ONE HUNDRED FIFTH YEAR NUMBER FIFTEEN

## A Postcard Snowfall

THE WAYNE AREA, and most of Nebraska and Iowa, was caught off guard Sunday night and Monday with the season's first snow storm. Some five inches of snow fell, putting a sudden halt to corn picking and leaving just shy of one half inch of moisture. The heavy snow stuck to most objects, as evidenced by this scenic shot in Greenwood Cemetery. Temperatures, after dipping into the teens

earlier this week, were expected to rise into the 50's by Friday to help melt the snow into badly needed moisture. While there were no serious accidents reported in the immediate area, the storm caught most motorists without snow tires and several found themselves in area ditches.

## 2000 Meeting Monday

Area residents wishing to provide input in to the state's future will have two chances to do so next week — the General Elections Tuesday and the pilot meeting of Nebraska 2000 Monday night.

THE TOWNHALL type meeting will be held from about 7 to 9 p.m. Monday in the Wayne State College Student Center reports Sheryl Marr, Wayne district coordinator for the local meeting.

"Everyone with an interest in the future of the state and their community is encouraged to attend the meeting," she said. "So many people complain about government — this is their opportunity to have input into the future plans for Nebraska."

Nebraska 2000 is Gov. Charles Thone's long range planning project. Its purpose is to involve citizens of the state in charting the course Nebraska should take in heading into the year 2000, explained 2000 co-chairman Alan Cramer of Wayne.

A COMMITTEE was formed several months ago and identified 14 areas for citizen study. These include water, housing, food, health care, protection, education, transportation, environment, cultural enhancement, energy, recreation, human services, economic development and government.

"Citizen involvement is the watchword for this project," Cramer said. "One person can

make a difference. This is your chance for involvement, this is your chance to be heard."

The basic format is that as citizens arrive for the meeting, each will be asked to join one of the 14 groups. A workbook with questionnaires pertaining to the individual category will be provided each attendee. Each participant will be asked to answer the questionnaire and group discussions will follow.

IN ADDITION, questionnaires will be available in all categories so citizens can address and have input into areas where they have special personal interest even though they may have participated in a different category for group discussion, Cramer explained.

After Nebraska 2000 meetings are held in each of the 49 state legislative districts, a Governor's Conference will be held next June in Lincoln. After that conference, a compilation of all the data gathered will be made and a final document published.

"This document will contain concrete recommendations to the Legislature and Governor for action to guide Nebraska into the year 2000," Cramer said.

GROUP LEADERS for the pilot meeting, representing District 17, include the following:

Wayne County — Mary Edmonds, minister's wife; Joe Claybaugh, farmer; Jack Middendorf, Wayne State College librarian; Donna Hansen, farm wife; Jay O'Leary, WSC music professor; and Sheryl Jordan, businesswoman.

Dakota County — John McNeil, Chamber of Commerce manager; Bob Walslead, real estate agent; Lance Hedquist, transportation director; Dennis Gann, former city administrator.

Dixon County — Earl Rowland, farmer and stabilization association president; Fred Page, Waterbury mayor; Nile Buch, Ponca minister.

ASSISTING Mrs. Marr as county coordinators are Henry Trysla for Dakota County and John Kinsbury of Dixon County.

Mrs. Marr said she encourages younger people to become involved in the district meetings since they will be in the prime of their productivity when the Nebraska 2000 ideas are being implemented.

Other district meetings will be held Nov. 19 in Hartington for District 19; Nov. 20 in Norfolk for District 21; and Nov. 21 in Blair for District 16.

DISTRICT 17 State Sen. John R. (Bob) Murphy and co-chairmen Lt. Gov. Roland Luedtke and Cramer will open the Monday meeting here.

## Wayne Thanks Dr. Walter

Through fond memories, humorous anecdotes, letters of recognition and plaques, Dr. Walter Benthack was honored Saturday night for 50 years of medical and civic service to the area.

DR BENTHACK, affectionately known as Dr. Walter, was the Man of the Hour before a crowd estimated at about 425 people during a mellow roast sponsored by the Chamber of Commerce and organized by a Banquet Committee of the Chamber.

A wide range of "mellow roasters" took turns reminiscing about the good old days with Dr. Walter. The line-up included the following persons:

Dr. Lyle Seymour, president of Wayne State College; Dr. Freeman Decker, former mayor; Kenneth Olds, local attorney; Charles McDermott, local attorney; Dr. R.L. Gorthey, president of the Nebraska Medical Association in Lincoln; Dr. Harry W. McFadden, chairman of the Department of Medical Microbiology at the University Medical Center in Omaha; Dr. John Calvert, Pierce; and Wayne Marsh, mayor of Wayne.

THE EVENING opened with Master of Ceremonies Dr. Wayne Wessel, Wayne, providing a few remarks and novel items about Dr. Benthack. The Rev. Robert Hass provided the invocation prior to a buffet-style meal.

"Walter, we may love you, but before the night is over, you might wish you never were here," promised Dr. Wessel during his opening remarks.

Dr. Seymour, speaking to Dr. Walter in jest, said of Benthack's appointment to the State Normal College board of directors: "Soon after he got on the Normal board, they stopped calling it that (Normal)."

DR SEYMOUR also humorously noted that when Dr. Benthack was named to

the board, the college enrollment here was 626. When he left the board, the enrollment had fallen to 287 students. The WSC president noted, however, that World War II and the likes of Hitler, Hirohito and Mussolini had something to do with the drop in enrollment.

The WSC president added that the Dr. Walter Benthack Applied Science building on the WSC campus is "a real tribute to his contributions."

FORMER MAYOR Freeman Decker, a student of politics like Dr. Walter, said he has always felt that Doc Adams from TV's "Gunsmoke" and Dr. Walter were alike. Both were crusty, both honest and both had a sense of humor.

But, Decker added, Walter should learn something about the type of anesthesia Doc Adams used — whiskey.

Referring to Dr. Walter's love of horses, Ken Olds said "beyond a reasonable doubt, there is no disease known to man that can't be cured by horseback riding, according to Benthack."

OLDS, ALONG a more serious vein, read letters of congratulations from U.S. Sen. James J. Exon and U.S. Sen. Edward Zorinsky to Dr. Benthack.

Charles McDermott, a member of the First National Bank board of directors with Benthack, told the doctor that the board had considered a gift for him.

"But we decided if you want a blanket, you'll have to open an account," he said. He added that "You know, Walter, old directors don't fade away, they just lose their interest."

DR. GORTHEY from Lincoln said that Dr. Benthack has served Nebraska well. In checking with several of Benthack's fraternity brothers at college in Omaha, Gorthey said he learned that Benthack was always quiet, was all business and was a hard working individual.

"They told me had he used some more of that home brew, he could have been a little more fun," Gorthey told the crowd. A little digging by Gorthey found that Benthack has delivered 2,308 babies; 1,225 of which are boys and 1,083 are girls. The first baby delivered by Benthack was Dec. 5, 1930, to Mr. and Mrs. Art H. Leyman — a girl.

GORTHEY ALSO read a congratulatory letter to Dr. Benthack from the president of the American Medical Association.

In response to Gorthey's accolades, Dr. Wessel said "Walter, no matter how hard we try to roast you, your dedication keeps showing through."

Dr. McFadden pointed out that when Dr. Walter first began his practice in 1924, blood transfusions were unknown. There were no blood banks until the 1940's.

Chloroform and ether were the anesthetics used. "Not many drugs were effective in those days, so he had to be a minister, too," McFadden said.

PENICILLIN was unheard of until 1928, but was a major advancement in the fight against infections.

McFadden also read a letter from the University of Nebraska College of Medicine dean, Allister Connell.

Dr. Calvert, who replaced Dr. Benthack at Pierce when Dr. Walter moved to Wayne, said "after hearing about Woodrow Wilson and Al Smith, Pierce residents were glad to have a Republican come to town."

Mayor Wayne Marsh read a proclamation on Dr. Walter's behalf, and told the half-serious story about seeing Dr. Benthack for a severe cold.

"LET'S TALK politics," Benthack is reported to have asked, Marsh recalled. "I've been a Democrat ever since," Marsh said.

Pictures of the presentations to Dr. Benthack are located elsewhere in this issue.

## Council Considers Pair of Proposals

In an hour long regular meeting Tuesday night, the City Council heard proposals for reorganizing the Northeast Nebraska Economic Development District (NENEDD) board of directors and for improving two areas in the downtown area.

BILL MARTIN, a representative of the state Department of Economic Development, explained a proposed plan to reorganize the failing Northeast Nebraska EDD.

Because all three Northeast Nebraska Councils on Government are without staff and are supported now by only staff personnel in Norfolk, the governing board of the NENEDD may be reorganized, according to Martin.

The idea of the Economic Development Districts when they were formed about two years ago was to help communities finance industrial development. Through federal grants secured with the assistance of the EDD, utilities would be expanded into industrial areas.

IN ORDER to carry out an active economic development program, a small staff would be employed, Martin explained. Each district member government would be asked to pay 5 cents per capita to support district activities. This would be supplemented by state and federal funds and would enable the district to hire a director and secretary.

Currently, 14 counties in Northeast Nebraska have either been designated or are considering designation as a member of the EDD. Considering designation are Cedar, Wayne, Pierce, Antelope and Boone counties. Dixon, Madison and Burt counties have not qualified yet.

The economic development centers (Norfolk, Columbus and Fremont) would be represented by one elected and one private member appointed by the City Councils of each center. Altogether, there would be some 39 members on the board.

EACH NON-designated county (Madison, Dixon and Burt) would be represented by

one elected official appointed by the county's board of commissioners, Martin explained.

While Wayne County would be represented by one elected and one appointed representative, the city of Wayne would be asked to pay the per capita fee. The county, which selects the representatives, would have the option of providing the per capita fee.

The Wayne Council said it would take the matter under consideration and took no action.

REPRESENTATIVES from the Wayne Community Arts Council were present to explain plans for improving the vacated alleys on the west side of Main Street between Jeff's Cafe and Gerald's Decorating and on the east side between The Diamond Center and Montgomery Ward.

Jane O'Leary said seating areas, murals,

## Watergate's Liddy Provokes Thought and Controversy

by Mark Reinders  
In a lecture and answer period filled with retrospect, insight and controversy, G. Gordon Liddy of Watergate fame spoke to a group of more than 400 persons at Wayne State College Monday night.

LIDDY SPOKE of an aura of illusion that has brought the United States to an inferior world position. Americans are partly to blame for this attitude, according to Liddy, but the blame goes deeper than that, he said.

"Jimmy Carter says that the American people are suffering from 'maladies of the spirit.' I say that the problem is that, unlike the people of Asia and Europe, the

American people fail to be able to apprehend reality, or hope it will go away so they won't have to cope with it," the former aide to President Nixon said.

Americans want to live in a world of illusion, in a risk-free society, Liddy said. He stressed, however, that the rest of the world does not share that view.

"THERE NEVER has been a risk-free society, not now and there never will be in the future. The United States was built on risk, but now we act like we must be told everything we are supposed to do," Liddy said.

Much of the information that Liddy offered was not that of Watergate, but instead

centered around Liddy's observations of the American position in the world. On Watergate, however, he offered his reasons for speaking out now after his self-imposed seven years of silence.

Liddy was known as "The Sphinx" during the Watergate years and was given the harshest sentence of any of the Watergate conspirators — 22 years in prison. His sentence was commuted by President Carter in 1977, making the total amount of his time in prison 52 months.

ACCORDING TO Liddy, the term "Watergate" has grown to be an umbrella term covering an enormous amount of actions. In reality, Watergate refers to the two

break-ins of the National Democratic Headquarters in Washington, D.C. in May and June of 1972. Liddy explained.

The break-in of psychiatrist Daniel Ellsberg's office and the ensuing Pentagon Papers coverage had no connection with Watergate, Liddy said.

"After the Watergate break-ins were discovered, I tried to stem the damage because I was the head of the operation, not President Nixon. I never discussed Watergate in any form with Richard Nixon.

WATERGATE is just one of many political intelligence gathering activities that happened daily. "The only difference is that we got caught," he said. He continued that "If I was given the chance, I would do the whole thing over again with only one change. I wouldn't surround myself with the likes of Jeb Magruder and John Dean this time. I would have picked a heartier crew."

Liddy feels the time has come to tell the tale of Watergate because of its historical value. He can now tell of his actions without being prosecuted since the statutes of limitation have run out on Liddy's involvement in the Watergate scandal.

OFFERING HIS REASONS for the initial crimes, Liddy said "It was believed that any of the Democratic nominees would have been a formidable opponent to Richard Nixon and the best way to get information on that opponent would be to wiretap the Democratic National Headquarters and wait for information to be given to us." Liddy also feels the strength of any nation

relies in the power and resourcefulness of its intelligence agencies.

"There are two things you always want to know about friend and foe alike — what are their capabilities and what are their intentions? You learn that from intelligence reports.

"It is common practice for nations to spy on one another. It always has been. And anyone who does not want to believe that is living in a world of illusion," Liddy said.

AT ONE POINT in the midst of the Watergate scandal, Liddy and his co-workers made plans to kill Washington columnist Jack Anderson to ensure what Liddy believed to be "the secrecy of American intelligence."

According to Liddy, Anderson was jeopardizing the safety of American foreign agents and the effectiveness of foreign policy with his systematic leaking of top-secret information. In view of an American agent actually being killed, the killing of Anderson would have been what Liddy termed as "justifiable homicide."

Liddy finished his hour-long discussion before taking questions from the audience with this observation on self-improvement and education.  
"A GOOD education is the most valuable asset you can ever obtain. And it is the one thing that no one can take away from you," Liddy said. "To me, education was the most powerful weapon I ever had because people were not scared of me, but they were scared of what I could do with my education."

Liddy answered questions from the audience which at times seemed to dispense his principles and at other times obliged him with its applause.

On the question of the Mideast and Persian Gulf situation and more particularly the hostage dilemma, Liddy feels America seems to be working against itself.

"AMERICANS HAVE this illusion in their minds that we can change the world to meet our standards. We are not going to change a culture that uses and advocates the use of terrorism. I say instead to play by their rules. It does not matter what you or I think about terrorists. They are there and we must deal with them," Liddy said during a heated exchange with a member of the audience, an Iranian student at WSC.

A question on the draft and what the next four years will bring prompted this response: "There will be a draft someday no matter who is elected next month. The all-volunteer Army simply is not working. Over half of the men in the Army are in the mental category No. 4 — they have a room temperature IQ much like that of Watergate Judge John Sirica," he said.

"OUR ENEMIES know we are getting weaker. The world is a very bad neighborhood at 2:30 in the morning," Liddy said.

As a euphemism to explain this, Liddy compared a weak country to the little old lady with a fat purse trying to get from LIDDY Continued on page 10

## Direct Deposit Offers

### SSI Recipients Several

### Advantages to Residents

Direct deposit, a voluntary program allowing people getting social security or SSI checks to have them deposited directly into a checking or savings account, offers Northeast Nebraska residents several advantages, Dale Branch, social security district manager in Norfolk, said recently.

Instead of being sent to a person's home, the check is sent directly to his or her financial institution. Some advantages are:

- A person never has to worry about the check being lost or stolen.
- A person can leave home on vacation and not worry about the check sitting in a mail box. The money is available in an account.
- A person can save transportation costs and help conserve energy. He or she does not have to go any place and stand in line to cash or deposit the check.
- Keeping money in a checking or savings account is safer than carrying a lot of cash.
- A checkbook provides a written record for keeping track of

expenses. Checks are often less expensive than money orders and cancelled checks serve as receipts.

To arrange for direct deposit, a person should complete a direct deposit form, SF-1199. The form can be obtained at any financial institution and the people there will help complete it. A monthly benefit check contains all the information needed for direct deposit.

Completing the form only authorizes deposits into a person's account. Only that person or someone authorized by him or her can make withdrawals.

Branch said that it is very important for people using direct deposit to keep social security informed of their correct mailing address so they will continue to receive important notices about their social security or SSI checks or about Medicare.

For more information about direct deposit, call or visit the Norfolk social security office, located at 1310 Norfolk Avenue. The telephone is 1-800-6 42-8310.

**Fred Mann Speaks for Merle Von Minden**

Many of you supported me for State Legislature in the Primary election. I am pleased with the confidence you showed me then. I feel I had your support because of my background and my strong belief in LESS big government. Merle Von Minden shares these same beliefs.

I am sure you want local government and school decisions made here at home. I am a concerned opponent of Proposition 4 and feel we must be concerned about a young college professor with little experience, who has the support of NSEA, the AFL-CIO and the public employees union, serving us in the State Legislature.

Since you share these concerns, we must vote for Merle Von Minden for the Legislature.

The bride, a 1975 graduate of Wayne Carroll High School, is employed at the First National Bank of Columbia. The bridegroom is a drill sergeant at Fort Jackson.

## Regional Arts Council Announces Workshops, Shows in November

The Wayne Regional Arts Council (WRAC) has announced plans to sponsor four separate activities during the month of November, including a photography workshop and show, guitar workshop, and community choir concert.

Mike Carney, president of the Arts Council, said the public is invited to participate in any or all of the events.

A PHOTOGRAPHY workshop will be held five consecutive Wednesday evenings, beginning Nov. 5 at 7:30 p.m.

Dennis Linsler of Wayne, instructor, said the workshop will include basic photography techniques of 35 mm or larger adjustable cameras.

Cost of the class is \$20 for WRAC members and \$30 for non-members. Memberships for 1980-81 received after Nov. 1 can

not be applied toward the workshop. Persons interested in the class must pre-register with Jane O'Leary, 375-2335. Enrollment is limited to 15 persons.

CLASSICAL guitarist Nell Archer Roan will perform in recital at 8 p.m. Friday, Nov. 7, in the Woman's Club room of the Wayne city auditorium.

Roan will perform a variety of selections, including the works of Giuliani, Bach, Tarrega, Tansman, Berkeley and Barrios. He has appeared at various universities and concert halls throughout the United States, Canada, Central America and Europe.

Currently, Roan serves on the faculties of music at the University of Nebraska-Omaha and Creighton University. The Wayne recital will be presented less than one week prior to a return perfor-

mance at Carnegie Hall. General admission will be \$2.50 for adults and \$1.25 for children under 12 years of age. Patron WRAC members will be admitted with their membership card.

Following the program, refreshments will be served by the WRAC Board of Directors.

THE WAYNE Community Choir, which is comprised of local and area residents, will present a winter concert on Friday, Nov. 14, at 8 p.m. in Ramsey Theatre in the Fine Arts Building on the Wayne State College campus. The public is encouraged to attend the performance.

The choir is directed by Matthew Smith. Accompanist is Bonnie Siefken.

Rehearsals are being held each Tuesday evening at 7:30 in the fellowship hall of the First United Methodist Church. All persons in-

terested in singing with the choir are invited to attend the rehearsals.

THE ARTS Council will end the month with a photography show, Nov. 20, 21 and 22, at the Mineshaft Mall.

All professional and amateur photographers in the region are invited to participate in the WRAC sponsored event. Cash awards of up to \$20 will be given for one or more entries judged "best of show," and door prizes will be awarded to visitors to the show.

Mrs. O'Leary said photographs will be kept under supervision and may be priced to sell. Entries must be matted and/or framed and ready for display.

Persons interested in displaying their photographs are asked to contact Mrs. O'Leary, 375-2335, or Maria McCue, 375-1986, for more information.

**McINTOSH** — Mr. and Mrs. Bill McIntosh, South Sioux City, 8 oz. son, William Jr., 9 lbs., 8 oz., Oct. 23. St. Luke's Medical Center, Sioux City. Grandparents are Mr. and Mrs. Don Kluever, Allen.

Kristy Rose Sullivan, infant daughter of Mr. and Mrs. Randy Sullivan, was baptized Oct. 19 at St. Paul's Lutheran Church near Concord.

The Rev. Dwayne Lueck officiated and sponsors were Cindy Ellyson of Sioux City and Mrs. Dennis Junck of Carroll.

Breakfast guests afterward in the Sullivan home were Mr. and Mrs. George Sullivan Sr. of Martinsburg, Mr. and Mrs. Dennis Junck and family of Carroll, Mr. and Mrs. Bob Sullivan and family of Allen, Cindy Ellyson of Sioux City, Mr. and Mrs. Gordon Hansen and family, Rebecca Carr of Wahoo, Mr. and Mrs. David Daneck of Wayne, Mrs. Soren Hansen and Mrs. H.A. Cochran and Nancy.

## 'Music With a Message' Series Begins Sunday At First Baptist Church

"Music With a Message," a four night series of musical and gospel preaching, begins Sunday night at the First Baptist Church in Wayne.

The series will continue each night through Wednesday, Nov. 5, at 7:30 p.m. Babysitting services will be provided each evening.

The message, both in song and word, will be presented by the Rev. Eddie Carter, pastor at First Baptist Church, and his wife Ruth. The public is invited to attend and special invitations have been extended to churches throughout Wayne County.

A 15 minute prelude each evening will be followed by congrega-

tional singing, special music and a message.

Carters began their pastoral responsibilities in Wayne after 29 years as itinerant evangelists and 11 months as Ministers of Music and Pastoral Assistant. They remain available for occasional campaigns and crusades elsewhere to present their gospel ministry geared to reach all ages.

Pastor Carter is an inspiring song leader and preacher. Mrs. Carter, an outstanding organist and pianist who served four years as an instructor of music after graduating from college, is the arranger of most of the team's instrumental and vocal numbers. Mrs. Carter also is available to speak to women's groups.

Carters have been well received by the clergy and lay people of many denominations. Recommendations have brought forth the highest praise from pastors, evangelists, youth, and Christian leaders.

## Wedding Plans Told

Mr. and Mrs. Jerald Chapman of Allen announce the engagement of their daughter, Colleen Kay Chapman of Blunt, S.D., to Richard Gene Peterson, also of Blunt.

Miss Chapman, a 1974 graduate of Allen High School and a graduate of South Dakota State at Brookings, is employed as a quality control analyst. Her fiancé, who is the son of Mrs. Dorothy Peterson of De Smet, S.D., was graduated from a South Dakota trade school and is employed at Massey Ferguson in Pierre, S.D.

Plans are being made for a Nov. 29 wedding at the United Methodist Church in Allen.

## Norfolk Bride Feted

Sandra Ekberg of Norfolk, who will marry Ron Holtgrew of Winside on Nov. 22, was given a bridal shower Sunday in the Adolph Meyer home at Winside.

Miss Ekberg is the daughter of Mr. and Mrs. Harold Ekberg of Wayne.

Guests attended the bridal fete from West Point, Norfolk, Wayne and Winside. For entertainment the group priced kitchen utensils, which were later presented to the bride elect.

Assisting the honoree with her gifts were Mrs. Allen Schrant and Lori Schrant. A salad luncheon was served.

Hostesses were Mrs. Carl Berg, Mrs. Nels Nelsen, Mrs. Kurt Schrant, Mrs. Allen Schrant and Mrs. Adolph Meyer.

## Registrations Accepted For Sewing Workshop

Registrations are still being accepted for a one-day sewing workshop being held at the Northeast Station near Concord on Saturday, Nov. 8, from 9:30 a.m. to 3:30 p.m.

Marie Kehr of Lincoln will demonstrate a variety of "common sense" sewing techniques designed to give a more professional appearance to homesewn garments.

Mrs. Kehr's sewing methods are designed to give perfection in

a minimum of sewing time with a minimum of effort!

Registration fee for the day's session is \$10 for adults and \$5 for youth ages 18 and under. Pre-registration with payment is requested by Friday, Oct. 31. Checks should be made payable to the Home Economics Expense Fund and mailed to the Northeast Station, Concord, Neb., 68728.

Those attending are asked to bring a sack lunch, note pad and pencil.

## Winside Club Hosts Bridal Shower Friday

The Winside Center Circle hosted a miscellaneous bridal shower for June Meyer Friday in the Adolph Meyer home.

Guests were members of the club and Mrs. LeRoy Topp and Mrs. Albert Topp of Pilger and Mrs. Gary Wylie of Winside. Decorations were in cranberry and white, colors chosen by the bride for her Nov. 7 marriage to

Gene Topp. A scrapbook was made during the afternoon and was presented to the honoree. Joanie Jaeger and Kim Frederick assisted with the gifts.

The bride is the daughter of Mr. and Mrs. Adolph Meyer of Winside and the bridegroom is the son of Mr. and Mrs. LeRoy Topp of Pilger.

**IF YOU EVER PLAN TO BUY OR SELL A HOME, THIS CONCERNS YOU.**

Homeownership has always been a fundamental part of the American tradition — and the American economy. Savings and loan associations were created to serve and support homeownership in America. In fact, savings and loan associations nationwide have been responsible for more mortgage loans than all other private lenders combined.

A Congressionally appointed agency called the DIDC (Depository Institutions Deregulation Committee) has recently taken actions that will have a negative effect on homeownership and on America's largest single industry: Housing.

By setting rates above the market level on six-month and 2 1/2-year money market certificates, the DIDC is forcing mortgage rates up. (Higher-than-market savings rates inevitably mean higher mortgage loan rates.) And, by removing the rate advantage savings and loan associations had over banks on six-month money market certificates, the DIDC has also reduced the amount of money available for home loans through savings and loan associations.

So for you and all Americans, money for home loans is more expensive — and harder to get. The resulting slowdown in the housing industry affects homeowners, realtors, home builders, construction workers, lenders, and hundreds of related businesses.

You can help. You can ask your Congressional representatives to prevent the DIDC from inflating rates. Congress can also create tax-incentive programs to encourage people to save. These measures will help make more money available for mortgage loans — at rates people can afford.

Sign the forms below, cut them out, and send them to your Congressman and Senators.

## Buddy Poppy Girl

THE VFW AUXILIARY OF WAYNE has chosen Kristin Frevert as this year's Buddy Poppy Girl. Miss Frevert, daughter of Mr. and Mrs. Merlin Frevert of Wayne, will represent the auxiliary during their annual poppy sales in Wayne on Thursday, Nov. 6. Chairman this year is Ruth Korth. The local VFW auxiliary has sponsored a Buddy Poppy Girl since 1968. In past years the girls have won second and third places in the district. Mrs. Korth said the sale of Buddy Poppies preceding Memorial Day is the traditional way to bring attention to the sacrifices made by the nation's war dead in their struggle to keep America free. All proceeds from the sale of Poppies go to the relief and welfare of the needy veteran, his widow and orphans. Mrs. Korth urges residents of the community to pay their respects by purchasing a poppy and wearing it on Nov. 6.

## Local Teams Represented

### All-Conference Teams Selected

All-conference "volleyball" teams were announced by the Lewis and Clark Conference this week. Nominations and selections were made at a conference meeting last week.

Six players were named to the first team in each division, six to the second team and five more to each honorable mention list.

In the Lewis Division, two Allen

players were named to the first team. Lisa Erwin and Colette Kraemer were first team selections. Des Williams was named to the second team.

Lewis champion Walthill placed two players on the first team and two on the second. Homer, Bancroft, Ponca and Newcastle were all represented on either the first or second teams.

Named to the honorable mention list in the Lewis Division was Janet Peterson of Allen. She joined four other players.

In the Clark Division, one Wakefield player and one Winside player were named to the first team. Deb Foote represents Wakefield and Laurie Gallop represents Winside. Joan Miller of Wakefield was selected to the

second team.

Joining the local players on the first and second teams are three players from Wynot, two from Coleridge and Osmond and one each from Hartington and Wausa.

Teri Schwarten of Wakefield was named to the honorable mention list.

## Wayne Opens Class B-4 Districts

After completing its season with a loss, the Wayne volleyball team is now preparing for district action.

The Blue Devils were defeated on the home court by South Sioux City 15-12, 15-12, Tuesday night. Jill Zeiss was the leading server with 9 points and Lynn Surber was leading spiker with 8 spikes.

The loss dropped Wayne's record to 10-8. Class B 4 districts are scheduled Monday, Thursday and Friday at Northeast Tech in Norfolk.

Wayne will play third seeded Columbus Scotus at 7 p.m., Monday. In other first round matches, fourth seeded West Point will play Tekamah Herman at 6 p.m. and Schuyler will face second seeded Columbus Lakeview at 8 p.m. Top seeded Hartington Cedar Catholic will receive a first round bye.

On Thursday, the West Point Tekamah winner will meet Cedar at 7 p.m. and the Wayne Scotus winner will play the Schuyler Lakeview winner at 8 p.m. Finals are scheduled at 8 p.m. Friday.

West Husker All-Conference teams will be selected at a meeting on Tuesday, Nov. 11.

In junior varsity action against South Sioux, Wayne won the match 10-15, 15-8, 15-12. Missy Stoltenberg led the victory with 14 spikes.

South Sioux won a sophomore reserve match 15-0, 15-5 in the night's opener.

## Wildcats Shut Out Emporia State To Stay Near Top of CSIC Race

**By Diana Daniels  
Wayne State SID**

The Wayne State Wildcats got back in the thick of the CSIC race when they spoiled another opponent's homecoming festivities with a 20-0 shutout of Emporia State Saturday. The Wayne State offensive driving ability was evident in the accumulation of rushing yards as opposed to passing yardage.

The Wildcat's first score followed a blocked Emporia punt in the second quarter. The Hornets were held down at the ESC 42 and punted. Linebacker Steve Dennis blocked the punt and the Wildcats gained possession. Three plays later Clark Benne crossed the goal line on a five yard run with 12:52 remaining. Gary Cook added the PAT to put the Cats up 7-0.

WSC struck again in the second quarter on a rushing drive. Again it was Clark Benne carrying the ball, scoring on a two yard run around the end. Cook added the PAT to send the Cats to the locker room for the half leading 14-0.

It was not until the opening play of the fourth quarter that the Cats scored again. Rick Lade stepped in and tossed a 15 yard touchdown pass to Pat Maxwell. The extra point attempt by Gary Cook was blocked. Wayne State held ground against the Hornets defensively and kept them from

scoring.

The Wildcats are now 3-2 in the CSIC and 4-3 overall.

Offensively, Clark Benne carried the ball 13 times for 117 yards. Rick Lade rushed for 67 yards, Kelly Neustrom passed for 68 yards and Pat Maxwell had three receptions for 45 yards.

Defensively, Ron Berrie had 13 tackles, Ron Gilbert had 10, Steve Hawkins had 9, Tony Scudder had 8, Jim Morgan had 7 and Steve Dennis had 6. Berrie, Hawkins and Jim O'Brien each had a fumble recovery.

Coach Del Stoltenberg was pleased with the win. "Anytime you win you have to be happy about it," commented Stoltenberg. "I was a little surprised at our rushing offense; we generated more than in the past several games. We look for a win anytime, not necessarily the statistics." added Stoltenberg. "Our defense also played a good game."

The Wildcats are up against the Missouri Southern Lions on the road this Saturday. "Missouri Southern is very strong defensively," said Stoltenberg. "They have good size and play wide periodically blitz the corners and safety positions." "We're looking forward to a good game. It might be nice to play in the south this weekend with the weather we have now. It is yet to be seen whether the weather this week will hurt us

any in terms of practice time."

WSC will meet the Missouri Southern Lions in their homecoming game. In the three homecoming contests in which Wayne has played, including its own, the Wildcats have come out winners.

The Lions are 2-3 in the Central States Intercollegiate Conference and 3-3 overall. The Lions and Wildcats have played five games in their series and are tied at 2-2-1. The last meeting was won by the Lions 18-14.

Last weekend, Southern lost to the Ft. Hays Tigers 34-12 in Hays; Kan. The Lions have wins over Southwest Missouri 17-15; Emporia State 14-7 and Missouri Western 21-20. Their losses are to Pittsburg 28-21, Kearney State 31-7 and Ft. Hays 34-12. The only tie the Lions have is with non-conference opponent Central Missouri 3-3.

Semifinals are finals are scheduled Thursday and Friday.

## Wayne State is Building New Softball Field

A new regulation size softball field on the Wayne State College campus is nearing completion. Planners chose the corner of Lindahl Drive and Walnut Street (west of Providence Medical Center) as the best location. Grading the outfield is in final stages with the backstop and perimeter fence to go up soon.

Earl Larson, WSC director of physical plant, expects completion of the field to be within two

weeks weather permitting. However, Larson said seeding will not be until next spring. Larson estimated the total cost at \$12,000, including a new drainage system for the baseball field.

"The new field will benefit both women's softball and the intramurals program," Larson said.

Softball Coach Susan Kovar said that the athletic department has been requesting a new facility for several years. Kovar said that she expects to play more home games and maybe even host a tournament sometime next year. Kovar said, "It will feel great to play at home since most of our home games in past seasons have been played at away fields."

WSC Intramural Director Frank Teach said the new field will enable him to coordinate intramural schedules better. Teach also said it might be possible to use the new field for intramural championship games.

## Randy's Recap

According to Randy Hascell

**WAYNE STATE'S BASKETBALL** team will give a preview of its season to come on Saturday, Nov. 8.

The WSC Wildcats will be in action against an alumni team at 7:30 p.m. Saturday in Rice Auditorium. The basketball game will follow a football game between Wayne State and Kearney State that afternoon.

Honorary coach for the alumni team will be Lyle Garvin of Wayne Sporting Goods. Some of the alumni players returning to test their skills against WSC's 1980-81 squad are Joe Curl, Dean Onken, Paul Emanuel, Dave Meyer, Chuck Collins, Bill Goodwin and Bill Kruss. The alumni squad will number about a dozen.

This will be the only opportunity for WSC fans to see the Cats in action until late December. The next home game for Wayne State's varsity team isn't scheduled until the Wayne State Holiday Tournament. More information about the WSC basketball team will be included in an article in Monday's paper.

WINSIDE moved up in the Omaha World Herald and Lincoln Journal prep ratings

this week after a convincing win over Harrington. The Wildcats are now ranked sixth in Class C-2 in both newspapers' ratings. And with a win over Walthill Friday, the Cats are assured of a playoff berth.

**I'M HAPPY TO SAY** that my number one team was knocked off this week and must be replaced. Southern Methodist defeated Texas, Saturday making way for UCLA as the top ranked team in the country.

I say I'm happy because the loss by Texas allows Nebraska and Florida State to move up in the ratings. I am an avid Nebraska fan and became a Florida State fan after following the Seminoles this year. They are certainly one of the best teams in the country and also one of the easiest to like.

However, I can't stand Alabama or Notre Dame but feel that those two teams deserve to hold down the number two and three positions at this time. Georgia and North Carolina continue their unbeaten streaks and continue to move up in the polls.

Undeclared Baylor is another team to watch. Next in line for rating honors are Missouri, South Carolina and Penn State.

Because Georgia and Alabama don't play each other this year (sounds like something Bear Bryant would arrange), both could go through the season undefeated. That is a good argument against conferences composed of 10 teams. I think it's stupid to have more than eight teams in a conference.

The bottom 10 remains nearly the same after a successful week for 10 of the worst teams in the country. Every team in my bottom 10 with the exception of Oklahoma State continued its losing ways. However San Diego State replaces Michigan State because the Spartans have given some good teams a good struggle.

Randy's ratings:

Top 10		Bottom 10	
1. UCLA (6-0)	1. Northwestern (0-7)	11. Texas Tech (1-6)	11. Oklahoma State (0-5-1)
2. Alabama (7-0)	2. Vanderbilt (0-6)	12. Kansas State (0-6)	
3. Notre Dame (6-1)	3. Oregon St. (0-6)	13. Texas A.M. (0-6)	
4. Nebraska (4-1)	4. TCU (0-7)	14. Iowa State (0-7)	
5. Florida St. (7-1)	5. Colorado (0-7)	15. Memphis St. (0-7)	
6. Georgia (7-0)	6. Memphis St. (0-7)	16. UTEP (1-6)	
7. N. Carolina (7-0)	7. UTEP (1-6)	17. Georgia Tech (1-6)

## Nebraska Wranglers Exhibition Tonight

The Wayne State College Lady Wildcats will be hosting an evening of women's basketball tonight (Thursday) in Rice Auditorium.

The first game of a twinbill will feature the Lady Wildcats in a pre-season scrimmage with the University of South Dakota Coyotes. Game time is slated for 4:30 p.m. The second feature game will be an intra-squad scrimmage with the Nebraska Wranglers professional women's basketball team. Game time is set for 4:30 for this game. Admission is free to both contests.

The Nebraska Wranglers call Omaha home, though several of the players are from Iowa. The Wranglers are a first year team in the nine-team women's pro-league.

Head coach for the Wranglers is Steve Kirk. In his second year as coach of women's pro ball. Last year he coached the Iowa Cornets to a 24-12 season. The Cornets were the Midwest Champions last year and runner up in the league championship.

Former WSC basketball star Connie Kunzman is presently playing for the Nebraska Wranglers. As a Wildkitten, Kunzman led the team in scoring and rebounding several seasons and set numerous records in those categories. As a senior, she averaged 10 rebounds and 15 points per game.

The Wranglers play a total of 36 league games in the pro circuit. The first Wranglers game will be Nov. 30 against the Minnesota Phillies. Their first home game is

scheduled Dec. 7 against the Dallas Diamonds.

The Lady Wildcats begin their season Nov. 25 when they host Peru State College at 7 p.m. in Rice Auditorium.

## Allen Defeats Clark Champion in Two Sets

Despite a below-average performance, the Allen Eagles defeated Clark Division volleyball champion Coleridge 15-7, 15-7, Tuesday night before a large parents night crowd. Allen finished second in the Lewis Division of the Lewis and Clark Conference.

"We really didn't play that well. Our passing was off and so were our bumps and sets," Allen coach Gary Troth said. "Our offense never got going."

Some fine serving won the match for the Eagles. The team missed only two out of 70 serves. Troth reported. "This is the first time we have had to rely on serving," he said.

Leading player for Allen was Des Williams, who had a good defensive game, making lots of saves. Tami Jewell was the team's leading server and Loree Rastved played well after returning from illness.

Allen won the B team match 11-2, 11-7. Pam Kavanaugh and Carmin Lubberstedt scored eight points each for the Eagles.

The C team also won its match 12-10, 9-11, 11-4. According to Troth, the C team set and spiked about as well as the reserve and varsity teams.

Jeanne Warner scored all 11 points in the final game for Allen's C team. Everyone saw action in the three matches.

After the sweep on parents appreciation night, Troth said he wanted to thank the parents "for being so loyal."

Allen's varsity team will enter district play in the Class D-1 districts at Pender, Tuesday, Thursday and Friday.

The Eagles will meet Snyder at 7 p.m. Monday. Other pairings are included in a separate article.

**NOTICE TO FARMERS HE'S ONE OF US????**

One of the 17th District Candidates — Merle Von Minden is running on the philosophy of "He is one of us" and "He will be here to listen to us". Both statements are very admirable, but let's look at a typical example of his real concern for the farmer while serving as a Dixon County Supervisor.

— Last Spring over 500 Dixon County Taxpayers filed protest with the Board of Supervisors in regard to the methods used to establish land values. How many meetings did this man who claims to be one of us even attend???

Is this man truly interested in the concerns of his friends and neighbors???

## The Three Faces of James Whitmore

A PACKED HOUSE, estimated at 700 persons, was entertained by James Whitmore Tuesday night in Ramsey Theatre at the Wayne State College campus. The famous actor brought to theatrical life the personalities of Theodore Roosevelt, Will Rogers and Harry Truman.

Whitmore said that these three men have had a "profound impact and influence on our society." From left, Whitmore impersonates Roosevelt, Rogers and Truman. The crowd showed its appreciation at the end of the program by giving Whitmore a standing ovation. The

program was sponsored by the Wayne State Special Program Committee at a cost of approximately \$6,400.

## Politics Draws Wayne State Students

The 1980 election will soon be here and the parties are all campaigning to promote their candidates. Republican and Independent The Wayne State College

chapter of Young Republicans is headed by President Tom Burney of Hartington. According to Burney the organization plans to be very active this election year. Throughout this fall, the Young Republicans plan to campaign for both presidential nominee Ronald Reagan and Congressman Doug Bereuter who is running for re-election. The Young Republicans will distribute pamphlets and other publications on behalf of their candidates.

An important part of the Young Republicans is their honorary membership program. According to Burney any Republican may become an honorary member. The member pays a fee of \$10 which goes into the organization's treasury. The honorary member may then attend all Young Republican meetings and receive a news letter from the organization twice a year.

Every March the Nebraska State Young Republicans hold their convention in Lincoln. The Young Republicans form their own state platforms at these conventions which are later sent to the National Convention. The Young Republicans are trying to arrange for at least one political speaker a month on the WSC campus. They are currently in contact with Governor Thone about the possibility of having him as a speaker. They also are tentatively planning a few fund raising activities for this year such as a record sale and a chili feed. For Wayne State homecoming this year, the Young Republicans constructed a billboard and built a float for the parade.

The Wayne State Young Democrats reactivated last spring in preparation for the upcoming election. Their sponsor is Allen O'Donnell, associate professor of political science, and the president is Tom Wacker of Battle Creek. The Young Democrats plan to work on various projects this fall. Monday they will be canvassing

the Wayne area for Rex Story. Story is running for the U.S. House of Representatives in the First District. His opponent is Republican incumbent Doug Bereuter.

Sometime this fall the Young Democrats plan to campaign in this area for President Carter. They will be handing out pamphlets and leaflets for Carter's support and will be canvassing the area. O'Donnell and Wacker have contacted Story about the possibility of having him as a speaker for several WSC social science classes. He has tentatively agreed to spend some time this month.

Currently, from a suggestion from Young Republican chairman Tom Burney, the Young Democrats are developing an honorary membership. This membership will be similar to that of the Young Republicans. Anyone desiring more information on or wishing to join the Young Democrats may contact Tom Wacker in Morey 231 on the WSC campus.

Although there is no organized Independent Party on campus, students actively involved in the party Dr. Sayre Andersen, associate professor of English, is a member of the Independent party to promote presidential candidate John Anderson.

The Independents also planned to have something in WSC's Homecoming parade to be used to promote John Anderson.

Anderson feels it is very important to have an independent candidate on this year's election ballot. He believes Anderson is a capable candidate and will make a strong showing. Anderson also strongly believes that Anderson will appear on all fifty states' ballots this election year.

Any person wishing to help promote Anderson may do so by contacting Anderson in the basement of Neihardt Hall on the WSC campus.

Be Right with Bereuter

Congressman Doug Bereuter's support for stopping the growth of federal spending and eliminating useless government regulations has earned three impressive awards, the "Watchdog of the Treasury Award," the "Guardian of Small Business Award," and an award from the National Taxpayers Union.

block A to block B. The least that will happen is that she will get her purse taken.

However, if you are a husky man armed with a baseball bat and machine gun and carrying a fat billfold, the bad guys will leave you alone and wait for the little old lady with the purse.

"Throughout history, a strong agricultural base and a strong industrial base have translated into economic power, and economic power translates into military power which translates into world power," he said. "And nothing else does. The winners

are the ones who write the history.

"THE UNITED States had better get its act together. The Soviet Union is our enemy and the world about us isn't sitting idly by waiting for us to get ready to face the world. He who has the power should use it, because if he doesn't he will lose it," Liddy said.

Liddy is an author and a lecturer. His first book was a novel, "Out of Control," a spy thriller. He recently completed work on his autobiography, "Will."

**HIS FIRST JOB** was as an Army officer in the artillery in Korea. Then he became a lawyer and joined the FBI. Later, he became a bureau supervisor on J. Edgar Hoover's staff and became a criminal prosecutor.

He later ran for Congress but lost and then became a special assistant to the Secretary of the Treasury. From there, he went to the Committee for the Re-Election of the President and thus began his famed allegiance to President Richard Nixon.

Liddy was brought to Wayne by the Wayne State College Student Senate for \$3,000 plus expenses.

sculpture gardens, play areas for children, etc., are being considered for the area. She said a grant is being sought to pay for the work.

The Council's approval is needed, and it gave its tentative stamp. However, it will review the plans and specifications once the grant is secured.

**BACK TO WATER** problems again, the Council voted to allow Salmon Well Co. of Wakarusa to lower the pumps in wells 4, 5, 6 and 7 and to acidize well No. 6. The city found itself with serious water problems in the last few weeks, with only one good well in operation.

The lowering of well pumps will provide greater pumping capacity while the Council considers

construction of two new wells elsewhere in the area.

**AN ORDINANCE** revision stemming from negotiations involving the recent garbage strike was approved.

The ordinance allows Class A haulers (currently Mrsny Sanitation Service and Wayne Refuse Co.) the option of dumping grass, leaves and burnable wood at a location other than the transfer station.

Under the previous ordinance, the haulers were required to dump such items in the transfer station, thus increasing their costs. The new ordinance is expected to relieve the financial strain on the haulers somewhat.

**AN ORDINANCE** rezoning

Muhs Acres from agricultural to residential also was approved.

When the city adopted its comprehensive plan about two years ago, Muhs Acres was left in the agricultural sector. Under rules then, a home could not be built on less than 25 acres. However, the new ordinance removes the 25 acre restriction.

There were no objections at a public hearing involving the rezoning ordinance.

In other action, the Council

Approved payment of \$803.60 to Gilmore & Associates for design and contract work involving extension of Sixth Street east behind El Toro.

Approved payment of \$554.25 to Gilmore on the design phase of East Sixth Street water extension main.

Approved payment of \$29,610.68 to Concrete Specialties, Inc. of South Sioux City on paving of Hillside Drive and Thorman Street.

Concrete Specialties has now been paid \$57,000 toward a total project cost of about \$78,000.

All Council members were present and all actions were unanimous.

# Mellor Honored By NTCC

**BILL MELLOR**, electrical superintendent for the city of Wayne, was honored recently by Northeast Technical Community College for his contributions to the college. He has served on the college's utility line program advisory committee since its beginning. At the committee's October meeting, Mellor was presented with a letter of appreciation from NTCC President Dr. Robert Cox and a pair of utility line climbers mounted and inscribed from the NTCC instructional staff. Mellor is retiring from the city of Wayne after 35 years with the city. From left are Gary Miller, associate dean of instruction at NTCC; Mellor; Dean Leonard, utility line instructor and Mellor's son-in-law; and Tod Johnson, industrial cluster manager at NTCC.

## Rex Story Chides Bereuter For 'Big Oil' Contributors

"If the people of this country want to know why the policies of the federal government have helped the large oil companies reap millions and millions of dollars in record windfall profits, they should look at oil company campaign contributions," stated Rex Story, Democratic Candidate for Congress in Nebraska's First District.

"The oil companies, through their Political Action Committees, have been buying votes all over the country, including Nebraska," he said. Among those receiving oil company campaign contributions, according to Story, is his opponent Doug Bereuter.

Citing Bereuter's votes against the windfall profits tax, for

decontrol of domestic oil prices and against a measure preventing oil companies from monopolizing alternative energy sources, Story stated that "The oil companies have found a good representative from Nebraska in Doug Bereuter. I am not the least bit surprised he is returning the favor of receiving a large amount of contributions from oil related PACs, by voting in the best interests of big oil companies." According to Story, Bereuter has received contributions from Getty Oil Company, AMOCO, Union Oil of California, among others. This is a matter of public record, found on Bereuter's contribution and expenditure reports, filed in the Secretary of States Office.

"These contributions are generally from out of state. There are very few oil wells in Nebraska. The beneficiaries of the policies advocated by the oil companies are not Nebraskans, and these policies, supported by Mr. Bereuter, will cost each Nebraska household hundreds of dollars each year. I find it deplorable that such money is being accepted by Bereuter."

"It is my feeling that, come election day, Mr. Bereuter will realize that voters in the First District feel as I do and will vote for a Congressman that does not solicit contributions from the oil companies or actively represent the interests of 'big oil' rather than the Nebraska voter," he said.

## Girl Scouts to See Movie

"Maximilian's Journey," a movie made available courtesy of Northern Natural Gas Company, will be shown to area Girl Scouts in Wayne Saturday.

This is the second in a series of workshops offered by the Prairie Hills Girl Scout Council this fall. This hour long film is comprised of Karl Bodmer's paintings. Bodmer was a Swiss artist who

accompanied Maximilian on his tour up the Missouri River in 1833. Bodmer's paintings are one of the few accurate descriptions of the Plains Indians and the land on which they lived before the white settlement of the Midwest.

The films will be shown at 1 in the Ramsey Theater at Wayne State College. All Girl Scouts are invited to attend.

## Occupational Education Hazards To Be Conference

Wayne State College will host a conference on Nov. 8 called "Occupational Hazards in Education: Art and Science."

The conference will be held in the Val Peterson Fine Arts Center and will inform the classroom teacher and people working in a variety of studio or lab situations of the many hazards and precautions to be met in their chosen profession.

Topics to be discussed at the conference are the hazards involved, such as factors affecting the degree of the hazard; how materials enter the body and resulting diseases, as well as how to take precautions through substitution of materials, ventilation, storage and handling and protective equipment. Other precautions to be discussed are housekeeping, personal hygiene and medical surveillance.

Two professionals highlighting the conference are Michael McCann of the Center of Occupational Hazards in New York and Linnea Smith of the National Association for Safety and Health in the Arts and Crafts of Chicago.

Michael McCann, Ph.D., is a certified industrial hygienist who specializes in the health hazards of art and craft materials. He is a frequent writer, lecturer and consultant in this area. Dr. McCann is the author of the Health Hazards Manual for Artists, a 48-page booklet; and of the 400-page book Artist Beware: The Hazards and Precautions in Working With Art and Craft Materials, which is published by Watson-Guptill Publications.

Dr. McCann is president and executive director of the Center for Occupational Hazards, a non-profit public interest group which operates the Art Hazards Information Center and publishes the Art Hazards Newsletter. Dr. McCann received his doctorate in chemistry from Columbia University in 1977.

Linnea Johnson Smith is director of environmental health and safety special project, Supervisor Student Health Services at the School of the Art Institute of Chicago, Health Service. She received the AA degree in nursing from the Chicago City College and the BS degree in nursing from the University of Illinois.

Mr. Smith's major nursing interests are environmental and occupational effects of various materials and processes on the human body, and quality care in life threatening situations in remote areas. She is the author and producer of numerous publications, slide tape presenta-

tions and a lecture on topics of health hazards and school nursing, and is a founding member of the National Association for Safety and Health in the Arts and Crafts.

Registration for the conference starts at 8:30 a.m. in the lobby of the Fine Arts Center, with a seminar starting at 9:30 a.m. Following lunch there will be workshops from 1:15-2:15 and panel discussions from 2:30 until 4 p.m. Other members on the panel besides McCann and Smith are Roy Blazek of the Nebraska Department of Labor and Safety, Lincoln and Wallace Barnett, State Fire Marshall of Lincoln.

Registration includes a packet of information including the "Health Hazards Manual for Artists," by Michael McCann. All registrations include a \$5 buffet lunch in the North Dining Room of the WSC Student Center.

Following are the sponsors of the conference: Wayne State College Art Department; Wayne State College Foundation; Wayne State College Student Senate; Wayne Regional Arts Council; American Lung Association; NIOSH; Nebraska Department of Labor and Safety; Nebraska State Fire Marshall; Nebraska State Education Department - Fine Arts and Science Divisions.

## Bereuter Urges Approval Of Pro-Gasohol Legislation

Congressman Doug Bereuter has urged Congressional approval of a measure that would prohibit oil companies from discriminating against or selling unreasonable limits on the sale of gasohol or other synthetic motor fuels.

"The cooperation of the major oil companies is essential in order for alcohol-based fuels to reach their full potential. This bill moves us in that direction."

Bereuter said.

The bill support encourages free and open marketing of gasohol to meet consumer demand and this country's energy needs in general," Bereuter said.  
Specifically, the Gasohol Competition Act (H.R. 2873) requires oil companies to maintain a credit card policy that applies equally to the sale of their own gasoline as well as gasohol and other synthetic fuels according to Bereuter. The bill also prohibits other discriminatory practices, as when an oil company prevents the use of its pumps and tanks to dispense non-proprietary products.  
Gasohol has a proven market and can stretch out the supply of oil, Bereuter said. It can help reduce our nation's dependence

## Wayne-Carroll Band Called Superior

FOR THE NINTH consecutive year, the Wayne-Carroll High School Marching Blue Devils took a superior rating at the state band contest in Pershing Auditorium in Lincoln Saturday. Wayne was one of 18 Class B schools to participate, with only four of them receiving superior ratings. Others were Stanton, Auburn and Wahoo Neuman. Some 95 Wayne-Carroll high band members marched for just under the seven-minute limit. Judges at the contest were "really complimentary," reports band director Ron Dalton.

Dear Wayne-Carroll Students:  
Xun though my typewriter is an old model, it works quite well except for one key that is lazy. There are 46 keys which function well enough, but just one key makes the difference. Sometimes we may think just one person makes a difference, but we may say, "well, I'm only one person, I won't be missed." But you see, to be effective, the activity of each person is needed. So the next time you think you're only one person and that your effort is not needed, remember my typewriter and say to yourself, "I'm a key person and needed very much!"  
Sincerely,  
Your Teachers

## Farm Bureau Holds Annual Event Monday

Wayne County Farm Bureau held its annual meeting Monday night, including a potluck supper. Merle Ring, Wayne, was elected president. Named vice president was Robert Jones of Wakefield; woman of large is Mrs. Fritz Temme of Wayne; youth at large is Dale Hansen of Wakefield. Delegates to serve at the state convention in December at Kearney will be Merle Ring, Mrs. Neil Sandahl of Wakefield, Daniel Loberg of Carroll and Mrs. Keith Owens of Carroll. Alternates will be Milton Offer of Pender, Mrs. Lauren Boeckenhauer of Emerson and Ron Magnuson of Carroll. New board members are Joseph Claybaugh of Carroll, Wilbur Nolte of Wayne, Kermit Benschhof of Carroll; Melvin Wilson of Wakefield and Arthur Ulrich of Hoskins. Re-elected to the board was Wayne Gilliland of Wayne. All are for two-year terms.

## College's Judicial System Changed

Four new structural and procedural changes will be initiated into the Wayne State College students judicial system this year. These changes were made to increase efficiency within the system and update the college with new policy directives of the Nebraska State College board of trustees. WSC Assistant Dean of Students Mike Gannaway points out that the whole discipline system is to help students get along with each other. He added that the system provides accused students with the opportunity to have facts surrounding a case heard by their peers. This creates, and is an important aspect in, providing justice for all students. Gannaway said that the change which has had the most impact occurs in the judicial structure. When an "incident report" of a violation has been filed with the Student Senate, new policy dictates that the student involved will meet with the vice president of student services. Previously, the student would

be referred directly to the Student Judicial Committee (SJC) for a formal hearing. Now, the student can either deal directly with the vice president's office in a non formal hearing or request a formal hearing with the SJC. This policy is designed to cut back the number of cases brought before the SJC. Vickie Stoecker, Grand Island, chairperson of the SJC, said that it has decreased the number of cases a great deal. She said last year the committee had a problem with cases backlogging and fell behind. This year, the SJC has dealt with only one case. Gannaway said that most students at Wayne State College admit to charges in contrast with other institutions he has worked for. He added that most cases this year involved alcohol, noise and visitation violations. Gannaway also noted that students usually request formal hearings just to clear their names. If the student should opt for a SJC hearing, another change comes into effect. During formal hearings, accused students may now listen to their accuser and other witnesses and ask appropriate questions in defense. Upon completion of the hearing, the committee meets in closed session and makes recommendations to the vice president of student services. Dr. Max Lundstrom

Students may appeal a decision of the vice president of student services to the Student Standards Committee. Appeals of SSC decisions are made to the president of the college. Appeals beyond the president will be handled by the Board of Trustees through the president of the college. All references to student conduct were removed from the 1980-82 college catalog and will not appear in future editions. The Student Handbook now contains all "general" rules and regulations and disciplinary policy/procedure. These important revisions were initiated by a revision committee started last spring. The committee consists of SJC members, resident assistants, dorm directors, Mike Gannaway and Dr. Marvin Beamer, director of residence life. Another change made from last year is the committee only has one chairperson when last year it had two. Members of the SJC include one male and female representative from each co-ed dorm, one representative from each girls dorm, two off-campus representatives, two faculty members, two dorm directors who serve as advisers and Gannaway. Members are on a rotation schedule to avoid any one dorm being over represented at a hearing. In order to become a member of the committee, an individual must fill out an application in the spring. The applications then go to each dorm council and it selects the representatives of that dorm. A member returning for a successive term must go through the selection process again. Stoecker also said that she recommends that accused students read their Student Handbooks before they come before the SJC. Vice chairperson, Cheryl Erks of Ulica, said that she strongly agrees with this suggestion. Both women have been on the SJC previously; Stoecker has served for three years. Erks for two. Stoecker was the committee's secretary last year and was required to attend each meeting, which she said gave her a good amount of experience for her new position. This year's secretary is Debbie Deitering of Missouri Valley.

There are six members on the SJC from last year. Advisers include Lin Brummels of Wayne, Bob McCue of Wayne, Mark Reinders of Curlew, Iowa and Joe Tedrow of Wayne. Members include Jan McCullough of York, Anderson Hall; Jeff Shultz of Scribner, Berry Hall; Jeff Jaeggi of Columbus, Bowen Hall; Roger Lebbert of Omaha, Morey Hall; Ronnet Fundum of Battle Creek, Pile Hall; Todd Broekmeier of Verdel, Pile Hall; Cheryl Jefferies of Spaulding, Terrace Hall; Rick Wimer of Tekamah, Terrace Hall; Jeff Ferguson of Lincoln, off-campus; Darlene Dvorak of Brainard, off-campus. "The committee has improved 100 percent over last year and hopefully, it will continue to improve," added Stoecker.

# ELECTION 1980 - ISSUES AND ANSWERS

This is the first election preview of local and area candidates sponsored by The Wayne Herald. In this issue, four candidates for three positions on the Wayne-Carroll School District board of education provide answers to questions posed by The Herald. Candidates seeking the three positions are incumbents Jim Hummel and Neil Sandahl, and challengers Becky Keidel and Robert Jordan. The top three vote getters will be elected. Board member Dorothy Ley is not

seeking re-election. The answers are printed exactly as they were received in The Herald's office. In Monday's Herald, responses to questions posed to City Council members will be presented along with responses from State Senate candidates Gerald Conway and Merle Von Minden. Also, in-depth information on each of the four proposed amendments to the Nebraska Constitution.

## Candidates for Wayne-Carroll Board of Education

### Becky Keidel

I was born, reared and educated in rural Nebraska, and am a graduate of Wayne State College and the University of Nebraska-Lincoln. I have taught at the junior high, high school and college levels, and I have served as both a substitute teacher and a teacher aide in the Wayne-Carroll system. For seven years, I have been a member of Community Council and have just completed a two-year term as its president.

My husband, Dick, and I are parents of two school-age children. We own Sav-Mor Drugs, Inc., and are active members of the First United Methodist Church. I am a member of the Wayne Hospital Foundation Board, having served five years as its president, and I am currently serving on the governing board of Providence Medical Center. In 1976, I was named an Outstanding Young Woman in America.

1. As you know, the school district is facing continued financial strain due to a number of factors. Based on available information, would you favor closing the Carroll Elementary School and busing the students to Wayne to help ease the financial burden? Why or why not?

1. I would favor gathering all available information concerning the operation of the Carroll Elementary School, but I certainly would not attempt to reach a decision as critical as its closing without a thorough study. Recent board decisions concerning our baseball and golf programs point out the inadvisability of hasty actions.

It is my feeling that any major change should be reached by following three prescribed steps. First, the proposed change and a hearing date would be announced. Second, on that date all facts and opinions would be presented and heard. Third, the board would then take ample

time to consider carefully all information and make a final decision.

2. What do you see as specific priority items next year if the school board is faced with a financial situation which dictates that one or more programs be cut from the overall school offering?

2. The priority item is the preservation of the sound academic program we are now offering the children of District 17.

3. What steps do you think need to be taken — locally or on the state level — to ease the financial problems that are projected for the school district?

3. Our choices are few and clear, but they are not simple. If we wish to repeal the 7 percent spending lid, the law must be changed at the state level, or our district must vote, at a special or regular election, to rescind the lid. If we are content with the 7 per-

cent lid, we must prepare to see activities and programs cut from our present school offerings. Either we find the tax dollars to meet soaring inflationary costs, or we do without certain things.

4. What changes or policies would you like to see implemented in the school district during your tenure in office?

4. One board policy I would favor is outlined in my discussion of question one. Such a policy would facilitate a fair and orderly consideration of any major changes to be made in our school district.

I would like to strengthen communication between the community, the schools and the board. I urge parents to attend and join Community Council, to attend board meetings and to speak directly to teachers, administrators, and board members about both the strengths and the weaknesses seen in our school system.

5. As a school board member, would you favor attending State Education Department-sponsored seminars that are designed to help educate board members about matters affecting education?

5. I would favor attending any seminars, workshops or meetings which would make me a more knowledgeable, effective board member. This would include not only State Education Department-sponsored seminars, but also teacher in-services, parent workshops and the varied school activities of District 17.

6. What long- and short-term problems face the board?

6. Inflation has already forced us to consider everything more and more from an economic point of view. Balancing needed programs against available tax dollars will continue to be a major task for the board.

### Jim Hummel

(Editor's Note: Hummel did not respond directly to the questions, but chose instead to provide more general opinions and philosophies involving school matters.)

As a professional educator, with bachelors and masters degrees in education, I have been directly involved with the educational growth of young people for the past 22 years. (1) as a high school teacher, counselor, and principal for 3 years, (2) as a superintendent of schools for 3 years, (3) as director of admissions at Wayne State College for the past 16 years, and (4) as a member of the Wayne-Carroll Board of Education for nearly 4 years.

My family consists of my wife, Vera, and three sons — one in high school and two enrolled at Wayne State. We are members of Redeemer Lutheran Church. I am, or have been, a member and officer of numerous church, service, governmental

and educational organizations at the local, state and national levels.

Budgetary restrictions (placed upon us by our Legislature) and a declining enrollment in our high school (over which we have no control) appear as the paramount problems currently facing our board of education.

The lid bill must be repealed and the responsibility for fiscal control put back in the hands of the locally elected officials, whether county, city, or school district. Each community must rightfully determine its own priorities, and should also have the right to determine its own level of financing based upon those priorities. We should not be forced to cut a program or a service due to inadequate funding if we, as school patrons, have determined we want or need it.

Decisions affecting the school district

must be made by the board, not by individuals making up that board. Every issue must be given full study and consideration and must be placed in context with the total school program and service. The best interest and welfare of the students must be the primary concern with each issue considered. Retention, and the quality of those academic programs, is imperative.

I feel that it is inappropriate for me as an individual, at this time, to propose cutting back or eliminating any program or service. All facets of each issue must first be investigated before decisions can be reached and a collective Board decision made.

At present I have no changes to suggest, nor do I propose implementation of any new policies, for the Wayne-Carroll School District Board member representative at seminars sponsored by any reputable educational group are deemed advan-

ageous to the members and the District if the topics are relevant.

### Robert Jordan

I am a native of Wayne County and grew up on a farm near Carroll. My wife, Sheryl, and I have two daughters, Amy, age 13, and Jill, age 9. I graduated from Wayne State College with a bachelor of science degree in business administration and attended the University of Wisconsin graduate school of banking. Prior to that time I was in the U.S. Army, spending two years in Germany.

I have worked at the State National Bank and Trust Company for 12 years and presently hold the position of executive vice president and trust officer.

My family and I are members of the Wayne United Presbyterian Church where I am a past elder of that church. My service work includes member and past president of Wayne Kiwanis Club, member of the board and 1980 President of Wayne Industries, member of Wayne Chamber of Commerce and Bank Administration Institute, County Representative for Nebraska Bankers Association, past president Wayne Community Chest, on board of Wayne Hospital Foundation and trustee of Wayne State Foundation.

My civic involvement includes past member of the School Community Advisory

children from the entire district will have to be the primary consideration in all of the budget decisions.

2. What do you see as specific priority items next year if the school board is faced with a financial situation which dictates that one or more programs be cut from the overall school offering?

2. I am not running for the school board with preconceived ideas of specific items that should be slashed from the school budget. The board and the administration should work together, looking at costs versus benefits of the various programs and activities. The board should then make public the items of consideration, inviting public dialogue and input before decisions are made. The board is elected to represent the public and needs their input.

3. What steps do you think need to be taken — locally or on the state level — to ease the financial problems that are projected for the school district?

3. Reducing inflation is the main step that must be taken to ease financial burdens. The federal government needs to be the

leader in this effort, but state and local governments must do their part also. We cannot always expect more services and not expect to pay for them. It will require sacrifices at all levels. I don't favor repeal of the lid law at this time. Rather, I feel we need to continue to search for more efficiencies in operation to meet the financial challenge facing the school district.

4. What changes or policies would you like to see implemented in the school district during your tenure in office?

4. More public awareness and input in the formation of policy and program evaluation needs to be implemented by our school district. Our school has an excellent record for graduating individuals who are well prepared for higher education or vocational training and generally meeting life's challenges that lie ahead. To continue this performance the school must change with the times, constantly reevaluating present programs, considering their benefits versus new programs.

5. As a school board member, would you

favor attending State Education Department-sponsored seminars that are designed to help educate board members about matters affecting education?

5. Yes, board members need to be aware of new programs and ideas affecting education. I think the board members should rotate attendance at these meetings, bringing back written reports to share and discuss with other members, the school administration and the public at the following school board meeting.

6. What long- and short-term problems face the board?

6. The main long-term challenge facing the board is to continue to have one of the leading school systems in the state and to constantly work to improve that system.

The greatest short-term problem facing the board is meeting the challenges imposed by the lid law and double digit inflation, which entails finding solutions to problems without significant budget increases. I look forward to an opportunity to serve School District 17 during the next four years and to help meet these challenges.

### Neil Sandahl

I am a lifelong resident of Wayne County except for three years in the U.S. Army during the Korean conflict (two years spent in Japan).

I am a graduate of Wayne State College with a bachelor of arts in education in mathematics.

I am married to the former Bonnie Sorensen of Wayne and have four daughters, Anita who is a sophomore at UNL, Karen who is a sophomore at Wayne-

Carroll High School and twins Margo and Marta who are in the fourth grade at the Wayne Elementary School.

I am a land owner and have farmed since 1954.

Some of my past and present organizational affiliations include a past member and president of Wayne County Extension Board, member and past president of Wayne County Farm Bureau, charter member of Wayne County Planning Commission, member and present president of Wayne County Rural Fire District No. 2, past member and chairman of FmHA board, member of Wayne-Carroll School Board since 1976 and have been president this past year.

I am an active member of Grace Lutheran Church where I've been a trustee and am at present one of the senior elders. I also sing in the senior choir and am a member of the L.L.L.

1. As you know, the school district is facing continued financial strain due to a number of factors. Based on available information, would you favor closing the Carroll Elementary School and busing the students to Wayne to help ease the financial burden? Why or why not?

1. For the past 3 1/2 years I have opposed any efforts to close the Carroll school as I feel these 36 pupils (Grades K-4) should be educated as close to their homes as possible.

The per pupil cost in the Carroll School is considerably higher than the Wayne system because of the smaller number of pupils.

The roof on the Carroll school was repaired this past summer and this building appears to be in good repair. At this time, I am opposed to closing this school but this might change in the next few years. Dropping enrollment, higher teachers salaries, increased utility bills, higher costs of teaching supplies and the 7 percent lid for raising tax monies may force the school board to do things that they ordinarily would not want to do.

2. What do you see as specific priority items next year if the school board is faced with a financial situation which dictates that one or more programs be cut from the overall school offering?

2. First of all, I will never be for cutting academic programs in our school system unless all other means of becoming more efficient have failed. Salaries, as we all know, are by far the largest single expense, and cost 72 percent of the school budget.

RIF'ing (reduction in force) staff helps cut costs but unfortunately can only be done as much as is administratively practical. We saw what happened when we tried to drop golf and baseball but I do believe that more athletic programs may have to be excluded from our system. One may have to be the limiting of junior high athletic events with other schools — at least the ones at a

distance.

In order to decrease our expenses, I believe that all phases of the school system will have to become more efficient — this will be hard to accomplish but it must be done. During times of inflation such as we are experiencing now, I feel we must all learn to compensate and give up a few things in order to retain a strong academic program.

3. What steps do you think need to be taken — locally or on the state level — to ease the financial problems that are projected for the school district?

3. Inflation is the culprit that is to blame for a lot of the problems in our society. When the 7 percent lid bill was first enacted I thought that would be a good way to slow-up spending. However, it has not worked that way. Utility expenses have sky-rocketed. These we have little control over except to use light and heat more prudently. We are looking into the insulating of both the middle school and elementary building ceilings in an effort to save high-priced heating energy. New windows were installed in the middle school over a year ago which was a much needed and energy saving improvement.

When the teachers requested a raise near the cost of living index (13.8 percent) and these requests are upheld by the Commission on Industrial Relations, on the state level how can we possibly continue to operate over a period of years when we can

only raise tax dollars by 7 percent over the previous year? If the inflation rate can't be lessened by more efficient federal government operation, then I think that our State Legislature must act to repeal this 7 percent lid bill or assist in school operations by increased State Aid to Education.

4. What changes or policies would you like to see implemented in the school district during your tenure in office?

4. First of all, I hope that we can continue to have a fine school system — one that we can be proud of in all phases of its operation. I sincerely hope that the marks our students receive on national tests can continue to be above the state and national averages. It speaks well for the entire school system when 74 percent (64 out of 87) of our 1980 graduates are continuing their education at other institutions of higher learning. Our teachers should be commended for doing a good job but the challenge is still there to strive to do even better. Academic programs should not suffer because of the 7 percent lid and I will endeavor to see that these programs continue to improve with the times.

5. As a school board member, would you favor attending State Education Department-sponsored seminars that are designed to help educate board members about matters affecting education?

5. In view of the fact that the Wayne-Carroll Schools have a budget in excess of \$1,820,000, I believe that state education-sponsored seminars for board members would be beneficial if they were so conducted that they would assist you in being a better board member.

6. What long- and short-term problems face the board?

6. Perhaps a financing of our school system is both a short and a long term problem. Because of the increase in property evaluations our mill levy for school purposes has dropped. Raising monies from taxes for schools and other public entities is a complex undertaking. No matter how it is done one can't please everyone. Broadening of the tax base by increasing the State Aid to Education funding from sales and income taxes in addition to the present property taxes would make for a more equitable tax situation.

One thing that we as taxpayers should all appreciate is the fact that past boards have seen fit to build and keep up our buildings when they did. At least we are not faced with a large bond issue that has to be paid. The one area where we may need to build an addition to or remodel is the present shop area of the high school. This is an area that has been crowded for some time and if funds are available it should be improved in the not too distant future.

## Invest in yourself instead of your landlord.

Stop and consider the amount of money you've paid for rent over the years. You've probably spent more than enough to invest in a home, yet you have nothing to show for it. In fact you may even be able to buy a home for monthly payments that are lower than your present rent, and still enjoy a sizable tax benefit. As your local ERA® Real Estate professionals, we can give you the assistance you need to find your first home and move in. We'll help you understand the local market, familiarize you with the purchasing procedure and give you the information you need to make a smart buy. Don't waste another dollar. ### Music Boosters Plan Annual Magazine Drive

Wayne Carroll School District Music Boosters will begin their annual magazine drive Wednesday according to Mrs. Cathi Sharer, chairman of this year's drive.

Tentative plans call for the drive to run about two weeks. Vocal and instrumental students will be going door to door to sell the magazines, records, and tapes.

This is the largest money making project of the year for the Music Boosters, and involves students in grades five through 12. Prizes will be given for selling

the most magazines. Persons in Wayne and the surrounding area who are not contacted in the next two weeks should call Mrs. Sharer at 375-3835.

Last year, a total of \$8,395 was collected for the sale of magazines, books and tapes. That amount, \$667.59 was paid out for prizes and the boosters netted \$2,576.83.

The kids make the drive successful, Mrs. Sharer said, and added that they get out and do all the work themselves. There has been tremendous response to the drive in past years.

## Opposition to Amendment No. 4 Grows

**CAPITOL NEWS**  
By Melvin Paul  
Statehouse Correspondent  
The Nebraska Press Association

The state board of education has joined groups and individuals who have spoken out against the proposed Constitutional Amendment No. 4, which developed into one of the more lively issues in the late stages of the political campaign.

The amendment, which proposes better school financing to make sure the state has "thorough and efficient" public school systems, was rejected unanimously by the state board.

Dorothy Creigh of Hastings, chairman of the board, said it continues its support of properly tax relief and of school district reorganization, but she added those objectives can be realized through changes in the statutes, rather than in the Constitution.

Many opponents of the amendment have argued it is so vaguely worded that it would lead to numerous lawsuits. Another fear of those objecting to the proposal is that it might result in at least some loss of local control of the schools.

In several speeches around the state, Gov. Charles Thone has said his intention is to

vote against the amendment but did not take a public position on the issue. He has said, however, he will announce his position on the amendment "soon."

### Change in policy expected

Next year it may be possible for students at the University of Nebraska-Lincoln to sell their football tickets without violating university policy.

At their most recent meeting, the Board of Regents rejected a proposal to make tickets transferable immediately but many of the regents said they favored doing away with the current prohibition against selling or giving away the tickets.

Regent Robert Prokop said it is time to abolish a policy if it can't be enforced.

Enforcement of the no transfer policy is extremely difficult. Athletic Director Bob Devaney said.

Following defeat — on a tie vote — of Prokop's suggestion to have an immediate change in policy, Chairman Robert Raun of Minden directed the administration to come up with recommendations for new student and faculty ticket policies within two months.

There was also some support expressed for increasing per ticket prices for faculty

and students to the \$10.25 regular admission charge. Faculty members now pay \$7.50 and students \$5.

If everyone paid the \$10.25 price, each game would generate an additional \$97,465, Devaney said.

Regent Kermit Hansen of Omaha said students may have to decide between paying more to watch their team play or having an across-the-board student athletic fee. Nebraska is the only Big 8 school without such a fee.

Noting that students and faculty are going to be unhappy if their ticket prices are raised, Devaney said he did not want any proposal for such hikes to come from the athletic department. He added the problem of dealing with ticket prices is one that should be solved by the regents. He said Nebraska could probably continue to have sellouts even if ticket prices were raised to \$15.

But he suggested increases of \$2 a year would be more acceptable.

People would "holter and yell" if the ticket charge went to \$15 but if the team keeps winning, people would pay that price, Devaney said.

### Plan to drop lawsuit

The state Roads Department is planning to drop a lawsuit which challenges a U.S. Transportation Department highway allocation formula that cut the amount of federal funds Nebraska received during the fiscal year ending Sept. 30.

Nebraska Assistant Attorney General Gary Welch, who represents the Roads Department, says the reason for the state's decision was a recent ruling by the U.S. Circuit Court of Appeals in St. Louis. That court ruled in a similar action filed by Arkansas that the suit was moot because Congress last August passed the Supplemental Appropriation and Recision Act.

Welch said that had the effect of validating the highway allocation formula imposed by Transportation Secretary Neil Goldschmidt. The act, however, did impose ceilings on the amounts states could receive.

Goldschmidt devised the formula after President Carter, in an attempt to balance the budget, reduced funds available to the states.

Under the Goldschmidt formula, funds the states had not obligated were subtracted from the amount available for road

### projects.

That means Nebraska will lose about \$12 million it had expected to receive for the past fiscal year.

State Roads Director David Coolidge said he doesn't look on the funds as lost money because the state never received them. He also noted no projects were delayed last year and that it appears the federal government will increase its allocations again this year.

### Announces resignation

The first person appointed by Gov. Charles Thone after his election has announced she will resign as executive assistant to the governor on Jan. 1.

Kay Orr said she intends to leave her salaried position to direct Thone's political committee.

Mrs. Orr said the change stems from her desire to return to what she called her "first love in politics" — campaign work.

Mrs. Orr, who will not be paid in her new job, said people should not make any inferences about Thone's political plans. The governor is almost midway through his first four-year term.

Mrs. Orr said there is considerable political activity that has to be taken care of

for an incumbent governor.

**Water conservation urged**  
The president of the National Water Resources Association, Verri Fahy of Bismarck, N.D., says Nebraska should be taking steps to conserve its rich underground water supply.

While in Omaha for the national association's convention, Fahy said Nebraska's water management requirements are not as strict as North Dakota's.

After noting water levels are declining in some sections of Nebraska, Fahy said, "Any state where that is occurring should be hip-deep in good water management practices now." He added water is a public resource and "should be managed for the benefit of the public."

Fahy said in his state, commercial and irrigation wells are permitted only after a study shows that more water can be taken from a given area without a drop in the groundwater level. He said if a new well is authorized, a meter must be attached and the pumping rate and the maximum annual withdrawal are restricted.

## Endorsements

Leadership is an important quality in today's state and national legislative worlds, particularly when the issues are becoming more and more complex. Even in Nebraska, which has prided itself with the non-partisan Unicameral throughout its history, the task of running the state is becoming more and more difficult.

To those of us outstate from the political goings-on in Lincoln, we sometimes feel we are being neglected by the interests of the larger, more metropolitan areas. The counties of Wayne, Dixon and Dakota need a strong voice to speak on their behalf.

While both candidates for the District 17 State Senate seat represent the interests of the district, Gerald Conway is the type of leader that is most likely to succeed in effectively speaking for the district's constituents.

Conway has the badly needed leadership qualities to deal with the other 48 state senators. Not only does District 17 need a voice to represent it, but also a leader to provide responsible, responsive and progressive results.

Conway has shown himself to be quite knowledgeable on issues which will affect our district and the state as a whole. Voters should remember that the District 17 Senator will be voting firstly on behalf of the district, but must have the best interests of the state in mind as well.

Conway is well informed, conscientious, responsible and well educated. He is the man for the job.

But the recommendation to send him as our representative is done so with some reservation.

There has been concern raised about his allegiance to the Nebraska State Education Association (NSEA). It is common knowledge that the state teachers' union is in full support of him and has pledged upwards of \$3,000 for his campaign. The fact that one special interest group has indicated such strong vocal and financial support of any candidate should be a concern to District 17 voters.

Conway should be put on notice that the interests and the needs of his district need to be foremost in his mind when dealing with the NSEA, if he is elected. The NSEA support of him raises some question about their motives and the influence of special interests.

If Conway is elected, his actions and his votes will be watched carefully. District 17 and its voters should be his first priority. Conway's future in politics rests largely on his ability to listen to his constituents.

Again, however, it is Conway who can accomplish the most in dealing with the broad range of complex problems that will face the Unicameral in the future. He is the man who can best speak for the district.

Both candidates deserve the high respect and regard they have earned during the primary and general election campaigns. They are intelligent, compassionate and wise.

There is little doubt that our nation is in need of new, effective and bold leadership. The incumbent president has failed the American people miserably, yet is asking a second chance.

The world is passing him and this nation by. The president says he has seen his mistakes and his failures and wants another four years to correct them. His intentions are honorable, but his motives are questionable.

Ronald Reagan can begin to return this country's self-respect. He has provided plausible answers to some complex problems that the incumbent president has failed to even understand.

Reagan is not the perfect answer to our problems, but is a step in the right direction. It truly is time for a change.

**Doug Bereuter**, Nebraska's First District Congressman, has proven himself as an effective legislator. He is well respected among his legislative peers and deserves a continued role in reflecting the interests of the First District, the state and the nation.

Leadership again is the key in the race for Ward IV Wayne City Council. Incumbent Cliff Ginn has the knowledge and understanding of city government that is needed in guiding the city through a difficult period.

While many may be in disagreement with Ginn on some issues, he has consistently voted for a progressive and improved community. He, too, has earned another term.

Councilmen Keith Mosley in Ward III and Darrel Fuelberth in Ward II are unopposed. Councilman Sam Hepburn is not seeking re-election in Ward I, and Jim Craun, a relative unknown, is seeking that spot.

Four well-qualified candidates are seeking three positions on the Wayne-Carroll School District board of education. The top three vote getters will be seated on the board.

Any of the four will serve the district well. The candidates are Bob Jordan, Becky Keidel and incumbents Jim Hummel and Neil Sandahl. Whatever your choice, please make your preferences known. Vote Tuesday. — Dan Field, Editor.

## State Pays Little Now, Not Much Later: Thone

"On a television commercial, an auto mechanic says, 'You can pay me now or pay me later,' indicating that if you don't pay regularly for little things such as filters, you'll have to pay eventually for major expenditures such as rebuilding an engine." "Until 1977, Nebraska had a 'pay later' attitude about its state owned buildings. For both the executive and legislative branches there was a lot more interest in constructing new buildings than there was in doing regular maintenance and small, timely repairs.

"As a result, some costly emergency repairs had to be performed on some buildings, and in a few cases state buildings actually were so neglected that they had to be replaced.

"All that changed when the Nebraska Legislature in 1977 passed LB 309 creating the deferred Building Renewal Task Force. Its original legislation expired this year, but in 1980 it signed into law a bill extending the Task Force's work until 1987.

"Most funds appropriated by the Nebraska Legislature are for a specific agency and a designated use. The funds appropriated to the 309 Task Force, however, are for the most pressing preventive maintenance on any state buildings, regardless of whether the structures are under control of the Governor or the many other state agencies outside the Governor's jurisdiction.

"Four state senators who worked for passage of the original bill became members of the Building Maintenance Oversight Committee. They are Senators Ralph Kelly, Grand Island, Ron Cope Kearney, John Savage, Omaha and Dennis Rasmussen, Scotia. Senators Savage and

Rasmussen have retired from the Unicameral. Senators Kelly and Cope are still serving and have been joined by Senators Bernice Labeled, Omaha, and Myron Rumery, North Platte.

"The Task Force is headed by H.L. 'Pete' Petersen, himself an engineer, and includes three consulting engineers. Each of the four has a different area of engineering expertise.

"In the past two years, I have directed the Nebraska Energy Office to work closely with the 309 Task Force. The cooperation has resulted in making a number of state buildings much more energy efficient and in training state building operators to be conscious of the ways they can save tax dollars for Nebraska citizens.

"There's a lot of glamour if an elected official promises constituents a beautiful new building. There's not much romance in prising constituents new roofs and better insulation of existing structures. I'm thankful for those state senators who are willing to forego the glamour and realize the truth of the old adage, 'A stitch in time saves nine.'"

## WAY BACK WHEN

### 30 years ago

November 2, 1938: Rev. Robert Hupp, popular youth training director in Omaha since 1946, has been appointed pastor at St. Mary's Church in Wayne. The Rev. Hupp is scheduled to replace Rev. William Kearns, who retired after 44 years of the local church. Wayne State National Bank started last week on a building project slated to cost about \$20,000. Activity of the corn borer, the Midwest's cornfield menace, is at the lowest ebb this year since 1948 and indications are it will be even less active next spring. Over 1,100 attended the Employer-Employee banquet held Thursday. Prof. Fred Dale's car was damaged last Wednesday in Wayne when it collided with an auto driven by the Rev. Joseph Vitko, Dixon.

### 25 years ago

November 3, 1943: County Agent Harold Ingalls received a third place award in the 1943 state extension information contest at the annual conference of extension workers at Lincoln Wednesday. Ingalls was cited for his weekly column in The Wayne Herald. Duane Kunzman, son of Mr. and Mrs. Joe Kunzman, Wakefield, purchased the Laurel Advocate this week and took possession Monday. His father is depot agent at Wayne. Alvin Sundell, Wakefield, has been selected the outstanding conservation farmer in Wayne County Soil Conservation district chairman. Irving Carlson, 16, son of Prof. and Mrs. Albert C. Carlson, Wayne, will receive his Boy Scout Eagle badge at a Covered Wagon council court of honor Sunday afternoon at Fremont city auditorium.

### 20 years ago

November 3, 1948: Lightning destroyed the Frank Horrell home, Wayne, about 4 a.m. Saturday. Windows were knocked out, window frames were torn from the walls, doors were blown off and the roof and walls were damaged. No injuries were received. Pile Hall coeds won first prize with their float in the annual WSTC homecoming

parade Saturday. Second prize went to the sophomore class entry. Ivan Nixon topped the hog market in Sioux City Thursday with 36 head weighing 221 pounds at \$16.85. The Don's Better Shoe's team in the Pioneer League set an alley record at Melodee Lanes when they bowled a 2,840.

### 15 years ago

October 28, 1953: Wayne exceeded its Community Chest goal by \$304.30, a final report made Tuesday revealed. The \$9,287.30 is well over the \$8,983 quota for the community. A value of \$700 was set by appraisers this week on 625 of an acre condemned by the city of Wayne. The land is needed for extension of the runways at the municipal airport when the runway is paved. Russell Anderson, music director and leader for Wayne Kiwanis Club, was presented a baton at the Monday noon meeting at Hotel Morrison. The baton was a gift from the club in recognition of his service. A Wayne county farmer is not too happy with his vicious-looking watchdog. Recently someone came on the farm about dusk, scooped up several chickens and drove off. The dog set and watched them. The farmer heard the commotion, came tearing out of the house to see what was going on, selected on the dog's tail and the dog bit him!

October 29, 1970: Douglas Witte of Concord received the right to wear the Army's ROTC achievement gold wreath on his uniform by placing in the top 10 percent of his military classes at Wentworth Military Academy at Lexington, Mo. Fever sick calves developed in new feeders receiving an antibiotic and sulfa drug in their feed, reports a specialist at the Northeast Station near Concord. There will not be a United Fund Drive in Wayne this year, according to Jim Marsh, president, because "The Chest" has a \$10,000 reserve fund consisting of monies left during the past few years after quotas to agencies were met.

## Nebraska State Historical Society

Rheta Childs Dorr  
On the Omaha  
Juvenile Court System, 1910

Rheta Childs Dorr, journalist and feminist, was born in Omaha in 1866. She attended the University of Nebraska (1884-1885) and moved to New York to study art and writing. In 1902, she became editor of the women's section of the "New York Post," in which she published articles on women's working conditions in New York's East Side. In 1914, Rheta Dorr became the first editor of the "Suffragist," organ of the Congressional Union for Women Suffrage. Her 1910 book "What Eight Million Women Want" reported on the women's movement, the plight of the working woman, and the fight for suffrage.

The Dec. 8, 1910 "Omaha Daily News," on file at the Nebraska State Historical Society, announced that Rheta Dorr, "sociologist and among the most prominent women writers on the child problem," would study the method of handling juvenile delinquents in Omaha. The Dec. 9 "News" published her report and recommendations for Omaha.

"The Omaha juvenile court system bears a strong family resemblance to others I have seen. Its most striking characteristic is this: The administration is immensely superior to the system itself. The people in charge of the jail, the court and the detention home are so far better, wiser and more humane than the laws they serve that the unfortunate children who come under their care are fairly well off.

"The theory of the juvenile court system should never be punishment. The child who has committed an offense against society should be considered as an embryo citizen who is in need of the care and protection of the state, his overparent. There is nothing sentimental in this theory. The state needs citizens, good and useful, law-abiding citizens. The community can no more afford to allow children to grow up into bad citizens than it can afford to raise up a generation of illiterates.

"Omaha cannot realize its own conditions. Omaha people cannot possibly be aware of the system under which its future citizens are being trained for crime and violence. I feel sure that if the good men and women of Omaha knew — if they could see and understand how delinquent children were treated they would rise up in horror and demand a complete revolution."

She also inspected the county jail and the children's detention home. "In this Douglas County jail children are confined overnight or longer. Most of them are retained in an upper room in charge of a good woman. But the cells in which they

sleep are airless holes. All night there is a clatter and squeaking of rats through the entire place. I do not think any child is bad enough to be kept overnight in such a place. "Ultimately Omaha's bad children are taken to the detention home. The home is in the charge of a good woman. There is nothing particularly good about the place except that good woman and her assistants. They make a good atmosphere. Otherwise the institution is crude and undeveloped.

"The children who come under the care and protection of the state have invariably been neglected. Mostly they are in need of medical attention. Always they need medical inspection. They do not get it in Omaha. The county physician is called for bases of apparent illness, but he does not inspect for incipient causes of illness. Thus tuberculous children, and children suffering from disease of vice and sin, are thrown in with the others and must invariably become sources of contagion. This is a state of affairs which should not be tolerated.

"In the Omaha detention home the boys and girls are in the same schoolroom. This should never be. In the Omaha home at the present time there are several insane and feeble-minded children. No man in charge of delinquent and dependent children should be called upon to care for children who need the physician and the psychologist. She cannot give them proper attention. Besides, the normal children are in danger from such unfortunates."

Mrs. Dorr mitigated somewhat her criticism of Omaha by commenting, "I do not mean to be hypercritical. I simply love children and I cannot bear to see them badly cared for." She maintained a lifelong interest in industrial working conditions and social justice for working women and children. Rheta Childs Dorr died in 1948 at the age of 81.

## Wakefield Students Parading for Halloween

Students in the Wakefield Elementary School and from the Waldbaum Day Care Center will hold their annual Halloween parade on Main Street this Friday at 2 p.m.

In the event of inclement weather students will parade in the school auditorium.

Following the parade the children will visit the Wakefield Health Care Center before holding parties in their classrooms.

Grades four through six will have a skating party at the roller rink and will be served lunch by the American Legion Auxiliary at the Legion Hall before returning to school.

**Drivers in Wakefield are urged to watch for the children during the parade.**

**Haunted House**  
The Daughters of the Prairie are sponsoring a haunted house in Wakefield tonight (Thursday) and Friday.

The haunted house is located in the former Rissell home at 408 West Fifth St. and will be open from 5 to 10 p.m. each evening. Proceeds will go to help support activities during Wakefield's centennial celebration near year.

**Juniors Raise \$2,500**  
The junior class of Wakefield sold close to \$2,500 worth of

magazines as a recent money making project.

The top 10 sellers this year were Steve Warren, Joan Wurdeman, Randy Hingst, Amy Neuhaus, Teresa Biggestaff, Vaughn Nixon, Kim Greve, Cindy Ballard, Duane Witt and Mark Starzl.

**Heavy Hoopers**  
The Heavy Hoopers of Channel 9 TV in Sioux City will be coming to Wakefield Feb. 7 to play basketball with Wakefield businessmen.

Their visit is being sponsored by the Wakefield Centennial committee and all proceeds from the game will go to the Centennial

project of replacing trees in Wakefield.

During a recent meeting of the Centennial committee, Mrs. Marvin Mortenson announced she is working on a community cantata, with the date to be announced. Persons wishing to sing in the cantata are asked to contact Mrs. Mortenson.

At the meeting, Randall Blartert explained plans to sponsor a mini toy tractor pull. Implement dealers have offered to supply trophies and sponsor persons entering the contest. More details will be announced.

Ray Prochaska, arts and talent chairman, brought many ideas to the meeting. His committee has suggested that during November 1981 an event be planned to tie in with the Centennial.

Mrs. Paul Fischer announced that a community church service will be held June 21 at 11 a.m. at the park. The service will be held at the school in the event of inclement weather.

June 28 has been set as the date for a draft team horse pull, according to chairman Ronald Sampson. It will be a nationally sanctioned event and A. D. Brown has offered to house the teams. Prizes, entry fees and admission prices have been set.

Sampson also announced there will be an old time threshing machine and other old engines on display the day of the horse pull.

A large aerial picture of Wakefield has been purchased and will be used as a money making project for Centennial activities.

The Senior Citizens Committee (The Centennial Settlers) are seeking a chairman to organize a group and to name rules and regulations used to select a king and queen for Wakefield's celebration.

Dwight Johnson and Garry Schroeder will organize a peddle tractor contest for children. Persons interested in helping with the event are asked to contact the co-chairmen or Marcia Kralke.

**Pancake Day**  
The Wakefield Community Club will sponsor its 31st annual Pancake Day at the school multi purpose room on Election Day, Nov. 4, at 4 p.m.

Co-chairmen are Merlin (Lefty) Olson and Don Kuhl. Persons interested in helping with the event are asked to contact the co-chairmen or Marcia Kralke.

**Westside Club**  
Nine members of the Westside Home Extension Club met last Friday afternoon with Mrs. Preston Turner. Roll call was answered with a favorite pants suit.

The lesson, "Dressing for Your Life Style," was given by Mrs.

## Planning for Next Year's Farm Season Suggested

Although the last of the 1980 crop may still be in the field for some farmers, it's not too early to be making plans for the 1981 growing season. The first important step for growing the 1981 crop should be the collection of soil samples this fall.

Fertilizer prices for the 1981 growing season are uncertain at the present time. Even though fertilizer prices have moved up and down, farmers who sample their fields can be assured that they will get maximum return for the money they invest in fertilizer.

Has fertilizer use in past years built up the fertility level of my soil? Will the dry weather in 1980 change the amount of nitrogen that I need to apply in 1981? How can I keep fertilizer costs down without hurting yield? These are some of the questions being asked by farmers this fall. The results of soil tests will provide answers to these and other questions.

George Rehm, agronomist at the Northeast Experiment Station at Concord, reminds farmers that there are several advantages if soil samples are collected this fall. First of all, it's easier to collect the samples.

Fields are usually not as muddy as in the spring. As a result, the analysis of the samples gives the farmer a better picture of the nutrient content of the field. Secondly, there is more time to collect samples in the fall. Farmers are not rushed by the field work that needs to be done in the spring.

Rehm also reports that the Soil Testing Laboratory of the University of Nebraska has made several changes in order to provide better service to farmers. Farmers can now request analysis for the micronutrients in addition to the standard tests for nitrogen, phosphorus, and potassium. The sulfur content of the soil will also be measured if requested by farmers. Other changes have also been made so that farmers will get their results faster.

Soil sampling is not a difficult job, says Rehm. It's just a matter of setting aside some time to get the job done. Soil sample boxes as well as easy-to-follow directions are available at no charge from either the county extension office or the Northeast Station.

**Branch Banking Probably Next Federal Legislation**

Congressman Doug Bereuter said the next major federal legislation affecting Nebraska's banking industry would probably concern branch banking.

Bereuter told members of the Bank Administrator's Institute in Lincoln Wednesday night that the pressure to revise federal legislation to permit banks to open branches across state lines would continue to mount.

"I understand that the White House currently has a report on the implications of interstate branching, but has no intention of releasing the report prior to November 4," Bereuter said. "Considering the implications in changes in branch banking, I feel

the Carter Administration has a responsibility to reveal the results of the report prior to the election."

Bereuter said he also expected to see legislation that would equalize the treatment of domestic and foreign banks, but could not predict whether any banking legislation would be brought up by House leadership during the "lame duck" session starting Nov. 12.

Bereuter said that legislation that would end the 1969 Credit Control Act is also pending. "I certainly favor the termination of that act, and I hope to have an opportunity to vote for the termination."

**2 to 4-H Congress**

Thirty-four Nebraska 4-H members and one 4-H alumnus have been selected to attend the 59th annual National 4-H Congress in Chicago Nov. 30 to Dec. 4.

Among those selected were the following:

Lisa Wood, 18, daughter of Mr. and Mrs. Neil R. Wood of Allen. She received awards from E.H. Lilly & Co., Kraft Inc., and Security Mutual Life Insurance Co. in health.

Turena Walde, 16, daughter of Mr. and Mrs. Stanley Walde of Wjnside. She received an award from International Harvester Co. in agricultural achievement.

They will be among 1,700 outstanding 4-H'ers who will participate in the week-long educational program emphasizing personal development. Under the theme, "4-H - Expanding Horizons," the Congress opens Nov. 30 with a keynote address by Juanita Kidd Stout, Judge of the Court of Common Pleas, Philadelphia, Pa.

Musical at Columbus by WSC Graduate **ALLEN NEWS** / Mrs. Ken Linafelter 635-2403

James Koudeika, a 1978 Wayne State College graduate from Battle Creek, has written a musical called "To Have, To Hold", which will be presented in a premiere performance at Columbus High School on Saturday 8 p.m.

formed at a dinner theatre on Sunday at the Columbus Holiday Inn. Dinner starts at 6:30 p.m., followed by the show at 8 p.m. Koudeika, who wrote the musical based on marriage, was a music (piano) major at WSC and performed in the WSC band and choir. He is presently a graduate

student at the University of Nebraska in Lincoln where he also majors in piano. Director of the musical will be Boyd Bacon, choral director at Columbus High School. For ticket information call 402-564-3224.

# Miss Wood Receives State Honor

Lisa Wood, daughter of Mr. and Mrs. Neil Wood of Allen, has received the State 4-H Health

Award for her 4-H health record book reports.

The honor entitles her to a trip to the National 4-H Congress to be held in Chicago Nov. 30 through Dec. 4. Her award application has been submitted for national competition.

Lisa, a 4-H'er for the last 10 years, is a member of the Lucky Lads and Lassie 4-H Club of Allen. She is a freshman at Morningside College in Sioux City.

### Rescue Calls

Allen rescue workers were busy answering calls during the weekend.

They were called Friday evening to the Clarence Onderstal residence to take Mr. Onderstal to the Wakefield Community Hospital. He was dismissed from the hospital on Monday.

Rescue workers later were called to the Norman Luschen farm where their son, O. J., was involved in a combine accident. He suffered several bruises as the combine passed over his leg and was taken in the rescue unit to the Pender Community Hospital.

Sunday morning rescue workers were called to the Edna Emry home where Mrs. Emry suffered an apparent heart attack. She was taken to the Pender Community Hospital, where she remains a patient.

### Halloween Party

The First Lutheran and United Methodist Churches in Allen sponsored a Halloween party for UNICEF Sunday afternoon.

Thirty-one youngsters in costumes collected over \$38 for UNICEF by going door-to-door. A party was held afterward at the Methodist Church.

The churches have placed UNICEF boxes in downtown business places for persons who were not at home Sunday and still wish to contribute to UNICEF.

### Sponsoring Party

The Allen American Legion Auxiliary is sponsoring a home products merchandise party today (Thursday) from 1:30 to 4 p.m. at the Allen fire hall.

Persons are invited to attend anytime between those hours. Coffee and cookies will be served. All proceeds will go to the auxiliary.

### Cake Decorators

The Royal Bagetts Cake Decorating Club met earlier this month with 15 members. Mrs. Salmon was made an honorary

member. Each member is asked to take a cake and some other edible item to the bazaar in Emerson on Nov. 15.

At the October meeting, Jean Dupnik showed the women how to make pumpkins out of marshmallows. Cakes were decorated and Jo Utecht won the door prize.

Lunch was served by Rose Nelson.

Next meeting will be Dec. 8. Beth White will show how to make cane wreaths.

### Historical Society

The Dixon County Historical Society met Oct. 21 at the county museum in Allen. A film was shown from the University of Nebraska, entitled "Nebraska Water - Its Future." Dessa Jones served lunch.

and relatives. They were weekend guests of Mr. and Mrs. Jack Ellis of Storm Lake, Iowa.

The Chester Bentons returned last Thursday from a trip to the western United States, where they visited their daughter and family, the Pete Browns of Milton-Freewater, Ore. While there they attended the wedding of their grandson, Terry Brown, to Lori Dayton on Oct. 18. Bentons spent a week in the Lawrence Benton home at Carnation, Wash. Enroute to and from the west they were overnight guests in the home of their son and family, the Randal Bentons of Alinsworth.

## Ladies Sponsoring Soup Supper

The Ladies Aid of the Zion Lutheran Church is planning to sponsor a soup supper Sunday evening, Nov. 9.

Chill and oyster soup will be served from 5 to 7:30 p.m. and the public is welcome.

### Attend Rally

Mrs. Arthur Behmer, Mrs. Leonard Marten, Mrs. Alvin Wagner, Mrs. Alfred Mangels, Margaret Krause, Mrs. Lane Marotz, Mrs. Gerald Bruggeman, Mrs. Robert Gnirk and Anna Wantoch attended the LWML Fall Rally at Stanton Saturday.

Guest speaker was the Rev. Carl Mischke, president of the Wisconsin Synod.

### Trip to Germany

Lyle and Marcella Marotz returned home Oct. 20 after vacationing in Germany.

They left Sept. 16 with a tour group to see Lutheland. They spent three days in East Germany, where they visited important places in the life of Dr. Martin Luther. They also attended the Passion Play at Oberammergau.

The group spent several days in

Salzburg and Vienna, Austria. They flew to West Germany and visited a week with Ottomar and Elli Jankowski and family, and spent 10 days in Baden-Baden in the Black Forest with Oswald and Grete Marotz.

### Garden Club

Mrs. Frieda Meierhenry was hostess for the October meeting of the Hoskins Garden Club, held last Thursday afternoon. Mrs. Rachel Wilcox of Norfolk was a guest.

President Mrs. Carl Wittler opened the meeting with the Lord's Prayer. The group sang "Onward Christian Soldiers" and Mrs. George Wittler read a poem, entitled "October."

Members responded to roll call with their favorite fall flower.

Gladys Reichert gave the secretary and treasurer's reports.

Plans were made for the annual no-host family Thanksgiving dinner to be held at 6 p.m. Nov. 9 at the Hoskins fire hall.

Newly elected officers, who will assume their duties in January, are Mrs. Bill Fenske, president; Christine Lueker, vice president; and Mrs. Erwin

Ulrich, secretary-treasurer.

Mrs. Bill Fenske had the comprehensive study on "Gardener's Log for October." The hostess conducted several contests and Christine Lueker gave the lesson on gladioli.

Next meeting will be Nov. 20 with Mrs. George Wittler.

### Birthday Coffee

Mrs. Hilda Thomas entertained at coffee Monday morning in honor of her birthday.

Guests were Mrs. Dan Fultin and Trisha, Norfolk, Mrs. Arnold Wittler, Mrs. E. C. Fenske, Mrs. Walter Koehler, Mrs. Lyle Marotz, Mrs. Arthur Behmer, Mrs. Mary Kollath, Mrs. Gerald Bruggeman and Abby Borgmann.

Ferd Schultz, Juneau, Wis., came Friday to visit in the Paul Bauer home. Mrs. Schultz, who had spent the past week with the Bauers, returned home with him Sunday.

Pam and Lori Rodriguez, Shelby Henzler and Jill Brudigan were guests for a roller skating party Oct. 18 honoring the ninth birthday of Theresa Elkins. The John Kuderis, Greeley,

Colo., spent last Thursday to Sunday with their daughter and family, the Harold Brudigans.

The Orville Broekemeters were in Lincoln Saturday and Sunday to attend an AAL meeting.

Rachel Schultz, New Ulm, Minn., was a Friday to Monday visitor in the Paul Bauer home.

## LEGAL NOTICE OF MEASURES TO BE VOTED UPON NOVEMBER 4, 1980. BALLOT TITLES AND TEXTS OF CONSTITUTIONAL AMENDMENTS PROPOSED BY THE EIGHTY-SIXTH LEGISLATURE, FIRST SESSION, 1979, AND SECOND SESSION, 1980.

Also Included Are Statements Of Explanation In Italics Prepared By The Executive Board Of The Legislative Council.

### Proposed Amendment No. 1

A vote FOR this proposal will reduce the number of Supreme Court judicial districts from 6 to 3, with these to coincide with the 3 congressional districts; provide that 2 judges would be selected from each of these 3 districts; provide that any judge serving on the effective date of this amendment would continue to serve until his position becomes vacant for any reason; and repeal the provision for the redistricting of the former 6 Supreme Court districts following the U.S. census every 10 years.

A vote AGAINST this proposal will retain the present 6 Supreme Court judicial districts and the provision for redistricting of them after the U.S. census every 10 years.

"Constitutional amendment to change the number and formation of Supreme Court judicial districts.

### TEXT OF PROPOSED CONSTITUTIONAL AMENDMENT

Be it enacted by the people of the State of Nebraska,

Section 1. That at the general election in November, 1980 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article V, section 5 of the Constitution of Nebraska, which is hereby proposed by the Legislature:

Sec. 5. The Legislature shall divide the state into six contiguous and compact districts of approximately equal population, which shall be numbered from one to six and which shall be known as the Supreme Court judicial districts. The Legislature shall redistrict the state after each federal decennial census. In any such redistricting county lines shall be followed whenever practicable but other established lines may be followed at the discretion of

the Legislature. Such districts shall correspond in location and numbers with the congressional districts of the state. An equal number of judges of the Supreme Court shall be selected from each of the districts, except that any judge serving on the effective date of this amendment may continue to serve from the district from which he was originally selected until his position becomes vacant because of retirement, resignation, death, or removal from office, whether by rejection by the voters or otherwise. Such districts shall not be changed except upon the concurrence of a majority of the members of the Legislature. Whenever the Supreme Court is redistricted, the judges serving prior to the redistricting shall continue in office, and the law providing for such redistricting shall where necessary specify the newly established districts which they shall represent for the balance of their terms."

### Proposed Amendment No. 2

A vote FOR this proposal will reduce the membership of the Commission on Judicial Qualifications from 11 to 10; add the sanctions of reprimand, discipline, censure and suspension of judges without pay for not to exceed 6 months to the present ones of removal or retirement; add a new ground of conduct prejudicial to the administration of justice for such sanctions; and authorize the Supreme Court to disqualify a judge whenever there is pending against such judge a felony charge, and on its own motion or recommendation of the Commission remove a judge whenever such judge pleads guilty or no contest to a felony charge.

A vote AGAINST this proposal will retain the membership of the Commission on Judicial Qualifications at 11; will retain the present provisions allowing only the sanctions of removal or retirement of judges on certain grounds; and not add the proposed additional sanctions listed above; will not add the additional ground for sanctions of conduct prejudicial to the administration of justice; and would not add the proposed new authority of the Supreme Court regarding the disqualification or removal of judges when charged with or pleading guilty or no contest to felony charges.

"Constitutional amendment to change membership of the Commission on Judicial Qualifications and to provide additional disciplinary measures and an additional ground for discipline applicable to a Justice or Judge of the Supreme Court or other judge.

### TEXT OF PROPOSED CONSTITUTIONAL AMENDMENT

Be it enacted by the people of the State of Nebraska,

Section 1. That at the general election in November, 1980 there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article V, sections 28, 29, and 30, of the Constitution of Nebraska, which is hereby proposed by the Legislature:

Sec. 28. The Legislature shall provide for a Commission on Judicial Qualifications consisting of (1) two Judges of the Supreme Court, two judges of the various district courts, one judge of a municipal court, one judge of the Nebraska Workmen's Compensation Court, and one judge of the county courts. Three judges, including one district court judge, one county court judge, and one judge of any other court inferior to the Supreme Court now exist, or may hereafter be created by law, all of whom shall be appointed by the Chief Justice of the Supreme Court. Two three members of the Nebraska State Bar Association who shall have practiced law in this state for at least ten years and who shall be appointed by the Executive Council of the Nebraska State Bar Association, and two three citizens, none of whom shall be a Justice or Judge of the Supreme Court or judge of any court, active or retired, nor a member of the Nebraska State Bar Association, and who shall be appointed by the Governor, and the Chief Justice of the Supreme Court, who shall serve as its chairperson.

Sec. 29. The Commission on Judicial Qualifications shall select one of its members to serve as its chairman. The commission shall act by a vote of the majority of its members and no action of the commission shall be valid unless concurred in by the majority of its members.

Sec. 30. (1) A Justice or Judge of the Supreme Court or judge of any court of the state may be reprimanded, disciplined, censured, suspended without pay for a definite period of time, not to exceed six months, or removed from office for a willful misconduct in office; for willful disregard of or failure to perform his or her duties; for habitual intemperance; for conviction of a crime involving moral turpitude or disbarment as a member of the legal profession licensed to practice law in the State of Nebraska; for conduct prejudicial to the administration of justice that brings the judicial office into disrepute; or he or she may be retired for physical or mental disability seriously interfering with the performance of his or her duties if such disability is determined to be permanent or reasonably likely to become permanent. Any citizen of the State of Nebraska may request the Commission on Judicial Qualifications to consider the qualifications of any Justice or Judge of the Supreme Court or other judge and in such event, the commission shall make such investigation as the commission deems necessary and in its discretion may shall, upon a finding of probable cause, privately reprimand such Justice or Judge of the Supreme Court or other judge or order a formal open hearing to be held before it concerning the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge. In the alternative, the commission may request the Supreme Court to appoint one or more special masters who shall be judges of courts of record to hear and hold a formal open hearing to take evidence in any such matter, and to report to the commission. If, after formal open hearing, or after considering the record and report of the masters, the commission finds good cause therefor that the charges are established by clear and convincing evidence, it shall recommend to the Supreme Court that the Justice or Judge of the Supreme Court or other judge involved shall be reprimanded, disciplined, censured, suspended without pay for a definite period of time not to exceed six months, removed, or retired as the case may be.

(2) The Supreme Court shall review the record of the proceedings and in its discretion may permit the introduction of additional evidence. The Supreme Court shall make such determination as it finds just and proper, and may order the reprimand, discipline, censure, suspension, removal, or retirement of such Justice or Judge of the Supreme Court or other judge,

or may wholly reject the recommendation. Upon an order for retirement, the Justice or Judge of the Supreme Court or other judge shall thereby be retired with the same rights and privileges as if he or she had retired pursuant to statute. Upon an order for removal, the Justice or Judge of the Supreme Court or other judge shall be removed from office, and his or her salary shall cease from the date of such order, and he or she shall be ineligible for judicial office. Upon an order for suspension, the Justice or Judge of the Supreme Court or other judge shall draw no salary and shall perform no judicial functions during the period of suspension. Suspension shall not create a vacancy in the office of Justice or Judge of the Supreme Court or other judge.

(3) Upon order of the Supreme Court, a Justice or Judge of the Supreme Court or other judge shall be disqualified from acting as a Justice or Judge of the Supreme Court or other judge, without loss of salary, while there is pending (a) an indictment or information charging him or her in the United States with a crime punishable as a felony under Nebraska or federal law or (b) a recommendation to the Supreme Court by the Commission on Judicial Qualifications for his or her removal or retirement.

4. In addition to the procedure set forth in subsections 1 and 2 of this section on recommendation of the Commission on Judicial Qualifications or on its own motion, the Supreme Court (a) shall remove a Justice or Judge of the Supreme Court or other judge from office when in any court in the United States such Justice or judge pleads guilty or no con-

test to a crime punishable as a felony under Nebraska or federal law, and (b) may suspend a Justice or Judge of the Supreme Court or other judge from office without salary when in any court in the United States such Justice or judge is found guilty of a crime punishable as a felony under Nebraska or federal law or of any other crime that involves moral turpitude. If his or her conviction is reversed, suspension shall terminate and he or she shall be paid his or her salary for the period of suspension. If he or she is suspended and his or her conviction becomes final the Supreme Court shall remove him or her from office.

(4) (5) All papers filed with and proceedings before the commission or masters appointed by the Supreme Court pursuant to this section prior to any formal open hearing shall be confidential and the filing of papers with and the testimony given before the commission or masters or the Supreme Court shall be deemed a privileged communication. The Supreme Court shall by rule provide for procedure under this section before the commission, the masters, and the Supreme Court.

(4) (6) No Justice or judge who is a member of the commission or of the Supreme Court Judge of the Supreme Court or other judge shall participate, as a member of such the commission, or as a master, or as a member of the Supreme Court, in any proceedings involving his or her own reprimand, discipline, censure, suspension, removal, or retirement.

### Proposed Amendment No. 3

A vote FOR this proposal will

authorize the Legislature to enact legislation providing that the increased value of real property resulting from improvements designed primarily for energy conservation may be exempt from taxation, such exemption to be upon any terms, considerations and restrictions prescribed by the Legislature.

A vote AGAINST this proposal will not authorize the Legislature to enact legislation of any kind providing that the increased value of real property resulting from improvements designed primarily for energy conservation may be exempt from taxation.

"A constitutional amendment to authorize the Legislature to provide a tax exemption on energy conservation improvements as prescribed.

### TEXT OF PROPOSED CONSTITUTIONAL AMENDMENT

Be it enacted by the people of the State of Nebraska,

Section 1. That at the general election in November, 1980, there shall be submitted to the electors of the State of Nebraska for approval the following amendment to Article VIII, section 2 of the Constitution of Nebraska, which is hereby proposed by the Legislature:

Sec. 2. The property of the state and its governmental subdivisions shall be exempt from taxation. The Legislature by general law may exempt property owned by and used exclusively for agricultural and horticultural societies, and property owned and used exclusively for educational, religious, charitable, or cemetery purposes, when such property is not owned or used for financial gain or profit to either the owner or user. Household goods and personal effects, as defined by law, may be exempted from taxation in whole or in part, as may be provided by general law, and

the Legislature may prescribe a formula for the determination of value of household goods and personal effects. The Legislature by general law may provide that the increased value of land by reason of shade or ornamental trees planted along the highway shall not be taken into account in the assessment of such land. The Legislature by general law and upon any terms, conditions, and restrictions it prescribes, may provide that the increased value of real property resulting from improvements designed primarily for energy conservation may be exempt from taxation. The value of a home substantially contributed by the Veterans' Administration of the United States for a paraplegic veteran or multiple amputee shall be exempt from taxation during the life of such veteran or until the death of his widow or her remarriage. The Legislature may exempt from an intangible property tax life insurance and life insurance annuity contracts and any payment connected therewith and any right to pension or retirement payments. The Legislature may classify personal property in such manner as it sees fit, and may exempt any of such classes, or may exempt all personal property from taxation. No property shall be exempt from taxation except as provided in the Constitution. The Legislature may by general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation.

### Proposed Amendment No. 4

A vote FOR this proposal would provide that the Legislature shall enact a method of financing public education which would meet the state's responsibility to provide maintenance and support of a thorough and efficient system of common schools.

ough and efficient system of common schools, which method shall not rely on property taxes to the extent that an unfair and excessive burden is imposed on property owners.

A vote AGAINST this proposal would not add to the constitution the above mandate to the Legislature relative to the financing of public education in the state.

"Constitutional amendment to provide that the Legislature enact a system of financing public education which does not impose an unfair and excessive property tax burden.

Proposed Amendment No. 1

A vote FOR this proposal will reduce the number of Supreme Court judicial districts from 6 to 3, with these to coincide with the 3 congressional districts; provide that 2 judges would be selected from each of these 3 districts; provide that any judge serving on the effective date of this amendment would continue to serve until his position became vacant for any reason; and repeal the provision for the redistricting of the former 6 Supreme Court districts following the U.S. census every 10 years.

A vote AGAINST this proposal will retain the present 6 Supreme Court judicial districts and the provision for redistricting of them after the U.S. census every 10 years.

- For Constitutional amendment to change the number and formation of Supreme Court judicial districts.
- Against

Proposed Amendment No. 3

A vote FOR this proposal will authorize the legislature to enact legislation providing that the increased value of real property resulting from improvements designed primarily for energy conservation may be exempt from taxation, such exemption to be upon any terms, consideration and restrictions prescribed by the Legislature.

A vote AGAINST this proposal will not authorize the Legislature to enact legislation of any kind providing that the increased value of real property resulting from improvements designed primarily for energy conservation may be exempt from taxation.

- For A constitutional amendment to authorize the Legislature to provide a tax exemption on energy conservation improvements as prescribed.
- Against

Proposed Amendment No. 2

A vote FOR this proposal will reduce the membership of the Commission on Judicial Qualifications from 11 to 10; add the sanctions of reprimand, discipline, censure and suspension of judges without pay for not to exceed 6 months to the present ones of removal or retirement; add a new ground of conduct prejudicial to the administration of justice for such sanctions; and authorize the Supreme Court to disqualify a judge whenever there is pending against such judge a felony charge, and on its own motion or recommendation of the Commission remove a judge whenever such judge pleads guilty or no contest to a felony charge.

A vote AGAINST this proposal will retain the membership of the Commission on Judicial Qualifications at 11; will retain the present provisions allowing only the sanctions of removal or retirement of judges on certain grounds and not add the proposed additional sanctions listed above; will not add the additional ground for sanctions of conduct prejudicial to the administration of justice; and would not add the proposed new authority of the Supreme Court regarding the disqualification, or removal of judges when charged with or pleading guilty or no contest to felony charges.

- For Constitutional amendment to change membership of the Commission on Judicial Qualifications and to provide additional disciplinary measures and an additional ground for discipline applicable to a Justice or Judge of the Supreme Court or other judge.
- Against

Proposed Amendment No. 4

A vote FOR this proposal would provide that the Legislature shall enact a method of financing public education which would meet the state's responsibility to provide maintenance and support of a thorough and efficient system of common schools, which method shall not rely on property taxes to the extent that an unfair and excessive burden is imposed on property owners.

A vote AGAINST this proposal would not add to the constitution the above mandate to the Legislature relative to the enactment of a plan for the financing of public education in the state.

- For Constitutional amendment to provide that the Legislature enact a system of financing public education which does not impose an unfair and excessive property tax burden.

## Transfer Students Get Scholarships

Julie Lynn Lanphear, a transfer student from Northeast Technical Community College in

Norfolk, and Nancy Decker, a transfer student from Platte Technical Community College in Columbus, recently have been awarded scholarships for the fall semester at Wayne State College.

The scholarships are awarded annually to outstanding transfer students from Northeast Technical Community College and Platte Community College. The scholarships are sponsored by the Wayne State Foundation.

Lanphear, daughter of Mrs. Lanphear of Hoskins, is a graduate of Norfolk Senior High School and plans to major in elementary education at WSC.

Decker, daughter of Mr. and Mrs. Archie Decker of Columbus, is a graduate of Columbus Senior High School and plans to major in community service counseling at WSC.

## Business Group Backs Bereuter

The National Federation of Independent Business has endorsed First District Congressman Doug Bereuter for re-election. It was announced last week.

In a letter to Bereuter, the director of federal legislation for the NFIB, James D. McKeivitt, said: "We are pleased to be able to do this because you have shown your support for small business by action rather than just words."

According to the NFIB, Bereuter has a 90 percent voting record on issues that pertain to small business, one of the highest in the entire Congress.

Bereuter, who is a member of the House Small Business Committee, said that he is pleased with the endorsement and plans to continue his efforts to stop the creation of unnecessary federal regulations before they get on the books.

The earliest Chinese coins were made in the shapes of knives and spades, indicating, experts say, that such objects had previously been used in bartering.

### Super Creeps

On Oct. 31st, I got up and went to school. We were going to have a party at school. At 1:30, the school party started. The eighth grade made a spook house outside the school in the shed, and look everybody through it. That was fun! Next we had the costume judging contest. Todd Dorcey won the boy's costume judging contest. I won the girls. I was a cloaked figure. The best over boys and girls was Susie Clark as a gypsy.

Later that night Kim Backstrom and I went trick or treating about 8:30. We came home about 9:30 or so. We had lots of candy! We counted it all and we had a bushel of candy each!

But that isn't the end of this story. When Kim and I were trick or treating we saw lots of spooky looking people running around and hurling people. So Kim and I turned into Super Creeps and took those mean guys to the jailhouse. And then went home. The next day Kim and I got a reward from the sheriff!

### What Happened Halloween Night

On the morning of October 31st, I was up at six o'clock. I decided to try on my Halloween costume for the 35th time. I was a witch. I put on the warts, the wig, the dress and the hat, the shoes and the nose. Then I took it all off and put in on for the 36th time. I was putting on and taking my costume all afternoon. I was going to go trick or treating with my friend Keri. She was going to be a ghost. She was coming over after supper to trick or treating.

After supper, Keri came over. I put my costume on for the 42nd time, and we left. We trick or treated for a half hour and our sacks were almost full. We were getting close to the graveyard and we saw two dark figures going through the graveyard to an old creepy house on the other side.

Keri and I ran after them. We were scared. We were right behind them so we each grabbed one of them. It was Tanya and Karen. They were going to trick or treat at that house. We decided since we were this far, all four of us would go see the house. We got up to the door and rang the doorbell! A lady in a bell dancer costume answered the door. It was a costume party. But it was too late for us to stay, so we all walked home together.

### The Haunted Mansion

One day forty years ago, a girl was looking up in her attic when she found a key wrapped in a map.

The next day she woke up early and started out on her journey. When she got outside she looked at the map. It said to go to the haunted mansion two blocks down the street. She walked until she got to the mansion. She looked at the map again and it said to find the keyhole that the key fits into. She walked into the mansion and started putting the key into every keyhole she could find. When finally she found a strange looking keyhole, it was right in the middle of a wall. She stuck the key in the hole and turned it. When she turned it, a trap door in the floor opened up. She walked down the steps and when she got to the bottom she found a room that was all white and didn't have anything in it except a table with a telephone and a piece of paper on it. She looked at the piece of paper and it said to dial 826. She dialed 826 and another trap door opened. She went down the steps and she found a big laser gun that had a timer on it. The timer had 30 seconds on it. There was 10 seconds left. She knew right away that it was going to blow up something. She had to think fast! She took the bubble gum out of her mouth and put it on the end of the laser. The timer went up to zero and she heard a loud buzzing sound. And all of a sudden the laser blew up. When the smoke cleared she saw a piece of paper that had plans on it to deflect a comet and make it blow up the world. Just then she remembered it was Halloween. She ran up all the steps went out of the mansion and ran home. And like most stories she lived happily ever after.

### A Double-Tongued Pumpkin

One Halloween night there was a boy who liked to go through spookhouses and anything that was scary. The boy's name was Mark, and he was not afraid of anything. He didn't like to go trick or treating. There was nothing Mark could do that night. When he went outside to see what was going on, a pumpkin started to talk. Mark was a little scared because he didn't know what it was. He looked down on the ground and saw a pumpkin with his mouth open. The pumpkin started talking about a spookhouse down the road a few blocks. Mark was not about to let this big chance of having some fun get away. He just had to go to the spookhouse. When he got to the spot where the pumpkin said it was, there was nothing there. He just about wanted to smash the pumpkin. Then all of a sudden he heard a noise behind him. He turned around and saw Frankenstein. Then he turned around again and saw Dracula. The was more scare than ever. He got out of there so fast that Frankenstein shrank into an 8 foot midget, and Dracula's teeth shrank into 4 feet midgets. When he got back to his house he looked at the pumpkin and said, "good job." He went in his house and never went to a spookhouse again because that was a real spookhouse.

### The Spooky Figure

One Halloween night I was going trick or treating with my cousin. We started trick or treating at about 6:30 and from then on we kept hearing noises seeing things appear and disappear in the night. We had done all over Winside, all over Carroll and finally over Wayne and the figure was still there. So we finally decided to hide, but when we hid it was still there. We finally got so scared we ran but it was hard running with our sacks full of candy, but we didn't worry about that and just ran. And while we were running all of our candy spilled, but we didn't run back for it. Then suddenly the figure was picking up all our candy. The figure was two space men twelve inches tall who were on a mission to find out about EARTH! Their names were Grumples and Bumples. They were from Crak and they were picking up our candy to investigate them and then them back to Crak. We went up to them and they told us what they were doing. Then they left and never came back again and now they know what Halloween is or was.

### The Defeat of the Vampirans

In the year 8787 there were huge explosions on the face of the earth from the vicious outer space vampirans. Many people died but a small tribe named the Octles went to the bottom of the Pacifica (Pacific) Ocean. They took many tools with them and a lot of glass. They built a city called Glasswarden. They had everything the people on land had and every October 31 the children went out of the city to go fishing or clamming. They started at 6:00 and usually ended at 10:00. They ate their fish and clams and sometimes the lucky ones found pearls in the clams.

One October 31 a small boy named George Herbert went fishing or clamming and was doing quite well when he noticed a cave. It led up to a mountain top and it was a vampiran car. He got into the car and started it. He zoomed off and with a sharp turn his hand fell off the steering wheel and hit a button that said fire. The bat car fired and demolished the vampiran planet. He flew back to earth and told what he did. He was a true hero.

### The Chase Of My Life

One Halloween night, I was out trick or treating. I was walking down a dark road. All of the sudden out of the trees came a headless horseman. I ran and he chased me. He threw his pumpkin head at me. But missed me. He had another head. I saw a horse. I ran and jumped on the horse. The horse ran fast. It jumped the fence. The headless horseman was still after me. His horse was faster than the one that I had. My horse broke his leg. I got off the horse. I ran and hid in a hole. I found a gun and shot him.

### The Hairy Scare

On October thirty first, Halloween, three teenage girls (Missy and Magie Taylor the twins and Linda Marshall) were helping each other with their Halloween costumes so they could go to one of their friend's party. They were at the Taylor mansion alone because Missy and Magie's parents went to their Grandmothers for the weekend. The Taylor mansion was big and eerie. It was moved to Pennsylvania in the 1900's from England. Everybody said it was haunted but the Taylors didn't think so.

Finally they were finished getting ready and were coming down the grand stairs in the front hall when they heard a noise. It was a very strange and unusual noise. Missy said it sounded like it was coming from the wine cellar in the basement. So they all went into the kitchen to get a weapon. Then they went down to the basement. All of a sudden Missy stopped, one of the steps was broken. It looked as though someone just ripped the step right off the stairs. "Well we'll just have to step over it," signed Linda.

Finally they came to the door of the wine cellar. It was wide open. But nothing was in there but some old bottles of wine.

Then they started back up the stairs. Suddenly they heard another noise like the other one. This time it sounded like it was coming from under the stairs. Magie looked through the broken step and cried, "There's something moving down there!"

Missy went back upstairs to get the key for the door under the steps. When she got back they opened the door. There they found Missy and Magie's puppy Rags caught under some old furniture. They got the puppy out and then went to the party.

### On Halloween Night

On Halloween night when I went out trick or treating, I thought someone was following Tracy and Me. We kept running around to see if this strange person was still following us. We had stopped at a phone booth to call our parents but they weren't at home. As we came out of the phone booth, we did not see anyone. So we thought we had lost him. Then as I looked around again, I had spotted him going into a very dark alley. Then we started walking faster and faster, but this person kept getting closer and closer.

Then I saw Eunice and Kim coming down the street. Tracy explained our problem to them. Eunice said there was someone following them also. Then we all went to Kim's house. It was the closest one. We were in the house just a little while when we heard a knocking at the door. Kim ran to the kitchen and got a rolling pin. I got a very heavy pan. Eunice got a knife and Tracy went behind the sofa. As I was answering the door, we were all ready. When I opened it, it was Eunice's mother and father following us.

### The Spook House

Once there was a Spook House and it was very scary. Tim went in it once he was terribly scared. Tim came out and he was shaky. Once Dave went in and he was scared and then Dave came out and he was shaky. Pretty soon the Spook House was walking and every one looked. We all found out that the Spook House was spooky on Halloween.

We interrupt this program to bring you a special news bulletin. We now take you to Ralph Bunt! Good evening we are hear because Dr. Dacron has discovered that the sun has started to come closer to the earth. Dr. ... when did the sun start to come closer to the earth? It started about 74 hours ago. What are you going to do to stop it and how close is the sun? I don't know what to do yet. We estimate that the sun is 999,999 miles away. Right now it is 150 degrees. When will everybody die? Right now it will be about four hours from now. Stay tune for more news. Four hours later a voice came on the air. That story was a phony. It's Halloween you know.

### The Big Scare

One day Tammy and Trisha were walking home from school thinking about what they were going to wear to the high school costume party. Tammy was going to be a princess and Trisha was going to be a witch.

When they got home, they got all ready to go. Finally, it was 6:30 and they started walking to the old Taylor mansion which was given to the high school to use anytime they want to. Some people say that it is haunted, but they don't believe it. It was about two blocks away. It looks like it is going to storm, so they had to hurry.

On the way there Tammy said to take a short cut through the cemetery and we heard a noise behind us. We didn't know what it was so we stopped and hid behind a grave. The grave said "Dracula Born 1660, Died 1770, Born 1980. Now what did that mean? They didn't know what they were going to do.

They heard it coming closer, so they ran to the mansion without knocking. They went in and hid behind the couch. All of a sudden the door started opening and it was only Jenny, their classmate from high school.

### The Old House

One night, a Halloween night, three kids were going trick or treating. About eight o'clock it started raining. They ran down the block and into the old house. The house was haunted, but they went in anyway. They opened the door. It creaked all the way open. Every step they took the floor squeaked. They stayed in the house until it stopped raining.

When it stopped raining, they went out the door and a trap door opened and they fell into the cellar. When they hit the bottom, they saw a bunch of skeletons laying around the floor. Then Henry saw a door and opened it, but it was covered by a brick wall. They saw a window, but it was too high to reach. They gathered a bunch of boxes and they stacked them on top of each other. Henry climbed the boxes and fell through them. When they moved the boxes, he was gone. The two left tried to climb up the slide. John, the leader, led Jack up the slide. Jack slid down the slide. When John got to the bottom, Jack was gone. John tried up the slide and when he got outside he saw Henry and Jack tied up sitting on the porch. He untied them and started home.

### The Haunted House

It was Halloween night. Every body was thinking for something to do.

Then Sam said, "Let's go to the Haunted House." Every body thought that was a good idea. So they went down to the Haunted House. The door was open and they went to see what was in it. They were walking when Mark fell in a trap door. Mark was scared. Sam, Todd and David were walking around and they found Mark. They went trick and treating. They had a lot of fun and received a lot of candy. And Sam said, "That was more fun than the Haunted House."

### How Halloween Saved the Planet

It was October 31 in the year 2001 and Brian was just getting out of bed when he heard this noise outside. He went to his window to see what it was, and he couldn't believe what he saw. It was a giant spaceship! The door of the spaceship flew open and out jumped two green men. They flew up to Brian's window and said, "We're Franky and Cranky."

Brian asked them where they lived and they said they lived 2,000,000 miles west of Jupiter. They said they were here on a secret mission and they needed Brian's help. They wondered if he could come with them to their planet. Brian said he would if he could but he had school that day. Franky said he could arrange it so that nobody would ever miss him, so Brian agreed to go with them. After they were aboard the spaceship Brian asked them what their secret mission was. They said that for many years their planet had been dull and lifeless so the king of their planet whose name was Shamps decided to send two men to every planet in our solar system to find things to perk up their planet, which is called Ecalpon (no place spelled backwards).

When they got to Ecalpon all Brian could see was big, gray skyscrapers and lots of smog. They went to Shamp's Castle which was a skyscraper, then Franky and Cranky told Shamps that Brian was from Earth and that he was going to help them find something to brighten up Ecalpon. Brian thought and thought about how he could help them. He was wondering if he would be back home in time to go trick or treating. Then he thought maybe he could tell King Shamps about Halloween and that would brighten up Ecalpon. So that very afternoon it was announced all over the planet that today was National Halloween Day and so that night ghosts and goblins and witches were seen roaming the planet. Then Brian told them about other holidays, that Earth had. To this day people are always very happy on Halloween because it was the beginning of a new kind of planet!

### Haunted School

We were having a Halloween party at school and were talking about what things happen on Halloween. And all of a sudden the lights went out and all of a sudden we heard somebody's voice. It sounded like a witch's and we all ran. Valerie and I went the same way. We were lost. We couldn't find our way out and we saw ghosts and witches. All of a sudden we saw a room with two beds. So we went to sleep. When we woke up, we were tied up. We saw somebody coming. It was Frankenstein and we got untied just in time and we ran through the cave. We saw light. We got to the light and everybody was standing their laughing because it was a joke.

### The Friendly Vampire

Once there was an old deserted house about ten miles out of town. Their lived a Vampire that no one liked. Everyone thought that he was a blood sucking vampire. Everytime when someone would come in the house they would be scared of him. He tried to tell them that he wouldn't hurt them. He remembered that is was one night before Halloween. Every Halloween some kids go to his house to see if there was a real vampire for sure.

So on Halloween night the kids went to the house. They stood on the porch arguing to see who should open the door. Finally an kid opened the squeaky door. They looked around the house to see if the vampire was around. He came down the stairs and he saw the kids. The kids got scared and went to the door, but it was stuck, so they went to another room and shut the door. He opened the door and said "I won't hurt you." Why would not you hurt us when you suck blood from people, the kids said. The vampire said, "Because I don't have any teeth."
