New Fungicides Now Available

Three fungicides received reg-istrations March 31 for use in Nebraska against specific dis-eases, according to Dr. John Walkins, Extension plant pathol-ogist in the institute of Agricul-fure and Natural Resources.

The University of Nebraska-Lincoln specialist said the fungi-cides are. DuPont Manzate 200, Rohm and Haas Dithane M-45 and Uniroyal Vilavax 25D8. The registretilenes were granited for-use in Nebraska only by the State Department of Agricul-ture's Bureau of Plant Industry.

"Manzate- and Dithane are foliar fungicides for foliar dis-eases of wheat," Watkins said. "The new label provides for their use on wheat leaf fust, tan spot-disease and Septoria leaf

There was a man who lived by the side of the road and sold hot dogs.

He sold very good hot dogs. He put up signs along the highway and advertised in the newspaper telling how good they were.

He stood on the side of the road and cried: "Buy a hot dog, Mister?"

And people bought. He increased his meat and bun

orders. He bought a bigger stove to take care of his trade. He finally got his son home

from college to help him out. But then something happened. His son said, "Father, haven't you been listening to the radio and watching TV?

There's a big depression. The foreign situation is terrible. The domestic situation is worse.

Whereupon the father thought, "Well, my son's been to college, he listens to the radio and watches TV and he ought to know.

So the father cut down on his meat and bun orders, took down his signs and cancelled his newspaper ads and no longer bothered to stand out on the highway to sell his hot dogs. And his hot dog sales fell almost overnight.

"You're right, son" the father said to the boy. "We certainly are in the middle of a great depression.
