ASC Announces Changes in '60 Soil Bank Law, Deadline

Farmers Have Until Oct. 9 To Ask Rate

The Wayne County ASC office today announced two important changes in the 1960 conservation reserve of the soil bank. They are: (1) Basic annual rates will be established by the same method used for 1959 contracts.

helping to adjust total crop acreage more nearly in line with needs. Land placed in the reserve may not be cropped or grazed and must be protected with a conservation practice.

These changes have been made following enactment of a new law passed shortly before the recent adjournment of Congress and signed by President Eisenhower last Monday. The added time will enable farmers to study the new rate arrangement and determine the advisability of coming into the program.

Farmers who have not previously requested a rate determination, but now believe that the program will be of interest to them should visit the county ASC office as soon as possible to obtain full information, Sundell said.

The basic rate may not exceed 20 percent of the value of the land offered and may not be higher than the basic annual rate that would have been established for the same farm in the 1959 program.

Linda Beck, Valjean Anderson Married in Ceremonies Sunday at St. Paul's Church

Linda Beck, daughter of Mr. and Mrs. Clarence Beck, Wayne, and Valjean Anderson, son of Claire Anderson, Wakefield, were married in candlelight services Sunday evening at St. Paul's Lutheran church.

Rev. R. E. Shirck officiated at the double ring ceremony. The church was decorated with white chrysanthemums and pompons. Mrs. William Hemingway sang "Wedding Prayer" and "Through The Years." Organist was Mrs. C. N. Olson.

The bride, given in marriage by her father, wore a floor length gown of ivory peau de faulle and Alencon lace, fashioned in princess lines according to an aisle-wide skirt. The peau de faulle swept in to a cathedral train. The fitted bodice featured a dainty yoke of Alencon lace. A half sash of satin draped low in back to take a lace edge, finished with a tailored satin bow at center.

Her ivory fingertip veil fell from a cap of Alencon lace. She carried white roses on a white Bible.

Norrome Olson served as maid of honor. Bridesmaids were Marilyn Noyak, Mrs. Carl Lofshult and Diana Whitney, Omaha, and Irene Griffith, Lincoln. They wore identical dresses of green chiffon over tulle, fashioned with a train and necklines, fitted bodice and full skirts. They carried small bouquets of white pompons.

Dante Anderson, Wakefield, served his brother as best man. Groomsman were Vernell Halstrom, Wakefield, Carl Lofshult and Mike Echtenkamp, Omaha, and Donny Swenson, Lincoln. Gilbert Granquist was usher. The men wore black tuxedos with white carnations.

Mrs. Henry Thomsen and Judy Beck were candlelighters. Diane Gildersleeve was flower girl. The bride's mother wore a royal blue jersey sheath with black accessories, and a shoulder corsage of baby orchids.

A reception was held in the church parlors following the ceremonies. Carolyn Beck had charge

of the guest book. Mrs. Mark Tietz, Mrs. Mary Ellen Granquist, Mrs. Loren Ellis and Mrs. Alvin McElhose arranged the gifts. Mrs. Paul Baier and Mrs. Russell Pryor cut and served the cake. Mrs. Fred Gildersleeve and Mrs. Robert Hunter poured.

Waitresses were Renee Gildersleeve, Judy, Jeanne, and Karen Granquist and DeVonne Noyes. Mrs. Donald Carlson was caterer. The ladies serving were Mrs. Elder Lubberstedt, Mrs. Basil Osburn, Mrs. Robert Nelson, Louise Osburn, Mrs. Harry Gust, Mrs. Otto Baier, Mrs. Harold Gildersleeve, Mrs. Norris Weible and Mrs. Julia Haas.

For her going-away ensemble the bride chose a cornflower blue sheath with black accessories and a white rose corsage.

The bride was graduated from Wayne High, attended the University of Nebraska one year and was graduated from the Nebraska Methodist school of nursing. She will be employed by the Visiting

Wildcats Face Big Test in Kearney Battle Saturday

The big test of the 1959 football season awaits WSTC's Wildcats Saturday night as Kearney's Antelopes, defending NCC co-champions, invade Memorial stadium at 7:30 p.m.

The Wildcats will go into the fray with an encouraging 7-0 victory over Nebraska Wesleyan behind them. They outplayed Wesleyan all the way Saturday and showed the same team action which produced three wins at the close of the 1958 season.

The halftime entertainment Saturday will feature Wayne Prep's band under the direction of Fred Vorce. The program will highlight the Panther twirlers in their new uniforms.

Coach Gwynn Christensen called the Wayne defense "terrific" against Wesleyan, but said the of-

fense still was not moving as fast as hard as it should.

The Wildcats will need speed and elusiveness to cope with Kearney's big forward wall, which includes several players well over 200 pounds.

The Antelope backs also pack plenty of speed and power. They rolled up a 49-6 margin over Midland last week and smashed Moorhead, Minn. State college 61-0 in their season opener. In between they dropped a 19-14 decision to Ft. Hays, Kan. college.

Wayne's coaches won't predict a win over Kearney, but they do think the Wildcats will not allow a 56-0 slaughter like they took last year at Kearney. Wayne held the Antelopes to a 7-0 margin at halftime, then wilted in 85-degree heat

as Kearney used dozens of players.

This year the Wildcats will enjoy a better balance in team sizes and should have cooler weather conditions.

Christensen plans to use about the same lineup that carried the load against Wesleyan. One doubtful factor is Merlin Mitteis, who was hobbling on a stiff knee early this week.

He marked up a creditable record of 140 yards in 32 carries against Wesleyan. Most of these were line backs. Mitteis was shifted to fullback after Bob Schnitzler broke his leg.

Mitteis scored the lone touchdown in Saturday's game, slicing over left tackle to climax a 68-yard drive. The fullback gained 38 of those yards. Skeeter Mahler booted the extra point. Christensen gave Mahler praise for his quarterbacking throughout the game.

Wayne did not allow Wesleyan closer than 45 yards to a score until the final minutes of the game. Then the Plainsmen traveled from their own 1 to the Wildcat 35. The threat ended when Dale Blatter intercepted a pass.

Two Wayne threats fizzled within the Wesleyan 5. The Plainsmen held for four downs each time.

Christensen cited several Wildcats for defensive play: Linemen Rolfe Kaup, Jack O'Brien, Mel Johnson, Gary Cameron and Jim Puetz and Linebackers Rod Tielsoort, Tom Billeter and Frank Hanel.

John Bernthal, relieving Mitteis at fullback, gained 29 yards against the stiff Wesleyan defense.

The statistics:

	WSTC	Wes.
First downs	15	9
Yards rushing	226	101
Yards passing	0	72
Total yards	226	173
Passes attempted	3	10
Completed	0	5

Wayne Prep Stops Winside 18-7

Wayne Prep's Panthers won a football game, spoiled a homecoming and lost a star halfback Friday night as they upended Winside's Tigers 18-7 in the Winside homecoming game.

Halfback Mike Perry was injured when he collided with a fellow Panther, Mark Dorecy, on a driving tackle of a Winside ball carrier. He was hospitalized at Wayne after the game and his injury diagnosed as a slight brain concussion. Coach Frank Williams predicted he will be lost for the remainder of the season.

The loss of Perry dealt a blow to Prep hopes for the Cornsassel conference crown. The Panthers entertain a strong Wausa eight at 7:30 p.m. Friday at WSTC's Memorial stadium. The two teams are currently tied for the top spot in the league.

Friday's Winside game started on even terms. Then Perry broke through the Tiger line late in the opening quarter and swept outside on a 32-yard touchdown jaunt. The first of three extra-point attempts was missed.

In the second quarter a Corky Lutt-Perry-Fred Bernthal double reverse ended in Bernthal galloping 52 yards to a touchdown and a 12-0 halftime lead for Prep.

Late in the third quarter Winside gambled on a fourth down situation and Prep stiffened to take over on the Tiger 25. A Lutt to Richard Johnson aerial moved the ball to the 19, from where Perry broke off tackle for his second score of the evening.

Winside scored in the game's closing minutes, marching from midfield with Harlan Kremke smashing over for the tally. Dennis Warnemunde added the extra point.

Prep's defense was again the outstanding factor in the game. Sparking these efforts were R. Delbe Exleben, Dorecy and Bennett Vikon.

Devils Best Madison In Husker Opener

Wayne High Blue Devils opened defense of their Husker conference title Friday night with a narrow 26-13 victory over Madison in a game but outmanned Dragons. The game was much closer than the final score indicates. Madison trailed 19-13 with 1:30 remaining in the game and had a first down on the Wayne 34. This set the stage for a pass interception by Bill Witt which provided the clinching touchdown.

It was the power running of Marlin Lessman, sophomore fullback, that provided Wayne with its edge. Lessman, who sat out his freshman season because of a broken foot, accounted for 140 yards rushing in 19 carries and threw two key blocks which set

up Wayne rallies. On the debit side were the defensive weakness of Wayne's forward wall and a leaky pass defense. Madison was unable to stop the Wayne offense, however, as the Blue Devils rolled up 18 first downs.

The visitors threatened briefly after taking the opening kickoff. They moved to three first downs on the Wayne 29 but were stymied when Bob Johnson recovered Gerry Brockhaus' fumble on the Wayne 42.

Wayne moved right back as Lessman reeled off 21 yards on his first carry. Madison finally stiffened and Wayne lost the ball after being a fool short of a first down on the dragon.

Madison kicked on second down and six plays later Wayne had a touchdown, moving 35 yards for the score. Big plays in the move were a seven yard pass from Roger

Denesia to Bill Witt and an 11-yard slant over left guard by Lessman. Witt crashed over center from five yards out for the touchdown with 11:18 remaining in the half. Lessman failed on his plunge for the extra point to leave the score at 6-0.

Another fumble recovery by Johnson set up the second Wayne score. The Blue Devils' look over on the Madison 39. After the two teams traded 15-yard holding penalties, Denesia hit passes to Witt and Buster Lakes to move the ball to the 19. On the next play Lakes carried 13 on a fake pass and came back with a six-yard run on a pitchout to score. Lessman threw the key block on the scoring play.

Denesia sneaked for the extra point to make it 13-0. The clock showed 8:14 left in the half.

Wayne took a 19-0 lead early in the third quarter by moving 57 yards with the second half kickoff.

The drive took 11 plays with Denesia finally sneaking over from the Madison 1. Lessman accounted for 336 yards in the downfield march. His plunge over left guard for the extra point was no good.

Then the complexion of the game changed. Madison was forced to kick after Tom Schaffer fumbled the punt and Jerry Schaffer recovered for the Dragons on the Wayne 39. Ronnie Goodwater got four yards over right guard and then Joe Ewing raced 35 on a naked reverse to make the score 19-6. Goodwater failed on the plunge for the extra point.

Wayne started another move immediately and threatened seriously when Denesia hit Bob Gilliland with a pass to the Madison 27. Gilliland bobbled the ball when tackled and Teddy Simonson recovered for Madison.

The Dragons got nowhere in three plays and punted. Then on

Wayne's second down, Denesia was forced to throw a hurried pass to the flat. Ewing grabbed the ball in the open and raced 38 yards to score without a Blue Devil touching him. His slant over right tackle for the extra point made it 19-13.

Wayne again marched toward the Madison goal but a fourth down pass play lost five yards and Madison took over on its own 22. Brockhaus then began to find the range with his aerials. He hit Schaffer with one for 14 yards and then pitched to Melvin Kreitman for 30. This put the ball on the Wayne 34.

The Dragon quarterback threw a flat pass on the next play and Witt leaped up to grab the ball. He then outdistanced the Madison quarterback and went 55 yards for the clinching touchdown.

Madison tried two desperate passes in the closing seconds and the last one was intercepted by Gilliland. Wayne had time for only one long pass before the final gun.

County ASC Committee To Take Office Today

Wayne county's new ASC committee will take office today. All three regular members of the committee were re-elected at a convention of precinct delegates Thursday morning at the county ASC office.

They are Carl Sundell, Wakefield, chairman; Lloyd Morris, Carroll, vice chairman, and Harry Heinemann, Winside, regular member.

Joe Corbit, Wayne, succeeds Rudy Kai, Pender, as first alternate. Clair Swanson, Carroll, replaces Lloyd Dunkirkau, Randolph, as second alternate.

Dixon Achievement Day Tuesday at Newcastle

Dixon county home extension clubs will hold their annual achievement day program Tuesday at the Newcastle high school auditorium. Mrs. Albert Armstrong, Pomeroy, county chairman, is in charge of the event.

Patty Anderson, a former Wayne resident who moved to Annandale, Minn., early this summer, was voted queen of the Annandale skating rink in a summer popularity contest. Her prize was a camera, film and flashbulbs. Sonia Anderson, Patty's sister, was awarded a billfold for third place.

WINSIDE Warnemunde, Brogren Rule At Homecoming Fete Friday

Dennis Warnemunde, senior class president, and Lois Brogren, senior treasurer, were crowned king and queen at Winside-high school's annual homecoming football game Friday night.

The coronation took place during the halftime intermission of the Wayne Prep-Winside football game. Prep spoiled the festivities by downing Winside 19-7 in the Cornblatt conference tilt.

The queen and her attendants, Karen Koch, Carol Jaeger, Glenda Miller and June Falk, rode on a float decorated in the school colors. Attendants of the king were Stanley Thietje, Gary Newman, Warren Redel and Ronnie Burris.

The royal couple were crowned by Miss Koch and Thietje. Harlan Kremke, W. club president, and Faye Jensen, Pop club president, crowned the junior attendants.

Buttermilk Cornmeal Waffles So Good With Sausages on Sunday

Waffles with sausages for a leisurely Sunday breakfast never lose their appeal, especially when the waffle recipe is varied occasionally. Favored by Ray Kling of the Meadow Gold Dairy are these buttermilk cornmeal waffles. They're particularly timely now, for both butter and buttermilk are plentiful.

The recipe was developed by Beatrice Cooke, director of the company's Chicago test kitchens.

Buttermilk Cornmeal Waffles (Six Waffles)

- 1 cup sifted flour
- 1/4 cup yellow cornmeal
- 1/2 teaspoon salt
- 2 teaspoons baking powder
- 1/2 teaspoon soda
- 2 egg yolks, beaten
- 1 1/2 cups buttermilk
- 1/2 cup melted butter
- 2 egg whites, beaten stiff

Sift together dry ingredients. Combine egg yolks, buttermilk and butter. Stir into dry ingredients. Fold in egg whites. Bake in hot waffle baker until brown and crisp, about 5 minutes. Serve with butter and hot maple syrup.

Three-Fours Bridge Club

Three-Fours Bridge club held its first meeting Friday at the Mrs. Otto Graef home. Guests were Mrs. J. G. Sweigard and Mrs. Artie Fisher. Mrs. Werner Janke was welcomed as a new member. Prizes went to Mrs. E. T. Warnemunde, Mrs. Al Carlson and Mrs. Sweigard. The club will meet with Mrs. Vernon Hill Oct. 9.

Chevrolet's Compact Car on View Friday

A STRONG-FAMILY resemblance between the new Corvair and Chevrolet's conventional line of passenger cars is evident in the profile view pictured above. The new models will go on display Friday at Coryell Auto Co. The Corvair, Chevrolet's entry in the compact car class, features a rear-mounted, air-cooled aluminum engine. It is more than 2 1/2 feet shorter than the Impala sports sedan with which it appears. The larger Chevrolet is offering 16 passenger models.

Douglas Bartels, who are both absent because of the mumps.

Fifth Grade

Physical examinations were completed in our room Friday. Reports are being sent to parents.

In health class we completed booklets about ourselves.

Debbie Wright's team is leading Douglas Claussen's team in spelling by one point.

Tops in spelling this week were Sheri Johnson, Debbie Wright, Dave Jensen, Barbara Jacobsen, Paulette Merchant, Sallie Bergt, Michael Osborn, Lana Danielson, Douglas Claussen and Bob Morris.

Eighth Grade

The eighth grade lost one pupil this week. LaDonna Church transferred to Carroll.

In science our class has been having a lot of fun with some mercury we got from the science laboratory.

Thursday we had two films, "Energy of the Sun" and "The Transformations of Energy."

We also got some new science books.

A geography test covering early explorations and discoveries was given Monday. Judy Simmer received the highest grade for the girls. Jim Mau had the highest grade for the boys.

Carroll Primary Room

Rodney Cook and Tony Duncan treated the children and teacher on their birthdays.

Friday morning 15 mothers visited our room and observed our reading classes. The second grade dramatized a story. Mrs. Boeckenhauer served refreshment at recess time.

We have had some interesting science studies of the animals of the brook. Terry Roberts brought some live turtles, Terry Hurlbert brought a turtle and Mrs. Boeckenhauer brought some tadpoles.

We observed the tadpoles developing legs. Class stories were written, illustrations were made of the various animals and a poem about the turtle was memorized.

Mr. Watchbuck's large plastic bird, is a new addition to our room. He writes interesting letters on the chalkboard to the children about things he observes during the day. Sometimes he suggests corrections which could be made and other times he comments favorably of good deeds he has noticed.

Fourth Grade

The school nurse checked the pupils Thursday and Friday.

We had our first unit test in language Thursday and Friday. The material covered was on dislocations.

David Brown, Steve Carman, Rickie Giese, Steve Kraemaer, Judith Lamb, Lynn Lessman, Scarlet Magdanz, Pamela McNatt, Cynthia Meyer, Marvene Paulson, Cynthia Swinney, Jane Williams and Kathy Wolske received perfect scores in spelling.

We miss Douglas Danielson and

Mrs. Karl Otto returned Thursday after a two-week visit to the West Coast. She visited her sister, Mrs. Henry Littlejohn, Monroe, Ore., and attended the centennial observance in Portland. She also visited her son-in-law and daughter, Mr. and Mrs. Albert Morlok, Orange, Calif.

Capitol News Public Power Squabble Again Reaches Nebraska's Governor

LINCOLN — Once again the squabbling between Nebraska's public power agencies has reached the Governor's office.

Last week Governor Brooks tossed a bombshell at the power agencies by announcing he was studying the possibility of the creation of a state power commission "to restore some semblance of order" to the state's public power picture.

Power officials in the state immediately expressed surprise over the announcement. But reliable sources indicated the surprise was more about the fact that the announcement came from the Governor's office.

The officials are reported to have been aware of reports that some members of the Legislature were concerned with the disputes among the power agencies and were considering looking into the matter.

In his announcement, the Governor hinted that his move may jar the power agencies into ironing out difficulties. In the Governor's words: "It may be that, before such a commission is constituted, the public power agencies within the state will clarify the public power situation in a fashion which will minimize the necessity of such an administrative body."

Some two years ago former Gov. Victor Anderson called in power leaders. At a luncheon at the mansion, he laid it on the line to them. Anderson told them to stop their wrangling or else. He said he was concerned then that no progress was being made for increasing power generation facilities in the state.

Since then the steam generating plant at Lexington has been placed in operation and construction is underway of another steam plant combined with a nuclear plant near Hallam.

The latest squabble in which the

power agencies are locked is an attempt to block an application by the Nebraska Generation and Transmission cooperative, West Point, which is attempting to convert to a public power district.

The major opposition to that application has been from the Platte Valley Public Power & Irrigation district and Loup River Public Power district, which make up the Nebraska Public Power system, and Consumers Public Power district.

A hearing before State Water Resources Director Dan S. Jones, Jr. on the G&T application was recessed Sept. 12 and will resume Tuesday at Lincoln.

Bid Letting Oct. 8

An estimated \$2,400,000 highway construction and maintenance bid letting for Oct. 8 will boost highway construction projects this year to around \$27,400,000 and maintenance projects to some \$394,000.

Since the first of the year to date, the department has let contract awards on \$25,159,172 in construction work compared to \$32,883,830 for the same period in 1958. Maintenance work contracts this year total \$518,859 with more scheduled for the October letting.

Last year all of the maintenance work for the year was under contract by September and totaled \$1,177,559. The figures do not include right-of-way and engineering costs.

Bills Become Law

The 1959 Legislature passed 470 bills into law this session and the final 321 went into law Monday. Earlier 149 bills became law when the Governor signed them. They all carried the emergency clause.

Among those which became law were two dealing with credit. They were LB 652, the Time-Sales act

regulating time sales and LB 301, the Revolving Credit act, limiting the service charge on revolving credit accounts to 1 1/2 percent.

Licenses Suspended

Since the point system law went into effect in 1953, licenses of 5,259 motorists have been suspended. The law allows 12 points for the regular two-year permit and eight points for the probationary one-year permit.

The year of peak revocations was 1955 when 1,415 licenses were suspended. Through August of this year, 539 drivers have lost their licenses under the point system law. About 90 more will be added this month.

In addition, another 14 drivers have had their licenses suspended for a year under the new implied consent law which says a driver must submit to a chemical test of his blood or urine if suspected of driving under the influence of alcohol.

Since April 1, all points assessed against a driver are charged from the time of the violation rather than the time of the conviction as in the past.

Safety Responsibility

The tough new Safety Responsibility act now is in force. That amendment to the Financial Responsibility law requires that any driver involved in an accident where damage exceeds \$50, or convicted of certain moving traffic violations, must be able to prove he can meet claims against him totaling \$25,000.

Accepted as proof is automobile insurance in the amount of \$10,000 for injury to one, \$20,000 for injury to two or more and \$5,000 in property damage. Failure to show financial responsibility means the loss of a driver's license.

The new light plant at Hoskins was opened for 24-hour service. A number of residents are planning to have lights installed . . . Andrew Johnson has discovered a gravel pit on his farm, located halfway between Wayne and Wakefield. This is a very valuable find.

In Bookland

By Mrs. F. A. Mildner
City Librarian

WHEN THE TIME COMES TO RETIRE FROM interesting and rewarding work it is only natural to ponder over things left undone. Library work is never ending and it has many satisfactions, large and small. Walking to work one morning recently I passed three small children playing on their front lawn.

After greeting them and passing on I heard the three-year-old say, "She is the lady who gives us books." That for me is one of the rewards. What of the regrets? A patron brought a book to the desk recently and said to me, "I didn't like that book at all." I was not surprised as it was not her type of reading and had I been at the desk when she checked it out I would have told her what it was about so that she might judge for herself in advance and not be disappointed. Unfortunately, as the library has grown and the administrative work has grown with it, it has been impossible for me to be at the desks, both upstairs and down, from two in the afternoon until nine in the evening. Indeed that is the work school girls can do, though possibly not as well. Miss the personal contacts with the library patrons and it is rather a shame, in fact one of my regrets. These are small rewards, and minor regrets, but some of the many I ponder over these days.

OUR DIVIDEND RECORD CAME FROM THE record club this week. We try to pick popular titles for our dividends and the classical for our monthly order. This one is songs from "Gigi." We know it is going to be popular.

ANY DOCTOR OR HOSPITAL STORY IS ALWAYS popular, so we feel sure that "The Final Diagnosis" by Arthur Hailey is going to move quickly on the rental shelf. Seldom have the complex workings of a great hospital — its heartbeats, its triumphs, its been more dramatically revealed. It explores a world the patient never sees, a world in which the highest concepts of humanity and integrity may often be tarnished by the very men and women dedicated to those ideals.

ALSO NEW THIS WEEK ON THE RENTAL SHELF is "Town House" by Nora Lofts, a story of fifteenth century England. And for the men who like to read about the war we have "Bottletop Affair" by Gordon Coetir. It is a loony story of a young man with 10 college credits in Japanese, a comatose's appreciation of Army nurses and a mission. That mission is Bottletop and how a soft drink plays a part in capturing the Japanese makes one hilarious tale.

Tighter Farm Credit and Higher Interest Rates Forecast by Editor of Farm Digest

TIGHTER FARM CREDIT and higher interest rates are on the way, according to an agricultural digest editor.

It will be to your advantage to start figuring your credit needs now. By arranging credit needs right away you may be able to get a loan easier and at lower rates than a few months from now.

Heavy demands for credit during the current business boom period are the main force pushing interest rates up, according to the editor.

Congress passed a law in this past session authorizing the Secretary of the Treasury to increase the rates of interest paid on Series E and H bonds. However, they did not give the government the right to increase the rates they can pay on long-term government securities normally marketed to banks and other financial institutions. As a result, the government must continue to rely on short-term borrowings on which they can pay competitive rates in order to fill their money needs.

Regardless of whether you'll need short or long-term credit, better start planning your needs now. Check with your banker well ahead of the time the loan funds will be needed.

Remember you'll probably have to provide more complete plans as to how money is to be used than in the past. Where long-term credit is needed, it would be a good idea to watch the pre-payment privileges so the loan could be refinanced at some future date when interest rates might possibly be lower.

County Agent's Column . . . Cooperation by Farmers Can Up Speed of Census; Hay Keeps Value for Many Years

The seventeenth census on agriculture will commence soon. How long it will take to finish the census depends on the cooperation a crew of some 30,000 enumerators and their 2,000 local crew chiefs get from farmers.

About one week before the census is due to begin, a copy of the census questionnaire will be mailed to every rural boxholder. If farmers fill out the questionnaires completely and accurately before the census takers arrive (Census Bureau officials expect that about a million farmers will be completed quickly at rockbottom cost to the taxpayers).

If you're a farmer, you'll be asked for information on how much land you own, lease, operate or manage for others. You'll be asked to list the crops you grow in 1959, your acreage of cropland and open pasture, acreage of woodland pastured and not pastured and your production of poultry and livestock products during the year.

Other questions will gather information about your age, race and residence. One section will ask for facts about your off-farm work and non-farm income. Another group of questions will deal with irrigation and drainage.

What else? You can also expect questions dealing with your use of fertilizer and lime, other land use practices and the amount of money you spent this year for major farm items such as feed, seed, labor, livestock, gasoline and machine hire. There'll be a special group of questions on your use of family and hired farm labor.

It's one of the oddities of the census process that the information compiled from the totaled and averaged reports of all farmers is freely available to everyone. Yet the information from any one farmer's report is available to no one. That's a tradition of the Census Bureau. And backing it up is a law which says that no tax or investigation agency is allowed to look at a census report from an individual farm or farmer.

HAY WILL KEEP When good quality hay is properly stored in a dry place, it will retain most of its nutritional qualities at least 45 years, according to a recent chemical analysis of 45-year-old hay at Kansas State university. The protein content was found to be 39 percent, three or four percent above the protein content of average fresh hay. Crude fiber content was 21 to 34 percent, which is lower than normal, indicating that the hay was of excellent quality when it was stored.

ON DISPLAY! FRIDAY! SPACIOUS! POISED! BEAUTIFUL! LIVELY!

DISTINCTIVE! SATISFYING! ENDURING! SPLENDID! SPIRITED! JOYFUL! SWEET!

Here's the car that introduces a whole new decade of design — with so much that's new and different the other ones can only hope to come close. It's the superlative '60 Chevrolet — with new appointments, new splendor in every clean-etched line. Freshly shaped contours rake back from the unified new grille to the jaunty rear deck, fitted with craftsmanship you'd expect only on the most expensive makes. Inside, there's room to sprawl in, room to sit tall in — generously provided by Chevy's sofa-wide seats and extra margin of hat space. And there's even more leg room for the man in the middle — thanks to the way Chevrolet engineers have shaved down the transmission tunnel. Out on the road, as Chevy's Full Coil ride will persuade you most gently, there's not a car near the price that comes close to the hushed comfort of this one. And, adding to your sense of silence and solidity are thicker, newly designed rubber body mounts that do an even more efficient job of filtering out road shock, tire hum and vibration. Quiet, quick-responding power is provided by a choice of two standard engines — Chevy's famed Hi- Thrift 6 and a new Economy Turbo-Fire V8 that gets up to 10% more miles out of a gallon of regular while delivering greater engine torque at normal speeds. Chevy's accent on comfort and convenience even extends back to its easier-to-load (and tremendous) luggage compartment. You'll also find a convenient new parking brake that automatically returns to normal height after application, a new clutch linkage that filters

THE SUPERLATIVE '60 CHEVY

This is the one that says '60 like no other car. From its clean-thrusting grille to its dapper rear deck, there's so much that is new and different about this superlative Chevrolet it stands out from the rest like a fresh-minted coin. And you'll be just as wide-eyed over what's inside — the relaxing roominess, tasteful trim, hushed elegance, all comfortably cradled by Full Coil springs at all four wheels. Yet, sumptuous as this new Chevy is, you'll find new economy of operation, new dependability, new longer life. Here, then, we're confident both you and your budget will joyously agree, is the nearest to perfection a low-priced car ever came!

But, impressive as all this may look in print, there's really only one way to tell how near to perfection this superlative '60 Chevrolet actually comes... and that's to drop in on your dealer and drive one!

QUIET REVOLUTION! ON DISPLAY FRIDAY! HOORAY! SMALL WONDER!

CORVAIR BY CHEVROLET! SMALL MIRACLE! THREE COMPACT CHEERS! FRIDAY!

THE REVOLUTIONARY

Corvair

BY CHEVROLET

There's nothing like a new car—and no compact car like this de luxe Corvair 700.

FRIDAY! ASTONISHING! NOTHING LIKE IT! CORVAIR! SMALL MIRACLE! FRIDAY!

Here's the car created to conquer a new field—Chevrolet's low-priced compact Corvair.

The product of nine years of research and development at the auto industry's most advanced facilities, it's America's first truly compact, economical car that retains the ride and 6-passenger comfort you're used to in a big one.

The key to this small miracle: America's first and only modern rear-mounted aluminum engine—a lightweight 6 that's so revolutionary it can be packaged with the transmission and drive gears as one compact unit.

By putting the engine in the rear, Chevrolet has made the floor—practically flat, front and rear. There's plenty of foot room for everybody, including the passengers in the middle.

Shifting engine weight to the rear also makes for smoother, easier compact car handling and gives glued-to-the-road traction on ice, mud or snow.

Corvair's size—some 5 inches lower, 2½ feet shorter and 1,300 pounds lighter than conventional sedans—makes it a joy to jockey through busy streets, a pleasure to park (no need for power assists). Its revolutionary Turbo-Air 6 gets up to 30% more miles on a gallon of regular (a real magician on mileage). And, because the

America's only car with an airplane-type horizontal engine! America's only car with independent suspension at all 4 wheels! America's only car with an air-cooled aluminum engine!

The engine's in the rear where it belongs in a compact car!

engine air-cooled, you never have to fuss with antifreeze, you get quicker warmup with less wear on parts even on the coldest mornings (even heat for passengers comes quicker—almost instantly—from an airplane-type heater).

Yet, wonderfully practical as all this sounds, you'll find the most practical thing of all about this new Corvair is its remarkably low price. Your dealer's the man to see for all the short, sweet details.

REVOLUTIONARY TURBO-AIR 6
Gets up to 30% more miles on a gallon, needs no antifreeze, provides quicker warmup with less wear on parts.

ONE-PACKAGE POWER TEAM
Wraps rear engine, transmission and differential together into one compact lightweight unit. Takes less room; leaves you more.

STYLING—PURE AND SIMPLE
Clean, uncluttered lines shape both 4-door models—the de luxe Corvair 700 and the standard Corvair. Each has its own distinctive trim, and you get more visibility area than in many full-sized cars.

FOLD-DOWN REAR SEAT
Works easily, instantly, adding to Corvair's versatility by enlarging rear-seat-cargo space to 17.6 cu. ft.

FLAT FLOOR
Corvair is America's only compact car with a practically flat floor, the only one with the kind of relaxing room that U.S. motorists are used to.

UNISTRUT BODY BY FISHER
Does away with conventional frame, incorporating all structures into a rigid body-in-frame unit that gives you more inside room with less weight.

UNDER-HOOD LUGGAGE COMPARTMENT
Trunk's up front (like an elephant's) where it's convenient for groceries, luggage.

WHEELS INDEPENDENT SUSPENSION
There's no conventional axle—front or rear. Wheels, cushioned by coil springs, take bumps independently of each other, for smooth, road-bugging-free ride.

The October Farm Outlook

"Our Roots Are In This Land"

FARM REVIEW AND FORECAST

Livestock and Feed Outlook for 1959-60

Feed Situation

The total supply of feed grains and other concentrates will set another new record in 1959-60. Production in 1959 will be only slightly less than the high of last year. All-time high stocks of feed grains are carried over from 1958 and previous years. Growing conditions were favorable over most of the important grain producing areas this year. Serious drought occurred in the Southwest and in parts of the Northern Plains states.

The total 1959 corn crop is expected to exceed 4 billion bushels for the first time in our history. This will be 200-400 million bushels above the previous record set just last year, and nearly one-third higher than the 1953-57 average. Acreage in the U. S. is 15 percent above 1958; Nebraska's corn acreage is 28 percent over that of last year.

Yields in Nebraska and the U. S. will not be so high as last year. Cool, wet weather in the spring delayed planting; dry, hot weather in July and August caused some damage in Nebraska and other western Corn Belt areas.

Grain sorghum acreage is down nine percent in the U. S. and 20 percent in Nebraska, as farmers shifted to corn. Yields are also expected to be less than in 1958. Carryover is so large that total supply will equal or exceed last year's record of 924 million bushels. Most of the carryover of grain sorghum and other feed grains is under price support so is not available for feeding—except at prices considerably above market.

Oats supply is 20 percent below last year and smallest in 20 years. The 1959 acreage was reduced and yields were much lower than last year. Production this year was about 30 percent below the 1948-57 average, a reduction caused by fewer acres and drought in the Dakotas and Minnesota. The barley crop is about 70 million bushels below last year's record of 470 million, mainly due to lower yields.

Protein supplements will be available in about the same total quantity as in 1958-59 with more cottonseed meal, less linseed meal and about the same amount of soybean meal. Carryover of soybeans and the increase in cotton production will offset reductions in soybean and flaxseed production this year.

Less acreage and lower yields have reduced the 1959 hay crop in Nebraska and the U. S. Carryovers and this year's production will provide enough hay for winter feeding in most areas. Southern Utah, Nevada and California have been very dry this year with hay scarce and high priced. Pasture conditions are poor in these areas and in most of South Dakota, and parts of North Dakota, Montana, and Nebraska. Stock water is also short in these dry areas. Range and pasture conditions on Aug. 1 were considerably below the very favorable conditions of a year ago.

Feed grain prices, except for corn, will be lower during the 1959-60 season than last year because of lower price supports and large supplies. The national average support prices compared with 1958 are: oats, 50 cents a bushel vs. 61 cents; barley, 77 cents vs. 93 cents; and grain sorghum, \$1.52 cwt. vs. \$1.83. Smaller crops of these grains, "over-pricing" of corn and more livestock may prevent market prices from falling to support levels.

Market price of corn will be a little higher this year than in 1958-59 despite the record corn crop unless harvesting conditions are unfavorable this fall. Support price on 1959 corn is 6 cents a bushel higher than that on non-compliance corn in 1958 and will average about \$1.07 in Nebraska. If the market prices of other feed grains, and especially grain sorghum, are near their loan rates, it will pay to store corn under price support and buy other grains to feed.

Prices of most protein supplements declined this spring and summer, especially those of soybean meal, meat meal and tankage. In early August the wholesale soybean meal price was \$25 a ton below a year earlier; meat meal was down \$44 a ton. Alfalfa meal was \$7 a ton higher than in August, 1958. Soybean meal was the "best buy" in terms of cost per pound of protein.

Cattle Outlook

Prices of stocker and feeder cattle will average about the same this fall as a year ago. In each of the past two years the usual seasonal price decline in the fall months failed to develop. Reasons for this were herd expansion by ranchers, bumper feed crops in the feeding areas, and high prices for slaughter cattle. Prices of replacement cattle at the start of the 1959-60 season are higher than a year ago by about \$5 cwt. for calves and \$2 for yearlings. These prices are likely to weaken by \$2-3 cwt. during the next two or three months.

Feed and financial situation of cattle ranchers is still generally good but range feed conditions are less favorable than a year ago. South Dakota has been hit hard by drought this year; this extends into parts of Montana, Nebraska and North Dakota.

Little distress selling is reported from these areas because ranchers have feed reserves from previous years. The Southwest (California, Nevada, Utah) are also very dry, but cattle from these areas remain in the West for feeding and slaughter. In other areas the realization that 1958 and 1959 are likely to be the years of highest prices for stockers and feeders will encourage some ranchers to sell this fall before prices break.

The cattle cycle is now in the second year of the expansion phase. On Jan. 1, 1959, cattle numbers on U. S. farms and ranches totaled 96.8 million head; equal to the previous record high set just three years earlier. By Jan. 1, 1960, cattle numbers are expected to exceed 100 million. This expansion has been entirely in beef cattle which have gained rapidly both in numbers and productivity. The increase in numbers of beef cows, heifers and calves provides foundation herds from which will come greater marketings of feeder calves and yearlings beginning next year.

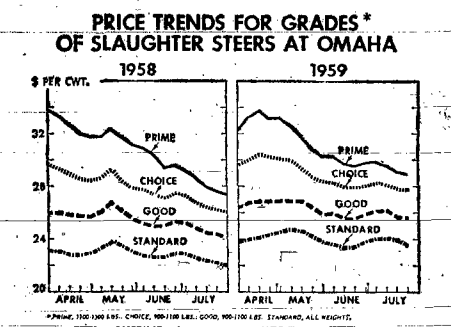

The 1959 calf crop of 41.3 million head is up 2 percent over '58 but still is less than the record 42.6 million born in 1954. The calf crop is down in dairy states but up in beef areas, by 3 percent in the eleven western states and 4 percent in Nebraska.

Imports of feeder cattle from Canada and Mexico were quite high in 1957 and 1958 but are down this year. These imports have provided some stability to our cattle industry by reducing the variation in beef production. Further reductions in both cattle and meat imports can be expected as more domestic cattle become available and prices decline in this country.

Demand for replacement cattle from the feeding areas will continue strong during 1959-60. Abundant feed supplies this fall, good profits during the 1958-59 season, and favorable prospects for beef prices through 1960 will maintain the willingness to buy cattle. More buyer resistance is apparent than a year ago; contracting was slow during the summer. Potential buyers are aware of the build-up in beef herds and of its eventual effect upon cattle prices.

More pork and gradually increasing supplies of cow beef will keep better-grade cattle prices at about 1958 and 1959 levels. Amount of beef per person will not increase substantially until 1961 unless the course of the present cattle cycle is reversed by wide-spread drought next year. The 1959-60 feeding season will be characterized by very narrow and, in many cases, negative price margins between feeder and finished cattle. If feeder cattle prices decline by \$2-3 a cwt. this fall, profits per head should average about the same as in 1958-59.

Beef production in the first six months of 1959 was only one percent above January - June, 1958, when cattle slaughter was at a rather low level. During 1959, record numbers of cattle have been on feed and fat cattle are being marketed at heavier weights. Beef prices have so far been equal to or slightly above 1958. Increase in the marketings of fed beef has been offset by reduced slaughter of cows and calves, down about 20 percent from a year ago. Cow slaughter increased in the late summer because of drought, concern over future price prospects and closer culling of dairy and beef herds. Spread between the prices of better and lower grades of slaughter-cattle has been narrow in 1958 and 1959 but will widen in the year ahead.

In the second and third quarters of 1959, about a million more cattle were on feed than in comparable periods in 1956 and 1957. Movement of these cattle to market this summer and fall explains the price decline in fed cattle since early May. Supplies of fed beef will thus continue large this fall and winter. The record level of cattle feeding was made possible by diverting "two-way" cattle to feed lots and by imports from Canada and Mexico.

Profits on cattle marketed during 1959 and 1960 will again come mostly from weight gain and low-cost feed rather than from price margin. Cattle slaughter will increase by 5-6 percent in 1960 although beef production may not go up so much if fed cattle are marketed lighter. Slaughter cattle market outlook remains fairly optimistic through 1960 but the period ahead is one that calls for caution and careful study of developments in cattle numbers, weather and feed conditions in range areas, and marketing intentions in the feeding areas. Heavy marketing of fed steers and heifers in 1960 coinciding with high pork production could depress beef prices next year. The main price break in this cattle cycle is not expected until in 1962.

Hog Outlook

Increase in hog production which began in 1958 is expected to continue through 1960. Low prices will accompany this high level of production unless hog producers cut back next year's pig crop. If expansion continues, low price point in the present hog cycle will come in the fall of 1960. Cyclical changes in hog production tend to lag behind current price levels and ratios. Critical factor in future hog prices will be the size of the pig crop next spring.

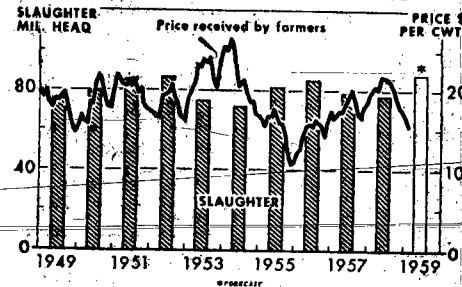

The 1959 pig crop will exceed 104 million. This is 10 percent above 1958 and largest since the end of World War II. Since 1940, only the pig crops of 1942 (104.5 million) and 1943 (121.8 million) were larger. Spring pig crop was 12 percent above that of 1958 and fall crop is expected to be up by nine percent over last year. Most expansion since 1957 has come in the West North Central states following the 1955-56 drought and in the South where hog production is increasing permanently. Nebraska's 1959 pig crop of 4.5 million is 31 percent above the 1957 crop; nationally the two-year increase is about 18 percent.

Hog producers are shifting toward earlier farrowings and more even distribution over the years. December-February farrowings this year accounted for 38.5 percent of spring farrowings compared to the 1948-57 average of 24.3 percent. Note also that fall farrowings increased more from 1957 to 1958 than did spring farrowings. This trend toward more even farrowings and less seasonality in marketings is expected to continue, making it necessary to revise our ideas about seasonal movements in hog prices.

Increase in production has resulted in declining hog prices since July, 1958. Pork production in the first six months of 1959 was 16 percent above the same period of 1958. During the first week in August, it was 18 percent above a year earlier. Average prices of 200-220 lb. barrows and gilts at eight markets in early August were \$8.50 cwt. below the same period last year; soy prices were \$9 lower. The usual summer price rise failed to materialize because of earlier marketings, hot weather in June, and more pork in storage.

For the rest of 1959, hog prices are expected to decline still further, but not so low as in 1955 unless marketings are bunched. The heavier shipments this spring and summer should help prevent a severe decline this fall. Laws of around \$12 for 200-220 lb. barrows and gilts at Omaha are now expected if marketings are even rather than bunched through the fall months. This, plus high beef prices and more people with good incomes, will permit handling the prospective pork supplies without prices quite so low as four years ago.

HOG SLAUGHTER AND PRICE

The nine percent larger 1959 fall pig crop and increasing beef supplies in 1960 will keep hog prices low most of next year. The hog-corn ratio is now about 11.5 as compared with 17.0 a year ago; it will become more unfavorable as hog prices go down this fall. Some producers will become discouraged over low hog profits this year and next and cut back on breeding stock. This liquidation process will add to pork supplies and keep prices low during the first six months of 1960. Abundant feed supplies and new hog production methods will encourage a continued rather high pork output.

A pork buying program by USDA similar to that of 1955 and 1956 will get under way this fall. The processed pork so purchased will be distributed through school lunch and relief programs. Marketings of lighter weights are also being recommended by the Secretary of Agriculture. We would not advise selling at less than 200 lbs., nor over 240 lbs. The threat of large imports of Canadian pork is not likely to materialize because of low prices in this country and the probability of import restrictions.

Lamb Feeding and Wool Outlook

The 1959 lamb crop of 21.1 million heads is two percent above last year and 10 percent above the 1948-57 average. Main increase was in the 13 western sheep states where breeding flocks are being expanded and weather was favorable for lambing last spring. States from which feeders obtain most of the lambs fed in Nebraska show an increase of five percent.

The larger western lamb crop and the shortage of feed and water in some western states will mean earlier marketing of feeder lambs at lighter weights than in the fall of 1958. Choice feeder lamb prices at Omaha in August were about \$4 cwt. less than a year ago.

Profits from lamb feeding have been below average for the past two years. Lower feeder lamb prices may cause over-optimism this fall regarding profit prospects for 1959-60. Fat lamb prices are not expected to be much higher this coming winter than a year ago. Increasing beef and pork supplies and lower retail prices for these meats will create downward pressure on lamb prices. Feeder lambs bought at 60-70 pounds for about \$18 and sold next spring should make some money for the feeder.

Domestic and world demands for wool have continued to improve in 1959. Prices received by U. S. wool growers in July this year averaged 16 percent above a year ago. Wool production is increasing both in the U. S. and world-wide. The increase in consumption following the textile recession of 1956-58 will provide a good market for the expanding output of wool at home and abroad.

Shorn wool incentive payments for the 1958 marketing year amount to 70.3 percent of the individual wool grower's net receipts from the sale of his wool. This payment is made to bring the average return per pound up to the incentive price of 62 cents. The payment rate for unshorn lambs is \$1.02 a cwt. for 1958. These rates will be lower for 1959, reflecting higher market prices for wool. The incentive program continues to March 31, 1962.

Diana Dunklau Shows Ak-Sar-Ben Champion Heifer

DIANA DUNKLAU, daughter of Mr. and Mrs. Marvin Dunklau, Wayne, showed this Angus calf heifer to champion honors over all breeds at the annual Ak-Sar-Ben livestock show last Wednesday. Earlier the calf was named reserve champion at the Wayne county fair. The Dunklau calf was sold for 70 cents per pound at the Ak-Sar-Ben sale, third highest price paid in the sale.

Friday Deadline for Soil Bank Requests

Wayne county farmers have until Friday to take the first step in applying for the 1960 conservation reserve portion of the soil bank, ASC Chairman Carl Sundell reminded today. Friday is the final day farmers may request that a basic annual payment rate be determined for their farm. The payment rate is based on productivity and value of the land for agricultural purposes. After the payment rate is established, the farmer has until Oct. 16 to offer his farm for a soil bank contract.

Development Group Planning Survey Of Wayne's Needs

Plans for a November survey of Wayne's needs to promote city growth were made at a meeting of Wayne's new Community Development Council Thursday night. Representatives of 19 local organizations voted to make the survey to determine needs and methods of meeting them. Named to a committee in charge of the survey were Stanley Morris, Mrs. F. J. Moses and Mrs. Loyd Jensen.

Chairman Rev. S. K. de Freese appointed a publicity committee which includes Bill Richardson, Mrs. H. E. Hein and Dr. Donald Merriman. David S. Carson, Omaha, community development supervisor for Northern Natural Gas Co., explained how the company selected 18 communities in which to promote improvements. Lee Pettig and E. Johnston, Omaha, development specialists, also spoke briefly.

Dixon Woman Wins Football Contest; Picks Eight of 10

Mrs. Anita Saunders, Dixon, defied the advice of football experts last week and won herself \$5 in the football contest sponsored by The Wayne Herald and nine local businesses.

Mrs. Saunders picked eight of the 10 winners correctly in the contest games. She missed only Minnesota's upset of Indiana and Purdue's 28-7 win over Notre Dame.

Second place went to Fred Rickers, Wayne, who predicted the outcome of seven games correctly. Contestants who had only four errors in the week of upsets were Lowell Saunders, Dixon, and Max Lundstrom and Frederick Rickers Wayne.

Games for this week's contest will be found in an advertisement on page 4, section 2. Entries must be in The Herald office or post-marked before 5:30 p.m. Wednesday to be eligible for prizes.

Any contestant who correctly picks all 10 winners will receive \$10. In case there are no perfect entries, the contestant picking the most winners receives \$5. Extra entry blanks for this week's contest may be secured at Nyla's cafe, Arnie's Home cafe, M & S Oil Co., Wayne bakery, Sportsland, Arts cafe, Olson jewelry, Jerry's cafe and The Herald.

Val Peterson Guest at College Campus Friday

Val Peterson, U. S. ambassador to Denmark, will visit Wayne Friday in a busy schedule of public appearances in NE Nebraska. He will be a guest at a noon luncheon at WSTC. Peterson will not make a formal speech. WSTC President W. A. Brandenburg said a number of Peterson's friends have been invited to attend the luncheon. The ambassador, a WSTC graduate, is home on leave this month.

Carlson to Play in KU Orchestra Honor Recital

Irving Carlson, son of Mr. and Mrs. Albert G. Carlson, Wayne, has been chosen by the University of Kansas music faculty to appear in the fall honor recital Oct. 21. He will present a violin sonata by Handel.

Four Rural Schools Requesting Merger

Petitions requesting the merger of four rural school districts in Leslie precinct were filed this week with the Wayne County School Reorganization committee.

The petitions were to have been studied at a committee meeting last night at the Wayne courthouse. The districts involved are 4, 25, 27 and 73.

County Supt. Gladys Porter said all of the merger petitions bore at least the required 55 percent of signatures of qualified electors in the districts.

The petitions request that Districts 4, 27 and 73 be dissolved and merged with District 25. Assessed valuation for the combined district would be about \$950,000.

Current enrollment in the four schools is 40 students. The average tax levy for the districts is 18.42 mills, including free high school tuition.

Wakefield Couple Slates Golden Wedding Sunday

Wakefield — Mr. and Mrs. William Gradert will observe their golden wedding anniversary Sunday with open house from 3 to 5 p.m. at Salem Lutheran church.

Wayne High Grid Royalty to Be Crowned Friday

Wayne High's 1959 grid-king and queen will be crowned prior to the Blue Devil homecoming tilt with Neligh Friday night at WSTC's Memorial stadium. The coronation will be held at 7 p.m. High school students balloted for their favorites in an election Wednesday. Results will not be announced until Friday night.

The candidates for queen are Judy Kollmorgen, Patty Olson, Jane Dunklau, Donna Sherbahn and Jackie Hansen. Vying for the king's crown are Roger Denesia, Bill Witt, Bob Gilliland, Dennis Johnson and Ken Vogel. The Pep club will sponsor its annual grid dance at the high school gym Monday night.

P-TA Conference Planned Tuesday

Allen — Individual action in the home... Collective action in the community is the theme of the annual District III P-TA conference scheduled Tuesday at the Allen Methodist church. Sessions will start at 9:30 a.m. and 1:15 p.m.

Representatives of 17 units in Burt, Cedar, Cuming, Stanton, Dakota, Dixon, Thurston and Wayne counties are expected to attend. A noon luncheon will be held at the church.

Relationships will be discussed at the conference. There will be three members of a symposium to present child-parent relations, home-school relations and home-community relations. Lewis Moody, Norfolk, will present child-parent relations; Dr. Lula Way, WSTC, will present home-school relations and a third member will present the other topic. Mrs. George E. Robertson, Omaha, Nebraska P-TA president, will serve as moderator.

Mrs. Bernard Busby, South Sioux City, is District III director. All district units are urged to send delegations to the conference. All school superintendents are also invited.

Training Meeting Set For Dixon Club Women

Parents agree their children need to learn the use of money, but often find themselves puzzled about how to teach them. Dixon county extension club leaders will learn a few tricks for managing purse strings from Mrs. Elsie DeLanger, University of Nebraska home management specialist, in a training session at 7:30 p.m. Tuesday at Allen. Mrs. Joe Mattes, Wakefield, will be in charge of the meeting.

Wayne High Band Slates Band Day Appearance

Wayne High's band is one of the Nebraska high school units selected to attend the University of Nebraska's annual Band Day Oct. 11.

Pierce Coed Named Freshman Queen

WAYNE STATE FRESHMEN crowned Pat Wieting, Pierce, as "Queen of the Green" Friday night. She was the surprised winner among six candidates when results of an earlier election were announced. Last year's queen, Jean Banks, crowned her successor during the annual freshman dance. Daughter of Mr. and Mrs. H. J. Wieting, the new queen lives in Anderson hall and is a music major.

Over 300 Entered Today In Land Judging Contest

Over 300 entrants from 12 NE Nebraska counties will compete in the area land judging contest at Wayne today. Chamber Secretary K. N. Parke said the total may reach 350.

The contest will get underway with registration at 8:30 a.m. at the 4-H building on the county fairgrounds. Preliminary instructions will be given to contestants there by Soil Conservation Service personnel. Entrants will then go to the field for actual judging.

Contestants will be in five divisions—high school, 4-H, men, women and soil specialists. Winners will be announced at 2:30 p.m. with awards presented by the Nebraska Association of Soil and Water Conservation Districts.

A noon dinner will be served at the Wayne city auditorium.

Area Rock Hounds Attend Meeting at Wayne

ROCK HOUNDS FROM TWO STATES met at the Wayne courthouse last week to compare finds and show samples of their work. The amateur rock hounds also discussed rock finds throughout the area. V. A. Cook, Norfolk, center, is shown here displaying a Fairburn agate he found recently. Others in the photo are (left to right) H. D. Hissong, president of the Sioux City society; Mrs. Allen Johnson, secretary of the Sioux City club; and Al Morris and David J. Hamer, Wayne. Cook is president of the newly-organized NE Nebraska Gem and Mineral society. Semi-precious stones and minerals, some found in Nebraska and neighboring states to the west and north.

Wayne Community Chest Campaign to Open Tuesday

Volunteer workers will start solicitations Tuesday morning for Wayne's annual Community Chest fund campaign. Goal for this year's drive is \$7,870.

A kickoff breakfast for business area solicitors will be held at 7 a.m. Tuesday at Hotel Morrison. Clarence Kuhn is in charge of the event. Workers will start making the business canvass immediately after the breakfast.

Women workers in the residential area drive will meet at 2 p.m. Tuesday at the hotel. They will make solicitations Tuesday, Wednesday and Thursday and a final checkup of receipts is planned Friday.

A total of 12 agencies will share in proceeds of the 1960 campaign. The Medical Research fund has been added. This agency was organized in 1949 to promote basic medical research.

Other agencies taking part are Boy and Girl Scouts, Salvation Army, Red Cross, USO, youth activities, remedial speech clinic, blind American Social Hygiene association, National Travelers Aid association and underprivileged children.

City's New Drug Store Opens Operations

A BOOM TRUCK was required to hoist the sign in place for the new Sav-Mor Drug store at Tenth and Main streets. A segment of the sign is shown above being lifted into place. The drug store, now open, is owned by Dr. L. A. Jensen and Wayne Marsh. Workmen this week began blacktopping operations in the parking lot between the store and Arnie's Superette. The store will be managed by Roy Hinz, pharmacist, who moved here from Lincoln. His son, Charles, also a pharmacist, will assist him.

Local Firemen Hold Business Inspection

Wayne volunteer firemen are conducting an inspection of business buildings in Wayne this week as a part of the observance of National Fire Safety week.

Plans of each business building will be made for each firm and for records kept by firemen. Recommendations will be made where fire hazards are found; Chief Lee Swinney said.

Warren Bilson, Joe Dorsey and William M-flor comprise the committee in charge of the inspection.

Check lists have been sent home with local grade pupils to make families more aware of existing fire hazards. A contest is in progress for second, third and fourth slips to see which returns the grades most promptly. A banner will go to the winning grade.
