One of Broadway's major musical hits, "Kiss Me Kate" will be on Wayne State's stage Oct. 29, 30, 31, with a large cast of college students.

Critics acclaimed the show "a lusty marriage of Shakespeare and Cole Porter," with the story based on the bard's "Taming of the Shrew," and music by Porter.

Three of the leading roles are played by students from Wayne—Mike Karel, Larry and Jerry Brandstetter. Also in top roles are Mickey Weber, Plainview, Jane Paup, Bagley, la.; Dave Anderson, Schuyler and John Soulliere, Columbus.

The production of a major musical like "Kiss Me Kate" has brought together the combined talents of dramatics, music and art departments. Dr. Helen Russell is directing the dramatic and technical phases; Prof. Russell Anderson, the music.

## Wayne Sailor Has Part in Space Capsule Recovery

"Yesterday will long live in my memory. The recovery was beyond belief!"

These were the opening words of a letter written by James Hughes, IC2 USN, to his parents, Mr. and Mrs. Wallace Hughes, Wayne, the morning after the aircraft carrier USS Kearsarge successfully recovered the Sigma 7 capsule from the Pacific Ocean near Midway Is-

land, Oct. 3.

Hughes is the chief operator of landing mirror aboard the Kearsarge, being one of six men from both coasts specially trained in Philadelphia last winter.

"We were kept informed of the astronaut's position after the start of the fourth orbit," Hughes wrote. "We waited and watched the sky. Then he literally dropped into our laps."

"The drogue chute was visible for about three seconds before the main chute opened to float him down. He landed within two miles of the ship and in a matter of minutes the ship was alongside the capsule."

"I think it was stupendous, the precision with which they hit the recovery position," he said. "At 17,500 mph a fraction of a second would make a vast difference."

Hughes said they transferred the capsule to a tug boat at Midway Island and his ship continued on to Pearl Harbor, arriving last Saturday.

Fifteen high school bands from Northeast Nebraska will lend zest to Wayne State's annual homecoming parade Saturday, and they will perform at half-time of the afternoon game.

Dr. Raymond Kelton, director of the Wayne State band which will lead the 10:30 a. m. parade on Main Street, has received arrangements from these schools:

Bankroft, O r c h a r d, Stuart, Battle Creek, Wakefield, Emerson-Hubbard, Dodge, Lyons, Tekamah, Laurel, West Point, Creighton, Pierce, South Sioux City and Wayne. They will appear in the parade in the order named.

Band members will eat lunch in the college's new Student Center.

Starting at 1 p. m., the bands will begin a procession into Memorial Field, marching around the track as spectators assemble.

Then at half-time the 16 bands—with some 680 musicians—will stage a marching-playing show, which they will have practiced together in the morning. A special feature of the half-time show will be a fire baton twirling routine by Wayne State Majorette Kay Hoopstra, Octavia.

Band members will eat lunch in the college's new Student Center.

## Special Kickoff Breakfast to Start Community Chest Drive

### Chamber Asks Council Aid in Parking Problem

Representatives of the Wayne Chamber of Commerce board of directors and other members met with the city council Tuesday night to ask aid in helping solve the city's downtown parking problem.

Spokesman for the group, K. N. Parke, explained that too many employees of the downtown businesses park on the main street and adjoining side streets, taking up parking spaces that could be utilized by customers.

He said the Chamber had talked about asking for two-hour parking but should have aid in determining what streets to limit parking on.

Councilman Dave Ewing suggested the businessmen ask their employees not to park on the main business streets or that the employer could pay for their employees parking in the city's one commercial parking lot.

Chamber officer Bob McLean told councilman Ewing that this had been successful in some cases, but in others it had been very unsuccessful. He said he felt the plan had merit, but only with 100 percent cooperation.

Other Chamber members and councilmen listed their views but no point of action could be reached.

Mayor B. J. Brandstetter told the group he felt it wasn't the city's place to solve such a problem and that the Chamber should work out more definite plans concerning it.

Councilman Kent Hall suggested that a committee be appointed to work with the Chamber and report to the mayor and council. Later in the meeting Mayor Brandstetter appointed Chris Tietgen, Ed Smith and Hall to such a committee, but without definite instructions.

In other council action, \$134,000 in various purpose bonds were sold to Storz, Wachob, Bender at 2.955 percent. The bonds cover paving and sanitary sewer work.

## Dial Telephone Equipment Here

The bulk of Wayne's new dial equipment arrived in town this week, according to B. H. Eiting, Northwestern Bell manager.

"The equipment manufactured by Western Electric is a vital part of the Number 5 Crossbar System. A good share of it was produced in the plant at Millard, Nebraska. This system is designed to provide Wayne with the most modern telephone service available," said Eiting.

"It will now take several months for the Western Electric crew to install the equipment in the new building addition. It will then be thoroughly tested to make sure it is ready to take over handling the calls."

Local telephone men will be trained to operate the equipment. After the changeover, some of the old apparatus will be removed from the present building to make room for additional equipment in the future and for larger business office quarters.

## Police Record Two Accidents this Week

The Wayne police department recorded two accidents during the week, the first occurring Saturday when John N. Einung, Wayne, pulled out from the stop sign at the corner of First and Pearl, going south. His auto was struck in the side by one driven by Cynthia Sommerfield, Wayne, who was going west on First street.

Damage to the Einung auto was estimated at \$75 and damage to the Sommerfield auto was estimated at \$100.

The second mishap occurred Tuesday morning when, according to police reports, LeRoy Otte, Wayne, pulled away from the Post Office and his auto was struck in the side by one driven by Mrs. Lillian Granquist, Wayne.

The Tri-County Farm Bureau Talent Find Contest will be held in Laurel Oct. 28 starting at 8 p.m. A suitable location has not been determined as yet.

Youth of farm Bureau families are urged to enter, and if interested, they should contact Mrs. Bernard Kinney, Rt. 1, Wakefield.

Methodists Plan Special Services To Start Sunday

Dr. Wesley H. Hager, pastor of the Grace Methodist Church, St. Louis, Mo., will be guest speaker for a series of special services to be held in the Wayne Methodist church, Oct. 14 to 18.

A kickoff breakfast to end kickoff breakfasts will be held Monday to start the annual Community Chest drive.

The Chest has set a goal of \$8,400, which is within a few dollars of last year's total. This is the 10th year for the Community Chest, and the reception of the "Give Once For All" program has been well received.

But the kickoff breakfast that has been planned starting at 7 a.m. should give the Chest drive more of a running start than it has ever had.

Girl Scouts will begin calling block chairmen and workers at 6:30 a.m. and giant aerial bombs will explode between 6:45 and 7 a.m.

The girl who is able to get all of her list of names to the breakfast will receive a prize. Calling will be Diane Wischhof, Pamela Hughes, Karen Christensen, Wilma Marra, Marlys Hank, Nancy Revid, Donna Echterkamp and Marilyn Nuerberger.

Wayne police officers will personally escort to the breakfast anyone who is on the list but not present when the serving starts.

There will also be Crying Towels

to those who have objections.

Boy Scout John Brandstetter will recite a poem and those in attendance will be required to drop \$1.00 into a container on the table at the end of each verse.

# Wildcats Roll to First Win; Defeat Doane 55-14

Wayne State gridders started a fire last week that even rain could not put out — the Wildcats whipped Doane 55-14 — and the fire blazed all this week in anticipation of Wayne's homecoming game Saturday afternoon.

However, the gridiron foe, Chadron State, also won its first game in four tries during its homecoming last week, and the result should be a close-fought match.

Game time is 2 p.m., following pre-game homecoming ceremonies starting at 7:30 p.m. at Memorial Stadium.

When quarterback Dean Debuter hit Kileoin for a TD pass covering 40 yards.

Gene Hinrichsen, ordinarily a defensive halfback, ran the score up another six points late in the game when he scooted 13 yards for the first touchdown of his two seasons with Wayne. The kick for point this time came off the left foot of Kileoin.

Observers shook their heads in amazement as rain, throughout

the game, added to the wide-open running and passing tactics. Coach John Jermier pointed in his reserves through most of the second half, using everybody but injured Dick Chuchon.

For the hit with Chadron, Jermier expects nearly all his wounded warriors to be ready for action, except possibly Chuchon. And Wayne likely will need full power to top the Eagles, no doubt still smarting from the 23-0 homecoming loss Wayne inflicted last year. Over the long series between the two schools, Chadron has won 19, Wayne 16. They never have tied.

Jermier has lagged senior center Gary Fox and junior guard Bill Puetz as captains for the game in recognition of their durable play this season, both on offense and defense.

# Blue Devils Bow to Neligh 9-7; Meet Stanton Friday

Neligh made a first quarter field goal stand up for a 9-7 victory over Wayne High Friday night.

Tichota kicked the field goal early in the first period when a Neligh drive sputtered to a stop on the Wayne eight. Then Melcher punched over following a sustained drive to make the score 9-0. Tichota had an opportunity to add one more point, but his PAT failed.

The ball from the Neligh 30 to the Neligh five yard stripe. Wayne scored in the next play as Jerry Gramquist caught a Meyer aerial in the end zone for the TD.

Donnie Green kicked the extra point and Wayne trailed 9-7 with two minutes left on the clock.

Wayne tried an on side kick, but it traveled too far and Neligh used up the final two minutes of the clock.

Wayne slogged along for three quarters and well into the fourth period before they could put together any type of offense. A fairly steady rain and mist dampened the passing attack of both teams until the final period when Wayne took to the aid with six minutes on the clock.

Don Heigren turned out to be Don Meyer's best target as he snagged four passes in the game for a total of 50 yards.

As the clock moved to the two minutes mark, Wayne continued to move both in the air and on the ground.

Then Doug Manske made the big play to set up the score as Meyer hit him with a pass between three defenders to move

smooths bumps better than a bulldozer

If all roads were superhighways, Chevrolet's remarkably smooth and silent ride might be just another luxury. But as most town and country roads will demonstrate, this is one Chevrolet advantage that's mighty easy to get excited about. (The way those four deep-coil springs put the kibosh on bumps, you'd almost think Chevrolet was working for the highway commission.) The '63 Bel Airs, Biscaynes and Impalas are equally easy going on upkeep. Brakes are self-adjusting. New Delco-tron generator s-t-r-e-t-c-h-e-s battery life. Even the rocket panels on the Body by Fisher are self-washing and ventilating to cut down on rust. Your dealer's waiting to tell you lots more.

# GOOD GUYS GIVE

Good guys have a right to be proud who give to their Community Chest. By their support they are serving the agencies that make life enjoyable, sometimes even tolerable, for the youth, the handicapped and the aged. Twelve agencies in all. If any one of them made a direct appeal, you would be proud to give. Wayne appreciates the chance to give once for all . . . other methods are tiresome and wasteful. The needs are about the same as last year. Every cause has been carefully considered and every dollar has been carefully spent. Remember how much you would have to give if collections were made time after time and give this time enough for all. Twelve times as much as if it were only one appeal. Be a good guy . . . GIVE.

Best of All!

# Yeast bread is on the rise and something "Best of All" is bound to happen!

## QUICK TWIST ROLLS

2 cups sifted all purpose flour  
1 tablespoon sugar  
½ teaspoon salt  
3 tablespoons soft shortening  
1 beaten egg (save 1 tablespoon for topping)  
1 pkg. special active dry yeast  
(or 1 cake compressed yeast)  
¼ cup warm water (110°-115°)  
¼ cup scalded milk

Measure all dry ingredients and shortening together and blend. Add yeast to warm water; let stand a few minutes. Scald milk, pour into bowl. Cool to lukewarm, then add the egg, yeast mixture and half the flour mixture. Beat until smooth.

Add the remaining ingredients, mixing until well blended. Scrape down dough from sides of bowl. Cover and let rise in warm place (for a cozy rising place, put bowl or pan on a rack over a bowl half full of water; keep water hot), 20 to 30 minutes, or until doubled.

Meanwhile grease two cookie sheets. Have topping ready: 1 tablespoon beaten egg, 1 tablespoon soft butter, sesame, poppy or celery seeds.

Punch down raised dough. Toss onto lightly-floured cloth-covered board. Turn over several times. Roll to an 8 x 18-inch rectangle. Brush half the rectangle, the long way, with the soft butter. Fold unbuttered half over buttered, pressing gently into a rectangle 4 x 18-inches. Cut dough in 1-inch wide strips.

Take strips by ends and twist several times. Leave straight or curve as they are placed on the cookie sheets. Brush with the egg and sprinkle with seeds. Let rise in warm place 15 minutes. Preheat oven to 425°. Bake twists 10 to 15 minutes, or until golden brown. Cool on rack a few minutes before serving. Makes 1½ dozen twists.

## ORANGE LATTICE COFFEE CAKE

### Dough:

1 cake compressed yeast (or 1 pkg. active dry yeast)  
¼ cup lukewarm water  
½ cup butter  
½ cup sugar  
1 teaspoon salt  
4 eggs, beaten  
¾ cup light cream  
4 cups sifted all purpose flour  
¼ cup flour, sifted (for lattice strips)  
1 egg, beaten

### Orange Filling:

¾ cup butter  
¾ cup blanched chopped almonds  
¾ cup sugar  
¾ cup orange marmalade

Crumble yeast into water, stir and let stand. Cream together butter, sugar; add salt, eggs and beat well.

Combine yeast mixture with light cream. To butter mixture, alternately add flour, yeast-cream mixture in thirds. Mix well but do not beat.

Reserve one cup dough. Spread remainder in two foil-lined 9 x 9 x 2-inch pans. Allow foil to extend up over two edges of pan. Lightly grease section of foil in pan.

Combine Filling ingredients. Mix well and spread over dough.

Blend ¾ cup flour into reserved dough. Roll dough into rectangle and cut into 12 9 x 1-inch strips. Arrange six strips, lattice fashion, over filling in each pan; brush with beaten egg. Cover with foil. Let rise in warm place until almost double in bulk (45 to 60 minutes).

Bake 30 to 35 minutes at 400°. Grasp edges of foil and remove coffee cake to serving platter. Serve warm. Makes two 9 x 9 x 2-inch coffee cakes.

One recipe bakes two  
Orange Lattice Cakes.  
Cut foil extra long  
to line second Cake.

½ cup butter  
3 tablespoons sugar  
3 beaten eggs  
1 tablespoon grated lemon rind  
½ teaspoon salt

1 pkg. active dry yeast (or 1 cake compressed yeast)  
¼ cup warm water  
½ cup scalded milk  
1 tablespoon sugar  
1 teaspoon salt  
1 unbeaten egg  
2½ cups sifted all purpose flour  
1 can cream of mushroom soup

Soften yeast in water. Combine milk, sugar and salt in mixing bowl; cool to lukewarm. Stir in egg and the softened yeast. Gradually add flour to form a soft dough. Let rise in warm place (85° to 90°) until light and doubled in size, 1 to 1½ hours.

Meanwhile prepare Savory Chicken: Simmer ½ cup chopped celery and ½ cup chopped onion in ¼ cup water until tender. Drain. Add ½ cup butter, ½ cup (4-oz. can) chopped mushrooms and 2 tablespoons chopped pimiento. Heat just till butter melts. Stir in 3 cups diced cooked chicken, ½ teaspoon salt, ½ teaspoon pepper and ½ teaspoon poultry seasoning.

It's a prize winner in the 9th Grand National Bake-Off! Tempting heart-shaped coffee cake with cinnamon-sugar filling. Novel shaping method means no special pans!

- |  |  |
|--|--|
| 2 packets RED STAR Special Active Dry Yeast (or 2 cakes Red Star Compressed Yeast) | 1/2 cup sugar                                      |
| 1/2 cup water (warm for dry, lukewarm for compressed)                              | 1/2 cup butter or shortening                       |
|  | 2 tsp. salt  |
|  | 3/2 cup scalded milk                               |
|  | 2 unbeaten eggs                                    |
|  | 4 1/4 to 5 cups Pillsbury's Best All-Purpose Flour |

**FILLING:** Mix together 1 cup chopped nuts, 1 cup sugar, and 2 tsp. cinnamon.

Soften yeast in water. Combine sugar, butter, salt, and scalded milk in large bowl. Cool to lukewarm.

Stir in eggs and softened yeast. Add flour gradually to form stiff dough.

Knead on floured surface until smooth and satiny—about 5 min. Place in greased bowl, cover. Let rise in warm place until doubled—about 1 1/2 hrs. Prepare Filling.

Divide dough in half. Roll out one part to 15 x 10-in. rectangle. Brush with melted butter. Sprinkle with half the Filling. Roll as for jelly roll, starting with 15-in. side.

Let rise in warm place until light—about 45 min. Bake 25 to 30 min. in mod. oven (350°). Makes 2 coffee cakes.

| 1 packet RED STAR Special Active Dry Yeast (or 1 cake Red Star Compressed Yeast) | 1 1/2 tsp. salt                                    |
| 1/4 cup water (warm for dry, lukewarm for compressed)                            | 2 1/2 to 3 cups Pillsbury's Best All-Purpose Flour |
| 1/4 cup sugar  | 1/2 cup soft shortening                            |
|  | 1 cup creamed small curd cottage cheese            |
|  | 1 unbeaten egg                                     |

**FILLING:** 1/2 cup melted butter, 1 cup firmly packed brown sugar, 1 cup ground nuts, 1 tsp. vanilla.

**TOPPING:** 1/4 cup sifted powdered sugar mixed with 1/4 tsp. cinnamon.

Soften yeast in water. In large bowl measure sugar and salt. Add about 2 cups of flour and shortening. Cut in shortening until particles are fine. Blend in cottage cheese, egg, and yeast. Gradually add more flour to form stiff dough.

Knead dough on well floured surface 3 to 5 min. Cover; let stand while mixing Filling.

Roll out dough on floured surface to 20 x 14-in. rectangle. Spread Filling evenly over dough. Roll up the two 14-in. sides toward each other until they meet in center of rectangle. Cut or "tie off" with strong thread into 1/2-in. slices. (To tie off slice, place thread under roll and pull ends around, crossing as if to tie.) Twist each roll once to resemble an "S". Place on greased cookie sheets.

Let rise in warm place until light and doubled—about 1 to 1 1/2 hrs. Bake 12 to 15 min., or until golden brown, in preheated quick mod. oven (375°). Sprinkle warm rolls with Topping. Makes about 2 dozen rolls.

## Homemade Twin Loaves

Another praise-winner—crusty brown twin loaves in a time-saving, interesting shape. This family-sized recipe yields 4 twin loaves. Fragrant "fresh-from-the-oven" eating for the family, and a bonus for your freezer!

- |  |  |
|--|--|
| 2 packets RED STAR Special Active Dry Yeast (or 2 cakes Red Star Compressed Yeast) | 12 to 14 cups Pillsbury's Best All-Purpose Flour |
| 4 1/2 cups water (warm for dry, lukewarm for compressed)                           | 6 tbsp. sugar                                    |
|  | 2 tsp. salt                                      |
|  | 4 tbsp. soft shortening                          |

Add the yeast to the water; let stand 3 to 5 min. Stir. Blend in about half the flour with sugar, salt, and soft shortening. Beat until smooth. Add more flour a little at a time, first with spoon, then with hand, until the dough cleans the bowl. Turn onto lightly floured cloth-covered board and knead until smooth and satiny.

Place in greased bowl, turning once to grease all sides. Cover; let rise in warm place until double—about 1 hr. Punch down; cover and let rise 15 more min.

Turn out onto the board. Divide into 8 parts. Round each into a ball. Place in greased pans, 4 1/2 x 8 1/2 x 2 3/4-in. or 5 x 9 x 3-in. Put two balls in each pan. Cover and let rise in warm place about 45 min., or until almost doubled.

Bake 40 to 50 min., in preheated mod. hot oven (400°), or until well browned on tops and sides. Remove from pans and cool on racks. Brush loaves with shortening for soft crusts. Makes 4 twin loaves.

For 8 loaves: Double the recipe.

**RED STAR** has the answers for sure, easy yeast baking!

Q. "We love yeast breads, but I have little time for baking. What is the easiest kind of yeast breads I can make?"

A. "Yeast Batter-Way breads. They are mixed quickly, are thin enough to pour into pans, and require no kneading. Batter-Way breads are very light and have excellent flavor. They require so little handling that the busiest homemaker can find time to bake them."

Q. "I am just learning to bake bread and would like to know of an easy way to shape loaves?"

A. "Instead of shaping each loaf, divide dough for one loaf in two parts. Then round up each into a ball and put the two balls of dough into bread pan. In this way you will have twin loaves which are interesting and very quickly shaped."

Q. "What causes raised bread dough to sink or fall in the pan after it gets in the oven?"

A. "Dough can rise too much and get too light, so there is no strength left to give the 'oven-spring' or last bit of rising. To prevent over rising, touch sides gently with finger, when loaves look as if they have doubled. If a dent remains, loaves are ready to bake."

- 3 eggs (room temperature)
- 1 teaspoon salt
- 5 cups sifted all-purpose flour

Place in baking dish. Melt butter; add brown sugar, raisins, cinnamon; stir until blended. Add cereals to half of butter-sugar mixture; use to fill apples. (Apples can be stored in refrigerator until serving at this point).

This breakfast is prepared the night before in convenient aluminum foil. A dash of Worcestershire, bubbly cheese give baked eggs "up and at 'em" flavor. Rich Refrigerator Rolls rise to a breakfast occasion, too!

Put your family on best-of-all behavior with a whiff of old-fashioned cinnamon-aroma — a taste of Baked Apple Supreme. Aluminum foil covering lets you store it overnight in the refrigerator, bake it without oozing syrup in oven.

## ENGLISH HOT CROSS BUNS

- 1¼ cups warm water (110° to 115°)
- 2 pkgs. special active dry yeast (or 2 cakes compressed yeast)
- 4 cups sifted all purpose flour
- 6 tablespoons sugar
- ½ teaspoon cinnamon
- Shredded rind of 1 lemon
- 1 teaspoon salt
- ¼ cup soft shortening
- 2 eggs
- ½ cup currants or seedless raisins

Pour warm water into a large mixing bowl, add yeast. Let stand a few minutes, then stir to dissolve.

Add half the flour, the sugar, cinnamon, fruit peel, salt, soft shortening and egg. Start the mixer on medium speed (or beat by hand); beat until smooth, 1½ to 2 minutes.

Stop mixer. Add remaining flour with the currants and stir in by hand until the flour disappears. It will take about 1 to 1½ minutes.

Scrape down batter from sides of bowl. Cover bowl with waxed paper and let rise in warm place until doubled, about 30 minutes. Meanwhile foil-line or grease muffin cups (18 large, 24 medium, or 40 small).

Stir down batter in 20 to 25 strokes; spoon into muffin cups, filling ½ full. Let rise in warm place until batter reaches tops of cups — 20 to 30 minutes. Heat oven to 400°.

Just before baking, brush tops of buns with milk or cream and sprinkle with sugar.

Bake 10 to 15 minutes, or until well browned on sides and tops. Remove from pans; cool on racks.

If desired, make cross with thick icing: 1 cup confectioners' sugar, pinch of salt, 1 to 2 tablespoons hot milk or water. (Spread foil under rack before frosting.)

- ½ teaspoon baking soda
- ½ teaspoon salt
- 1 cup brown sugar, firmly packed
- ½ cup shortening
- 1 egg
- ½ teaspoon vanilla
- 1 cup cornflakes
- 1 cup quick-cooking rolled oats
- ½ cup chopped nuts

Sift flour with soda and salt, set aside. Combine sugar, shortening, egg and vanilla and heat till creamy. Gradually blend in flour mixture. Stir in remaining ingredients. Reserve 1 good cup of dough; press remaining dough into buttered 9-inch square pan.

## GINGERBREAD CUPCAKES

- 1 beaten egg
- ½ cup sugar
- ¼ cup light molasses
- ½ cup salad oil
- 1 cup sifted all purpose flour
- ¼ teaspoon salt
- ½ teaspoon soda
- ½ teaspoon cinnamon
- ¼ teaspoon ginger
- ¼ teaspoon nutmeg
- ½ cup boiling water

Combine egg, sugar and molasses and beat well. Add salad oil and flour mixed with spices. Add boiling water. Grease foil cups, fill two-thirds full. Bake at 350° for 25 to 30 minutes. Makes 12 cupcakes. Pipe with your favorite butter frosting or top with Orange Molasses Frosting.

When the weather outside is frightful, its very badness gives a special coziness to the kitchen. Suddenly you crave apples and popcorn — and something from the oven. It's time to spread the sunshine of cookies — clear across the kitchen!

Keep small fingers busy with cookies that need a bit of shaping... twitch tiny noses with the fragrance of Ginger Molasses cupcakes... and before you know it, you've had a wonderful afternoon!

The makings for Ginger Cookie Capers need at least an hour to chill, then the rolled-out dough is ready for the youngsters' imaginations. Spread cookie-sheet-size foil to hold the shaped dough and cookies can be lifted, by batch, right onto the cookie pans; no waiting until one batch is baked — and no "hurry-up" to spoil the mood!

Time will go up in fun when your children become acquainted with the foil "daisy" cups you may request for cupcake baking. They are really "child's play" to make. In fact, most grade-schoolers have made "snowflakes" which are folded for cutting like these daisies. Begin with 6 or 7-inch squares of foil; fold opposite corners together once and then fold the next opposite corners together. Then fold once more, and cut a petal shape from the outside foil. Carefully unfold (unfolding is easier if you don't press the folds into the foil) the foil and mold it onto the bottom of a muffin cup. Then set it inside the cup; it's ready to be filled. And won't the daisy cupcakes (and their creators) sit proudly at the supper table!

## ORANGE MOLASSES FROSTING

- 2 scant tablespoons butter
- 1 cup sifted confectioners' sugar
- Dash salt
- 1 tablespoon light molasses
- 1 teaspoon orange juice
- ¼ teaspoon grated orange rind

Cream butter until soft. Gradually stir in ½ cup sugar and salt. Blend in molasses, orange juice and rind. Add remaining sugar until frosting is proper consistency for spreading.

## GINGER COOKIE CAPERS

Prize Winner in 6th Grand National Bake-Off

- 2 cups sifted all purpose flour
- 1 teaspoon double-acting-baking powder
- ¼ teaspoon soda
- ½ cup sugar
- 1 teaspoon cinnamon
- ½ to 1 teaspoon ginger
- ½ cup shortening
- ½ cup molasses
- 3 tablespoons hot water

Sift flour with baking powder, soda and spices. Heat shortening and molasses in large saucepan over low heat just until shortening melts. Add the dry ingredients and water; stir till blended. Chill thoroughly, at least 1 hour. If desired, prepare Apple Butter Filling.

Knead or "work" dough into a ball on lightly floured surface. Roll out to ¼-inch thickness. Shape as desired.

Bake filled cookies at 400° for 8 to 10 minutes. Bake unfilled cookies 5 to 8 minutes.

Apple Butter Filling: Cook ¾ cup apple butter, ½ cup chopped dates and ½ cup sugar in small saucepan for 3 minutes; stir constantly. Blend in 1 tablespoon butter; cool.

Gingerbread Men: Prepare half recipe Apple Butter filling. Cut with gingerbread man cutter, or make pattern and cut around it with knife. Place half of men on foil or ungreased cookie sheet. Spread about 2 teaspoons Filling over heads and bodies of each, keeping filling away from edges. Top with remaining gingerbread men, decorate with currants or tiny slits to mark features and buttons. (No need to seal edges). Arms and legs may be stretched to make gingerbread men "dance" or "run."

Peek-a-Boos: Cut with 2-inch round cutter. Place half of rounds on ungreased cookie sheet and top each with about 1 teaspoon Filling. In the remaining rounds cut an X in each for peek-a-boo design. Place over Filling.

Bunnies: Omit Filling. Cut dough with 2½-inch round cutter. Place rounds on cookie sheet. Cut off two sides to form a triangle shape. Place the curved pieces on either side of the rabbit head for ears. Press to seal. Bake at 375° for 7 to 10 minutes. Decorate with frosting, if desired.

Crunchy Butterscotch Fudge Bars won't last long! Better bake a double batch — paper-wrap some for late on baking day, foil-wrap the rest to stay fresh in the freezer.

Flower centerpiece is a dessert of daisy cupcakes, stemmed in ribbon. Cakes taste gingerbread good in foil cups.

## Gridiron King, Queen to Be Crowned at Game Tomorrow

Candidates for Gridiron King and Queen have been selected by the W Club and Pep Club respectively. Crowning activities will be held before the Homecoming game with Stanton tomorrow (Friday) night at WSTC Memorial Stadium.

Queen candidates are Karen Christensen, Donna Echtenkamp, Norma Lutt, Marilyn Nuernberger and Lucille Samuelson.

King candidates are Don Helgren, Don Meyer, Randy Milnes, Ken Olds and Dean Wehbe.

The high school student body voted this week to determine which candidates will receive the crowns. The results are being kept secret, however, and no one, not even the candidates, will know who the king and queen are until the crowning takes place.

The marching band will set the stage for the crowning ceremonies. The Pep Club girls, in blue and white, will form an honor guard for the entrance of the king and queen and their attendants.

The king will be crowned by Flame Meyer, vice president of the Pep Club. The queen will be crowned by a W Club officer.

## Cheerleaders Chosen For Second Team

Jean Christensen, Jayne Echtenkamp and Debbie Wightman have been chosen second team cheerleaders by the Pep Club. They are planning their outfits and looking forward to their turn on the floor.

## Pep Club Girls Choose New Outfits

The Pep Club girls of Wayne High have selected new outfits of royal blue skirts and white blouses which will become the regulation uniform for the girls.

Plans for this year call for every member to purchase the regulation white blouse. These blouses may be worn with the blue skirts the girls already have.

Girls who need new skirts are asked to order the skirt which has been chosen by the club. Following this plan, all Pep Club girls will be dressed exactly alike before long.

## News of 1962's Grads

Margie Forbes is attending college at Wayne State and she says she enjoys it even though she's kept pretty busy with her assignments.

Marlen Lessman is going to college at Vermillion this year where he is using the sports scholarship he won last year.

Don Larsen, another sportsman, is also attending Vermillion. He is enjoying college life.

## Tests! Again?

"Wasn't that horrid?" "That was the hardest test I've ever taken."

"I didn't know the meanings of half those words."

These were a few of the outbursts heard coming from the Wayne High seniors one afternoon. The Ohio Psychological Test was given to the seniors to see if they are ready for college. At the conclusion of the test, there was doubt in the minds of some as to whether college was really for them.

Basically, the test dealt with defining words and comprehending reading material on the college level.

The California Study Methods Survey was given to the seventh grade and sophomores. This was a test to detect their attitude, planning, and method of study.

These are just a few of the numerous tests students struggle through before entering college or the profession of their choice.

## Junior Class Play Goes Into Rehearsal

"You Can't Take It With You," by Hart and Kaufman is the play chosen for the Junior class production, Mr. Dobbins has announced.

Tryouts have been held and rehearsals are already underway to prepare for the November production.

## Home Ec Seniors See College Student Center

Last Thursday morning, the advanced home economics class visited the school bus and went on a short field trip to the new Wayne State Student Center. Since the class is studying color and room design, Mrs. Chambers, the new home economics teacher, felt that this would be an interesting observation for the girls.

Mike Matsukis guided the girls through the many beautifully furnished rooms as Mrs. Chambers called their attention to the interesting points of each room.

The following day the class analyzed the color schemes and furnishings as to practicality, design, and room arrangement.

## To Dye or Not to Dye

Today the changing of one's color of hair has become as popular as changing shades of lipstick. Some girls find their hair gradually so one will suspect except the in-laws who visit every two years.

Others changed from a bleached blonde to an onyx black overnight. All this may present a problem for this hobby can't stop with the hair coloring. If a drastic change is made the eyebrows must be brought into the picture.

This habit is not only time consuming, since it has to be done every week or oftener, it is quite expensive.

First you must use special shampoo (\$1.00 plus the tax) to prevent dandruff and flaking, next there is a creme rinse (to prepare scalp for color rinse). Now the color rinse is poured over the scalp. Be especially careful it doesn't run down your face (it's murder on the white parts of your eyeballs).

There may be a few disadvantages of a rinse like the flaking black residue on the pillowcase or the black teeth in your latest nylon comb and brush set, but let's not worry about these things. It's too late now.

Next you massage the hair in the final creme rinse. (I say "final" because at this point your arms are aching so that if there were another set to the treatment, you'd have to call in a recruit.) This final rinse assures you of the curl "desired to be crushed."

Job finished! You dress yourself in your Sunday-go-to-meeting get up and top it off with the new hat you bought from the grocery bill. This particular hat covers the entire head except the vital facial fea-

tures. If you haven't planned on this hat to begin with, you should have forgotten about the "toe-job" long ago.

With these October rains, you'll probably get yourself caught in a sudden cloudburst and then you'll be sorry there is nothing more embarrassing than your "Lady Rembrandt's Ravishing Rinse" dripping on your shoulders, streaming into your ears, and splashing into your eyes making visibility bad.

## Girls' Trio Performs

The girls' trio performed at the Redeemer Lutheran Church's Father and Son Banquet last Wednesday night. Members of the trio are Wilma Marra, Sandy Nelson, and Marilyn Nuernberger. They sang two selections, "You've Got To Be A Football Hero" and "I Enjoy Being A Girl."

To make their performance entertaining the girls were dressed in football uniforms loaned to them by Coach Maciejewski.

## Gridiron Dance Monday Evening

The annual Gridiron semi-formal dance will be Monday, October 15, in the school cafeteria. The Wayne High Pep Club will sponsor the dance and provide decorations and entertainment. Refreshments will be served.

The 1962 Gridiron King and Queen will reign over the festivities.

There will be a small admission fee for the dance. Every high school student is invited to attend.

## School Spirit Grows

What is school spirit? Webster's Dictionary says it is enthusiastic loyalty. This loyalty has really grown since the beginning of the school year. Did you see it display out at the last three games of the Wayne High football team?

This is credited, at least in part, to the Pep Club and cheerleaders who have worked so diligently to create a winning spirit within the student body. It may also be due to the increased number of students and the new ideas introduced this year.

But no matter what it was that caused the sudden change in the attitude of the students, let's not give our spirit a chance to die. From here on out it's "Go Team, Go, all the way."

# EDITORIAL COMMENT

The editorial department of a weekly newspaper is an important department. Normally it is one person's opinion of issues that concern most of the readers.

It is the duty of an editorial writer to search all available facts before he sits down to write. From this basis the writer should be able to give a clear picture of important topics.

## School Boy Logic

There is too much talk today about the profits of business being excessive. The critics of profit never mention the fact that government would be flat-busted with its excessive cost of operation if it were not for profits to tax.

You may not agree with an editorial — but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

If it were to lend money at no interest it would be bankrupt. Industry is no different than a bank — if it produces goods and services at no profit or too little profit, it will go bankrupt.

Government has no income except what it takes from its citizens in taxes. Its solvency depends upon the ability of its citizens to produce a surplus (profit) to tax.

To get ahead you have to push someone ahead of you and be pushed along by someone behind you.

## Capitol News . . . Health Service Team Sets Inquiry Into Polio Cases

A polio investigating team from the U. S. Public Health Service will take a look into Nebraska's recent polio cases.

Among other things, the team will attempt to determine if there is any connection with Type III of the Sabin oral vaccine. Two of the most recent cases reported involved youngsters who had taken the vaccine from seven to 30 days prior to their illness.

Dr. E. A. Rogers, state director of health, said he invited the surveillance team to come to Nebraska because "it appears some of the history of the polio story, as Sabin vaccine is being given to millions of Americans, is going on right here in Nebraska."

According to clinical evidence reported by physicians, there is a Sabin Type III "time association" in the Nebraska instances of the disease. But Rogers said this is no proof that taking the vaccine caused the illness.

The findings of the surveillance team, which could take months to complete, should provide a valuable source of usable information to doctors and virologists, according to Rogers. He said Nebraska's cases, all reported during the last month, have become too widespread with too many ramifications for one epidemiologist to handle. The one epidemiologist working on the Nebraska cases was Dr. Robert Bollema (cq), who is stationed in Omaha and is on loan from the U. S. Public Health Service.

**Discouragement Participation**  
The State Department of Education is discouraging Nebraska schools from taking part in the Air Force airman qualification examination program. The department explained that local school personnel cannot in-

terpret the test results with the limited amount of information which has been released by the Air Force.

It is highly questionable, the department added, whether the test should be given to all seniors, boys and girls, since only those students seriously considering Air Force enlistment would be interested in the test results.

The tests are given for selection and placement purposes. The department believes the results, which are returned to the school, have little guidance value.

The department said if the test results are a necessary prerequisite for regular Air Force enlistment, regional testing centers should be established in Nebraska and exam dates set. Seniors interested could then arrange to take the tests. If establishment of the testing centers is impossible, the Air Force should make arrangements to test students by individual schools on a voluntary basis when school is not in session, the department said.

**Re-evaluation**  
State Aeronautics Director James Sandstedt said his department will re-evaluate its five-year airport development program. The decision was prompted by a Federal Aviation Agency decision to amend its qualification standards for federal funds eligibility, making more potential airport sites possible.

Sandstedt said the agency has decided to lower standards for less populated areas so that people in rural and sparsely populated districts can be serviced by high-grade air facilities. He added that the FAA's decision was in line with recommendations of the Nebraska Aeronautics Commission.

Sandstedt said it will now be possible to make progress in the and discarded the club king from dummy. Declarer knew at this point that there was no way to defeat the contract. East decided to win trick number two with his queen. His diamond return was won in South with the ace. The ten of hearts came next, the ace of clubs being snuffed from dummy. With the club suit unblocked, declarer played his four good clubs, then the nine of hearts. The five of spades was led to dummy's ace for trick number nine. In all, four tricks were won in clubs, three in hearts, and one each in diamonds and spades.

It will be noted that West can make no opening lead which will result in defeat of the contract. If he opens play by leading a club or a spade, South will still win the required number of tricks. Had West led a spade at trick number one, for example, the ace would be played from dummy. The king of hearts would be taken by East with the three high spades at this point he can do nothing to defeat the contract.

The winning play by declarer, of course, is to overtake dummy's king with the heart ace. If the king is not overtaken with the ace, proper defense will prevent fulfillment of the no trump contract. Dummy's hand contains only two entries to the South hand. Since the South hand must be reached twice to make certain that nine tricks are won, declarer should not hesitate to overtake dummy's king. Even with better communication between the North-South hands, three tricks only could be won in hearts. It makes no difference, then, whether the ace and king are played simultaneously, or whether they are played separately.

state in creation of grass roots terminal airports for areas with a population of about 2,000. The FAA will work with the State Aeronautics Department in determining eligible areas for federal assistance.

Nebraska has 276 licensed airports, well above the national average. The FAA announcement means the State Aeronautics Department will no longer have to carry the main load of the development program cost.

**Need Educating**  
William E. Colwell of Hay Springs, chairman of the Nebraska Committee on Public Relations for Agriculture, says Nebraskans need some educating on farm facts. Colwell reached this conclusion after an opinion poll was made by his group of attitudes toward agriculture in Nebraska.

He said the survey of various groups across the state showed many people are "badly misinformed" about farm income, prices, the increase in the price of food, the share of the federal budget going to farmers, and the amount of surplus grain held by the government.

As an example, Colwell said the poll showed that only 65 per cent of those questioned felt the average income of farm people is lower than of urban people. Actually, he added, the income of farm people last year was \$1,372 per capita, compared with \$2,345 for non-farmers.

The survey also showed that less than half of those queried believed that the prices farmers receive today are lower than they were 10 years ago. Nearly as many believed farm prices were higher today than in 1932. The truth is, Colwell said, that farm prices have decreased about 17 per cent in the last 10 years.

He said rural residents were better informed than urban dwellers on the levels of farm income and farm prices. But he quoted that even farm people had wrong impressions on the rise of food prices, the farmers' share of the national budget, and the size of grain reserves.

Colwell described as "surprising" the fact that of a group of well-educated women in a western Nebraska town, only 31 realized farm prices had fallen during the last 10 years. In a group of Lincoln women interviewed, only 13 per cent were aware farm prices had dropped and 53 per cent thought farm prices had risen during the last 10 years.

One of the "heartening disclosures" of the survey, Colwell said, was that 70 per cent of those questioned felt agriculture is a more important part of the national economy today than it was 20 years ago.

**Travel Warning**  
The presidents of the four state teachers colleges have been warned not to permit their athletic teams to travel too far.

Freeman Decker, State Normal Board coordinator, said the presidents of the schools were asked to analyze carefully their athletic scheduling to prevent unnecessarily long trips.

He said at none of the four schools does income from athletic contests support the intercollegiate athletic program and that partial subsidization with tax funds is necessary.

The second tract of 18.7 acres is near an overpass south of Sheldon and will cost about \$1,500. The third is near the Wood River interchange and will cost about \$1,380.

The Commission will pay only for the land around the lakes. This agreement was made previously with contractors working on the Interstate who bought the tracts themselves for use as borrow pits. The tracts to be bought will make up parts of the Platte Valley Chain-of-Lakes project.

## Co. Agent's Column

Reduce Soybean Losses

No farmer would willingly dump three bushels of soybeans on the ground after harvesting each acre of his crop. However, according to recent research, that amount would be left in the field in this country if everyone shared equally in the average loss of 10 to 20 percent of the crop.

Studies by the Iowa State Experiment station showed 18 percent of the soybean crop is lost under average harvest conditions. On the average, four bushels on each square foot of ground represent one bushel per acre has been lost.

Most of the soybeans that are lost never get into the combine. Shattering, dropped stalks and pods left on the stock below the cutter bar account for most of the loss. Tests show that cutter bar losses increase at the rate of 1.4 bushels for each inch the cut is raised above the ground.

Soybeans are ready for harvest when the leaves have shed, the pods are dry and the beans are hard to the bite with a moisture content of 14 percent or less. To keep splitting and breakage at a minimum, farmers must carefully adjust the combine and follow recommendations by the manufacturer on rate of travel and other details. When the weather is very dry and conditions can be warped and twisted to fit the way of thinking of the Russian leaders and their satellites, it is inconceivable to us that any group of men or nations could believe, as these people do, that our every word and act has some ulterior, sinister meaning.

Most certainly we have been too naive. For while we have been rather indolent in the past, we have seen some of our rights usurped and become the prey of these more active forces, which have unceasingly bombarded not only the free people of the world, but also the less privileged people, with a barrage of myths and falsehoods.

Domesthenes said, "There is one safeguard known generally to the wise, which is an advantage and security to all but especially to democracies as against despots — What is it? Distrust."

It may well be that for our own protection and best interests, our trusting nature will have to be replaced, at least to some degree, by one that distrusts any new ideas or changes until we are satisfied that these ideas or changes will fit into the pattern of our way of life.

**Fire Costs Half Million**  
Faulty electric wiring cost Nebraskans \$517,806 fire loss in 1951, according to Rollin D. Schneider, University of Nebraska sales specialist.

Insurance companies also reported a number of farm animals electrocuted by improper wiring. In one case a sow and litter were killed when the sow bit into an unprotected electric wire.

"It is hardly fair to call these fires or electrocutions accidents, since an accident is an event that takes place without one's foresight or expectation," Schneider explained. "It is more correct to put the blame on carelessness."

Careless procedures such as putting pennies in a fuse box, overloading wiring systems, using octopus extension cord, hook-ups and running wires over nails or under rugs are just a few of the causes of electrical fires.

"Many Nebraska rural homes are 30 to 40 years old and still have the same wiring systems used in the 30's for today's electrical needs. This is nearly the same as trying to run today's high powered automobiles on the gas that we used in our Model T's," the University specialist declared.

"Homeowners can carry out an inspection to see if their wiring system is up-to-date," Schneider said. He suggests checking these four things:

- 1. Does the electrical system have a sufficient number of outlets?
- 2. Are the outlets serviced with the proper number and size of circuits?
- 3. Are the circuits properly fused according to wire size on equipment?
- 4. Is the system properly grounded?

John Curran once said, "It is the common fate of the indolent to see their rights become the prey of the active. The condition upon which God hath given liberty to man is eternal vigilance, which condition if he break, servitude is at once the consequence of his crime and the punishment of his guilt."

Somehow, it seems, in the light of what keeps transpiring at Geneva and Berlin, that these words become more true each day. We Americans find ourselves confronted by an ideology, promulgated by a group, whose processes of thought and workings of mind, are well nigh unfathomable to us. We don't, and can't understand, how every good intention of peace loving men and nations can be warped and twisted to fit the way of thinking of the Russian leaders and their satellites. It is inconceivable to us that any group of men or nations could believe, as these people do, that our every word and act has some ulterior, sinister meaning.

Most certainly we have been too naive. For while we have been rather indolent in the past, we have seen some of our rights usurped and become the prey of these more active forces, which have unceasingly bombarded not only the free people of the world, but also the less privileged people, with a barrage of myths and falsehoods.

Domesthenes said, "There is one safeguard known generally to the wise, which is an advantage and security to all but especially to democracies as against despots — What is it? Distrust."

It may well be that for our own protection and best interests, our trusting nature will have to be replaced, at least to some degree, by one that distrusts any new ideas or changes until we are satisfied that these ideas or changes will fit into the pattern of our way of life.

**Fire Prevention Week**  
You can observe Fire Prevention Week by removing fire hazards at home. Statistics reveal that every day, on the average, 1,110 American homes are struck by fire — taking approximately 30 lives.

- Most fires are preventable by practicing good housekeeping habits. The following would help:
- 1. Keeping baking soda near stove to put out grease fire.
- 2. Have plenty of ash trays throughout the house.
- 3. Dispose of combustible waste promptly.
- 4. Unplug small appliances when not in use.
- 5. Give heating systems a good check for repairs and cleaning before winter heating must take place.

**Most Like Red Apples**  
Consumers prefer rosy red apples — and maybe teachers do, too!

think we got a "Day" left in the year that ain't been already took. They started out naming a "Week" for so many things they run out of weeks and got down to a "Day," and anytime now, claims Ed, he's looking for 'em to start setting aside a "Hour" for what few items that has been missed with a "Week" or a "Day." All the fellers said they was expecting any time now to get a proclamation from the White House announcing a "New Frontier Hour." Natural, this "Hour" will be for Democrats only. The Republicans will have to get their own hour.

And speaking of hours, the fellers Saturday night was discussing this campaign the big city workers has got going to get a four-day week. Charlie predicted the next move would be for a four-hour day with two hours off for lunch, plus a increase in wages and more of them "fringe benefits." Charlie allowed as how he wasn't agin the working man, being a 12-hour-a-day worker himself, but if they keep going in this direction, claims Charlie, he's going to be the only working man left, just him and the fellers that reports for their pay once a week.

And Sam reported he had saw where another one of them small nations was asking for help again the Chinese Reds. Sam claims our State Department ought to write 'em back that we just got too many ahead of 'em and that they'll have to wait their turn in line. All the fellers was agreed we're going to have to set up a priority system and decide which countries we're going to fight for first. Harry allowed as how they wasn't no doubt which countries our State Department would put first, them countries like India that was getting the mostest, and doing the leastest for our side.

# Rural School News

**Dist. 1**  
 Mrs. Gloria Leisberg, Teacher  
 Our school opened with twelve pupils enrolled. They are Roger Gustafson, Ricky Korth, Merle Kaufman, Marcia Leonard, Debora Meier and Jancene Thomsen, first grade; Mary Jean Kaufman and Anne Leonard, fourth grade; Alan Thomsen and Ricky Driskell, sixth grade; and Marion Geewe, seventh grade.

The children are enjoying the new swing set that was purchased this summer. Also our school received a new bulletin board, a new teacher's desk and a new set of World Books. The basement floor was repainted and the basement chairs were also painted before school started.

Many pretty bouquets of flowers have been brought to school this fall.

We have many plants started in school so we can enjoy them this winter.

Roger Gustafson brought some beautiful rocks for our science display. There are many items on display that were collected on our science hike. Each child from the third grade on are making science booklets and making good use of the World Books.

**Dist. 7**  
 Hertaetta Larson, teacher

Our school has an enrollment of ten Roxanne Bird, kindergarten (who attends a half day only), Jan Johnson and Brenda Krusemark, second grade; Donna Johnson and Gary Krusemark, fourth grade. In the sixth grade, Rae Ann Johnson and in the seventh, Jaymie Hansen. The eighth grade consists of three students, Jack Hanson, Marcia Krusemark and Robert McQuistan.

Some extra special editions to the usual procedures we are stressing phonics, oral speech, music, first aid, weekly newspaper items, natural phenomena about us, and club procedure. Also spelling demons, popper words, and abundant flash card drills. Singing, tonette playing square dancing, hiking, art rhythm, band and physical exercises thrown into the program make our school program much more fun.

**Dist. 9**  
 Grade 3-4-5  
 Mrs. Edith Strate, Teacher

We have an enrollment of twenty pupils. We have 12 boys and 8 girls.

Barry Kudera was in the hospital for about a week. We are very happy to see Barry back.

We are enjoying our bulletin which we made about Columbus. The heading was "Keep On Course." We used blue paper for the background. We hope this way to remember Columbus Day. On Friday, we will have a short program about Columbus Day. Linda Spitalneck, Susan Walker, and Eddie Brogie will be in charge of our program.

Last Tuesday Mrs. Harvey Porter, Sioux City, visited our school. We enjoyed her visit a great deal. Mrs. Porter had made 22 dress outfits for a Barbi Doll. The girls are busy designing dresses for their dolls.

We organized a club for our room. The following were elected for office: president, Kirt Schellenberg; vice president, Lynn Rehner; secretary, Roger Langenberg. The name of our club will be Busy Beavers. We will have a meeting every two weeks. Our les-

son for Oct. 12 will be about the eagle. Michael Behmer and Eddie Spitalneck celebrated their birthdays last month.

We decorated our room by putting leaves around our bulletin board.

Grade five have made large cards showing foods in each food group.

The boys are looking forward to the basketball season which will soon be starting.

Friday we introduced our new unit on Fire Prevention. We are looking forward to an interesting week.

**Dist. 9**  
 Helen Chmeler, Teacher

An enrollment of 31 in the lower grades really "staggered" me the first week. I have 15 kindergartners, seven first graders and nine second graders. However, after a very busy first week I think I have things pretty well organized.

We had so much fun last Thursday when all 32 of us went down to the gymnasium and dramatized nursery rhymes.

We have a five-minute rest period every afternoon. Children put their heads on their desks and we play a soothing record. I tip-toe about the room and touch the truly good resters on the head.

When the record ends all good resters go to the front of the room and are duly commended. It seems to be a source of great enjoyment to them and the little rest gives them new vigor.

**Dist. 10**  
 Mrs. Deanna Barnes, Teacher

One of our first days of school we engaged in a field trip on the school grounds. We found grasshoppers, spiders, caterpillars, worms and all of the other little creatures that nature has provided us with.

One of our families caught a

baby bat and we had that to observe for a day. It was very interesting to note that he stayed attached to the lid of the jar all day. We gave him a worm but he refused to leave his perch to eat it. We are now raising baby shrimp, snails, and two cocoons.

We celebrated David Baier's birthday by having treats, giving him the birthday spankings and singing the birthday song to him. Our studies are keeping us busy too. The third graders made puppets and presented a show to the school. The sixth graders made a small replica of Yellowstone National Park in a box of sand using tree branches, clay figures, paint for paint pots and, of course, Old Faithful.

The eighth graders are working hard on their project, map of Nebraska. They are having unit tests along with it.

Our music program is proving to be very interesting. We are learning how to read music, what some of the musical terms are, and something about the more important composers. In physical education we are learning new exercises and new games each day.

We are planning to organize a small club which will meet for one half hour weekly. Our objectives are to learn to conduct a business meeting and to learn to get along socially. We plan to discuss different ways of making school more interesting and to plan any holiday parties we have.
