever the market price is whenever you decide to sell. Seed sold to us at anytime during the buying season, there is no charge for processing, bags, etc.

The aforementioned policy applies to Sweet Clover, Alfalfa, Red Clover or any grass seeds that you may harvest and sell. We do contracting work on share basis on Bromus, Alfalfa, Sweet Clover and grass seeds. We have our own combines with experienced operators.

We also carry the following Farm Chemicals: Aldrin, Heptachlor, Toxaphene, Malathion, Dieldrin, DDT. SEE OUR PRICES BEFORE YOU BUY.

We also do AERIAL SPRAYING with the very latest type of agricultural sprayer.

Come in and discuss your seed problems with us.

Highway Commission Faces Another Relocation Battle

By Melvin Paul

Statehouse Correspondent

Lincoln. The State Highway Advisory Commission once again was embroiled in controversy with members of the Legislature as well as with some irate citizens. . . .

A question of whether to relocate State Highway 2 between Unadilla and Syracuse was kicking up the fuss. Although it is a local matter, the controversy could affect highway construction all over the state. . . .

As a result the Highway Commission has taken the biggest step yet in the project. It will decide at its July 22 meeting whether to reconsider last year's 4-3 approval of the relocation. . . .

This satisfied the aggrieved farmers who had been protesting the relocation. . . .
