New Certified Seed Directory Available

The new 1960-61 fall and winter dition of the Nebraska Certified

The new 1980-81 fall and winter edition of the Nebraska Certified Seed Directory is now available, according to Harold Ingalls, county extension agent.

This directory lists the certified seed growers of hybrid torn, hybrid sorghum, oats, spring barley, bromegrass, alfalfa, sudan, sweet clover, soybeans, sorghum varieties and other grasses.

In general, there are three requirements for Nebraska certified seed. First, only varieties approved by the Nebraska Agricultural Experiment Station may be certified. Second, the field and seed must be inspected prior to harvest to see that it is free of noxious weeds, varietal mixture and disease. Third, the seed must pass the requirements established for germination and purity in the laboratory before it can be sold as INebraska Certified.

Certified.

Copies of this new 1960-61 fall and winter Nebraska Certified Seed Directory may be obtained by writing to the Nebraska Crop Improvement Association, College of Agriculture, Lincoln, or by contacting Ingall's office.

He added that request for Federal qostsharing to aid farmers in establishing approved conservation practices for the protection of our limited soil and water resources will be accepted at the county ASC office.

in previous years.

The program has been carefully worked out to meet the most critical conservation needs in the chun ty. Special emphasis is again being placed on the practices which provide long-range conservation benefits. These practices are ivery vital and, by their application on farmlands, we are insuring society that our productive resources 'will hat our productive resources' will

farmlands, we are insuring society that our productive resources will be retained, he said.

Participation in the ACP, Isays Morris, is entirely voluntary. However, each and every farmer and land owner having erosion problems will be given the opportunity to request Federal cost-sharing assistance to aid them in carrying out needed eligible conservation practices on their farms.

The cost-share rates for the

practices on their farms.

The cost-share rates for the various practices are established at a level whereby the Federal government will share about 50 percent of the average dost of performing the practice. The farmer must bear the remaining cost of completing the practice. This policy is referred to as cost-sharing.

In both games the Wildeats trailed by a slim margin at half time, and/both times surged ahead after intermission to gain wide margins. However, they did not hold their advantage over La Crosse and finally lost in a heartbreaking way—on a pair of tie-breaking free throws from a foul just as the game ended.

With 2½ minutes to play Le-Crosse field the scoring with 13.

Crosse field the count at 63-all, then soon regained possession on a, Wayne fumble. After stalling out the clock, La Crosse broke for a field goal attempt, and Wayne's Dennis Torgerson fouled Dean Conrad. The buzzer had ended the game when Corrad connected on both free throws.

Charles Rachow scored 20 points to lead both teams for the second high. Against Winona Friday he canned 23, with 10 long corner shots and three free throws. Victory over Winona was the second for Wayne, whose coach, Al Svenningson, graduated from Winona in 1588. The Winonans lost to Wayne, 85-74, here a year ago.

Wayne State's dean of instruc-tion, Dr. Karl Meyer, will tak-part in a television program Fri day concerning higher education

WSTC, superintendent of Wayne Prep and dean of the college, has been named head of the depart ment of vocational education at Iowa State University, Ames.

He will serve as chairman of the ISEA legislative committee during the meeting of the fifty-ninth General Assembly.

Extension Leaders Meet To Plan 1961 Programs

The special leaders of the Wayne County Extension council met with their respective Extension leaders Friday afternoon to plan a county wide health, citizenship and reading program for 1961. Mrs. Irving Anderson, county health chairman, Mrs. Wilmer Deck, county citizenship chairman, and Mrs. Levi Rotserts, reading chairman, had charge of each of the three sessions.

The health program will includ-reports on polio, heart, menta health, cancer, looking forward to later years when the unexpected happens, and tuberculosis.

happens, and tuberculosis.

Topics for the first three months on citizenship will be "The Family Looks at Highway Safety!" 'Danger: Poison in Your Home" and "Nobody Wants to Have a Fire.'

Some reading topics to for the year's program will be "Finding Diamonds of Satisfaction at Home." "Young Lincoln," "Our Heritage," 'Vanilla, Frut of an Orchid" and striving to find ways of encouraging family reading.

Extension office, according to Harold longells.

Tree planting is growing each
year in Wayne county, as it is all
over betraska, and the state Extension forester Karl Loerch, s.ad,
"Even though Nebraska his plant
ed an enormous number of trees
through the Clark-McNary program, there is still a great need
for windbreaks for protection."

The NR Nebraska forester, Dick
Gavit, said that Wayne county can
well afford to plant trees for wild
lafe propagation, for lumber theaugrand and for Christmas trees, as well
as for home, livestock and crop protection.

Ingalls said he has at the office
the recommendation for trees by
the two foresters that are well suited for this area.

what the preacher says in his sermons.

Me and you was raised up, I reckon, in the old school where the main thing was what the preacher had to say ever Sunday. Fer instant, the preacher we got now gives us a hard time and I doubt if he'd be very popular with the new generation. He told us Sunday that about one-fifth of us wore out the knees of our pants praying and the other four-fifths wore out the seat of our pants backsliding. Just between you and me, Mister Editor, I fig. ger he's a little too hopeful about the first one-fifth. But he gives it to us straight from the shoulder

Dec. 11, 1930: Reindeer from Finland will be in Wayne Tuesday with Santa Claus as one of the chief features of the pre-Christmas festivities planned by Wayne business firms. The animals, Eskimos and Santa will arrive about 2:30 p.m. and stay until 9. They will come from Hartington ... G. R. with the most parking space and wasn't thinking about the preacher. Sam said he would go along with this up to a certain point, but he allowed that folks was also considering the shortness of the sermon along with the parking space advantage.

And I wouldn't be surprised. Mister Editor, if in the next generation, these things won't be as important to a heap of folks as what the preacher says in his sermons.

and it's good fer us. I'm afeared the next generation is going to have plenty of parking space, be long on air conditioning and the shortness of the sermon and also a little short on honest-to-goodness religion.

From what Ed was telling us Saturday night, his preacher bears down even harder than mine. Ed said his preacher took a peek at the collection plate the other Sunday and remarked that when he first come to that church he announced the pore folks was especial welcome ever Sunday.

"After looking at the collection plate," he said, "I see they are all present this morning."

The fellers got off the sub-

plate," he said, "I see they are all present this morning."

The fellers got off the subject of preachers and got to talking about our foreign policy. That's one thing can't nobody argue about on account of nobody knowing nothing about it. I was reading, fer instant, where the English say our foreign policy toward Cuba has got them confused. That's the first time in several year that the American people and the English people

has been 100 per cent together

on our foreign policy. A bomb dropped on Washington will kill just as many Democrats as Reon somepun.

Omaha Market Hog Show Features Two Innovations

It is going to cost more to operate state government during the 1961-63 two-year period. This is no surprise in view of the upward trend of the past years. How much more is the question.

How much more is the question.

Gov. Dwight Burney says be will recommend in more than a total hike of 10 percent in property taxes levied for support of state government. That would put the total at around some property taxes levied for support of state government. That would put the total at around some property and the same property of this.

The result: more outlay from taxpayers for state government. Burney also is expected to recommend adoption of a sales tax when he gives his budget message to the lawmakers. He has long advocated such a leyy. There will be much argument over the sales tax in the coming session and apparently considerable support among the legislators for the broadened basis. In past sessions there has always been a hard core of solons in favor of a broadened base. Burney, les a legislator, nearly got a sales tax enacted, losing by three votes.

While there thave been numerous senators favoring a broadened base they have not been able to get together on what

Capital Maintenance

Rewiring of the state captor will require expenditure of \$125,000 in the next two years. That's the report of James Delehant, superiffendent of buildings and grounds for the state.

The rewiring has been underway for several years to accommodate the flood of mechanical equipment in the building. An appropriation of \$85,000 y a smade by the 1950 Legislature to continue the rewiring project.

The extra money is needed the next two years, Delehant reports, because of higher labor and material costs.

Special Session

Special Session

Nebraska's lawmakers will meet Dec. 12 in a special session to set pay of the solons. Gov. Dwight Burney formhally fixed the date at Dec. 12 after this had been recommended as the time to start the session by the senators.

The special session is necessary in order that the Constitutional amendment approved Nov. 8 hoosting pay from \$872 per year to a maximum of \$2.400 became effective in January.

As passed the amendment is not self-enacting and needs legislation to fix the level of pay. There appears little doubt but what the senators will set amount at \$200 per month—the maximum allowed.

The session will include the proposal to boost the pay, and a bill to pay session expenses, estimated at about \$5,000.

Scientific Fact
The bumblebee cannot fly.
According to the theory of aerodynamics white may be readily demonstrated through laboratory tests and wind tunnel experiments the bumblebee is unable to fly. This is because the size, weight and shape of his body in relation to the total wing spread makes flying impossible. However, the bumblee, being ignorant of these profound scientific truths goes ahead and flies anyway and manages to make a little boney on the side.
