Schools Hold Open House; Attract Over 500 Visitors

Wayne's high school and middle school were busy places Tuesday night as both held open house and entertained more than 500 visitors.

Parents were busy observing samples of students' work, learning about new teaching methods and teaching aids, as well as getting acquainted with new teachers.

One of the points of interest in the middle schools was the video tape recorder, camera and TV set recently purchased by the schools. The new equipment will permit wider use of new teaching aids; taped reproduction of classroom presentations and an opportunity for students to see themselves as others see them.

A square-dancing demonstration was staged by students of the middle school in the new high school gymnasium, attracting a large crowd of parents and other visitors.

High school wrestling squad members gave an educational demonstration on wrestling techniques and scoring methods in the lecture hall following the end of the regular open house at 9 p.m.

Coffee and cookies were served to visitors throughout the evening. Students served as hosts and guides to permit teachers to meet and visit with parents.

The barricades came down Wednesday, work on both Highway 15 south of Wayne and the improvement work at Seventh and Main have been halted for the winter, engineers said, and the barricades were to be taken down Wednesday evening.

Trophies, Speaker, Swine Association Election Highlight Banquet Sunday

About 170 people turned out Sunday evening for the annual banquet of the Northeast Swine Association, held again this year in the Birch Room of the Wayne State College Student Union.

Featured speaker was Roland "Big" Paul, executive vice president of the National Pork Producers Council. Paul emphasized the need for a stronger producer-investor program whereby a certain amount of money would be voluntarily invested by the producer to be used for pork promotion, disease eradication and so on.

Trophies were awarded to six men at the banquet. Receiving trophies for being winners at the Northeast Nebraska Swine Association Market Hog Show in Laurel in August were: Dennis Nordhues of Randolph, champion live; Paul Everingham of Wakefield, reserve live; and Rodney Bonderson of Emerson, reserve champion carcass.

The following three men received trophies as a result of secret balloting by a committee: Curtis Papehausen of Coleridge, Pork Chop Award; Dick Sorenson, Wayne, Pork Builder Award; and Eugene Sohler, Laurel, Pork Booster Award. Presenting the trophies was Gene Williams, farm service director of WJAG radio in Norfolk.

NE Tech School Surveying Data on Needs of Students

Officials of Northeast Technical School at Norfolk are currently conducting surveys to determine the number of potential students to be expected from the 66 high schools in the 14-county area served by the new vocational-technical school.

In addition to this survey, another is being prepared to determine the number and types of jobs which are or will be open in the area.

Returns from these surveys should tell school officials both the number of students and the type curriculum the school should have. I. Don MacLay, NE Tech superintendent, told Wayne Kiwanians Monday.

MacLay said certain basic courses would be offered, such as auto body repair, auto mechanics, business courses and electronics and electricity courses. All are pretty much standard in all vocational-technical schools, but the governing body of the school wants to know what other needs remain to be filled in the area the school services.

No effort will be made to teach courses which are not needed by

I. Don MacLay

vo-tech students to complete their courses at the school, MacLay said.

Tuition rates for the school have been set tentatively, he said. For students living in the district, costs probably will be \$28 per month or \$84 per quarter. Students living in the state but

out of the district probably will be asked to pay \$100 per month or \$300 per quarter and those living outside the state will be assessed \$150 per month or \$450 per quarter.

Persons living in the district help support the school with tax monies, which accounts for the difference in tuition fees.

The 66 high schools in the district are spread across a 222-mile wide area, MacLay said, and include 10 parochial high schools as well as 56 public high schools.

About 48 per cent of the 1967 graduates in the district are presently enrolled in two-year or four-year college courses, MacLay said, but figures from previous years show that only about half of those will graduate.

"Our high schools do an excellent job in preparing our students for college," MacLay told the Kiwanians, "but we do not plan to go to college."

In a group of 10 fifth grade students, only seven will be graduated from high school; only two will attend college and only two of those will receive degrees, MacLay pointed out, saying that up to now schools are preparing 90 per cent of the students for only 20 per cent of the jobs.

The northeast section of Nebraska now is the only part of the state without vocational-technical training, but with the building and operation of the NE Tech School, this will be remedied.

In December, school officials plan to hire 30 consultants to conduct a survey among employers in the district. These students would have a training period then go into the field to interview employers regarding the number of job openings and

Bond Election at Winside

Winside voters in school District 95R will vote Dec. 3 on a \$495,000 bond issue related to building a proposed new elementary school building in Winside. Voting will take place in the Winside Auditorium from 8 a.m. until 8 p.m.

Winside School Board members met Nov. 4 with Attorney John Addison, Wayne; representatives from Dana Larson Roubal and Associates, Omaha; and fiscal agent Mike Vanhorn, Omaha, to finalize legal aspects of holding the bond election.

Qualified voters must be 21 or older; must have resided in the District 40 days; and must have real or personal property assessed in the District at the last time of assessment, or children of school age residing in the District. Voters do not have to be registered. (Those finding it necessary will be able to pick

up absentee ballots at the School Superintendent's office.)

Preliminary plans for the proposed elementary building provide 30,550 square feet of floor space. It is thought the cost would be \$18 a square foot. The bond issue, if passed, would also provide funds to be spent on site improvements, kitchen equipment, library equipment, stage lighting and rigging, architectural fees and a contingency fund.

Nominate F. Haun For NSEA Office

Francis Haun, superintendent of Wayne schools, has been nominated for president-elect of the Nebraska State Education Association by the group's nomination committee. The committee, composed of representatives of each of the six NSEA districts, also nominated Bob Christie, Omaha teacher, for the post.

Voting on the association president and president-elect will be done during the two-day NSFA delegate assembly Dec. 6-7 in Lincoln.

Resolutions to be voted on by the delegate assembly include: Legislation favoring mandatory school district reorganization, support of a pupil-teacher ratio no greater than 25 to one in the elementary school and no greater than 125 for teachers of academic subjects at the secondary level, adoption of grievance procedures by the NSEA local affiliates and continuation of federal support for education.

BILL SCHNOOR was part of a crew getting the Christmas decorations in place on Main Street Wednesday morning. The gaiety and warmth reflected by the decorations will soon illuminate "Main in Wayne" for the season.

To Publish Early

To insure delivery of the Thanksgiving day issue of the Wayne Herald, the newspaper will be published a day early. It will be printed and mailed on Tuesday, November 25, rather than on the usual Wednesday.

Persons wishing to have news or ads included in this issue should have copy in the Herald office no later than Monday morning.

Winside's Club Cancels Dinner

Winside's Community Club has cancelled their regular Nov. 25 dinner meeting at Trinity Lutheran Church and will instead meet at the city auditorium on that date at 8 p.m. to discuss the new elementary school building program.

Representatives from Dana Larson Roubal and Associates, Omaha, fiscal agent Mike Vanhorn, Omaha, and the school administrators all plan to be present to answer questions and inquiries.

The Club's Board of Directors urge all members, wives and the public to attend.

The next meeting for the Community Club will be Dec. 16 at Trinity Lutheran Church.

TROPHY WINNERS. Three men received trophies for their work in the hog industry. Winners announced Sunday night at the Northeast Swine Association banquet were (from left) Curtis Papehausen, Coleridge, Pork Chop Award; Dick Sorenson, Wayne, Pork Builder Award; and Eugene Sohler, Laurel, Pork Booster Award. Presenting the trophies was Gene Williams, farm service director of WJAG radio in Norfolk.

Jeep Need for 'Teahouse' Solved with Grunts, Tugs

The need for an old army jeep was one of the problems facing the cast of "Teahouse of the August Moon," the play recently presented by The Plains

of WRS. After an SOS printed in The Wayne Herald, a jeep was located that could be used, but another problem faced the cast—

how to get the vehicle on stage. Stripped of its motor, transmission and wheels, the jeep was turned on its side and edged through the south door of the high school, brought to the stage where it was re-instated with its wheels and put on stage for use in the play.

Ample muscle-power was needed for all phases of the move, as shown in the accompanying pictures.

EASY NOW! Coming through the south door into the commons area, the jeep is maneuvered in by students with the aid of student teacher Monte Smith and shop teacher William Wilson.

NOW FOR WHEELS. The jeep, resting on its side reaches the lecture hall in front of the stage. Shown in the picture are Bob Pfeiffer, Terry Pfeuffer, Tom Victor, Jerome Vrtiska, Doug Nelson, Dan Roberts, Dave Tietgen, student teacher Monte Smith, and shop teacher Mike Mallette and William Wilson.

DOWN IT GOES! With wheels on, the jeep is ready for the play. Visible are Alan Thomson, Roger Hammer and Dave Tietgen.

ALL IS READY. Part of the cast poses on the jeep in rehearsal on stage. Left to right, Steve Sincic, Jeff Sincic, Jana Reeg, Jerome Sahr, Ken Seymour and Larned Siftch.

the qualifications necessary to fill the job satisfactorily.

Nothing has been set for construction schedules for the new school. Architects have been hired and are now working with board members to determine certain basic needs of the plant. Land for the school has been purchased just west of the State hospital and east of the flood control project; the district has a bank account and about \$800,000 invested and earning money to apply on the new building. Already more than \$10,000 have been received in earnings on the investments.

The money came from a \$100,000 matching fund given by the state and funds raised by taxation in the district. To date about \$705,000 has been

raised by taxes. Next year at this time, Maclay said, the district should have about \$1,500,000. No bond issue is planned to raise funds for the school, he explained, for the board felt sufficient money could be raised by the one and one-half mill levy.

In 1966 the district had a valuation of \$440,000,000. In 1967 the valuation increased by \$90,000,000.

Student housing is planned for the time when a specific need can be shown.

Counties included in the district are Antelope, Boyd, Burt, Cedar, Cumby, Dixon, Holt, Knox, Madison, Pierce, Stanton, Thurston, Wayne and Wheeler.

Other counties, not presently in any vo-tech district, may join by petition providing the county adjoins another county already in the district.

Maclay emphasized that the new school does not plan to replace college or discourage students from attending college. Its purpose is to provide training for students who do not plan to attend college.

The district presently has a levy of 1.5 mills and can levy up to two mills including monies needed to pay debts and interest as well as operating costs.

Manufacturing Held Important Place in Early Dixon County

Manufacturing made a very substantial contribution to the economy of Dixon County prior to 1900. At one time seven flour mills were in operation. Local sawmills produced much of the lumber used in construction and there were brickyards at several locations in the county. Several creameries produced butter and cheese.

The production of sorghum molasses was quite common in pioneer times. The largest sorghum producer in the county was T. J. Ryan. The annual output of his plant was about 5,000 gallons.

One by one the manufacturing plants in Dixon County closed as modern transportation methods increased the quantity of supplies that could be shipped in. Now with the exception of the egg processing plant in Wakefield there is little manufacturing done in Dixon County.

EDITORIAL COMMENT

The editorial department of a weekly newspaper is an important department. Normally it is one person's opinion of topics that concern most of the readers. It is the duty of an editorial writer to search all available facts before he sits down to write. From this basis the writer should be able to give a clear picture of important topics.

Only a Father Knows

An Omaha father, having buried his 21-year-old son, also attended the funeral of his son's war buddy. Following are the touching comments of the father, Max S. Caldwell.

"On May 21, I buried my 21-year-old son, Larry G. Caldwell. Today, I attended the funeral of his buddy, Jim Fous. These boys stood in line together at the induction center, and their serial numbers were one number apart. Larry, my only son, died from a wound acquired due to an ambush. Jim died from a mine. Larry spent six weeks in Vietnam, Jim only two weeks. They were in the Ninth Infantry.

Larry

Only a father knows the love a father has for his son, and only a father who has lost his son understands the grief in his heart and the sickness in his stomach. Each day, no doubt, will be a little easier, but the nightmare we have gone through will never be forgotten.

Nothing will bring my son back. I have nothing to gain, I want nothing from anybody or the Government, but maybe I can help you save your son and America.

First of all, it is to be understood I consider myself an American without exception. They tell me my family has been in this country 150 years, and all have been loyal, patriotic citizens. Tears come to my eyes every time our national anthem is played and our flag passes by. I am a World War II veteran and spent two years overseas. Now, I'd like to sound off!

Why do we put up with this nonsense in Vietnam? We are the strongest country in the world, but we're going down the drain, both our wealth and our finest boys.

This business our newscasters give us that the enemy lost one thousand men and we lost only two hundred, with the notion we win, is nonsense. We won what? How can you fight a limited war? It wasn't limited for us. We gave our son, and you may give yours, too!

If we're out to stop communism, let's get on with it. If our political leaders do not have the courage to make a decision, they should resign. An immediate decision should be made whether we should stay there or not. If we are to stay, full authority should be given the military to win! If they think invasion or bombing of the North is the answer to winning, let's do it!

Too many good Americans are so content with status quo that they'd rather have their son chance being killed than to rock the boat. After this happens, you'll wish you had stood up to be counted

You may not agree with an editorial but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

among those who disagree with what's going on. Our President, if he had the wisdom and courage, should offer an ultimatum to the Commies at the peace talks to get out of South Vietnam by a given time, or we're going to bomb Hanoi for keeps.

Right now, some Americans are living high on the hog without inconvenience in any way due to the war in Vietnam, while others live like animals and are being killed. This isn't fair. If we are at war, all should share and suffer in it together. A 100 per cent effort should be made by all of us to bring the conflict to a conclusion.

Why do we let a pig-squeak nation like Vietnam make a clown out of us? Sure, I'm bitter, and you had better be, too! There is a limit to how much even America can stand."

An editorial "thank you" to Max Caldwell for permission to reprint his stirring remarks. May his words cause each of us Americans to once again evaluate the price being paid in Vietnam. —MMW.

Cause for Complaint

Perhaps you may have seen one of the little signs hanging around which says: "Never have had so much and complained so loud."

Think about this for a moment and realize its gems of truth!

Never have we had so much crime and violence with so little effort on the part of the Administration to curb it. Never have the American people had so much to fear in the streets and paid so heavily for crime.

Never have we had so long a war, with so many casualties and so little achieved in the way of victory. Never have we entered a war in which we advised the enemy in advance that we did not intend to win it.

Never have we had so much inflation in so short a time, with so much talk and so little action. Never have we had such big spenders in control of government with so little concern for the little people and their paychecks and pension checks.

When have we ever paid more for stamps and mail service only to have the Postal Department stink deeper into the glow of fiscal red?

The USS Pueblo had barely been seized by the North Koreans on the high seas last January 23 when Secretary of State Dean Rusk, presumably outraged, demanded "prompt release of the ship and crew". Never have we had so much waiting, and waiting and waiting.

Have we ever had so much secrecy in government, so much deceit, so much deception and so much double-talk from an Administration? Never have we had a rural depression in the midst of rising national production such as we have now.

Has there ever been a time before when we had an Administration willing to reduce our defenses to mere "parity" with the enemy rather than superiority? When has there been so much movement and so little progress, so much promise and so small a performance?

In these respects it's true, we've never had so much, so much to complain about that is. Hopefully, important changes will be made come January. —MMW.

IT'S A MATTER OF LIFE AND BREATH

The judges were not too sure the voters should have a direct vote in tax matters.

The two judges who dissented from the majority view were convinced it was dangerous for the people to have the power to bypass the legislature on revenue questions.

Justice John F. Newton put it this way:

"The truth of the statement that 'the power to tax is the power to destroy' is unquestioned. Conversely, the power to prevent taxation is just as surely the power to destroy government."

Newton said if the initiative process is "construed to permit the abolition of all taxes for state purposes, it is obviously in conflict with large segments of the State Constitution. The constitution contemplates a working government duly financed by revenue derived from taxation. Without such revenue, the entire government would be brought to a standstill and rendered inoperative."

The other dissenter, Judge Harry A. Spencer, said there were three major areas for states to use in taxation—property, income and sales. An initiative-sponsored amendment outlawing the property tax was passed in 1966.

Judge Spencer said if the anti-income tax proposal had also been adopted only sales tax would remain. "Is the sales tax sufficient to sustain a republican form of government?" he asked. "I don't believe it is without raising the rate so high it would be oppressively burdensome."

He concluded the initiative process should not be used to limit the power of the legislative branch of government to provide for the proper financing of state government.

The majority opinion, written by Judge Hale McCown, said the issue was not before the court in the case, but added: "The power to tax is essential to the continued existence of a state. A constitutional amendment which would destroy or completely emasculate that power might well be itself unconstitutional." Carpenter Wants To Find Out. Sen. Terry Carpenter of Scottsbluff said he wanted to know if what the court was really saying was that the 1966 amendment banning the property tax was invalid because it was proposed by initiative petition.

Carpenter said he would seek to have the legislature order Atty. Gen. Clarence Meyer to find out if he could.

Perhaps the only way to do so, Carpenter said, would be for the 1969 unicameral to pass a law putting the state in the property tax field—and then have the constitutionality of this act challenged in the courts.

Four Proposals Rejected. There were 17 proposed amendments on the general elec-

tion ballot this fall. The voters rejected four.

One was the anti-income tax amendment—which received what was described even by its opponents as an amazing thumping. The margin was more than 100,000 votes.

Although the margin was much closer, the voters refused to accept the amendment which would have lowered the voting age to 19. Also losing were proposals to create a public corporation to deal with electric power matters and to allow the legislature to classify personal property and grant exemptions.

Among those which passed were amendments permitting highway revenue bonds and raising the salaries of the legislators.

Feeding Club Calves

A calf's ration is its daily diet—should contain only clean, high quality ingredients that a calf will want to eat. Home grown or locally produced feeds should be used when available to help reduce the feed bill.

Salt, minerals and clean water should be available to the calf at all times. The ration should be a simple one that contains the fewest number of ingredients that will adequately meet the goals set forth for the calf being fed. This rule applies to all market calves—including those being fed for show. Some 4-H'ers have been led to believe that show calf should be fed a complex ration. Complex rations are not only unnecessary but are often expensive and difficult to balance.

The feeding program for any calf should be divided into two phases: growing and finishing. During the fall and winter, a calf should grow in size by developing skeleton and muscle but put on very little fat. This requires a high protein roughage and a limited amount of grain, or a low protein, roughage, balanced with a protein supplement and a limited amount of grain. A growing ration developed within these broad guidelines will enable an average feeder steer to gain about 1.4 pounds per show calf should be fed about 1.5 pounds. Heifer calves of comparable gaining abilities should average about 1.2 and 1.3 pounds respectively.

Each calf should receive 10,000 units of supplemental vitamin A

per day while on a growing ration. It may be included in a protein supplement or mixed and fed with grain.

During the last phase of the feeding period, the calf should be full-fed a high energy ration. Such a ration contains not only the balance of nutrients necessary for continued normal growth, but also extra energy for the calf to fatten properly.

Whenever possible, the finishing ration should make maximum use of good quality grain and roughage (hay or silage) produced on the club member's farm or in his community. A calf being full-fed on a finishing ration will consume about two pounds of concentrate per day for each 100 pounds of body weight, plus a limited amount of roughage. The concentrate includes grain or commercial fattening mixture and a protein supplement, if needed.

Comparing product costs at the supermarket may be easier by 1969. In the name of "Truth-in-Packaging" law, the U.S. Dept. of Commerce has persuaded fourteen industry groups to cut package variations from 289 to 104. Some 65 other industries are working on similar changes.

Among planned reductions are package sizes, from 57 to five sizes; green olives from 50 to 15; cooking and salad oils from 15 to seven; dry detergents from 24 to six; cereals from 33 to 16

and dried milk from 20 to 10 sizes. Dry cereal manufacturers will drop fractions from package sizes given in ounces. In the cosmetics field, "truth" in packages will not come so easily. For many buyers of beauty aids, truth is not what they want; it is what they want to cover up. The industry complained loudly about the problems for label changes under the packaging law that they have been delayed for one year. None of the proposals would require a listing of ingredients. If that happened, women might find that the ingredients of cosmetics in the variety stores or supermarkets are virtually the same as those found in expensive stores masquerading under fancier names.

Included are Delnav; Indane; malathion, methoxychlor, Sevin, toxophene, Korlan and rotenone.

Constitution Amendments Committee Is Suggested

LINCOLN — Nebraskans have recently completed a re-appraisal of their basic legal document—the State Constitution—and accepted 13 proposed changes. There has been considerable discussion in recent years about the wisdom of piecemeal amendments routed to the ballot every

general election by the legislature or by the people, through petition efforts. In 1967, a bill to call a constitutional convention and give the constitution a thorough review was defeated on final reading by a 24-25 vote. There have been bills introduced in every session since 1947, except for

1965, proposing such a convention. They all failed. After the defeat of the bill last year, the senators decided to have a Legislative Council committee spend the between-sessions period studying the question. That committee, under the chairmanship of Sen. Elvin Valentine, submitted a report to the council recommending, not a constitutional convention, but the creation of a constitutional commission. This commission, according to the committee's proposal, would make a thorough study of the constitution and the need for revision thereof, and that said commission would report back to the legislature no later than one year following the adjournment of the 1969 session with its recommendations of those changes which should be made in the constitution. The Adamson committee did not recommend how the commission should be organized, but it did propose a representative group "with membership including legislators, executive officials and representatives of the judiciary."

In addition, the committee said, "leading citizens and representatives of the bar probably also would be included." When the unicameral received the commission's report, the senators could decide which of its recommendations to pass along to the voters for the final word. Revenue and Petitions Among the matters the Adamson committee said should be investigated by the commission is the apparent authority granted to the citizens now to initiate through petition campaigns amendments dealing with revenue.

This same question was raised recently by the State Supreme Court in the opinions it handed down on the anti-income-tax petition drive. The five-judge majority said the petition effort had succeeded in filing enough valid signatures to qualify its proposed amendment for the general election, but the majority opinion hinted

THANKSGIVING FOODS

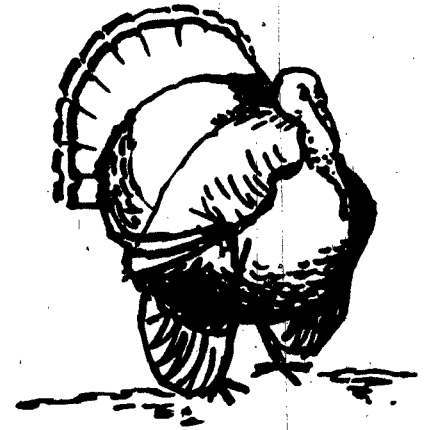

TURKEY

THE DAY AFTER

by Betty Stern
Farm & Home Food Consultant

After that big Holiday dinner there'll be some extra turkey for one or two delicious "planned-over" meals.

As soon as possible after that first feast, remove all meat from the turkey and wrap in meal-sized units to fit your family. Stuffing should be stored separately. Use gravy and stuffing within 2 days, and then heat thoroughly before serving. Serve cooked turkey meat within 2-3 days after roasting or wrap some turkey meat for freezing and plan a small supper party around it a week or so later when you're ready for a second feast. **Wild Rice Turkey Casserole** or **Hot Turkey Salad Loaf** make festive meals for entertaining.

HOT TURKEY SALAD LOAF

(Make many hours ahead, topping last minute)

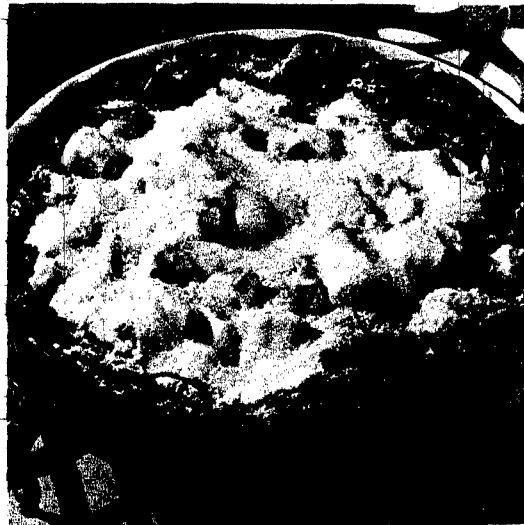

- | | |
|--|------------------------------------|
| 1 1-pound loaf day-old bread, unsliced | 2 teaspoons chopped onion |
| 1 tablespoon soft margarine | 1½ teaspoons chopped parsley |
| 1½ cups chopped, cooked turkey | ½ cup mayonnaise or salad dressing |
| ¾ cup finely chopped celery | ¼ teaspoon salt |
| | Dash pepper |

With a sharp knife, remove the crusts from a loaf of bread to make an even, box-shaped loaf. Cut a lengthwise slice from the top. Hollow out the center of the loaf, leaving sides and bottom at least ½ inch thick. Spread margarine on inside walls of the cavity. (Save center of loaf for bread crumbs or stuffing). Combine turkey, celery, onion, parsley, mayonnaise, salt and pepper. Fill center of the loaf of bread with turkey salad. Cover with top slice of bread. Wrap loaf with heavy waxed paper and chill in refrigerator for six hours. To complete savory turkey salad loaf, unwrap and spread top and sides of loaf with topping mixture.

LOAF TOPPING

- | | |
|------------------|-----------|
| 2 egg whites | Dash salt |
| ¼ cup mayonnaise | |

Beat egg whites until stiff; fold in mayonnaise and salt. After spreading loaf with topping, place on a cookie sheet and brown in a hot oven (450°) for ten minutes. Serve hot and cut crosswise into six sections.

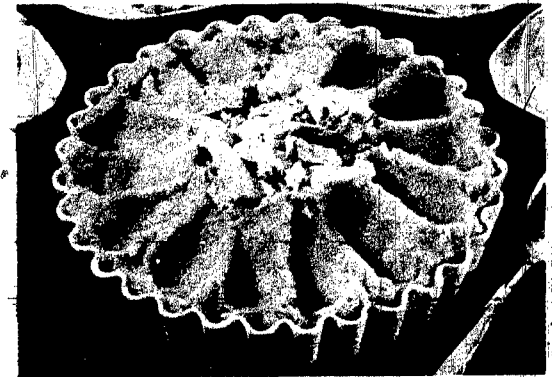

TURKEY AND GREEN BEAN PARMESAN

- | | |
|---|----------------------------------|
| 2 packages frozen, French style Green Beans | 1½ cups milk |
| 3 tablespoons margarine | ½ cup mayonnaise |
| 3 tablespoons flour | Grated peel and juice of 1 lemon |
| ¼ teaspoon salt | 2 cups cubed, cooked turkey |
| Dash pepper | ½ cup grated Parmesan cheese |
| ¼ teaspoon prepared mustard | |

Cook green beans according to package directions; drain. Melt margarine in saucepan. Blend in flour, salt, pepper and mustard. Add milk and cook, stirring constantly, until smooth and thickened throughout. Remove from heat; fold in mayonnaise, lemon peel and juice. Stir in turkey. Spread green beans in bottom of shallow baking dish. Pour in turkey sauce mixture. Top with Parmesan cheese. Bake in a 350° oven for 30-40 minutes. Makes 6 servings.

QUICK DISH

Lay slices of leftover turkey on toast, add a slice of tomato, then a slice of cheese. Broil till cheese melts, top with canned mushroom soup.

LOUISIANA YAM TURKEY CASSEROLE

- | | |
|-------------------------------|---------------------------------------|
| 3 cups mashed cooked yams | 4 eggs, separated |
| 1 teaspoon grated orange rind | 2 tablespoons chopped canned pimiento |
| 1 tablespoon orange juice | ¼ cup melted margarine |
| ½ cup flour | 2 cups chopped cooked turkey |
| | ½ teaspoon salt |

Combine yams, orange rind, orange juice, flour, egg yolks and pimiento; blend. Beat egg whites until stiff; fold into yam mixture. Spread over bottom and sides of lightly greased shallow baking dish. Combine margarine, turkey and salt; mix well. Arrange in center of yam mixture. Bake at 350° for 1 hour, or until lightly browned.

SKILLET TURKEY AND STUFFING

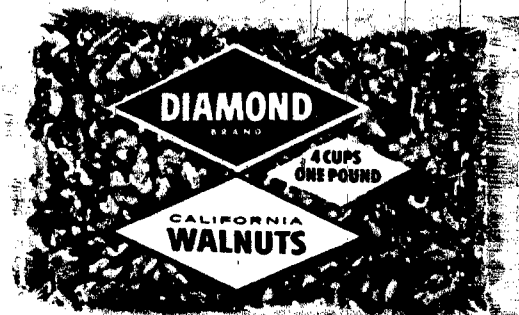

- | | |
|-----------------------------|--------------------------------|
| ½ cup diced onion | ½ cup chopped celery |
| ½ cup diced green pepper | 3 tablespoons chopped pimiento |
| 3 tablespoons margarine | ½ teaspoon salt |
| 3 cups diced cooked turkey | ¼ teaspoon pepper |
| 3 cups baked bread stuffing | 1 cup turkey broth |

Saute onion and green pepper in margarine in a large skillet until tender. Add turkey, stuffing, celery, pimiento, salt, pepper and turkey broth. Mix lightly. Heat over medium heat until brown on both sides, turning often. Serve with gravy or mushroom sauce, if desired.

PEACH OR APPLE KUCHEN

2½ cups unsifted flour
1 package active dry yeast
½ cup sugar
½ teaspoon salt

¼ cup water
¼ cup milk
½ cup margarine
3 eggs

Measure flour. Thoroughly mix undissolved yeast with ¾ cup flour, ½ cup sugar, ½ teaspoon salt. Heat water and milk with margarine over low heat until warm. (Margarine does not need to melt). Add liquid mixture to dry mixture. Beat for 2 minutes at medium speed of electric mixer, scraping bowl occasionally. Add about ½ cup flour, or enough flour to make a thick batter. Add 3 eggs. Beat on high speed for 2 minutes, scraping bowl occasionally. Stir in additional flour required and mix well. Spread in well greased 9-inch square pan. Arrange Peach Topping (below) on top. Cover; let rise in a warm place, free from draft, until doubled in bulk, about 1 hour. Bake at 375° about 40 minutes, or until done. Turn out of pan and cool on wire rack.

PEACH TOPPING:

Arrange 2½ cups sliced peaches, well-drained, on top of batter. Combine ½ cup brown sugar, 1 teaspoon cinnamon and sprinkle over peaches. Sprinkle on 2 tablespoons of melted margarine.

APPLE TOPPING:

Arrange 2 cups apple slices on top of batter. Mix together until crumbly ¾ cup sugar, 6 tablespoons margarine, ½ cup unsifted flour, 2 tablespoons cinnamon. Sprinkle over apples.

CINNAMON SPIRAL BREAD

5¼ to 5½ cups flour
1 package active yeast
2 cups quick-cooking rolled oats
¼ cup brown sugar, packed
1 tablespoon salt

1 cup raisins
2 cups milk
½ cup water
2 tablespoons margarine

Measure flour. Thoroughly mix undissolved yeast with 2 cups of flour, rolled oats, brown sugar, salt and raisins. Heat milk and water with margarine over low heat until warm. (Margarine does not need to melt). Add liquid to dry mixture. Beat for 2 minutes at medium speed of electric mixer, scraping bowl occasionally. Add about ½ cup flour or enough to make a thick batter. Beat on high speed 2 minutes, scraping bowl occasionally. Stir in additional flour required. Mix by hand. Turn onto lightly floured board. Knead until smooth and elastic, about 5 minutes. Round up in greased bowl; bring greased side up. Let rise in warm place until double in bulk, about 1 hour. Divide dough into two parts. Round each part into a ball. Roll each into an oblong, 15 by 8-inches. Sprinkle with all except 2 tablespoons of the mixture of ½ cup sugar and 2 teaspoons cinnamon. Roll up like jelly roll, sealing tightly at the ends. Place in greased loaf pans (two 9x5x3-inch). Again let rise until almost double in bulk, 40 to 50 minutes. Bake at 400° for 35-40 minutes. Brush top of hot bread with corn syrup and sprinkle with rest of cinnamon-sugar mixture.

CHOCOLATE CHIP COFFEECAKE

3 cups unsifted flour
2 packages active dry yeast
½ cup sugar
1 teaspoon salt
½ cup milk

½ cup water
½ cup (1 stick) margarine
2 eggs, beaten
½ cup semi-sweet chocolate morsels

Measure flour. Thoroughly mix undissolved yeast with 1 cup flour, ½ cup sugar, 1 teaspoon salt. Heat milk and water with margarine over low heat until warm. (Margarine does not need to melt). Add liquid mixture to dry mixture. Beat for 2 minutes at medium speed of electric mixer, scraping bowl occasionally. Add about ½ cup flour, or enough flour to make a thick batter. Add 2 beaten eggs. Beat on high speed for 2 minutes, scraping bowl occasionally. With spoon, blend in remaining flour and morsels. Turn into well-greased 10-inch angel cake pan. Sprinkle with Topping (below). Cover; let rise in warm place, free from draft, until doubled in bulk, about 1 hour. Bake at 400° for 35 minutes, or until done. Turn out of pan immediately; let cool on wire rack.

Fruit cakes of every sort, no two alike in all ingredients, are popular throughout the year but especially at holiday time. Fruit cakes, heavy with fruit and laden with nut meats, with the pungent aroma of cider, fruit juices and spices, fill the house with expectant pleasure. They make welcome gifts as they are easily mailed, travel well, and are fresh and whole even after a long trip overseas. Flavor improves with keeping. *continued*

Spoon into prepared pans filling about ¾ full. Bake at 375° about 15 minutes or until the little cakes test done.

| ½ cup margarine | 1 teaspoon vanilla |
| 2 tablespoons flour | ½ teaspoon brandy extract |
| ½ teaspoon salt | Red and green food coloring |

GRASSROOTS GLEANINGS

by Bill Steiner

"Some cars have fluid drive, others just have a drip at the wheel," comments *The Sisseton (S.D.) Courier*.

One good thing about silence is that there is no harm in repeating it, says *The De Smet (S.D.) News*.

The Times Record of Aledo, Ill., says, "There has never been a person with an inflated ego who wasn't full of hot air."

"There are about 25 million dogs in the United States," reports the *Winner (S.D.) Advocate*. It is no wonder that the shrubbery has such a tough time of it.

The Tell City (Ind.) News claims, "Some people's finances are in such a mess you'd think they were getting advice from the government."

This one comes from the *Wayne County Press of Fairfield, Ill.*:

At a party two gentlemen were having a conversation about the charms of Sophia Loren.

"I say you overestimate her," said one. "Take away her hair, her eyes and her figure, and what do you have?"

"My wife," said the other.

The New Town (N.D.) News tells of the man who was buying ice cream for his children. "What flavors do you have?"

Waitress (in a hoarse whisper): "Vanilla, strawberry and chocolate."

Customer (trying to be sympathetic): "Do you have laryngitis?"

Waitress: "No, just vanilla, strawberry and chocolate."

The Dearborn County Register of Lawrenceburg, Ind., tells about the two camels who were walking across the desert, when one said to the other, "I don't care what they say about camels, I'm thirsty."

From *The Northwest Blade of Eureka, S.D.* comes this one:

A little boy attending his first wedding asked his mother why the bride was dressed in white?

"Because," answered the mother, "white stands for beauty and joy."

"Then why," asked the youngster, "is the groom dressed in black?"

"A pessimist," according to *The West Bend (Wis.) News*, "is a guy who sizes himself up and gets sore about it."

In the same vein, *The Mackinaw Valley News of Minier, Ill.*, says, "Open-minded or empty-headed—it depends on whether you're defining yourself or someone else."

"Money isn't everything, but it sure keeps you in touch with your children," laments the *Weekly Valley Herald of Chaska, Minn.*

The Kendall County News of Plano, Ill., defines politics as the fine art of passing the buck after passing the hat.

The Clay City (Ind.) News speculates, "Maybe the reason a dog has so many friends is that it's tail wags instead of its tongue."

When all is said and done, according to *The Tell City (Ind.) Thursday News*, the wife has said it and hubby has done it.

SKIPPY, DUFFY, SHEP, ROVER—THEY'RE ALL HERE!

4,000 GRAVES... IN A MAN'S BACK YARD!

Max and Elda Fischer of Florissant, Mo., have one of the strangest back yards in the world.

The superstitious never take a shortcut through it, especially after dark. If departed pets have ghosts, Max and Elda will see a lot of ectoplasmic apparitions, for nearly 4,000 pets are buried in their yard.

Until recently, each grave of a pet was individually marked, but now they are running out of space.

Each tiny grave is the last resting place of a pet. Dogs predominate, with cats next. Then monkeys, rabbits, parrots, canaries, parakeets. Oh, yes, and one lone guinea pig!

"Tears and sobs are nothing new here," said Mrs. Elda Fischer.

That is easily understandable. People love their pets. It makes little difference whether the pet is an alley pup, or a cat that costs hundreds of dollars.

When the owner is a child, the lament is even worse.

Max and Elda Fischer, who have been burying pets for over a third of a century, speak with authority.

"Now take Mrs. Brown," Max said. "That isn't her real name, but she has two Pekingese dogs buried here. She has a will. When she dies, her own ashes go next to her pets. Over there!" He pointed at the spot. "I'm not enthused about that, but what can I do?"

Fischer makes his own caskets, digs many of the graves.

If they want a fancy job, he'll provide it.

The pet can be embalmed, if desired. When this is requested, he calls in a veterinarian.

There are famous dogs buried here, alongside the mutts.

Monte, son of Lassie, for instance.

Max walked over to a grave marked Skipper. "This dog's master was an Air Force Major," he explained. "He took the dog with him on world-wide flights. When Skipper died, he shipped the body here for burial. Does he visit? Each time he is in the vicinity!"

Over-sentimental? Max shrugged. Since the world began, dogs have always ranked as man's best friends.

Name any breed of dog, and Max will point out a grave: Boxers, Chihuahuas, Afghans, Shepherds, Cockers, Dobermanns, Pekingese, and plain mutts.

"Do they ever bring a pet in an ambulance?"

He nodded in the affirmative. "Sure! Quite often, in fact. Sometimes a child will have it no other way, so the parents at last give in."

Some of the pet graves contain dogs buried in metal coffins, enclosed in concrete vaults.

People bring pets to Fischer's cemetery from great distances. Sometimes he is called late at night to pick up the body of a pet.

And very often some child is in the background, trying to keep back the tears.

"May we come to the funeral?" is a question he is often asked.

Fischer smiled tolerantly as he told of an out-of-town minister who insisted he preach a funeral oration for his pet.

"That pooch got a better eulogy than do some humans!" Max said, remembering.

Sometimes the sorrowing is in reverse. Max pointed to a grave marked Duffy. "He belonged to a noted surgeon who died quite suddenly. The dog went on a hunger strike at the loss of its master, and died within weeks."

Stretched through the yard, at intervals, are more elaborate stones, some of granite.

"Pets of wealthy people?" Max was asked.

"Just the opposite," he said quickly. "The real dog lovers are simple folk, more like you and me."

That was comforting as well as enlightening.

A man, woman and two children walked into the yard at this moment. The children carried flowers for the grave of their pet.

Max smiled. "I suppose I've made some of the smallest coffins in existence," he said. "Love-birds aren't very large, you know."

Children flock to this cemetery at two specific seasons of the year — on Memorial Day and during the Christmas holidays.

Fischer draws the line as to the size of pets. No ponies, for instance, or any pet larger than a dog.

"What would you do?" he questioned, "if someone called up and said his pet elephant needed interment?"

Visiting here, one is very conscious of one quite noticeable fact: Dogs are still man's best friends. The 4,000 graves here prove it!

FARM AND HOME READERS ARE Going to Hawaii

by Jerry C. Curren, Editor

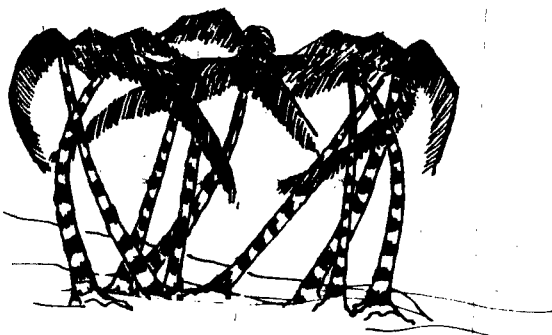

For the best tour price available, Farm and Home is announcing its yearly Hawaiian vacation for mid-western Farm and Home leaders. It will be fifteen days of surf and sand . . . rest and relaxation . . . beautiful days and gorgeous nights with people you will enjoy being with!

The tour will depart California in February, May and August.

We found last year that people like to be treated as individuals and not as members of a herded tour society, so this year's tour will be conducted just like last year. However, if there are some of you readers who don't want to go with anybody in a group, we can arrange that too on an individual tour basis to Hawaii leaving any time you so choose.

Send for your free brochure to find out how Farm and Home and Pan American Airways are going to

be exploring Hawaii together this winter. We'd love to have you with us. Remember you can go any Saturday you so desire and Farm and Home will take care of all arrangements to and from. Send for your brochure today. Clip and mail the coupon appearing on this page.

**MRS. MARTIN'S
\$401.37
SURPRISE**

READY TO GO HOME, MRS. MARTIN? WELL, HERE'S YOUR HOSPITAL BILL, YOU FOLKS OWE US \$401.37...

BUT WE HAVE MEDICARE! HOW CAN WE OWE SO MUCH?

WELL, MRS. MARTIN, GOOD AS MEDICARE IS, IT DOESN'T PAY YOUR ENTIRE HOSPITAL BILL. HERE, LET ME SHOW YOU...

UNDER MEDICARE, YOU MUST PAY THE FIRST \$40 OF YOUR HOSPITAL BILL YOURSELF!

AND YOU MUST PAY 40 FOR EACH DAY AFTER 90 DAYS. YOU WERE HERE 73 DAYS - SO THAT'S ANOTHER \$280 YOU OWE US!

THEN YOU OWE FOR THE EXTRA COST OF A PRIVATE ROOM FOR 10 DAYS - AND A PRIVATE NURSE FOR 5 DAYS. IN YOUR CASE, THAT COMES TO \$67.50.

AND OF COURSE, THERE ARE MANY INCIDENTAL EXPENSES NOT COVERED BY MEDICARE. THESE CAME TO \$63.87. THAT MAKES \$401.37 YOU OWE THE HOSPITAL.

OH, MY!

BUT WHAT ABOUT MY DOCTOR BILLS?

YOU'LL HAVE TO SETTLE THOSE YOURSELF. EVEN IF YOU ARE ENROLLED IN THE MEDICARE MEDICAL PLAN YOU STILL MUST PAY THE FIRST \$50 OF YOUR DOCTOR BILLS AND SURGEONS' FEES - PLUS 20% OF ALL OTHER MEDICAL BILLS. THAT COULD EASILY BE ANOTHER \$100 YOU HAVE TO PAY... MORE THAN \$300 IN ALL!

OH JOHN, WHERE WILL THE MONEY COME FROM?

DON'T WORRY, MARTHA! I'VE GOT A SURPRISE FOR YOU. REMEMBER THAT AMERICARE® "DIRECT CASH" PLAN WE TALKED ABOUT BUYING A FEW MONTHS AGO? WELL, I BOUGHT IT!

REALLY, JOHN? THEN YOU MEAN...

YES, DEAR, OUR AMERICARE "DIRECT CASH" PLAN PAYS US \$157.50 FOR EVERY WEEK YOU'VE BEEN IN THE HOSPITAL. I JUST FIGURED IT OUT... WE CAN PAY ALL OUR HOSPITAL AND DOCTOR BILLS - AND STILL HAVE MORE THAN \$1,000 LEFT OVER FOR LIVING EXPENSES!

WHAT A BLESSING! WITHOUT OUR AMERICARE PLAN, WE'D HAVE TO GO INTO DEBT!

YES AND THINK OF ALL THE FOLKS WHO DON'T EVEN HAVE MEDICARE! THEY REALLY NEED AMERICARE!

HOW GLAD I AM NOW, JOHN, THAT YOU MAILED THAT CARD TO AMERICAN REPUBLIC!

Now, regardless of your age, when you are sick or injured...

**COLLECT \$52.50...\$105...OR \$157.50 A WEEK,
JUST LIKE WAGES, WHILE IN THE HOSPITAL**

What if you should wake up to find yourself flat on your back in a hospital bed - and be there for weeks or even months? Think of all the things \$2,000 or \$5,000 or \$8,000 in extra spendable cash, over and above your hospital insurance, could mean.

Cash to make mortgage payments, buy food, meet car payments, pay for child care, school clothes - dozens of expenses!

The American Republic "1-2-3 Direct Cash Plan" can pay you badly needed cash every week you are in the hospital, for up to a full year.

This service of Americare® is designed to go hand-in-hand with Medicare - or any other insurance you may now have.

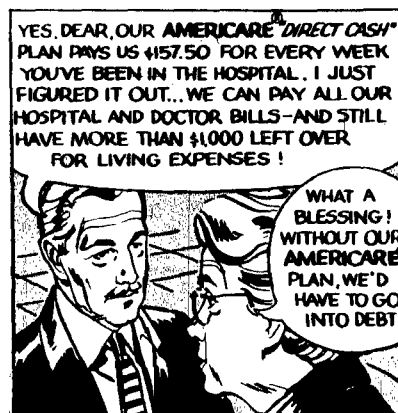

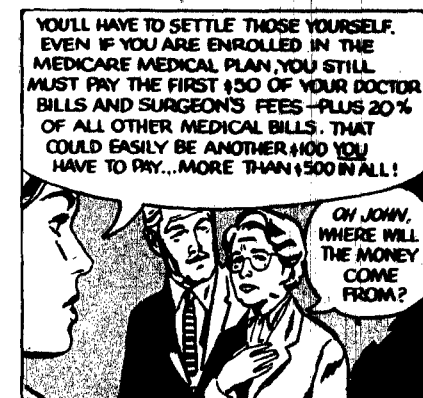

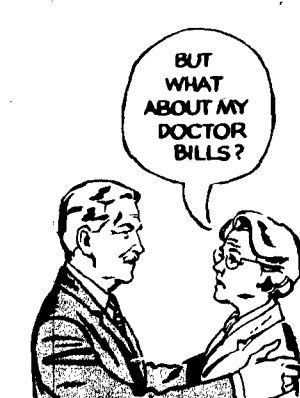

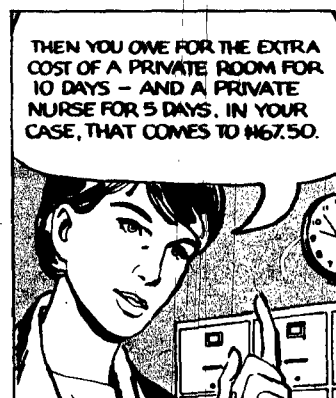

Coverage is available in low-cost individual protection "units." Each unit pays you \$52.50 per week actual cash (at the rate of \$7.50 a day) for every week you spend in the hospital due to accident or illness... \$8,212.50 if you have the 3-Unit Plan and are hospitalized for a full year!

- Cash is paid direct to you. It is yours to spend as you wish.
- It is LifeGuarded® Protection. It is Guaranteed Renewable and can be YOURS FOR LIFE as long as you make timely payment of the current premium. It can never be cancelled because of age, health or number of claims.

Unless, of course, your hospital care is due to war, mental disorder, maternity, dental work or when you are in a U. S. Government or Veterans Hospital.
