

Wayne Will Miss Goal for Community Chest Drive

Wayne has reached 85 per cent of its goal for the Community Chest, according to Ted Bahe, secretary-treasurer. As of Wednesday morning it appeared the city would fail to make its goal for the first time in history.

The Community Chest board had set \$9,300 as the amount to be raised this year, most of it going to youth projects such as the recreation program, Girl Scouts, Boy Scouts and other activities. Bahe said it appears the total will be about \$1,000 short of this.

Bahe said only four or five envelopes from the business area remained out Wednesday morning. He said it was doubtful much of a gain could be made on the deficit.

He thanked Wayne State College organizations for their efforts. The students, non-residents of the community, gave through fraternities, sororities and other organizations.

Rural residents who have children taking part in any of the youth programs in Wayne, may want to donate to the Community Chest. Those wishing to do so see CHEST, page 8.

Someone Could Win \$400 Here

Would \$400 come in handy right now with Thanksgiving and Christmas coming? That's the amount in the Silver Dollar Night drawing in Wayne Thursday.

In order to claim the money, the person whose name is drawn must be in one of the participating business places in or near Wayne at 8 p.m. If there is no winner, \$50 will be added to a reserve fund as \$400 is the maximum allowed in the prize promotion.

Mrs. Joyce Coleman, Wakefield, could have won \$350 if she had been in Wayne last Thursday. The Chamber of Commerce sent her a \$10 consolation check because she was not.

Anyone who has reached the age of 18 and who has not registered before is welcome to do so. Newcomers in the area or any other residents who have never registered may also sign up. Information may be secured at participating business places.

PIA Meeting Public

Pilots' Improvement Association will meet Thursday, Nov. 16, at 8 p.m. in the pilots' lounge at the Wayne Municipal Airport. The meeting is open to the public and any man or woman wanting to attend will be welcome. A sportsman flying film, "Venezuelan Adventure," will be shown after the business meeting.

Winside Man Loses Hands After Falling Into Husker

Allen Schrant, 38, Winside dairy farmer, was seriously injured Saturday morning when he fell into the husking bed of a corn picking machine. He lost his right arm above the wrist and all the fingers off his left hand, doctors saying only the palm and thumb.

According to relatives who came to help out at the farm two miles southeast of Winside, Schrant had been working that morning in a cornfield east of the house. He did not come in for dinner at noon so his wife went after him.

She found him caught in the picker and went to the nearby Marvin Anderson farm for help. Anderson got him out and Bill Holtgren helped get him to Our Lady of Lourdes Hospital, Norfolk.

No ambulance service could be secured so they took him by private car to the hospital. Schrant remained conscious at all times, walking to the car and into the hospital.

He told relatives he had gotten off the picker, threw a few loose ears of corn in the husking wagon and was walking by the husking bed when he slipped, striking his head and falling into the husking bed, where his hands were pulled into the rollers.

"Showing great strength and presence of mind, he managed to pull one hand out and with his foot shut off the gas to stop the equipment. He laid in the field about 15 or 20 minutes, although it seemed much longer than that.

Mr. and Mrs. Schrant moved to the Winside area in 1956. They have about 25 dairy cows and run the

Rites Planned Friday For Mrs. Skeahan, 81

Mrs. J. W. Skeahan, 81, died Nov. 14 at Wayne Hospital. Funeral services are planned Friday, Nov. 17 at 2 p.m. at First Methodist Church. Burial will be in Greenwood Cemetery. The body will lie in state today (Thursday) from 2 to 9 p.m. at Hiscox Funeral Home.

Anyone Can Win Prizes at Plant Open House Thursday

City officials pointed out this week that anyone visiting the new Wayne power plant Thursday for open house will be eligible for prizes. Misinformation given earlier indicated only customers of the plant would be eligible.

Open house will be held from 10 a.m. to 8 p.m. Nov. 16. Refreshments will be served and several major appliances (on display at Tiedtke's) will be given away during an 8:30 p.m. drawing. Those whose names are drawn need not be present to win.

Mayor William Koerber will welcome visitors at 10 with ribbon cutting at 10:30. Former Mayor Chris Tiedtke, Councilman E. G.

Smith, Supt. Norb Brugger and Chief Engineer Bud Wacker also have parts in the dedication.

City officials will be on hand most of the day to welcome visitors to the addition that more than doubles the output and overall size of the power plant. Visitors from utility districts in other towns are expected for an inspection.

Wayne's power plant is now worth almost \$3,000,000. It has a large frontage on South Main and a new modernistic exterior and interior.

Visitors to the plant will be allowed to tour the addition and see the many features. There will not be

Fund Started to Aid Farm Family

Several area residents have decided they want to help the Allen Schrant family, Winside, so a fund has been started to aid them. Mr. and Mrs. Schrant run a dairy and he lost both hands in an accident at the farm Saturday.

Phil Olson, president of Farmers State Bank, Carroll, reported Tuesday almost \$100 had been turned in there for the couple. He has agreed to handle a fund to be turned over to the family.

Anyone wishing to give to help this young couple should make checks payable to Allen Schrant Fund. A list of all donations will be presented to the family when the drive is complete.

The Schrants are well-known in the Pilger and Clarkson areas. It is expected friends in that area will want to help too. They have lived at Winside for 11 years and have become known through their operation of a milk route to many towns.

All donations should be mailed to Farmers State Bank, Carroll, made out to the fund. The Herald will give periodic reports on the total received for the family.

Post Offices Closing

Postmaster Don Wightman reports area post offices will be closed Thanksgiving Day. Those with lock boxes will get their mail but there will be no carrier or rural delivery and dispatching of mail out of the various offices will be on a Sunday schedule.

Utility Meeting Will Be Held Here

Northeast Nebraska Utilities Section will meet here Thursday, Nov. 16, with a joint meeting planned with representatives of the Southeast Nebraska Utilities Section.

Wayne Country Club will be the scene of a hospitality hour, dinner, program and business session. A tour of the new power plant will be a highlight.

Around 50 are expected. City officials, city employees and others interested in utilities are invited to the bi-monthly session.

L. J. Mallot, Laurel, is president, and Fred Suss, Blair, vice president. Sid Magdanz, Wayne, is secretary-treasurer.

Small Crowd Attends Veterans Day Events

Around 70 attended the Veterans Day program Saturday evening at the Wayne Woman's Club Rooms. Keith Boughn, Norfolk, was featured speaker at the event sponsored by the American Legion, Veterans of Foreign Wars, World I Barracks, Disabled American Veterans and the Auxiliaries.

Mrs. Frank Griffith led the group in the National Anthem and "God Bless America." Gene Nuss led in the Pledge of Allegiance. Mrs. Griffith is Legion Auxiliary musician and Nuss is Legion adjutant.

Following the program, luncheon was served by the women from the Auxiliaries.

Will Print Servicemen Addresses

Once again this year the names and addresses of men and women in the armed forces will be published in The Wayne Herald. Names and addresses should be sent in at once.

No matter how many times addresses have been used, they should be sent in again since it will be impossible for The Herald staff to go back through all of the files of the papers searching for addresses. Besides, to make sure the latest addresses are used, they must be received again.

If possible, the names and addresses should be typed or printed. Each should be on a separate sheet of paper so they can see ADDRESSES, page 8.

Paper Out Early For Thanksgiving

The Wayne Herald will be published a day early for the Thursday, Nov. 23, issue. That date is Thanksgiving and in order to get copies to everyone before the holiday, final runs have to be made Tuesday.

All correspondents are asked to have their news in at least one day early. All advertisers are asked to have their copy in earlier than usual.

The edition will be the annual coupon issue so it will be a bigger paper than usual. Your help in getting it out so everyone on routes and in area towns will have their copies by Wednesday will be appreciated.

CARE Drive Set for City This Sunday

Young people of seven Wayne churches will come to the aid of CARE Sunday. CARE stands for Cooperation for American Relief Everywhere.

The youths of the Presbyterian, Catholic, Methodist, Redeemer Lutheran, Grace Lutheran, St. Paul's Lutheran and Baptist churches will take part in the activity.

A short preliminary program will be held at 5. A half hour later the young people will go house-to-house. See CARE, page 8.

Annual Hospital Bazaar Will Be Held Saturday

The annual Hospital Auxiliary bazaar, which has become a November tradition in Wayne, will be held Saturday, Nov. 18, from 11 a.m. to 5 p.m. in the Wayne City Auditorium. Proceeds will be used for a defibrillator, scotette and pulmotor for Wayne Hospital.

Last year's project was a hot and cold food server. Other items purchased with bazaar funds since 1962 include obstetrical equipment, bassinets, humidifier, bed rails, bedside tables, nursery remodeling, air conditioning, mattress, birth certificates and isotope.

Each year Hospital Auxiliary members and other volunteer workers in the community assemble items for this one big money-making project of the year.

Swine Association To Meet Sunday

Northeast Nebraska Swine Association, with members in Cedar, Dakota, Dixon, Thurston and Wayne counties, will hold its annual banquet Sunday, Nov. 19, at 6:30 p.m. in the WSC student center.

All those planning to attend should pick up tickets from directors as early as possible so meal plans can be made in advance. However, tickets will also be available at the door,

Wayne Jaycees received about 90 per cent response for business men's support of Farmers Appreciation Night. As a result, a dinner for 1,000 farmers and wives is being planned for Tuesday, Nov. 28, at the Wayne City Auditorium.

Area farmers will be able to bring their wives or a son or daughter. Only two admissions per family are allowed.

Coupons requesting tickets will appear in The Wayne Herald and The Morning Shopper. In addition, anyone not having one of these coupons can secure tickets by writing to the Wayne Jaycees and requesting them.

Menu for the dinner will include ham, scalloped potatoes, beans, coffee, milk, rolls and ice cream. Stan Pedersen will be in charge of preparing the meal and Jaycees will serve.

Serving will start at 5:30 p.m. on a first-come-first-served basis. Following the meal, a program will be held with Dr. Lyle Seymour as master of ceremonies and a yet-to-be-named speaker talking.

The Outstanding Young Farmer award will be made to some area farmer under 36 years of age. A judge will tell how the winner was selected. A businessman will tell about the role of businessmen in the promotion.

With the tickets sent to farmers will go a community attitude survey blank. Jaycees are seeking to find out how area farmers rate Wayne as far as different services are concerned.

All requests for tickets should be in by Wednesday, Nov. 22, so plans can be made for the number expected. Anyone seeking further information can contact any Jaycee member.

The gift shop is always one of the big attractions since items are available for the holiday season—centerpieces, corsages, novelty as well as practical gift items, handwork, aprons and other gift suggestions.

A candy booth will offer all kinds of homemade candy, popcorn balls and other edibles to include in packages for servicemen.

The food booth will feature sweet rolls, bread, cakes, pies and other baked goods. Cream, eggs, jams, jellies and dressed poultry are among other items offered.

Lunch will be served from 11 to 2:30 p.m. Soup, sandwiches, homemade pie and cake, coffee, milk and other food will be served.

according to Dick Sorensen, local director.

Creighton Knaus, farm director of WNAJ, Yankton, will be principal speaker. His subject will cover the "check-off" planned to begin Jan. 1, pork production in general and pork consumption in particular.

It is expected between 200 and 250 swine producers will attend.

Wayne State Ends Season With Win Over Midland

A 28-0 win over Midland Saturday afternoon at Fremont brought Wayne State's football season to a satisfying close, 6 wins, 4 losses.

The season over-all also rated as "fairly good" in Coach John Jermier's estimation, considering the youth of his squad. With only six seniors and eight juniors, the sophomores and freshmen had more than usual opportunity to play.

As a result, the underclassmen dominated most of the offensive statistics. One statistic, though, belongs to senior quarterback Steve Gunther, who broke his own WSC season record for passing yardage. His last completion against Midland lifted him four yards over his mark to a total of 1,105 yards this year. The receiver of that pass was, ironically, a sophomore and making his first collegiate catch, Gene Wachholtz of Plainview.

Gunther completed 75 of 175 passes. His completion percentage of .428 was below last year's, .51, and he averaged 17.5 passes this year compared with 20 last year. Hence his record yardage indicates longer gains in this campaign. Because of his passing, the team's season aerial total also is a record, 1,387.

Another senior, Jim Gray of Coleridge, may have some sort of passing record, too. Though he played defense most of his four seasons, Gray occasionally had a crack at his high school job; quarterbacking. He threw seven passes in three seasons, completed six—and four of them went for touchdowns!

One of those four caught Midland off guard Saturday. The Wildcats had fourth down on the Midland 26 and set up for a field goal, with Gray ready to hold the ball for kicker Don Grubaugh. But according to plan, Gray passed to senior end Roger Parr of Scribner, who was clear in the end zone.

Grubaugh's conversion kick gave Wayne a 14-0 lead after that second-quarter touchdown. The junior halfback from David City converted after all four Wildcat TD's and ran his consecutive string to eight.

Seniors Dave Bross of Minneapolis and Darrell Fenton of Aurora, Ill., defensive end and tackle respectively, contributed their usual harassment to the foe, a big factor in holding Midland to 22 yards rushing.

Wildcat scoring began on the opening drive from kickoff. Nineteen plays, capped by sophomore fullback Bob Morlan's two-yard touchdown plunge and Grubaugh's kick, put Wayne ahead before the Warriors got possession.

Wayne tallied its third touchdown late in the second period when No. 2 quarterback Chuck Trickler, sophomore from Waterloo, N.Y., piloted the team and scored on a one-yard sneak.

The third quarter went scoreless. Late in the fourth the Wildcats moved 84 yards—sparked by a 62-yard Grubaugh gallop to another TD by sophomore halfback Jerry Luedtke of Omaha, scoring two yards. It was his ninth touchdown of the season for a team-leading 54 points.

After this TD, Midland engineered its one long drive and reached the Wayne eight. The Cats took over with 52 seconds left, moved six yards on three plays. Then Mike Fox went back to punt, which seemed an odd strategy with only eight seconds left. But Mike had no intention of kicking. Instead, he ran 45 yards and came close to going all the way. That scamper, plus a previous 51-yarder against Peru, gave him a season record of 48 yards

per carry. How about that!

All in all, it was an interesting game for the several hundred Wayne fans in the stands. And it was an interesting season. As Jermier points out, the Wildcats were never humbled, and their conquerors had all they wanted of Wayne defense.

Allen Youth Wins Third in Contest

John Warner, son of Mr. and Mrs. Jim Warner, Allen, finished third among competitors at the PP&K contest in Bloomington, Minn., Sunday at the pro football game. He was competing against 13-year-olds from several other states. Nebraskans did well in the competition, winning three of the six champion-

ships. The six winners in the various age groups get to go to San Francisco with winners there going to the national finals in Miami.

Warner went a long way in the Punt, Pass & Kick contest, especially when one considers the handicaps he overcame. Just a little over a year ago he was consulting specialists in Omaha due to a serious back condition.

Bone TB, cancer and arthritis were all feared. It was thought he might be crippled and he was sent back from Omaha with a brace for his back. Activities might be limited, one doctor told him.

Now he is a husky 180-pound eighth grade boy. He won the PP&K contests at Ponca, Wayne and Lincoln before being eliminated at the Viking football game. He came a long way—and he had further to go to get where he did than any other boy did.

H. Lindner, L. Brown Lead Devil Tacklers.

Harry Lindner and Lavern Brown led Wayne tacklers in the West Point game with Don Skokan right behind. Lindner had 16 tackles and 2 assists, Brown 14 and 1 and Skokan 13 and 2.

Other leaders were Bernie Binger with 9 and 1, Keith Warrelmann with 7 and 2, Doug Maurer 7 and 2, Dan Sutherland 6 and 0 and Steve Kerl 4 and 1.

Finally these other tacklers and assists were recorded: Dave Roberts 2-1; Dave Brown 3-0; Vaughn Korth 1-0; Gene Hansen 1-0; Randy Robins 1-0; Lynn Leesmann 3-0; Gordon Jorgensen 3-0; and Larry Magnuson 1-0.

FOUR LETTERMEN are out for basketball at Winside High School. They are all a head taller than Coach Jim Connick. Left to right are Dave Witt, Bob Wacker, Coach Connick, Randy Jacobsen and Keith Wacker.

Winside Basketball Team Has New Coach, Eight Players Over 6'1"

Basketball practice has started at Winside High School with a new coach in charge, four lettermen back and eight players out who are 6'1" or taller. However, only four of the tall boys have much experience.

Jim Connick is the new coach, coming from WSC. He succeeds Dan Cahill, who resigned at the end of last school term.

Coach Connick has a senior, two juniors and a sophomore among his lettermen. They are: Randy Jacobsen, 6'2", senior; Keith Wacker, 6'1", junior; Bob Wacker, 6'2", junior; and Dave Witt, 6'1", sophomore.

Tallest player is Bob Farran, 6'4". Tom Witt and Dan Bruggeman are both 6'2" and Fritz Weible is 6'1" but all four of these boys lack varsity experience. Also working out with the varsity are Bob Jackson, Jim Jackson, Doug Deck, Kirk Schellenberg and Kirk Troutman.

Pete Kropp is working out with the reserves. He has 15 boys practicing. They are: Greg Troutman, Kevin Frevert, Kevin Thompson, Kevin Johnson, Scott Duering, Phil Witt, Mick Jeffrey, Dale Vanosdall, Terry Cleveland, Gary Soden, Gaylen Stevens, Dennis Weible, Dale Miller, Jack Christensen and Roger Schroeder.

The Wildcats are preparing for the opening games the weekend of Dec. 1-2. They go to Wakefield for the opening game and play at home against Ponca the following night.

Large Crowd Attends Football Smorgasbord

There were 144 men and boys present at the Coaches Coffee Club smorgasbord Tuesday night at The Wagon Wheel, Laurel. Four buses and several cars transported the group to the steak house.

No formal program was held. In fact, the group ate all they wanted (with some going back for seconds) and then a letter from Mayor William Roemer was read, a few jokes told and the evening was over.

The entire affair was planned informally with no lengthy program due to the fact open house was scheduled the same night at the middle school and elementary school. However, Cha's Greenlee, who handled the story-telling, following the feed, admitted it had been an oversight when the coaches and players were not even introduced.

Dog Scared at Dixon Shows Up Near Allen

A young hunting dog came in contact with an electric fence near Dixon Saturday. He was located the first of the week eight miles away on a farm near Allen.

Lester Summers, a hunter from suburban Detroit who has hunted in the Dixon area several years, was at the Kenneth Dowling farm for some hunting. He

brought along an 11-year-old hunting dog and also a young dog he purchased recently and planned to train.

Both dogs got tangled up in an electric fence and were shocked. The young dog took off and disappeared.

Summers looked around for his dog, going from farm to farm in the area, inquiring of hunters and farmers. No one reported seeing the dog.

The first of the week a stray dog turned up on the Larry Malcom farm northwest of Allen. At that time, Dr. Walter Chace, Laurel veterinarian, was making a call at the Malcom farm and they showed him the dog.

Dr. Chace took it to Laurel, putting it in his pen at his office. Word got around before Summers left, and he departed for Detroit Thursday a happy man, both hunting dogs with him again plus a good bag of pheasants.

Ikes Plan Last Shoot of Year

Wayne Izaak Walton League is planning a turkey shoot for the last trapshoot of the year. It will be held from 1:30 until dusk Sunday afternoon at the airport.

Turkeys, hams and other prizes will be given. There will be rifle shoots, shotgun pattern shoots, bow and arrow shoots and practice shoots.

The local Ikes are planning on sending delegates to the Nebraska convention of IWI at Arapahoe Nov. 19. Edward Seymour and Arlen Fitch, Wayne, are state directors.

Final Gridiron Tilts Played Over Weekend

Two games wound up the recreation football season in Wayne Saturday and Sunday, four teams coached by Hank Overin playing. The Reds beat the Blacks 25-6 in an all-star game for fifth and sixth grades Saturday and the Reds beat the Blacks 8-2 in a tackle football game Sunday.

In the flag football tilt, Marty Hansen made three touchdowns for the winners and had a fourth called back. Clark Clatanoff, Greg Biltorf and Hansen ran best for the Reds and Bill Schwartz and Dale Paulson for the Blacks with Earle Overin standing out at offensive end.

Sunday both teams played good defense with the Reds dominating offense. Kerry Jech and Earle Overin blocked a kick in the end zone for a safety to give the Blacks an early 2-0 lead but the Reds came back, Randy Nelson going 65 yards for the only touchdown of the game and the Blacks yielding a safety when a kick was blocked and the Blacks recovered in the end zone.

Nelson, Billy Brown and Marty Hansen moved best for the Reds. Shane Giese, Kerry Jech and Bill Schwartz were best for the Blacks with Schwartz shining on defense and Jech getting between 10 and 15 tackles to look sharpest as a defensive linebacker.

Airline Plans Added Air Service; Director Needed from Wayne Region

West-Central Airlines, Omaha, is planning an additional flight to Wayne, timed to arrive and depart at a more convenient time of day. The airline is also seeking a director from this area.

Wayne Native Chosen Member of Conference

Robert Parenti, son of Mrs. Dorothy Parenti, Wayne, is one of only 70 biological scientists in the world invited to participate in a working group conference in California next March. He is assistant professor of biology at Kansas State Teachers College.

Parenti is a Wayne High School graduate and was active in baseball, football and basketball. He received his degrees from Wayne State College and the University of South Dakota and will complete work on a PhD degree at Oklahoma University this year.

He was invited by the National Academy of Sciences to participate in the conference on chemical interaction between plants and insects at Santa Barbara Mar. 18-22. His main field is the study of plant inhibitors and he was chosen for the conference because of his "personal qualifications, interest in the field and research accomplishments."

Parenti presented a paper on his major field at the American Institute of Biological Sciences. He told the student newspaper the purpose of the California conference is to develop essentials of research proposals, prepare proposals for research projects, develop framework for work by scientists throughout the world and identify present research that should be included in the International Biological program.

Allen Class Play Draws Big Crowd

The Allen High School junior class play drew one of the biggest crowds ever to witness a play there Friday night. A much smaller crowd witnessed the play Saturday night but class members were happy with the total turnout.

A three-act play, "The Mystery of Red House," it offered no distinctive roles and was unusual in that even the minor parts had more speaking lines than the average school play.

All of the parts were well-handled but it would be difficult to pick one pupil as doing a particularly outstanding job. No costumes were required so that work was easy to handle. Makeup was another matter and the department did a good job in making the older ones appear to be older.

Another unusual aspect was the fact many of the members of the cast were on the stage at one time. There seemed to be a lot of moving in and moving out all evening. At one time, 14 of the 15 members of the cast were on stage at one time and in several instances 13 were on stage at once.

Allen is handicapped in putting on plays in having to set up a stage in the gym. The juniors overcame this by maintaining interest so the distractions off stage were not as harmful as they might have been.

The story concerned a prank indicating there would be a death in the house. There was a death. For the benefit of detectives the prank was staged and another death occurred. Not until the final scene was the killer known. The butler did it! Well, he wasn't really the butler.

ALL CAST MEMBERS were on stage except one during one scene in the junior class play at Allen Friday and Saturday. So, that one (Bob Anderson) was brought on stage for the above picture. Seated (left to right) are Valerie Koester, Kathy Jackson, Jean Serven, Jill Fahrenholz; standing, Bruce Linafelter, Doug Witte, Paul Colvert, Bob Anderson, Nancy Swanson, Nancy Sullivan, Linda Rasmussen, Craig Schultz, Cindy Ellis, Larry Carr and Kevin Hill.

but he was a cousin to the owner of the house and he was a servant.

Bob Anderson was the owner of the house and also played the role of his brother from Australia; Val Koester and Cindy Ellis were guests and Jill Fahrenholz and Jean Serven their mothers; Kevin Hill was the servant and killer.

Bruce Linafelter was an ex-army officer; Larry Carr a young medical student, Kathy Jackson a former actress; Doug Witte, an amateur detective; Linda Rasmussen, Nancy Sullivan and Nancy Swanson, servants; and Paul Colvert and Craig Schultz, police detectives.

Mrs. Margaret Kelly directed the play with all juniors having part in putting on the play. Lunch was served each night after the play.

Vacation Draws Near

Thanksgiving vacation is drawing near for the Wayne-Carroll school system. Supt. Francis Hahn reports school will be dismissed at the regular time Wednesday, Nov. 22. Pupils will not return to school until the usual time Monday morning, Nov. 27.

VISITING SCHOOL at Carroll Monday night for open house were Mr. and Mrs. Harold Loberg, shown visiting the first and second grade room taught by Mrs. Wayne Kerstine. With them (left to right) are their children, Kathy, Kirk and Kris.

Many Visit Schools Monday and Tuesday

Both Carroll and Wayne reported many visitors for open house observances Monday and Tuesday. The elementary school at Carroll had open house Monday and the middle school and elementary school at Wayne had open house Tuesday.

At the Carroll open house, patrons saw work of the pupils, visited teachers and had refreshments. Many came early and stayed late as equipment was on display and children told about work they were doing in some classes.

In Wayne the turnout was most gratifying. Prin. Loren Park reports. Over 300 registered at middle school and many came who did not register.

Although open house hours were from 7 to 9, many came late in the evening and were still touring the facilities well after the open house had been scheduled to end. Some fathers hurried back from the gridiron dinner at Laurel to see what they could at the schools.

Teachers were present in both schools. Where new devices were being used, pupils were on hand to show how they work. They had not learned to run the equipment just for open house, but make use of the assists in regular school work so knew what they were talking about.

REMEDIAL READING aids were being shown by Mrs. Gertrude Vahlkamp at Carroll open house Monday night. In front are Kimberly Loberg and Dick Chapman. Standing at the rear is Ellery Pearson.

New Power Plant Addition Provides Beauty With Convenience in Wayne

Wayne's power plant complex is not only utilitarian (no pun intended) but handsome. It adds beauty to the business area of Wayne while providing needed facilities for added power generation.

The old building is 80 feet long across the front with the new addition 64 feet square. It is 40 feet deep. Both old and new buildings have full basements.

Workmen will appreciate the new basement more than the old. It has much more room in which to work as well as more headroom, being deeper.

Part of the structure that has just been added includes a basement tunnel that runs the entire length of the power plant. It extends from the north end of the old power plant to the south end of the new.

Above ground, the plant will soon be even better looking. Poles and wires

in front will not be needed and they will be removed to give a cleaner look to the area.

As high as a two-story building, the new power plant addition has balconies inside on the north and east for storage. The balcony on the east also houses the switch gear which is directly over the main control lobby, described in another article.

The new building is constructed of concrete block with brick facing on the East. It was built with the steel supports put up first, including the roof supports. The building itself does not hold the steel, the steel framework supporting itself and the roof.

Main floor in the structure is of reinforced concrete. Quarry tile floor covering was installed over concrete.

The roof has fabricated steel channels, is insulated and has gravel surfacing.

Four motor-driven ventilators are installed on the roof. Drainage takes water inside for disposal, an improvement over the old drains that froze, up in the winter.

Setting on reinforced concrete supports, the building has to be solid. The supports are 20 inches in diameter and 14 feet below the basement floor belled out at the bottom six feet like inverted ice cream cones to spread out support and give more stability. There are over 20 of these supports.

Norb Brugger, plant superintendent, said the addition has room for another engine of similar size south of the new unit. He pointed out that the enlargement of the plant with building and engine is the first major improvement in 39 years, the last coming in 1928.

CONGRATULATIONS AND BEST WISHES TO A PROGRESSIVE TOWN

On The Completion Of The New Power Plant Addition

We are happy to see progress in any town, but especially so in our town . . . Wayne. The need for additional power indicates a growing community. We are pleased we were able to have an active part in this addition and urge everyone to attend the Open House.

Power Plant Has Big City Payroll

One of the largest employers in Wayne outside the school systems on various levels is the Wayne Power Department. An even dozen men are employed at the plant.

Supt. Norb Brugger leads in longevity, serving almost 42 years. Chief Engineer Herman "Bud" Wacker has been with the department 19 years and Line Foreman Bill Mellor has been with the plant 21 years.

Other employees are Gerald Carmichael, Delmar Carlson, Clair Stoakes, Ray Bargand Robert Lamb, who are operators; Earl Fuoss, John Berry and Clarence Wagner, linemen; and Don Neisius, groundman.

Two Cars Damaged in Winside Intersection

Two cars were damaged Friday night in an intersection accident in Winside. Trooper C. Fransen of the Nebraska State Patrol investigated.

According to the trooper, Loren Sievers, Winside, was making a u-turn to go west near the Stenwall Station. Terry Davis, Carroll, was eastbound on the same street.

A car in the service station obscured the view of Sievers, the trooper said. The resulting impact caused \$300 damage to the car owned by Don Davis and driven by his son and \$150 damage to the Alfred Sievers car driven by his son. No one was injured.

The Hospital Indemnity "500" Plan

Pays you \$500 per month for up to 500 days each time you're hospitalized — is guaranteed renewable for life — and you can enroll for only \$1.00.

PAYS ACCIDENTAL DEATH BENEFITS, TOO!

The awesome increase in deaths by accident reflects the faster pace and shifting pattern of our modern life.

Today, the greatest number of accidental deaths take place in: 1. CARS; 2. HOMES; 3. FARMS.

Union Casualty Company's Hospital Indemnity "500" Plan recognizes this situation by including:

\$1,000 accidental death benefit and \$2,000 for travel accidental death.

(See Accidental Death Endorsement below.)

YOU GET PAID IN ADDITION TO OTHER INSURANCE OR MEDICARE!

Yes, right when you need it most, Union Casualty's Hospital Indemnity "500" Plan pays you \$500 per month for up to 500 days (almost a year and five months, or a maximum of more than \$8,000.00) each time you are hospitalized!

You get this welcome cash whether you are insured by other companies or not. As soon as your policy is in force, you are covered in case of accident. After 30 days, you are covered for sickness.

And even if some companies say you are "uninsurable" because of some chronic ailment that can or does come back again and again, this wonderful plan covers a pre-existing condition after the policy has been in force 24 months!

AMAZINGLY LOW COST

Membership in Union Casualty's Hospital Indemnity "500" Plan costs only \$1.00 for the first premium period, then only \$5.00 per month thereafter.

On the Application Form below you can authorize your bank to deduct the premium monthly from your account, if you wish this convenience.

If you wonder how a plan can offer so much for so little, the answer is simple: Union Casualty's big "500" Plan is a mass enrollment plan. All business is conducted directly between you and the company by mail, or through your local representative whom we have appointed in your area. No salesman will call on you. Thus, low administrative and sales costs add up to real savings which we pass on to you.

Now, during this limited Introductory Enrollment Period, you can enroll with no red tape and without any qualifications whatever — and for only \$1.00 initial enrollment fee!

Think of it. Simply by sending your application and one dollar, you can start enjoying the protection of Union Casualty Company's Hospital Indemnity "500" Plan that pays expense-free, tax-free extra cash direct to you when you are hospitalized.

WHY YOU NEED UNION CASUALTY'S BIG "500" PLAN IN ADDITION TO ORDINARY INSURANCE

In this age of fantastic expenses, ordinary hospital insurance, even Medicare, simply does not cover everything. And what about all your other expenses, such as rent or mortgage, monthly payments, food for the family, utility bills? You probably know friends and neighbors who met with financial disaster when hit by an expensive accident or lengthy illness.

Officials of Union Casualty Company have seen so many cases of financial hardship and tragedy that they determined to develop a plan to provide you with expense-free, tax-free extra cash to use any way you see fit. The Hospital Indemnity "500" Plan is the answer. The cash is paid direct to you.

ANOTHER BIG PLUS.— FOR THOSE OVER 65

Statistics show that people over 65 go to hospitals more often and have bigger medical bills than any other age group. That's why some hospital plans won't accept senior citizens, or else raise rates so high they can't afford extra cash protection just when they need it most.

But Union Casualty's Hospital Indemnity "500" Plan not only accepts applicants regardless of age over 65, it pays 50% of the specified protection in every detail, and does it for the same \$5.00 per month paid by all policy-holders under 65!

Yes, senior citizens get this vital extra cash in addition to Medicare or any other insurance — and they, too, can enroll now at the special \$1.00 rate.

MONEY BACK GUARANTEE

When you receive your policy, you'll see that it is direct, honest, and easy to understand. Read it over. When you see how thoroughly you are protected for so little cost, you'll know you can't be without it.

But if for any reason whatsoever you are not completely satisfied, you may return your policy within 10 days and we will promptly refund your dollar.

Accidents do not wait to happen. Illness does not wait to strike. So ACT NOW! The application and \$1.00 will have to be in Union Casualty Company's office within two weeks for you to become eligible for this program during this special enrollment period.

CHECK THESE IMPORTANT POINTS

- You get \$500 per month for up to 500 days each time you are hospitalized.
- \$1,000 accidental death benefit.
- \$2,000 travel accidental death benefit (world-wide coverage).
- Guaranteed renewable for life. Policy cannot be cancelled or modified by the Company for health reasons.
- Chronic, pre-existing conditions are covered after policy has been in effect 24 months.
- You can collect more than \$8,000.00 for any one sickness or accident under this plan!

ACCIDENTAL DEATH ENDORSEMENT

\$1,000 Accidental Death Benefit

Union Casualty Company will pay One Thousand Dollars (\$1,000) for loss of life because of accidental bodily injuries received while this policy is in force, provided that such injuries shall wholly and continuously disable the insured within twenty (20) days from the date of the accident, and independently of sickness and all other causes, result in the death of the insured within ninety days and while said person is so disabled. Benefits will not be provided under this provision for any injury or death for which any benefits are provided by Workmen's Compensation or Employer's Liability.

\$2,000 Travel Accidental Death Benefit

The Benefit set forth above will be INCREASED TO TWO THOUSAND DOLLARS (\$2,000) if loss of life results from accidental bodily injuries received while the insured is driving or riding in any private passenger automobile or as a fare-paying passenger in any land, water, or air conveyance provided by a common carrier.

EDITORIAL COMMENT

The editorial department of a weekly newspaper is an important department. Normally it is one person's opinion of topics that concern most of the readers.

You may not agree with an editorial — but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

Middle School Education

Right now it would be a pleasure to sign up for an adult course at Wayne Middle School. After seeing some of the devices to increase concentration and reading ability in the learning center, it seems obvious many adults could benefit from making use of the equipment the fifth through eighth grades are using.

Reading is one of the real pleasures of life. However, too many adults never learned to read fast enough. Perhaps there is a way they can learn to read faster and thus enjoy more reading pleasure.

Certainly this learning center is going to be an advantage to those who are using it now and those who will use it in the future. It's just a shame that so much of the time none of the equipment will be in use.

Right here in this office there are some who could benefit from learning to read faster and to concentrate better. Wayne Middle School could offer a way to achieve this with night classes.

Perhaps it is out of the question. Maybe it should not even be considered. It is a thought, and more than one person has indicated that they agree a course on the adult level to improve reading ability would be beneficial. —CEG.

Those Who Criticize

There are people in Wayne County who would not think of handing a gun to a Viet Cong or a Communist and tell him to shoot down an American boy. Our boys in the service can depend on that.

However, what the boys in uniform cannot figure out is those people who will not stand behind them in what they are trying to achieve — gain peace for a Vietnamese people who have known nothing but war for decades, and gain freedom and democracy for a land that is threatened with Communist takeover.

Our nation was asked to help in Vietnam. With our boys are soldiers from several other nations of the world, mainly nations that understand the peril they face if the Red menace gains control of one more country. They may be next.

Must servicemen coming back to this country from Vietnam have told of the hospitals, orphanages, schools and other improvements made possible by Americans. Sure, they tell of fighting too, but they know this has to be done, repugnant as killing may be to them.

They find in this country some people claim a right to dissent. They find some who abuse the freedom to disagree and who give aid and comfort to the enemy by opposing our aid to Vietnam. No one hands a gun to a Viet Cong to shoot an American, but indirectly their actions may be as deadly.

Thousands of the enemy have defected. They are not taking one small phase of an unpopular war and condemning it all. They simply know that what is being offered against what they have been through is a better way of life once Vietnam is free of Communist terror and takeover.

It is to be assumed the same people who criticize the killing of the innocent in Vietnam have no conception of the torture and killing that goes on where Communism has not been stopped. No doubt they have no words of condemnation for the Iowa University students who sign a petition against the war in blood. They do have words of condemnation for the boys the same age as Iowa U. students who are losing their blood but not for signing petitions.

There is a difference between expressing a minority opinion and lending support to the enemy. Those who are in the minority have a right to dissent — only they can know whether or not they do this with a clear conscience. Some soul-searching and some delving into the full facts of the situation might shed some light on a situation about which they seem to be in the dark. —CEG.

The long-awaited study of management of Nebraska's public road system will be made public this month, the chairman of the Legislative Council Highway Study Committee has announced.

Waverly Sen. Jerome Warner said his committee will meet Nov. 20 at 2 p.m. to consider the recommendations by hired consultants.

The management report is the last of the three phases of the \$500,000 study to be released. It contains research by the Cleveland, Ohio, consulting firm of Ernst and Ernst on the relationship between state, county and city highway agencies, on legislative policies regarding highway management and on organization of the State Roads Department.

could be more controversial since Wayne High School has had an undefeated football season. This year's Blue Devil football team achieved that honor.

Income Tax Suit Arranged

The State Supreme Court will hear oral arguments in the lawsuit challenging the new income tax law the first week in December.

This became certain after the tribunal granted a petition by both sides to advance the tax hearing from early next year to the December Docket.

The action indicated the court may hand down a final decision on the tax law's validity before the levy goes into effect Jan. 1.

Forces contesting the constitutionality of the tax include Philip C. Anderson and Raymond Weilage, jr., both of Crete; Jack L. Etherington and Charles E. Bray, both of Council Bluffs, Iowa; Robert M. Niquette of Litch, Pa.; the Feed Service Corp., of Nebraska, and Morea Liquefied Corp., of Illinois.

A Blue Devil Salute

It has been over a quarter of a century since Wayne High School has had an undefeated football season. This year's Blue Devil football team achieved that honor.

Naturally it is disappointing to lose. However, in defeat as in victory the Blue Devil players conducted themselves with honor.

There are going to be teams in years to come that will try to equal the 1967 team in achievements. In other words, WHS grid squads will look up to the 1967 team and try to be as good. It will be difficult for this year's team has been blessed with desire, determination and talent.

Time will erase the wounds. Looking back, every member of the 1967 team will take pride in what has been accomplished.

They performed with honor, they achieved with grace and they remained humble. A real credit to the homes and school they represent, the Blue Devil football team members are men, not boys.

They're real champions of the Husker Western Division. They're worthy of many accolades for a job well done. —CEG.

Those WSC Students

In a poll at Wayne State College recently, the students indicated they prefer Robert Kennedy over all other potential candidates in both parties as a president.

Some indicated they like him because of his youth. Others like his liberal philosophy. Still others prefer him because of "his connection with his late brother."

Such reasoning! It doesn't make sense does it? After all, what has youth to do with being a good presidential candidate? Do we need anyone more liberal than what we already have? John F. Kennedy's relatives cannot all be assumed to be presidential timber just because of their "connection" with him.

But, hold your horses, you college students. This is not to berate you for your illogical thinking. This is to let you know that you may not like what some of your elders have done in the past and are doing right now but you show signs of being just like them.

After all, right here in Wayne there are women who still admit they voted for President Kennedy because Richard Nixon had such a dark beard and he didn't look as good on television. Right here in Wayne we have adults, mature people mind you, who would not vote for a Negro against any white man regardless of the high qualifications of some Negroes and the lack of qualifications of some whites.

See, the generation ahead of you is no more logical than you are. Maybe there is a common ground between you after all.

You cannot be complimented on your reasoning, but neither can those adults be complimented who use no better excuses for favoring one candidate over another than you do.

Your time is coming. Someday the people younger than you will point a finger at you and wonder what you were thinking of when you took a certain action. You will be as indignant as some adults are now when you complain about the world in which you're growing up.

It's good to have you discuss politics. Your opinions are wanted. Let's hope in your continuing education you gain some additional reasoning power. The nation needs people who can think and will use good judgment — we hardly need any additional segments of society who do not use reasoning powers before making decisions. —CEG.

Drinking Ban Continued

The State Normal Board has agreed to continue the policy of prohibiting drinking on the state college campuses in Kearney, Wayne, Chadron, and Peru. The action came in the wake of a new law which permits governing bodies such as the Normal Board and the University of Nebraska Board of Regents to permit on-campus consumption of alcoholic beverages if they desire.

The regents voted earlier this year to continue N. U.'s policy against booze on university property, including Memorial Football Stadium.

County Agent's Column

Free Feed for Cattle

Some farmers overlook free feed, when cornstalks go unpastured. Many acres of crop stubble usually go to waste in Nebraska.

Stalks and stubble are good feed for cattle on maintenance or near maintenance rations. Properly supplemented, they can provide most of the feed for wintering beef cows, replacement heifers and calves that are kept to go to grass next summer.

An acre of cornstalks or sorghum stubble can often save a ton or more of hay and you can avoid the labor and expense of feeding the hay. On the other hand, more protein supplement may be needed than when hay is fed.

Late Cattle Grub Control

University of Nebraska Extension specialists warn that late treatment of cattle with systemic insecticides can produce reactions in cattle. Reactions vary from slight stiffness in the hind quarters to death of animals, depending upon several factors.

There have been reports from time to time of cattle loss following the use of systemic pesticides, along with dehorning and weaning. It is customary for feeders to combine many procedures as possible when handling cattle to avoid putting them through the chute more than one time.

Feeders should be very careful when treating cattle for grubs late in the fall as there are several conditions that may cause increased toxic reaction. Some of these are:

- Larger size of grub larvae in the body cause toxicity when large numbers are killed at one time and must be absorbed by the calf.
- Cool weather seems to be a factor in increased toxic reaction, stiffness, bloating, slobbering, and diarrhea.
- Some systemic pesticides seem to cause more reaction late in the fall than do others. Consult your veterinarian or your county Extension agent on the materials and methods to be used when treating cattle for grubs during late fall.

Last but not least, be sure that you follow the directions of the manu-

factor exactly as they appear on the label.

Ruelene should not be used for grub control in Nebraska after November 1, as side effects are more likely to occur. Feed additives containing Trolene (ronnel) should not be used after November 1 for the same reason.

The manufacturer of Neguvon and Co-Ral does not specify a cut-off date, but side effects can occur with these products.

The best time for treating Nebraska cattle is from July 1 to October 1, for most effective and safest results with any material. Feeders receiving cattle after these dates who wish to treat probably will have less trouble with Co-Ral or Neguvon causing side effects. Cattle with grubs already in their backs should not be treated.

Letters to the Editor

Dear Editor:

I wish to thank SWAY for the gift of \$10 that was sent to me. It is a very thoughtful organization and everyone having a part in it can be proud of themselves. The feeling it gives a serviceman far from home is wonderful.

My job on base keeps me busy working on cars and trucks and I work on cars off base too so the time goes fast.

Thanks again to everyone responsible for SWAY.

A Wayne Herald reader, in a nearby town wanted us to editorialize about a 14-year-old driving a car (his grandfather lets him). His parents do not know about it but the boy was driving and had an accident last week, unreported to the officials because the boy has no license and no insurance. What the reader is afraid of is that the 14-year-old will have a serious accident and it will be too late for the parents to stop the grandfather from aiding and abetting the boy in breaking the law. Well, who knows, the grandfather might read this paragraph and no editorial will be necessary!

SASS

"The boy was playing in a tree. Come down here at once, Herman," his mother shrieked. The boy climbed higher. "Herman!" she shouted, "Did you hear what I said?" The boy climbed upon another limb. "Herman, if you don't come down at once, you'll fall." The lad didn't budge. "All right," his mother said grudgingly, "but if you fall out and break both of your legs, don't come running to me for sympathy!"

Norb Brugger, superintendent at the Wayne power plant 41 years, tells about watching the power plant engine in Wayne through a greasy window as a boy. The operator, Gus Newman, invited the 8-year-old lad in to watch the engines. Maybe that was the start of Norb's career in the electrical generating business. At any rate, when the city got Brugger for a superintendent over four decades ago it could not have known what a bargain it was getting. Norb knows both the new and old power plant and loves every inch of them. To him, the plant is like a member of the family so it rates TLC — tender loving care. Our hats are off to Norb Brugger and to him goes the bouquet of the week for all the work he has done you all know about and those thousand and one little extra deeds he performs that only the recipients know about. He deserves the bouquet, maybe 14,965 of them for the days he has served Wayne

Northeast Extension Notes

by Margaret Ann Stehly

Be an informed consumer! Consumers — and that means everyone who spends money — make many important decisions every day, with many of them concerning money. Satisfying decisions are based on sound information and that's why it's so important to be an informed consumer.

The modern homemakers must depend on "shopping skills" rather than "make-it-yourself skills" to supply the families wants and desires.

Consumer tips for food buyers:

Think twice before bypassing boneless meat because of its higher price. With no excess fat and no bone, every bit of meat adds up to more servings from each pound. And it may be a wiser selection even though it costs more per pound.

When selecting cabbage be sure to buy solid, firm, crisp heads heavy for their size. The leaves should be crackling fresh and bright green and the odor sharp, sweet and clean.

Sometimes, bruised and damaged apples are sold at bargain prices — consider how you'll use them before buying. Baked apples and apple salads call for the most attractive apples, while apples with superficial blemishes may be used for sauce, butter, jelly and cider.

Meet The WAYNE HERALD FAMILY . . .

MEET THE BILL RICHARDSONS

Bill Richardson has been a member of The Wayne Herald Family since 1953 when he and his wife, Mildred, moved to Wayne from Denison, Iowa. Since that time the Richardsons have spent six years at The Wayne Herald's sister newspapers in O'Neill and Denison before returning to Wayne in the fall of 1966. Bill and Mildred have two children living at home north of Wayne on Highway 15. Bill, Jr. is a senior at Wayne High School and Lee Ann is a sixth grader at Wayne's Middle School. Bill, Jr. is also a part-time employee at The Herald.

Shmoe: "I was riding on a caboose with a railroad friend and he shouted: 'Look out for the tunnel! Look out for the tunnel!' so I looked out and I darn near got my head torn off!"

SASS: Boy, do we love speeding drivers and we'll bet you do too. You know the kind. You stop for a stop sign, look to the left, no one is coming; you look to the right, no one coming; then you start and there is someone bearing down upon you from the left. If they observed the speed limit, you would have made it but you have to hit the brakes and narrowly avert an accident. The speeding driver goes by as if you have done something wrong—and in case of an accident you would be blamed, not the speeding driver. You didn't yield right-of-way, and you're supposed to, even to speeders you can't see until almost too late.

SASS: Everything is speeded up in this day and age. A patient was getting ready for surgery and getting final information. "In this hospital," said the doctor, "we believe in getting the patient on his feet as soon as possible after the operation. On the first day I want you to get out of bed and walk around the room for five minutes. The second day, you'll walk ten minutes. On the third day you must walk around for a full hour. Got that? Any questions?"

"Yeah, Doc," replied the patient. "Is it all right if I lie down during the operation?"

SASS: Puh—lease, don't hold back information on news from us! Too many times we have had people bring in news stories Wednesday or Saturday mornings. They were asked why they didn't bring in the news earlier and they let us know that they had waited until they got the time an event would be held or got one speaker lined up or had to get the speaker's topic or had to make sure of the committee chairman or

something about like one of those excuses. What they don't seem to realize is that if they bring in the news early we can get the article written up and then add the information they lack at the last minute. The way it is we are so swamped Wednesday and Saturday mornings we are tempted to leave the news out—or sometimes it actually is too late. Don't hold up complete news stories just because you lack one bit of information. Bring in what information you have and fill us in on other details later! Please!

SASS: The farm wife bought a painting. She hung it up in the living room. Her husband didn't like it so she hung it upside down. It still didn't look right. She tried it on one side. He didn't like it. "What's it called?" he asked.

"A Realistic Picture of the Farm Situation," she replied.

"No wonder it doesn't make sense no matter how you look at it," he retorted.

Regular Visit by SSA Man Revealed

The regular visit of a Social Security Administration representative to Wayne will be made Tuesday, Nov. 21, according to Robert Pelkey, district manager of the Norfolk office. Robert Swan will be in the courthouse in Wayne from 1 to 3 p.m. next Tuesday. It is not necessary to have an appointment.

Pelkey reports all people employed in a private household must report wages. Employers who have household help must also make reports. These cases involve those earning \$50 or more in household work in any quarter of the year. Swan can furnish information when he is here Tuesday.

GETTING WOMEN outside when there are men
to feed is always a job. Here are some of the
women who were helping with the feed at the
Ralph Nathan home near Winside Saturday.

Over Five Dozen Show Up to Help Winside Farm Couple With Harvest

Over five dozen people
showed up at the Ralph
Nathan farm northwest of
Winside Saturday to help
bring in the corn crop and
to feed the workers. They
brought 13 pickers, six ele-
vators, 13 tractors and
over a dozen wagons.

In all, the men and boys
brought in corn from 99
acres. Earlier a group of
farmers had taken time
off every now and then to
harvest 50 acres of beans
for the Nathans.

Nathan has been unable
to do his farm work for
around seven weeks. He
was hospitalized three
weeks after being stricken
Sept. 20, and since getting
home has been under a
doctor's care.

Men and boys present
were Marvin Kleensang,

SHOWN HARVESTING a phosphate placement study is a North-east Station agronomy crew at Concord. Frank Plueger, left, is an agronomy technician shown shelling corn for moisture determination. Ulverd Alexander, area agronomist, is weighing corn for yield determination.

Fertilizer Plot Results Studied

Fertilizer plot results are being studied at North-east Station, Concord. Soil fertility work involves considerable activity, according to Ulverd Alexander, area extension agronomist.

Corn fertility studies involved nitrogen, phosphate, sulfur and zinc. Nitrogen application from zero to 120 pounds per acre were made in fall, spring and as summer side-dress to study the effects of time of nitrogen application on yield.

Phosphate applications varied from none to 180 pounds were broadcast at pre-planting or planting time for four years. Indications are that planting time starter applications may not always be the best method of phosphate application for corn.

Sulfur applications under various conditions have been evaluated for several years. An additional study has evaluated the forms of sulfur for maximum effects on yield.

Zinc rates, method and time of application have also been studied. Three forms of zinc applied in pre-planting plowdown versus starter or side-dress application have been evaluated over the last three years.

The Concord station reports detailed results will be available for public distribution as soon as data is compiled and evaluated. Results from all major agronomy studies will be included in the report to be completed in December, Alexander reports.
