Take That, You Brute!

SCHOOL goes attending Wayne Elementary and Middle Schools this fall have a new treat in store for them — a new and modernistic playground. Located north of the elementary school, the playground is loaded with innovative equipment which helps youngsters improve motor coordination, physical fitness, creati-

ty, individuality and freedom of choice. This particular "exercise" (above) provides a way for school students to vent some of their frustrations, thus reducing tension and hyperactivity in the classroom.

Commercial Haulers Pass Along Increases

New Rates to Cut Deficit at Refuse Station by \$14,000

The Wayne city council has taken one step and seriously is considering another which would help offset a \$26,408 deficit at the city's transfer station during its first year operation.

At its regular meeting Tuesday, Aug. 28, the council adopted an ordinance which amends the city's Municipal Code and provides for an increase in rates charged at the transfer station.

These rates are paid by commercial Class A and Class B haulers and by individuals using the facility. According to figures compiled by the city's administration, the increases should provide an additional \$14,000 in revenues for the transfer station.

The garbage collection facility is losing money because of several reasons, city officials explain, one of which is a 13.5 percent rate of inflation.

Garbage disposal rates were established a year ago when the transfer station first opened. They have remained at about the same level as those charged at the city's landfill when it was open.

The seven percent lid bill has caused the city some problems, also. Basically, the

lid prohibits properly tax revenues from increasing more than seven percent.

"What we must do is find an alternative to putting a burden on the taxpayers," City Administrator Darrell Brewington said recently. "But how do you keep up when there is a seven percent lid and inflation is running at 13.5 percent?"

New rates.

As an immediate and temporary solution to the deficit, the council adopted the rates. These are as follows:

Automobiles and station wagons without trailers: \$1.50 per vehicle, up from \$1.

Pickup trucks without sideboards, \$2.50 per vehicle, up from \$2.

Pickup trucks with sideboards, \$4 per vehicle, up from \$3.

Licensed Class A collector trucks, \$2 per cubic yard, up from \$1.

Two-wheel trailers (four cubic yards maximum), \$5 per trailer, up from \$4.

Four-wheel trailers (six cubic yards maximum), \$7 per trailer, up from \$6.

All other trucks, \$2 per cubic yard, up from \$1.

Tires without wheels larger than sizes 10.20, \$2 per tire, up from \$1.50.

Heavy material, including but not limited to plaster, gypsum products, feed mill waste and iron filings weighing more than 400 pounds per cubic yard, \$3 per cubic yard, up from \$2.

Large appliances, furniture and household items, including but not limited to stoves, ovens, refrigerators, dishwashers, clothes washers, clothes dryers, furnaces, air conditioners, including window air conditioners, water heaters, chairs, tables, davenport, sofas, beds, bed springs, mattresses, dressers, rugs, water closets, sinks and bathtubs, \$6 per item, up from \$2.

All other large items including but not limited to motors, engines, motor vehicle parts (motors, transmissions, differentials, wheels, seats, doors, fenders, truck lids and hoods), lawnmowers and other lawn maintenance equipment, septic tanks, large bundles of iron, metal or similar material, motorcycles and bicycles. Large motor vehicles, including but not limited to, automobiles, pickup trucks and trucks or major portions thereof shall not be unloaded or deposited at the solid waste transfer station. All other above mentioned

Early Frost Possible

Rain, Crops Look Good

Despite less-than-normal rainfall for June and July in Wayne County, crop forecasts appear good, says County Agricultural Agent Don Spitz.

Most area farmers feel there is a potential for above average harvests this fall despite some isolated areas of severe hail damage. Spitz said the outlook is "real good" although last year's harvest probably will not be matched.

Ag Agent Spitz said a drawback for a near-record harvest this fall is an early frost. Because crops were planted late last spring and because of a cooler-than-normal summer, the crops have not matured as they would in a normal year.

Spitz estimated that crops are from 10 days to two weeks behind schedule in their maturing.

Rainfall for June was 4.48 inches and compares to 5.71 over a 10-year period ending in 1973. July precipitation was recorded at 2.15 inches while the 10-year average for that month is 3.14.

Pat Gross, manager of Triangle Finance, compiles precipitation figures for the National Weather Bureau. He said averages are figured on a 10-year basis in order to provide an accurate set of figures.

Gross said the rain, while sparse during June and July, has been perfectly timed when it did come. The due point and timidity have been the highest in recent memory, he said, and this has provided

crops with needed moisture during the two dry months.

Since the first of the year, precipitation has been above average. Total for the eight-month period is 24.9 inches and compares to the 10-year average of 20.32. Last year's total through August was only 18.77 and the total through the same period in 1977 was around 24.24 inches.

A major reason for the higher-than-usual total through August was considerable moisture in March. The area experienced a major blizzard in addition to sleet, heavy and wet snow and rain. Total for that month was 4.33 compared to the average of 1.44.

School Board Agenda Set

Wayne Carroll Board of Education will meet at 8 p.m. today (Monday) in regular session at the high school.

Agenda items will include discussion on a recently completed track building, tour of new playground equipment, a follow-up report on the class of 1979, discussion of a tort claim, a teacher resignation, request by a teacher for leave of absence, reports from various committees and any other items that may come before the board.

Also, August turned into one of the wettest months in several years with precipitation of 4.48. Normal is 2.16 inches and rainfall in 1978 was 3:10 while in 1977 it was 4.12.

Precipitation totals for the first eight months of 1977, 1978 and 1979 and the average for those eight months over a 10-year period (1964-73) are as follows:

January	10-year			
	1977	1978	1979	Average
February	.28	.35	1.27	.57
March	4.11	.85	4.33	1.44
April	3.56	3.71	1.95	2.08
May	5.34	3.39	5.34	3.98
June	4.21	1.09	4.48	5.71
July	2.15	5.32	2.15	3.14
August	4.12	3.10	4.48	2.16

City Council Meeting Told

Wayne City Council will meet in regular session at 7:30 p.m. Tuesday at the City Hall. Agenda items will include the following:

Discussion on reconstruction of Nebraska 15 north of Wayne, second reading of an ordinance increasing garbage fees, consideration of several appointments by the mayor, requests for burning permits, vacation of an alley, discussion on Arnie's Subdivision, a resolution involving railroad property, ordinances concerning duplicate building permits and a park ordinance amendment, a professional service agreement, discussion of bad debts and any other items that may come before the council.

Extension Office Promoting Energy Efficiency

Conserving energy is the name of the game today, and the Wayne County Extension office is doing something to help area farmers improve their irrigation systems.

Demonstrations on four center-pivot systems were sponsored by the Extension office Thursday to determine their efficiency, says Agricultural Agent Don Spitz.

After the efficiency was found on each, suggestions were provided by an Area Extension engineer on improving the efficiency.

Spitz said purpose of the four demonstrations was to provide an incentive for a utility company or major farm-oriented or energy-oriented company to sponsor energy efficiency demonstrations on a county-wide basis.

"We're hoping someone will pick this up as a service to irrigation owners in the county," Spitz said. Irrigation systems powered by any fuel source can be monitored, and those checked in the county were electric and natural gas. Other fuels available include propane, diesel, gasoline, etc.

Several factors are involved in the test, and a formula and standards have been determined by the Nebraska Extension Service. These factors include amount of fuel used to pump the water, the amount of water pumped, water pressure, etc.

Spitz said the standards set are for a certain size well, and a flow meter to determine the amount of water used also is a necessity.

Ideally, pumps should get an efficiency rating of 100 percent. However, few systems can meet that criteria.

For example a system in Holt County was measured at 37 percent efficiency, while another elsewhere in the state hit 18 percent efficient. The 37 percent system later was adjusted to 87 percent.

Spitz said a rating of more than 80 percent is considered a breakeven point. If the rating is less than that, experts in irrigation systems can make adjustments on the motors to improve the efficiency.

The Ag Agent said even the newer wells are found to be inefficient, while some of the older wells are more efficient.

He estimates there are about 100 wells in the county, with testing time of about two hours each. For the Extension office to test all wells in the county would be both time consuming and uneconomical, Spitz said.

The Wayne County Public Power District, the Area Extension office and the county Extension office were involved.

JUDD MORIN, Area Extension engineer from Lincoln (above), begins the testing process by monitoring the amount of electricity (or fuel) entering the irrigation system. Using a stopwatch, he timed revolutions of the "mouse" in the meter.

ANOTHER major step in the efficiency testing process is to determine the water pressure when the irrigation system is in operation. The higher the water pressure, the more fuel needed to maintain that pressure.

ONE OF THE final steps in determining the efficiency of an irrigation system is to find the water depth. County Ag Agent Don Spitz (above) uses a special instrument which tells when the water table is located and the water's depth.

'Ordinary' People Shape Destiny of America

RICHARD L. Leshar,
President
Chamber of Commerce
of the United States

Thomas Jefferson, a remarkably brilliant man with an abiding love for his country, once penned these words to his friend John Adams: "I agree with you that there is a natural aristocracy among men. The grounds of these are virtue and talents."

Jefferson was speaking as a true revolutionary, rejecting that old-world idea that power and privilege belong by birthright to a governing elite. And he was also expressing his strong conviction that there are extraordinary possibilities in ordinary people. The small merchant, farmer, printer, blacksmith and carpenter — these were the people he hoped could better their lives and shape America's destiny.

What has become of that noble idea? Are we still encouraging individuals to dream, create, achieve, improve and join together as a nation in the pursuit of excellence? I frankly wonder.

We have just celebrated Labor Day, honoring all those who make America the greatest country in the world. For 24 hours, the nation actually paused to recognize the contributions our farmers, laborers, business people, clerks, scientists and so many others are making. But then it was quickly back to reality, and to a world that, ironically, resembles more and more the one Jefferson and his compatriots rebelled against — one where unchecked power and privilege in the hands of a new elite are gradually smothering the American dream for all who revere it. Consider these facts.

Almost everyone in America agrees that inflation is our single greatest domestic problem; too few understand the federal government promotes inflation because it profits from it. As government's printing and spending of money sends prices up, individuals and businesses seek wage and price increases to offset their new costs. But even though their resulting higher levels of income and profits do not represent a real gain, since they only compensate for inflation, the government automatically taxes them at a higher rate. So bureaucrats have more money to spend on themselves and their programs, but mind you, never quite enough to balance the budget.

What would Jefferson have said about a government grabbing tens of billions of dollars in windfall taxes each year without

even asking the public's permission? But of course we're not asked because we're not supposed to know. If too many people catch on — and get mad — the game might end. So we're constantly being reassured the federal government is not the main source of inflation.

But if that were true, how has the federal bureaucracy become our single biggest spender, borrower and employer, growing nearly 50 percent faster than the underlying economy, while paying salaries averaging 40 percent higher than those in the private sector? And if the cost of government is truly inconsequential, why have taxes shot up so much faster than wages and profits, and why do they now consume the largest share of the family budget? Who's kidding whom?

The federal government understands

perfectly well the impact of its policies. That is why Congress and the White House granted themselves generous pay increases while lecturing us on the virtue of sacrifice. That is why Congress so neatly exempted itself from regulations it insists everyone else obey. And that is why you must pay the huge Social Security tax, increases but federal employees do not, even though a majority of them qualify (through spouse benefits, moonlighting or second careers) for Social Security benefits. What a beautiful game. They never lose!

And here's the knockout punch: Even as government's deficit spending fuels the inflation that detests the fixed values of private pensions, government officials are protecting themselves at your expense. They are committing your tax dollars to

index their own pensions to the rate of inflation. And since federal workers can retire earlier, inflation and time could compound these benefits beyond belief. Twenty years from now, retired federal clerks could be receiving annual incomes of \$100,000. Potential commitments like these represent an economic time bomb just waiting to explode.

We can still salvage Jefferson's dream of a better life, but only by addressing these very serious problems — and by protecting the common interests of all working Americans. Otherwise the new aristocracy, the federal bureaucrats, will have already answered the question, "Why not the best?" by providing the best of all worlds — for themselves.

LETTERS

Sept. 6, 1979

Dear Editor,

I'd like to respond to a letter to the Editor in the Thursday paper where the writer asked the Christian business people to remove any form of pornography or immoral literature from their shelves.

What is pornography? Even the Supreme Court can't decide on an exact definition. What is "filth" to this person may be "art" to others. Some books may be pure trash, while in other great novels, even classics, sex is an important aspect of the story. It's a part of life that can't always be kept behind the bedroom door.

Should every piece of literature with any slight reference to sex be banned? There are books by Christians like Marabelle Morgan and professionals like Masters and Johnson and Dr. Joyce Brothers that have varying degrees of sexual explicitness, yet they can be very helpful to some adult relationships. Where does the store owner draw the line?

It seems that the writer would have the stores remove almost all magazines. Most magazines today (some very respected) feature articles dealing with sex from a clinical or fulfillment standpoint. Are the questions about sex written to Good Housekeeping any more virtuous than those written to the Playboy Advisor? I realize that I've just stated part of the better half of sex literature and the other half is usually vulgar and dull. If a person doesn't like it, he or she can do their best to avoid it. This can be difficult with the coverage

It's given by the media, but the point of my letter is — censorship can be a dangerous thing. The freedom of the press is an important part of our democracy.

To boycott and pressure Wayne business owners alone to remove this "filth" that the writer claims to be "destroying the moral fiber of our nation" would be useless because Wayne is not an island.

There has been no evidence that pornography has led to teenage pregnancy, rape or a collapse of morals. If anything, over exposure could be more effective than a cold shower. It's the "forbidden fruit" that has the appeal.

sept. 4,

Dear Editor:

The 1979 Muscular Dystrophy Telethon proved another great success. For Wayne and the surrounding community it was a definite success. Again, Wayne showed it has a great and large heart for those who need help. The total gift from Wayne was in excess of \$1600. Another record — and so many in Wayne made it possible. We hope we leave no one out as we thank — The First National Bank, The State National Bank, Keup's TV, KTCH, Jack March, and the 27 young people who went door to door in 90 degree weather and collected \$500.

Thanks to all.

Nebraska A Leader in Agriculture

Nebraska farmers and ranchers marketed a record \$4.6 billion worth of commodities in 1978 to rank sixth among all the states in cash receipts, a gain of 14 percent over 1977 and 13 percent above the previous record level of \$4.07 billion in 1974.

The latest issue of "Nebraska Agricultural Statistics" compiled annually by the Nebraska Crop and Livestock Reporting Service and the Nebraska Department of Agriculture, is as usual full of facts that say that Nebraska is a tremendous agricultural state and that farmers and ranchers in general will rate 1978 as one of their better years.

Of the \$4.6 billion marketing total, \$2.9 billion or 63 percent came from marketings of livestock and livestock products, a good reflection of the comeback made by the state's livestock industry, particularly cattle, after several lean years. Nebraska ranked second in fed cattle marketings in 1978 and second in the number of cattle on feed Jan. 1, 1979. In hog production, the state ranked sixth in 1978 in total inventory numbers and in the number of pigs saved during the year. 5.4 million head.

The 1978 corn crop was an all-time whopper at 740.1 million bushels with an average yield per acre of 113 bushels. The figure reflects the fact that 70 percent of

the state's 6.55 million acres of corn last year was irrigated as compared to only about 52 percent that was irrigated in the same year of 1974. Irrigation has boosted Nebraska's corn production third place nationally and it will probably stabilize at high production levels as long as the water and fuel supplies for the pumps hold out.

Our state was also third in sorghum production with a 137.2 million bushel crop. Wheat producers with an 81.6 million bushel crop in 1978 ranked seventh nationally, a spot they have maintained for a number of years.

Some of the other rankings included: fourth in dry edible bean production, fifth in hay production, fifth in corn silage, sixth in alfalfa hay, eighth in sugar beets, eighth in honey, and 12th in soybeans. For many years, the state has been No. 1 in production of Great Northern beans. Last year, popcorn growers ranked second in the nation with their production, exceeded only by Indiana growers whom they had topped for No. 1 honors in 1977.

As every farmer and businessman knows, it is what one has at the end of the year in net income that counts. The state figures on production expenses for 1978 weren't in when the book was printed, but nationally farm production expenses were estimated at nine percent over 1977.

Inflation being what it is, it is reasonably safe to guess that last year's net did not exceed or probably even approach the record year of 1973 when the average net income per farm unit in Nebraska was \$17,798. In 1977 the average net per unit was \$7,017. In that year, gross receipts of all farm commodities was \$3.9 billion while production expenses were also estimated at \$3.9 billion, a losing year for many farm and ranch operators.

For those who wonder where all the farmer's money goes, the following are 1977 production expense totals in Nebraska: \$639 million for feed, \$698 million for livestock purchased, \$125 million for seed, \$264 million for fertilizers, \$369 million for repairs and operation of buildings and equipment, including fuels, \$507 million for "miscellaneous" which includes a multitude of items: \$148 million for hired labor; \$203 million for taxes on farm property; \$148 million for interest on farm mortgage debt; and \$321 million for net rent on non farm land/ords.

The number of farm units in the state as of Jan. 1 of this year is estimated at 63,000, a preliminary figure which would indicate a decline of 2,000 units from the 65,000 of 1978. That is one of the most discouraging figures in the 1979 report.

the pied typer

Call this a form of political suicide if you will, but the Pied Typer is coming out of the closet.

I'm a Missouri fan. I love the Tigers of 'ol' Mizzou.

This is dangerous information to divulge in a state that eats, sleeps and babbles various shades of red most of the year. But it's a secret I can no longer keep hidden. There, I feel better.

Now don't get me wrong, fans if Nebraska has a chance to finish in the top five in the country (and Sports Illustrated thinks it will), then I'll be behind them 100 percent. That is, unless Missouri is fighting for one of those top spots. But the chances of that are about as likely as Randy's Recap making weekly predictions on games of area schools.

I was soured on being a Harry Husker when the famous (or is that infamous) Johnny Rodgers was a star. Granted, he was possibly the best wide receiver and kickoff and punt returner in Nebraska football history. But as most of you recall, he also was fleet of foot when it came to robbing service stations.

Now I'm basing a moral kind of guy. And if that had been me getting into trouble with the law, do you think I would have been walking the streets? Nebraska coaches and, I'm afraid to say, law officials turned a blind eye to his antics off the field.

Somewhere in our great history is written that all men are created equal and should be held equally in the eyes of the law. Get my point?

By now, you all notice the Missouri dialect slip in there at saying, "Yes, but what about Warren Powers and that mini-scandal. Wasn't the law broken there?"

I don't condone that either. But Powers is paying the price (\$50,000), something that Rodgers never did. And ironically, he (Rodgers) recently bought himself a gasoline station in California for him and his friends.

The Powers fiasco is a black mark on Missouri football, but contract jumping is becoming quite common in athletics nowadays. That doesn't make it right, I know. There just isn't no comparison between ripping off a gas station and jumping a contract, though.

And as for Iowa football? My respect for Iowa State is based on its fans, and they have been known to be as disrespectful as The Big Red. If the fans clean up their act, I'd give them a second glance.

I have great respect for University of Iowa fans. Where else in the country can a team without a winning record draw capacity crowds week after week. If the coaches and players ever "get it together," then watch out. That will be one of the hottest sports stories on record.

Just a couple of predictions to mull over: First, I doubt if 'ol' Mizzou will be as good as they say. For too many years now, the Tigers have had problems on offense. Defense is traditionally strong there, but Missouri offense has been too inconsistent for too many years. At best, the Tigers will finish third. I hope I'm wrong.

And I have to give the nod to Nebraska on that matchup this year. Missouri has surprised the pants off Nebraska the past several years, and the Huskers won't stand for it again. I hope I'm wrong. Last year's game was the Big Red from facing probably Penn State in the Orange Bowl and the game was more or less anti-climatic with Oklahoma.

Will Nebraska finish high in the top 10 this year? I doubt it. There is a lot of unproven talent on the Husker team this year. To finish third in the country means a team has to have it all going for them every week. The Huskers have been inconsistent ever since Osborne took over.

Osborne is a quality coach and any team in the nation would trip over their feet to get him. But Osborne is no Bob Devaney.

Other predictions. Four Big Eight teams will go to bowl games. Oklahoma to the Orange Bowl, Nebraska, Missouri, and Colorado also will have extended seasons.

Teams I like to see lose: Notre Dame, Alabama, Ohio State, Oakland Raiders, Dallas Cowboys, Minnesota Vikings, and all opponents of Wayne High Blue Devils and Wayne State Wildcats.

WORK is nearly finished on a \$230,000 addition to West Point's municipal water treatment plant being built to increase the city's capacity to remove iron and manganese from its water. The new treatment plant includes a 36 x 58 building to house four pumps and, eventually, three additional filters. The concrete storage plant just beside it is 50 feet in diameter, 18 feet high, and holds 264,000 gallons of water.

Announcing a new interest rate for U.S. Savings Bonds: 6 1/2%

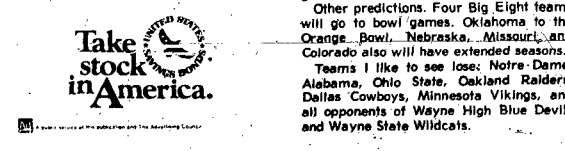

Here's some great news for all Americans. On June 1, 1979, the interest rate on United States Savings Bonds, Series E and H, was increased to 6 1/2%.

The 6 1/2% rate will apply to new Bonds and to all outstanding ones, too. For Series E Bonds that have not reached original maturity of 5 years, the improved yield will be received as a bonus when the Bonds mature. For older Bonds and Notes, and for Series H Bonds, the increase takes effect with their next semiannual interest period, beginning on or after June 1, 1979.

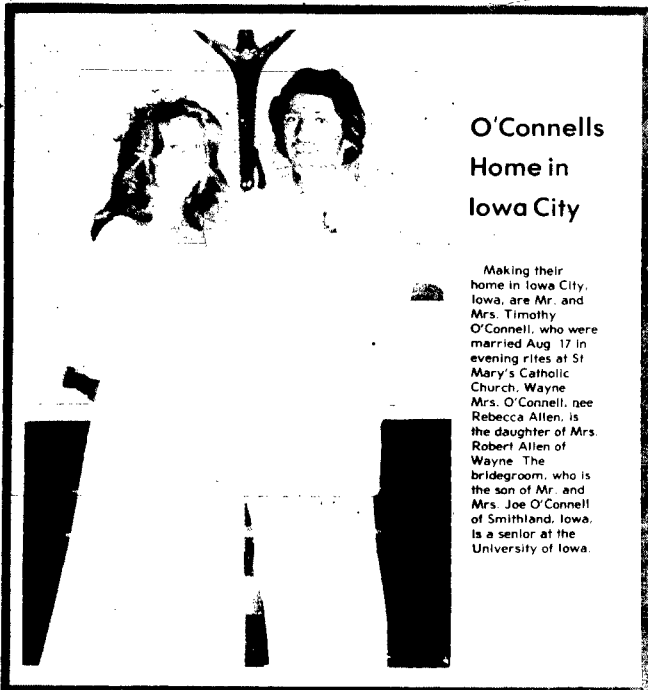

So you see, Bonds are getting better all the time. And when you buy Savings Bonds through the Payroll Savings Plan at work, or the Bonds-a-Month Plan where you bank, Bonds are still the most convenient, easiest, safest way to save.

Bonds are a better buy than ever before.

Take stock in America.

WSC Seniors Can Get Aid

Wayne State College seniors interested in attending graduate school next fall may be able to obtain financial aid through the Danforth Foundation of St. Louis, Mo.

Inquiries for Danforth Fellowships, to be awarded by the Danforth Foundation in April, 1980, are being accepted through Dr. James Phifer, WSC liaison officer and chairman of the WSC Division of Social Sciences.

The fellowships are open to all qualified persons having a serious interest in college and university teaching careers and in studying for a Ph.D. in a field common to an undergraduate liberal arts curriculum in the U.S.

About 55-60 fellowships will be awarded nationally to college seniors nominated by campus liaison officers. Another 40-45 will be awarded to post-baccalaureate persons applying directly to the Danforth Foundation. About 25 percent of the 1980 awards are expected to be presented to qualified persons from racial and ethnic minorities.

Applicants for the baccalaureate awards must be college seniors and may not have taken graduate level classes.

The fellowships are one-year awards, renewable until completion of the advanced degree or for a maximum of four years. Stipends are based on individual need but will not exceed \$2,500 for single recipients and married students with no children. Married recipients with children can receive up to \$3,500. The fellowships also cover required tuition and fees.

Those WSC seniors interested in applying should contact Dr. James Phifer of the Wayne State Social Science Division before October 15.

Impressive Start

Trojans Manhandle Homer

The Redshirts, Wakefield's number one defensive unit, lived up to their name and the Trojan offense sparked as Wakefield racked up an impressive 34-0 shutout win over Homer to open its season Friday night in Homer.

The Trojans' starting and reserve defenses held Homer to 74 total yards while the offensive units rushed for 198 yards and passed for another 167 yards.

"We're really happy with the game. We have some little things to iron out but everyone put a good effort into it," coach John Torczon said. "All of our receivers did a super job. Scott Hallstrom made four receptions for 113 yards and Rick Guy made a couple of one-handed catches that were out of sight. Our defense made a real good team effort."

Wakefield wasted no time, demonstrating its offensive punch. On the third play from scrimmage, quarterback Van Portwood passed to Hallstrom for a 34 yard touchdown play. A missed conversion attempt left the score at 6-0. The drive covered 50 yards.

The Trojans put eight more points on the scoreboard in the first quarter with a 65 yard drive in two plays. Larry Soderberg ran the ball 62 yards for the touchdown. Portwood passed to Dean Miller for the two-point conversion.

The next Wakefield touchdown was scored in the second quarter on what coach Torczon described as "a picture perfect play".

Portwood faded back in the pocket to pass and found Hallstrom way downfield. A perfect pass and a fine catch gave Wakefield a 43-yard touchdown play. Hallstrom kicked the point-after-touchdown.

The Trojan offense kept humming in the second quarter and scored another touchdown on a 24 yard pass from Portwood to Guy. Hallstrom, again kicked the PAT for a 28-0 halftime.

The scoring slowed down in the second half as Torczon played his reserve offensive and defensive units in the third and fourth quarters. The third quarter was scoreless but Wakefield added six final points in the fourth period on a 12 yard touchdown pass from reserve quarterback Mark Starzl to Brent Kahl. An unsuccessful PAT left the final score at 34-0.

Larry Soderberg was the leading rusher with 107 yards in six carries. Bobby Sherer added 52 yards in 11 carries. Portwood rushed for 21 yards in five carries.

Wayne Game Postponed

More Electricity On Sidelines Than In Lighting

It was the opening game of the 1979 football season for the Wayne Blue Devils. The Devils lined up on the sidelines, keyed up for the big game. Their opponents from South Sioux City were lined up along their sideline.

The national anthem was played and the huge crowds supporting both schools began to cheer, anxiously awaiting the kickoff of the 1979 season. They waited for 50 minutes and Saturday they were still waiting for the outcome of the game.

Essentially, it takes two teams, some referees, a football field and a football to play a game. And of course, for night games, it takes lights. That was the only thing missing. Memorial Stadium at Wayne State College was without lights, Friday night, putting a bind on the season opener for Wayne and South Sioux City.

The opening kickoff, scheduled for 7:30, was delayed 50 minutes because of a power outage at the football field. The lights and electronic scoreboard were inoperable until then. Finally, the lighting was momentarily restored and the game began. South Sioux scored a touchdown on its first series and led 6-0 after the PAT attempt failed.

That's where the score remained until Saturday evening. The two teams engaged in a defensive battle until the lights went out late in the first quarter. Twenty minutes later, the game was officially postponed. The game was scheduled to be resumed Saturday night at either Wayne or South Sioux, depending on the lighting situation.

When the game picked up Saturday, South Sioux had possession of the ball, fourth down and 18 yards to go for a first down at their own 35 yard line. The clock showed 1:23 left in the first quarter.

Carr Runs Wild

Eagles Outrun Winside

The Allen Eagles, hoping for their first winning season in eight years, opened their 1979 campaign on the right track with a big 36-18 win over Winside, on home turf, Friday night.

Greg Carr, an All-State honorable mention running back last season, rushed for 203 yards on 16 carries. He also made eight pass receptions and 18 returns on kicks. Quarterback Lee Hansen completed three of seven passes with one interception for 32 yards. He rushed for 53 yards in eight carries. Terry Brewer added 39 yards rushing to complement Carr's attack. Bob Stewart was the top receiver with 20 yards.

Defensive leaders for the Eagles were Ken Hohenstein, Greg Carr, Hansen, Scott Carr, Rick Gotch, Brewer, Randy Smith, Robert Malcom and Bruce Malcom. Allen coaches Bart Kneiff and Gene Lauritzen said they were proud of the job their line did.

Winside was led in rushing by Brian Foote with 74 yards on five carries. Bob Hawkins grabbed five receptions for 96 yards. Quarterback Lonnie Carstens completed nine passes in 23 attempts for 129 yards with two interceptions.

Allen scored its first touchdown with four minutes elapsed in the first quarter. Greg Carr and Brewer ran the ball down field with good blocking from their offensive line. Carr ran the

ball in from two yards out and kicked the point after touchdown attempt for a 7-0 lead.

Carr scored again on a 79-yard draw play and kicked the extra point for a 14-0 second quarter lead. Quarterback Hansen added to the point total with a 31-yard touchdown run on an option play. A Carr PAT made the

score 21-0.

Winside scored its first touchdown only 30 seconds later when Brian Foote ran 61 yards for the TD. A two-point conversion attempt failed leaving the score at 21-6. The draw play worked again for Carr as he galloped 65 yards for his third touchdown of the night. Rob Linafelter kicked the PAT. A safety by the Allen defense ended the first half scoring at 30-6.

With 4:14 remaining in the third quarter, Randy Smith recovered a fumble and returned the recovery 82 yards for a TD. The PAT was missed and the score stood at 36-6.

The Wildcats of Winside scored the final two touchdowns. Quarterback Lonnie Carstens hit Bob Hawkins for a 47 yard pass play to Allen's one yard line. Carstens ran the ball in on a quarterback sneak. The PAT failed. The final score came late in the game when Mark Koch intercepted a pass and pitched to Byron Schellenberg for a 35 yard touchdown, making the final score 36-18.

Bears Stumble In Opener

By Willis Mahannah

Wayne State Sports Editor
In the game of football, it's not often that an offensive unit has a 14 point lead to work with, even before they step onto the field. That was the case Friday night as Randolph spoiled Laurel's 1979 football debut, winning 41-7 on the Bears' home turf.

Before the scoreboard clock had time to tick off five minutes in the opening quarter, Randolph's defense had scored twice — the first on Rich Lange's 57-yard punt return, the second on John Lackas' 67-yard gallop following a pass interception. Randolph's Conley Seyl passed to Gene Anderson for the two point conversion following Lackas' score, and with 7:15 remaining in the first quarter, Randolph had a 14-0 lead.

Lightning almost struck a third time for Randolph after holding Laurel deep into its own territory on the Bears' third possession. Laurel's punter booted the ball only seven yards and Cardinal Brian Bergstadt returned it to the Bears' 15-yard line. Laurel's defense stymied that opportunity, however.

Neither team found much offensive success until the mid-

die of the second period. The Bear's defense did a good job of keeping the Cardinals from scoring on two earlier occasions, but with 8:20 remaining in the half, Randolph's John Lackas broke loose for a 55 yard touchdown run. The PAT was good as Randolph expanded its lead to 21-0.

Laurel took the ensuing kick off and put together a drive to the Cardinals' 46-yard line. Randolph's defense held, however, and Laurel was forced to punt. Fortunately for Laurel, the punt bounced off a Randolph player and a Laurel player recovered on the Cardinal 25 yard line.

Seven tough running plays later, Laurel's Mark McCorkin dale carried the ball in from one yard out, and Laurel was on the scoreboard.
Scott Sherry booted the PAT and the half ended 21-7 in favor of Randolph.

The second half was all Randolph's as the Cards scored three more touchdowns to Laurel's none.
Randolph took the opening kick of the second half and marched 50 yards for its fourth touchdown of the night. Brian Moore took it in from 32 yards out. The PAT failed and Randolph led 27-7.

Laurel's offense managed to put together two sustained drives in the second half, but each was halted as a result of turnovers.
A pass interception gave Randolph the ball on its own 15-yard line, but it took them just seven plays to go eighty-five yards for their fifth score of the game. The touchdown came on Conley Seyl's 16 yard scamper. The PAT was good, and the score was now 34-7.

With 8 minutes remaining in the game, Laurel was forced to go to the air in desperation.

It didn't help, however, as Randolph's Randy Green intercepted Clark Maxom's pass and ran it back 45 yards for the Cardinal's sixth and final score of the game. The PAT was good

Wayne State Netters Open At Home Wednesday

Volleyball powerhouse University of Nebraska at Omaha and Doane College meet Wayne State College in the opening match of the 1979 season at 5 p.m. Wednesday in Rice Auditorium.

UNO, 28-19-1 in 1978, returns 11 players from last year's squad of 15. Vicki Hamm a sophomore, Cook, Neb., will lead the Lady Mavericks into action. Hamm led UNO in several offensive categories last season. The Lady Mavs' also feature a new coach, Janice Kruger, who came to UNO from Platte College where her team compiled at 23-9 record in 1978.

WSC head coach Berniece Fulton said she feels the UNO-WSC match will be a good test for her squad. The Wildkittens return three starters from last year's squad that finished the season with a 24-13 overall record.

FANS, COACHES AND ATHLETES have probably been looking for fall sports previews and wondered what the heck is wrong with The Wayne Herald. Preparation began several weeks ago on the 1979 fall sports guide. It was decided to run a color picture on the cover of the special section. The color picture ultimately set us back on the release date of the section. The photograph was taken in Mid-August and we expected to have it ready in time to run the special section in last Thursday's paper. Printing a color picture in a newspaper is a much more difficult task than the public realizes. I don't fully understand the process myself but do know it takes time. The film was developed and sent to a company in Omaha for preparation. The company makes what is called a four color separation of the photograph so it can be run on a press. Unfortunately, the separation was not completed until Friday morning — much too late to run in the Thursday paper. Thus, the 1979 Wayne Herald Fall

Sports Guide can be found as a special insert in today's paper. Sorry about the delay. On and on and on and on and on... Way back in 1920, two National League baseball teams set three records that still stand today. The Brooklyn Robins and the Boston Braves sparred for 26 innings in an effort to win the game before a chilled crowd of about 2,000. When it became too dark to play, the score was still tied 1-1, as it had been at the end of every inning since the sixth. Pitchers Joe Oeschger for Boston and Leon Cadore for Brooklyn went the entire distance, with Oeschger allowing only nine hits. The Braves rapped 15 hits off Cadore but managed only one run. Only twice did it look as though the game might have a decisive outcome. In the ninth, Boston filled the bases with one out when Charlie Pick grounded to Ivy Olson for a double play. Boston had a scare in the 17th inning with bases loaded but a double play ended that threat. The records set were: most innings

pitched in one game—26 by each pitcher; most batters faced in one game—97 by Cadore; longest game in innings: 26. **EVERY FOOTBALL** prognosticator in the country seems to be making Top 20 college football predictions so I guess it's my turn. Barry Switzer keeps downplaying his Oklahoma Sooners, saying they're overrated, so all of the predictors are picking Southern Cal number one. Because I like to be different, I'll tab Oklahoma number one. The rest of my predictions:

1. Oklahoma	11. Michigan
2. Oklahoma State	12. Houston
3. Texas	13. Arkansas
4. Southern Cal	14. Stanford
5. Purdue	15. Ohio State
6. Alabama	16. Georgia

Chamber Honors First Savings

WAYNE Chamber of Commerce President Glen Ellingson (right) presented a clock to Ron Sladek, president of First Savings Co., Seventh and Main Streets. The clock was presented at the weekly Chamber coffee Friday in honor of the recent grand opening of the facility. Other chamber members pictured are from left: Bob Sherry (partially hidden), Sam Swartz, Dale Stoltenberg, John Nigh (partially hidden).

Land Bank Sets Annual Meeting

Annual meeting of the Federal Land Bank Association of Norfolk will be held at three locations, O'Neill, Hartington, and Norfolk, this year to make it as convenient as possible for the members to attend.

The Norfolk meeting is primarily for stockholders in Antelope, Madison, Pierce, Stanton and Wayne counties. It is scheduled to be held at noon, Thursday, Sept. 13, at the Villa Inn in Norfolk.

The Hartington meeting is primarily for stockholders in Cedar and Knox counties. It is scheduled to be held Wednesday evening, Sept. 12, at the Holy Trinity Parish Center in Hartington.

Dinner will be served at each meeting followed by a business meeting and an election of seven directors.

George White of Plainview,

chairman of the Norfolk Land Bank Association Board of Directors, will preside at the annual business meeting during which members will hear a report on Association operations by the President, Benson G. Thornton, of Norfolk.

Guest speaker at the Hartington meeting will be Roger L. Welsh, professor at the University of Nebraska. He will entertain with his humorous songs and stories of the Great Nebraska Plains.

Guest speaker at the Norfolk meeting will be Dean Raber, vice president and secretary of the Federal Land Bank of Omaha.

In addition to Chairman George White, other directors are Fred Schelleppeer, vice chairman Stanton, Claude Cole, O'Neill, Marvin Hagge, Bloomfield, James Kathol, Hartington, Leonard Kerkman, Clearwater and John Werner, Battle Creek.

The Norfolk Federal Land Bank Association makes long term real estate loans to farmers and ranchers. The Association is entirely owned by its nearly 2,700 member borrowers.

The magic of compound interest.

Did you know you can save a fixed amount regularly for 15 years then withdraw the same fixed amount for the next 15 years and still wind up with more than you saved? Amazing? No, just the "magic" of compounding interest in a Columbus Federal savings account.

This chart shows how:

15 YEARS OF SAVING				15 YEARS OF WITHDRAWING			
Year No.	Amount Saved Yearly	Earnings Added While Saving	Total in Account*	Year No.	Amount Withdrawn Yearly	Earnings Added Even While Withdrawing	Total in Account*
1	1,200.00	36.21	1,236.21	1	1,200.00	1,527.03	28,270.12

Laurel-Concord High School Elects Officers for 1979-80

Care Center Has Picnic

RESIDENTS of Wayne Care Center picnicked at Bressler Park Thursday evening. Staff members accompanied the group and helped serve the meal. Care Center Administrator Tim Boyle said the outing was the first annual Harvest Picnic.

The students of Laurel-Concord High School have elected class officers for the 1979-80 school year. They are Senior Class, Roxie Kraemer, president; Lon Swanson, vice president; Deb Thompson, secretary; Sharon Taylor, treasurer; Julie Stohler, LaVonne Bloom, Steve Stark and Todd Nelson, student council.

Junior Class, Matt Johnson, president; Shelly Kraemer, vice president; Joey Olsen, secretary; Rhonda Bowman, Jamie Johnson and Scott Sherry, student council.

Sophomore class, Alice George, president; Scott Haahr, vice president; Ann Schultz, secretary; Julie Fredrickson and Scott Anderson student council.

1979 Fall Sports Guide

As the football season begins in Northeast Nebraska, high school cheerleaders tune up their vocal chords and practice their routines in support of their teams. These young ladies can be seen at football games from September to October leading the cheers of their respective student bodies. Pictured from left to right by the victory bell are: Sonya Ellis of Allen, Karen Mackey of Laurel, Donna Kieckhafer of Wakefield, Stacy Jacobmeier of Wayne and Corrine George of Winside. All five girls are head cheerleaders. For information on area football and volleyball teams turn to the inside of this special supplement. Schools are listed alphabetically.

Winning Attitudes

Eagles Look Improved in '79

No one was more disappointed with last year's 3-6 football record than the Allen players and coaches themselves. This year, the Eagles should be stronger and may be a surprise contender in the Lewis Division of the Lewis and Clark Conference.

Gone from last year's team are All-Conference player Kevin Kraemer and honorable mention selection Richard Stewart. Some of the strong spots on this year's team should be All-Conference and All-State honorable mention running back Greg Carr and All-Conference tackle Ken Hohenstein.

Carr carried the ball 103 times last season and racked up 659 yards rushing. He also totaled 142 yards on pass receptions. He was the third leading

scorer in the Lewis and Clark Conference with nine touchdowns, four PAT's, a two point conversion, a safety and a field goal for 65 total points. Carr and Hohenstein were two of the leading defensive standouts. Both are seniors this year.

Allen also returns an experienced signal caller in senior Lee Hansen. Hansen completed 30 passes in 68 attempts for 249 yards last season and added 143 yards rushing. He also scored 54 points. Junior running back Terry Brewer should add some offensive spark to the team. He joined Carr and graduate Richard Stewart in the backfield last season. Scott Carr, Mark Koch and Pat Onderstal are also expected to help the rushing attack.

Last year, the Eagles turned the ball over only 16 times compared to 30 for their opponents. That mark ranked them second in the conference. Battling for end positions are Frank Lanser, Bob Stewart and Allen's punter Rob Linafelter.

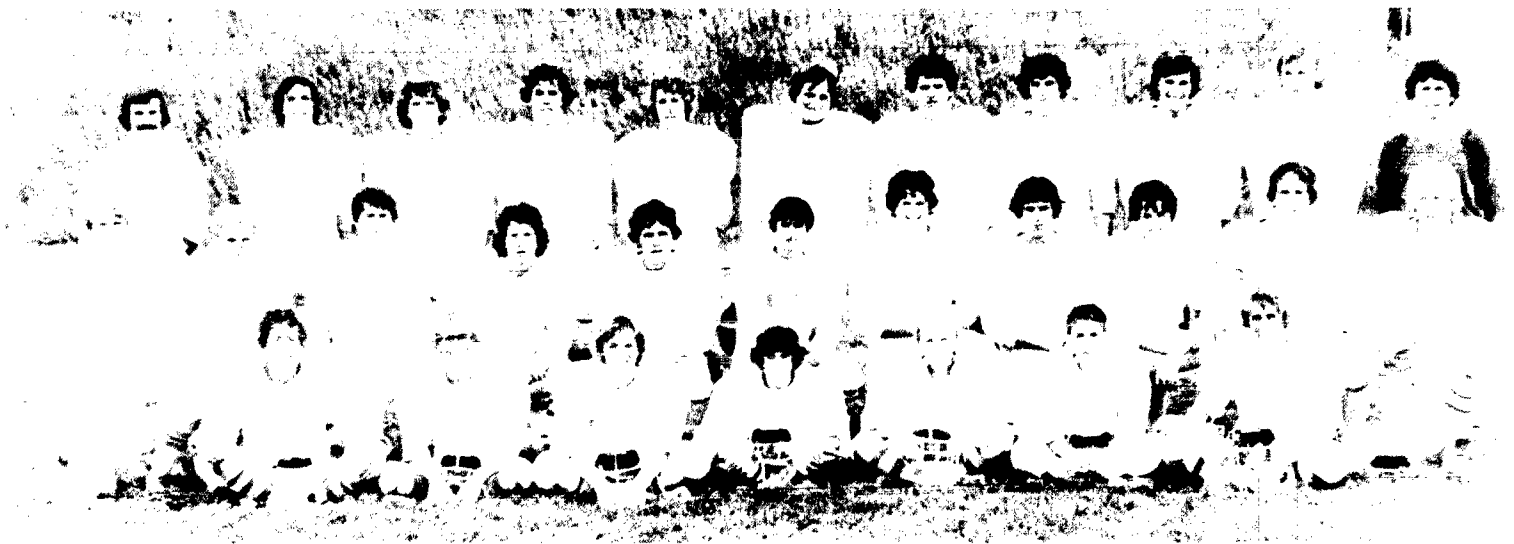

With 17 lettermen returning on the squad of 29 prospects, the Eagles hope to be much improved. "The team attitude is a lot better this year," said second year coach Bart Kneifl. "We're fairly optimistic and have a winning attitude. We want to break our seven year losing streak. Things might go our way."

Things may indeed go Allen's way if the team plays to its potential. Defensively, the Eagles are led by interior

linemen Robert Malcom, Rick Gotch and Randy Smith. Senior Duane Stolle and sophomore Bruce Malcom will probably battle for a tackle spot.

Kneifl and assistant coach Gene Lauritsen pointed out that Allen will play some strong Class C schools and will need help from the freshmen and sophomores. Wakefield and Ponca were singled out as probably the two strongest opponents.

"Wakefield will be tough again. Torczon (Wakefield coach John) comes up with good teams down there," the coaches agreed. "We can't look past any teams. We have some kids who will hit hard and they have real good attitudes. We like to run and punch through the line."

Young Eagles Are Sound Team

Allen's volleyball team will have its hands full, trying to repeat last year's performance, but that doesn't mean the Eagles won't be a strong contender in the Lewis Division of the Lewis and Clark Conference again this year.

Last season, Allen completed its

season with a 13-4 record and won the Lewis Division. In addition, the Allen netters won the Wakefield Invitational, placed third in the Newcastle Tournament and won the district tournament. Only a loss to Shelby in regional playoffs prevented the Eagles from

qualifying for the State Tournament.

Two All-Conference players, Susie Erwin and Pam Brownell graduated from last year's squad. Brownell led the team in spiking and blocking and Erwin led the squad in setting. However, two key players, who earned All-Conference

honors last season, return to lead the young team.

Junior Lisa Erwin, who was the team's second leading spiker and senior Stacey Koester, who was the team leader in serve reception efficiency, will add team leadership to this year's squad. The only other senior on the team is returning starter Lisa Wood. Those three individuals form the nucleus of the team. The other three starters and substitutes will be chosen by third-year coach Gary Troth and his assistant coach Sandra Chase.

Fighting for positions on the team are 27 girls who are out for volleyball. Top candidates are setters Des Williams and Colette Kraemer, spiker Janet Peterson, server Ann Gwin and Beth Stalling.

"We're still pretty young with only two seniors," coach Troth said. "We're a week short of practice and can't put our actual net up yet for practice." The Dixon County Fair involved many players on the Allen team, slowing down practice sessions before school started. In addition, because of mechanical difficulties, the game net could not be set up for early practices.

"The girls have good attitudes and are working hard," said Troth. "We are fundamentally alright but will rely on a lot of young players, especially sophomores. We should be pretty sound in all phases of the game. A lot depends on our underclassmen."

Troth singled out Bancroft as the toughest team in the Lewis Conference and indicated that Winside and Wakefield would also offer strong opposition this season. If the team members play well together and avoid mental mistakes early, Troth said his team should be a strong contender in tournaments this season.

Three Tough Games Early

Juniors Key To Bear Success

The Laurel Bears have several holes to fill on this year's football team but have a large number of prospects who will fight for the open positions. Gone from last year's 5-4 squad are All-State honorable mention player Steve Anderson and defensive standout Pete Diediker. Both players graduated.

Anderson passed for over 1,000 last season and Diediker led the team with 53 unassisted tackles and 30 assists. Other key losses include receiver Russ Gade and running back Don Dalton. Forty-three players are out for football.

Thirteen lettermen including six starters return from last year's team. Fighting for the starting quarterback

spot are senior Clark Maxon and junior Joe Olsen. Mark McCorkindale is the top runner to return for the Bears. He rushed for 150 yards in 23 carries last year for an average of 6.5 yards per carry. Head coach Nick Danze, in his third year of coaching at Laurel, plans to run split backs in a veer option offense. The Bears will work with a 5-2 defense.

"We would like to have an equal amount of passing and running. We don't plan to pass as much as last year," Danze said.

When Laurel does put the ball in the air, returning starter Dennis Anderson will be there. Anderson made seven receptions for 81 yards last season. He

will be playing in the half back position. Anderson was the team's third leading scorer with 18 points.

Defensively, Laurel held its opponents to 1,511 yards and 93 points in nine games last season while scoring 169 points and stacking up 2,736 yards. McCorkindale and Jamie Johnson should play a major role in the defensive performance. McCorkindale led the team with three fumble recoveries and Johnson led the team with four interceptions.

Other returning starters who will play a key role this season are end Steve Stark, tackle Lon Swanson, linebacker Jeff Anderson, end Bryan Buss and

tackle Todd Twiford, the biggest player at 6-5, 225 pounds.

"We have concentrated mostly on offense so far in practice," Danze said. "Now we will work on defense. Our strong point is the number of people we have who can play in the line. We can move them around. The first three games may be the three toughest. Those games should tell what kind of a season we'll have. We need to have our inexperienced juniors come around. That's our key."

Laurel is scheduled to open the season against Randolph, Hartington Cedar Catholic and Plainview. Assistant coaches are John Jonas, Al Siepkes and Bob Weisenberg.

Bears Are A Versatile Team

With four starters returning from last year's 12-7 team, the Laurel Bears should have a strong team. The biggest loss was Deanna Manz, the team's leading scorer, who graduated.

Forming the nucleus for this year's squad are three-year starters Roxie Kraemer and Jan Cooper and a hearty supply of returning lettermen. Seniors Deb Thompson, Dixie Manz, Janet

Walton, Jana Johnson and Paula Chace will supply the experience for the Bears. Junior letterman Kay Anderson will also help the team. Senior Donna Lofquist will not be joining the team

this season because of an affliction of mononucleosis.

Last season, Laurel boasted a perfect 4-0 record on the home court and made a strong attempt to become a State Tournament qualifier, losing to State champion Bloomfield in district finals. The girls outscored their opponents 559 to 501 and won 27 sets while losing 18. Jan Cooper and Paula Chace were the second and third leading scorers with 108 and 102 points respectively. Roxie Kraemer and Kay Anderson added over 60 points apiece.

Serving was the strong point in last year's performance with Chace and Anderson finishing second and third respectively on the leaders list. Kraemer and Cooper were not far behind. This season, the spiking of Thompson, the serving of Manz and the setting of Walton should add depth to the Bears' attack. A total of 31 girls are trying out for volleyball.

"We hope to bring back some hard ware from the tournaments," said fourth year coach Dwight Iverson, referring to his team's potential to win trophies in the tournaments. "Serving should be our strong point. We have good experience and when we scrimmaged our alumni, they couldn't handle our serves."

Laurel will face a strong schedule this season with Emerson, Wayne, Wynot and Sioux City East expected to be the toughest teams. Iverson and first year assistant coach Ginger Evans hope their squad will be of equal caliber.

"We will utilize our players more this season," said Iverson. "Our setters will do more spiking and our spikers will do more setting. We should have a very versatile team."

Wakefield

For Clark Division Champs

As Always, Defense Is The Key

Last season, a powerful Wakefield defense led the Trojans to a championship in the Clark Division of the Lewis and Clark Conference. This year, the defense should be even stronger and Wakefield fans are thinking of another Division title.

Coach John Torczon, entering his ninth year of coaching at Wakefield, isn't looking that far ahead yet but acknowledges that his team should be good. Nine starters return from the defense, which ranked third in rushing defense, fourth in passing defense and second overall in the Lewis and Clark Conference. The Trojans allowed only 1,393 yards on 452 plays while posting a 6-2-1 record and finishing 5-0-1 in their division.

"We will have a good football team but the way people play in this con-

ference, there is no easy game on the schedule. I really believe that," said Torczon. "If a couple of key people get hurt, we're in trouble. We have a bunch of good sophomores but we must bring them along so they're ready to step in."

Wakefield lost two guards, Steve Oberg and Tony Henschke, center Mark Muller and quarterback Todd Swigart to graduation. Henschke and Swigart also played defensive linebacker and Henschke did the kicking. Torczon said Henschke will be especially hard to replace.

Top returners this season are All-Conference players Scott Hallstrom and Blaine Nelson who starred on offense and Mark Schopke, another All-Conference selection on defense.

"Defense is always the key. If we can't stop the scoring we're in trouble,"

Torczon, probably the most experienced coach in the conference, stressed. "We don't have any size but size doesn't matter much to me. You can't weigh the heart. That's where the key is, that's where it all is."

Torczon expects Wynot and Osmond to compete for the Clark Division title but adds that his own team should be in there too. "You can never overlook a team," Torczon warned. "Winside deserves respect, Wausa is better, Hartington can never be counted out, Coleridge is capable and Allen will have one of their best teams in a long time. Every week is a one game season. We look forward to playing a team, we don't look past them."

Wakefield will run a multiple set offense and plans to throw the ball more. With All-Conference honorable

mention player Von Portwood taking over the quarterback position and with Dean Miller, Rick Guy and Scott Hallstrom strong at the end positions, the pass play should work.

Blaine Nelson, a three year letterman who ran for 829 yards on 171 carries for a 92.1 yard average per game, suffered a ruptured eye in a scrimmage and will probably miss most of the season. He was also a strong defensive performer. Making up the backfield are Portwood, Mark Starzi, Joedy Sherer, Larry Soderberg and Hallstrom. However, if the defense plays up to potential, the offense won't have to score too many points. Last year, the Trojans' number one defense gave up only 39 points all season.

Assisting Torczon are Dennis Wilber, Kirk Gardner and Rob Nissen.

Only One Starter Gone

Experience On Trojans' Side

With only one starter gone from last year's young team which posted a 5-10 record, Wakefield coach Ernie Kovar is optimistic about his volleyball team.

"We ought to be pretty good," said Kovar. "We only lost one starter and everyone else is back. Experience should be our strong point."

The only graduated starter, Lisa Greve, led the Trojans in spiking, tied in blocking and was one of the top servers. Leading the team this season

will be Donna Kieckhafer and Kathy Gustafson, two starters who earned All Conference honors last season.

Also returning are senior lettermen Jolene Bartels, Joni Erb, Ardie Barker, Jackie Lueth, Kelly Murphy and Rhonda Wilson. Erb was the team's leading setter with 227 sets and 42 sets for aces last season. Kieckhafer, Murphy and Barker were all right behind in the statistics. Gustafson and Bartels, two of the tallest seniors at 5'9" and 5'10" respectively, were the second and third leading spikers with 127 and 104 total spikes respectively. Both girls were key blockers. Rhonda Wilson at 5'10" should also help the front line.

Serving should be strong for Wakefield with Bartels and Erb expected to be the leading servers. Last year, Erb connected with 138 good serves in 153 attempts. Bartels hit 124 in 136 attempts. Both finished with at least a 90 percent efficiency rate.

Bartels and Barker tied for the squad lead with 43 unreturned serves. The scoring was well balanced with Erb scoring 89, Bartels scoring 82, Gustafson scoring 73 and Barker adding 65.

Kovar, in his seventh year as Wakefield coach, and assistant coach Cheryl Pueggel will have three juniors and one sophomore making up the rest of the varsity squad. Deb Foote, Joan Miller, Shelley Paul and 5'8" sophomore Rita Wilson will fill in on varsity when needed.

The junior varsity will be composed of nine juniors, 10 sophomores and eight freshmen, bringing the total number of prospects to 39. Kovar said that he feels Winside and Wynot should be the conference powers in the Clark Division of the Lewis and Clark Conferences.

Wayne

No Stars On The Team

Devils Are Deep And Optimistic

Depth will be an asset for the Wayne Blue Devils this season as they strive to outdo last year's 5-3-1 record and 3-1-1 record in the West Husker Conference.

Returning to this year's team are All-Conference players Randy Dunklau, Rick Johnson and Dan Mitchell. The squad of 43 players is composed of 16 seniors, 15 juniors and 12 sophomores. Dunklau, Johnson, Mitchell and Doug Hummel are all two-year lettermen. Jeff Zeiss, an All-Area selection, will add speed to the offense. Zeiss runs the 40 yard dash in 4.65 seconds. Nine other players run the 40 in 4.9 or faster, making this the fastest team coach Stew Cline has coached at Wayne.

The players worked out on their own over the summer, conditioning themselves for the season. Coach Cline, in

his third year as Wayne coach, said the summer conditioning has paid off. "We are in super shape this year so we didn't have to spend as much time working on conditioning," Cline said. "That way we got most of our offense worked in. Our strength is depth. We have a lot of juniors and seniors who are capable of starting. We don't want injuries but we can survive them."

Wayne has two potential quarterbacks in senior Jeff Dion, who played the position last season and junior Tod Heier. Dion is a proven thrower and Heier is expected to run and throw. According to Cline, the two will probably split time. "Both players are fine athletes and we'll make the most of both of them," said Cline.

Last season, Dion completed 41

passes in 111 attempts for 703 yards. The Blue Devils were most explosive in the first quarter, amassing 519 yards. Wayne averaged 5.7 yards per carry rushing with All-State honorable mention Brad Emry and All-Conference back Rick Johnson gaining most of the yardage.

Emry has graduated but Johnson should lead the backfield this season. He carried the ball 101 times for 602 yards and a 5.9 yard average per carry, last season. Barring injuries, he should be even stronger this year. Also back from last year's backfield are Brian Aguirre and Chip Carr. Both are juniors.

The Devils may utilize Jeff Zeiss even more this season. Last year, he received 14 passes for 322 yards to lead

the team. Junior Aaron Schuett, who is up to 180 pounds, will be moving into the offensive backfield.

Defensively, the Devils will be led by Dunklau, Schuett, Hummel, Mitchell, Heier, Johnson and Kelly Maxson. Those seven were the tackle leaders last season. The team has no real stars, according to Cline but should be strong as a team.

"We have a bunch of workers. Pierce was the only team that totally out-gunned us last season. Realistically had things gone really well, we could have been 8-1. Not many points separated us in our losses," said Cline. "Leadership should help us overcome our errors and dig our way back. The team is as strong attitude-wise and everything as any I've had."

Cline indicated the toughest opponents would probably be South Sioux City, Columbus Lakeview, Blair, Hartington C.C. and Emerson. He added that Chuck Ross would turn Wisner-Pilger into a much improved team and said that West Point C.C., new member in the West Husker, would not be a push-over.

"The conference championship will be more prestigious this year after adding West Point C.C. The champion will now be the best of seven teams, instead of six," Cline pointed out.

"The conditioning this summer definitely paid off. The kids who worked out on their own this summer have a definite advantage. The ones who didn't are stiff and sore," said Cline. "We will be able to throw well and we should have an adequate running attack. We don't score a lot of points so we must limit our opponents. Defense is the key. If we work hard and stay away from a rush of injuries, we'll win our share."

Assistant coaches this season are Ron Carnes and Don Koenig.

Quickness Is Devil Trademark

Coach Deb Bodenstedt will be taking over head coaching duties for the Wayne volleyball team this season and hopes to produce another winner, following a 16-6 season. Assisting Bodenstedt is Darrel Heier. Last year's coach Mavis Dalton is on a one year

maternity leave.

Three senior starters return from last season's squad which finished second in three tournaments and won the West Husker championship. Jolene Bennett, Julia Dorcey and Stacy Jacobmeier will provide the leadership and experience.

Thirty-seven girls are out for the sport. Peg Pinkelman, Lesa Barclay and LaVonna Sharpe were the other three starters on last year's team. All three graduated.

"With only three starters, people might think we're inexperienced but I

don't feel that way," Bodenstedt said. "We have a good supply of juniors and we should have a lot of quickness."

The Blue Devils won 36 games and lost 19 last season while outscoring their opponents 708 to 594. Bennett scored 86 of those points with an 84 percent serving average. She also hit 145 spikes for an 81 percent mark. Julia Dorcey was one of the workhorses in setting. She made 272 good spikes for 98 percent efficiency. Stacy Jacobmeier followed with 95 percent efficiency. Dorcey was also one of the team leaders in the bumping category with 476 bumps.

As a team, Wayne averaged 84 percent serving accuracy, 81 percent spiking efficiency and 97 percent setting success.

Other seniors on this year's squad include Lisa Daniels, Shelley Davis and Mary Schwartz. Bodenstedt has been working with 4-2 and 5-1 offense in practices and said that three or four girls can get up high and spike the ball well.

"To have control, our setters must be the leaders on the floor. We have some very good setters," said Bodenstedt. "We should be able to overcome the loss of the graduates. Our sophomores have really come around and we've made good progress. We could be better than last year if we don't get hurt. We'll be able to tell with the first tournament."

Bodenstedt believes conditioning may be a factor and has her squad doing lots of running and weight lifting every day in addition to the regular volleyball drills. "We need to work on jumping for leg strength and quick lateral movement," she added.

Lisa Peters, Lynn Surber, Tammie Thomas, Jenny DeTurk and Jill Zeiss should be some of the juniors and sophomores who will help the team.

Winside

Hard Hitting Defense

Experience Is With Wildcats

Overall experience will be the strong point for the Winside Wildcats when they take to the football field this fall. The Cats return 12 starters and 18 total lettermen from last year's squad. The non-lettermen return with playing time as reserves.

The Cats compiled a 4-3-2 record last year and finished 3-1-2 in the Clark Division of the Lewis and Clark Conference for a third place finish. Quarterback Paul Roberts, an All-State honorable mention selection, led Winside with 1,018 yards passing. The leading passer in the conference, he graduated last spring and won't be easy to replace.

Lonnie Carstens, who played tackle last season, will fill the quarterback slot and head coach Dennis Gonnerman says Carstens should be a good replacement who can run the option well. Receiving passes from Carstens will be top receiver Bob Hawkins. Hawkins set a school record with 26 receptions in six games. The All-Conference honorable mention end caught four touchdown passes last season.

End Rick Bowers will be another target for Carstens. The dependable athlete set a school record for longest reception with an 80-yard touchdown reception. Joining Carstens in the offen-

sive backfield are a trio of backs. Brian Foote, Byron Schellenberg and fullback Dirk Jaeger are expected to form a balanced running attack. Center Brad Roberts was termed by second year coach Gonnerman as "probably the best center in the conference."

"We have good size but I don't know how quick we are," Gonnerman said. "We should have a good balance of running and passing. We'll be better experience-wise than last year but we don't have many seniors. Defense is the key. Our opponents must score on us to beat us. We should be tough there, kids are begging me to play defense and hit

someone. They love to hit."

A good kicking game is always important to a winning football team and Winside should be solid in that area. Brian Foote will do the field goal kicking and is capable of kicking a length field goal in a close game. Carstens will do the punting and has looked strong in practice.

Looking down his season schedule, Gonnerman said that Wakefield and Hartington should be the strongest teams in the conference. He added that Osmond has too many players and hitters to be out of the race.

Five Starters Lead L&C Champs

The Winside volleyball team will open its 1979 season with a tough assignment. Last year's squad completed its most successful season in history, winning the Clark Division with a 5-1 record and defeating Allen in a playoff to win the

Lewis and Clark Conference championship.

Five starters return for the Wildcats but Kathy Thomas, an All-State honorable mention selection, graduated from that team. Thomas dominated the

charts in spiking and also added strength in all other categories.

The returning starters are Marci Thomas, Joni Bowers, Kathy Thies, Julie Krajicek and Lori Gallop. All are seniors except Gallop who is a junior

Coaching the defending conference champions this season is Jim Winch, who took over the post when former coach Rich Stoffers signed a teaching contract with an Iowa school.

Top prospects among the 22 girls competing for varsity positions, are Kim Lage, Robyn Winch and Lori Langenberg. Teamwise, Winside had 346 total sets with 208 set assists, 802 total serves with 184 aces and 309 attempted spikes with 190 aces. The team's efficiency rate was 71 percent in serving and 81 percent in spiking.

Krajicek should be the team's leading setter. She was a team leader with 26 sets and 88 assists last season. She also led the team with 15 dinks. Gallop played a balanced type of game last season, with 33 spikes, 23 ace spikes, seven blocks and 55 points. Thies and Marci Thomas were two of the team leaders in serving and scoring and should be valuable in those areas again this year.

"I really have no idea what kind of team we'll have but with five starters back I know we'll be respectable," said coach Jim Winch. "Everyone will be shooting at us after winning the conference last year. Serving should be our strong point. We lost an outstanding spiker in Kathy Thomas but Lori Gallop should be a good spiker. She can do about everything."

Winch said that Krajicek, the best spiker from last season, is back and should help considerably. "On paper, we have a good team and should do well but we'll find out how good we are by the end of October," Winch said. "We have good balance between our starters." Winch predicted that Osmond, Allen and Emerson would be the strong est opponents on the schedule.
