Community Chest Directors Set \$7,870 Goal for Drive

Wayne Community Chest directors have established a quota of about \$7,870 for the 1960 fund raising campaign, Chairman Dr. O. B. Proett announced today.

Quotas and dates for the campaign were approved at a board meeting Tuesday noon at Hotel Morrison.

The 1960 quota represents about a 400% increase over a year ago. A total of 12 agencies will share in the proceeds of the 1960 campaign. The local emergency-disaster fund has been dropped but the Medical Research fund has been added.

The new agency was established in 1949 to promote basic medical research. Other agencies which will take part are Boy and Girl Scouts, Salvation Army, Red Cross, USO, youth activities, remedial speech clinic, blind, American Social Hygiene association, National Travelers Aid association and underprivileged children.

The week of Oct. 12 to 18 was set for the campaign. Adon Jeffrey will serve as chairman of the business district drive. Heads for the residential drive will be named at the board's Sept. 15 meeting.

Handling publicity for the 1960 campaign will be Roy Christensen and Howard Witt. Dr. Proett appointed David Theophilus and Robert McLean to the auditing committee.

Large Vote Urged By ASC Head in Wool Referendum

Any Wayne county wool or lamb producer who has not received a ballot for voting in the referendum on the lamb and wool marketing development program should obtain one at the county ASC office, Chairman Carl Sundell advised this week.

About 120 county producers are eligible to vote in the referendum. Ballots have been mailed to all who have been receiving payments under the wool and lamb payment program.

As large a vote as possible is desired in the referendum, Sundell pointed out. The vote will determine whether or not deductions will continue to be made from payments under the wool incentive program.

The funds obtained are used by the American Sheep Producers council to conduct a program of advertising, promotion and related market development activities on lambs and wool under an agreement with the secretary of agriculture.

Deductions have been made at the rate of one cent per pound from shorn wool payments and five cents per hundredweight from unshorn lamb payments since 1955. Deductions under the three-year extension of the agreement would not exceed these rates.

Ballots may be voted any time during September. Ballots may be mailed or delivered to the county ASC office, but not later than Sept. 30.

Women Have Choice in Applying for Social Security

Even though their benefits may be reduced, most women apply for Social Security at age 62, reports Clifford Kittelson, manager of the Norfolk Social Security office.

Women have a choice of waiting until they are 65 to file for unreduced Social Security benefits or they can apply at any time between 62 and 65. If they start drawing benefits before 65, they get a permanently reduced amount. That is, the reduced benefit does not go up to the full amount when they reach 65.

On the other hand, a woman who draws a widow's benefits on the basis of her deceased husband's earnings can start her checks at age 62 and her payments, will not be reduced.

Kittelson urges women to call the Social Security office when they become 62 in order to discuss the question of filing their claims at 62 or later.

Mrs. Carlson Honored at Red Cross Meeting Friday

Mrs. Esther Carlson, who has served the Wayne County Red Cross chapter as water safety and first aid chairman 30 years, was honored at a luncheon meeting Friday at Hotel Morrison.

County Chairman Mrs. Robert Benthaek presented a pin to Mrs. Carlson recognizing her 30 years of service. This year 40 first aid instructors and 60 water safety tutors were trained in Mrs. Carlson's classes at WSTC.

Five young women who received Hatfield Field Jacobs nursing scholarships were guests of the chapter Friday. They will begin training this month. Mrs. Benthaek presented scholarship checks to the women at the meeting. The awards are provided from interest on a fund given the chapter by the late Mrs. Jacobs.

The scholarships went to Joan Havener, Carroll; Ruth Jensen and Letta Redel, Winside, and Helen Haschbrook and Sharon Westerman, Wayne. Miss Havener will enter Lincoln General hospital. The other winners will enter Nebraska Methodist hospital, Omaha.

Three young women who were awarded scholarships last year will be graduated in 1961. They are Mary Witte, Winside, Methodist hospital; Karen Saks, Carroll, Immanuel hospital, Omaha, and Judith Troutman, Winside, Lincoln General. Mrs. David Garwood, Carroll, gave a report on the scholarship program. Home Service Chairman Chris Balgholz also gave a report.

Mrs. Benthaek, who acted as chairman of the county fund drive last year, received a citation for the chapter on the drive and a personal citation for her leadership.

Mrs. Benthaek announced the quota for the 1959-60 drive in Wayne county. The drive in Wayne is included in the Community Chest program. Solicitation in other county towns and rural areas is done in a separate campaign in March. Contributions last year totalled about \$1,765.

David Carlsson, Sioux City, area field representative, was guest speaker at Friday's meeting. He spoke on the organization's centennial anniversary and the many services the Red Cross offers.

Six Percent Jump in Enrollment at Wayne City School

Enrollment at the Wayne city schools is up about six percent over a year ago, Supt. E. W. Willett reported today. Classes started Monday.

Willett said the total enrollment is 578 compared to 542 a year ago. Bulk of the increase came in the Wayne elementary grades, where 302 students are enrolled compared to 277 last year.

High school enrollment is up nine students to 218. The high school increase was caused by the influx of freshmen. There are 74 first-year high school students for the 1959-60 term compared to 58 a year ago. Other classes are down. Enrollment was almost static at Carroll. There are 53 students now in classes compared to 61 last year.

Winside Girl Hurt In One-Car Mishap

Carol Miller, 15, daughter of Mr. and Mrs. Dave Miller, Winside, was hospitalized at Norfolk early Sunday morning following a one-car accident four miles south of Winside on a county road. Her condition was described as satisfactory Monday.

Miss Miller was a passenger in a car driven by Ronald Miller, 18, Winside, when the vehicle struck loose gravel and hit a bridge. The bridge railing went through the car and injured the girl. Also riding in the car was Kennard Nettleton, Winside.

Geraldine Richter, 17, Wisner, and three other girls escaped with scratches last Wednesday afternoon when the car driven by Miss Richter rolled over at the Highway 15 intersection 1 1/2 miles north of Wayne.

Orientation Start Slated Wednesday

WSTC is preparing to enroll close to 500 new students next week, most of them freshmen. Added to returning students, this may swell enrollment near a record 1,200, the personnel office reported today.

Dormitory reservations have been ahead of last year's several months and now are about nine-percent above the figure at the same time in 1958.

New students will go through orientation from Wednesday through Saturday next week. This includes introduction to administrators and student leaders, talks by student organization presidents, explanation of college goals and rules and a series of aptitude tests.

Upperclassmen will register Friday, Sept. 11 and freshmen the following day. Classes convene Sept. 14. A faculty meeting is scheduled at 1:30 p. m. Tuesday.

Dormitory rooms are full. In some cases three students will share a room instead of the usual two.

Dean of Students Donald Merriman said more housing may be needed in Wayne for married students. Local residents wishing to rent apartments, preferably furnished, should call the college personnel office.

Students will find several new features on the campus, the main one being new concrete pavement on two roads. Paving is nearing completion on the north road next to the Rice auditorium and on the new middle road. When open, the latter road will provide entrance to the campus at Twelfth and Main streets.

Another new feature is the start of construction on a new dormitory. Excavators are now busy digging for the foundation. Still another innovation is a fire escape from the old auditorium on the second floor of the administration building. The fixtures have arrived, but are not installed. Maintenance crews have trimmed dozens of trees and removed a few others on the campus.

The college cafeteria is now under operation of a food service management company. Joseph Simon, Jr. is the temporary supervisor, working with Lynn Russell, the permanent manager, to set up the organization. Former cafeteria employees will be retained and student help employed as usual. President W. A. Brandenburg and his family are expected to return this week from a tour of Europe.

County Agent's Column 1960 Conservation Reserve Signup Now in Progress; Agent Urges War on Rats

Farmers who wish to put cropland in the soil bank's 1960 conservation reserve must ask the county ASC committee to set a basic annual rate per acre for the different land.

Honor M. Ochsner, chairman of the Nebraska ASC committee, says farmers have until Sept. 10 to file such requests. No request will be accepted after that date.

In setting the basic annual per-acre rate for land offered, the county committee will take into consideration the productivity of the land. The rate will be limited to the local fair rental value of the land based on crops harvested from it during the past five years.

When all the eligible cropland on the farm is offered for the conservation reserve, the rate generally will be set 10 percent higher than the rate for only part of the eligible land.

After the basic rate has been determined, the farmer may apply for a contract at any figure below the basic rate established for the land offered in the request for rates. If necessary, a priority system will be used to determine, which offers are accepted, Ochsner points out.

Contracts under the conservation reserve may run for as long as 10 years. During the time of the contract, the farmer will receive an annual rental payment on the reserved land for the life of the contract. He also will receive cost-sharing help in establishing approved conservation practices.

The basic per acre rate of payment under the 1960 conservation reserve in Nebraska is \$12.50, the same as under the 1959 program. Tentative acreage goal for the state is 227,000 acres.

Let's Kill Rats

Rats are known carriers of several important diseases of man and animals, reports Robert E. Roscoe, University of Nebraska entomologist. These diseases include leptospirosis, salmonellosis, trichinosis, murine typhus fever, bubonic plague, rabies and tularemia.

The rat population in Nebraska has been increasing in recent years and now stands near a natural peak of the rat population cycle. Larger numbers of rats are presenting serious problems on our farms and in cities.

Rats damage buildings by gnawing, burrowing and causing fires. Many unexplained farm fires are caused by rats gnawing through insulation on wires. Holes gnawed by rats allow mice and insects to gain an entry into stored foods. Rats borrowing under buildings can weaken foundations and cause settling of buildings. Rats eat, destroy and contaminate thousands of bushels of grain in Wayne county each year.

Ninety-seven percent of all Nebraska grain seized by the U. S. food and drug inspectors since 1954 has been contaminated by rodents. Only about three percent of seized grain has been contaminated by insects.

Way Back When...

10 Years Ago

Sept. 1, 1949: Dr. Mary Wheat Hanawalt has resigned her position as English instructor at WSTC to accept the post of associate professor of English at Iowa State Teachers College, Cedar Falls. Dr. Hanawalt had been a member of the WSTC faculty since 1943. Mrs. Alvin Tennie was overcome by ammonia fumes when a pipe at the ice cream plant was broken. The local fire department used a gas mask to bring the woman out of the building. The Wayne Creamery started city retail delivery of milk by truck after using horses in deliveries 15 years. Ed Seymour, former creamery owner, recalls that one of his early horses proved unsuitable for milk deliveries. He had been a fine horse and moved too fast. Wayne Stammer received a serious eye injury and a badly bruised shoulder when the grain truck he was driving was forced off the road north and east of Wayne. The congregation of Salem Lutheran church, Wakefield, presented Rev. C. W. Wilberg a new car.

15 Years Ago

Aug. 31, 1944: Lettie Scott, most efficient supervisor at the high school the past 22 years, has resigned her position. A pressure cooker at the county extension office here may be borrowed by persons wishing to use it for canning. K. N. Parke, who recently resigned his position at WSTC after 20 years, will enter Northwestern Mutual Life Insurance company as a local agent. V-Day will be observed by Wayne churches. When victory comes, churches will be open all day for prayer and services will be held in the evening. As the Army is using about 80 percent of the class A beef, supplies of commercial and utility grades are on the home front markets. This beef must be cooked with the utmost of cooking preparations. An increase in the point value of butter is expected due to a decline in the amount of cream received at creameries.

20 Years Ago

Aug. 31, 1939: A greater portion of the faculty apartments in the addition to Connell hall will be ready when WSTC opens the fall term Sept. 12. Completion of the work in the cafeteria will depend on the air-conditioning ducts. Robbers, who broke into a pool hall and soft drink parlor at Hoskins and got away with \$4 cash, a carton of gum and 12 cartons of cigarettes, have so far eluded capture. With resumption of rural school terms, we are reminded that the lowest teacher salary paid in Wayne county is \$40 per month. The top in country schools is \$75. Lester Lutt suffered a gash beneath the jaw when he tried to stop a runaway team. The wound required several stitches. Bob Witte broke his right arm while cranking a car.

25 Years Ago

Aug. 30, 1934: While at play Sunday evening, little Joan Jones, daughter of Mr. and Mrs. Roscoe Jones, was hit in the nose with a baseball and the nose broken. Burnham-Miller air circus at the John Horstman farm was attended by a good crowd. Parachute jump, radio car driving and air stunts were featured. R. B. Fuelleb had muscles in his left arm crushed when the member was caught between a tractor and a wall when he was putting up a corn grinder. Farmers are filling silos this week to make their dried corn usable for feed. Wakefield businessmen decided to sponsor a free

Grain Silage Production on Increase in Corn Belt; New Tractor Tire Pulls More

GRAIN SILAGE production is on the increase throughout the Corn Belt, reports an agricultural digest. Either of two systems can be used. Trolene is available as a large pill or bolus and must be administered individually. Co-ral is sprayed on cattle. Both materials have been used for two years and results have generally been excellent.

A NEW TYPE tractor tire has shown superior pull characteristics in recent tests. The main difference in these tires is that a "hoop" of ply material surrounds the circumference of the tire. The result is less bucking and more pull.

At the Nebraska tractor and field day this summer, radial conventional tires when pulled the same load. This type construction is more expensive than ordinary ply tires. It is not yet available in this country.

Uncle Zeke FROM Plum Creek says:

Dear Mister Editor:

When that feller Tommy Manville got married the ninth time he was quoted as saying it was a victory for hope over experience. That's the way I feel about ole Khrushchev coming to visit us. I'm hoping, but I ain't expecting much.

The papers is saying he's bringing about 40 of them Kremlin boys along with him and I don't see how we're going to compete with that two-platoon system. We ain't got more'n four or five in our party, that's pulling in the same direction and we can't get but about half a platoon on the field at the same time.

Then they fixed up a 14-volume history proving they won World War II. If all by themselves, I went along with that, hoping they'd beat us out on their history. So they went to visit them Russians, and they come up with a two-headed cabbage I didn't say a word and

day in September and met Tuesday evening to decide on a date. Requirement that approval of the town hall project be by two-thirds majority, not two-fifths as at the election, is delaying action on Winside's new town hall.

30 Years Ago

Sept. 5, 1929: The Omaha area Scout News magazine contains a picture of the group who attended the area meeting in Wayne. It also compliments Wayne and especially R. B. Larson, who had charge. Charles Martin Wayne, had his right wrist and several ribs broken Saturday when he accidentally fell backward off a watermelon truck which was on the streets here. Irwin Erleben bought a new airplane at Omaha last week and brought the machine to the Wayne airfield east of town. Improvements in the First Methodist church are expected to be completed by Sunday when regular services will again be resumed. Marion Ahern left for Chicago where she will attend the Academy of Fine Arts.

City Librarian Mrs. F. A. Milder

WITH SOME RELUCTANCE UPON THE PART OF the staff we resumed the 9 p.m. closing hours on Monday. It isn't usually so hot at this time of the year and we have had to come to work in the mornings when it was cooler and the library was closed in order to complete our summer work. This makes a long day for the staff, especially when some are on vacation.

WITH VACATION TIME BEHIND, AND A FULL VACATION'S schedule ahead, don't forget to budget some time for reading - for enjoying good books. Many people have a regular time set aside for this worthwhile experience. And they keep up with the best books at the library.

HEART OPERATIONS ARE MUCH IN THE NEWS of late, which stimulates interest in the subject. Leonard Engel has written a book called "The Operation," which is really a factual account of a heart operation on a young girl who was one of the first patients to submit to this new development in modern medicine and surgery. It is a gripping, minute-by-minute account of surgery for information inside the heart at the University of Minnesota medical center.

LAST MAY WE ORDERED A BOOK BY BARBARA Wilson, who is the women's feature writer for the New York Herald Tribune. She is an authority on wedding etiquette. This book has finally arrived, not in time for the June brides, but no doubt there will continue to be many brides all during the coming year as marriage still seems to be a popular institution. "The Bride's School" is a complete book of engagement and wedding etiquette from engagement to honeymoon, for every bride, every bridegroom and every parent in every wedding situation.

THE HISTORICAL NOVELS OF FRANK SLAUGHTER always have a good following. His latest, "Lorena," which is a rearing novel of one woman who helped convince Sherman that war is hell. This book is evidently destined for the movies or television because it is not one of the best, but it is packed with plot and action which lends itself to the theatre. WE WILL BE OPEN SATURDAY MORNING FROM 10 to 12 for teachers only. This will continue each Saturday morning through the school year.

when they claimed a feller Moz-haisky built the first airplane in 1885 and kept it in the air 26 minutes, I didn't argue. They said it was in the Russian archives, which was also invented by the Russians. As long as they're just talking, they ain't hurting nothing. One reporter summed up this visit as an opportunity to get Khrushchev cured of his "gross ignorance" about America. I figger "gross" and "ignorance" is 144 times worse than plain ignorance, so I reckon we got our job out of fer us while he is here.

Yours truly,
Uncle Zeke

Letters to The Editor

Dear Sir: The appeal from Gov. Ralph Brooks to clergymen to preach a sermon on the problem of highway travel in order to cut down the death toll comes to the desk of one minister with mixed emotions. The minister is jealous of the independence of the pulpit and resents having any human being tell him what to preach. He feels that his message is controlled by his conscience and his conscience is controlled by God. He comes before his people with a "Thus saith the Lord" persuasion rather than an enjoiner from any public official. The clergyman does not ever wish to be a political tool or a commercial front for anything. Nevertheless, the cause that Gov. Brooks asks us to espouse is a worthy one. Slaughter on the public highways is a religious issue and motor vehicle homicide comes under the indictment of the commandment which says, "Thou shalt not kill." This is a word that clergymen have to preach as part of their God-given message. When we kill increasing numbers on the highway we need to take time to think about the sacredness of human life.

We shall just have to make up our minds to live by the Golden Rule and drive in such a manner and in such a condition as to make another's journey as possible as we wish to make our own. If preaching will help that, I am sure clergymen are willing. We are flattered to think that the governor feels that sermons help and ministers have influence.

Highway Commission Won't Be Stampeded on New Roads

LINCOLN - The State Highway Commission says it will not be "stampeded" into adding roads to the Nebraska highway network and action, so far indicates the commission means what it says.

The commission voted not to restore a road from Edison south to Beaver City to the state highway system. Commission Vice Chairman J. R. McBride-Minden, said the request was the direct result of legislative action. He referred to the 1959 Legislature putting back on the state system a route south from Rushville, McBride said the Beaver City-Edison request is the first of many that will come, based on action of the Legislature. He said senators should have realized consequences of their action.

Chairman Ray Ogier, North Platte, told the commission "We shouldn't be stampeded into setting a precedent."

Roads not on the state system must be maintained by counties. There was some sentiment expressed in the commission to not add any roads to the system until present gravel highways are all black-topped.

Marsh Busy One of the busy men in the Capitol these days is Secretary of State Frank Marsh and his staff. The office normally has a heavy work load, but a new federal law has stepped up the tempo.

Passed last year by Congress the law makes it more profitable for small businesses to incorporate, enjoying advantages of that type of operation without the high corporation taxes. Basically, the law is designed to stimulate small business and investment of capital in it. As a result, in Nebraska where there are many small operations, 72 percent more business firms incorporated during the first seven months of this year than for a comparable period in 1958. The national aver-

age is 72 percent, according to Marsh's office.

There were 700 new business incorporations in Nebraska the first seven months - or 100 per month. So far, the corporations have produced \$289,956 in revenue for the state's general fund.

Fair Bingo

Bingo is out for this year's edition of the Nebraska state fair, according to Secretary Edwin Schultz. Schultz explains that the law is new - being passed by the 1959 Legislature - and the fair board feels it should be in operation longer before the board decides whether to permit playing of the game at the annual exposition.

There was a huge vote to legalize bingo in Nebraska and heaps of controversy over details of the law in the last Legislature. But a spot check of population areas shows so far the game is not drawing universal packed crowds.

Gould Flagg of the State Agriculture department, which supervises the game, says one of the prerequisites appears to be a low cost per game and another air conditioning. Groups that do not meet those two basic tests are not having big crowds, he said.

Another factor is that there is much else to do in the summer and observers expect the game to pick up during cold weather. Meanwhile, Atty. Gen. C. S. Beck ruled that the \$10 bingo license fee collected by counties must be credited to the various school districts. There had been a question, posed by State Auditor Ray Johnson, as to where the money collected from local licenses should be allocated.

Brooks Deadline

Gov. Ralph G. Brooks has given another indication that he is considering filing for the U. S. Senate. The Democratic chief executive says he won't announce his politi-

al intentions until shortly before March. That is the deadline by law for an officeholder to file for another post.

Brooks is reported eyeing legislative race and the governor has not denied the reports. The governor says he is feeling good and is making about two speeches per day. He suffered a light stroke April 17 and had been on a curtailed schedule for several weeks after.

Bottle Clubs

The State Liquor commission has not followed through on the ruckus over bottle clubs that flared in the last Legislature. A bill to license all the clubs passed but was vetoed by the governor.

Sen. Terry Carpenter, Scottsbluff, called a meeting of interested parties and the commission said it would ask for an opinion on how clubs should operate.

But Chairman Nathan Pont said the commission hasn't asked for an opinion since it does not know what to ask. Besides, he said, he thought club operators were going to give some suggestions.

IF YOU LIKE MONEY, YOU'LL LIKE BUYING A CHEVY NOW!

IF YOU LIKE GETTING YOUR MONEY'S WORTH, YOU'LL LIKE CHEVY'S 7 BIG BESTS!

- BEST BRAKES**... STOP ON A DIME AND GIVE YOU MORE STOPS PER DOLLAR. They're bigger too. With 'em, Chevy out-stopped all competitors in its field in a NASCAR-conducted test of repeated stops from highway speeds.
- BEST ROOM**... NO CRAMPED QUARTERS. Let's take the official figures filed with the Automobile Manufacturers Association. They show Chevy's front seat hip room up to 5.9 inches wider than in comparable cars. Count on real comfort.
- BEST TRADE-IN**... YOU GET MORE DOLLARS BACK FOR YOUR CHEVY. Last year, for example, Chevrolet used car prices averaged up to \$128 higher than comparable models of other makes. Just check the NADA* Guide Book.
- BEST ENGINE**... YOU COULD SPEND JARFUL OF JACK AND NOT GET A V8 LIKE CHEVY'S. Talking about our standard as well as Corvette V8's, SPORTS CARS ILLUSTRATED says, "Indeed, this device is and said that "... in its price class, Chevy establishes a new high in daring styling." Chevy's leadership in sales for '59 says a lot for its looks too!
- BEST RIDE**... CARRIES YOU AS CAREFULLY AS IT PAMPERS YOUR DOLLARS. "The smoothest, most quiet, softest riding car in its price class." That's the way MOTOR TRENDS magazine describes Chevrolet's cream-smooth ride. It's way more fun to sample than to read about them. Get out in a Chevy and see what Full Coil springs do.
- BEST STYLE**... BEAUTY THAT DOESN'T DEMAND A BIG BANK ROLL. The experts at POPULAR SCIENCE magazine looked them all over

Now there's an Impala Sport Sedan... one of Chevy's full series of Impalas for '59

See your local authorized Chevrolet dealer—you might as well get the most!
