# Cause of Fire at Winside Early Thursday Unknown

A fire of undetermined origin caused extensive damage at the sch mode Weible Transfer Company in Winside early Thursday morning. Fortunately, no windows or dbors were open to ventilale the blaze and it smothered itselfout. One of the company's truck drivers, Norman An-derson, discovered the fire when he entered the build-ing belween 5:30 and six a.m., Thursday! He then used a fire extinguisher to used a fire extinguisher to put out the fire which was still smoldering. # Gary Munson on

Gary Munson, Wayne, is well on the road to recovery following his surgery for skin grafting in Omaha July 10. As you will recall, Gary was one of the Boy Scouts who was struck by lightning on June 19, 1964. The operation was con-sidered a success although it turned out to be more complicated than first ex-pected. According to Dr. Albert Black (an Omaha skin and plastic surgery specialist, the scar tissue was deeper than anticipated and therefore more skin

had to be transplanted. The skin which was grafted came from Gary's stom-ach. Since the scar tissue had tightened his elbow joint, a Z-cut was made in Gary's left arm cord so he will be able to straighten his arm for the first time in over three years. No definite date has been set, but more surgery will be required 'to complete the grafting operation. It will probably be done at the be-ginning of next summer.

Summer Quarters was lo-cated near the later town of DeSoto between the pre-sent towns of Fort Calhoun and Hair. Operations on the farm began toward the end of March, 1847. Young ap-pointed his adopted son, John D. Lee, totake charge of the project. Lee wrote in his journal of building houses, providing forage for cattle, building bridges and breaking farm ground. The Mormons made use of bricks left froph the nearby buildings of Fort Mikinson, which had been abundoned in 1827. . .ee and Young original-by planned to farm some 2000 acres, but there is no evidence that these plans ever fully materialized. Lee wrote on April 16 that 175 acres, apparently for gardening, were divided among 23 persons, with Lee taking 70 acres,
