Herald Sponsors Essay Contest

"Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof, or abridging the freedom of speech, or of the press, or the right of the people peaceably to assemble, and to petition the Government for a redress of grievances."

As a part of National Newspaper Week and to encourage better public understanding of the First Amendment to the Constitution, The Wayne Herald and state and national newspaper associations are sponsoring an essay contest on the subject "What the First Amendment Means to Me."

Prizes, contributed by the Ohio Newspaper Foundation of Columbus, Ohio: First prize nationally will be \$1,000; second prize, \$300; and third prize, \$200. The Herald will offer a \$100 first place prize for the best essay on the local level. Deadline for receiving entries at The Herald is Nov. 15. The winning entry from Wayne will then be forwarded to the Nebraska Press Association central office.

THERE ARE \$1,500 in national cash

in Lincoln no later than Dec. 1. NPA officers will judge the entries from around the state, selecting a first, second and third place winner. A \$100 prize will be given for first; \$50 for second; and \$25 for third.

IN ADDITION, the first place winner will be introduced at the Nebraska Press Association convention in April where he or she will read the winning essay and receive the check. The winning essay will be submitted to the national committee for judging.

There are no age restrictions for entrants. The contest is open to anyone, except employees of newspapers, radio and television stations, news services or an immediate family member of an exempt employee.

The essays must be no longer than 1,000 typewritten words, or written clearly in longhand, and consist of no more than two pages of 8 1/2 x 11 inch paper.

No entries will be returned and all will become property of sponsoring state associations, Newspaper Association Managers, Inc., and the Ohio Newspaper Foundation for use as they desire with no added compensation to the authors. Entries must be previously unpublished.

EACH ENTRY will be judged on the basis of appropriate treatment of theme, originality and the writing skill of the entrant. The decisions of the national judges will be final. National awards will be announced in March of 1980 during the National Newspaper Association's Government Affairs Conference in Washington, D.C.

The First Amendment to the Constitution reads as follows:

Mrs. Cramer Rites Sunday

Funeral services for Margaret Ellen Cramer, 78, were held Sunday afternoon at the United Presbyterian Church, the Rev. Robert Haas officiating. Burial was in Greenwood Cemetery.

Mrs. Cramer was born Oct. 3, 1901, to Mr. and Mrs. F.W. and Louise Braun Range in Dickinson County, Iowa, and died Wednesday at Bryan Memorial Hospital in Lincoln.

In 1928, she married Mark E. Cramer at Milford, Iowa. The family later moved to Wayne where he was publisher of The Wayne Herald until his death in 1954. Mrs. Cramer had lived in Atlantic, Iowa; Rockwell City, Iowa; Mason City, Iowa; Chicago, Ill.; and Birmingham, Ala. She attended Iowa State University and was a member of Delta Delta Delta Society. Mrs. Cramer also was a member of the United Presbyterian Church and PEO Sisterhood.

Survivors include a son, Allan Cramer, Wayne; a daughter, Mrs. Robert F. Wohlers, Lincoln; four grandchildren, Mark Alan Cramer, Wayne; Ellen and Kirk Wohlers, and Bobby Mullen, all Lincoln; two brothers, Lloyd Range, Milford, Iowa and Mansel Range, Sun City, Ariz. Visitation was from Friday evening until time of services Sunday, at Wiltsie Mortuary.

Bond Continued at \$150,000

The 18-year-old pair is charged each with theft by unlawful taking and with use of a firearm to commit a felony. They are being held in Wayne County Jail on \$150,000 bond.

Testifying for more than an hour, vice president Miller said he returned from lunch to find two men waiting in the lobby area to speak to him. After inviting them into his office, Miller said one of them, later identified as Schulz, asked for a \$1,000 loan to buy a used car.

The man, who used the name of Greg Prossit, Route 3, Wesson, was informed by Miller that the bank would not loan the money. Miller suggested he seek out another financial institution for the loan.

The Man signed a loan denial form and as the three began to rise from their seats, Miller said the man identified as Schulz pulled a .22 caliber handgun and said, "Well, we're going to make a withdrawal anyway."

Miller said he was then directed to go behind the tellers' counter and told the four women bank employees that "this is the real thing." There were no customers in the bank during the incident.

According to Miller, Schulz then told the women "not to move and don't push any buttons." The women also were instructed to lie down on the floor while Miller was told to enter the vault and get the money.

Miller said he told the pair there was no money in the vault. The suspects ushered him to the teller drawers where money was found. Most of the currency was in small denominations, but a \$1,000 bill also was taken. Several rolls of coins were left behind.

After the money was placed in a standard zip bank pouch, the men ordered Miller and the women into the vault which was then shut. Miller said he wanted to "mutter or two" and then let himself and the women out of the vault. He asked employee Shirley Mann to call the County Sheriff's Department and then went out.

Itinerant Job Service Here Announced

Only a few days after the Norfolk Job Service office announced plans to close the Wayne branch office, hours of operation for an itinerant office have been selected. A representative from the Norfolk office will be at the Chamber of Commerce office, 108 W. Third St., from 9:30 to 10:30 a.m. Tuesdays beginning Tuesday, Oct. 9.

PERSONS having business with the Job Service should be at the above location during that hour.

The Wayne branch officially was "closed" effective Friday. The area will be without the services of a full-time representative, and Norfolk will be the nearest such employment office.

The closing of the Wayne office ends almost a two-year battle with state and regional Job Service personnel to establish and then maintain an office here.

OFFICIALS said the Wayne office was closed as a result of a statewide reduction in Job Service positions. The federal government reduced funding to the state and the state in turn was forced to eliminate nine Job Service positions.

There is some concern among local city and Chamber officials that the lack of an employment office here will result in Norfolk drawing workers from the immediate Wayne area.

OTHER factors considered in closing the Wayne office include a reduction in the number of job placements handled here, and a lack of enthusiasm for maintaining an office in Wayne.

An alternative being considered is establishment of a Rural Employment Service (RES). This would provide limited staffing here, with most job information relayed to Norfolk.

The First Amendment to the Constitution, in 1791, secured for all U.S. new papers the right to publish without fear of government suppression or control. The "Freedom of the Press" protects the people's right to read and is subject only to limitations of libel, obscenity, national security or incitement to violence.

FREEDOM OF THE PRESS is not a tightly held, proprietary privilege. Its actuality extends to you and every citizen. The right to know is an important heritage in our Free America.

THE COMMUNITY Chest fund drive was kicked off last week with a pair of breakfasts for persons involved in the money raising effort this year. A goal of \$15,230 has been set with most of the budget planned for the Wayne Recreation Program, Mid-American Council of Boy Scouts, and Prairie Hills Council of Girl Scouts. Other groups to share funds include Salvation Army, Wayne Senior Citizens, Artistic Foundation, Cystic Fibrosis, Epilepsy Children's Home and American Red Cross. Athletic Director Dick Dirmann, drive chairman, with Bill Dickey, president of the Community Chest board of directors.

Status of Military Viewed on Tour

The military has a lot to offer young men and women.

At least that was the conclusion of three Wayne men who were among some 21 Nebraskans who returned Friday from a four-day tour of training facilities in Missouri, Texas and Colorado.

WAYNE Mayor Wayne Marsh, Bill Carlson of The Wayne Herald and Chuck Barnes, representing the Wayne Chamber of Commerce, also agreed that not enough young people are taking advantage of the opportunities.

The tour is a part of "Operation Understanding," an on-going community relations joint program of the Nebraska Army and Air National Guard. It is designed to acquaint those who counsel young men and women with what the military has to offer.

Town members got to see both ends of the spectrum. They visited with new recruits, the newly graduated basic trainees, officer candidates in training and concise, challenging life of a cadet in the Air Force Academy.

STOPS ON the hectic tour included Fort Leonard Wood, Mo., where Carlson took his basic training; Lackland Air Force Base, San Antonio, Texas; the highly sophisticated and security-conscious North American Air Defense Command Headquarters (NORAD) near Colorado Springs; and the Air Force Academy, also near Colorado Springs.

Marsh, Carlson and Barnes agreed with others on the tour that the military does have a lot to offer to today's young men and women who qualify. They also agreed not enough men and women are taking advantage of the opportunities. Enrollment numbers are down in the all-volunteer military, to the point where it is causing concern among military leaders.

THIS LACK of manpower was more apparent in the army than the air force. One drill instructor at Fort Leonard Wood, who declined to be named, stated the United States would be in a poor military posture in the event of a major confrontation.

tion.

The group found the picture brighter in the Air Force where they had opportunity to have one-on-one conversations with newly graduated basic trainees. They found a genuine dedication to duty and country, as well as being satisfied with what the Air Force has to offer.

The need for a positive military might was graphically illustrated to the group in a brief tour of NORAD headquarters which is tucked away inside Cheyenne Mountain near Colorado Springs.

THE WAYNE delegation and the remainder of those in the group were given an opportunity to see the massive briefing of military firepower and manpower of the United States and the Soviet Union. It was apparent the USSR is on a par or ahead of the United States in both areas.

The purpose of the tour, which was hosted by Brig. Gen. Lloyd Johnson, Nebraska Air National Guard Chief of Staff with the assistance of M-Sgt. Denny Spangler, NCOIC of the Wayne National

Guard Armory, was to give those closest to young men and women in Nebraska a better idea of what young people can expect in the military.

The bottom line of the program is to recruit more young people into guard units to beef up the military. However, it was apparent to most on the tour the incentives are not enough and that a military registration or reinstatement of the military program would help insure adequate manpower in the military.

A LITTLE goodwill was handed out by Mayor Marsh who presented keys to the city of Wayne to Maj. Gen. Louis Prentiss, commanding officer of Fort Leonard Wood; Col. Al Boughton, vice-commander of Lackland Air Force Base; and Gen. Johnson for his many courtesies during the trip.

The group was provided with a Nebraska Air National Guard C-131 for transportation for the trip. Picture and additional information are located elsewhere in this issue.

VA Increases Interest Rate

The Veterans Administration interest rate on GI home loans has been increased from 10 to 10 1/2 percent, it was announced recently.

James C. Smith, director of the VA Regional Office, Lincoln, said the new rate, established for Federal Housing and Urban Development, also applies to Veterans Administration loans by the secretary of Housing and Urban Development, also applies to Veterans Administration home loans.

Smith said the increase, effective September 26, was necessary to bring government rates in line with other competitive rates in the mortgage and financial markets.

He said the rate change does not affect existing VA home loans. Once a loan is made, the interest rate remains the same for the life of the loan.

Discuss Future on ETV

Questions facing high school students about their educational future are addressed by four Nebraska State College students in the half-hour program "Biology to Bluegrass: State College Profile" airing Monday at 7:30 p.m. on the Nebraska Educational Television Network.

The students, all attending a Nebraska state college, explain their interests, activities at college, and the important decisions they encountered while deciding where they would attend college.

State college students participating in the program are

Dawn Lammie, art major from Auburn; Michael Ellis, Fremont industrial arts major; Becky Young, science and biology major from Peru; and Bob Svoboda, Seward music major.

The four discuss the advantages of a higher education, seeking advice on colleges and universities, college organization activities, financial aid, part-time jobs, how to apply to college, living quarters and the college atmosphere and socialization process.

"Biology to Bluegrass: State College Profile" is a production of the public affairs unit of University of Nebraska Television in cooperation with the Nebraska State College Board.

This is the newspaper industry's week to promote itself, to pat itself on the back, to remind the reading public of a newspaper's importance in maintaining freedom.

This is National Newspaper Week (through Saturday), and we're taking the opportunity to remind everyone how much the newspaper is a part of our daily lives.

Phil Dessauer, president of the Society of Professional Journalists, Sigma Delta Chi, says "a free press has all the flaws of a free country. It has good guys and bad, diamonds and duds. But you have to ask yourself, 'If we didn't have the First Amendment and a free flow of information, what would be the alternative?'"

As most of our readers have surmised over the past four months, I'm a strong believer in the First Amendment and its guarantees. Somewhat redundantly, I'll say that we're promoters of the public's right to know.

Granted, we're an arrogant lot. We're nosy, aggressive, irrelevant, noisy and occasionally some members of the media embarrass people and distort the truth.

But, according to Dessauer, daily and weekly papers broaden our lives. They keep watch over taxpayer's money, give us instant history, inform, entertain, and "feed us words every day with remarkable accuracy."

In countries without a free press, the people needn't worry about aggressive reporters or high-handed editors; newspapers simply dish out the party line.

The Wayne Herald is a classic example of a community newspaper. We feel it offers a little something for all of our readers from detailed sports coverage of all area teams, to in-depth news of happenings in and around Wayne.

In recent weeks we have organized our paper so it is easier for our readers to use. Our Record Page continues to expand, taking in more and more court news. Our Speaking of People pages are always full of happenings in the lives of women and the news of engagements and marriages.

Our editorial page, with room to grow, contains a weekly personal column on a variety of subjects and at least one locally-oriented editorial. In addition, opinions from others around the state are found on the editorial page.

Our sports coverage is among the best in the state. Not only are we charged with reporting Wayne sports, but athletic endeavors of the surrounding communities. We have an obligation to provide the public with as much meaningful information as our staff can handle in a few days' time.

The Wayne Herald offers services that no other media can give. We're not a throw-away sheet that is often placed haphazardly on a front porch or tossed into the gutter.

We are a paid newspaper and are therefore guaranteed on your doorstep twice each week. Something no other media in Wayne can claim. Our advertisers are confident that our readers are viewing their product. As I said before, our product is guaranteed to our subscribers.

Newspapers should be responsible, truthful and worthy of trust — we feel we are. With the help of our readers we will continue to grow, to add features and to modernize our equipment — all of it for a better product to serve the area.

Remember this — in order to achieve a maximum return from such an effort, we in the industry must have our own house in order. The community press of America is a vital and effective medium and has much to offer.

We've been pleased with the dialogue in the letters to the Editor column lately. As noted before, we encourage readers to offer their opinions, facts, beliefs, etc., so others may share them.

We had hoped to receive letters on more specific local issues, because city council members, county board members, school board members and others want and need your help in solving Wayne's growing pains.

Issues such as pornography and abortion, while affecting the lives of all, have no black and white solutions. They are highly emotional arguments.

In both respects, we believe the American public has a constitutional right to choose. Federal and state laws and regulations are far too numerous now, and laws regulating porno and abortion will not solve the problem.

Both will go underground and will continue. The public needs to be thoroughly educated with factual (not emotional) information so it can make a rational judgment. We'd be saddened to see any legal intervention into either issue.

And speaking of sprucing up the downtown area, the Vets Club added a spark to business fronts. The upper half of the building was remodeled and is quite attractive.

Now, if we could just fill those few empty stores on Main Street, Wayne would be back to capacity.

ALL BURNED UP!
WE ALL WANT TO HEAR ABOUT IT!

OBSERVATIONS

(Editor's Note: The following editorial is reprinted from the Santa Barbara News-Press in California. It was sent to us by former resident Bill Martin who reads the Wayne Herald avidly for home town news. Bill ran across recent comments in The Herald concerning Jane Fonda, the best friend Russia has in this country.)

The harder Gov. Jerry Brown runs for president, the more his courting of Tom Hayden's Campaign for Economic Democracy is discussed.

Brown's courting of Hayden and Hayden's wife, actress Jane Fonda, has already had a good airing. Brown's appointment of a Hayden-Fonda friend, Edison Miller, to the Orange County Board of Supervisors also has been well covered. Miller was a prisoner of war in Vietnam who was censured by the Navy for being too friendly with his captors.

There have been a few mentions also of Brown's appointment of one Chris Matthews to the Santa Cruz County Board of Supervisors. But, except for the fact that Tom Hayden asked Brown to appoint Matthews, there has been little statewide discussion of this appointment.

The San Francisco Chronicle has just taken an in-depth look at Matthews. Based on its report, this appointment takes the cake.

Matthews represents a district that includes the conservation, old-growth community of Watsonville, and the Chronicle reports some of those constituents are still in shock. When Matthews was in high school in New Jersey, he got suspended 47 times. When he was in the Army, he was convicted of smuggling marijuana into Florida and served two years in prison. The sentence later was overturned, and Matthews came West. He describes himself as a "moderate radical."

Not long after Brown appointed him to the Board of Supervisors, Matthews attended his first joint meeting of city and county officials. He sat next to Marilyn Liddicoat, who is chairperson of the board. She said later: "He sat next to me, and he was drunk. He made such a scene that (Watsonville) Mayor Bill Johnston ad-

joined the meeting early."
At 3 o'clock the next morning, police were called to a restaurant where a customer, whom they described as "obviously intoxicated," had dozed off in his booth. It was Matthews. Police allowed Matthews to be driven home, and no charge was filed, but the incident was reported in the Santa Cruz Sentinel under the headline, "Drunk supervisor sent home."

Matthews has told reporters that the only thing he doesn't like about his \$17,500 job is attending the board meetings. He enjoys other aspects of his job, including his appointive powers.

He appointed one John G. Hanna to the county's Agricultural Advisory Commission. But Hanna couldn't serve. He was sentenced for planting bombs on a cropland at Salinas Airport, his way of protesting the use of pesticides.

It would be interesting to hear Gov. Brown defend his selection of Chris Matthews as a county supervisor.

LETTERS

Oct. 3, 1979

Dear Editor,

I believe this month celebrates the International Harvest Week or "Day of Bread," or it did at one time. It is a reminder of man's dependence on the bounty of nature and his gratitude for the annual harvest of farm-bred field, and recognition of bread as the symbol of all foods.

After hearing so many complaints about food prices, I wrote this letter last summer to a radio station and now am passing it on to you.

Complaining about food prices??? — not me — maybe about the ones who are ripping off the farmer (or anyone else for that matter) and getting rich at it.

News of Note around Northeast Nebraska

THE driver of a Clark Brothers Trans port walked away uninjured after his semi-trig with a smaller trailer in tow went off the Santa Creek Bridge and plunged into the creek just west of Wisner about 3 a.m. Friday, Sept. 28. Gerald A. Coisden of Norfolk, driver of the rig, was westbound on 275. He said a wheel broke off and he lost control of the vehicle.

THE resignation of Bernard Milton as Wisner-Pilger Junior-Senior High School principal effective Nov. 28, 1979, was accepted by the board of education at its monthly meeting last week. Milton will enter private business in Wilbur, Neb. The board accepted unanimously the appointment of Jim Johnson to act as principal for the remainder of the school year. Johnson will continue in the role of music director.

BARB Batenhorst and Randy Ehrisman were crowned the 1979 Beemer High School Homecoming royalty Sept. 28 during halftime ceremonies of the Beemer Brownell Tailor football game.

LARRY Freeman, 34, formerly of Tarkio, Mo., has joined the staff of the Pender State Bank as vice president. Freeman joined the bank's staff after a vacancy was created by the departure of former Pender State Bank employee Jeff Troupe of Oakland.

REV. Eugene Tollefson was installed as Pastor of Thabor Lutheran Church in Wausa Sunday, Oct. 7. Pastor Tollefson, his wife and four children arrived in Wausa the first week in October.

Who's who, what's what?

1. WHO is the 31-year-old head of a \$4 million corporation established to help prevent crimes who spoke in Wayne on Oct. 17?

2. WHAT Association is now accepting applications for research grants for the year beginning April 1 in its area of interest?

3. WHO were the two named "Players of the Week" for their performances against Missouri Western Sept. 29?

4. WHAT two men placed second in the Mens Open Doubles event of the Kingsley-Tennis Tournament?

5. WHO was selected athlete of the week for the Wayne volleyball team for her performance against Norfolk?

6. WHAT is the Wayne Regional Arts Council sponsoring in the third floor meeting room of the Wayne City Hall?

ANSWERS: 1. Frank W. Abagnale. 2. American Lung Association. 3. Steve Watkins and Ed Blackburn. 4. Tom Roberts of Wayne and Doug Goodyear of Norfolk. 5. Jolene Bennett. 6. Five-week guitar classes.

Complaining about food prices when one has means of buying it is ridiculous. Lots of us Americans are food alcoholics anyway and could eat far less than we do. Anyone who eats three times a day is indeed rich in itself to be able to eat three meals. Most of us eat more. Look at all of us Americans who are trying to lose weight, really isn't it obvious eating is cheap. The day when a person cannot buy a loaf of bread and is going hungry, that is the day he has a right to complain. Shouldn't we be thankful for our daily bread, even if the loaf on the table costs more, it's there, isn't it???

Food is our best buy today — ask a hungry man and he'll tell you. Remember a crust of dry old bread is valued highly when starving. Many Americans will stammer when asked the meaning of hunger.

Complaining about food prices gets me wondering when I see homes and garages are overflowing with what to do with articles. Somehow I can't seem to feel too sorry for these people and their food bills.

What about homes that have two overflowing refrigerators and a deep freezer? What about the overflowing garbage pails and wasted food at the tables in homes and restaurants? Children refusing to eat. Even the roadsides have a tale to tell. Oh, how I cry for the hungry but not for these Americans' food bills.

One can go on complaining about food prices — my day will come when I have no means of buying or making a loaf of bread. We can at least economize by growing, preserving and buying our food. There are lots of bills where we cannot economize.

One must realize it takes lots of money to produce food and still think it is the best buy today because of the farmers doing it so cheaply. Let's remember hunger is a bigger price.

Sports

JEFF ZEISS of Wayne rambles for some yardage on a good gain against a stubborn Albion defense. The Blue Devils lost the game 14-0 routing their bid for a homecoming win. Friday night.

Cardinals Use Devils' Mistakes To Spoil Wayne Homecoming Bid

Injuries continue to plague the Wayne Blue Devils this season and another severe blow was dealt in the Albion-Wayne homecoming football game, Friday night. Wayne lost the game 14-0 and lost the services of at least one athlete for the season.

Paul Sutherland, selected as co-athlete of the week for his performance against Warner-Pilger last week, separated his shoulder on the first series of plays and will miss the final four games of the season. Tim Thomas, who has torn ligaments in his leg, is also questionable.

Albion used the hard running of junior Roger Suetter to break through the Wayne defense. Suetter rused for 140 yards and one touchdown in 17 carries, breaking many tackles along the way.

The Cardinals scored early in the game on a 14-yard touchdown in 17 carries, breaking many tackles along the way.

Wayne received the ensuing kickoff and tried to drive the ball. Rick Johnson made an 11-yard run but the Devils were stopped at the Albion 47. A bad snap on the punt attempt led to a downed ball and Albion took over possession of the ball at the Wayne 43-yard line. The Cardinals covered the yardage when quarterback Pochop swept left for a big gain and pitched to Suetter who carried the ball the distance to score.

Wayne opened up its offensive attack somewhat on the next possession, grinding out yardage. Rick Johnson, who rushed for 70 yards, Stuart Nissen ran through the middle of the line and second efforts gave the backs extra yardage. Jeff Zeiss wiggled through the Albion defense like a worm to add to the attack, but the

Devils couldn't sustain a drive as the first half came to a close.

The Wayne players came back out onto the field for the second half with a bit more determination and spirit, but still couldn't maintain a drive. Albion blocked a Wayne punt but one of the Cardinals fumbled the ball, while trying to advance it. Brett Frevert alertly recovered the ball and Wayne finally got the break it needed. Taking over at the Albion 38-yard line, the Blue Devils tried a little trickery. Quarterback Jeff Dion pitched to Jeff Zeiss on an apparent reverse play. Zeiss threw a pass to Kevin Nissen at the 21-yard line for a first down and the Devils were threatening.

The threat ended, however, four plays later when Wayne failed to convert a fourth down and one situation at the Albion 13. The two teams exchanged punts for several series before Dan Mitchell recovered a fumble at the Wayne 38-yard line. The Devils failed to move the ball and had to punt again.

Trying to at least get the satisfaction of breaking up the shutout, Wayne's offense took to the air. Passes from Dion to Scott Wessel and Kevin Nissen moved the Blue Devils down field into Albion territory.

The drive ended on a Wayne fumble and Albion ran out the clock to preserve a 14-0 win, upping their record to 3-2. Wayne dropped to 1-4 and will face West Point CC on the Blue Jays' home field, Friday.

Final Minutes Are Disastrous

Fourth Quarter Sinks Trojans

For three quarters, the Wakefield Trojans controlled the tempo of the game against Wynot, but the Trojans fell apart in the fourth quarter, enabling Wynot to lead home with a 20-12 win, Friday night. The Clark Division matchup was Wakefield's homecoming game.

"We played badly tonight. The ball game was ours until the fourth quarter," coach John Torczon said. "There was no letdown, we just fell apart. We got whipped up front solidly for the first time all year."

The Trojans held a 12-7 lead entering the fourth quarter but held the ball for only six plays in the final period. Wakefield turned the ball over on three of those plays, giving Wynot two touchdowns.

Wakefield threatened to put some points on the scoreboard in the first half but watched the opportunity slip away. Von Portwood scored on a 24-yard run but the play was called back on a penalty. The Trojans kept the drive going and moved the ball deep into Wynot territory. The drive stalled at the three-yard line when the hosts failed to score on fourth down. Wynot took over and marched the ball 97 yards for the first touchdown and a 7-0 half-time lead.

Wakefield wasted little time in the third quarter before getting on the scoreboard. Quarterback Mark Startz connected with Scott Halstrom for a 13-yard touchdown pass. The conversion attempt failed and the Trojans still trailed 7-6.

Workhorse Blaine Nelson put the Trojans in the lead with a 21-yard touchdown run on the first play of the fourth quarter. Nelson carried the ball 26 times against Wynot for 125 yards rushing.

Nelson had more carries than any back I've ever had. He would have carried the ball more if we'd had possession longer in the fourth quarter," coach Torczon said. "We

played well for three quarters but they were waiting for us to fall apart like we're a glass menagerie."

The Wakefield lead held up until the final five minutes of the game. The Blue Devils took advantage of two Trojan turnovers to build a 20-12 lead in less than a minute.

We broke them at critical times and our whole game fell apart late in the last six minutes. We won the last 42 minutes but that doesn't count," Torczon stated. "This is the best Wynot team I've seen for years. All of our losses have been by winning teams."

Wakefield committed five turnovers compared to three for Wynot. In five games the Trojans have turned the ball over 21 times. Twenty turnovers were committed in the last four games, all losses. Only 15 yards in penalties were assessed against Wakefield but one of the penalties was a touchdown.

Carrs And Company Highlight Successful Allen Homecoming

Allen's homecoming king Greg Carr and his brother Scott intimidated the defensive line of the Newcastle Raiders, leading the Eagles to a 35-14 homecoming win, Friday night.

Senior Greg Carr rushed for 119 yards and made seven receptions while brother Scott rushed for 52 yards. Both players scored two touchdowns. Adding to the offensive attack were Terry Brewer who rushed for 47 yards and quarterback Lee Hansen who completed three of nine passes for 53 yards.

Scott Carr put Allen ahead in the first quarter on a 22-yard touchdown run. The two-point conversion failed and the Eagles led 6-0 at the end of the period.

Scott scored again early in the second quarter when he ran the ball in from 12 yards out on a reverse play. Greg scored the two-point conversion for a 14-0 lead.

The Eagles didn't quit there and immediately took advantage of the Newcastle defense. Hansen passed to Pat Oosterlaat a 5-3, 130 yard receiver for a 35-yard pass play to set up another touchdown.

Greg Carr took the ball in from 10 yards out and added a two-point conversion run for a 22-0 lead. Greg added another TD before the half on a 25-yard interception return.

The conversion attempt failed and Allen led 28-0 at the intermission.

Newcastle intercepted an Allen pass in the third quarter and threatened to score but the Eagle

defense held and gained possession of the ball. Greg Carr broke loose on a 50-yard gallop to the Newcastle 13-yard line to rattle a free. Mark Koche moved the ball further down field and lined back it to the two-yard line on a 16 yard run.

A penalty moved the ball back to the seven but Brewer moved it back to the two. Hansen scored on a quarterback sneak with five minutes remaining in the third quarter. A successful PAT by Carr gave the Eagles a 35-0 lead.

Newcastle's Randy Nelson scored the first Raider TD in the fourth quarter and Jeff Prompt scored the second one on a pass.

Coach Bart Kniffel said he was pleased with the win after losing a game to Newcastle by one point last season. Unfortunately, Allen was pulled by Randy Smith, Kim H. Jones, and Greg Carr. Carr also spent some time and the G. A. H. returned a punt. Allen's record is 3-1-1 and the Eagles will face an open date Friday.

10 Ways to Contain Costs

(Editor's Note: This is the second of five articles prepared by the Nebraska Society of Certified Public Accountants dealing with inflation. The remainder of the articles will appear about every two weeks.)

Certified public accountants, who provide business managers with wide-ranging advice, say a major problem currently being wrestled with by most firms is "cost containment," a problem familiar to families, too, who usually call it "living with inflation."

From the anti-inflation policies found effective by industry, members of the Nebraska Society of CPAs have come up with 10 ways of countering inflation's blows that might be equally useful in the home.

Their 10 cost containment suggestions are:

Multiply your sources of supply — you shop around when you buy a new car or a TV set, do the same for every day consumable items. Only if you buy from two or more sources will you learn when a price advance is available.

Prepare a "needed soon" list — knowing what household necessities are in short supply will keep you alert to bargains you can really use. Avoid buying "bargains" you really don't need.

Take advantage of special offers — but again, only if you need the product. Cents off two for the price of one, mail in the coupon, two percent off for cash. All good as gold, but only if you would have bought the product or used the service without the special offer.

Get rid of white elephants —

industry periodically clears out assets that are rarely or never used, converting them to cash which can be invested to earn income. This also increases the space available for useful purposes.

Take advantage of economics of scale — but with care. Realize the savings that come with buying in bulk, but don't overdo it. Remember that stocks on hand for prolonged periods are an expense: they tie up capital and have to be heated, refrigerated or otherwise maintained. On the plus side is the fact that almost anything you buy could cost much more a year from now.

Reduce waste — take another look at your life style to see how many of the expenses you take for granted could easily be dispensed with: the seldom used phone extension, the unread magazine, the heated but un slept-in bedroom, the duplicated accident insurance coverage, the club membership no longer used, the savings left on long term deposit at low interest.

Get everybody into the act — industry finds that waste reduction programs work only if everyone in the organization realizes how necessary they are. Impress on the whole family the importance of staying alert for "leaks."

Do it yourself — companies are saving by letting people on staff perform simple services that once were assigned to outside contractors, sending employees to short training courses, if necessary, to acquire the skills needed.

Explore renting as an alternative to buying — consider

carefully the cost of a tool or appliance in terms of how much you will use it over its lifetime. Then compare with daily rental or monthly lease fees.

Substitute — where quality is comparable, consider the lower-priced alternative product. Don't believe you must remain loyal to an item you have always used. That's not loyalty. It's a habit — a bad habit in times like these.

IRS Establishes Phone Service

Each year thousands of telephone calls are received by the Internal Revenue Service in Omaha. A substantial number of these calls are from taxpayers who need tax forms or publications only.

In order to speed up the services available to taxpayers who need tax forms or publications only, the Omaha office of the Internal Revenue Service has installed additional telephone lines.

The new lines will be open 24 hours a day, seven days a week for taxpayers who need tax forms or publications only.

The new telephone numbers to call for ordering tax forms or publications only are: 721-3331 for taxpayers in the Omaha vicinity, and toll free 1-800-642-8278, for taxpayers residing outside the Omaha area.

Taxpayers requesting services other than tax forms or publications should continue to use the telephone numbers as shown in their local directories.

Project Understanding

Defense has been one of man's basic concerns for hundreds of years, so judging from information gathered by a 22-member Nebraska delegation touring Ft. Leonard, Wood, Mo., Lackland AFB, Texas, and the Air Force Academy and NORAD near Colorado Springs, all branches of the military are currently finding manpower numbers greatly

diminished since the end of the draft. Military advancement for a recruit seems almost limitless in 100's of different fields but not enough young men and women are taking advantage of them. It seemed apparent that a return to the draft may be the only alternative to ensure adequate numbers of men for our national defense.

Defense Agency Seeks List of Exposed

For more than a year, the Department of Defense has been attempting to identify former military and civilian defense personnel who participated in the atmospheric nuclear tests conducted from 1945 to 1962. The Defense Nuclear Agency is the executive agent for this program.

If you participated in these tests, which were held largely in Nevada and at Bikini and Eniwetok atolls in the Pacific, you are urged to contact the Defense Nuclear Agency if you have not done so in 1978-1979.

The Defense Nuclear Agency is attempting to reconstruct a complete history of the

atmospheric nuclear test program, including names of participants and any radiation doses they received. One of the purposes of this effort is to enable the National Academy of Sciences and other scientific organizations to determine if there are health hazards resulting from participation in the tests.

Based upon research to date, it is believed that radiation exposures were low. While medical science has no proof that exposure to radiation levels as low as these is hazardous to health, it is generally assumed by scientists that even low

levels of exposure carry some slight risk. There is, however, some disagreement within the scientific community about the magnitude of this risk.

If you were a participant in the atmospheric nuclear tests program, and you have not already done so, you are urged to contact the Defense Nuclear Agency at toll-free number 800-336-3068 in continental United States; from Virginia, outside the Washington, D.C. area, call toll-free 800-572-6845; from Alaska (or Virginia in the Washington, D.C. area) call 202-274-9161 (collect, if long distance); from Hawaii, call collect 808-422-9213. Or write to Defense Nuclear Agency, Washington, D.C., 20305.

If you are concerned that your possible exposure may have adversely affected your health, you are urged either to consult your doctor or, if you are a former serviceman, to contact the nearest Veterans Administration Hospital, where you may obtain a physical examination at Government expense.

Review Group Formed At Wayne Care Center

The Care Review Committee of the Wayne Care Center met for the first time Thursday. The committee, appointed by administrator Timothy Boyle, includes the Rev. Donnie Peterson, Chuck Carhart, Mrs. Jennifer Carney, R.N., and Mrs. Helen Bressler. Mrs. Carney was elected chairman and the Rev. Peterson secretary of the committee.

The Care Review Committee is to act as consumer advocates for the residents and make recommendations for improvement of care and services on behalf of the residents. They are to act as liaison between the

residents, the staff and the community. The committee must review each resident once each year and file a report on an evaluation form.

Medical treatment and access to medical records are not an area of concern for the committee. These areas are reviewed by public officials. The Care Review committee does not inspect the home as an investigative arm of the state. Department of Health. Various inspections take place within the Wayne Care Center by the Department of Health, Department of Public Welfare and State Fire Marshall.

Care Review Committee members are to view the facility as interested laypersons and not from the professional viewpoint. They will try to help improve the quality of life for residents, the administrator said.

The committee also will help field complaints from the community and seek to rectify any

problem areas. In this respect they will serve as a community liaison, Boyle said.

The members were picked because of their personal interest in the residents and because of past services to the residents. All committee members have been personally involved with the elderly in the past.

Health Agency Meeting Set

The Greater Nebraska Health Systems Agency's Northern Sub-area Committee will meet Monday, Oct. 15, in Norfolk at 7:30 p.m.

Nearly 30 committee members representing 21 counties in Northeast and North Central Nebraska are expected to attend the meeting at Commercial Federal Savings and Loan's community room at Seventh and Norfolk Avenue.

The committee, chaired by Forrest Peetz of O'Neill, was established to generate more local involvement in planning for the area's health needs. One of the functions of the committee is the review of proposals by facilities and organizations to spend federal health care funds.

The committee will vote on the following projects:

Crofton Development Corporation's application to construct a new 60 bed skilled nursing facility, a \$900,000 construction cost (\$2,141,625) total. The proposed home would be located in Crofton.

A reconsideration of a hospital based alcoholism program submitted by the American Indian Human Resource Center of Winnebago (\$134,800 — first year funding).

Northern Nebraska Comprehensive Mental Health Center's "Touchstone" substance abuse program. This is a fifth year continuation grant request for \$104,109.00.

The committee's recommendation will be forwarded to the Health Systems Agency's governing board for final action on Oct. 25.

Committee members also will vote on Newman Grove's application to have Madison County designated as a medical primary care shortage area.

At this meeting, one third of the committee seats will be contested for reelection. Providers of health care in Antelope, Dixon, Holt, Knox, Madison and Wayne counties may be nominated. Consumer positions in

Brown, Cuming, Madison, Bock and Platte counties are also open for nominations.

Anyone wishing for further information or nominations information should contact Bonnie Nickle at 371-7040 or write box 1247 in Norfolk.

The meeting is open to the public and everyone is invited to attend.

Education Topic Of Area Survey

A sample of households in this area will be included in an annual survey on education to be taken the week of Oct. 15-19 by the Bureau of the Census, U.S. Department of Commerce.

Leo C. Schilling, director of the bureau's regional office in Denver, says that interviewers will visit homes to obtain information about current school enrollment from nursery school through college. This information helps measure current trends in education and helps determine the need for additional or expanded educational facilities. The questions on education will supplement those asked regularly in the monthly survey on employment and unemployment conducted nationwide by the Bureau for the U.S. Department of Labor.

Results of the monthly employment survey provide data on conditions in the labor force, prime indicators of the economic health of the country. For example, in August the survey indicated that of the 103.0 million men and women in the civilian labor force, 96.9 million were employed. The Nation's unemployment rate was 6.0 percent, up from 5.7 percent in July.

Personal information supplied in the survey is kept strictly confidential by law and results are used only to compile statistical totals.

send me cards, letters, flowers
and your visits while I was at
Providence Medical Center and
since returning home. A special
thanks to Dr. Walter and Dr.
Bob Berthack and to Gary West
for their care. Even though my
thanks to all of you is late it is
really sincere. Chris Tietgen. o8
