

# Remodeling of City Is Luncheon Subject

Members of the committee which has been working on getting a plan developed for improving the downtown business district in Wayne will meet at noon Wednesday at Bill's Cafe.

The meeting, first to be held since an Omaha architectural firm unveiled its suggestions for changing the face of the city earlier this month, is open to all business owners, managers, employees or private citizens who would like to attend, said Darrel Fugelberth, one of the members of the committee.

Persons who plan on attending the luncheon should contact Fugelberth before Wednesday.

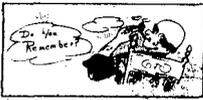

Discussed will be the suggestions developed by the Omaha firm after it was hired with funds obtained from several businessmen and the city council.

Those suggestions include removing parking from Main Street between First and Fourth, turning alleys into walkways leading to off-street parking, planting trees and shrubbery on Main, refurbishing

## Baking Tilt For Men Is Slated

Men in Wayne County are being invited to test their skills at baking cakes in an effort to help raise money for the March of Dimes.

This year's "Battle of the Batters," an event open only to men and boys, will be held during the Wayne County Fair, with the results being sold at the grandstand on the evening of Aug. 3, according to Ted Bahe of Wayne, in charge of organizing this year's baking contest.

Proceeds from the sale will go to the March of Dimes.

Men and boys will be able to bake their cakes anytime during the first three days of the fair in the display building at the fairgrounds.

Persons interested in finding out more information about the contest may contact Bahe.

## Carroll Levy To Decrease To 15 Mills

Carroll residents will be paying about a mill and a half less than last year's 16.66 total to finance the community for the coming fiscal year.

Tuesday night the village board voted to decrease the levy to 15 mills despite more than doubling last year's budget of \$22,344.

The 1974-75 budget of \$56,551.31 will require raising about \$3,600 through local property tax. Board members have estimated miscellaneous revenue to be over \$25,000, and that amount combined with more than \$32,000 cash on hand are the main reasons for the decrease, said Wayne County clerk Norris Weible.

Last year the board needed about \$4,300 from local property taxes to finance its budget.

## Allen Teachers, Board to Meet On Salary Snag

The Allen Education Association and the school board hopes to meet sometime this week to settle contract talks for the 1974-75 school year, a sophomore for the teachers said Saturday.

According to Noelyn Isom, chairman of the teachers' negotiations committee, talks will be aimed at settling a dispute concerning the eighth step in the pay scale.

A three-man fact finding committee ruled that the pay would be four per cent of the base added onto the seventh step, or \$8,768, said Isom. The board interpreted that to mean four per cent of base added onto last year's salary, or \$8,656, he noted.

The \$112 difference would affect three fulltime teachers as well as a part time instructor, Isom pointed out.

A fact finding committee was established in May after the school board and teachers could not agree on contract terms.

## Steam Threshing Set for Tuesday

Young people who never saw oats threshed by steam engine and older people who can remember how it was done before modern machinery came along are invited to a demonstration on the Russell Johnson Farm just northwest of Wayne.

The steam threshing show, featuring Carl Johnson's Minneapolis steam engine and his threshing machine, will be held Tuesday afternoon a mile north and a half mile west of Wayne.

"We just want to show people how oats were threshed years ago," noted Russell Johnson.

There is no admission charge, and area residents are invited to stop out anytime after noon to watch the demonstration, he said.

## Beef Sale Set

The annual Wayne County 4-H beef sale will be held at the sale barn in Wayne on Thursday, Aug. 15.

Four-H members from across the county are eligible to sell their animals in the sale, receiving bonus money for them from businessmen and individuals who purchase animals during the Chamber of Commerce-sponsored event.

## WH Grad Learns About Field of Mental Health

Marilyn Wieseler, a January graduate at Wayne High School, is spending nine weeks this summer in Omaha learning and working in the field of mental retardation under the Summer Work Experience and Training (SWEAT) program.

Daughter of Mr. and Mrs. Al Wieseler of Wayne, she was assigned to the Developmental Maximization Unit at Douglas County Hospital where she works with multiply handicapped and retarded youngsters under 12 years of age.

Eighteen years old, she is one of 11 young people between 17 and 21 from Scottsbluff, Grand Island, Plattsmouth, Bellevue and Omaha under the program. The youths spent the first two

weeks with an orientation of lectures on mental retardation, and after the first week they were committed to an institution for 24 hours so they could act out detailed roles set up by the staff. Their fake handicaps

## Winside Board Will Consider Paving Work.

Winside's town board will decide at its Aug. 5th meeting whether to bid for street improvements for four paving districts.

Board chairman Dallas Puls said if there is sufficient amount of paving needed in the four districts, members probably will bid for about three and a half blocks of paving and another four blocks of new curbs and gutters.

During a special board meeting July 12, a re-evaluation study showed that Winside residents were in favor of creating the four districts out of a possible 13.

The areas to be further studied for paving include a two-block stretch of Dearborn Avenue between Hunter and Weible streets, one block of Chapin Street between Dearborn and Rawford Avenues, and about a half block extension of Vroman Street.

New curb and gutters involve approximately three blocks on Hunter Street and one block east of Crawford Avenue.

The SWEAT students, who began the summer program June 17, will go through a week-long training called P.A.S.S. (Program Analysis of Service System) the week of July 22. Then July 31 Aug. 2 they tour western Nebraska facilities in Hastings, Axtell, McCook, Scottsbluff, Ogallala and North Platte.

At North Platte, the students will run a camp for mentally retarded persons Aug. 4-7. The camp is sponsored by the North Platte Jaycees.

The final week of the summer program includes two days of following Eastern Nebraska Community Office of Retardation counselors and administrators in the field and touring Beatrice State Home and Marlin Luther Home. Students will graduate from the program on Aug. 16.

## Drouth Meet Set for WSC

Wayne area farmers will be given a chance to tell government officials just how serious the drought is in this area of the state during a meeting in Wayne on Wednesday.

The meeting, one of six being held across the state, is slated to begin at 2:30 p.m. in the assembly room on the third floor of the administration building at Wayne State College.

A story in Thursday's issue of The Wayne Herald incorrectly

reported the meeting place as the city auditorium in Wayne.

Among those planning to attend is Gov. J. J. Exon, who called the meetings in an attempt to find out just how badly Nebraska farmers are being hurt by the extremely dry weather.

Invited to the meeting are area county commissioners and supervisors, extension board members, Farmers Home Administration officials, Agricultural Stabilization and Conservation Service personnel, state agricultural department staff members and representatives of area lending agencies.

With the dry weather daily lightening its stranglehold on area crops, this growing season is moving closer to becoming the driest one in a decade.

Up to the weekend, only 8.03 inches of moisture had fallen in Wayne since the start of April. That compares with the 8.85 recorded during the four-month

period from April through July in 1966, the only year in the past 10 when moisture during that period fell below 10 inches.

Temperatures in the Wayne area in recent weeks have been among the hottest recorded in several years. Up to the middle of last week, there had been only two days during July that the temperature failed to reach at least 90 degrees. On four days

the temperature reached 100 or above in Wayne.

Those high temperatures and winds almost daily have sapped ground moisture to the point that little remains for crops to draw on.

Only smatterings of rain have fallen in Wayne during this month, 10 of an inch falling on July 2, 0.7 on July 11 and 1.0 on last Wednesday.

Young men still register for the draft under the Military Selective Service Act even though no one is presently being examined or inducted, according to Edward Binder, selective service director of Nebraska.

He said they may register at any selective service office or with any volunteer registrar.

In addition to the selective service office in Norfolk, young men in Wayne County may register at Wayne High, Winside High, Wayne State College, Wayne post office and the National Guard Armory in Wayne as well as with Christian Bargholz, county veterans service officer, and Trixie Newmann at See Draft, page 8

## Bike Radeo Slated

Wayne County 4-H members involved in bicycle projects may take part in the annual bike radeo scheduled for the parking lot at Wayne State's Rice Auditorium on Tuesday night.

The radeo is scheduled for 8 p.m.

A total of 39 youths are enrolled in bicycle projects in 4-H this year, according to the county agent's office.

## U.S. Middle East Aim: Keep Up Momentum

"We need to keep the momentum going."

That is the assessment of United States policy in the Middle East, expressed by State Department official Edward Padelford at the Wayne State College Conference on the Middle East Wednesday.

There is reason for cautious optimism from recent achievements in bringing Israeli and Arab enemies to a ceasefire of hostilities that began with the 1973 "Yom Kippur" war, said Padelford, who is deputy political and military affairs adviser for the Bureau of Near Eastern and South Asian Affairs in the State Department.

Padelford cited contrasts in results of 1967 and 1973 wars as a reason for peace optimism. After the 1967 conflict, angry Arab nations broke relations with the U.S., accusing both the U.S. and Britain of giving Israel combat assistance. Though the Arabs later conceded this was wrong, they remained at odds.

But after the recent war, Padelford noted, the Arabs reacted differently, and several nations have resumed diplomatic relations in recent weeks. He mentioned two factors: the Arab military came out of battle with honor, though it really was a stalemate, and the quality of leadership of both sides was more statesmanlike.

In addition, there was U.S. Secretary of State Henry Kissinger as a paramount factor, Padelford said. Kissinger recognized the opportunity to move, and did. But he did not move unilaterally. He kept

Britain and the Soviet Union advised of what the United States was doing, Padelford said.

Despite the momentum, he cautioned that stubborn problems remain, and most likely the best course will be to solve the difficulties that are easier, relatively.

Chief among the problems: the Palestinian refugees in camps and the status of Jerusalem.

Earlier speakers representing Israeli and Arab views also tabbed the refugee plight as the central issue, but disagreed on solutions. Padelford said neither the Israeli nor the Palestinian proposal is realistic.

One of the speakers, Musil Shihadeh, a Palestinian refugee living in the U.S., had charged Israel with refusal to See Momentum, page 8

The tremendous potential of TV for education, at all ages, is best illustrated by the success of Sesame Street with children. Its biggest advantage, of course, is its availability... nearly every home with a child also has a TV set which he can watch.

Does a child learn by watching Sesame Street? A test of almost 1,000 children, mostly from disadvantaged homes, showed that even kids who watched only occasionally doubled their scores after six months, while those who watched frequently tripled their scores over the same period.

## NU Specialist: Be Wary Of Better Cattle Market

Cattlemen should react to the recent increase in the live cattle market with caution, advises University of Nebraska-Lincoln extension-livestock specialist Paul Guyer.

"Although the cattle market has taken a badly needed turn for the better, we have lots of cattle at feeder weight available to come into the feedlots. Some may have to be marketed because of the drought condition in the next few weeks and months," he speculates.

"With plenty of cattle available, markets might not remain strong for an extended period. Then if gain costs remain high, profit potentials could be eliminated quickly," he says.

Guyer foresees a possibility of continued high costs of gain due to wet weather reducing grain yields in the eastern Corn Belt and dry weather in the Milo Belt. "If grain yields are substantially lower than predictions, grain prices may remain

high enough for \$50.55 per hundredweight gain costs throughout the fall months."

Dry, hot weather is damaging pastures and corn in some areas of Nebraska, he notes. "Beef cow owners that are low on pasture should consider early weaning of calves and feeding in drylot for normal growth. The cow herd should be culled closely and remaining cows maintained on the poor pasture until ample grass or adequate crop residues are available.

"Even with rains, grass will be slow to return to a carrying capacity necessary for good growth of calves. Temporary pastures such as sudangrass and sorghum sudan grass crosses could fill the gap if rains come quickly so that the new seeding would get off to a quick start. However, this would only produce limited pasture if the seed didn't germinate until about August 1st," Guyer says.

"We've already had inquiries about harvesting drought-damaged corn, but in these cases the crop isn't damaged severely enough to justify harvest at this time.

According to Guyer, drought-damaged corn or sorghum should not be harvested "until you're sure the plant is beyond recovery." Prior to this stage, total tonnage of dry matter can increase substantially following

## Wakefield News

### Area Students at KSC Orientation

Four incoming freshmen from Wakefield were on the Kearney State College campus recently to register for fall classes and to become familiar with academic policies, college services and facilities during the summer orientation program.

Those students are Cindy Keagle, Killy Fischer, Doug Soederberg and Kay Dalph.

A break in the drought, in most cases, will exceed the amount of feed that would be produced by a temporary pasture crop seeded at the time of the drought break, he says.

Should crops reach a stage when they won't recover, the crop can be pastured or, if there's enough forage, it can be harvested as silage.

Guyer adds that these drought-damaged crops are often high in nitrates, but can be managed for safe feeding. Circulars on nitrates are available from county extension offices, he notes.

As a family, the sunfish appeal to a wider age group of anglers than any other species in Nebraska waters.

## Quail Breeding Down in State

Summer surveys of Nebraska's quail breeding populations show a 22 per cent decline in bobwhite numbers statewide, according to the Game and Parks Commission.

However, game biologists feel that this is nothing to be too alarmed about. "We expected a decline in quail after the rough winter we had. And we also expect that the quail that survived will be able to make up for some of the decline this nesting season," said Jack Sinn, the biologist in charge of the survey.

"Also, we note only a nine per cent decline in the southeast, our primary quail range. Bobwhite populations have been high in the area the past few years. The nesting population might be lower than in recent years, but even with this year's decline, bird numbers are still 25 per cent above the 25-year average for the area."

According to Sinn's survey, this year's quail breeding population was down 34 per cent in the central and western Plateau Valley, down 44 per cent in the Republican Valley, five per cent lower in the eastern Sand Hills, 26 per cent lower in the north east, 28 per cent lower in east central Nebraska, and down nine per cent in the southeast.

Junior Homemakers Sherri Marotz hosted the Hoskins Junior Homemakers 4-H Club July 16. The meeting was opened by Karen Wittler with the 4-H motto.

A demonstration was given by Sherri Marotz on making pop-sicles. Reports were given on the baking workshop and the Bachelor Bob campout.

The fifteen members and their two leaders, Mrs. Harold Wittler and Mrs. Dennis Puls, discussed judging day July 17, the style review July 26. The Wayne County Fair and the record books. They also practiced for the song contest.

## Veterans' Benefits Questions, Answers

**Q.** As a ready reservist, am I eligible for Servicemen's Group Life Insurance (SGLI) issued by the Veterans Administration under a recent law?

**A.** Yes. Under the Veterans Insurance Act of 1974 (May, 1974), servicemen on active duty and ready reservists are insured automatically under SGLI for \$20,000. However, they may elect \$5,000, \$10,000, \$15,000 coverage, or no coverage at all.

**Q.** My wife and I are buying a home with a GI loan from the Veterans Administration. Can we pay the loan off in advance?

**A.** Yes. You may partially or fully pay off your mortgage ahead of schedule without penalty — provided that payments are for not less than one monthly payment or \$100, whichever is less.

**Q.** I am a 64-year-old World War II veteran with an honorable discharge. Am I eligible for pension from the Veterans Administration?

**A.** That depends since VA pensions are based on need. If you're single and your income does not exceed \$2,600 a year, or \$3,800 a year if you have dependents, you could be eligible. Suggest you check with your local VA regional office or any veterans service organization representative.

**Q.** An editor friend of mine tells me the Veterans Administration touches the lives of nearly half the U.S. population. Is that true?

**A.** That's a fairly accurate statement. VA benefits and services are potentially available to 47.3 per cent of our nation's population, either directly to veterans and surviving dependents, or indirectly to members of veterans' families.

**Q.** I'm having family and job problems. As a Vietnamera veteran, am I entitled to counseling by the Veterans Administration?

**A.** Yes. Some of VA's veterans assistance centers are staffed with community service specialists to help meet the veteran's total counseling needs. These specialists are on duty in Boston, New York, Chicago, St. Louis, Detroit and other principal cities, and VA plans eventually to place them in all centers.

**Q.** How many spinal cord injury treatment centers and prosthetic treatment centers does the Veterans Administration have?

**A.** As of December 1973, the VA had 15 spinal cord injury treatment centers and 18 prosthetic treatment centers for amputees, geographically dispersed around the country.

**Q.** I was separated from military service on January 1, 1973. Am I eligible for Veterans Group Life Insurance (VGLI) under the Veterans Insurance Act of 1974?

A. This insurance is available to eligible veterans who were separated from service on or after April 3, 1970, and before August 1, 1974. You must make application for VGLI before August 2, 1975 to the office of Servicemen's Group Life Insurance, 212 Washington Street, Newark, N. J., 07102. Evidence of good health and a copy of DD 214 or equivalent separation form is required. All service-connected disabilities will be waived.

**Q.** I understand the Veterans Administration has plans for use of the powerful communication satellite launched in May from Cape Canaveral, Fla. Will you explain how?

**A.** Briefly, the VA plans to use the spacecraft and 10 of its hospitals to explore for 11 months new methods of exchanging medical information for education and clinical purposes.

**Q.** What is this "Man on the Campus Program" I keep hearing about?

**A.** It is an all-out effort by the Veterans Administration to insure prompt delivery of GI Bill educational assistance checks, and otherwise "trouble shoot" other problems which arise on college campuses between the veteran, the school and the VA regional office. Veterans benefits counselors who are veterans themselves and called "vet-reps," will function as expeditors, assisting veterans in the program which begins in the fall of 1974.

# Forfeits Lead to Loss to Hartington Swimmers

Hartington swimmers out-numbered the hosts in Wayne's first home dual Thursday night, capturing 30 first-place ribbons to Wayne's 29 and a total of 284 points to Wayne's 187.

However, Wayne forfeited 19 events because there were not enough swimmers, said coach Doug Krecklow.

Wayne held a 19-16 edge after diving competition but lost the lead when unable to muster teams in four of eight medley relays. In the other four relays, Wayne was victorious.

Lisa Barclay led Wayne with

four firsts, winning in diving, butterfly, freestyle and individual medley.

Bud Meyer and Doug Marr were the top winners in boys divisions, taking three firsts each. Marr won the butterfly, freestyle and individual medleys and Meyer won the butterfly.

breaststroke and individual medley.

# Wakefield Legion Falls to Wisner

Wisner Legion coach Terry McMillen held true to his words when he said Wisner was going to stop Wakefield's chances of tying Wayne for 1st-place in the Ralph Bishop League.

Friday night at Wisner, McMillen's troops nipped Wakefield, 6-5, dropping Wakefield into a tie for second with Wisner.

Wisner took its ninth win in 12 games with a pair of three-run innings off starting Wakefield hurler Sam Ulechi.

Wakefield countered with single blows in the first and second and two in the fifth before knocking in a solo run in the top of the seventh.

The loss drops Wakefield's record to 8-3.

In the Midgets contest, Wisner outscored Wakefield, 12-9, as both teams scored a total of 20 runs in the first two innings.

Wakefield took a 3-3 command in the first before Wisner reversed the lead with eight runs in the second.

Jono Kline was the starting pitcher as Wakefield suffered its 10th loss in 12 games. Wisner is 6-8.

LAUREL THIRD baseman Jon Erwin, left, makes it back to second base despite Wayne Midgett Ritch Workman's attempt to tag him Friday night at Wayne. The locals chalked up their 13th win against one defeat as they beat Laurel, 6-2.

## Allen Blanks Jackson, 10-0

Allen Midgets picked up their eighth win against two losses Thursday night, blanking Jackson 10-0, with the aid of six runs in the second inning.

With two away, Allen had taken a 1-0 lead on shortstop Charlie Peter's sacrifice fly to drive in the first run with the bases loaded. Second baseman Brent Chase singled to score two runs after Allen once again loaded the bases. Then Catcher Don Kliver singled for another two runs before Chase scored on a passed ball.

Winning pitcher Paul Snyder threw a two-hitter while striking out nine in the abbreviated five-inning contest.

After Sunday night's match at Hubbard, Allen is scheduled to complete its season Tuesday night in a makeup game at Newcastle.

According to coach Keith Hill, Allen needs to win both games if it is to claim the championship of the Northeast Nebraska Little League. Otherwise, a loss could force the club into a tie with Ponca.

See Allen, page 5.

During Nebraska's 1971 fire-arm antelope season, 83 per cent of the hunters in the Garden Unit bagged a pronghorn.

Right fielder Mike Manes rapped a double and scored on a Laurel error when left fielder Aaron-Nisson slapped the ball to third. First baseman Bob Keating doubled in the club's fourth run before third baseman Dave Nuss ripped a run-scoring three-bagger.

The visitors countered with two runs in the top half of the fourth on doubles by first baseman Brad Erwin and catcher Steve Thompson.

With the bases loaded Manes scored Wayne's final run in the bottom of the fifth on catcher Larry Creighton's walk.

Laurel ends the season at 5-9. The Legion - thanks to Roland's excellent pitching and sharp team hitting, ended its season with its 10th win, 12-0.

Roland fanned 10 Laurel batters, three of them coming when the visitors had the bases loaded.

# Midgets, Legion Sweep Laurel

By BOB BARTLETT

Both Wayne's Midgets and Legion teams are the official winners in the Ralph Bishop League when both clubs ended their seasons with victories over visiting Laurel Friday night.

Wayne and Wakefield Legion were tied for first in the league but Wisner upset Wakefield Friday night to give the local club first place honors.

The Midgets climaxed their season, a nearly perfect one at 13-1, with a 6-2 win. Starting hurler Paul Mallette and Dave Hix combined for a three-hitter.

However, Legion pitcher Charlie Roland stole the show the second game by throwing a no-hitter.

Mallette, picking up the Mid get win, left after two and a half frames when the locals had a 1-0 lead. But when Wayne came to bat in the bottom half, the margin quickly widened to 5-0.

Shortstop Ritch Workman scored the team's second run when he was safe on first via an error and later scored on Hix's sacrifice. Then the Midgets hitting took over.

Right fielder Mike Manes rapped a double and scored on a Laurel error when left fielder Aaron-Nisson slapped the ball to third. First baseman Bob Keating doubled in the club's fourth run before third baseman Dave Nuss ripped a run-scoring three-bagger.

The visitors countered with two runs in the top half of the fourth on doubles by first baseman Brad Erwin and catcher Steve Thompson.

With the bases loaded Manes scored Wayne's final run in the bottom of the fifth on catcher Larry Creighton's walk.

Laurel ends the season at 5-9. The Legion - thanks to Roland's excellent pitching and sharp team hitting, ended its season with its 10th win, 12-0.

Roland fanned 10 Laurel batters, three of them coming when the visitors had the bases loaded.

in the top of the fourth. Three Wayne miscues aided Laurel in loading the sacks. First baseman Jerry Stanley, second baseman Sterling Stolpe and pitcher Scot Thompson got on before Roland halted Laurel's drive. One frame earlier, Laurel had men on first and second again with the help of Wayne errors. Third baseman Robin Gade and second baseman Greg Wendel were on second and first, but Gade was picked off, and then Roland struck out the side.

Wayne, 10-2, took a 2-0 lead when catcher Mike Meyers hit a

two run double Roland made it 3-0 after walking and crossing the plate on left fielder Marly Hansen's sacrifice fly.

In the fourth Wayne unloaded nine runs on five hits. Hansen, shortstop Kim Baker and second baseman Earle Overin singled to score the first three. Center fielder Gordie Cook doubled to score another and Roland and right fielder Kerry Jech drove in one run each.

Laurel finishes with a 2-10 mark.

Overall, the Legion stands a 14-7 after suffering its seventh loss, 5-4, Wednesday night against Decatur.

Wayne had a 4-3 lead going into the bottom of the fifth when the home team scored two runs. Cook was the top hitter for the locals, smashing a single to score the team's first run in the first before heading home on a passed ball.

Decatur whittled the lead to one in the bottom of the first, scoring on an error, then went ahead 3-2 in the second when Wayne pitcher Randy Nelson gave up two hits, hit two batters and walked one.

Wayne regained the lead in the fourth on runs by Cook and Meyer. Cook scored on an error and Meyer came home on Roland's single.

Although Wayne's teams are officially finished in league play, both will play at home tonight (Monday) in warmups for this week's district play. The Midgets are slated to go against West Point, followed by the Legion Coleridge game. First game starts at 5:30 p.m.

## NNLL to Set Playoff Date

The Northeast Nebraska Little League will determine the site and date for this year's seven team Midget playoffs, to night (Monday) at Martinsburg. Representatives from Allen, Martinsburg, Newcastle, Emerson, Hubbard, Ponca and Jackson are expected to attend the 8 p.m. meeting.

## Weather Not Hurting State's Ducklings

Dry weather has hurt just about everyone and everything in Nebraska, but its effect on the state's duck production has not been as extreme as one might expect, according to the Game and Parks Commission.

The severe part of the dry spell did not hit until after most broods of ducklings were old enough to move from marshes to larger, more permanent bodies of water. "We've undoubtedly had some increased duckling mortality because of the dry weather, but it was probably not excessive," said Ken Johnson, chief of the Commission's Terrestrial Wildlife Division. "It will not be a boom year for duck production, but it will not be a bust, either," he added.

### Eaton Helps NNBL All-Stars To 20-14 Victory

Wakefield's Rob Eaton blasted one of five home runs for the Northeast Nebraska Baseball League all stars as the NNBL downed the Dodge County all stars, 20-14, Wednesday night at Dodge.

Eaton, who led batters in times at bat with six, connected for three hits, including a pair of singles.

NNBL took an 11-0 lead in the first inning on nine hits and five Dodge errors.

Wayne's town team led the list of players on the 18 man roster, placing five Shortstop Terry Luff led locals with two hits in three at bats. Bob Weisenberg, Randy Helgren and Randy Benish each collected a hit while Dennis Paul went hitless.

Another area player seeing action was Allen's Kevin Hill, who got one hit.

## Winside Midgets Upset Pender, 2-1

Winside Midgets scored an upset victory over third-place Pender in the Ralph Bishop League, nipping the visitors 2-1 Friday night.

Pitcher Tyler Frevert hurled six strikeouts while giving up only three hits in the five-inning match at Winside. Winside took an early 2-0 command in the first when John Gallop and Bob Hoffman tallied runs on a single and double respectively.

Pender's only score came in the top of the fourth on a pair of singles to finish its season record at 9-5.

Winside, currently seventh in the eight-team league, is 4-9 Tuesday night both the Legion and Midgets are scheduled to complete their seasons in a home makeup game with Wakefield.

However, Winside's Legion still will be one game short of its scheduled 12 game season.

A power failure caused the lights to go out in the second inning with Winside leading 4-2. According to coach Wayne Denklau, the power was restored about an hour after the

blackout, but both teams decided to quit. "I doubt if we will make up the game since districts are this week," Denklau said.

As a result Winside will be 4-6 heading into Tuesday's final league game.

**POLLUTION IS A MENACE TO ALL AMERICANS ...  
NOT JUST THOSE IN THE "WRONG" NEIGHBORHOODS**

Out of sight, out of mind. Perhaps ugly scenes like this are never viewed by most of us but they do exist. They are a menace, not just to those who live or work in the vicinity of polluted areas, but to all of us. You can't isolate something like pollution . . . it spreads its insidious filth through every level of society, contaminating our air, water, and land today and threatening disastrous consequences for generations to come. We must *all* mobilize against the elements that contribute to pollution — beginning with the empty beer can tossed out of a car window, to the conditions that permit rat-infested slum areas. Our environment is a precious heritage . . . let's preserve it for ourselves and for future Americans!

## Luncheon Work

MAKING TABLE DECORATIONS for Friday's Farm Ladies Appreciation Luncheon are Mrs. Jack Langemeier, left and Mrs. Fred Gildersleeve, members of the committee which has been in charge of getting ready for the Chamber of Commerce event. Farm women in the Wayne area are being invited to attend by local businessmen, but those who have not yet received invitations or who have not been to Wayne in recent days may attend by calling the Chamber office and requesting tickets. Any Chamber members who would like to help sponsor the event should get in touch with the Chamber office. The luncheon, scheduled for Wayne State's Student Union at 1 p.m., is the first ever sponsored by the Chamber. Its aim is to show area farm women that local businessmen appreciate them.

## Hot Weather Doesn't Halt Old Settlers Reunion

The weatherman is the only person who did not live up to his part of the bargain at the 74th annual Old Settlers Reunion at Winside.

Instead of cooling off the two-day event, Wednesday and Thursday, weather sent hot winds and soaring temperatures to greet the crowd.

Officials noted that the dry conditions were a main factor in cutting attendance at the reunion which in recent years has drawn record numbers.

It became evident the first night, Wednesday, that unless temperatures dropped on Thursday attendance also would suffer.

The biggest attraction was Thursday morning's children's and grand parade with watchers lining both sides of the street. That night another large crowd gathered for the annual water fights, but this time firemen had to cut short activities to conserve water.

Results of activities during the celebration:

Children's parade: Displays — 1 Tim Voss, 2 Kay and Ann Meierhenry, 3 Lisa Jensen; Pets — 1 Becky Westerhaus, 2 Cathy Goldberg, 3 Debby Westerhaus; Bikes — 1 Lisa Jensen, 2 Karen Reeg, 3 Karmen Reeg.

Grand parade: Church floats — 1 Trinity Lutheran, 2 St. Paul's Lutheran, 3 United Methodist Church, all of Winside; Commercial — 1 Winside Grain and Feed, 2 Busy Bee Furnature of Wayne, 3 Miller's G.W. Market of Winside; clubs — 1 Helping Hands, 2 Center Circle, 3 First Wednesday Coffee, all of Winside; Saddle clubs — 1 Hoskins.

Horse Shoe pitching: Class A — 1 Hack Wilson, Newman Grove; 2 Roy Larsen, Newman Grove; 3 James Troutman, Winside; Class B — Albert Nelson, Wakefield, 2 Larry Vrba, Norfolk, 3 Marvin Nelson, Meadow

Grove; Class C — 1 Art Brummond, Stanton, 2 John Hamm, Carroll, 3 Walther Hamm, Winside.

Tractor pull, 5,000 pound class — 1 Larry Anderson, Hoskins, 2 Monte Pfeiffer, 7,000 pounds — 1 Jerry Grone, Wayne, 2 Gaylen Anderson, Randolph, 3 Richard Behmer, Hoskins, 9,000 pound — 1 Don Asmus, Hoskins, 2 Les Krueger, Randolph, 3 Doug Anderson, Winside, 12,000 pound — 1 Randy Janke, Winside, 2 Dan Bowers, Winside, 3 Dave Asmus, Hoskins, 14,000 — 1 Lowell Olson, Carroll, 2 Charlie Morris, Carroll, 3 Dennis Bowers, Winside; hot rod — 1 William Fuhr, Leigh, 2 Jerry Krueger, Wayne.

Bike races: 13 and over — 1 Mitch Pfeiffer, 10-12 — 1 Jon Meierhenry; nine and under — 1 Jimmy Hawkins; Girls slow — 1 Brenda Voss.

Three-legged race: Father-son — 1 Dennis and Brian Bowers; Mother-daughter — 1 Lois and Joan Bowers.

**IDENTIFICATION:** clockwise from top left, Connie Siebschlag of Norfolk gives it all she has in the girls' rope pulling contest; Dan Mundil of Winside cools off with a cold sip of water; Tim Voss of Winside sits back and enjoys his first-place prize he won in the children's parade; Brian Morse of Winside studies how he plans to win at one of the midway games; Carl Miller performs her twirling act; Jim Troutman of Winside eyes his shot before tossing in the horse shoe pitching contest; and Tim Johnson, of Winside searches for hundreds of pennies scattered during the penny scramble.

**WAYNE COUNTY BOARD PROCEEDINGS**  
Wayne, Nebraska  
July 9, 1974

The Wayne County Board of Commissioners met per adjournment with all members present. The minutes of the preceding meeting were read and approved.

Advance notice of this meeting was published in The Wayne Herald on July 4, 74.

Pastor Doniver Peterson and Pastor Paul Reimers met with the Board concerning the new Region IV Community Mental Health Program. They stated, that if the County was not in the new region, the professional people from the Regional Center in Norfolk would no longer come to Wayne to offer the free counseling provided the Wayne County residents. Commissioner Eddie asked that the signing of the interlocal agreement be delayed until he attended a meeting with State Senators from the 22 County area which was called to find an economical place for the Region office. Motion by Burt to table the interlocal agreement until next meeting. The motion was seconded by Eddie. Motion carried.

The Board, acting as the Board of Equalization, took action on the following described Homestead Exemption: W-55W-24-26-3.

Motion made by Burt to approve the refunding of \$475.70 to the Hoskins Elevator because of overpayment of their 1973 Personal Taxes. Seconded by Eddie. Roll call vote: all yea.

Representatives from the Wayne Hospital Board and from the City of Wayne met with the Board and asked them if they would pay half of the \$3,000 per year that the Benevolent Sisters are asking to operate the ambulances. The County Attorney advised the Board to delay their decision on this until he does some researching. The motion was made by Eddie to table the \$3,000 commitment until the County Attorney turns in his opinion. Motion was seconded by Burt. Motion carried.

The County Board raised the charges for prisoners from other Counties because of the raise in operating expenses mainly caused by the new Wage & Hour Law. The charge will now be \$35.00 per day for the first prisoner, \$20.00 for the second, \$10.00 for the third and \$10.00 for the fourth.

Motion made by Eddie to use Revenue Sharing Funds to pay for a new J.D. 760 scraper. Seconded by Burt. Roll call vote: All yea.

The following officers reports of fees collected during the month of June and remitted to State and County Treasurers were approved as follows:

N. F. Weible, County Clerk	\$1472.20
Joann Ostrander, CDC	46.90
Don Weible, County Sheriff	17.50

The Quarterly Fee Report of Leon F. Meyer, County Treasurer, was examined and approved.

## If you happen across this bridge, watch it

THOSE white speckles in this photograph aren't imperfections in the picture. They are reflections of the sun glistening on the creek way down below this bridge two miles west and two and a half south of Wayne. This hole, almost large enough for a car tire to slip through, is one of two in the bridge. The size of it can be estimated by comparing it with the bridge spikes visible in the lower part of the picture. The bridge was pointed out by an area farmer after he read in The Wayne Herald about another area farmer complaining about the condition of roads in Wayne County. For some more comments on roads in the area, read this week's "A closer look" column elsewhere on this page.

News of Note around Northeast Nebraska

**BANCROFT** Saddle Club's horse show July 14th was described as the "best ever" by club president Gene Nettleman. Nettleman said somewhere between 600 and 900 persons turned out for the show to watch competition in 19 events. Judge for the event was Ron Wisse of Lincoln. announcer was Ervin Smith of Oakland.

**CORN** reached an all time high at Farmers Elevator in Wakefield on Tuesday, selling for \$3 a bushel because of the extremely dry conditions around the state. Soybeans were selling for \$6.20 a bushel.

**WALTER STEFFEN** was named to succeed Harold Kathol as president of the Cedar Catholic High School board of education in election of officers on Monday.

Other officers named were Alfred Rolles as vice president and Sister Pierre Roberts, school principal, as secretary. Father Anthony Tresnak is ex officio treasurer.

New board members are Jerome Feilmeier and Victory Nissen.

**CUMING COUNTY** is readying for the 1974 fair, scheduled for West Point Aug. 22-25. Featured during the fair will be Buckskin Jack's Country Thrill Show, complete with a high diving bull, stunt driving and precision riding.

**MRS. R. E. RODGERS** will head the drive in Randolph to raise funds for the state chapter of the National Cystic Fibrosis Research Foundation. The drive will be held during the month of September. Cystic Fibrosis Month across the nation.

**TEN MEMBERS** of the SLY Youth Group at St. John's Lutheran Church in Pilger attended a youth retreat at Niobrara State Park July 12-14. Taking part in the retreat were Joan Schultz, Joyce Bourek, Judy Koch, Barb Voelker, Cathy Reuter, Mike Sramek, Tim Hiller, Phyllis Koshlmoos, Jody Beckman and Danny Sprick. Adults providing transportation were Mrs. Vernon Beckman, Mr. and Mrs. Don Sprick, Mike Sramek and Clifford Koch.

**THE GLEN ANDERSON** family of Coleridge and the Rodney Hansen family of Hartington hosted 35 4-H members from several counties during a dairy judging workshop on July 9.

Area extension dairy specialist Don Kubik of Wayne took part in the event, giving 4-Hers tips on scoring dairy animals, judging and making official placings.

**PAUL SELLON** and Greg Rudebusch of Randolph attended an orientation program at the University of Nebraska-Lincoln earlier this month. Parents of the two are Mr. and Mrs. Robert Sellon and Mr. and Mrs. Alvin Rudebusch.

**SHOTGUNNING:** Ted Armbruster, former employee at State National Bank in Wayne, has been named president of the Nebraska State Bank in Broken Bow. Armbruster has been executive vice president of the bank since joining it in early 1970. Heard a rumor Terry Karel was walking around delivering mail with some of these new postal logs on. You know, the short legged type. Haven't been able to confirm that rumor yet.

Anybody remember a Mary C. Lipp, now of Billings, Mont? She sent several recipes for our Farmer Feeder Section, plus a few lines "I am busy in my new home. Days are hot, nites cool. They need rain here too, but they do irrigate. Thanks for my Herald — keep it coming." Henry Ley, chairman of the board of State National Bank and state banking director, is still undergoing post operative treatment at Bishop Clarkson Memorial Hospital in Omaha. Ley, who should be out of the hospital in a little over a week, underwent an operation for removal of a lung a few weeks back.

Wayne's city clerk-treasurer, Dan Sherry, was hospitalized Wednesday night. He was still undergoing tests Friday.

**THANKS** to Merlin Wright, former writer at The Wayne Herald, my family and I got an aerial tour of Wayne and Wakefield the other night. Down below were golden old fields shaped like whales and letters of the alphabet, corn fields fresh and green, cereals lacking toward Logan, cattle bunched together at feed banks. It may be turning into a bad year for farmers, but up there you realize the land isn't going to be bothered by one dry year.

**JUST ABOUT** reported a runaway horse to the sheriff's office Tuesday after the animal strayed over around my house and started getting more than friendly with a sick bunch of flowers out front. Found out in time the horse belongs to deputy sheriff Scotty Thompson, or rather to his son. Scotty swears the horse won't eat flowers. Maybe the critter was just kissing them. Wonder if there's an ordinance about keeping horses tied up or on a leash?

prefers that the money be spent to keep the roads in good shape in the first place. Anderson says he isn't a complainer. In fact, he says the fine Wayne County area is a fine place to live, full of friendly people. But the rough roads have been a sore spot with him ever since he moved here about three years back. He says he has traveled a lot of roads, especially between here and Lincoln, and the roads in Wayne County are the roughest "without a doubt."

**I IMAGINE** those comments might prompt a few more, possibly some from the county commissioners who are elected to see to it the roads are kept in decent condition.

I hate to kick a dead horse, but several years ago I backed the idea of closing a bunch of those county roads and letting them go to seed. They could still be used by farmers going from field to field but wouldn't be worth traveling on the way to town and back. Besides saving tax dollars, which could be poured into making the other roads even better, they would increase cover for wildlife. Still think it's a good idea.

**Tire Testing Tough, Thorough**  
A tire that permanently seals its own punctures and another using a new fire cord six times stronger than steel by weight are examples of latest advances in the tire industry.

Still in development stage is a tire that can be run while flat for 50 miles at expressway speeds. This tire is expected to be available as replacement equipment in 1976.

Before new passenger tires are made available to the public, they undergo exhaustive tests that few other consumer products receive. Prototype tires are run thousands of miles on all kinds of road surfaces. Those designed for high speed operation are tested at speeds up to 130 miles per hour.

The tire is subjected to countless turns, starts, stops and skids. It is overloaded, jabbed with plungers, X-rayed, examined by sophisticated instruments and tested in hundreds of other ways.

The tire manufacturers try to duplicate as closely as possible the conditions that motorists encounter most often on the highway. While their tests emphasize durability, wear and traction, they also pay close attention to ride, handling and noise control.

Testing usually begins at the developmental stage. Prototype tires are first run on indoor equipment to discover defects either in individual components or in overall tire design.

If the tire passes these initial tests, a limited number are produced and sent to outdoor testing facilities where they are driven on test vehicles. One tire manufacturer, for example, rolls up more than 350 million tire test miles annually. If the tire continues to perform well, it is then tested in volume lots on commercial fleets and private vehicles.

Once the decision is made to put a new tire into production, it still must pass a series of quality assurance tests before it can be sold. A new tire may be tested for months or even years before it is ready to be introduced to the motoring public.

So they said . . .  
"I am not sure where a federal petroleum bureaucracy would find initiative and expertise, but I do know where it would find the money — in the pockets of the nation's taxpayers."  
— Frank N. Icard, president, American Petroleum Institute

## All the news that's painful to print

It is distressing these days to pick up the newspaper and read still another of those "Your Pay Isn't Keeping Up with the Cost of Living" stories.

Curiously gets the better of us, and we find ourselves scanning the item, making quick arithmetic comparisons and wondering how the family budget managed to survive another bout with inflation.

A sample item from the Associated Press: "A family of four must earn close to \$11,000 now to equal purchasing power of \$5,000 in 1949."

Another family of four, with an income of \$10,000 in 1949, needs \$21,080, after taxes, to stay even.

To impress upon taxpayers that personal living costs are not the only skyrocketing expense, we have figured out that taxpayers must shell out more than twice as much now as 10 years ago just to run the federal government.

For fiscal 1975, the cost of general government for the average U. S. family will run \$97 compared to \$38 in 1965, or an increase of 155 per cent.

Taxpayers get it both ways: Before and after taxes. — By the Chamber of Commerce of the United States.

## OBSERVATIONS

### Luncheon is worthwhile

Farm women from throughout the Wayne area are invited to Friday's luncheon in their honor at Wayne State's Student Center. We hope the event attracts a large number of women off area farms.

The luncheon is a worthwhile event because it fills out what had previously been an incomplete effort by the Chamber of Commerce to show area farm families that local businessmen appreciate their patronage. In past years, there has been appreciation nights for farm men, but women were left out of things, partly because of the lack of adequate space to hold an event open to both men and women.

Many farm women have already been invited to the luncheon, and others will be invited this week by businessmen and have agreed to help sponsor the event. However, women who may not have been invited through an oversight by a businessman or woman who have not been to town in recent days are welcome to attend the luncheon. They are asked to call the Chamber office and request tickets.

Also, some members of the Chamber may not have been contacted about making contributions to help make the luncheon possible. Those who would like to be among the sponsors may call the Chamber office this week.

All in all, the luncheon is something that has been needed for a long time. There are few farmers in the area who would dare say they could operate without the help of their wives and other farm women. It's good that the Chamber has come to realize this and taken steps to recognize those women.
