Lightning Strikes Allen Farmhouse

The farm home of Mr, and Mrs, Norris Emry of rural Allen suffered between \$300 and \$500 about 3:30 Wednesday morning. Most curious thing about the in-cident, Emry said, was that there were about five rapid cracks when he lightning struck. The cracks were about as loud as shotgan blasts and occurred within a second or two.

Alten Legion erupted for severi hits and 11 runs in the first inning, then held Newcastle score-less throughout the short flive-inning game to rack up their third win of the season, 11-0, Wednesday night. Playing at Newcastle, the rally began when Bob Anderson singled after lead-off hitter Kevin Hill struck out. Craig Schulzt doubled and Bruce Trube, Al Smith and Larry Carr all got on with sin-gles off Ponca's Bennet. Bennet fanned Fob Smith after Dennis Gelger made it to first on a fleider's choice. Bob Mit-chell, ninth man to face the Ponca

on a fielder's choice. Bob Mit-chell, ninth man to face the Ponca hur ler in one inning, drew a

chell, ninth man toface the Yonca walk. Hill doubled his second time at the plate and then Al Smith connected for his second hit of the hning, a double, after Anderson and Schultz walked and Trube got to first on an error. Ponca's Bennet finally ended the one-Inning rout by getting Carrout on a fly ball. Winning pitcher Craig Schultz gave up three hits in the contest, struck out six and walked only one. Bennet, relieved by Beyler in the second hning, gave up three hits, struck out two and walked three. Beyler gave up three free passes to first. Next action for the Allen squad is this Sunday when they travel to Ponca for a 2 p.m. tilt, opening up the second half of season play. ALLEN AR BERT

Logan Creek Goes on Rampage

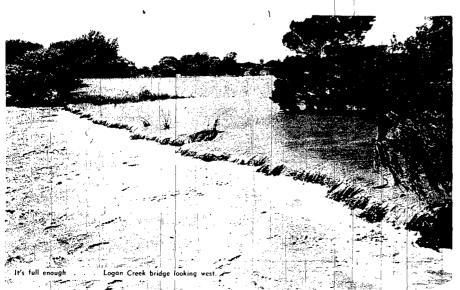

It may have been fun for the kids, but for a while it looked like the Logan Creek was really going to do some durange Wednesday. And even though the creek dropped guickly after cresting, it proved costly to at least one Wayne businessmun. The Schrader A Allen litchery lost about 400 laying hens when Logan Creek flooded a laying house a mile south of Wayne along lingiway 15. About 450 of the hens were removed from the Bouse before the water got too high, but some of these will probably be lost. Although the flood waters creeped almost completely around his home on the south edge of Wayne, Merle Tietsort said he had only about three hours, seen the water from doing any damage in the basement. Little damage was done to the immicipal alroper east of Wayne by the high water although at its highest point the survaced runway and the east half of the sort mway. More damage was done in the iloskins area, which suffered the brunt of the storm. About flye honging the surfer bin water in the basements of homes belonging to up and the safe to creat so the sort hough and the survaced runway and the cast half of the sort mway. More damage was done in the iloskins area, which suffered the brunt of the basements of homes belonging to up bohm and Fred Lorenz. A haystack on the Willing Falk farm was struck by lighting and destroyed. Several fars fars fur house of livestock from the severe electrical storm. Corn borer damage feared high this year.

AEL-A-A

You can't ignore corn borers. Not this year, because all signs point toward serious yield losses from a build-up of horer populations from last fall.

You can get the most effective corn borer control by applying Diazinon[®] 14G while borers are in the whorls of the plants, before they bore into the stalks. Use 7-14 lbs. of Diazinon per acre by ground rig or airplane, and get Diazinon into the plant whorls.

Contact your local supplier, or aerial applicator for Diazinon 14G and ward off this serious borer attack. Do it now.

EDITORIAL COMMENT

The editorial department of a weekly nettypher is an important department. Nor-mally it is one person's opinion of topics that concern most of the readers. It is the duty of an éditorial writer to search all available facts before he sits down to write. From this baits the writer should be able to give a clear picture of important topics.

The decent Americans are at it again. Latest addition to the groups of impeccables is the Ne-braska MOTOREDE Committee, MOTOREDE stands for the Movement to Restore Decency, a national drive made upof decent, upstanding Ameri-cans who want to clear the filth from American society.

Armed in shining white armour, members of MOTOREDE will attack such things as filthy language, sexual promiscuity, squalid dress, level behaviour and disrespect for authority. But their first undertaking will be to expose and oppose the effort to introduce sex education into our schools. And the dangerous radicals who want to teach about sex had best be on guard.

teach about sex had best be on guard. It's rather difficult to understand why so many people are alarmed at the Idea of sex education in our public schools. We sincerely doubt there was any giant Communist conspiracy pushing thousands of school boards across the nation to the decision to teach about Iffe in Russia and China, it was probably not at the beck of the irreli-gious that school boards decided to teach about evolution of life. If the Germans or Spanish were

It's a Lot of Bunk!

Readers sometimes urge editorial writers to be "controversial". Actually what is being suc-gested, all too often, is that the writer become habitually upset and angry with about everything surrounding him. A journalist should by all means debunk that which needs it, but to write "against" one's fellowman's honest mistakes, especially if the be a city councilman, mayor, policeman, politician, etc., is extremely weak journalism and fits the same kind of mind. Becoming a "debunking specialist" is a profes-sion already overcrowded, and not too well paid. Certainly the debunkers have few friends. For he who fights bunk is fighting the most colossal constructive force in the world. He is playing with dynamite.

with dynamite. If people never made an effort to deceive one another (in kind, agreeable, harnless ways, of course!), would life be worth living? Just how long would the social fabric hold together? Mark Twain was right; we should exercise extreme moderation in the propagation of truth. Safety First on the Fourth

Normal youngsters, particularly young boys, have enough energy for ten people and are constant-ly seeking sources of entertainment. What is more natural than wanting flueworks on the Fourth of July! Fireworks may be fun and fireworks may be fund be fatal

July! Fireworks may be fun and fireworks may be fatal. Every American "kid" should have his or her stare of fun, iaving fun is a part of growing up. Even after we "grow up" we still like to have fun although the sources from which fun is de-rived at the adult level "may" differ from those of childhood. Then again, they may not! Whether you are four or forty, six or sity, it is a same thing to stay alive. Staying alive is becoming increasingly difficult on the highways. Many are able to stay alive but will have to endure the scars coming from hyuries for the rest of life......due to a moment of carelesmess. Next Friday, Saturday and Sunday are days which may become a "trio of tragedy" for one or all members of your fine little family unless every precaution is taken in making safety "first". Safety first is an old song! its lyrics neces-sarily remain the same year in and year out. Many no longer use, see or hear the lyrics be-cause they are dead. They didn't thinka "accident" could happen to them. It did, Now they don't think anything.

Undoubtedly, a nice trip over the weekend would do you and your family a lot of good in

mer Multin pushing for teaching of their languages in our schools in order to destroy the English language, we were unawaire of it. The American nation would be the laughing stock of the world if she suddenly kanned teaching about these things from the public schools. They exist and we are much better off by knowing about such better off if they were taught about it. MOTOREDE believes that it is the right and responsibility of the parents to teach about sex. At one time it was the "right and responsibility" of the parents to teach all things to their children, it would take only a small bit of imagination to visualize what would happen if parents suddenly using their children such fundamentals as how to read and write. Members of this group are apparently confusing soung those things he values, but let the parent be open-minded enough to realize that his child will be better off if he knows as much as possible about all plates of solicity, including sex. And when we are gone hence, our admiring friends strew it profusely over their ford memories of us. Newspapers, magazines and books are full of it. It is the chief ingredient in cosmetics, medi-cines, foods, politics and psychiatry. clergymen are not unfamiliar with its potency. Stripped to its gooseliesh, bunk is simply pretense, a quite harmless, benevolent sort of pretenser, which, by accepting at its face value, men are duped into thinking along certain lines or doing certain things that often work out for the good of the individual and the advancement of society. Come to think of it, if our mothers had not fallen for the bunk our fathers courted them with, life here might never have been enriched and illumined hour presence!

If the here might never have been enroceed and illumined by our presence! No, we cannot afford to do away with bank - not just yet at any rate. "getting away from it all," Without safety first

"getting away from it all," Without safety first you may get completely away from everything, including the next heartbeat. On the Fourth of 1968 a family of five were probably all having a good time anticipating their arrival at grandad's place. Their laughter and gaity turned suddenly to horror and blood. A tire blew out. Lurching into the wrong lane the little family's missile of steel in which they were riding crashed head-on into an oncoming vehicle. Thres were screaming on the both pavement just prior to to impact. Then suddenly dilet. Only the smallest child survived and he, smeared with blood of his brother, was able to cry "mamma!" it was the first time that mamma didn't answer when the taby called. Mamma....and dady.....were dead on a Kangas highway. You may court safety first to the "nth" degree and wouldn't think of selling liquor to mhors or letting your youngsters play with loaded guns, but would you buy too powerful frieorackers loaded with dynamite? Would you drive carelessly? A family should have fun. A family can have fun, fireworks, weekend trips, celebrations, cook-outs and pichnes, but dad and mom should use every measure of prevention which has ever been thought of in an attempt to avoid tragedy and hearing oneself say "ff only we would have." Help our family enjoy the Fourth with safety first. - MMW.

A Horrible Accident Kenyon, a brakeman on the Bloomfield with a frightful accident while switching W. S. Kenyon, a brakeman on the Discussion train, met with a frightful accident while switching in the railroad yards here yesterday aftermoon. The engine was slowly backing up near the stock yards when Kenyon attempted to step up on the beam on the rear of the tender, but in some manner his foot slipped and he fell just outside the track, his right leg across the rail. The hind wheels of the tender passed over his leg, beginning at the heel and running off just below the lenee, crushing his leg in a horrible manner. He was taken at once to the Boyd hotel and Dr. Wightman summoned, who after a careful examination decided that it was necessary to amputate the foot. W S Kenv

The arch and fourtain being put in at the intersection of Main and Second is a big under-taking but will be a beauty when completed. At the meeting of the City Council Monday evening Ordinance No. 115 was passed, a number of bills were allowed, one \$2,000 water bond ordered paid, the \$600 due on the engine house paid, and the tax levy for the current year reduced 2½ mills below the levy of last year, leaving the city free of debt. This is a record the Mayor and Council certainly have a right to feel proud of. A good story is told on James Ahern who took charge of the posting of the large celebration bills at the surrounding towns. A clitzen of a near-by town was awakeped by a mysterious noise at 11:00 p.m. Arming himself with this revolver he-opened the door, to find our Jim heavily digguiged in a Mother Hubbard suit of overails, qudeily pasting a large poster on the side of the house. Wayne Dear Editor: I would like to take this op-portunity to thank the people of SWAY for the gift I received when I returned home. I was separated from the Army on June 4, the Oakhand, Calif, after serving a one-year tour in Viet Nami. I spent my time in an infastry unit of the 1st Cavalry Division and I must say I learned a lot from my job. I spent my first two months working in a rifle squad as a rifleman and then moved to squad leader for the next five months. As the positions opened up, I went to platoon sergeant for two months and for my last two months and for my shortage of lleutenants in the 1st Cav. Five days prior to my separa-tion date, I left the field and started home!
