## C. Swanson Marrys B. Asbra in Rites Friday at Concord

Concord — Chery I Swanson, daughter of Mr. and Mrs. Gunnar Swanson, and Bernard Asbra, son of Mr. and Mrs. Edward Asbra, were married Mar. 16 at Concordia

Rev. S. E. Peterson officiated at the evening candlelight ceremony.

Mrs. Iner Peterson accompanied Mrs. Ronnie Wert who sang "Because" and "The Lord's Prayer."

The altar was decorated with white carnations, snapdragons

muins.
The bride, given in marriage by her father, wore a white hallerina length taffela gown with three-quarter length sleeves. The chantilly lace neckline was trimmed with iridesents a nd featured a high front with low V back and needed commerchant

pleated cummerbund. Her shoulder length veil fell from a pearl tiara. She carried a cas cade of white pompons with orchic

net Mrs. Roland Hellbusch, Humphrey, served her sister as matron of honor. She wore a ballerina length gown of orchid net and lace. She wore a white carnation cor

sage. Gerald Asbra was best man and Eldon Haisch and Roland Hell-busch were ushers.

busch were ushers.

The bride's mother chose a navy blue dress with blue and white accessories, with a corsage of white carhations.

The bridegroom's parents were unable to attend because of bad roads.

roads.

The wedding party had supper at a Laurel restaurant following—the ceremony. Mrs. Bob Dempster had charge of the guest book.

Because of the storm, reception was postponed and will be held Mar. 25, at the Concordia church paillors.

For her going-away ensemble the bride chose a black and white suit with white accessories.

h white accessories.

the bride has been employed at

Wayne county courthouse.

The bridegroom is employed by

Ray Dickey.
The couple will reside in Laurel.

Terry March, Junior at St. John's Milliary Academy, Delafield, Wisreceived a sliver star award for the honor roll last week. March ranks fifth in his class and eight each in the academy. He is spending pring vacation with his parents, Mr. and Mrs. Phil March.

The Wayne (Nebr.) Herald, Thursday, March 22, 1962

### **High School Scientists** Display Work Friday

Display Work Friday.

The work of high school scientists will be on display Mar, 30 in the annual. Science Fair at Wayne State college.

With entries still coming in from NE Nebraska high schools, indications are that this year's show will equal or surpass the 1941 edition in number of schools and students displaying.

Last year well over 100 students exhibited their projects from 18 schools. Some of the projects revealed remarkable ingenuity, and some had required original thought on high levels of science and mathematics.

The public is invited to visit the show starting at 9 a.m. in the college science building, Exhibits will be ion display until at least 12:30.

At the same time, several health spirit in the Com library lounge. The Science Fair is sponsored by the Northeast. Nebraska, Junior Academy of Science. Irvin Brandt, secretary, and a member of the college faculty, is in charge. Robert Sutherland, also of the science faculty, is organizing the Health Fair.

## The Wayno (Nobr.) Herold, Thursday, March 22, 1962 Talent Show and Awards Highlight Girl Scout Week

To highlight Girl' Scout Week and the 50th anniversary of Girl Scouting, 114 Wayne Girl Scouts participated in a talent show last Friday at the city auditorium. Mrs. Dick, Kern, Neighborhood Chairman, spoke on scouting. Troop 306 presented the opening flag ceremony.

## EDITORIAL COMMENT

The editorial department of a weekly news r is an important department. Normally it is person's opinion of topics that concern most

the readers.

It is the duty of an editorial writer to search available facts before he sits down to write, and this basis, the writer should be able to give elear picture of important topics.

#### Force and Coercion

Force and Coercion

It has taken us 30 years to find out that you can't intervene in farm market prices to support farm prices with subsidies. We've slaughtered the pigs, plowed under cotton, cut production by cutting acreage (so we thought), we've had the food stamp plan, the 90 percent of perity, the Brannan plan for outright subsidy, the flexible parity, a series of overseas surplus disposal plans and actual withdrawal of land where we paid farmers not to plant. They've all failed.

Now we've got the Freeman-Kennely farm program. At first study it would seem more of the same. But donse in the study is the study it would seem more of the same. But donse in the study it would seem more of the same. But donse in the study is the study it is study it would seem more of the same. But donse in the study is the study it is study it.

The program is to slash production below the needs of this country for several years to come. It's like a doctor attacking an infected finger by cutting off the hand. It's ruthless,

The new program has both marketing quotas as well as acreage quotas. At present a wheat farmer at least has the freedom to market his wheat so long as the wheat is produced within his acreage allotment. Not so under Freeman's plan. It would clamp fixed limits on the wheat the farmer could market for food and export, irrespective of the number off acres on which the wheat is grown.

And as to the force and coercion,

**Legislative Council Reports** 

On Lawmakers Fall Agenda

You may not agree with an editorial — but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

here's how that will work. Should the farmers reject the controls on wheat and feed grains they would lose not just a portion of the price-support level but ALL PRICE SUPPORTS entirely and all DIRECT government payments. The penalties on individual farmers who overplant their alloted acreage are also increased to a prohibitive level.

Suppose the farmers reject the program nationally. What happens? That has all been figured out, too. The government has the right to dump at once 10 million tons of feed grains and 200 million bushels of wheat on the open market. This would break the market wide open. And they say the farmer has a choice!

There's but one approach we think and that is the return of farming to the freedom of the market place. For the first two years it would be rough, but if the cattlemen can do without price support and the rigid controls it involves, why not the wheatmen? Under this Freeman program we can only see the same failure that has hit the collectives wny not the wheatmen? Under this Freeman program we can only see the same failure that has hit the collectives in Russia. Calvin-Goolings 2010 In a few short but succinct words back in the 1920|s when he vetoed the McNary-Haugen farm bill — "Government price fixing once started, has alike no justice and no end."

## Co. Agent s Heroid Ingalis Column

Legislature put money from a tax on motorboat fuel into a special fund from which counties could draw en a matching basis.

According to records kept by the State Highway department, the per mile combined cost of erecting, taking down and mak-ing allowance for depreciation of slat fencing and posts is \$500

"In Nebraska we can always plan on snow, wind and the feed to travel roads regardless of weather conditions. A row of trees planted on adjoining land to the highway and parallel to it would furnish good permanent protection at a reasonable cost." says Benson. "The trees, if planted at the proper distance from the road will deposit the san ow in the fields where it would be a benefit, rather than in the road where it is not wanted. Just finished another three-week sojourn at the Mayo clinic, and brother was I ever glad to get home, even though I arrived in Sioux City Mar. 12, which was about the roughest day, of the prekent really routen winter. Sometime ago, in this teolumn, I told you I had been lately un-derroing a course of treatments

Land owners are not responsible for the profession of wads, from snow drifting. However, they do feel obligated to cooper-ate on projects which make for a wiser use of public funds. Tax money spent in giving special consideration to land owners who

money spent in giving specialconsideration to land owners who
would establish such protection
certainly would be justified,"
Benson stated.

County highway officials are
concerned with the winter costs
of keeping roads open and would
welcome a less costly method.
Land owners could make the
plantings as part of their soil
and water conservation program.
Cost-shaping is possible through
the ACP if planted according to
specifications. The trees would
become effective five years after planting and would eliminate
the need for future snow fencing
and the anxiety of closed roads
to any community.

Science At Winside

and the auxiety of closed roads to any community.

Science At Winside

The wonders of agricultural science, including such diverse subjects as climatology, tailor-made flours, atoms in soil science and space age appliances, will be unfolded to select high school students.

Students who rank in the top 25 percent scholastically of junior and senior classes throughout the state are eligible to attend the Science in Agriculture conference at Lincoln Mar. 24. Five Winside high school boys will be among those in attendance: The Wayne Kiwanis club has arranged to provide transportation for this delegation.

wayne Kiwanis club has arrang-ed to provide transportation for this delegation of the conference at the College of Agriculture will feature 14 agricultural science de mon-strations conducted by U ni-versity of Nebraska research-ers.

versity of Nebraska researchers.

The conferences are designed to call to the attention of high school students:

—The professional opportunities in science as applied to agriculture based on the need for more scientists for continued development of the nation.

—The value to the U. S. of scientific developments in agriculture.

scientific developments in agri-culture.

—The fascination of scientific research and accomplishments of agricultural scientists.

—The place higher education takes in the preparation of sci-entists.

3. Use a medium/fine needle, with a longer stitch (10 to 12 stitches to inch) and a looser ten-

DEAR MISTER EDITOR::
I was reading this piece ye., terday by one of them Washing-on column wrifers where he was wondering about the proper way to eat corn on the cob if he was invited to the White House. He don't know if he 'ought to hold his head still land move the ear of corn, or move his head and hold the corn still. This proves a couple things about Washing-

sides away from each other to keep the foam from sticking.

6. If the fabric does not move through the machine easily, place tissue paper underneath the foam. Tear the tissue away after stitching

foam. Tear the tissue away after stitching.

7. In pressing, set the temperature of the iron for the outer fabric. If pressing with a steam iron, use the steam setting. When pressing seams open, place paper under the seam allowances so the iron will stide smoothly over the foam. Slash darts whenever possible and press open to eliminate bulk.

many bused was a marked bulk. Anna Marie Kreifels, Extension clothing specialist at the University of Nebraska suggests that special care be taken when butting buttonholes in garments made of these fabrics. Either a machine or a bound buttonhole may be used. However the specialist advises the home seamstress to make sample buttonholes first to see which will be the easiest for the particular fabric being used. It may be necessary to have them made professionally or to reinforce them with an iron-on interfacing.

Hot Water and Synthetics are very sensitive to heat. Most labels caution against a hot iron. This heat sensitivity places some limits on laundering. To remove greasy soils, the water must be fairly hot—about 140 degrees and the washing agitation should benormal. But many of the heat-sensitive synthetics wrinkle badly at this temperature and agitation. Decide what you want—to have more of the soil removed and have more wrinkles, or vice versa.

The bulletin E. C. 60-1132

ton column writers. They has run out of somepun to write about and they ain't had much experience with eating corn on the cob. I ain't shore what is proper at the White House, but this feller will find that moving the head in one direction and the corn in the other at the same time is the best fer greatest speed and efficiency. It is also very proper at my house. Incidental, it seems to me the human race is paying more attention to this eating business than ever before in my life time. About half the stuff you read in the papers and magazines these days, especial the sections fer wimmen in the big dailies, is about eating.

Fer instant, I see in the paper today where a child expert says if you have company and ain't got room fer leverhody to eat at onct, to feed the younguns afore the adults eat. That's a heap different from the way I was raised. When we had company to eat, which was about all the time, the younguns had to wait till the growed-ups got their fill afore we got a mouthful. That's why I was 16 year old afore I knowed a chicken had anything but neck and feet.

And I was reading a magazine piece the other day where them seience fellers with the National Institute of Health has rome up with a food made out of coul, air and water that is set concern, frated a small actory van prej due enough of it to fred millions of people. They statin it contains everthing the human body needs to keep heal hy.

body needs to keep healthy.

I got a hunch it don't taster none too good and an't liable to tut the farmer and rancher out of business, but I was thinking it we might use it to plut them Communists out of business. The people with empty stonaches before the ones most apt to, swardow the doctrine of Communism'. We could set up these larchries in countries; where folks, is starving to death and feed all the hungry at a small cost. It would be a

to death and feed all the hingry at a small cost. It would be a hard blow to Communism in countries like China, fer instant, Bit on account of me not going to Harvard, I ain't on the President's board of advisers and it would be a heap better fer my Congressman—and be iddn't go to Harvard neither—to write Bobby Kennedy a letter. Well, Mister Editor, I got to quit now and go see what my old Jady is cooking fer supper.

Personnel Sketches
There have been some changes in personnel in the Capitol, but one familiar person remains.

Mel Steen, director of the State Game Commission, has another six-year pact with the state, at a higher salary. He will get \$13,620 per year, second only to the governor's \$14,000 in the Capitol. Steen previously had been paid \$10,500.

braska teachers in the board's hands. Such authority now is vested in the Legislature.

vested in the Legislature.

However, the State Board of Education did not take a firm stand urging that it be specifically given the licensing authority, and declined to entirely accept the Council's recommendations on certificate regulation changes.

Under the proposal by the Council, the board would have the power to issue, renew and revoke licenses and place limitations on the areas in which a teacher could instruct.

an opening hand.

gned as a member of the com-ission to run for the Legisla-

mission to run for the Legisla-ture.

Lee Rising, assistant director of the State Resources Division, resigned to accept a position in Texas.

The secretary of the Advisory State Highway Commission, Ed Finigan, has been named director of the Federal Crop Insurance program.

Interstate Highway A problem that has developed on the nation wide Interstate Highway system has been report-ed by Robert Meyer, traffic en-gineer for the State Highway De-partment.

gineer for the State Highway Department.

Meyer said speed limits on the Interstate in the various states range from 50 to 75 miles per hour. Nebraska's is 75 miles per hour while lowa has a limit of 70.

The traffic expert said national highway officials are studying the problem, which he feels can be corrected by legislation in the various states without Congressional action.

A committee of the highway officials has recommended Legislatures give their highway departments authority to set speed limits as necessary.

State Song
One of the jobs of the 1963 Legislautre may be the selection of
a state song for Nebraska. The
Nebraska song competition now
is underway, with the deadline
set for Apr. 1.

| Emanuel Wishmow, professor
of music at the University of
Nebraska, said the State Song
committee will make a final
selection which will be submitted to the 1963 Unicameral.
Professional or amateur song
writers may amer the contest.
The 1961 Legislature author-

writers may enter the contest. The 1961 Legislature authorized a competition in order that the state may have a state song just as it now has a state bird, flower and tree. Because of the emotion involved in such a selection, final action could be less than tranquil in the Legislature.

Access Roads

Access Roads

Gov. Frank Morrison says he is "very disturbed" that Nebraska got short changed in the amount of land Army engineers acquired around Lewis and Clark Lake as compared with the land received by South Dakota.

The result permitted the Federal government to build highways to recreation areas on the South Dakota side, but made construction difficult on the Nebraska side because of the limited amount of land, the chief executive said.

He said a bill passed in the last Legislature was a last ditch ma-

in recreational areas.

The governor said it cannot be expected that far mers should relinquish their farm to market rads in order to give fishermen reads to recreational areas. Morrison said "We want a way to get both types of reads without refarding the farm to market read program."

A retroactive hill by Congress

A retroactive bill by Congress

Run-off from snow causes more gully erosion than any other source. Farmers, who have shaped and seeded their waterways are prepared. Even though a waterway is well established, it should be checked for damage after the spring runoff and given proper or maintenance. Several farmers are making plans to have some of their guilles shaped and seeded this spring.

The cooperators who have new farm at little of this runoff. Eugene Brudigan, and Harold Ulrich, Winside and George Langenberg, Hoskins, who built ponds last fall plan to stock them with lish as soon as they hare full of

last fall plan to stock them with fish as soon as they are full of water. A farm pond that has the runoff area terraced to prevent sitting makes a nicel place for swimming, fishing and family fun.

The past week has stressed importance of a good farmstead windbreak more than any time the past several years. Fred Utecht and Wilbur Utecht, are planting new windbreaks on their farms this spring. The SCS Office is still assisting farmers with their windbreak

DEAR MISTER EDITOR:

thief."

The other day which I was watching the progress of John Glenn in his orbital flight, I got to marveling at the wonders and progress of science. Here was a mail being deliberately sent out into space and brought ho me alive through science, and all around me were men and women who were being healed and given back to the world alive, well and useful again.

back to the work and the work again.

Believe me, this is quite an old world after all — one that we should appreciate while we can. You know we go this way instructed.

## Extension Myrtle Anderson Notes

Kitchen-Family Rooms

Kitchen-Family Rooms
Kitchen-family rooms are becoming more and more popular
with those who are building or
remodeling. The "togstherness"
of such a room provides for family activities, notes Magdalene
Pfister, Extension home furnishings specialist at the University
of Nebraska.

or such a foom products of tame ity activities, notes Magdalene Pfister, Extension home furnishings specialist at the University of Nebraska.

However, there are some things you may want to think about before you start to plan. Some homemakers have indicated that a kitchen-family room combination has these drawbacks: the family room contains too much activity at one time; the room is unsightly lafter meals if guests enter; the cooking area is, visible to dining and living areas; and storage isn't adequate to handle equipment for all activities.

Foan Laminated Fabrics
Does your spring sewing include working with foam laminated fabrics?

Homemakers who are a little hesitant about using these new fabrics needn't hesitate, as the permianently bonded foam backing has many advantages.

Gerda Petersen, Extension clothing land textiles specialist at the University of Nebraska, offers some simple suggestions to help sew laminated fabrics with confidence:

1. Select a simple pattern with a minimum of darts or details.

2. Lay the goods with the foam

The bulletin E. C. 60-1132
"Hand" Launder by Machine is available upon request from the Wayne County Extension Office. It has many helpful suggestions in the laundering procedures for synthetics such as nylon, orion and acetate fabrics.

there's always enough hot water with GAS

A gas water heater heats water faster than you can use it. The moment you turn on the tap, a searing flame goes to work heat-ing water to replace what you use, it costs less to heat water with gas, too So for economy, plenty of hot water always, and trouble-free operation, don't settle for less than gas. And, to make wash, day a free and leasy day, get a gas clothes dryer. Your clothes come out sweet and fresh and fluffy soft. 
If you live beyond the gas mains see your friendly LP dealer.

WASHDAYS ARE SHORTER AND SWEETER WITH GAS PEOPLES NATURAL

## 50 Years of Progress

The Wayne Girl Scouts were organized in the late 1920's and have served their community and themselves steadily since that time. There are now 180 girls in organized Scouting in Wayne, with 41 adults aiding them. Each year a full program of character building and service to God and community is planned and corried out by them. We salute these girls, and wish them another half-reptury of progress.

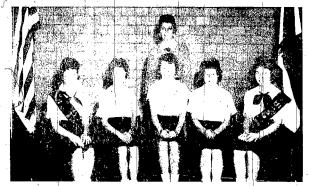

BROWNIE TROOP 193: Mary de Freese, Peggy Harrison, Pamela Roesler, Beth Burgt, Kathy Fletcher, Vivian Johnson; bock row: Mrs. Gene Fletcher, Markee Hansen, Mrs. Don Hansen. Not shown: Donna (Sue McClaniell and Peggy Barner.
