

Dehy Plant 'N' Done; To Start Oper Soon

Windside's newest corporation, the Windside Dehy Co., is scheduled to go into operation this week, according to Bud Moret, Windside mill manager. Finishing touches are being put on the wiring this week.

"All the equipment is now," said Moret, "and we did all the erection and construction except for the block laying and the wiring." Moret went on to say that the company hopes to run between six and seven thousand tons of alfalfa through the mill this season. They will also run some corn this winter. The company presently owns two complete cutter units and will keep the units in operation 24 hours a day with eight three-hour shifts, eight men to a shift.

The company, formed independently last August by Windside residents, began construction of the mill on November 15 of last year. Promoters of the mill feel it will be doing the area a great service, not only by the money spent for electricity and other necessities, but also the number of jobs it will create, both now and in the future.

And in the future? "We plan to enlarge in the future," explained Moret, "put in another drum and enlarge in capacity. But remember, this is all in the future."

Be Sure to Register For "Fair" Contest

Have you entered the "Fly to the Fair" contest yet? It's simple — clip an entry blank from ads in today's Wayne Herald, fill it out, and deposit it in the store named on the coupon.

Chamber of Commerce members are offering a free trip to the 1964 New York World's Fair, plus many other prizes. You can get additional entry blanks in all participating stores.

The contest closes June 27, so be sure to pick up your entry blank while you're shopping in Wayne.

Gas Lighting, Furniture Is Needed by Wayne Players

Gas lights — are there any spare ones available in Wayne?

The search for properties for the Wayne Player's production of "Angel Street" has begun. The era of the play's action adds to the difficulties. A mid-Victorian set requires a provision of ornate brazier, fringed throws, and gas lights.

A table lamp, a floor lamp, and two wall scones — all of the gas burning variety — are high on the list of "must-haves," for they mysteriously reveal an important secret in the plot.

Victorian style furnishings are once more finding favor with some homemakers; so a divan or a chair that might have been an attic relic is again in use. But property hunters are accustomed to such difficulties. Anyone willing to lend such furniture for a two-day stand is asked to call Mrs. Max Lundstrom.

The back stage crew will soon begin work on the slobber set.

Anyone interested in lighting, painting, or carpentry is asked to call Cleve Sharer.

In the meantime, Mrs. Donald Cam, director, reports that the cast is progressing satisfactorily towards production sometime in June.

Burglars Enter Six Winside Buildings

Five Winside business establishments, Paul's Produce, Park Place Tavern, Chicago Northwestern Depot, Winside Grain and Feed, Chicago Lumber Co. and the new District 95R school were entered by thieves Monday night, according to Don Weible, Wayne County Sheriff.

About \$90 in cash and \$111 in checks were taken from the Lumber Co. A safe was forced open at Paul's Produce, netting the burglars about \$30.

A plate glass window was broken at the school and about \$20 taken from the superintendent's office. Nothing was taken from the railway depot or at Winside Grain and Feed.

At the tavern, the intruders took about eight cartons of cigarettes, some whiskey and some cash from the bowling machine and juke box.

Wayne City Police Department advises that the deadline for purchasing dog licenses was May 11. Failure to do so can make the owner subject to a penalty. A certificate showing date of rabies shot is necessary in order to secure the license at the City Clerk's office. Cost for male and spayed females is \$1.00 and \$3.00 for females. Owners are reminded that city ordinance prohibits dogs running at large at any time.

Dr. William Ross to Speak At Winside Commencement

Deadline Friday For Wheat Signup

Deadline for signup in the 1964 voluntary wheat program is Friday, May 15, according to John H. Mohr, ASC committee chairman.

To qualify only for price support loans, producers, according to Mohr, will mean keeping wheat acreage with the farm's wheat allotment. To qualify for additional benefits of diversion payments and marketing certificates, made available under the new wheat law, producers will set aside an acreage equal to at least 11.1 percent of the farm allotment for approved conservation uses in addition to the farm's normal acreage in conservation uses. Eligibility for all benefits will mean keeping wheat acreage within the wheat allotment on all farms in which the producer has an interest in the wheat crop.

Regular price support loans and purchases will be used on Wayne county average of \$1.32 per bushel, according to Mohr. Diversion payment per acre will be one-fifth the county price support loan rate times the farm's normal yield.

Marketing certificates will be valued at 70 cents per bushel for the part of the crop representing wheat for domestic food, and 25 cents per bushel for "feed" wheat. Together, the certificates cover a maximum 90 percent of normal production of the farm's acreage allotment.

Mohr explained that farmers may receive cash value of the certificates at the ASC county office. Certificates will not accompany the wheat when sold but will be credited and diversion payments made as soon as possible after performance has been checked.

In Nebraska... after a swim, beer is a natural

On a hot summer day, a dip in a cool stream can be wonderfully refreshing. Equally refreshing when you're relaxing afterwards with friends is a hearty glass of beer. There's hardly another beverage around that suits you so for fun as much as beer. Camping, hiking, or just lounging on a lawn chair—beer brings to each just the right touch of extra good living.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Nebraska...beer goes with fun, with relaxation

We drove 3,243 miles to make a point about our Super Turbine transmission

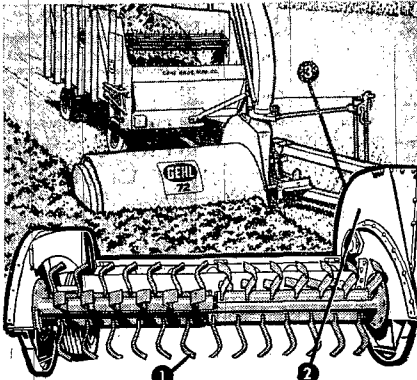

You can do it on the way to the grocery store

Would we drive a Buick with a Super Turbine transmission* all the way from Pasadena to New York City just to win Class C in the Mobil Economy Run? Of course. And just in case anyone failed to get the message, we did it twice again. And won Class D and Class G. In all, Buick entered 4 classes, and won 3—more than any other make of car. (Remember when people used to think Buicks used a lot of gas?) Did we make our point about the Super Buick Motor Division

Turbine transmission? You bet. Obviously you aren't planning to drive 3,243 miles to prove your new Buick is economical. And you can't expect to get as many miles per gallon as the experts in the Economy Run. Still, it is nice to know you can win the economy run around town. And the good looks prize at the same time. See your Buick dealer about it. No doubt he'll think of a number of other reasons to drive a Buick.

WAYNE HIGH'S UNDEFEATED two-mile relay team display some of the trophies they garnered during their all-victorious track season. The foursome earned a trip to the State meet in Kearney last Friday with a first-place victory at Norfolk's district meet. They are: Tom Addison and Bill Woehler (top), and Stu Bernthal and Ron Wriedt.

Wayne Aces of the Cinders To Enter State Competition

Five Wayne track aces will take to Kearney Friday and Saturday for the Nebraska State High School track meet as a result of the first place and two seconds at the District track meet in Norfolk Friday.

Lone blue ribbon winner was the Devil's undefeated two-mile relay team of Ron Wriedt, Stu Bernthal, Bill Woehler and Tom Addison. These lads toured the double mile in 8:47.6 despite severe gusty winds.

Other State berths go to Wriedt who finished second in the 440 and Dave Hasebrook, who garnered a red ribbon in the mile run.

First three places in class B district competition are awarded State meet places. Woehler finished a close fourth in the 440 to give Wayne sixth place among class B schools with 18 team points.

At the district meet last Wednesday, Eaton set a new mile record of 4:40.1. The old record was 4:40.9. He will compete in the mile event at the state meet in Kearney Saturday.

League Meet Coming Up; Wildcats Preping Today

A triangular track meet this afternoon will give Wildcats trackmen a welcome workout before the conference meet next week.

The meet with Chadron State and Dakota Wesleyan begins at 2:30 for field events and 3 for running events on the Wayne track.

Some good performances this season indicate that Wayne may—at full strength—make a strong showing in the conference meet at Hastings May 22-23. Kearney, as usual, is the overwhelming favorite to bury all opponents with an avalanche of points. However, other teams are stronger than usual, and the scrap for second and third seems sure to be full of spice.

Peru, long down in track, proved it will be strong among the challengers when it nosed out Wayne last Wednesday, 74-68, in a dual here. Bobcat depth prevailed as Wayne operated without several regulars.

Wayne won 11 of 17 events and had four double winners. Darrell Reifernath capped the 100 in 9.9 (wind assist disallowing a record) and the 220 dash in :22.4 (into

Wayne State Nine In NAIA Test Thur.

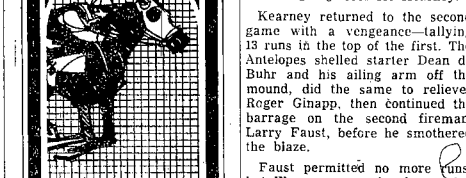

Wayne State meets its toughest baseball assignment of the season today (Thursday) in a 11:30 game with Washburn in Omaha.

Wayne and Omaha University were named Tuesday as Nebraska's representatives in the district NAIA playoff with Washburn and Sterling College of Kansas.

Omaha, undefeated in 14 games, is seeded No. 1 and will meet Sterling at 2 p.m. today in Omaha's Municipal Stadium. Losers of the first game will play at 6, followed by the winners at 8:30 p.m. Then winners of the night games will clash twice Friday for the right to play the Dakota champion. That winner goes to the national.

Last year in a similar playoff Washburn handed Wayne its worst drubbing of the season, 13-0.

Lawton, Anthon, Ia., Join NE Nebraska Ball League

Lawton and Anthon, Ia., have been accepted into the Northeast Nebraska Baseball League and will join holdover members, Decatur, Emerson, Homer, Wayne, Nebr., and Onawa, Ia., in the loop.

League will play a fifteen game schedule, nine Sundays and six Thursdays, beginning Sunday, May 31 and closing Sunday, July 26. A four-team playoff will follow the regular season.

Pairings for the opening day are: Wayne at Onawa, Emerson at Lawton and Decatur at Homer. Homer is the defending champion.

Due to the difference in daylight savings time in Iowa and central standard time in Nebraska the following time schedule was arranged. All Lawton games will start at 3 p.m. DST. Onawa will play its night games at home with a 9 p.m. DST starting time. All Nebraska teams will play at home with 8 p.m. CST beginnings.

The league's all-star game versus the Dodge County league will be played sometime early in July at Homer.

League officers for the 1964 season are: Bud Wassner of Homer, president; Pete Temple of Emerson, vice president; and Lefty Olson of Wakefield, secretary-treasurer.

With some managers yet to be named, representing the league towns are: Dr. Leo Gaukel and Bob Garretson, Onawa; Doyle Smith and Ed Johnson, Lawton; Hank Overin and Ralph Bishop, Wayne; Dave Farber, Decatur; Harry Prokop and Temple, Emerson; and Vasser, Homer.

Major change in the league's by-laws this year is that the league will assign only the home plate umpire. The home team will be responsible for the base umpire.

Letter to the Editor

Editors Note:
Last Wednesday, Fred Bruno, who farms 10 miles southeast of Wayne, came into the Wayne Herald office with a cancelled check he had found in a field he was plowing. What made the incident interesting was the fact that the check was made out to an auto company in Grand Island and was signed by Paul Schuman, Harvard, Nebr. Bruno thought the wind might have carried the check to his farm.

A letter to Mr. Schuman brought the following reply:

"In regards to your letter about the check that was found down there—we were in the tornado May 5 and were completely demolished. So no doubt at all it probably was blown down there or carried there by the winds."

"Another check of mine was found at Pender, Nebr. I had a four-drawer filing cabinet where I kept the cancelled checks and I haven't found it either. The man who found the check at Pender was Robert Buschmeyer. We did live 6 miles north of Harvard. I guess that is about all I can tell you about the check. I don't know otherwise how it could have gotten down there." Signed Paul Schuman, Harvard, Nebr.

Harvard is about 15 miles east of Hastings and is more than 150 miles from Wayne.

E. Noonan Weds David Dolph in Rites Saturday

Elizabeth S. Noonan, daughter of Mr. and Mrs. William Noonan, Wayne, and David L. Dolph, son of Mrs. Harold Erwin, Laurel, were married in double ring rites Saturday morning at St. Mary's Catholic church, Wayne.

Father William Kleffman officiated. Kathy McGill, Wisner, sang, accompanied by Mrs. Helen Gohlirsch.

The bride, given in marriage by her father, wore a white floor length gown she designed of crystals over tulle with handpainted Swiss embroidered appliques, featuring a bell skirt and chapel train. Her elbow length illusion veil fell from a crown of pearls and rhinestones. She carried sweetheart roses and a white prayer book.

Maid of honor was Lois Noonan, Mrs. Kerry Noonan, Lincoln, was bridesmaid. They wore rose colored satin street length dresses with bell skirts and carried single roses.

Kerry Noonan was best man. Clayton Stalling, Concord, was groomsmen. Ushers were Richard Doolph, Exter, and William Noonan, Jr., Lincoln.

Danny Noonan, Lincoln, was ringbearer, and Teresa West, Sioux City, was flowergirl.

The bride's mother wore a light blue dress with white accessories. Mrs. Erwin chose a navy blue dress with beige accessories. Both had pink carnation corsages.

Mr. and Mrs. Jerry Noonan were hosts to the buffet luncheon for 150 at St. Mary's School hall following the ceremony. Mrs. William Noonan registered guests. Mrs. Darrell Gilliland, Mrs. Lynn Gamble, Mrs. Harvey Mohfeld and Mrs. Leonard Schoene arranged gifts.

Mrs. Joe West, Sioux City, Ia., and Mrs. Bud Ortgren, Marquette, cut the cake. Waitresses were Judy Griess, Carla Rethwisch, Betty Claus, Mardelle Blatter, Mrs. Fred Herman, Cheryl Bailey, Linda Kane and Colleen West.

For her going away ensemble, the bride chose a sky blue suit with white accessories.

Following graduation from Wayne high school, the bride attended Wayne State College. The bridegroom was graduated from Wakefield high school and is working at the Pentagon in Washington with the US Air Force. The couple will reside at 802 South Arl. Mill Drive, Arlington, Va.

N. Shields, Ellis Marry in Lawton Ceremony May 1

Nadine Shields, Lawton, Ia., daughter of Mr. and Mrs. Oliver Shields, and Phillip Ellis, son of Mr. and Mrs. Morris Ellis, Allen, were married May 1 at First Christian church, Lawton. Rev. M. Dwight Walker officiated at the double ring ceremonies. Barbara Pulscher sang, accompanied by Mrs. Ray Allen.

The bride, given in marriage by her father, wore a floor length gown with a colonial styled skirt and bustle bow. The lace bodice was accented with pearl trim. She wore a tiara of crystal and drop pearls with a four tier tulle veil.

Anita Ellis, Allen, was maid of honor. Mary Ann Elliott and Judy Elliott, Ponca, were bridesmaids. They wore sheaths of blue nylon chiffon and white and blue carnations.

David Stenwald, Allen, was best man. Rand Shields, Lawton, Ia., and Tom Ellis, Allen, were groomsmen. Truman Fahrenholz, Allen, Richard Ellison, Sioux City, and Marion Ellis, Allen, were ushers.

IT'S TRADE 'N' TRAVEL TIME AT YOUR CHEVROLET DEALER'S

THE GREAT HIGHWAY PERFORMERS—Models shown top to bottom: Corvette Sting Ray, Corvair Monza Spyder, Chevy II Nova Super Sport Coupe, Chevelle Malibu Super Sport, Chevrolet Impala Super Sport.

Five different lines of cars—forty-five different models to choose from. Come early and trade great!

Now that spring's in full swing, you'll find new Chevrolets perfect for picking.

Luxury—First, there's the big Jetstream Chevrolet. Sumptuous and soft riding. Over 700 sound stoppers throughout the car to blot out noise. Interiors luxuriously done up in the newest and softest vinyls.

Trade what you're driving for one of these, and you won't want to trade parts with anybody else on the road.

Spirit—Next, Chevrolet. The beautifully in-between size car that combines small car handling oomph with big car comfort. Eleven different models that you can equip with just about any extra option you can imagine. No place to go this summer? Get a new Chevrolet—you'll think of something.

Economy—Chevy II—the car that takes to inexpensive vacations naturally. It just goes and goes, and where it stops nobody knows. Eight mph to pick from, including wagons with enough room to swallow up an eight-foot Christmas tree. (Plan ahead, we always say.)

Fun—Then there's the Corvair. The fun one with the engine in the rear for unbelievable traction. Spring mud, summer sand, winter snow—nothing stops it.

Corvette. The enthusiast's car. Sting Ray Sport Coupe and Convertible. Still America's only true sports cars. They do for your driving what holidays do for kids.

Performance—And with any new Chevrolet you choose, you can pick from a wide range of standard or extra-cost high performance engines.

Either way, whether you've got some place special to go this summer or not, when you trade for one of Chevrolet's five great highway performers—you'll travel!

Eight to ten boys and girls have been absent from school every day this past week because of mumps. Children and mothers of the Opportunity Room and Mrs. Schroeder visited our room Friday. The class sang two songs for them. Pre-primers have been started. The students made gifts for their mothers for Mother's Day.

Cadets Meet

The Cadets followed a rock trail layed by cadet Bella Lindahl and cadet Agnes Brentlinger. They practiced rope lashing and tying different kinds of knots. The cadets also made plans for an all-day hike and cook-out May 21.

Girl Scouts Meet

Girl Scout troop met May 5 at Lutheran Church parlors. New members of the Junior Patrol opened the meeting with the flag song. LeAnn Von Minden substituted.

EDITORIAL COMMENT

The editorial department of a weekly newspaper is an important department. Normally it is one person's opinion of topics that concern most of the readers.

It is the duty of an editorial writer to search all available facts before he sits down to write. From this basis the writer should be able to give a clear picture of important topics.

Complaints or Cooperation?

It happened again yesterday. We were talking with one of Wayne's citizens when the old topic of industrial development came into the conversation.

You've all heard his remarks: "The local businessmen don't want industry. They're fighting to keep it out. They know they'll have to pay more than starvation wages if a high wage scale industry comes to town. They don't want the competition that they'd have from new stores industry would bring," and on and on ad nauseum.

Let's look at these accusations realistically.

It isn't realistic to say that anyone would fight to keep industry out. It doesn't make sense to think that a merchant would oppose an additional payroll that would make his cash register sing. Fact is that Wayne merchants are concerned about our declining rural population and would welcome additional jobs.

And the wage argument doesn't hold water either. If the wages were too low, the merchants would be too rich. We see no signs of unequal economic balance.

Capitol News Proposed Legislation May Upset ETV Network Plans

LINCOLN — The Nebraska Educational Television (ETV) Commission has been informed a bill will be submitted in the 1965 Legislature aimed at upsetting the proposed statewide ETV network.

Relaying this information to the commission was Sen. F. O. Gottschalk, Columbus, who said opponents of the system have advised him privately they will sponsor such legislation. The Columbus lawmaker warned that unless the network is developed smoothly, "these people will have a better change against us."

He voted for establishing the network. But he said he thought for awhile the issue was becoming a "political football, which I hated to see."

There was considerable controversy in the 1963 Legislature over location of stations and priorities. The most heated arguments were over Omaha objections to completing ETV stations at Mead and Lexington ahead of Omaha's channel 16. The commission later disposed of this problem by coming up with a compromise plan calling for development of channel 12 at Mead, channel 3 at Lexington and the Omaha channel during this biennium.

Dr. Steven Watkins, Lincoln, commission chairman, said it is hoped that federal approval will be received very soon for transfer of channel 12 from the University of Nebraska campus to a site near Mead. This station will be activated to full power and is the "master link" in the proposed network.

Approval of the transfer must be received from the Federal Communications Commission and the U. S. Department of Health, Education and Welfare. According to Watkins, it is impossible to predict when the federal government will act on the requests for channels 3 and 16.

The commission chairman also expressed the hope that the 1965 Legislature will provide enough funds — about \$2 million — for completion of the seven-station network during the 1965-67 biennium.

M & S Oil Co's FUEL KIDS

OUR GASOLINE WITH POWER IN IT WORKS FOR THE FARMER EVERY MINUTE

M & S OIL CO. INC. 614 MAIN WAYNE, NEBR.

You may not agree with an editorial — but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

In addition, workers could not be hired if salary scales were not competitive. We believe that Wayne's businessmen would welcome more payroll dollars in circulation, thus upgrading salary and living levels in the whole community, and making a better community.

As for the competitive angle, we all know that more stores entice more shoppers. The buying public has become more and more discriminating in their shopping habits. A town with one shoe, grocery or hardware store receives little trade. In reverse however, the locations that offer variety of merchandise and price are bustling. Merchants know that the wage earners tend to spend where they are offered choice. More stores would bring more trade to everyone.

Nebraska towns that have been successful in attracting industry have all used the same formula: a positive, "can-do" attitude. We'd like to see more Wayne and rural people adopt this attitude. Next time someone makes these accusations why not ask them what they've done to encourage industry? We might borrow a famous phrase from the inaugural address of the late JFK: "ask not what your community can do for you, but what you can do for your community."

LIQUID NOT RECOMMENDED

The use of liquid forms of corn rootworm control chemicals is not generally recommended, according to University of Nebraska Extension entomologist, R. E. Roselle.

"The only suggested liquid form is one pound of actual diazinon sprayed at the base of the plants when the corn is layed-by, and then on by an emergency measure," Roselle advised. Thimet, Niran and 4072 are not recommended for use as liquids, he added.

The diazinon spray is not intended to kill worms that are present, but rather to provide a barrier to reduce the number of worms migrating upward to later-developing corn roots.

The effective time in the soil of most new materials is believed to be about six to eight weeks, when the rate of application is 10 pounds of 10 per cent granules per acre, Roselle stated. The period of effectiveness will be influenced by moisture and methods of application, he pointed out.

Department Honored

Has received for the Nebraska Department of Roads the National Highway Users Conference Golden Milestone Award. The award was for excellence in reporting Nebraska's highway program in the booklet, "Highways Are Your Business."

The honor is given annually to highway departments for program reports reflecting "special effort to bring highway information to the public." The Nebraska booklet was designed and written by Cecil Elbe, chief of the Nebraska Department of Roads Information Division.

Will Hold Hearing

State Tax Commissioner Forrest A. Johnson says he definitely plans to hold a public hearing to review the tax-exempt status of the Omaha civic organization, Ak-Sar-Ben. He said the hearing would probably be scheduled within the next two months.

Last month the Douglas County Board of Equalization voted unanimously to leave property owned by Ak-Sar-Ben off the tax rolls. This came after Joseph Stolinski, the Douglas County assessor, recommended that part of the property be taxed.

Johnson, under law, is authorized to challenge county board findings in allowing property tax exemptions. However, the commissioner must hold a public hearing to determine if the board action was valid.

Johnson said he reviewed the report of the Douglas County Board regarding Ak-Sar-Ben before deciding on whether a hearing was warranted. If he reversed the board's decision, Ak-Sar-Ben could appeal to district court.

Wants Evaluation Report

Governor Morrison has requested an evaluation of Nebraska's five-year-old ag-research program.

The evaluation will be made by the six members of the program's advisory committee. Morrison wants a complete report on the committee's findings "within the next few months."

His directive seemingly was prompted in part by criticism of the program by Clare Porter, Lincoln, a former faculty member at the Nebraska College of Agriculture.

Porter would like to have the ag-research fund, which comes from a special property tax levy, transferred from the State Department of Agriculture to the University.

Co. Agent's Column

ly?" "How about having, say five cigarettes a day until gradually you overcome the demon?" On and on, round and round they went, but meanwhile smoking — like a chimney until they could devise a scheme that would free them from the habit.

Now you know America is a great country for the opportunists, especially those who love to make a fast buck, so this anti-cigarette campaign was right down their alley. Immediately clubs and clinics came into being, all for the purpose of helping the victim of the pernicious habit and at the same time give a little aid, comfort and sustenance to the promoters of this altruistic movement. Psychiatrists, psychologists, fakers and crackpots all offered their services (at a slight cost of course). Drugs, nostrums, even fake cigarettes appeared on the scene.

Everybody and everything got into the act. You, the victim, could be furnished with everything to do the job except one thing and that was the will power to sweat out the deal. Brother, I can tell you there isn't any other way. Sooner or later you have to sweat it out and you alone have to do it. It is a man size job and you can't send a boy to do it for you.

Why do I speak with seeming authority on this subject? For no reason at all except, that having smoked steadily for sixty years, I had the red "stop" flag waved in my face. We speak blithely perhaps of "sweating it out," but one thing for sure is that it is far from either an easy or comfortable procedure.

Under Zeke FROM Plum Creek Says:

DEAR MISTER EDITOR:

The session at the country store Saturday night wasn't quite up to our usual high standards on account of Clem was absent. Clem has been in poor health now for a couple weeks. First off, he come down with a Virus the morning his old lady started the annual Spring cleaning. He got over this ailment about the same day his old lady finished up the job and when she took to painting the kitchen and front porch Clem had a small relapse and was now suffering from indigestion, which is liable to keep in for the duration of the painting.

George was lamenting that indigestion was giving to be more of a problem every day on account of people didn't eat right. George allowed as how in the old days a feller eat all his meat, then he eat all his vegetables, then he drank his coffee and went to the fields. Nowadays, he said, he eat everything he eats taking a dab of this and a dab of that and it's mighty hard on the mixing machine in the stomach. George is a authority, Mister Editor, on matters of health and medicine.

The main reason things was a little off when Clem can't sit to the Saturday night sessions is on account of Clem is the only feller in the community that has not a dictionary and most of the time he fetches it along in case matters comes up calling for words the one-galush bays can understand.

Saturday night, for instant, Dave had a item he clipped from the papers where Congressman Scott was claiming the foreman and folks had thrown \$9 million down the drain for highways.

George said in Turkey and Iran that ain't never been built. This project was supposed to be carried out between 1957 and 1962 and up to now they ain't done nothing but grade a few roads

Don Cunningham Says:

Whether or not there is any foundation for some of the lies that are laid on the doorstep of the tobacco industry, especially the cigarette segment, you can't deny the fact that these reports created a furor that amounted to a full blown hullabaloo. Cigarette smokers were thrown into a "hazy" right away, a lot of 'em began to have the symptoms that only the imagination could conjure up. They were ready to take the vow of total abstinence, but that passed the question, "how do you quit?" "Do you taper off or do you quit sudden-

Summer Day...

SALADS

Looking for a way to bring the fresh air and sunshine of summer into your kitchen—try a salad. Toss fresh crisp greens and peak-of-the-season vegetables together as just the right thing to serve with a hot sizzling steak right off the grill. For the gals serve fresh fruit on your prettiest plates. Combine the summer season's full flavored fruit with your favorite cheese and have a perfect ending for any dinner.

There are a million ways to fix a salad. That's why you can be an expert in the salad

line. Salads can be appetizers, accompaniments, main dishes, desserts, or a whole meal. They may be made individually, or they may be big enough to serve the whole party. And they may be crisp and cool, molded, frozen, or even hot!

With all this variety, don't let yourself and your family get into a salad rut! Try one of these recipes for a touch of newness to any meal—Tuna Salad in Tomato Cups, Macaroni Tropical Salad, and Patio Salad. We're sure you'll be glad you did.

PATIO SALAD

1 can pork and beans with tomato sauce	1/2 cup sliced cucumber
1/2 cup chopped celery	1 1/2 teaspoons vinegar
1/4 cup chopped green pepper	1/2 teaspoon salt
	Dash pepper

Lightly mix all ingredients together; chill. Serve on crisp greens. Makes 3 to 4 servings.

TUNA SALAD IN TOMATO CUPS

1 can tuna	Salt and pepper to taste
1/2 cup diced celery	1 tablespoon sweet pickle relish
1/2 cup chopped cucumber	1/4 cup mayonnaise
1 tablespoon minced onion	4 medium tomatoes
1-3 teaspoons lemon juice	

Mix tuna, celery, cucumber, onion, lemon juice, salt and pepper. Toss together. Add mayonnaise. Blend in sweet pickle relish and mix lightly. Cut tops off tomatoes and scoop out center. Fill with tuna salad and serve on crisp lettuce cups. Makes 4 servings (1 pint tuna salad).

MACARONI TROPICAL SALAD

1 7-ounce package elbow macaroni	1/4 cup nuts, chopped
2 cups diced oranges	1/4 cup maraschino cherries, finely sliced
2 cups diced, unpared apples	

Cook the elbow macaroni as directed on the package. Drain and blanch under cold water. Chill. To chilled macaroni add oranges, apples, nuts and maraschino cherries. Fold in Fluffy Orange Dressing. Place in lettuce cup for individual serving. Garnish with cherries. Serves 10 to 12.

FLUFFY ORANGE DRESSING

2 3-ounce packages cream cheese	Grated rind of one orange
2 tablespoons sugar	Juice of one orange
1/2 teaspoon salt	1 cup cream, whipped

Cream the cheese, sugar, salt and orange. Add orange juice. Fold in whipped cream.

LOW-CALORIE LUNCHEON PLATE

Lettuce
Thin slices honeyball or honeydew melon
Lemon juice
Pink grapefruit sections
Orange sections
Grapes, halved and seeded
Unpared red apple, sliced thin or cut into wedges

Avocado, peeled and sliced thin
Fresh sweet cherries, pitted
Thin slices of sausage
Cottage cheese
Seasoning salt
Toasted thin biscuits or English muffins
Fruit Dressing

Arrange individual luncheon plates. Center melon slice in lettuce cup or on lettuce leaf. Sprinkle with lemon juice. Top with grapefruit and orange sections, grape halves, apple wedges, avocado slices and pitted cherries. Pass Fruit Dressing or drizzle over mound of fruit. Shape thin slices of sausage into cones (fasten together with toothpick) and fill with cottage cheese. Sprinkle cottage cheese with seasoning salt. Complete luncheon plate with slices of toasted thin biscuits or English muffins.

FRUIT DRESSING

Juice of 1 lemon
Juice of 1 orange
Pineapple juice

1/4 teaspoon salt
3 beaten eggs
1 teaspoon non-caloric sweetener (or about 3 teaspoons sugar)

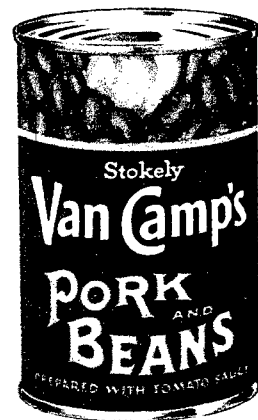

Measure juice of lemon and orange into 1 cup measuring cup. Add pineapple juice to fill cup. Place in top of double boiler. Add salt, eggs, and non-caloric sweetener; blend well. Cook over simmering water until thickened, stirring constantly. Cool. Serve with any fruit plate or gelatin salad.

Summer Day... PATIO DINING

"Aw, come on, Mom—let's eat OUTSIDE!" Roll out the barbecue and eat in the backyard, on the patio, porch, or terrace. Use the old outdoor fireplace or bring out a charcoal grill for the cooking. Keep the food simple. Let every amateur chef have a hand in the fixin's. Make it a casual, carefree occasion that's easy on Mom and oceans of fun for Dad and the youngsters.

This summer add to your outdoor eating pleasure by making your electrical appliances a real part of your patio dining. Use the electric frypan for toasting sandwiches, fixing burgers, steaks and flapjacks, or cooking

the family's favorite casserole. Try warming buns, stew and potato-chip appetizers in the electric corn popper. The table-broiler/roisserie, if you have one, can serve a dual purpose—it broils steaks, chops and sandwiches and the spit cooks roasts and poultry to perfection. Keeping foods hot is a simple matter when you use your electric hot tray or small trivet. And by all means have "on-the-spot brewing" with your automatic coffee maker.

So, whatever menu you plan—be it plain or fancy—we think you'll find that suppers (lunches and breakfasts, too) are twice as good OUTDOORS.

BAKED BANANA SURPRISE

Select underripe or green-flecked bananas. Wash and with a paring knife slash the skin on the inside curve of the bananas; cut down into the banana and spread it apart. Insert miniature marshmallows and semi-sweet chocolate morsels. Pull the skin together, wrap each banana in foil, and about 10 minutes before dessert time place on electric table-broiler/roisserie unit or over charcoal grill. Turn once.

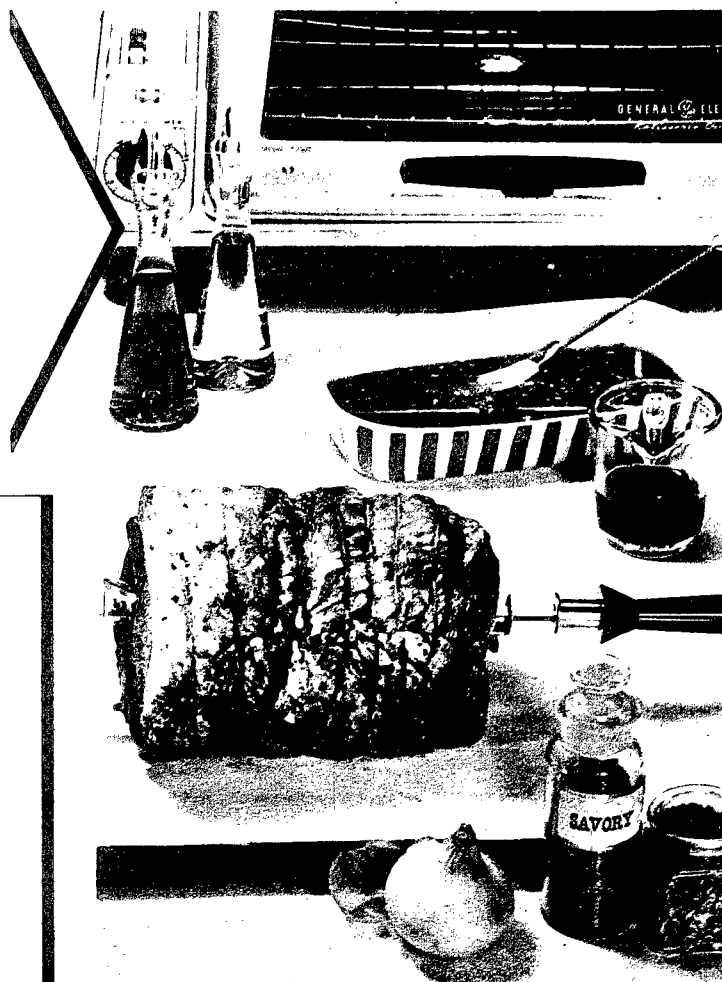

BARBECUED BEEF ROAST

1 small onion, chopped
1 cup mild vinegar
½ cup salad oil
¼ cup molasses
½ teaspoon basil

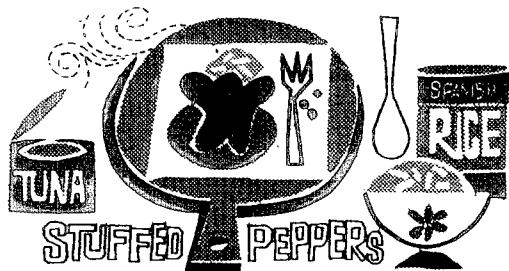

½ teaspoon celery salt
¼ teaspoon savory
¼ teaspoon garlic salt
4 pounds beef round, rolled and tied

Combine onion, vinegar, salad oil and molasses in large bowl; mix well with fork. Blend in seasonings. Add beef and turn a few times to coat well with the mixture; refrigerate several hours, turning beef occasionally.

Preheat rotisserie as manufacturer directs (or preheat oven to 325 degrees F.). Remove meat from marinade. Put spit lengthwise through center of roast, lock with prongs, and slip spit into preheated rotisserie; roast about 1½ hours to 1½ hours, for medium-rare, basting often with marinade. Or, to roast in oven, place meat in shallow roasting pan on rack, roast approximately 1½ to 2 hours, for medium-rare, basting often with marinade. Makes 8 to 10 servings.

TUNA TIP #15

CHICKEN OF THE SEA STUFFED PEPPERS

Into canned Spanish rice, mix chunk-style Chicken of the Sea brand tuna. Don't skimp—use 2 regular cans or the new Family-Size Chicken of the Sea. Stuff the peppers and bake 'til they sizzle. Serve with slivered cooked green beans.

COOKS

IN ONLY 7 MINUTES

BRAISED BEEF WITH MUSHROOMS

2 tablespoons butter or margarine
1 envelope onion soup mix
2 pounds round or chuck beef cut 1½ inches thick

1 tablespoon bottled steak sauce
½ pound fresh mushrooms, sliced OR 1 6-ounce can sliced mushrooms

Place a large sheet (double thickness) of aluminum foil in electric skillet and place 1 tablespoon of the butter in the center. Combine the soup mix with ¼ cup water or, if canned mushrooms are used, the mushroom juice. Place half of this mixture on the foil and place the meat over it. Scatter the mushrooms around the meat. Top with remaining soup mixture and butter. Close the foil by overlapping it 3 inches on top of the meat. Close opposite ends by folding them up tightly. Place temperature control at approximately 220 degrees F. and cook for 2 hours or until meat reaches desired degree of tenderness. Serve right from the skillet, simply open the foil and spoon the wonderful sauce over each meat serving. Makes 8 servings.

VEGETABLES HOT OFF THE GRILL

Plugged Potatoes:

With an apple corer, cut a lengthwise plug in a baking potato—remove plug and cut off end, leaving ½ inch. Pour a spoonful or two evaporated milk into hole in potato; replace the ½-inch plug. Brush each potato with salad oil and wrap in aluminum foil. Grill-bake until tender—about 45 minutes to 1 hour.

Tomatoes with Onion:

Select medium firm tomatoes (one to a person). Cut each tomato in half crosswise, sprinkle cut surfaces with salt and pepper, then put together again with a thin slice of onion between. Use a toothpick to hold the reassembled tomato intact. Wrap each tomato in a 6-inch square of heavy aluminum foil, and "bake" at edge of hot grill 15 to 20 min.

Frozen Vegetables:

Place block of frozen vegetable on big square of aluminum foil. Season with salt and pepper. Top with pat or two of butter or margarine. Bring edges of foil up and, leaving a little space for expansion of steam, seal tightly with double fold. Place this package on the grill or right in the hot coals about 10 to 15 minutes. Turn occasionally.

SAUSAGE BREAKFAST FOR A SUMMER DAY

Fresh crisp chilled blueberries
1 package refrigerator biscuits
Butter
Coffee or milk

Commercial sour cream
Ground nutmeg OR brown sugar
1 package brown and serve sausages
Jelly

Start breakfast with a bowl of fresh blueberries topped with thick commercial sour cream sprinkled with ground nutmeg or brown sugar. Meanwhile heat an electric skillet to 380 degrees F. (or hot if a regular heavy frying pan is used). Arrange the packaged refrigerator biscuits in the ungreased skillet. Cover tightly for 5 minutes. Remove the cover and with a spatula turn each biscuit to brown the other side. Replace the cover and bake 5 minutes more. The biscuits will be crispy and golden brown on each side when baked. Push the biscuits to one side and put the sausages in the skillet, turning to brown evenly. Allow about 3 minutes for browning the sausages; if they came from the freezer, add 2 or 3 minutes more.

FRENCH-TOASTED TUNA FISH SANDWICHES

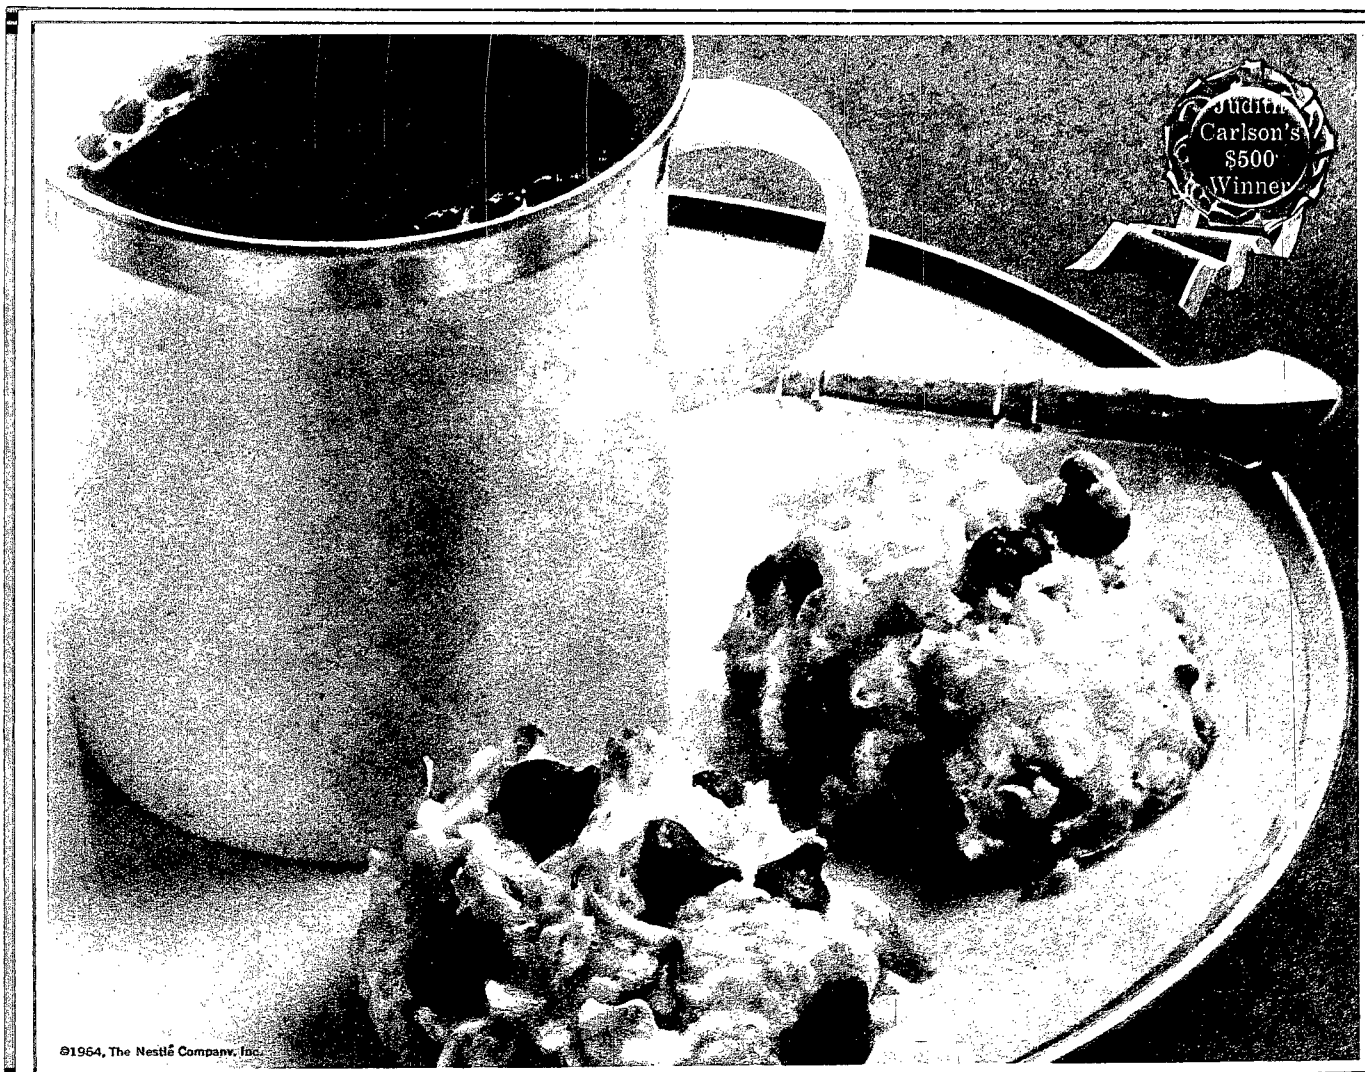

1 cup flaked tuna fish
½ cup minced celery
¼ cup chopped sweet pickle
Dash of pepper
¼ cup mayonnaise
12 thin slices white bread

3 eggs, beaten
½ cup milk
1 teaspoon sugar
¼ teaspoon salt
Butter or margarine

Combine tuna, celery, pickle, pepper and mayonnaise; mix well. Make up 6 sandwiches with bread and set aside. Mix eggs, milk, sugar and salt in a pie pan. Dip each sandwich into egg mixture, being sure to coat each side completely. Sauté sandwiches slowly in butter on electric griddle until filling is thoroughly heated and sandwiches are golden brown.

French-Toasted Chicken Sandwiches: Use recipe for French-Toasted Tuna Fish Sandwiches, substituting 1 cup finely chopped cooked or canned chicken for the tuna fish. Add 1 teaspoon salt to the filling mixture.

French-Toasted Ham and Cheese Sandwiches: Use recipe for French-Toasted Tuna Fish Sandwiches, substituting 6 thin slices of ham and 6 thin slices of cheese for tuna fish filling.

Delicious Pillsbury Bake-Off prize winner: Macaroonies!

Want to wind up with a winner? Then start with a winner! Every time, use Nestlé's® Semi-Sweet Chocolate Morsels. That's what Judith Carlson of Amery, Wisconsin, did in her "Macaroonies" recipe, adapted for you by Ann Pillsbury. Fabulous—the way Nestlé's Morsels stay neatly whole in baking, then melt lusciously in your mouth. Famous—the glorious, rich flavor they give. Fantastic—what they do for cookies. Anything other than the plump goodness of Nestlé's Morsels, and Macaroonies just wouldn't be Macaroonies. And that's a guarantee... because Nestlé's makes the very best chocolate.

Macaroonies

Adapted by Ann Pillsbury

2 eggs
¼ teaspoon salt
¾ cup sugar
½ cup Pillsbury's BEST All Purpose Flour
1 tablespoon Land O'Lakes Butter, melted

2 cups flaked coconut
1 6-oz. pkg. (1 cup) Nestlé's Semi-Sweet Chocolate Morsels
1 teaspoon grated lemon rind
1 teaspoon Burnett's Pure Vanilla

Crisp macaroonies with morsels of chocolate.

BAKE at 325° for 12 to 15 minutes. MAKES about 3 dozen cookies.

Beat eggs and salt until foamy. Gradually add sugar; continue beating until thick and—ivory colored, 5 to 7 minutes. Fold in flour and butter.

Stir in coconut, chocolate morsels, lemon rind and vanilla. Drop dough by rounded teaspoonfuls onto lightly greased and floured cookie sheets.

Bake at 325° for 12 to 15 minutes until delicately browned. Cool 1 minute; remove from cookie sheet.

TEEN COOKERY

SUBMARINE SANDWICHES

Split a long loaf of French or Italian bread, but don't cut quite through. Cut a length to match your appetite or start with miniature brown-and-serve loaf. (If you like, scoop out some of the center to make room for more filling!)

Spread generously with mustard, whipped garlic butter and/or mayonnaise with curry powder. Or sprinkle bread with plain oil-vinegar French dressing.

A traditional Sub starts with salami—you take it from there. A few possibilities are: boiled ham, proscuitto, bologna, sliced tongue, beef, chicken, dry sausage, tuna, pickled herring, lobster, crab; American cheese, Swiss, provolone, ricotta; lettuce, green-pepper strips, slices of tomato, onion, cucumber; pickles—from gherkins to artichoke hearts to tiny red peppers; ripe and green olives.

Some specialists moisten the layers of "stuffing" with olive or salad oil, sprinkle with capers, sage, oregano, or other favorite herbs. Away with food inhibitions!

Let teen-agers cater their own summertime snack sessions! Snacks after a hootenanny at home, refreshments following a swim or baseball game, or tidbits while lazying about—teen-agers like good hearty food. And they can fix it themselves. The old reliables—pizza, franks and hamburgers—are fine anytime, and especially when they are "dressed up" a bit to impress the guests.

Mom, you can encourage this "do-it-yourself" kitchen activity by stocking the pantry snack shelf with convenience foods earmarked for teen-age cookery. Canned tuna, cold meats, ice cream toppings, pork

and beans, a variety of crackers and slice and bake cookies are some suggestions. Beginning teen-age cooks will probably be too impatient to cope with the technicalities of a standard cookbook so the quick and easy foods will be a good introduction to the wonderful world of cooking. And a few hints from Mom, tactfully given, help smooth over problems that will inevitably arise.

Teen-age cooks can also make a start on the backyard barbecue. Everyone can get in the act when hamburgers, hot dogs, or skewer sandwiches are the fare. And don't forget the icebox—be prepared, Mom, for frequent raiding.

BABY PIZZAS

6 English muffins or 6 sandwich buns
½ pound package brown-and-serve sausage

6 tablespoons (½ of a 6-ounce can) tomato paste
Oregano
1 cup shredded sharp cheddar cheese

Split muffins or sandwich buns and toast the cut side. Spread with tomato paste. Cut each sausage link in fourths and place polka-dot fashion over muffins. Sprinkle with oregano and cheese. Bake in 450 degrees F. oven for 5 to 7 minutes. (Or broil 4 inches from heat until hot through, about 2 to 3 minutes.)

HOT DOGS IN OLIVE-CHEESE BUNS

1 cup ripe olives
1 tablespoon instant minced onion
3 tablespoons undrained sweet pickle relish
3 tablespoons tomato catsup
1 teaspoon prepared mustard

1 teaspoon Worcestershire sauce
1½ cups grated American cheese
8 frankfurter buns
Aluminum foil
8 frankfurters

Cut olives in large wedges. Combine onion, pickle relish, tomato catsup, mustard and Worcestershire sauce. Add cheese and olives; mix well. Split buns and hollow slightly. Fill with cheese-olive mixture, and wrap in aluminum foil. To heat, place over low heat on barbecue grill (or heat in 350 degrees F. oven about 20 minutes). Grill frankfurters until browned and sizzling; place one in each cheese-filled bun just before serving. Makes 8 servings.

30-MINUTE BAKED BEANS

1 cup sliced onion
2 tablespoons fat
2 No. 2 cans (5 cups) pork and beans
1 4½-ounce can deviled ham
2 tablespoons molasses

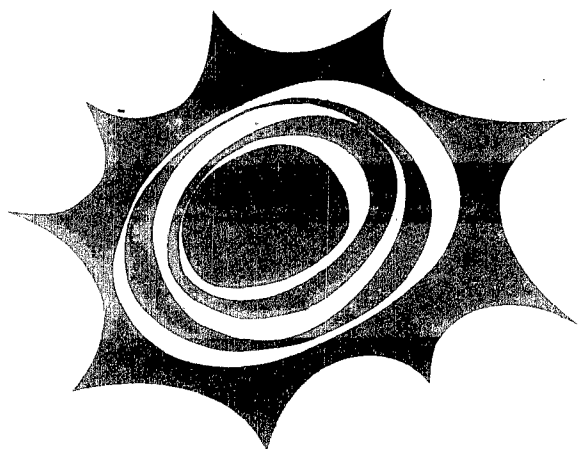

1 tablespoon prepared mustard
¼ teaspoon salt
2 tomatoes, peeled and sliced, or 1 cup well-drained canned tomatoes

Cook onion in hot fat till tender but not brown. Combine remaining ingredients except tomatoes and onion. Alternate layers of bean mixture and onion and tomato slices in greased 1½-quart casserole. Bake in moderate oven (350 degrees F.) for 30 minutes. Makes 6 to 8 servings.

CHOCOLATE BARBECUE BOATS

For each "boat" prepare an aluminum foil container 5 to 6 inches long with 1-inch sides. Pinch ends together. Stack 5 vanilla wafers spreading each layer with your favorite jam. Place on side in foil container. Separate wafers and sprinkle jam layers with miniature marshmallows and semi-sweet chocolate morsels. Place foil "boats" over low heat on the grill and heat until marshmallows and chocolate are softened, approximately 10 minutes.

Summer Day... DRINKS

Hot summer weather calls for plenty of tall, frosty refreshments. When the thermometer soars stock the freezer, refrigerator or pantry shelf with the makings of several. You can then quickly serve a milk fizzie to starved teen-agers who come in from a game of tennis or a swim; whip up a cool fruit punch for Dad after he's been working in the yard; and serve the calorie conscious member of the family a glamorous iced tea drink.

These summer drinks are even more fun to serve when given a special treatment. To frost the rims of chilled glasses, dip into lime or lemon juice and then into sugar. Make decorated ice cubes with a bright red berry, lemon or orange slice or sprigs of mint. Arrange them in each section of refrigerator tray, fill with water and freeze as usual. Or for flavored ice cubes freeze fruit juices or sparkling beverages in the ice cube trays. Serve in cold fruit drinks or sparkling beverages of contrasting flavors and as the cubes melt they add flavor to the drinks rather than dilute them.

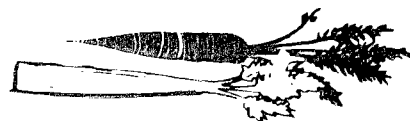

PINEAPPLE TEA COOLER

$\frac{1}{4}$ cup cold tap water 2 to 3 ice cubes
2 tablespoons pineapple 1 slice canned pineapple,
syrup** cut in half
1 teaspoon instant tea

Combine cold tap water, pineapple syrup and instant tea in 8-ounce glass. Stir briskly. Add ice cubes and pineapple slice. Makes 1 serving.

** Use syrup from canned pineapple.

APRICOT APPLE SUMMER PUNCH

1 quart apple juice, chilled Lemon slices
1 cup apricot nectar, chilled Maraschino cherries
1 pint lemon sherbet

Combine chilled juices; pour into punch bowl. Using small ice cream scoop, float scoops of sherbet on top. Garnish with lemon slices and maraschino cherries. Makes 7 8-ounce servings.

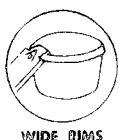

TEA FRUIT SHRUB

8 teaspoons instant tea 1 10-ounce package frozen strawberries,
thawed
 $6\frac{1}{2}$ cups cold water 1 6-ounce can frozen limeade, thawed

Combine instant tea and cold water in $2\frac{1}{2}$ -quart container. Stir briskly. Stir in frozen strawberries and frozen limeade which have been thawed. Serve at once. Makes 10 to 12 servings.

SPICY-SUGARED WALNUTS

1 cup sugar 1/2 teaspoon cloves
1 teaspoon salt 1/2 cup water
2 teaspoons cinnamon 2 cups walnuts, halves or pieces
1/2 teaspoon nutmeg

Boil together, stirring often, sugar, salt, cinnamon, nutmeg, cloves and water, to 236 degrees F. (soft ball stage). Remove from heat and add walnuts. Stir until creamy. Turn out on waxed paper; separate walnuts.

DATE-BROWNIES

2 eggs 1/2 teaspoon vanilla
3/4 cup brown sugar 1 7 1/2-ounce package (1 1/4 cups) chopped dates
1/2 cup flour 1/2 cup chopped walnuts
22 graham crackers, finely rolled (about 1 1/4 cups crumbs)

Beat eggs until light. Combine sugar, flour and graham cracker crumbs. Add to eggs, mixing well. Stir in vanilla, chopped dates and walnuts. Spread mixture evenly in a greased 8-inch square pan. Bake in 350 degrees F. oven for 25 to 30 minutes. Cut while warm. Makes 20 bars.

PEANUT BARS

2 1/2 cups flour 3/4 cup shortening
1 1/2 cups sugar 1 cup milk
4 1/2 teaspoons baking powder 3 eggs
1 teaspoon salt 1 1/2 teaspoons vanilla

Sift dry ingredients together in a bowl. Add shortening and milk. Beat 2 minutes with electric mixer or by hand (150 strokes per minute). Add eggs and vanilla; beat 2 more minutes. Pour into greased and floured 9 x 13-inch oblong pan. Bake at 375 degrees F. for 35 to 40 minutes. Cool in pan. Cut into 1 x 3-inch oblongs. Dip each into Frosting (recipe below). Then roll in ground, salted peanuts. Makes 36 Peanut Bars.

Frosting:

3 cups sifted confectioners' sugar 1/2 teaspoon vanilla
1/2 cup soft butter 3 cups ground salted peanuts
1/2 cup milk

Combine all ingredients, except peanuts. Beat until smooth. Dip each oblong into Frosting and then roll in ground salted peanuts.

GRASSROOTS GLEANINGS

by Bill Stokes

The Traer (Iowa) Star-Clipper reports that many a man has lost his shirt by putting too much on the cuff.

Of course you could lose your trousers by the same method and maybe this is why they're making men's pants without cuffs these days.

The tradition of leap year, says The Marshall (Minn.) Messenger, was legalized in Italy before Columbus sailed for America. That's probably the reason he sailed.

Legal books in England in 1600, reports The Pierce County Tribune, Rugby, N. D., defined the leap year privilege in this manner, "ye ladyes have of making love to ye men, which they doe either by wordes or lookes, as to them seemeth proper."

They define it now in first grade. It goes, "See Jane run. See Dick run. Run, Dick, run."

A feature in The Chronicle-Herald, Macon, Mo., quotes a movie star as saying that if a girl can't get a man during the other three years, she should forget it.

Run, Dick, run—just in case.

"Where but in the good old USA," asks The Morris (Minn.) Tribune, "do people get in their late model cars and drive down to pick up their unemployment checks?"

I know of a fellow who rides a horse down to pick his up. It's a \$1,000 purebred Arabian stallion.

A person can stand a toothache just so long—then it drives him to extraction, says The Wayne County Press, Fairfield, Ill.

It drives some of us to extinction, since we'd rather die than go to the dentist.

"There is nothing wrong with a good political joke," claims The Lacon (Ill.) Home Journal, "unless it gets elected."

A story in the Madison (S. D.) Daily Leader reported that Russia is interested in sending a challenger against heavyweight boxing champion Cassius Clay.

How about Khrushchev?

Since both he and Clay are "the greatest" it should make an interesting bout.

America is the country where it takes more brains to figure out the income tax than it does to make the income, claims The Toluca (Ill.) Star Herald.

The most serious impediment to marriage these days is the difficulty of supporting both a wife and the government on one income, says The Clay City (Ind.) News.

VERDICT!

Thousands of washer purchasers, everywhere, are being guided by the dependable service they see and experience in Speed Queen Coin Laundries. After the guarantee period expires, a washer is on its own. And that's when Speed Queen dependability really pays off!

Summer Fever

by
Eric Wahleen

Summer brings to some the urge to sit in the warm sun and let the rest of the world go by. To contemplate lazily—to philosophize vaguely and relax contentedly. After all (yawn) will our small efforts really affect the course of history? Ho-hum—

But our reveries are not undisturbed for long. The soft breezes of summer are agitated by a chorus of shrill cries, the patter of many feet, the pounding noises of unbounded energy being expended by—

Kids!—

Bursting from their winter bonds with great gusto, the neighborhood small fry blossom forth in a beehive of activity. In their world apart they manifest the urge to build, to explore, to reach for the stars via a tree-top penthouse. Digging for "treasure", seeking adventure on the "high seas", dreaming fanciful dreams of a trip to the moon—the kids are playing out a yearly drama that erupts every spring.

Will it soon end—that we may snooze in our complacency undisturbed? Not quite, nor ever completely. These kids will one day explore the planets.

A tree-house—first step to the stars. It brings a wistful longing to all on the ground. They want to be where they aren't!—

Orbiting in a circle, the sea-explorers make a shake-down cruise before exploring the lake.

Digging a hole to China with visions of treasure in between prompts lots of energetic activity. Protective cap keeps flying dirt (and mother's voice) out of his ears. GOING TO THE WORLD'S FAIR?

The New York World's Fair is now open for its first of two summer seasons. Do your summer vacation plans call for a trip to the Fair? If they do, here are a few of the exposition edifices you'll want to be certain you see.

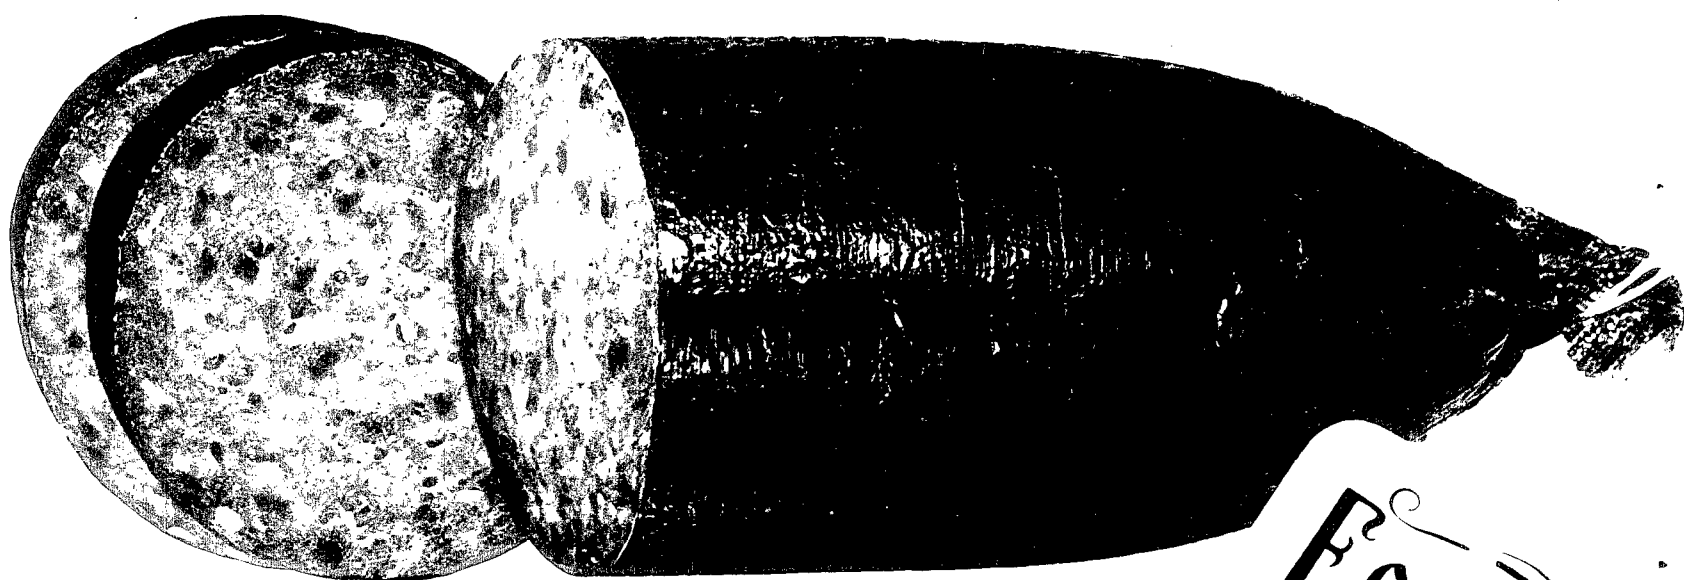

This is the Vatican Pavilion for 1964-65 New York World's Fair. The structure, which will cost approximately \$2 million, is 100 feet tall and is topped by a lantern and a cross.

The Unisphere, 140-foot-high stainless steel structure representing the world, is the centerpiece and symbol of the 1964-65 New York World's Fair.

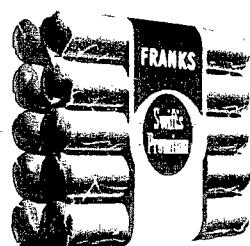

Mushrooms and angular shapes of all sorts rise like geometric forms in this view of part of the model of the New York World's Fair. In the center is the Promenade of Industry, from the Pool of Industry Dancing Waters fountains (lower center) to the stainless steel Unisphere. This representation of the globe will set the fair's theme, "Peace Through Understanding."

there's years ahead planning in this new cattle setup

New techniques for saving labor and increasing production have gone into the new American Breeders Service farm at De Forest, Wisconsin. Perhaps there are some ideas here for your operation.

Kill Canada thistle with one spray application—and without sterilizing soil. Use Weedazol herbicide.

Spray on Weedazol when thistle is in bud to bloom state. Kills weed plant, and when applied before seed maturity stops production of viable seed. Economical. Even a quarter's worth of Weedazol kills a lot of thistle—in fact, a couple of hundred square feet of solid stand. Weedazol is a soluble powder—dissolves into a true solution. After mixing, no agitation required in the tank. Non-flammable, non-volatile, will not sterilize soil or affect succeeding crops. Non-toxic to humans and to animals when used at recommended rates. Follow label directions.

WEEDAZOL™
CANADA THISTLE KILLER

NOW IS THE TIME to "clean house" on your farm—get rid of Canada thistle. Call your dealer for Weedazol herbicide. If you prefer a liquid concentrate—Amitrol-T will give you the same herbicidal action at the same price per gallon of finished spray.

AMCHEM

AMCHEM PRODUCTS, INC., Ambler, Pennsylvania ★ 50th Anniversary Year ★

A new \$300,000 barn for handling some 64 dairy bulls has just been completed by American Breeders Service. It's true you wouldn't duplicate this barn as it stands because part of it is for the collection of semen and laboratory work. It is also constructed to handle mature bulls, which you are not likely to have. But it would be worth any cattleman's time to visit this new setup to see its many practical features . . . some of which may be adaptable to your operation.

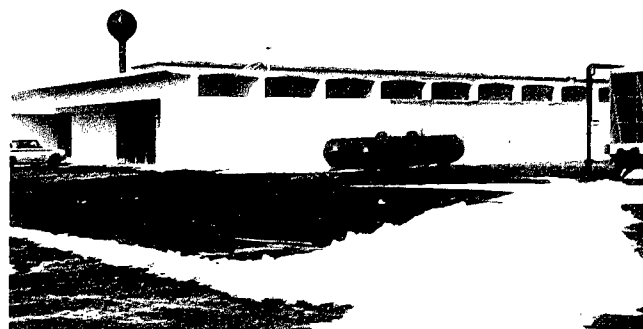

The barn is constructed of pre-stressed concrete, completely insulated including thermopane windows along both sides. It's 72 feet wide by 280 feet long.

Inside, the 33 Holstein, 9 Jersey, 7 Guernsey, 2 Ayrshire, 3 Brown Swiss and 2 Milking Shorthorn bulls will never be exposed to temperatures of less than 55 degrees, nor more than about 80 degrees. This is because the barn has a forced air gas furnace, as well as central air conditioning (all through the same duct work).

Bulls are put on an automatic exerciser every evening which runs around the perimeter of the barn. A scale is at one end which allows the bulls to be easily weighed.

\$300,000 went into this ultra modern bull barn near De Forest, Wisconsin. It includes some of the best labor saving features available anywhere.

Experience has shown that bulls will produce more semen under these conditions . . . dairy cows will produce more milk and beef cattle will gain more, too.

The bulls are kept in stalls on ½ inch rubber mats that have electrical coils underneath for added warmth. On the sides of each stall are water jets that can be turned on for cleaning purposes.

Even though there is no bedding used, the stalls don't get very dirty. This is because the manure is either deposited or washed into grille covered gutters, moved by a shuttle stroke barn cleaner into a 30,000-gallon holding tank. (The tank has a three-week holding capacity which is then spread on the crop ground at the convenience of the farm hands.) An exhaust fan carries vapors from the gutters which leaves the barn practically odor free.

Automatic waterers provide ample clean drinking water at all times. Feed is delivered by special carts from the sealed storage units to the specially designed feeding bunks.

Another unusual, yet practical feature of the barn, is the exerciser. This is a motor driven chain running around the perimeter of the barn. It is the plan that every evening the bulls will be hooked onto the chain by way of another small chain that hooks into the nose ring. They will be walked automatically for about one mile before returning to their stalls.

Also, at one end of the barn is a scales which is so situated that the bulls can be weighed as they are on the exercise run if need be.

Other features include speakers along the wall that allow two-way conversation between buildings or rooms, and a veterinary room with special equipment for handling the huge animals when necessary. The whole barn is well lighted, too, with some 416 fluorescent bulbs.

BEEF OPERATION UNIQUE, TOO

On another part of the farm where beef bulls (and some dairy bulls) are awaiting the completion of their progeny tests, there are some features worth noting, also. For one thing the feedlot is located on a slope of ¾ inch per foot

which runs to the foot of the pens. At this point there is a dock and drop off which allows the operator to scrape the pens right into a spreader in the winter, or in warm weather into a specially designed manure pit that leads by way of an eight-inch gravity flow tile duct to two 1½ acre lagoons. Incidentally, it is the plan to irrigate the farm from these two nutrient-rich lagoons via a sprinkler system.

Still another unique feature of this operation is the handling of bedding. Pulverized wood chips are augered from a concrete silo into each pen at the press of a button. This saves a lot of labor since they use some 12 carloads of shavings (175 tons) per year. In case you are wondering, the operators feel the shavings are about the best bedding yet tried. It is easy to handle and it soaks up the manure and fluid better than 'most anything. The cost runs about \$13.50 per ton in carload lots.

Next time you are in the area of Madison, Wisconsin, why not plan to spend an hour or so at this impressive farm. We understand the welcome mat will always be out

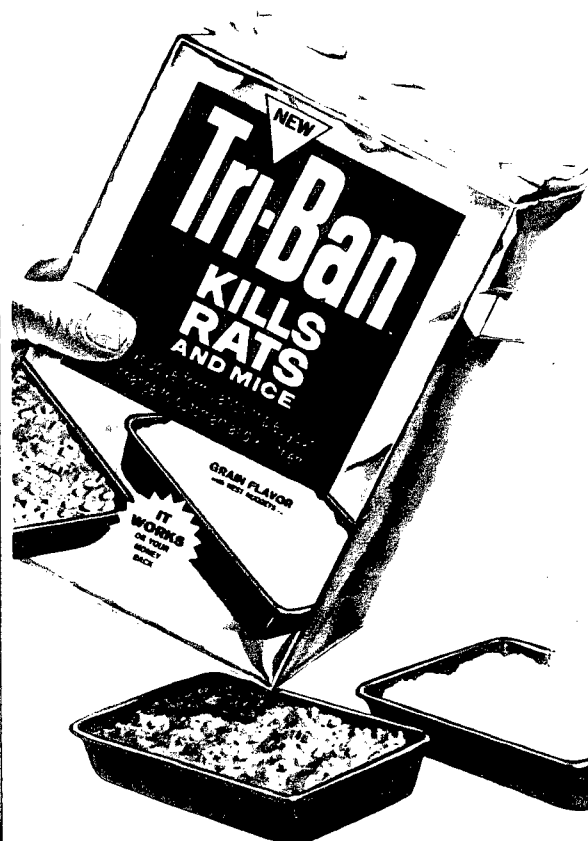

A unique feature of the beef lot is a push button control for augering from a concrete silo to each pen.

Two 1½-acre nutrient rich lagoons (in distance) will be used to irrigate the crop ground in the area.
