## Decade's Sales Rank County High

Comparing net taxable retail sales of 1970 and of 1979, Wayne County ranks seventh of all Nebraska counties in total percent of increase.

ACCORDING TO the University of Nebraska Bureau of Business Research, net taxable sales in the county have increased 212 percent from the 1970.

Only Rock County (283 percent), Holt (221 percent), Box Butte (235 percent), Banner (240 percent), Chase (227 percent) and McPherson (233 percent) have had more lucrative increases over the last 10 years.

The report indicated that Wayne County had retail sales of \$14.3 million in 1970 and \$44.6 million in 1979. Wayne led all other counties in Region 11 in the percent of increase category.

Other counties in the region and their percent of increase and net taxable sales for the

decade are as follows:

MADISON COUNTY, 200 percent increase from \$73.7 million to \$221.3 million; Pierce County, 188 percent increase from \$10.6 million to \$30.5 million; Antelope County, 157 percent increase from \$14.2 million to \$36.5 million; and Stanton County, 155 percent from \$4.9 million to \$12.5 million.

Average for the region was 193 percent increase over 1970.

In Region 25, which contains Cedar, Dixon and Knox Counties, the average increase was 161 percent during the decade.

Cedar County had net taxable sales of \$16.8 million in 1970 and \$45.7 million in 1979 for an increase of 172 percent. Dixon County had sales of \$7.8 million in 1970 and \$17 million last year for an increase of 118 percent. Knox County had sales of \$17.1 million in 1970 and \$46 million last year for an in-

crease of 169 percent.

THE REPORT, however, said much of the increase for all counties was due to inflation. The Consumer Price Index rose 83.6 percent over the decade for an annual average of 7.4 percent. More people buying goods at higher prices, and in general there was more income per person available for the purchase of more goods, the report stated.

There were 14 counties with increases of more than 200 percent.

In counties with populations in excess of 20,000 (excluding Lancaster and Douglas counties), Buffalo with 203 percent and Madison with 200 percent performed considerably better than the 173 percent average growth for counties of this size. Box Butte with 235 percent, Holt with 221 percent and Cumming with 205 percent led those

counties with populations between 10,000 and 20,000. Average growth rate in this classification was 158 percent.

COUNTIES WITH populations between 5,000 and 10,000 averaged 156 percent growth in retail sales. Notable performers were Wayne with 212 percent, Morrill with 211 percent and Polk with 203 percent. Chase with 227 percent and Perkins with 206 percent well exceeded the average growth rate of 150 percent for counties with populations between 2,500 and 5,000.

The average growth rate in retail sales for counties with populations less than 2,500 was 170 percent. Significant gainers in this classification included Rock with 283 percent, Banner with 240 percent, Wheeler with 238 percent and McPherson with 233 percent.

## GED Course Reunites Classmates

In his world of literature, English novelist Charles Dickens wrote of long lost friends meeting in the oddest of places, renewing friendships and reminiscing of times past.

AN IMPROMPTU reunion last winter between two Wayne women has Dickensian overtones, and their mutual discovery was enroute to becoming sexagenarian high school graduates.

Joy Gelfman and Dorothea Schwanke were schoolmates back in the 1920's at District 57 country school when it was located west of its present facility on Nebraska 15 south of here. They both dropped out of school and were to renew their academic friendship five decades later at Wayne-Carroll High school.

Mrs. Gelfman walked out of school after graduating from the eighth grade 50 years ago last April. She never returned for further education, but completing her schooling never really left her realm of possibility, she explained.

MRS. SCHWANKE, in the second grade when Joy was an eighth grader, stuck it out until only a few months remained of her 11th year. She was just short of graduating when her mother's illness forced her to leave school with her high school diploma unrealized.

Both women, now married and with grandchildren, never lost the desire to complete their high school education.

"My sister (Doris Gaunt) encouraged me to love all of this to her," Mrs. Gelfman explained. Doris received her general education degree (high school equivalency) in January of this year.

"I have always wanted to do it," Mrs. Schwanke added.

THE COINCIDENCE of discovering one another went something like this, they explained.

Dorothea was not working in the winter of 1980 and decided it was the best time she would have to take up her education once again. She started in February. Through the encouragement of her sister and the desire for the elusive diploma, Joy started in December of last year, but a winter trip to Texas interrupted her formal schooling for several months. She took her books along.

When she returned from the sunny south and attended her first class, who should she find but her schoolmate of the 1920's — Dorothea. "Do you realize we attended the same school," Joy remembers asking Dorothea?

THEIR DILIGENT, tireless efforts finally paid off less than a year later when both received their hard-earned diplomas Nov. 24. They highly recommend it for anyone who was unable to finish high school for whatever reason, they said.

Dorothea and Joy received enthusiastic support from their families the moment the announcement was made. Their husbands were understanding about the additional time away from home once a week, and their children and grandchildren viewed the undertaking with pride.

"I found it relaxing. I didn't want to leave it alone," Mrs. Gelfman said. Dorothea said that "after the first test, it was much easier" because she knew she was capable of completing the course.

BOTH ENCOURAGE persons of all ages to complete their high school education. "We think people should stick with it and get as much out of it as possible," they agreed.

With her newfound experience, Dorothea says she plans to take a typing course at Northeast Technical Community College in Norfolk. With that knowledge and training, she hopes to become useful as a secretary some day.

Joy said she, too, may take up another class later, but will savor her accomplishment for awhile yet.

DESPITE THEIR personal gains, Mrs. Gelfman and Mrs. Schwanke give much of the credit to their instructor, Janice Dinsmore.

"Our instructor helped us a lot. She cared and was interested," Dorothea explained. Mrs. Dinsmore treated everyone alike, she

said, and made the students feel comfortable and confident.

"Her love and devotion is outstanding," Joy added.

Joy and Dorothea are proud of their diplomas, proud of their experience and knowledge and proud of their decision to return to school after so many decades away.

"I ALWAYS thought about going back up to school to see how many credits I had. I always felt bad because I didn't ever graduate," Dorothea said.

"With a diploma, you don't have to do the hard work (labor)," Joy noted.

## Wanted: A Home

THE MOSLEY FAMILY is temporary home for three abandoned puppies found Thursday afternoon in Bressler Park. The breed is mixed for sure, say the Mosleys, who believe the three are at least part German Shepherd and German Shorthaired. One of them is spoken for, but homes for the other two are needed. It is believed some thoughtless and cruel person dumped the pups in the park.

## Nordstrand Called to Duty

He has put a lot of himself into Wayne State College. A member of the faculty for nine years, Norman W. Nordstrand went into retirement for a brief time until 1979 when he was "called to duty" to serve as executive secretary of the Wayne State Foundation.

ORIGINALLY started in 1961, the foundation was established for a number of reasons. Its main purposes, according to Nordstrand, are to raise money outside the college, give scholarships to deserving students, sponsor research by faculty members and handle alumni affairs.

The foundation is composed of a general membership, which includes anyone who donates money, and a board of trustees, which has approximately 50 members.

In general, Nordstrand's duties as executive secretary involve administering the day by day operation of the foundation. This includes keeping the books, supporting special programs (such as scholarship programs), overseeing investments, conducting public relations, supporting alumni activities and suggesting ways to improve programs and raise money.

Concerned with anniversary One of the projects Nordstrand is concerning himself with this year is the upcoming 20th anniversary of the foundation. Nordstrand said this is an important occasion and hopes more people will become aware of the foundation's existence because of the anniversary.

Nordstrand's list of positions at WSC is a long one. He came to Wayne in 1966, and has been assistant dean of instruction, director of federal aid to higher education programs, director of internal programs, assistant dean of humanities, dean of the school of faculties and fine arts, chair of the department of humanities, dean of the school of arts and sciences and professor of English.

NORDSTRAND received the Blue Key Award for Outstanding Service in Intercollegiate Education and the National Achievement Award for Excellence in

Teacher Education and International Education given by the American Association of Colleges for Teacher Education in 1971. In 1974, he was honored in a special way. The Nordstrand Visual Arts Gallery was named for him. Nordstrand said it was a very complimentary thing for him, and commented on the fact that he and Val Peterson are "together in the same building."

The year of his "retirement," 1975, Nordstrand received yet another award. This one was the Blue Key Award for Leadership and Service.

Nordstrand's contributions extend far beyond WSC; they extend far beyond the world of academia. During the 30's and 40's he served on the staffs of various colleges as a dean or as director of a department. In the 50's he was an officer in the foreign service, working closely with Ambassador Val Peterson.

HIS DUTIES included being a cultural affairs attaché at the U.S. embassy and chairman of the United States Educational Foundation in Norway, and public affairs officers at the U.S. embassy, director of the U.S. Information Service, and chairman of the United States Educational Foundation in Denmark.

Decorated a Knight In recognition of his services Nordstrand was decorated a Knight of the Order of St. Olav by the late King Haakon VII of Norway and received the Meritorious Award from the U.S. Information Agency for "promoting cultural programs between Norway and the United States." He was also decorated a Knight of the Order of Dannebrog for "promoting cultural relations between the people of Denmark and the United States."

Sees foundation important Nordstrand said that he sees the Wayne State Foundation as an important asset for Wayne State College. He emphasized that although its office is on campus, the Foundation is completely separate from the college. The Foundation receives no funds from the state; all donations are from private sources.

## Only One Week Is Left For Special Give-A-Way Of Hundreds in 'Bucks'

The special Christmas edition of the Grand Give-A-Way is looking for another winner since no one has been in town to collect the money since last Sunday.

GILBERT DANGBERG of Wayne was the first winner Sunday, Dec. 7, when his name was drawn from an estimated 8,000 names. He was at Pamida, Inc. and received \$250. Since then, however, there has not been a winner.

There was no winner Monday night for \$250 since Lester Ellis of Allen was not in Wayne or in any of the 59 participating stores at 8 p.m. when his name was drawn and announced.

There was no winner Tuesday night, either, for \$350 since Mrs. Darrell Powiely of Pender was not in Wayne. The name of Lloyd Christensen of Wakefield was drawn Wednesday night for \$450, but he was not here either.

THE REGULAR Thursday night drawing for \$1,000 did not have a winner, either. Robert Bower of rural Wayne was not in town. Friday night did not have a winner as well, since winner Harry Nelson of Carroll was not in town.

The total to be given away at 3 p.m. Saturday was \$450. If there was no winner, then \$750 was slated for 3 p.m. Sunday.

The giveaways will be held each day through Sunday, Dec. 21. Drawings on Saturdays and Sundays will be at 3 p.m. and those on weekdays will be at 8 p.m.

Rules are the same as for the regular Thursday Grand Give-A-Way. Names of persons who subscribe to The Wayne Herald, who receive The Messenger or who have registered at any of the participating

stores are eligible. If the person or his or her spouse is in one of the stores when the name is drawn, then there is a winner.

HOWEVER, if there is a winner, the amount will start again at \$250. This does not apply for Thursday night's drawing.

Officials of the giveaway remind winners that the bonus bucks must be redeemed by Dec. 31 when the contest ends.

The following is a list of the participating stores:

BURGER BARN, Fredrickson Oil Co., El Toro, Chrysler Center, Wayne Shoe Co., Annie's Ford-Mercury, Black Knight, The Vets Club, Carhart Lumber Co., Eldon's Standard, Triangle Finance, Peoples Natural Gas Co., Karef's, The 4th Jug, Northeast Nebraska Insurance Agency, Jack Tomrde-Kuhn's Carpet and Draperies, Surbers, Jeff's Cafe.

LAURA Sheets was the District 57 teacher. She is still living, it is believed, and she is thought to live in Florida somewhere.

## Dear Santa Claus.....

Editor's Note: As reported previously, The Wayne Herald is printing letters to Santa Claus to make sure Santa gets the message this year.

He is unusually busy in December and has asked us to print the letters. He says he will try to read all letters he gets at the North Pole, as well.

Several letters are printed here, with still others elsewhere in this issue. More letters will be printed before Christmas:

Dear Santa, How are you? How is Mrs. Claus and your elves? I will leave you some cookies and milk. I would like Crayola Caddy and Tracy Doll. My brother Dusty would like a Fischer Price house boat and talking telephone. Please bring our baby brother Darin a toy. Love Devanee and Dusty and Darin Jensen Wayne

Dear Santa, Mom says I have been a good girl. I would like a Strawberry Shortcake Bake Shop and anything else you want to leave me. I am five years old and go to kindergarten. Love, Jennie Hancock Winsted P.S. I will leave cookies for you and carrots for your deer.

## The Wisdom of Big Brother VI

Richard L. Leshar, President  
Chamber of Commerce  
of the United States

Rep. Gene Snyder of Kentucky recently came up with some very interesting statistics. From 1973 to 1977, there were 339 drug discoveries worldwide. Seventy-four of those drugs were discovered in this country, but all but 18 of them were put to use in other countries before being approved here. Thus, while the U.S. ranks first in discoveries worldwide, thanks to the FDA, we are only ninth in overall speed in putting them to use saving lives.

A typical example: In the 1950's, a medical miracle was discovered in the form of a body glue, which, when applied as a fine mist, could stop bleeding from open wounds and glue human tissues together. The process was used extensively in Vietnam where it saved hundreds of lives, and it held great promise as a future cure for internal bleeding, ulcers and strokes.

But today, 25 years later, Rep. Snyder notes the companies have finally given up

trying to gain FDA approval of their body glue. So, instead of marketing it as a miraculous medical tool, they are now selling it in discount stores — as a general purpose household glue.

**How fast do  
Your nails grow?**

Now before you start thinking the FDA has just been sitting on its hands all these years, doing nothing to protect the public, let me set the record straight.

As it turns out, for the past five years, the agency has been conducting some very intensive research of its own — on nail biting and thumb sucking. So intensive, in fact, that now the FDA has become knowledgeable enough to: alert us that nails normally grow at the rate of 0.1 millimeter daily, and that for those who bite their nails the rate is double; inform us that nail biting occurs in 45 percent of preadolescent children, 25 percent of college students and 10 percent of adults; warn us that nail biting is sometimes a matter of discontent,

pressure or maladjustment, and most often occurs "in a stressful situation," and, finally, reassure us that thumb sucking "usually stops spontaneously at about age four."

Feel better now?

**How fast do you read?**

The U.S. Chamber has a federal spending clock in its lobby so visiting taxpayers can see how fast the government is spending their money. Currently, the second hand must tick off over a million dollars a minute just to keep pace with the federal budget.

Sen. Gordon Humphrey of New Hampshire recently devised another means of describing Uncle Sam's austerity in action. It goes like this:

If you are a person at least 21 years of age, with average reading skills, earning approximately the median income (about \$13,000 a year), and planning to work until the age of 65, then by the time you have finished reading the rest of this sentence, the federal government will have already spent more money than you could make at

your present salary for the rest of your working life.

**Homemade work is  
Against the law**

Mrs. Duffany is a nice woman who stays home and makes ski hats, which she then sells to CB Sports, Inc., in Bennington, Vt. She makes these hats to supplement her husband's Social Security. She makes them at home because she is an invalid.

The Department of Labor showed no compassion when it recently tried to take Mrs. Duffany's job away. The Labor Department did this when it sued CB Sports for violating the Fair Labor Standards Act by letting employees work at home. This Act, in case you've forgotten, was designed to stop "sweat shop" abuse in large cities by requiring all work be done in a regulated factory environment.

As to whether Mrs. Duffany, who considers herself self-employed, cares to be protected in such a manner, the assistant administrator of DoL's wage and hour divi-

sion, Herbert Cohen, replied: "(The Department) doesn't work to let workers decide if they need protecting."

**"Don't Kill The Golden Geese"**  
Snapped the Rat

From "National Review," Oct. 31, 1980: "Two economists at Texas A&M have been using laboratory rats for experiments in economic behavior. And what do you know — even rats respond to the rules of the free market. For instance, in controlled experiments, the rats decide how much to work at various pay scales, and take more time off when wages are high. They also make consumption decisions that depend on their income and on commodity prices."

"All of this is flawless free-market behavior. But when the researchers simulated government meddling, with 'welfare' payments to the rats, their behavior became erratic and inequality of income increased — precisely the opposite of socialist theory. We'll bet this is the first time the socialists have refused to believe findings based on laboratory rats."

## the pied typer

I was in my formative years when Ed Sullivan introduced The Beatles to America. Those were the days when a family was a family and it was national tradition to finish supper in time to watch the dog and pony acts on the Sullivan show.

Looking back, I don't think the famed group from Liverpool had much influence on my growing up. I enjoyed their music — mostly the melodies, not the lyrics — and probably envied their ability to make money. I own four or five of their albums and had a roommate in college who virtually worshipped the group. He's now a lawyer in Omaha.

Though some will argue the point, The Beatles were highly talented and influential musicians. Many of their songs — again, mostly the melodies — have been recorded by more traditional artists whose albums grace the record collections of the middle-aged set.

John Lennon was a moving force among The Beatles and the music world. It was his charisma that many believe was the cause of the breakup of the group.

But despite my love for their music, it seems his death is being overplayed. The death of Elvis Presley, whose influence died long before he did, was exaggerated and was viewed with some national remorse. But Lennon's killing is being treated much like the death of a President or the Pope.

It has been nearly a week now since Lennon was shot. Yet the papers and the radio networks continue to carry stories about The Beatles, the mental makeup of Lennon's accused killer, handgun control, etc., etc.

Much of the media is decrying The Beatles' influence on the drug culture, meditation, fashion and long hair. All of the things that are labeled wrong with today's youth can be traced to the early influence of The Beatles, so say the group's critics.

But help me understand something. If The Beatles were such vagabonds of all the evils that plague our youth, why such a build-up in the press? If I was a 15-year-old and had been lectured about the evils of long hair, drugs, meditation, etc., wouldn't I be a little confused about the publicity Lennon and his group are receiving now?

I'd say to myself, "Self! I'd say, 'If what these guys have done is so bad, then why is everyone making such a big deal out of Lennon's death?'"

Youngsters are reared to respect the media, to believe most of what it tells them, to read, read, read. Yet they see this media delegating much of its time and space to a person and a group that is said to represent the evils of life.

An Associated Press story highlighted some of the group's major influences over the years.

Hair — Beatle wigs and The Beatle Cut. Everybody stopped going to barbers.

Drugs — Many of the songs of The Beatles were supposed to have been influenced by the use of drugs and were said to contain subliminal drug messages. The Beatles not only said they smoked pot, which made it immediately okay with their followers, but said they dropped acid.

Fashion — More than just hair, it was the whole look. It was jeans, an explosion of jeans. When The Beatles finally shed those silly suits that their manager wanted them to wear to make them appear less threatening and more sanitized, they got into jeans and tie-died T-shirts, and an era of casualness began. When Lennon donned his glasses in public every other kid in school went out and bought a pair; needed or not.

While the AP information seems to exaggerate life somewhat for Wayne, Neb., it still tells a story of major influence among today's "under-30 set."

Despite their type of influence, their music will stand forever. For some 20 years, the group or its individual members have produced hit record after hit record and hit album after hit album. They must be doing something right.

I was not a part of the drug culture or the meditation circuit. I do like to wear jeans and my hair in my college days was down to the bottom of my ears and touched the collar of my shirt (gasp, gasp). To that extent, if The Beatles are to blame, then I have been taken in by the scoundrels.

This week's Murphy's Law Award goes to Wayne's Pat Gross for discovering that false ceilings are really what they are advertised to be — false.

We wish Pat well and hope he can return to his jogging routine as soon as possible. I think it was Isaac Newton who once promised that every thing that goes up must come down.

Pat was walking in the dark above Triangle Finance and/or State National Bank when he stopped off a solid floor onto ceiling tile. He was bruised and twisted, but nothing was broken.

Our Reading Between the Lines Award this week goes to the author of a Letter to the Editor on this page.

I read and reread the few paragraphs I had in last week's column on taking photos during my unborn child's birth. For some background information, the best photo series in the entire nation in 1970 went to a National Geographic photographer for a series on the birth of his child.

The moment of our child's birth is something we want to share with another man and for the rest of our lives. My advice to the author: This is 1980, not 1982. Times change. Attitudes change.

"I ASKED HIM ABOUT MORE GROCERY MONEY, WHERE WAS WE GONNA GET THE RENT INCREASE MONEY, HOW ABOUT THE CHRISTMAS BILLS AND 'LONG ABOUT THE FOURTH SHRUG, HE SORTA GOT HUNG UP!"

Dear Editor,

I am very dissatisfied with the poor job this paper does in covering various aspects of activities happening at Wayne High School.

Specifically, I am referring to your November 27th issue: the students who went to the Nebraska Music Educators' Society Convention in Grand Island received such lousy coverage, it is unbelievable. First of all, this is one of the few chances for individual high school musicians to compete for a position in a distinguished group, such as the all-state band, choir, or orchestra; only the best musicians are chosen to participate.

The caption ("article" would be an overstatement for the coverage you gave them) did not suggest this. It did not even give the grade or instrument/voice or each student selected. After these students practice for nearly a year for their audition, all the publicity they get is a picture and caption, printed a week after the convention. Great going!

This really did a lot to make these kids feel proud, considering the lengthy article in the same issue about the award and letter-winners of the football team. You didn't seem to miss a statistic about them. And it's the same every week — there is always plenty about sports events. Why so little about the music students? This year, a con-

siderably larger group than normal attended the convention and a very large percentage of the students who auditioned were accepted. Try comparing that to the football team's record. It give's you something to think about.

The paper coverage of sports is okay. I just think it should have more interest for other activities than just athletics. Be fair!

To the Editor:

Does the illustrious Pied Typer propose to publish the pictures of the birth of his child? I'm sure not.

Consequently, I do not wish to read in the "Herald" that he is even considering taking pictures of such a precious moment. I am not such a prude as to think of birth as a deep dark secret. But the sharing and telling of this happy event to his unborn child will certainly be spoiled by pictures of his strug- gle to enter this world.

There is little left sacred in our world today. I hope your doctor and the hospital has more sense than to allow flash bulbs popping in the delivery room. Hold your wife's hand and share in your heart, not on a glossy the miracle of life.

## Young Farmers, Ranchers Best Ever

NEBRASKA FARM BUREAU FEDERATION  
By M.M. Van Kirk,  
Director of Information

Today's young farm and ranch operators are probably the best this country has ever produced.

This is the time of year when several organizations in the state recognize young farmers and ranchers with awards for the excellence of their crop and livestock operations, for innovations in soil and water conservation and for leadership in farm and community activities and youth organizations.

News people who have been interviewing these award recipients over the past 10 to 15 years know that there is a pattern to their success and that pattern includes many of the following ingredients:

— They have been reared on family farms and ranches and learned their vocation under the guidance of their parents. They have been handling equipment and caring for livestock since they were small boys.

— Nearly all have been active participants in 4-H and FFA where they learned more of the fine points of crop and livestock production and acceptance of new and improved techniques.

— Many are leading 4-H clubs, holding positions of leadership in their local community organizations including their churches.

— Most of the winners, and this includes both husbands and wives, have been exhibitors and contestants in 4-H and FFA competition at local and state levels.

— Almost without exception, successful young farmers and ranchers are in business because their parents helped them get started — by sharing equipment, participating in hog and cattle production enterprises on a partnership basis, or providing some land and capital.

— In most cases, "the help in getting started" came from parents, grandparents or perhaps an interested neighbor who was nearing retirement and wanted to help a young person enter the field. Usually the

help amounted to the minimum needed, not lavish but enough to provide sound opportunity for those who really wanted to make the best use of it.

— Success of the award winners achievements came relatively quick, indicating that for those who are qualified and are willing to use sound advice and judgment, the rewards in modern farming and ranching can be attractive.

— Most young farmer and rancher award winners have goals of increasing the size of their operations. They want to buy or rent more land, to expand their hog and cattle numbers and expand their facilities. They do not want limits on their opportunities.

— Most have a surprising amount of building and mechanical skills, able to plan and construct their own facilities and do much of their own equipment repair and maintenance work. Some are college graduates or have had special training at some of Nebraska's vocational technical colleges.

— Most employ good record keeping systems and have established good farm credit sources.

— Most have definite marketing programs for their crop and livestock production, recognizing the advantages in using some of the new marketing techniques.

Rarely do the award winners dwell on the role of government farm programs in their present and future plans. They may participate in government programs available to them but they voice little desire to see them expanded or to be dependent on them.

Those who constantly predict the worst for U.S. agriculture and the family farm and prescribe all manner of government intervention would do well to go out and see these young farmers and ranchers in action.

## Let Schools Focus On Teaching

So many burdens have been put on our school systems that their prime responsibility — providing a solid education in the basics — is being threatened.

"We cannot assign every social responsibility to the schools, including acting as a substitute for church and family, and expect educators to succeed."

"Current trends in America must be reversed so that we can let schools focus on teaching fundamentals."

"I don't want to oversimplify the schools' problems. A basic education given in the 1980's as preparation for life in the 21st century cannot be the same as the fundamental education I received as a boy."

"The administrators and the board of each school system ought to be able to decide the most important priorities for education on the elementary and secondary levels."

"The federal government has taken away many of those decisions from school

systems. The secretary of the new U.S. Department of Education has issued numerous mandates that give local administrators and boards no flexibility in dealing with problems."

"With the advent of a new administration in Washington, I'm going to be working hard with others to lessen greatly the federal mandates on local school systems. I believe the climate is right for success in such efforts."

"But we can't put all the blame on the feds. We must reexamine the burdens that have been put on local school systems by the state. For starters, we ought to be very wary of any proposals for new state laws that would impose additional responsibilities on our school systems."

"We also must give thought to possibilities for reassigning to other institutions some of the duties that the state now mandates be done by school systems."

Nebraska has an excellent education

system. Mothers and dads and citizens without children in school give volunteer support, as well as financial, to our local schools. The volunteers who serve on our local school boards are dedicated and effective.

"Because of the good working conditions created by these boards, there was less turnover of school superintendents and principals in 1980 than in any of the past 25 years."

"Support of citizens, school boards and administrators has created the climate in Nebraska that has attracted and retained teachers who are dedicated to their students. The result of all this has been good education for Nebraskans, as evidenced by the fact that students from our state generally score better on national tests than those from most of the states."

"We have a good system. We must not ruin it by asking our schools to do too many

things.

## Diane Backstrom Weds Ray Wolf November 29 in Stanton Church

The New England Congregational Church in Stanton was the scene of the Nov. 29 wedding ceremony uniting in marriage Diane Backstrom and Ray Wolf Jr.

Parents of the couple are Mr. and Mrs. Morris Backstrom of Wayne and Mr. and Mrs. Raymond Wolf of Stanton.

A candelabra with greenery and rust and ivory bows decorated the church for the 7 o'clock double ring rites. The Rev. Arden Wild of Stanton officiated.

Norm Hansen of Norfolk sang "Wedding Song," "Wedding Prayer" and "The Lord's Prayer," accompanied by organist Mary Benson of Stanton.

For her wedding day the bride chose an ivory Quiana dress in floor length. Scalloped lace edged the neckline and covered buttons trimmed the re-embroidered Chantilly lace sleeves. A shirred front panel formed the empire waistline. Her fingertip veil, trimmed with matching scalloped lace, was attached to a headpiece of lace and silk flowers. She carried a bouquet of rust silk French lilies and peach

mums. The bride's honor attendant was Esther Hollman of Fremont, who wore a floor-length Quiana gown in brick and rust. Her gown was designed with a gathered scoop neckline. A blouson overlay gave a capel effect.

Robert Wolf of Stanton served as best man. The men wore light brown business suits.

Flower girl was Kim Hollman of Fremont and ring bearer was Robbie Wolf of Stanton. Candles were lighted by Keith Hollman of Cedar Falls, Iowa and Craig Andersen of Pilger.

Guests, registered by Kim Koenig of Norfolk, were ushered into the church by Ken Koenig of Norfolk. Perry Backstrom of Wayne and Merlin Andersen of Pilger.

For her daughter's wedding Mrs. Backstrom wore a wine suede suit. Mrs. Wolf selected a blue and rust knit.

Guests attended a reception in the church social hall following the wedding ceremony. Gifts were arranged by Brandon Andersen of Pilger, Kevin Koenig of Norfolk and Tony Vollbrecht of Stanton.

Julia Hollman and Peggy Hollman, both of Ames, Iowa, cut and served the cake. Donna Vollbrecht of Stanton poured and Kris Hollman of Fremont served punch.

The newlyweds are residing at 700 Hickory St. in Stanton.

The bride, a graduate of Wayne-Carroll High School, is employed at the Northwestern Bell Telephone Co. in Norfolk. The bridegroom was graduated from Stanton High School and is employed at Luedcke Oil Co. in Stanton.

## Eagles Split Friday Doubleheader with Bancroft

RICK GOTCH score an easy basket for the Allen Eagles as a Bancroft player watches helplessly. The Eagles led at the half but Bancroft rallied for a 71-58 win.

### Boys Lose Physical Ball Game to Bulldogs

Using their size and strength to their advantage, the Bancroft Bulldogs rallied in the second half to take a 71-58 win over Allen, Friday night.

The host Eagles got off to a slow start early in the game but quickly warmed up to stay within three points at the end of the first quarter. Both teams used a zone defense and full court press most of the night.

Allen pulled within one point early in the second quarter and a jumpshot by Robb Linafelter gave the hosts their first lead at 20-19 with 6:22 remaining in the first half.

The Eagles forced several turnovers and increased its lead to three points on a field goal by Terry Brewer. Frank Lanser grabbed a rebound and made a layup to give his team a 26-21 advantage. Later, Brewer scored on a driving layup for a 30-23 lead.

At one time, Allen's lead was stretched to nine points. A field goal by Rick Gotch brought the score to 32-23. Bancroft pulled back within five points 34-29 as the first half came to a close.

"Frank (Lanser) got in foul trouble and we had to take him out of the game," Allen coach Dan Loofe said. "With Frank out, Bancroft gained the momentum. They had a heck of a shooting percentage."

Bancroft's biggest advantage was the play of 6-5 junior Dan Larsen. He scored 27 points and dominated the boards. Allen committed 25 turnovers compared to 15 for Bancroft.

The Eagles again displayed a balance of

defensive attack with five players scoring in double figures. Brewer scored 16, Pat Onderstal scored 12 and Lanser, Gotch and Linafelter followed with 10 points each.

In addition to Larsen's 27 points, Bancroft was paced by Scott Wegner with 20 points and Jeff Knuppel with 13.

The Bulldogs outscored Allen 20-8 in the third period to reverse the first half trend. Bancroft scored the first three baskets of the second half for a 35-34 lead and took the lead for good at 39-38 minutes later.

Despite trailing by seven points after three periods, the Eagles refused to die and made one last bid for the victory. After falling behind by 14 points, Onderstal hit a 20-foot jumper to pull the hosts within 10 at 60-50 with less than four minutes remaining.

That was as close as the Eagles could get as they were forced to foul and Bancroft held on for the win.

Allen is scheduled to play at Homer Friday and will then be out of action until January.

### Allen Girls Whitewash their Counterparts

Ten players scored as the Allen Eagles dominated Bancroft 56-17, Friday night in Allen. The girls game was followed by a boys game between the same two teams.

Lisa Erwin burned the nets with nine field goals for a total of 18 points. Des Williams scored 12 points and Shelly Williams hit 10.

"Our defense put good pressure on everyone and we got a few turnovers. I turned the girls loose tonight and they were pretty aggressive," Allen coach Gary Troth said after the game. "In the second half, we moved Lisa (Erwin) outside to get more shots and it worked out well. We found the holes and moved the ball to the holes."

The Eagles led 7-2 after the first quarter and 17-7 in a low scoring first half. Then, the host blew the game wide open by scoring more points in the third quarter than they did in the whole first half.

Allen scored the first 21 points of the period and Bancroft added a basket at the buzzer giving the Eagles a lead of 38-9.

Allen's tight man-to-man defense forced numerous Bancroft turnovers. Erwin's outside shooting and several fastbreak baskets by the Williams sisters put the game well out of reach. Erwin and Des Williams

scored eight points each in the third stanza. An 18-8 advantage in the final quarter made the final score 56-17. Allen held a rebounding advantage of 36-16 in the game.

Although Troth was pleased with his team's performance, he turned his thoughts to the immediate future. The Eagles are scheduled to play two tough road games in the next week.

On Friday, Allen will travel to Homer and next Monday, the Eagles will play Ponca on the road. Ponca won a one-point thriller over Homer when the two teams met last week. Troth said that those two games will tell a lot.

### Four Hit Double Figures

## Blue Devils Gun Down Cardinals

Hansen scores 28

Senior Mike Sladek proved Friday night that his offensive showing last week was no fluke. He repeated his performance by scoring 22 points to lead the Wayne Blue Devils to their second easy win of the season, a 72-57 triumph over Class A South Sioux City.

Three other Blue Devils scored in double figures. Jere Morris hit 14 points, Perry Nelson scored 12 and Tod Heier made 11. Kevin Nissen was right behind with 9 points. Troy McCreedy of South Sioux was the game's leading scorer with 27 points.

Wayne coach Bill Sharpe was happy with the win and credited his top five players. "We played really well when our top five players were in the game. It was a really physical game," Sharpe said.

"Mike (Sladek) had a good night offensively but wasn't as good defensively this week. But then, you sure can't complain when he scores 22 points," said Sharpe. "Jere (Morris) had a really good game."

The Blue Devils jumped out to an early lead and built in into a big advantage. At one time, Wayne led by as much as 28 points.

At that point, the second teamers entered the game and South Sioux gradually cut the advantage to 11 or 12 points. The starters re-entered to make sure that the Cardinals didn't get any closer and pulled away to a 15-point victory. The Devils led by 20 to 25 points during most of the game.

Wayne held leads of 18-7 after the first quarter, 35-20 at the half and 55-34 after three periods. According to Wayne's statistics, the locals committed only 11 turnovers while South Sioux committed 14.

Rebounding proved to be the big difference in the game. Wayne outrebounded the Cardinals 43-26. "We had an advantage of seven rebounds on offense and 10 on defense. We beat them pretty badly in that area," said Sharpe. "We shot more and dominated the boards."

Sladek and Nelson each grabbed eight rebounds, Morris and Heier pulled down six each, Nissen nabbed five and Skokan had four. The Blue Devils hit 29 of 62 shots for 46.8 percent and the Cardinals made 23 of 54 shots for 42.6 percent.

The junior varsity game was close throughout with Wayne finally gaining a 46-44 win to even its record at 1-1. Wayne scoring Shaun Niemann, 9; Tim Heier 8; Mark Bolenkamp, 8; Al Lindsay, 6.

Wayne was scheduled to open its home season Saturday against Columbus Lakeview. The Blue Devils will travel to Laurel tomorrow (Tuesday) and play at Wisner Pilger Friday.

## Briar Cliff Drops Wayne State

The Wayne State Wildcats gave Rolando Frazer and the Briar Cliff College basketball team all they could handle during the first half of the rivalry, Wednesday night in Sioux City.

The Wildcats led 35-34 with two minutes to go in the first half before Briar Cliff rallied to take a half-time lead of 40-35.

Frazer, a 6-7 senior from Panama who is heavily recruited by the National Basketball Association, finished the first half with only four points. He won the NAIA national scoring title last season.

When asked what his team was doing to curtail Frazer's scoring, Wayne State coach Rick Weaver replied, "I don't know but I just told them to keep doing the same thing."

Unfortunately for the Cats, Frazer warmed up his shooting touch in the second half and finished with 32 points to set a new Iowa

college basketball career scoring record. Jim Woodstra of Northwestern College held the old record of 2,386 during his career from 1970-74.

Briar Cliff upped its lead to 69-46 with just more than 10 minutes remaining in the game. The Wildcats scored 12 straight points to close the gap but was never able to pull any closer than nine points.

Grady Hansen nearly matched Frazer's point total, pumping in 28 points. Leon McRae scored 15 points and Jim Reinders was right behind with 13.

Briar Cliff won the junior varsity game 77-71.

### Cats Get Big Win

The Wildcats traveled to South Dakota Friday night to meet defending North Central Conference champions South Dakota State.

No details of the game were available at press time. The Wayne State women also defeated Morningside 67-66 in the first round of the Nebraska Wesleyan Tournament, Friday. No information was available on that game either.

## Wakefield Rallies

## To Defeat Osmond

The Wakefield Trojans rallied from an eight point deficit to defeat Osmond 48-43, Friday night in Wakefield.

Mark Starzl led the winners with 12 points and Jeff Hallstrom scored 10. Rod Nixon scored eight and Vaughn Nixon and Mike Clay added seven points each.

"The second half was as much different from the first half as day and night," Wakefield coach Ernie Kovar said. "Our offense picked up, our defense picked up. We didn't make any drastic changes but we shot better."

The Trojans shot 35.8 percent from the field compared to 44.5 percent for Osmond. Osmond was led by Mike Moritz with 17 points and Mike Kumm with 10. The rebounding department was even with both teams pulling down 27 rebounds. Vaughn Nixon was Wakefield's leader with 15. Wakefield outrebounded the opposition by nine in the second half.

Osmond held leads of 14-12 after the first

quarter and 31-23 at the half. Then, Wakefield shutdown the Osmond offense and picked up its offensive pace slightly. The Trojans trailed 37-35 after three periods but outscored the visitors 13-6 in the final stanza.

Wakefield won the junior varsity game 39-33. The Trojans were scheduled to play at Laurel Saturday and will travel to Hartington on Friday.

## Cedar Tops Laurel

Defending Class B champion Hartington Cedar Catholic may have lost four starters off of last year's team but the Trojans have again proven themselves as state contenders.

Cedar defeated the Laurel Bears 75-56 Friday night in Hartington.

The Bears played well in the first quarter and stayed with Cedar, trailing only 18-14 at the end of the period.

However, Cedar Catholic pulled away in the second quarter. Laurel was within four or five points early in the period but Hartington had two quick flurries of six points each to break the game open.

"We started out pretty well but two flurries in the second quarter opened the game up. The second quarter pretty well took us out of it," Laurel coach Joel Parks said. "They were a lot bigger and got inside real well. They're a pretty good team and will be real good before the season is over."

Cedar used its height advantage to outrebound Laurel 44-21. The Trojans shot 45.9 percent from the field compared to 37.5 percent for the Bears. Laurel hit only 4 of 15 shots in the third period as things went sour according to Parks. Cedar hit 11 of 18 shots in the second quarter.

The Bears were led by Scott Morrell with 14 points. Joe Olson with a dozen and Matt Johnson with nine points, all at the free

throw line. Leading scorers for Hartington CC were Tom Fellmeier with 20 points, Ken Neuhafen with 18 and Chuck Stevens with 12.

The junior varsity game was a thriller with Cedar prevailing 50-49. Laurel scorers: Brian Marquardt, 12; Dave Marquardt, 10; Tim Bloom, 10; Phil Martin, 6; Kelly Robinson, 6; Jerry Kastrop, 3.

The Bears were scheduled to host Wakefield Saturday, will host Wayne tomorrow (Tuesday), travel to Emerson Friday and host Coleridge on Saturday.

## Less Physical Cats Lose to Coleridge

Missed free throws hampered the Winside basketball team as Coleridge took a 62-50 victory over the Wildcats Friday night in Winside.

The Cats missed the front end of five one-and-one situations and hit only 12 of 23 free throws for the evening.

"They outrebounded us inside. We aren't physical enough and we missed too many free throws," Winside coach Dennis Gorman said.

Winside led 12-11 after the first quarter but Coleridge outscored the locals 17-8 in the second period for a 28-20 half-time lead. The Wildcats came back within five points in the second half but Coleridge added some quick baskets late in the game to clinch the win.

Brad Roberts scored 18 points for the Wildcats and Jim Krajicek hit 11. Byron Schellenberg and Bill George followed with eight points apiece.

Coleridge was led by John Hoffart with 17 points. Byron Kalin with 14 and Mike Hoffart with 12. The visitors outrebounded Win-

side 56 to 54. Leading rebounders for Winside were Krajicek, Schellenberg and Jon Melzerhenry with eight rebounds each.

Winside committed 16 turnovers giving Coleridge 14 points while Coleridge committed 17 turnovers to give the Wildcats 9 points. Coleridge also won the junior varsity game 21-16.

## Laurel Girls Edge Wausa 36-33

A strong defensive showing in the second half enabled the Laurel Bears to trim Wausa 36-33 Thursday night for their second win in three outings.

Laurel trailed 14-8 after the first quarter and 28-19 at the half but outscored the hosts 17-5 in the second half.

Annie Schultze and Kay Anderson scored 12 points each to lead the winners. Kim Sherry and Dee Maxon each added four points.

"It was a total team effort," said Laurel coach Dwight Iverson. "We switched defenses and held Wausa to five points in the second half. This team is much improved from last year and is going to win some games."

Iverson credited his bench for a good performance. Dee Maxon, Renee Gadeken and Jayne Reynolds were the three individuals he commended.

Leading rebounders were Anderson with 12, Cyndi Jones with 9 and Sherry with 8. The Bears shot about 27 percent from the field. Leading scorers for Wausa were Vicky Wamberg and Tracy True with eight points each.

Laurel will play at Coleridge Monday, host Wayne on Thursday and compete in the Wayne State Holiday Tournament, Dec. 29 and 30.

In junior varsity action, Laurel defeated Wausa 28-25. Patsy Thompson was the

## Wayne Offense Troubled

## Norfolk Presses for Easy Win

A good, aggressive defense took its toll on the Wayne girls basketball team, Thursday in the Wayne High School gym. Norfolk rolled to an 84-44 win in Wayne's home opener.

Class 'A' Norfolk used a man-to-man full court pressure defense during most of the game and forced numerous turnovers.

The Panthers scored the first seven points of the game before Jill Ziess put Wayne on the scoreboard with a 12 foot jumper.

Norfolk added a potent offense to its pressure defense, scoring from both outside shooting and layups. The press really bothered the Blue Devils early in the game and Norfolk built a lead of 17-2.

Lynn Surber and Tamie Murray hit back-to-back field goals late in the first quarter to bring the score to 17-6. Wayne trailed 38-13 at the half.

The Blue Devils improved in the second half but were too far behind to have a chance. Jenni DeTurk gunned a couple of outside shots and Ziess and Surber added some baskets but Norfolk's lead moved to 61-28 at the end of the third period.

Ziess finished the game with 15 points, followed by DeTurk with 9, Surber with 8 and Murray with 4. Norfolk was led by Marsha Nelson with 15 points, Ginger Hornik with 14 and Shari Schwede and Denise Louthan with 13 points each.

Norfolk won the junior varsity game 49-17. Wayne scorers: Janine Baier 8, Pam Nissen 4, Fran Gross 3, Jill Mosley 2.

The Blue Devils will host Columbus Lakeview tonight (Monday), travel to Laurel Thursday and compete in the Wayne State Holiday Tourney, Dec. 29 and 30.

## Winside Trimmed on Mat by Pender

Winside's wrestling team opened its dual season, falling to Pender 30-22 in a close match on the Pender mat, Thursday night. Only six of the scheduled matches took place due to forfeits at five weights and a double forfeit in the heavyweight class.

Winside won five of the six matches. Mark Koch was a winner at 119 pounds, Brian Foote won his match at 126 pounds, Doug Jaeger won at 132, Brian Bowers won at 138 and Barry Bowers won his match at 167 pounds. Pender's only win came in the 105 pound class.

Sok termed Pender a "pretty respectable team". He added, "I am pleased with the way we wrestled. We should be improved toward the end of the season."

Koch and Foote won individual championships in the Randolph Invitational last Saturday. Jaeger placed third at 132 pounds and Rohde finished fourth at 105 pounds. Koch and Foote are undefeated and Jaeger has posted a 4-1 record.

## Osmond Girls Beat Trojans

Turnovers were costly as the Wakefield Trojans lost their second game of the year 59-35 to Osmond, Tuesday night.

Wakefield coach Dennis Wilbur said that his team had "a mental and physical let down from the night before". The Trojans lost to a strong Homer team on Monday.

The locals held an advantage of 51-41 in rebounding but shot only 21 percent from the field compared to 48 percent for Osmond. "We committed far too many turnovers," Wilbur added.

The Trojans had no girls score in double figures but eight girls scored in the game. Kris Mitchell hit seven points, Teri Schwarten and Coleen Neuhaus scored six each, Connie Tullberg made five points and Dilyne Byers added four. Three other girls had two points apiece.

Neuhaus pulled down 11 rebounds, Joan Miller had 10, Mitchell had 9 and Rita Wilson grabbed 7. Osmond also won the junior varsity game.

23-21. Kelly Greve was Wakefield's leading scorer with nine points. Next action for the Trojans is scheduled at Winside Tuesday and on the home court against Hartington Thursday.

### FOUR ATTEND MEDICAL FAIR

Four local persons were among representatives from 31 communities who discussed professional options with young physicians during a Practice Opportunities Fair in Omaha last month.

Drs. Bob Benthack and Jim Lindau, Providence Medical Center Administrator Marcie Thomas and Pat Gross, medical affairs representative for the Chamber of Commerce, manned a booth at the Ramada Inn Central to distribute information about the community to about 30 University of Nebraska Medical Center and Creighton University house officers and their spouses.

A house officer is a physician in specialty training. "The fair provided an excellent opportunity for the communities to make personal contacts with the physicians," said Joseph Giacalone, Medical Center coordinator. "It exemplifies the commitment of both universities to help communities meet their medical manpower needs, while making house officers aware of practice options."

Sponsorship was by the Creighton and Medical Center House Officers' Associations with funding by a Kellogg Foundation grant, the Nebraska Medical Association and the Nebraska Academy of Family Physicians.

### \$50 PER ACRE FOR WILDLIFE HABITAT!

Lower Elkhorn NRD has adopted two new practices in the private lands Wildlife Habitat Program, which pays landowners \$50 per acre annually:

Practice IVb — Stripcropping With Oats and Sweetclover

1. Two year contract between landowner and Natural Resources District.

2. Each cooperator can enroll a minimum of three acres and a maximum of 40 acres in strips 100-250 feet wide planted on the contour. The contract area should be 20%-50% of the field with the remainder being row crops.

3. Yellow sweet clover is to be planted at a rate of 8 lbs. per acre as a companion crop with oats. Following the harvest of the oats crop, the clover is to remain undisturbed through the second February following seeding.

4. Only the oats heads may be harvested with the stubble to be left standing.

5. Payment is \$50 per acre annually.

Practice IVc — Stripcropping With Permanent Cover

1. Three-five year contract between landowner and Natural Resources District, (landowners option).

2. Each cooperator can enroll a minimum of three acres and a maximum of 40 acres in strips 100-250 feet wide, planted on the contour. The contract area should be 20%-50% of the field, with the remainder being row crops.

3. Priority will be given to mixtures of sweetclover, red clover, alfalfa, native prairie grasses or cool season grass. Cool season grass mixtures must contain at least 25% legumes. Seeding rates will be established according to SCS standards.

4. Payment is \$50 per acre annually.

Lower Elkhorn NRD offers the \$50 payment, which is almost double the payment for other practices, because of the many benefits.

1) The cover is used by wildlife for nesting and winter cover.

2) The strips create "edge effect," which is more attractive to wildlife than large blocks of land in one cover type.

3) The strips of crop land provide better access to feed.

4) The landowner must farm the ground on the contour which reduces soil erosion.

5) The cover strips further reduce erosion, both wind and water.

For more information, or to apply for these or other practices of the Habitat Program, contact your local SCS (Soil Conservation Service) office or Lower Elkhorn NRD office in Norfolk.

40 ac.	IVc	\$6000-10,000	3-5 years
IVb	2 years	100% cost share on seed	
\$4000 + oats		\$1000 ground prep.	

A variety of habitat types on private lands are open to public access under the Wildlife Habitat Program.

### WINDBREAK TREES SELLING FAST

Over half of the original 3,820,000 Clarke-McNary trees for 1981 have been sold after only one month. The program offers landowners a choice of 7 conifers, 7 hardwoods and 9 shrubs at a cost of only \$19.50 per hundred delivered. The seedlings may be used for windbreaks, wildlife or general forestry purposes.

The Clarke-McNary Program is now sold out of Colorado Blue Spruce and Russian Olive. Others

## Hearing Impaired Census Planned Across State

The Nebraska Commission for the Hearing Impaired is conducting a voluntary census of all the hearing impaired/deaf people in Nebraska.

This census will include all people in Nebraska that have a hearing impairment. A hearing impairment can range from a mild loss in one ear to those who are profoundly deaf in both ears. It is important that the hearing

impaired/deaf people of all ages volunteer to be counted in this census. All names and addresses will be kept confidential by the Nebraska Commission for the Hearing Impaired.

By knowing who and where all the hearing impaired/deaf people live in Nebraska, it will be possible to:

Determine what the hearing

impaired/deaf needs are; send information on new laws and rights; determine how many TTY's there are in Nebraska and who would like to learn more about TTY's; learn how many hearing impaired/deaf people are interested in Adult Education and what types of classes they want; locate interpreters and provide interpreter training; find out who has a T.V. decoder or

would like to learn more about it; learn what assistance or information NCH can provide; share information on activities and events.

If you are hearing impaired/deaf, please send name and address to Nebraska Commission for the Hearing Impaired (NCHI), 4600 Valley Road, Lincoln, Neb, 68510.

1000 Hogs x 10 bu. corn per Hog = 10,000 bu. corn

10,000 bu. x 1.52 lbs. more pork per bu. = 15,200 lbs. more pork from same corn.
