"Pass the salt and butter Here's corn to feast on!"

If you've ever enjoyed roasting ears "farm-style," you know that corn fresh from the stalk is the best in the world! The reason it's so good, farmers will tell you, is that you get to eat it before the heat of the day turns the corn sugars into starch...and before the flavor fades. We know this too...and that's why, with the help of our Produce Buyers and shippers, we've worked out a way of retaining flavor and tenderness...so the corn we sell is almost like the corn farm folks themselves enjoy!

Our buyers insist that our corn be picked in the cool morning hours, while the dew is still on the tassel. After a thorough chilling, it's packed in chipped ice and whizzed on to us. You'll find it in our produce section...sweet, tender, juicy. For the finest in all produce, every time...all you need to remember is **SAFEWAY**.

Grandsinger Murder Case May Go Before U.S. Supreme Court

BY MELVIN PAUF
Statehouse Correspondent
Lincoln—There is a good chance that the Grandsinger murder case will be taken to the U.S. Supreme Court.

That was the opinion of statehouse attorneys after two rapid developments in the case: 1. Federal District Judge John W. DeLahant declared in Lincoln that Grandsinger's conviction and death sentence were "void."

There was speculation that, in this event, the decision would be to go all the way to the top... to the Supreme Court.

The freezer should be completely defrosted and cleaned at least once a year. The condenser should be brushed or blown free of lint and dust.

Grasshoppers in Gardens
Recent reports and observation indicate that grasshoppers will soon be a serious problem in gardens.

Plan for Early Lambs
Top of the lamb market usually occurs about June 1. In 1956 the lamb market dropped \$6 per cwt. between June 1 and July 1.

Wise handling of the ram has much to do with a good early lamb crop. Practical Sheepmen say that the ram should be sheared.
