and next of kin. "The rapid growth of memo-rial giving in Wayne County reflects greater public aware-ness of the need for more resources in the widening fight against cancer," said Mrs. Gild. erstever: "When loved ones fail victim to cancer — which all of us feel the impulse to do something about it. We want fo strike back. Hielp us through memorials and support of the Spring Crussde to put an end to the disease."

Mrs. Fred Glidersleeve, mem-orial chairman for the Wayne County Unit of the American Cancer Society, reports that contributions since Sept. 1, 1978 in Wayne County totaled approx-imately \$750, and will be credi-led to the 1972 campaign. Mrs. Glidersteeve said the Wayne County Unit is grateful to families and individuals of Wayne County who are using the memorial program as a means of honoring those who have died of cancer. "This 'living memo-rial." an expression of love and devolion to the deceased is most fitting." said Mrs Glidersleeve, adding that through such re-membrances and donations pro-grams of research, education to the control of cancer.

**HOW DOES YOUR KITCHEN RATE?** The worksheet below helps you measure work and storage areas in an effort to get an accurate reading on how efficient your kitchen is. A rating of poor or only tair may mean that its time to remodel your kitchen. And if you're going to remodel, now is the time to do it. Atlied Lumber's gigantic kitchen cabinet sale is now on with saving up to 35 percent. Fill in the below worksheet and

1. Work Triangle Good - Fair D Poor

Measure the distance from sink to range. ; from sink to if none of these distance is less than 4' or more than 7', check "good;" if less than 4', check "poor;" if more than 9' (and none less than 4'), check "fair."

2. Counter Space Good Fair Poor

Check "good" if there is at least 30" counter space on each side of sink, at least 18" on opening side of refrigerator, and at least 18" adjacent to range, plus a mixing counter of at least 36" (preferably 42"). The mixing counter space may include the space requirements at other centers. Check "fair" if the counter space is just slightly under. If any center is completely lacking a counter, check "poor."

Measure wall cabinet shelves in feet\_ Measure all base Measure wall cabinet shelves in feet\_\_\_\_\_\_, Measure all base cabinet widths in feet\_\_\_\_\_\_; add 50 percent and write new total \_\_\_\_\_\_\_(This allows for extra storage depth at bottom of cabinets.) Add wall cabinet shelving and adjusted base cabinet total \_\_\_\_\_\_\_ if the fotal storage is less than 50', check "poor." If the total is just over 50' and there is not less than 20' in wall or base cabinets, check "fair." If the kitchen totals well above the 50' minimum, check "good."

4. Drawer Storage 🛛 Good 💭 Fair 🖾 Poor

The above covers basic flaws in kitchens. There are unusual problems pertaining to relationship of the kitchen to adjacent rooms, door swipgs, traffic through kitchen, window placement, lighting and plumbing that are difficult to list in a questionnaire. Legel Description:

put the Lady Lopers on to to stay. The Kittens were then forced to foul in attempt to get the ball back, and thus the Lady Lopers went to the line three times in the last minute, and were successful on four of six at-tempts. Those four points pulled the game from a one point difference to the final margin 67-61.
