In what must have been the longest meeting on record, the cits council Tuesday alght moved one step closer to putting the question of a city complex to the vote of the people.

Council members, meeting until just before 2:00 a.m. Wednesday morning, gave City Engineer Sid Magdanz the authorization to go ahead and make final floor plans and elevation for the city building. These will be sent to the council's building, there will be sent to the council's building committee this week and it can in turn give final okay to the plans.

Chee that's done and the council comes up with some ideas for outside design, the legal gears can start turning so a bond issue can be put before a vote of the city residents.

Sharing honors for the larger schools at the end of the competition were Madison and Pierce, both with 40 points.

No team had an easy time of it in the class B competition we four teams battled during the last few events of the afternoon to deter mine meet champion. Madison led with 30 points following a first-place showing in the 880-yard relay. But Madison runners failed to place in the spirit mediey relay, next to last event of the day, and needed a first in the mile relay to pull down a tie for championship honfirst in the mile relay to pull down a tie for championship honors. They came up with that first place, a near-record run of 3:37.5, just off the meet record set by Tekamah in 1964 of 6.77.4.

Pierce's second-place showing in the day's finale earned it enough team points to pull it into a tle with Madison for meet

honors.
Seribner tallied 38 points in the action for second place, Blair 34 for third place.

Wayne-Kearney Game to Decide **NCC Champion**

Paseball championship of the Nebraska College Conference is the stake when Wayne State and Kearney State clash Saturday. The 1 p.m. doubleheader on the WS diamond stacks up this way; Wayne now is 4-2 in con-ference (12-3 over-all) after a split at Chadron State Tuesday. Kearney, 4-0, is Wayne's only remaining league foe. Chadron is 3-1 and still nurses title hopes. For Wayne, a double win over

remaining league foe. Chadron is 3-1 and still murses tille hopes. For Waxne, a double win over Kearney would guarantee a co-champlonship. Wayne's pair with Chadron produced a strange result—Wayne smashing the Fagles 16-2 in the opener on Jim Rasicot's fourth win, but Chadron rebounding for a 12-4 one-hitter by pitcher Bob Neesen. Jerry Nicolarsen was Wayne's loser this first against two whish before relief by Chris Wickham in the second and Duane Mendlik in the third. Wayne went into the seventhing of the opener with a 6-2 lead, then pounded Chadron with 10 runs, including a grand slam homer by Bill Goodwin. Catcher Gordie Jorgensen also hit a home run and George Jones a triple.

Winside Barbershop Will Open Saturday

Harry Lorenzen, manager of a Norfolk barber shop, has an-nounced he will open the barber shop in Winside on a part-time basis beginning Saturday evening

sharing saturday evening at 6:30 p.m.
Lorenzen plans to have the shop open all day each Monday and also on Saturday nights from 6:30 p.m. on.
He is married to the former Ruth Jaeger, daughter of Mr. and Mrs. Gotthilf Jaeger, Winside, and lives in Norfolk.
Winside has been without the services of a barber since Darrell Holdorf closed his shop to accept a position in Fremont about two weeks ago.

GUESTS FROM GERMANY visiting in the Don Wightman home for several days at 321 West Fifth Street, are, from left, Maroll Mikusch of Dusseldorf and Barbel Henneberg from Dortmund. It is Fraulein Mikusch's first trip to the States. Fraulein Henneberg was in Wayne seven years ago.

German Girls Tour States

Approximately seven years ago Mr. and Mrs. Don Wightman of Wayne were hosts to one of 113 youths from Germany who were brought to America through a program initiated by Kiwanis International. Their guest's name was Parbel Honneberg who was 21 years old and visiting the U. S. for the first time. the first time.

years old and visithly the U.S. Fraulein Henneberg, now 28, and her friend, Margit MiKusch, 23, deelded late last year to make a tour of the States. They arrived in the U.S. early in January and stopped in Wapped, 25 to visit with the Wightmans where they have been guest for the past week.

Miss Henneberg lives in Dortmud, Germany and is employed by the Monsanto Corporation. Margit lives in Dusseldorf and manages a restaurant called "Cafe Bitther". There is no language barrier when visiting with the young fadies as Farbel speaks fuent

There is no language barrier when visiting with the young ladies as Barbel speaks fluent Paglish and Margit is learning. When asked their impression of New York City they didn't think they would want to live there as it is too large will "only people and stones". Though they flew to the U. S. they are taking the bus to the west coast and so far have found "American boys are very polite." "Gasoline is cheaper here," Barbel said Friday as we visited and made contrasts between living costs in Germany and the U. S., "I believe our women's cothes, the material and sizes, are better in Germany," she observed.

Naturally, when visiting with world travelers one eventually gets to the subject of eating and favorite dishes. What is the American food most liked by the two visitors? Both said they especially liked our American steaks...medium well done, "We have steaks in Germany," Barbel remarked, "but your steaks here are so good."

nave steaks in Germany," Bar-bel remarked, "but your steaks here are so good."

Do the young women notice any particular difference in the taste of our drinking water? Yes, there is some difference but they pointed out that water is never served to cafe customers in Ger-many like the traditional class. served to cate customers in Ger-many like the traditional glass of water brought by the watter or waitress in America. "In Ger-many we serve beer," Fraulein MiKusch noted. Both of the Wightman guests

soft of the wignman guest enjoy outdoor sports like swimming and boating as hobbies. Barbel commented that the U. S. has "changed" since the last time she was here seven years ago. "Germany was behind seven years ago, but now, like it a supermarket, Germany has aught up." She observed that supermarkets in both Germany and America offer about the same selection of merchandise now. They did notice, however, that there isn't anything in Germany as yet to compare with the American educational television chanoutdoor sports like swim

Parking in Wayne

Whether it's Wayne, Omaha, St. Louis or New York City, parking automobiles, in such a way as to be most beneficial for the majority, has always given city planners hours of facing per-plexing problems.

plexing problems.

To have a parking problem speaks well of a city. It means residents and visitors have been successful enough in their labors to have an automobile. Cars are not only a convenient private siccessful enough in their labors to have an automobile. Cars are not only a convenient private conveyance but they bring money into the community through sales, use of fuel and lubrication, maintenance, three, inspections and insurance. If there, were no automobiles in and around Wayne, if none were sold in Wayne, and every last whicle were igone completly out of our area, then of course, there would be no parking problem. Neither would there be any need for new or used car dealers, service stations, auto Insurance services, body slops, etc.

So, let's be glad Wayne is a growing community and most everyone can manage to have some type of vehicle. Now the problem arises, where does everyone park? One of the important parking areas is, of course, the business district. For it is in this area where merchandise is unloaded from trucks, it is then displayed by business firms and sold to customers to conveniently get into the stores they come into and leave town via vehicle. Good parking is obviously essential to the life of an entire city. In, mid-summer of 1956, angular parking in downtown Wayne fon Main was changed to parallel parking. Then in the fall of that year a two-hour parking limit went into effect in the business district on Main. There is also a two-hour limit for one block off Main on Second and Third streets.

parking limit went into effect in the business dis-trict on Main. There is also a two-hour limit for one block off Main on Second and Third streets, and for one block west of Main on First street. The two-hour limit was decided on by the City Council as a method of keeping parking space open for customer use, after a survey showed that about 30 per cent or more of the stalls in the business area were being used by downtown emand businessmen whose vehicles were

during most of the business hours.

Rather than install parking meters, the Couptil deelded upon the two-hour limit instead. Though a customer may dislike the necessity of moving his vehicle after in two-hour period, the samejor-dinance keeps, more parking open to customers, as the business men and employees park clsewhere.

If you have recently moved to Wayne, you will note that there are "no parking" signs prohiblying parking on the east side of the north and south streets and similar signs are posted prohibiting parking on the soith side of east and west streets.

This excludes the downtown business districts.

A ruling made last fall and now entores with a no all streets north of Seventh, excluding lincoln and Douglas streets and the Westwood addition, one may park only from 5 a.m. until midnight. In other words, there are no streets north of Seventh, except with the noted exclusions, upon which one may park for a 24 hour period.

Maybe some would ask, "why can't we have 24 hour parking on the streets north of Seventh"? According to Chief Vern Fairchild of the Wayne Police Department there are more vehicles to park in the north end of town and by keeping them off in the north end of town and by keeping them off the street at least from midnight until 5 a.m. gives the Clty street cleaning crew and the snowplows a change to get their work done without having to go around a great number of vehicles. According to Wayne County Judge Luverna lillon, the minimum fine for violating the parking ordinances is \$10 and court costs of \$5.

Also new residents may not know that, a, long-range improvement plan for the Seventh and Main intersection has widened the traffic lanes and traffic light bole [foundations are poured. Line

Main intersection has widened the traffic lanes and traffic light bole foundations are poured. Lane lines are also scheduled to be painted at the intersection.

So whether you are an old-timer or a new resident, being acquainted with the parking ordinances and as to why they exist, will maybe help in Wayne with a 20th Century problem.

Several requirements are appropriate for formulating finishing rations for steers weighing over 700 pounds and helfers weighing over 800-850 pounds.
The first decision to be made is the roughage level. Levels as low as five per cent and up to 15 per cent roughage provide the most economical level for finishing rations in Nebraska.

The most economical results of finishing rations in Nebraska.

The amount depends primarily upon the type of feed mixing equipment and the amount and kind of roughage available to the feeder.

Where uniform feed mixing is available, the lower levels of roughage are recommended. Another necessary decision is the protein level that is to be fed. It is suggested that ten and one-half per cent protein be fed when the grain is figured on a 14-15 per cent moisture basis and hay and sitage are figured on approximately 10 per cent

Service! That's what you'll get at our NEW **Farm and Home Center** in Wayne!

Who says service is hard to get? You can get plenty of it at the new Standard Oil Farm and Home Center in Wayne. For example, if you need fuel and need it fast, call us. Two-way radio links our office with our trucks. We can put a delivery on the way in seconds. Or, if you have soil fertility problems, we'll test your fields free of charge. And then our trained Farm Advisor will recommend the fertilizers you need for bigger yields and better profits. He can also recommend the weed killers and insecticides that will best guard your crops. And you can get up-to-the minute facts on farm fuels and lubricants, too. All with no obligation on your part. So, next time you need this kind of service, call us. Service—another quality reason to farm with Standard.

You expect more from Standard and you get it!
