Reporters Needed

Although we have received some, we need more applications from area high school students for jobs as school reporters.

About the only requirement for the job is a good knowledge of the English language.

Reporters are wanted from Allen, Laurel, Wakefield, Wayne and Winside schools. Students chos en will write regular columns about important activities going on in their school. The reporters will be giving their school deserved publicity at the same time as they learn how to better handle the English language.

WS Officials Expect 3200 For Fall Term

Wayne State College expects to enroll 3,200 to 3,300 students next week as it begins the sixtieth year as a state college. The faculty will have 23 newcomers and four returning after a year's absence for study.

About 150 calves are expected at the annual Wayne County 4-H baby beef show and sale Sept. 11, according to Harold Ingalls, agriculture agent. The show-sale is sponsored by the Wayne Chamber of Commerce and will get underway with the show starting at 1:30 p.m. in the Wayne sale barn. Weighing will begin at 4 p.m. with the sale at 8:30 p.m. Ingalls said. Agent Ingalls noted that the sale is open to all regularly enrolled 4-H members ages 9-19. Pen lots will consist of five steers. No special fitting will be allowed. Calves may not be clipped or washed. Calves may not be clipped or washed. Calves for individual showing may be fed in the same yard. All cattle will be unloaded at the sale barn prior to 12:30 p.m. on sale day, a c or d ing to the agriculture agent.

Individual calves will be shown starting at 1:30 p.m. with weighing and appraisal at 4 p.m. Calves awarded white ribbons or those not broke to lead will not be eligible for auction. Only those 4-il members who exhibited bed calves at the Wayne County fair may sell an individual animal. Ingalls reported that a summary of sales over the past 10 years shows that the average premium paid on individual calves by businessmen has been about \$30 per head of individual calves. Premium on pens of five head, a project started four years ago, has been about \$50 per pen.

Eighteen youngsters are expected to compete in the pen of five project while more than 68 are expected in individual calf showings. Those selling pen lots may not sell an individual animal. The scoring formula will have 10 points for each pound of average daily gain; 100 points for top packer appraisal with one point off for each 25c cwt. less; 10 points or less for accuracy and completeness of records.

points or less for accuracy and completeness of records.

Judy Berrmann collected the second highest price ever paid for a 4-11 champion at the sale last year. She was paid \$39.50 per hundred for her 960-pound grand champion Hereford steer.

Roberts Feed and Seed was the purchaser. Judy's steer had a packer bid of \$29 from Hormel's. The difference between the packer bid and the local bid goes to the 4-11 member owning the calf.

Allan Keagle had the grand champion helfer last year with a packer bid of \$26,50 but it brought a premium bid of \$32.

Best pen of five competition was topped by Douglas Straight last year with a pen of Charolals steers showing a rate of gain of 3.63 pounds per day. The pen sold for \$29.75 per cwt. to Fredrickson Oil Co.

Bidders may either keep the calf at the price they bid or sell it back to the packer at his bid price.

Two Films Reveal the **Problems of Drinking**

Problems of Drinking

Anybody in the Wayne area interested in alcoholism is invited to attend the showing of two films next week which reveal some of the problems alcoholics face.

The two films, both color and both about 25 minutes in length, are entitled "What Time is it Now?" directed at at teenagers, and "A Time for Decision," directed at adults. They will be shown Monday, Sept. 8, at the Northeast Station east of Concord right after the short business meeting of the board of directors of an organization concerned with helping alcoholics become useful members of society.

The group is the recently incorporated Northeast Nebrasia Family and Community Affairs Council. A member of that group, Neal Bosehart of Laurel, has several other films on alcoholism available for any organization wishing to view them. Any 4-H

I ne eastorial department of a weekly newspaper is an important department. Normally it is one person's opinion of topics that concern most of the readers.

It is the duty of an editorial writer to search all available facts before he sits down to write. From this basis the writer should be able to give a clear picture of important topics.

You may not agree with an editorial — but if you read the editorial and give serious thought to the subject discussed you have gained. You, as a reader, have given careful thought to an important problem and the writer is proud to have called your attention to an important subject that you may have overlooked.

Seventh and Main Intersection

As with most man-made things, the automatic traffic signals recently installed at the Seventh and Main Street intersection are not as yet functioning at 100 per cent officiency. Their installation was long awaited, however, so, as the traveling public, we will attempt to be patient.

public, we will attempt to be patient.

The signals are triggered by your auto as you approach the intersection. Your car's metal affects a magnetic field (a wire underneath the concrete surface) as you near the corner. Theoretically, when the lights are functioning properly and providing you are not going very fast, you should be able to cross without having to stop, that is, if there are no other vehicles also nearing the corner.

that Is, if there are no other vehicles also nearing the corner.

A technician working on the signals Tuesday said the lights have been malfunctioning in the afternoon but have operated without problems at night. He thinks perhaps the heat of the afternoon sun expands the new concrete and "pinches" the controlling sub-surface wire. As the temperatures drop in the evening and the concrete contracts, the magnetic-field device then functions as it should. This is a theory of the technician as to what may be causing the problem with the signals.

More of a problem than the lights for motorists are the lanes. Which lane is a motorist to be in for a right turn? Well, that isn't too much of a problem—stay in the right lane. Likewise stay in the left lane for a left turn. What is confusing is that if you are going to pass through the inter-

section without turning - you MIST stay in the right lane. All autos in the center lane MIST turn left or be in violation . . . or maybe a wreck.

Thousands of the taxpayer's dollars have been spent on modernizing the heavily traveled intersection, it has been almost one year since remodifications were started. New concrete was put in, torn up and put in again. Now the newsignals do not function properly. A dozen motorlists with whom this writer visited didn't know which lane he or she was actually supposed to be in.

This means a good per cent of even local residents are confused as to how to the cross the intersection properly.

The directional arrows "were ordered" by the state but have not arrived. But about 3,000 college students will be arriving soon and what is going to happen at the corner is anyone's guess.

Motorists are mostly acquainted with a fourlane intersection. If you are going to turn to the right, you get into the right lane. If you are going to turn left, you get into the left lane . . and if you, are going on through the "average" intersection . . . you do so on either lane – but not at Seventh and Miln.

Our comment at this moment about the busy corner is that it is a daily reminder that "experts" are not above making a genuine goof. That makes them human and taxpayers – so they too had an investment in what may turn out to be Wayne's Main Wreck-reatlonal Center. – MMW.

Though there are various divisions in the

Though there are various divisions in the communist camps spread over the world, there is, nevertheless, but one collective goal — to make this a communist world.

Even as Castro first appeared in Cuba as something he was not, thereby deceiving the people, other communist minds are also promoting the cause of socialism. Castro started his "revolution" on a university campus. He even had many "brains" in Washington, D. C. believing that he was simply an "agrarian reformer". The communist mindneed not be careful with the truth since it is he who decides what is, and what is not "truth".

FBI Director J. Edgar Hoover recently testified in Washington, D. C. earlier this year: "Although activities of old-line Communist organizations in the United States have been overshadowed by the militancy of the New Left and racial disorders, the threat of communist mas certainly not diminished, it flows from the Communist Party. T. S. A. with its blind obedience to the Soviet Union and from the various Communist splinter groups such as the Progressive Labor Party, the pro-Peking group... which, in addition to take over the national leadership of the Students for a Democratic Society, the militant, pro-Marxist, anarchistic, campus-based New Left group; the Socialist Workers Party; the Workers World Party; and their affiliates. These organizations seek to transform this country into a Communist state but differ on the plans to be followed.

"The turbulence generated by the New Left stimulated all these organizations into moving toward increased militancy themselves. Seizing any pretext as the foundation for a protest demonstration, leaders of these organizations seek to proliferate each demonstration into a massive confrontation with the authorities to generate disrespect for law and order."

Later on in Hoover's report he again stated,

Reports from a host of reliable FBI sources

"Reports from a host of reliable FBI sources clearly indicate no letup on the part of the Comminist countries in their intelligence attacks against the United States for the purpose of penetrating our national defense interests. As all Americans know, it is the intent and objective of Russia and the other Communist countries to spread their brand of the Communist system wherever possible."

The long-time director of the FBI noted, 'The Students for a Democratic Society advocates, in the terminology of a considerable number of its leaders and members, revolutionary communism. Along this line, at the organization's 1968 national convention, two of the newly elected national officers publicly identified themselves as Communists "with a small c," as many New Left adherents do to signify that while they are Communist how a brand apart from those in the old-line Communist movement.

So while thousands of "educated" (so were the Cutans, Czechs, Poles, etc.) Americans throw up hands of astonished horror at the very mention of "Communists undermining America," "socialists" continue to do their "revolutionary" work, whether we like it or not.

Even now our nation is at the stage where such an editorlal as this, using quotations from the FBI Director, usually brings voices of protest and accusations that the writer undoubtedly sees "communists under every table."

Communist minds killed a friend of mine in Viet Nam, plus more than 55,000 other of our American sons. If that isn't enough to cause every American to fight the godless ideology, then I don't know what is.— MMW.

Exam Planned

The 24th annual national competitive examination for the Regular Naval Reserve Officers Training Corps (NROTC) will be given Dec. 13, according to Vice Admiral Charles K, Duncan, Chief of Naval Personnel.

The Regular NROTC program prepares a young man for a Navy or a Marine Corps commission while he is studying at one of the many civilian colleges and universities where NROTC units are established. Alltuition, fees, uniforms and books are furnished by the Navy and the student receives \$50 per month subsistence allowance for not more than four years. During the summer the student participates in at-sea training as a midshipman. After successfully completing baccalaureate level college courses and all military requirements, he is commissioned

Omiha has all kinds of thieves within its borders. The other day a young woman called at the home of II. M. Rogers to see the new Rogers baby, and during a moment when the parents were absent from the room it is alleged she stole from the Infant's clothing all its valuable adomments. The baby wore three gold pins made by Tiffany, the New York jeweler. They were the presents from relatives and valued as the jittle one's first gifts. Detectives were detailed to recover the jewelry.

Why you'll be glad you bought a Fox Custom-90 Forage Harvester

Because its rugged construction gives you "good-as-ew" performance and dependability 10 or even 15 years new performance and dependent from now.
For example:
Tough one-piece welded frame. Stays in line, keeps shafts and bearings in perfect alignment.

Anti-friction bearings. At every major point of wear. Fifty of them to reduce friction, save power, increase life.

Heavy-duty roller chains, universal joints, shafts and

Heavy-gauge cutter housing. One-piece welded steel unit, keeps knives in perfect alignment with shear bar. With construction like this, the heavy-duty Fox Custom-90 just can't help but last longer. Yet it costs little if any more than other forage harvesters.

HEADED FOR STATE FAIR. Doug Nelson, 18, son of Mr. and Mrs. Marvin Nelson, plans to enter the tractor pulling competition at the Nebraska State Fair Tuesday. Trophies sitting on the tractor are those won in the 6,500 lb. class at Yankton and the larger trophy was for first place in the 6,000 lb. class competition in a contest at Columbus this summer.

Local Men to Compete In State Tractor Pull

Two young men from Wayne County plan to chug and tug their way to more ribbons, cash prizes and trophies in the State Fair tractor pull in Lincoln tomorrow (Tuesday).

Doug Nelson, 18, son of Mr. and Mrs. Marvin Nelson, Wayne, and John Sandahl, 17, son of Mr. and Mrs. Morris Sandahl, Wayne, have chalked up impressive rec-

and John Nandahi, 17, son of Mr. and Mrs. Morris Sandahi, Wayne, have chalked up impressive records in tractor pull competition in three states this summer. Nelson has already entered 14 pulling contests this year and has placed 20 times out of the 27 classes entered. He has won 11 first places, six second places and three third places driving his 3010 John Deere. "Once in a while I have to get somebody to work in my place while I go to a tractor pull," Doug said Thursday afternoon, "so it turns out it really isn't a money making deal but it is

sure a lot of fun."

Ile said prizes are sometimes a percentage of the entry fee and sometimes its a guaranteed purse. A few contests also give trophies, Doug said. The first place winner at the State Fair will receive a plaque and \$125. Nelson plans to pull in the 6,000 lb. class at Lincoln. His tractor weighs 6,500 lbs. so "I had to strip it down a lot," Doug commented, "and built a wooden seat to replace the one that came on the tractor."

John Sandahl will use a John Deerc 4010 in the pull at Lincoln and will pull in the 10,000 lb. class. The tractor weighs 8,000 lbs. so he will add some weights on it. "I don't know what I'd do without my friends to help me put the wheel weights on," he remarked Friday morning. Sandahl has entered 12 contests.

TO STATE TRACTOR PULL. John Sandahl, 17, son of Mr. and Mrs. Morris Sandahl, Wayne, stands beside the John Deere 4010 which he will use in the tractor pull at the State Fair Tuesday in the 10.000 lb. class competition.
