The drama and music department are teaming up for the presentation of the hilarious show. Dr. William McMurtry, vocal and music instructor, and Dr. Helen Russell, director of the drama department, are collaborating on the production.

Cast members include: Nancy Wolters, Wayne, the only girl in the cast, playing a maiden in love with a father who does not understand young love. She is a WSC senior.

Playing opposite her is Paul Thorson, Omaha, a sophomore majoring in music; Lee Carlson, Sioux City, junior, is a transfer from Deerfield, Ill. Tim Cahill is instructor of speech at WSC, is a graduate here and has a master's degree from NU.

Arne Nelson, seen in many past productions, will be the girl's father. He is a sophomore from Omaha; Brad Ford, sophomore from Nebraska City, has an agile role as a deaf-mute; Fred Wightman, Schuyler, takes the role of an old actor.

Gary Ehler, Missouri Valley, Ia., freshman, will be making his first stage appearance; Dr. McMurtry will play piano accompaniment; Karen Orr, Omaha, freshman, will play the harp; Clayton Frills, Oakland senior, will play bass; and James Watson, Schaller, Ia., sophomore, will play drums.

Those who have witnessed rehearsals of "The Fantasticks" predict it will be a big hit with young and old. Dr. McMurtry, who does not often have parts in the WSC stage productions, says the work is hard but the See MUSICAL, page 8

No Business Set at Courthouse Monday

Monday, Feb. 12, is Abraham Lincoln's birthday. As a result, there will be no business conducted.

Those planning to take driver's license exams will have to wait a week as the examiners will not be here. All other offices will be closed for the holiday.

The same situation will arise later in the month when George Washington's birthday is observed. Courthouse offices will be closed Thursday, Feb. 22.

For those seeking license plates and getting assessed, this eliminates two days when they could ordinarily get in the courthouse. As of next week, there will be just 12 days left in February in which courthouse offices will be opened and only two days on which driver's license exams will be given.

Described by office managers, employees and others as "the busiest day since 1961," Monday was the initial day to sign up for the 1968 feed grains program. Wayne County reported 91 farmers signed up the first day.

The ASCS office in Wayne was crowded with farmers most of the day as thousands of acres were put under the program. Since an advance payment was made for diversion acres in many cases, the amount of money paid out was considerable.

Tom Roberts, office manager, said those diverting less than 20 per cent of their acreage from corn and grain sorghum would not get advance payment. They will be paid when the program is further along.

According to John Mohr, county ASCS chairman, Mar. 15 is the final date for signing up for the 1968 feed grain program. Although the numbers coming in to sign up had slackened off Tuesday, he still anticipated a lot of business in the next five weeks.

The program is designed to reduce total feed supplies in order to strengthen prices. bumper crops in the US and overseas the last crop year led to a world-wide rise in grain production, bringing about the situation where importing nations See SIGN-UP, page 8

Mother Saves Girl Who Had Set Nightie Afire

Quick action by Mrs. Edwin Milligan, Carroll, probably saved the life of her five-year-old girl Monday. The little girl was playing with matches, accidentally set her nightie afire and was engulfed in flames.

Charm Lee was in the bedroom with another one of the small Milligan children when her nightie caught fire from a match she lit. Her screams brought her mother rushing from an adjoining room.

Mrs. Milligan wrapped a blanket around the little girl, putting the flames out. The youngster was then brought part way to Wayne in a car, an ambulance meeting the car and bringing Charm Lee the rest of the way to Wayne.

A local doctor assessed the burns as first, second and third degree and recommended taking her to Sioux City at once. There she has been under care at St. Joseph's Hospital since that time and is expected to remain three or four more days.

When able to stand the trip, the little girl will be taken to the Shrine Hospital, Cleveland, Ohio, where a burn center is maintained. Skin grafting will be performed there.

The five-year-old suffered burns on her chest and stomach plus a bad burn on her neck. She had blisters on other parts of her body, including her chin, and her hair was singed.

The Milligans have four daughters, one in school and three of pre-school age. Two of them are staying with a sister-in-law, Mrs. Bob Milligan while parents and sister are gone and the other is staying with friends, the Arlyn Hurberts.

Milligan has his own truck. He lives in Carroll but is employed by Wayne Motor Express. He said Tuesday afternoon he would return to work later this week but his wife would stay with their daughter and accompany her to Cleveland for the grafting operations.

Winside's 'Valentine' Is Annual Pancake Dinner

Winside is presenting area residents a "valentine" Wednesday, Feb. 14. It is a free pancake feed and the public is invited.

Last year the Winside Community Club, sponsor of the annual affair, tried to make heart-shaped pancakes. This idea developed some complications and the pancakes started coming out in the usual shape to speed things up.

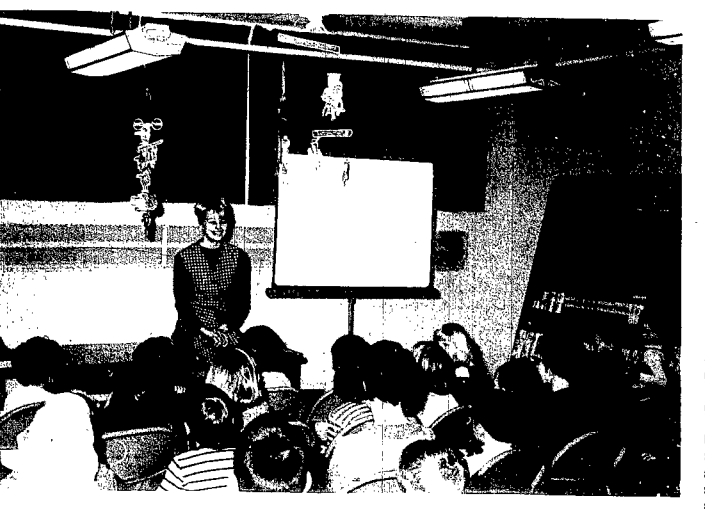

Frank Weible is chairman for the feed to be held from 4 to 8 p.m. in the Winside Auditorium. Assisting are Louis Willers, Cliff Burris, C. O. Witt, Richard Miller, Carl Troutman and Don Wacker.

Plans call for pancakes, sausages, coffee and milk to be served. If the weather is nice, the turn-out could be equal to the population of the town or even greater.

Details on the event will be given in Monday's paper. In the meantime, area residents are asked to be Winside's valentine next Wednesday evening.

THOSE SMILES tell part of the story. Three boys won the fourth grade poster contest at the elementary school for Dental Health Week. Eric Johnson (left), won first, Scott Johnson (right) second, and Paul Mallette third.

STORY HOUR sessions at Wayne Public Library draw an average of 30 youngsters each Saturday afternoon. Members of a WSC class help out on the program. Here Andrea Steele is shown telling a story. Next week the WSC students will combine a puppet show with the story hour

Driver's Course Offers Openings

About two-thirds of the limit allowed on defensive driving courses has been signed for a course beginning in May, according to Mrs. Rosemary Mintz, secretary of the Winside Community Club. About a dozen more applications will be accepted. The course is the second to be offered by the WCC. The first was so popular, not everyone could be accommodated. Trooper James O'Neil is in so much demand, it was not possible to schedule the course before May. The schooling consists of one meeting a week for four weeks straight. Offered are helpful instructions on how to be a better driver, how to anticipate the situations that bring accidents about, how to drive defensively against the careless drivers and other helpful information through diagrams, films and talks. Those who have taken the course have found it also helps them to pass the driver's license exams. Anyone who has to take this test within the next year will gain a lot of information that should help make passing the test easier. Only charge is for materials. Nebraska State Patrol co-sponsors the course and gives a card to all those completing it. More information on signing up can be secured from Mrs. Mintz or from Fred Brader, who is in charge of arrangements.

Wildcats Down NWU - Fifth Time

Wayne State cagers gained their fifth straight victory over Nebraska Wesleyan Saturday night with a 79-72 margin at Lincoln. An estimated 400 Wayne students and residents attended the game.

The Wildcats led Wesleyan all the way except for two brief ties in mid first half. Though they owned margins up to 18 points during the second half, the Cats met a late challenge which brought the Plainsmen within six points. Pressure defense, which has been a Wayne trademark all season, stopped the Wesleyan rush, however, and eight straight free throws in the last three minutes helped to insure the win.

Both teams had four players scoring in double figures, with the hosts' Ken Abt leading at 22. Bill Goodwin got Wayne off

to a fast lead with an early flurry en route to 20 points while Bob Strathman popped in 19.

Wayne built a 9-3 lead before Wesleyan caught up at 11-11 and tied again at 16-16. From then on, the Wildcats held command and ended the half at 40-28. By the middle of the second half Wayne led, 56-38.

Hot shooting by Dick Hahn and Tom Brown, plus hustling defense, brought Wesleyan within danger distance in the next six minutes, but six points was the closest threat.

Wayne Matmen in Loss to Westmar

A default in the final match lost a wrestling meet for Wayne State Tuesday night at LeMars, Ia., as Westmar College won, 19-17. Wayne wrestles next with Midland, tonight (Thursday) at 7:30 in Rifle Gym.

Westmar heavyweight Wade Winters was leading Wayne's Tom Firestack on points when Firestack countered a Winters move, and the official penalized Firestack for what he called an illegal action. Wayne Coach Don Pate said afterwards, "Apparently Winters suffered an arm injury in this move, Pate said, and was unable to continue wrestling. Since this resulted from a penalized move, Firestack was declared in default, and that gave Westmar five team points for the 19-17 margin."

Pate said he did not see anything wrong in Firestack's actions and that the penalized move Firestack used is a legal one.

Wayne now is 3-2 in dual action, Westmar 8-3.

Results: 115—George Garrett, Westmar, decisioned Cal Johnson, 3-2; 123—Bill Schwarz, Wayne, decisioned Norbert Ruhland, 9-0; 130—Jeff Melneke, Wayne, decisioned Steve Mohning, 4-0; 137—Jim Fisher, Westmar, drew with Dick Ferguson, 8-8; 145—Steve Hanson, Wayne, decisioned Dennis Johnson, 8-5;

At 152—Larry Michelson, Wayne, decisioned Ron Crooks, 15-5; 160—Ross Brown, Westmar, decisioned John Yoder, 6-2; 167—Rich Clymer, Westmar, decisioned Jack Vaughn, 8-2; 177—John Groski, Westmar, decisioned Frank Cucke, 9-8; 191—Rick Gordon, Westmar, decisioned Curt Hess, 3-2; Hwt.—Wade Winters, Westmar, won by default over Tom Firestack.

WSC President Issues Statement on Professor

(The following signed statement was handed The Wayne Herald Tuesday afternoon by Dr. William Brandenburg, president of Wayne State College. The statement is carried in full, without deletion or editing.)

I discuss the employment status of a faculty member with the faculty member concerned, with administrative officers, with members of the governing board and board officers. Any substantive discussion beyond this circle of people would be improper unless the faculty member himself places the matter in the public domain.

On the other hand, faculty members may discuss their employment status with colleagues, in the news media and any place they choose. Dr. McDonald has chosen this course.

I received a letter dated January 9, 1968 from the corresponding secretary of Wayne State AAUP telling me that Dr. McDonald had complained to that organization. The complaint was, according to the AAUP secretary, that I had been seven days late in notifying Dr. McDonald of my intention not to recommend him for reappointment for the academic year starting in September, 1968. My letter was written

December 21, whereas by Board regulations notice should have been given by December 15.

Dr. McDonald made no complaint to me directly about the seven days "late notice." He did this through the membership of AAUP and the newspapers.

By national AAUP policies a complaining faculty member is admonished not to use the news media and the public to air his grievances in the first instance. The reason for this is sound. Settlement of disputes in the academic world is more easily accomplished in a calm atmosphere. In the event of impasse, publicity may be unavoidable, and even desirable.

Dr. McDonald did come to my office at 2:00 p.m. on Wednesday, December 27, 1967 to ask why he was being fired. I answered by saying that Board regulations state specifically that reasons need not be given in the case of a probationary faculty member.

I will add to this that national AAUP standards also state specifically that reasons need not be given in these cases.

According to the Norfolk Daily News of January 25 Dr. McDonald is reported to have said

that he thought my action was "Because of a speech he gave in a recent faculty meeting."

This concerned a faculty debate on whether economics should be located in the division of business or should remain in the division of social sciences.

So long as Wayne has an offering of courses in economics I care not whether it is in business or social sciences. I have so stated to those who ask me, adding that it was a matter for faculty decision.

In the Norfolk Daily News of February 2, 1968 Dr. McDonald is reported in direct quotes as saying that I told him of three items "against him" which a board member possessed. I had no knowledge of these items, have heard no board member mention them, and now have knowledge of them only through the newspaper story attributed to Dr. McDonald.

In the same newspaper story, in direct quotes, Dr. McDonald speaks of "a letter signed by a young lady who accuses me (Dr. McDonald) of making advances to her." I have no comment on this matter.

Still in the same story February 2, Dr. McDonald is quoted directly as saying, "I was led to believe that if I pursued this case that Dr. Brandenburg would ruin my future in the professional world."

At 10:00 a.m. on Monday, January 29 Dr. McDonald had come to my office voluntarily. Among

the questions he asked was whether I would write him a favorable letter of recommendation if he resigned.

My answer: "I speak of the good points in a man's record; if he has resigned I say so; however, if I am listed as a reference by him and a prospective employer asks me pointed questions I will not lie to the prospective employer."

Numerous other speculations and inaccurate statements have been tossed about. I have thought it neither ethical nor in the best interests of the college to discuss this matter before now. There has been no censorship imposed by me on what people here may say, contrary to a news report. Most faculty members are concerned primarily with their classroom obligations and are meeting these obligations in a normal way.

W. A. Brandenburg

Musical

(Continued from page 1) show will be "thoroughly entertaining."

Dr. Russell, well-known for her demand for perfection, is enthused with the prospects for a new type of treat for theatre patrons. She is hoping the "regulars" will make this show as well as others.

The boxoffice is open daily from 12:30 to 5 at Ramsey Theatre. Reservations may also be made by telephone.

Sign-Up

(Continued from page 1)

do not need the grain and exporters have more grain to offer. All of this has resulted in depressed prices in this country. The ASCS points out that feed grain production in the nation exceeded the estimated demand by a small percentage. However, it was enough to cut market prices substantially and threaten the livestock and poultry industries with over-expansion.

Goal of the 1968 voluntary feed grain program is the diversion of 30 million acres from production and grain sorghum to conserving uses. This would be 10 million more acres than were diverted last year.

Under the plan, some farmers may substitute wheat for corn or grain sorghum. There are other arrangements that can be worked out under individual circumstances through the ASCS.

If the present trend continues, it is possible a record sign-up will be recorded in the county. There is considerable paper work

involved, however, so no definite acreage, farm or cash payment figures were available at the time this was written.

WSC Building

(Continued from page 1)

administrative and service offices, better science facilities and more library space.

Later in 1966 the state normal board pointed out the need for renovation of Hahn School at a cost of \$354,680 in order to move all administrative offices to a central location, allowing closing of interior campus drives and the need for driving through the campus to get to the offices.

President Brandenburg's statement goes on to say the budget committee visited WSC early in 1967 and the project was explained, citing the need for making Hahn the administration center. The budget committee received the request Feb. 9, 1967.

The governor requested an appropriation to renovate Hahn at the above-named cost. However, the budget committee pared this to \$230,000 Apr. 29.

Dr. Brandenburg points out

that it is apparent the legislature's bill drafter inadvertently used the language of the 1964 request instead of the 1967 request. This little oversight means the plans for conversion will be delayed.

Plans as drawn specified the middle two floors for administrative and service offices. The fourth floor and most of the first floor were to be converted to instructional use.

Although this project is delayed, the unfortunate wording in the bill has no effect on other plans for the college. A new science building and a large addition to the library are to be constructed this year.

Wives were also guests. Additional guests were Mr. and Mrs. Bernard Schulte, Mr. and Mrs. Don Goeden, Mr. and Mrs. Steve Braasch and Mr. and Mrs. Don Brockman, Wayne; Mr. and

Mrs. Alfred Slovors, Winfield; and Mr. and Mrs. Frank Hoffman of South Dakota, guests of Chris Tietgen. Over 50 were present.

Next board meeting the subject of helping a family handle treatment of a case of glaucoma will be discussed. Slight conservation is a continuous project of all Lions.

The club met for the first time at Les' Steak House for the ladies' night meeting. Meetings will be held there from now on.

EDITORIAL COMMENT

The editorial department of a weekly newspaper is an important department. Normally it is one person's opinion of topics that concern most of the readers. It is the duty of an editorial writer to search all available facts before he sits down to write. From this basis the writer should be able to give a clear picture of important topics.

You may not agree with an editorial - but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

A Prayer in Public

It was a party of nine, seated in Bishop's Cafeteria, Omaha. Before they started eating, they bowed their heads in prayer.

A few people at tables around them hushed their conversation. Others just looked away. A few smiled.

To those people who prayed, it was a natural thing to do. They say grace at home and they are no less grateful for all that God has provided when they are out in public than they are when they're around the family table.

Even in Wayne you can see it now and then. Maybe it is a short prayer, but people who take time to give thanks can be noted.

Certainly there is nothing wrong with it. Some would not say a prayer in public before eating because they do not want to be "conspicuous." Others would not pray because they do not do it at home so why should they do it elsewhere.

It seems logical to give thanks for what has been provided. Although we are grateful for each glass of water, each breath of air, each bite of food and so many other blessings, we do not pray before each one. But there is nothing wrong with a prayer in private to start the day, a prayer between oneself and one's God at night before retiring or a prayer (in private or in public) before eating. —CEG.

The District Tournaments

District basketball tournament time is here. The beautiful part of tournaments is the fact that season records may mean something in the seedings but they can't count any of the seasonal scores in determining the winners.

Wayne, Winslow and Allen should take heart. There have been teams in the past picked as "clinchers" to go to state tournaments and they have wound up on the sidelines because they "had a game won before it was played."

This year is no different. Until a team is eliminated, it has to be considered a contender, regardless of season record—bringing us back to the year North Platte lost every game all season and then won the district tournament and the right to play in the state meet.

Again Wayne has shown promise with a good showing against Class A South Sioux City. Allen came through with an impressive win over Emerson Sacred Heart, winner of the Newcastle tournament. Winslow has beaten Allen and has shown potential to win if two or more can hit in one game.

Take heart, you Blue Devils, Wildcats and Eagles. The reason they play tournaments is because everyone has a chance. If the favored teams always win, there would be no reason for having tournaments! —CEG.

Belonging to Scouting

Ever hear of John Glenn? He was a Boy Scout when he was young. You know Walter Cronkite? He was a Star Scout at one time. Gen. William Westmoreland, commander in Vietnam was an Eagle Scout. Milton Caniff, who draws "Steve Canyon" was an Eagle Scout. There are many more.

At present in this area there are two programs going on regarding Scouting, each tied to the other. It is your duty to give an ear to the story being told.

Sustaining memberships in Scouting are being sold. These memberships in Wayne, Cedar, Dixon and other counties in the area will help enlarge the Scouting program for Cubs, Boy Scouts and Explorers the coming year. You can join and help out without going to a Scout meeting, without serving on a committee, without doing anything except signing up to be a sustaining member.

At the same time, more boys are wanted in the Scouting program. It has been proven that the more money available, the more boys who can be reached to be brought into Scout work and the better the results obtained.

Among us today may be another John Glenn, Walter Cronkite, Gen. Westmoreland or other greats. Scouting may be the boost needed to help them along the way. Won't you do your part to see that the boost the boys need is provided? —CEG.

Bypassing Norfolk

Madison is caught up in a discussion of the merits of bypassing Madison when Highway 81 is resurfaced. It appears that a more logical discussion would be on the subject of bypassing Norfolk.

At present one has to go through congested areas, traffic signals and residential areas on too-narrow streets in Norfolk. When the state gets ready to rebuild Highway 81, why not bypass Norfolk to the west?

Those wishing to go into Norfolk will still have access. Those wishing to go north to Lewis & Clark Lake or south to the Interstate will not be slowed down in Norfolk with its many traffic-delaying set-ups.

Nebraska is supposed to be building highways that serve the people and the cities. It has built bypasses around Hastings, Scottsbluff and other cities bigger than Norfolk so there is no reason why Highway 81 cannot be built north from Madison and bypass the biggest town in the area.

Madison is not nearly as traffic-delaying or as dangerous as Norfolk for the traveling public. The highway department is slapping at a gnat while a tiger is attacking. —CEG.

Education Commissioner Explains School Program

LINCOLN—Dr. Floyd A. Miller, state education commissioner, reports the new school aid program will be administered "as technically and legally as practicable" to avoid inviting lawsuits against the measure.

He said this includes strict compliance with the controversial provision restricting per pupil spending increases to eight percent from one year to the next.

Some school officials have complained they cannot live with the spending limitation because of steadily increasing teacher salaries and other school costs. They also object to state control over local school budgets and fear the restriction may tend to lock an educational program to its current standards—whether inadequate, adequate or superior.

Dr. Miller noted some school districts have indicated they will seek relief from the provision under the school aid law's hardship clause.

He urged local school officials to closely read the language of the law in regard to hardship petitions. He said it is not certain if teacher salaries fall within the intent or the meaning of the statute.

The act provides a hardship petition seeking exemption from the eight percent proviso may be submitted for the following reasons: —Abnormal change in enrollment.

—Depreciation in the value of school properties.

—Alteration of property values within a school district.

—And other abnormalities or emergencies of similar magnitude or consequence.

"The law says nothing specifically about teacher salaries as concerns hardship requests," Dr. Miller said.

"This would probably be a matter of interpretation that cannot be made until the applications for financial assistance are presented to the state."

Dr. Miller said it would be "premature" for the education department to "automatically

rule out at this time" teacher salaries within the definition of what constitutes a hardship. "I would only ask that school boards and their officers govern the law slowly and carefully to be sure of their position," he said. "We have to administer this as technically and legally as practicable to avoid unnecessary legal entanglements."

At least one state senator, S. H. Brauer, sr., of Norfolk, has indicated a suit may be filed to test the school aid law.

Brauer claims the act is unconstitutional. He alleges it grants an illegal delegation of legislative authority to the State Board of Education.

The law provides for \$25 million assistance to public school districts at the outset. Half of this will be distributed on Dec. 1 and the other half on Oct. 1, 1969.

Dr. Miller said he personally favors full funding of the program in the 1969-71 biennium. This would take \$65 million a year.

Petition Kickoff Announced The statewide petition drive for a partisan legislature will start March 1, the Nebraska Republican Party has announced. It will be coordinated by Bruce Hagemelster of Hemingford.

Mrs. Lorraine Orr of North Platte, state GOP chairman, said the party must gain signatures from 48,640 registered voters in 38 counties before July 5 to put the question on the November ballot.

Legislators in Nebraska have been nominated and elected on a nonpartisan basis since the state adopted the nation's only one-house or unicameral legislative system in 1934.

A bill proposing a constitutional amendment to elect senators by party label was defeated in the 1957 legislature. It was sponsored by Sens. Richard Proud of Omaha and Ross H. Rasmussen of Hooper.

Sales Tax Gets Cool Reaction The proposal that cities and counties be authorized to levy a sales tax received a cool reception from the Nebraska League of Municipalities.

Test Results Now Available

Results of 1967 Nebraska corn performance tests are now available in the new Outstate Testing Circular 129, published by the University of Nebraska Agricultural Experiment Station.

This bulletin lists the brand names and hybrid designations of each variety studied. It also includes tables summarizing yield and other data about the entries.

The circular contains tables summarizing data in each zone as well as certain data concerning individual experiments. It also reports the two-, three-, four- and five-year average performances of hybrids.

The circular states that many hybrids have essentially the same grain production records. Performance of hybrids varies with seasonal conditions and care must be taken in interpreting a single year's tests.

Performance over a period of years gives a much better idea of a variety's adaptation because hybrids react differently to different weather conditions and care must be taken in interpreting a single year's tests.

Performance over a period of years gives a much better idea of a variety's adaptation because hybrids react differently to different weather conditions.

Stalk strength and resistance to insects and diseases are other factors which must be considered in selecting hybrids.

State Tax Deductible All taxes paid under the new Nebraska State Sales Tax are deductible from federal income taxes. If you keep records of purchases and the sales tax paid you can deduct the full amount recorded. If no records are available then you may deduct according to average general retail sales tax payment tables that are available from Internal Revenue Service offices for Nebraska. The deduction also may include all use tax payments made for purchases out of state.

Personal sales taxes should be deducted when itemizing deductions on Form 1040. Sales taxes paid on business expenses, such as farm machinery, business ma-

chine and supplies, etc., should be deducted when itemizing business expenses. For farmers this would be Schedule F, Form 1040. Self-employed individuals will be required to file an estimate of 1968 income in Nebraska by April 15, and make their first quarterly income tax payment. The same rules apply to Nebraska income taxes that apply to federal estimated income tax liability.

Farmers who expect to earn at least two-thirds of their income from farming have the option of waiting until the end of the year to file their estimated income tax liability. If an individual receives wages as a farm employee or domestic servant and has sufficient income to accumulate tax liability, he must file a declaration and pay an estimated tax since employers of these wage earners are not required to withhold.

In any circumstance which requires an individual to file declarations of income and tax liability for federal purposes, the individual also should obtain a Nebraska State income tax form and file the same information with the State Tax Commissioner. State forms are available from banks, county treasurers' offices, tax practitioners and the state and regional offices of the Nebraska Tax Commissioner.

Letters to the Editor

Dear Editor:

I was completely surprised and also very happy to receive the SWAY letter and money. I think it's a wonderful thing SWAY is doing even though I never really expected my name to be drawn.

Thanks very much. I really appreciated it. Sincerely yours, Steve Glassmeyer (N-61, Baseview Trailer Court, Emerado, N. D. 58228).

Dear Editor:

I received my SWAY letter and check and wish to thank all who are responsible for making this possible.

I was at Fitzsimons General Hospital, Denver, when I received the check. My right hand was broken. I was in charge of patients in Ward 417 when they brought the letter to me.

I am home and will be until Feb. 19 then will return to Fitzsimons for further treatment. Again my sincere thanks. Larry L. Ritze

Our little mention of five Thursdays in February brought in several replies, one locally, one from Lincoln and one from Pringhar, Ia. (the only Pringhar in the world, according to the masthead of the O'Brien County Bell). All pointed out the same thing—there were five Thursdays in February in 1776, 1816, 1844, 1872 and 1940. There will be five Thursdays in February in 2024 and 2052 and a lot of others years to follow we would imagine. If this old earth can hold together that long. One thing, this is the first time in history February will have five Thursdays on which Sass by Chas is published. It will be the last.

Another good reason for checking educational TV was Sunday afternoon's program by 2,300 outstanding Omaha high school musicians in a band and chorus concert. It was certainly a welcome relief from some of the lousy programs on the commercial channels. You can get ETV on UHF Channel 19 or if you have Cablevision it comes in on Channel 13. ETV really has some worthwhile programs, interesting, entertaining and not insulting to the viewer's intelligence, which is more than we can say for some programs.

A great big grizzly bear wandered down from the woods at Lake Louise, Alta., one afternoon and stumbled into a saloon. There a well-oiled patron exuberantly put his arms around the bear and proclaimed, "Look at us, men! The bear was having no part of this, however. He picked up the patron and very accurately threw him through the entrance into the street."

The drunken one picked himself up at length, and mumbled disconsolately, "Isn't that just like a woman? Give her a fur coat and she thinks she owns the world."

Two cards we want to acknowledge, one from an out-of-state reader who sent money for a subscription and wrote: "Can't miss those editorials..." The other was postmarked Wayne and said: "Would appreciate a list of those at WSC from this area who were on last semester's Dean's List published in your paper." To the writer of the first card, we say "Thanks," because a kind word like that goes a long way. To the writer of the second we say: We can't publish the list until we get it and we got it Saturday. That's why it's in this issue of the paper. We didn't want you to think your unsigned card had prodded us into getting something that we might not have printed otherwise. We always print the college news but it's brought in when it is ready, not when you're ready.

Refunds Fast If You Get Reports Correct

Wayne County residents entitled to tax refunds for 1967 can get their money five or six weeks after turning in their income tax statement as long as they make sure their reports are correct in the first place, according to the Omaha office of the Internal Revenue Service.

Taxpayers must make sure they sign the reports (both husband and wife must sign if it is a joint return); Copy B of all withholding statements must be attached; computations must be correct; and supporting schedules and forms when required for certain incomes and expenses must be attached.

Pre-addressed labels are provided for taxpayers this year. Use of these will also speed handling of tax reports.

Torino...for people who know there's more to a performance car than painted stripes.

Anyone can paint stripes on a car. Ford's performance champs earn their stripes the hard way. Torino swept the first five places in the Riverside 500. It's the Pace Car for the Indy 500. It's the hottest-selling new car in the country! Fairlane took first place in its class for braking and for economy in the Union/Pure Oil Performance Trials—in fact, Ford Motor Company cars won more classes than all other manufacturers combined! If it's performance you want, ride with a winner! See the man with Better Ideas . . . your Ford Dealer.

FACTS ABOUT THE 1968 TORINO

When Torino takes the first five spots in the Riverside 500 first time out, you know it's tough! These cars of course were driven by professionals and were modified to meet the special demands of competition. But the same kind of basic durability and maneuverability are built into every Torino we make. So if you want stripes, get 'em on the car that gives them meaning! Choose from three GT models—fastback, hardtop and convertible. All with a 289-cu in V-8, wall-to-wall carpeting, all-vinyl interiors, styled steel wheels and wide-ovals. Or choose the regular hardtop or 4-door sedan. Like the GT's, they've got a new, longer, 116 in. wheelbase for smoother riding comfort, more room and more trunk space. You can even have a Torino Squire wagon, with 2-way Magic Doorgate. See America's hottest newcomer at your Ford Dealer's soon!

FORD has a better idea.
