### How will this pickpocket be stopped?

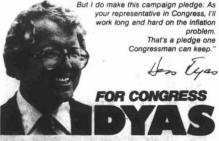

Everyone agrees that Inflation must be stopped. The question is: How do we stop it? Hess Dyas' program for stopping inflation is practical. It is a program which is short on promises, but long on promise

### CONSIDER:

- Hess Dyas deeply believes people have within their power the ability to stop inflation. HESS DYAS WILL NOT ACCEPT IN-FLATION AS A FACT OF LIFE.
- Hess Dyas believes that no matter how hard we try to find an Hess Dyas Delieves that no matter from the deady way out of the inflationary spiral, we will always come back to this basic economic reality: TO CONTROL INFLATION, THE FEDERAL GOVERNMENT MUST REDUCE ITS DEFICIT AND BALANCE ITS BUDGET.
- Hess Dyas believes that in order to balance the federal budget. individual congressmen must have the courage to reduce federal spending across-the-board. AND NOT ACCEPT ANY PORTION OF THE FEDERAL BUDGET AS A SACRED COW.

"I realize that the political trend today is for candidates to promise voters some magic law which will make inflation go away.

But because I'll only be one vote in Congress, I won't try to ride this magic carpet down the campaign trail.
