MARK NEUMAN of the Neuman Organ Company of Seward hits a console key on the pipe organ which was recently rebuilt for the First United Methodist Church of Wayne. The Neuman family of Greg, Don and Mark worked with in-law Mark Herout to tune the organ this week. The organ was originally purchased and installed

in 1929. While Mark depressed the keys his father Don tuned the pipes in an upper chamber. More than 600 new pipes were installed and nearly 500 were rebuilt. The project has been in the works for more than a year because the rolled zinc used in the pipes was ordered from Europe.

Pipe organ music returns to Methodist Church

For the first time in approximately a year, members of the First United Methodist Church of Wayne can now hear the sounds of a pipe organ during Sunday services.

And thanks to a rebuilding project, the 53 year-old organ has what church organist and director of music Corbie Webber describes as "a totally new, brilliant sound."

The organ was rebuilt by the Neuman Organ Company of Seward and recently installed at the Methodist Church. Tuning was completed Thursday.

The organ was originally taken apart, trucked to Seward and rebuilt. The Neuman Company, a family business, builds and rebuilds pipe organs. According to Don Neuman, pipe organs will last a minimum of

75 years and can be rebuilt to last another 75 years.

The Methodist Church organ was purchased in 1929 and installed that spring. When it was rebuilt, the size was increased from 12 to 16 ranks—or rows—of pipes. Of the 1,075 pipes, more than 600 are new while others were revamped.

THE CONSOLE, which houses the keyboards, pedalboard, stops and electrical controls, was totally redone in the Seward shop.

There are two main sections of the organ, each controlled by one of two keyboards. The "great" section, composed of 549 new pipes, is exposed and displayed on the sides of the center cross section in the sanctuary. The "swell" and "pedal" sections of the

organ are unexposed and housed in a chamber above the chancel choir area. Nearly all of those pipes have been rebuilt.

The long wait for the completion of the renovation program was caused mainly because new pipes—all handmade—had to be ordered. It takes 12 to 15 months for pipe orders to be filled by the pipe maker in Ohio. The rolled zinc which is used to make pipes must be ordered from Canada or Europe because an environmental protection law prohibits rolling of zinc in the United States.

"The sound is totally new and brilliant. The organ is great size-wise, and volume-wise," Webber said. "It produces a fantastic sound and is very versatile. The acoustics of each building are different and we have about the right number of ranks for this church."

Revenues down; projects eliminated from fy-83 budget

Actual figures were recently made available for the fiscal year 1982-83 estimated Wayne city budget. As previously reported the budget will total \$5,058,316 for the coming year which is about 13 percent lower than the current year's budget.

The general fund, with an estimated allocation set at \$976,922, includes the following areas: administration (mayor, council, city administrator, city clerk, etc.); public works (streets, parks, recreation, pool); public safety (fire and police departments); transfer station; senior citizens and library.

City administrative costs will total about \$136,281 for the coming year, an increase of \$41,798 over the current year. An estimated allocation of \$401,605 has been set for public works. This includes \$186,439 for streets, \$28,926 for parks, \$40,331 for recreation and \$22,625 for the swimming pool.

THE PUBLIC SAFETY estimated budget totals \$268,242 which includes \$35,600 for the fire department and \$232,642 for the police department. Included in the fire department budget is \$20,000 which has been allocated toward civil defense sirens with remaining funding for the units coming from revenue sharing.

The police department figure includes \$189,583 for salaries, wages and benefits.

The senior citizens budget estimate for the 1982-83 fiscal year has been set at \$46,734. The library's budget estimate is \$31,975. In the library fund, the city is projecting a building improvements project for the coming fiscal year.

Estimated revenues for the general fund have been projected to include \$270,360 from taxes, \$266,160 in state intergovernmental revenues, \$136,600 in local intergovernmental revenues and \$71,500 from services and fees.

SEPARATE FROM the general fund in the budget is the electrical fund. It has been estimated for the next fiscal year at \$216,774. Estimated expenditures include \$212,882 for administrative operation and maintenance; \$1,491,222 in production and \$418,210 in distribution.

Expected revenues for the electric fund include \$1,797,685 from services and fees. An additional \$89,000 from miscellaneous sources and a beginning cash balance of \$330,014 make up the remainder of expected revenues for the electric fund.

The total estimated budget for the water and sewer fund for Wayne next fiscal year is \$364,215.

The water and sewer budget includes estimated expenditures of \$79,683 for administration, \$162,057 for water production and distribution, and \$67,271 for sewer collection and treatment.

REVENUES HAVE BEEN estimated for the water and sewer fund to be \$196,100 from services and fees, \$32,000 from miscellaneous sources and a beginning cash balance of \$136,215.

The revenue sharing fund, which is expected to decrease about \$21,428 next year from the current year's amount, has been set at \$69,184 according to the estimated budget.

A public hearing will be held on June 29 at the regular council session to approve projects that could receive funding from revenue sharing. The city has projected \$5,000 to be spent from the fund for civil defense sirens.

Also suggested have been allocations of \$10,000 for a concrete parking lot at the ballpark, \$16,800 for a new 2 1/2 ton truck and \$5,300 for additional fire department equipment. Equipment suggested for purchase includes a portable radio unit and four air-packs.

THE 13 PERCENT reduction in the fiscal year 1982-83 budget over the current 1981-82 budget comes mainly from \$572,000 in bond redemption and a cut of \$185,000 for several projects which the city feels they cannot fund this next fiscal year.

According to city clerk-treasurer Norman Melton, the city currently has an overall debt of \$1,145,000. By the end of the current fiscal year, due to a bond redemption, Wayne will have a \$1,065,000 indebtedness.

According to Melton that is a fairly low figure for a city the class size of Wayne.

Savings in the budget also come from a reduction in wage increase. City officials had recommended to the council that employee wages increase 6 percent for the coming fiscal year.

THE COUNCIL, after reviewing the recommendation, slashed the increase back to about 4.31 percent. Also cut was the 3 percent merit increase for employees. In the past, a 1.5 percent merit increase has been given twice a year to employees.

The council did increase the benefit package for employees by adding long term disability insurance. Cost to the city is expected to run about one percent of an employee's wages for the benefit extension.

Separate from the 4.31 percent employee wage increase were several salaried city employees. These were negotiated separately with the council. As reported earlier, the council voted a 7.1 percent salary increase for city administrator Philip Kloster. This is about two percent higher than was initially recommended to the council.

General highlights of the budget also include:

- An increase in the cash reserve to handle emergency situations in funding that may arise during the year. The cash reserve will increase about 97 percent over the current year's budget with \$45,000 being added to the reserve;
- A carry-forward balance from the current year of \$75,000 to cover higher operating expenses until higher revenues are received in the fall;
- A \$13,000 capital outlay category in the police department budget which had previously been funded through revenue sharing funds;
- The transfer of book and periodical expenses, funded previously from revenue sharing funds, back to general fund expenses;
- Additional expenditures for energy conservation projects;
- A public hearing for the 1982-83 fiscal year budget has been scheduled for July 13. The public is welcome to come in and review the estimated budget and expenditures for the next fiscal year at that time.

McDonald's doors closed

The J.M. McDonald's Co. store in Wayne closed officially at 5 p.m. Friday, June 11. Word of the closing was announced by Bob Portwood from the company's office in Hastings, Ne.

Portwood, who called The Wayne Herald's office about 5:15 p.m. on June 11 said, "Right now the district manager is meeting with the store manager Dale Boyle and his employees, discussing the closing and working out final salary, wages and benefits."

"Sometime next week the store will open to sell its fixtures which include the counters, racks and shelving. They will also settle up any gift certificates and lay aways," Portwood said. He added that he expects that after the inventory has been checked it will probably be delivered to the Norfolk store.

"AS FAR AS I know, there were a couple parties who were looking at the Wayne store. I think it has an excellent location but, for one reason or another, the store was not sold," Portwood said.

Sources close the J.M. McDonald's Norfolk store have indicated that store has been sold to a Minnesota concern, however, confirmation of the sale has not been released from the company's headquarters nor from the Wickes, Inc., corporate headquarters.

Wickes Co. of San Diego, Calif., has been ordered to sell the Wayne store by the federal bankruptcy court, according to Portwood. The closing will affect three employees in addition to Boyle. "The company will make every effort to find alternate employment for the Wayne employees, if possible in the Wayne area," he said.

The Wickes firm has filed for relief under Chapter 11 of the federal bankruptcy code. The filing generally allows companies to reorganize their holdings while under the federal bankruptcy court's jurisdiction. Often the court will order the sale of several holdings.

IN THE WICKES case, the firm has had to close several stores. Stores targeted for closing in Nebraska: Beatrice, Lexington, McCook, Kearney, North Platte, Ainsworth and Sidney, if they cannot be sold.

Good computer sales expected

The Computer Farm, located at 110 Main in Wayne, began its specialized services on June 1.

The establishment's owner and district sales manager, Lyle George of Wayne, is formerly of Dixon and employed by Migro, a seed company.

He did a total renovation of the building, formerly occupied by Marie's Art Studio, to house his computer systems.

George employs two secretaries, two in-store sales people, and two outside sales managers with his dealership. All are experienced in the field of computers.

"WE SERVE AREAS of Kansas, Iowa, and South Dakota," George said, "but picked the community of Wayne as our central area."

"We are interested in helping smaller businesses and farming operations to run more efficiently," he said.

"Each customer has his individual needs analyzed and a system is set-up for him personally."

"We give complete factory trained service," George emphasized, "and also provide customer training with every sale."

GEORGE IS ALSO planning to have monthly training classes, beginning in July, for owners of his systems.

"We explain the computer to people in normal terms," he said, "we take a few people at a time, and do things right."

According to George, people will see an 80 percent increase in farm productivity and business efficiency over the next 3 years, due to the advancement of computer technology.

"Farmers will improve their operations," he said, "and businesses can increase their inventories."

"WE THINK BIG and we think small," he said, "all depending on the customer's needs." George carries computers in the price range of under \$200 to \$20,000. The

Computer Farm's main lines are Apple, Commodore, NEC and Atari systems, but they provide more than 50 various brands to buyers.

"A good computer dealer," George emphasized, "asks you a lot of questions about

your needs, rather than throwing a bunch of facts at you. This is the only way of finding the most suitable system."

The Computer Farm is open weekdays 7:30 a.m. to 6 p.m. and on Saturdays 8 a.m. to 6 p.m. People are welcome to come and look or receive a demonstration.

summer jobs possible

The students will participate in church visitation, Bible clubs, and camp ministries. They also will do survey work to prepare the way for the further establishment of fundamental churches.

This is the second summer that Myers has traveled with the team.

THE DIRECTED Missionary Training program at BJU offers three academic credits and is designed to equip missionary students with some practical experience on a mission field.

According to university officials, this short-term field experience is one of the best ways to prepare students for a permanent foreign ministry.

The college missionaries will return to their homes in August for a short vacation.

viewpoint

Just a shadow...

This morning, as I passed into the Land Office, The Flag dropped me a most cordial salutation, and from its rippling folds I heard it say: "Good morning, Mr. Flag Maker."

"I beg your pardon, Old Glory," I said, "aren't you mistaken? I am not the President of the United States, nor a member of Congress, nor even a general in the army. I am only a government clerk."

"I greet you again, Mrs. Flag Maker," replied the gay voice, "I know you well. You are the man who worked in the swelter of yesterday straightening out the tangle of that farmer's homestead in Idaho, or perhaps you found the mistake in that Indian contract in Oklahoma, or helped to clear that patent for a hopeful inventor in New York, or pushed the opening of that new ditch in Colorado, or made that mine in Illinois more safe, or brought relief to the old soldier in Wyoming. No matter: whatever one of these beneficent individuals you may happen to be, I give you greeting, Mr. Flag Maker."

I was about to pass on, when The Flag stopped me with these words: "Yesterday the President spoke a word that made happier the future of ten million peons in Mexico; but that act looms no larger on the Flag than the struggle which the boy in Gerogla is making to win the corn club prize this summer."

"Yesterday the Congress spoke a word which will open the door of Alaska; but a mother in Michigan worked from sunrise until far into the night, to give her boy an education. She, too, is making the Flag."

"Yesterday we made a new law to prevent financial panics, and yesterday, maybe a school teacher in Ohio taught his first letters to a boy who will one day write a song that will give cheer to the millions of our race. We are all making the Flag."

"But," I said impatiently, "these people were only working!" Then came a great shout from The Flag.

"The work that we do is the making of the Flag."

"I am not the Flag; not at all. I am but its shadow."

"I am whatever you make me, nothing more."

"I am your belief in yourself, your dream of what a people may become."

"I live a changing life, a life of moods and passions, of heartbreaks and tired muscles."

"Sometimes I droop, for then purpose has gone from me, and cynically I play the coward."

"Sometimes I am loud, garish, and full of ego that blasts judgment."

"But always, I am all that you hope to be, and have the courage to try for."

"I am song and fear, struggle and panic, and ennobling hope."

"I am the day's work of the weakest man and the largest dream of the most daring."

"I am the Constitution and the courts, statutes and statue-makers, soldier and draughtsman, drayman and sweep, cook, counselor and clerk."

"I am the battle of yesterday and the mistake of tomorrow."

"I am the mystery of the men who do without knowing why."

"I am the clutch of an idea and the reasoned purpose of resolution."

"I am no more than what you believe me to be and I am all that you believe I can be."

"I am what you make me; nothing more."

"I swing before your eyes as a bright gleam of color, a symbol of yourself, the pictured suggestion of that big thing which makes this Nation. My stars and my stripes are your dreams and your labors. They are bright with cheer, brilliant with courage, firm with faith, because you have made them so out of your hearts; for you are the makers of the Flag, and it is well that you glory in the making."

Along with the dawning of Pac-man and, before it Space Invaders, there have been numerous articles written on the explosion in computer games...how much they gross across the nation and how much damage they are doing to youngsters.

I think I was in college when I saw my first good video game. By good I mean something with half decent controls. Sure there were the home paddle ball games or "bang-bang-shoot-shoot" cowboy games on the market but they lacked the good programming of these bar units.

I played a few back then but mainly I was into no digital, quarter per three games, \$1 pitcher pinball action.

I'd spend an hour (or so) playing the good

old games with those busy, lightly clad dolls painted on the glass, tempting you to try and win a game. More often than not, the machine would screw up and cheat you out of a couple plays but if you kicked them just right, they'd start back up and throw in a free game.

Maybe that's the problem with the new completely electronic machines. People don't kick them enough...they respect them too much.

I lived with a guy when I was in college who always wore cowboy boots when he played pinball. He claimed there just wasn't enough power behind the kick with tennis shoes on. That's where I learned the true

cult of pinball and about respect for the coin eaters.

Today though, if you kick one of those shiny all electronic jobs, you'd probably have an army of people around you and out the door you'd go.

What good would it do anyway? Oh sure, as with the old pinball games, you'd get out some frustration, but that would be it. It's no fun loosening a few circuit boards when there is no benefit back. They are just too sophisticated for us old time pinball aficionados.

Are the games really damaging our youth? Maybe a tad bit...no more than anything else though. It's sort of like a story

preview I saw the other day about children who will be growing up with the threat of nuclear bombs. Hell, children have already grown up under the threat of nuclear bombs, 1950's rock and roll, 1960's acid rock, short hair, mini-skirts, bralessness, etc., etc., ad infinitum. What's the big deal? Youth is always threatened (mostly by older's ideas and notions I think).

Space invaders...Pac-man...they're not a threat. Wars, hunger, intolerance, the moral majority, political action committees, short sighted fools and limburger cheese after three days in the sun. Now those are threats!—pif.

Increased farm income is a two-step process

America can add billions of dollars annually to its farmers' cash income if our nation will take a second step in encouraging other nations to buy food from us.

Through my positions as chairman of both the agriculture committee of the President's Export Council and of the agriculture committee of the national governor's association, I probably had as much influence as any individual in persuading President Reagan to take the first positive stride. I am lobbying hard to persuade him to take that second step.

The first step was the President's announcement that there will never be another grain embargo while he's in office. He's promised that throughout his term food sales to a nation will not be curtailed unless there's a broad ban on U.S. trade with that country.

THE SECOND NEEDED step is for the President to declare that the U.S. will no longer use trade as a foreign policy weapon. I'm working hard to convince him to make such a decision.

It's badly needed to overcome effects of

seven export restraints or embargoes that America has imposed in the past 11 years. They have destroyed much of the faith in our nation as a reliable supplier.

The last embargo on grain sales to Russia, begun in 1980 by the previous administration and ended in 1981 by President Reagan, cost America at least \$17 billion directly, according to a study by Schnitker Associates, a Washington based research group.

The losses were identified as \$11.5 billion in lost output, almost 310,000 jobs with \$3.1 billion in personal income, \$1.5 billion for federal commodity purchases and \$1 billion in federal interest and storage and handling charges.

ARGENTINA SOLD ONLY 10 percent of its grain exports to the Soviet Union in 1978-79 before the latest embargo imposed by the U.S. Now, Russia is the purchaser of 65 percent of Argentina's grain sales abroad. And U.S. farmers and others suffer for it.

Before the 1973 U.S. embargo on selling its soybeans abroad, America enjoyed 80 percent of world soybean meal sales and Brazil got only 18 percent. Now, Brazil profits from 39 percent and the U.S. gets only 35 percent.

Lawrence Krause, international economist at Washington's Brookings Institution, said, "The thought of any other country interfering with its exports is almost unimaginable."

My goal is to persuade President Reagan to pledge that the U.S. isn't going to think of it again.

EFFORTS TO REPEAL congressional deduction — I am a co-sponsor of legislation in the House to repeal the provision of the Black Lung Benefits Relief Act of 1981 which amounts to a standard deduction for business expenses each day the Congress is in session. I share my constituents' indignation over this issue and their objections to the tactics used last December to avoid a recorded vote on the measure. The Senate has voted to repeal the \$75 a day tax break and restore the flat \$3,000 tax deduction for members' living expenses, and last week I sent a letter to the Senate and House conferees urging them to include the Senate provision in the Conference agreement.

MEMORIAL WEEKEND in the district — I spent a busy four days over the Memorial Day weekend in the District as I traveled from Crofton to Verdon with many stops in between. I was fortunate enough to be able to participate in the Fairmage and Verdon centennial celebrations, and to speak at Memorial Day ceremonies in Seward and Lincoln. I also made stops at the senior citizens centers in Crofton and Hartington, had a village gathering in Waterbury and found two of Nebraska's beautiful state parks, Indian Caves and the new Platte River Park.

Q. My husband and I built a house which relies on solar energy. Now our neighbors have planted some trees for a windbreak. When the trees mature, they will shade our house and prevent the sun from reaching our solar panels. What can we do? The trees are entirely on their property.

Wakefield clips Laurel in Ralph Bishop contest

A three-run sixth inning put an end to Laurel's rally and led the Wakefield Junior Legion baseball team to a 7-3 clipping of Laurel Friday night at Wakefield.

For five innings, the two teams fought it out, head-to-head in a good, close ball game. The hosts took over in the sixth inning when they scored three runs to pad their lead.

If most valuable player awards had been selected, Wakefield's Rod Nixon would have been one of the leading vote getters and Laurel's Mike Jonas probably would have been the choice for his team.

Rod Nixon slugged a triple to drive in the tying run in the fourth inning and later added two singles. Jonas drove in all three Laurel runs with two base hits.

Jonas helped Laurel put the first run on the scoreboard in the second inning. Dennis Martinson singled and Tim Bloom was hit by a pitch. With two outs, Jonas drove home Martinson with a base hit.

BOTH TEAMS had scoring opportunities in the third but stranded runners. Laurel had bases loaded with only one out when a double play ended the inning. Dave Mar-

quardt was stranded at third base and Ron Hirschman at second.

Wakefield stranded Robb Linafelter at second base in the bottom of the third inning.

The fourth inning was one of the big ones for the home team. Wayne Guy was safe at first on a fielder's choice and was running when Nixon clubbed his triple to the center field fence.

Nixon scored on a throwing error of Kent Roberts' ground ball and Roberts moved to second base on the play. Mark Kubik's single drove Roberts home for a 3-1 lead.

To lead off the fifth, Starzl reached base because of an error, stole second base and moved to third on an overthrow by the catcher. Clay pounded a double to bring the pitcher home.

Trailing 1-4, Laurel put together a rally in the sixth inning. Dennis Martinson, Tim Bloom and Curt Christensen drew walks to load up the bases with no outs. Jonas doubled in Martinson and Bloom.

Mark Herrmann, pinch running for Christensen, was put out on a fielder's choice when a ground ball was hit to third base.

Seventh inning rally again hands Wayne Juniors a loss

For the second consecutive week, Wayne's Junior Legion baseball team was defeated in the final inning. Emerson edged Wayne 3-2 Friday night in Emerson.

The way the game started it appeared Wayne might take control. With one out, Jeff Allen slugged a solo home run and Jeff McCright followed with a single. McCright scored one out later on a fielding error.

Trailing 2-0, the hosts quickly cut Wayne's lead to one run with one batter getting hit by a pitch, another walking and another singling in the first runner.

Wayne was held scoreless in the second inning and Emerson tied things up in the bottom of the inning.

The game was scoreless for the next four innings. Wayne stranded two runners in the third, one in the fourth, two in the fifth and three in the sixth.

In the sixth, Todd Pfeiffer was on third base, Allen on second and Schwartz on first. A strikeout ended a good chance of a rally. Emerson stranded only one base runner from the third inning through the sixth.

Then, in the seventh, a walk and two stolen bases with no outs put Wayne on the verge of defeat. A pinch hit ground ball pushed the winning run across the plate.

Pfeiffer pitched all seven innings and gave up only three hits. Meanwhile, Wayne collected seven hits.

Leading batters for Wayne were Jeff Allen and Pfeiffer. In addition to a homer, Allen collected two singles and walked. Pfeiffer went 2 for 4. Wayne's other two hits were made by McCright and Tim Heier.

Next Ralph Bishop League action for Wayne is scheduled Friday at Wakefield. A strikeout and fly ball put an abrupt end to that inning with Laurel trailing 3-4.

Three runs in the seventh were a big help for the hosts. Keith Roberts and Jeff Coble walked to start off in style. With Jason Erb pinch running for Roberts, Starzl smacked a single to score one run and Coble scored on a two base error. Starzl ended up on third base on the play and came home on Rod Nixon's single.

Mark Starzl, who was unusually wild on the mound, retired the final two Laurel batters on strikes with bases loaded. Dave Marquardt suffered the loss.

The winners collected seven hits and committed no errors. Laurel had five hits and struggled with five errors.

Tonight (Monday) Laurel hosts Pender and Wakefield plays at Wisner Friday's games match Wayne at Wakefield while Laurel is idle.

Grand slam paces Midgets' win

A grand slam home run by Steve Overin with two outs in the second inning paved the way as Wayne's Midgets upped their Ralph Bishop League record to 7-0 with a 9-5 win over Emerson Friday.

The locals put a couple of runs on the scoreboard early as Randy Gamble and Overin scored in the first inning. Gamble walked, moved to second on a passed ball and scored on a double by Overin. Don Larson's single scored Overin.

Wayne's advantage was short lived as Emerson's Dean Fuscher, Bob Utemark and Dan Belf scored on a walk, a hit and a couple of errors.

With two outs in the second inning, Pete Warne singled, Gamble reached first on an error and Chris Wieseler's single loaded the bases. Overin jacked the ball out of the ball park for a grand slam home run.

Steve Larson scored one run in the bottom of the inning to cut Wayne's lead to 6-4.

Three runs in the fourth inning accounted for the remainder of Wayne's scoring. Todd Dorcsey walked and scored on a triple by Gamble. Wieseler was hit by a pitch and Kevin Maly earned two RBIs with a double.

The home team managed one final run by Bob Utemark in the fifth inning.

Overin pitched a six-hitter to earn the win for the visitors. Wayne had another opportunity to score in the sixth inning but stranded runners on second and third.

The Wayne pitcher had 5 RBIs and scored two runs. Gamble scored three runs, Wieseler scored two and five players had one base hit.

Defensively, Wayne struggled at times and committed seven errors. Next: Ralph

In an error-plagued game, Wakefield's Midgets put together three good innings to defeat Laurel 7-1 Friday in Ralph Bishop League action at Wakefield.

The hosts scored three in the first inning, two in the third and two more in the fourth. Laurel scored its only run in the sixth inning.

Wakefield jumped out in front early. In the first inning, Wayne Guy, Brad Lund and Mark Kubik all scored. Guy slugged a triple to start things off.

Guy again got a rally going in the third inning when he drew a walk and stole second base. Kubik also walked and Wade Nicholson attempted a sacrifice bunt. Guy scored and Kubik moved to third when an overthrow was made on the play. Kubik scored the second run of the inning.

THE HOME TEAM added a pair of insurance runs in the fourth as Jeff Coble and Troy Greve scored. Coble opened the inning with a single and stole second and third. The pitcher beat a throw home on a ground ball by Greve. Greve scored later on a sacrifice fly by Kubik.

Trailing 7-0, Laurel tried to rally in the top of the fifth but left bases loaded. Craig Hanson, Kyle Daberkow and Mike Granquist were stranded.

In the sixth and final inning, Brian Halsch broke up the shutout. Mark Herrmann and Halsch led off with back-to-back base hits and both advanced on a wild pitch. Brent Halsch walked to load the bases with no outs.

A line drive was snagged and a runner caught off base for a double play. Chad Blatchford singled with two outs to score Halsch from second base. A strikeout brought the game to a close.

Laurel actually out-hit Wakefield five to three but committed eight errors compared to five for Wakefield.

For Laurel, Brian Halsch had two hits and Herrmann, Blatchford and Kyle Daberkow added one each. The winners were led by Coble, Guy and Tullberg with one hit apiece.

Wakefield is scheduled to play at Wisner Monday and host Wayne on Friday. Laurel will host Pender Monday and be idle of Ralph Bishop League action on Friday.

More Valley Corner Systems every year,

because it's the least costly investment per acre.

It's going to be harder to make farming pay off in the years to come. Harder for many reasons. So if anything makes sense, it's to maximize the potential of the land you now farm. Irrigating with a center pivot is one way. Irrigating with a Corner System is even better.

A Corner System can irrigate 19 to 45 more acres than a regular pivot, producing extra income on acres already being farmed. That's why nearly one out of every six pivots sold today is a Corner System.

And when it comes to Corner Systems, nobody knows more than Valmont. They're proven reliable with nearly 3,000 systems in operation. That's at least 20 times more than any other brand.

Before you buy any center pivot, see us. We'll tell you how a Valley Corner System can add to your bottom line profits while being the least costly investment per acre.

Valmont dominates the field.

Retail income generally down

Net taxable retail sales in Nebraska during 1981 were \$9.4 billion that was \$544 million more than in 1980 but 2.1 percent less than the year before when adjusted for price increases.

In Northeast Nebraska, region 11 which includes the counties of Wayne, Antelope, Madison, Pierce and Stanton, retail sales were up from \$326,042 in 1980 to \$347,305 in 1981. That's a gain of 6.3 percent. When adjusted for inflation however it represents a 1.8 percent loss.

PURSELL NOTED that only two of Nebraska's Planning and Development Regions showed any increase in retail sales following adjustment for price changes.

Region One, composed of Douglas and Sarpy counties, and Region 21, composed of Cheyenne, Deuel and Kimball counties, registered gains both one half of one percent over the previous year.

Counties with positive retail sales comparisons with the previous year included Sarpy, 12 percent; Keya Paha, 9.9 percent; Arthur, 5.3 percent; Kimball, 2.6 percent.

FOR INSTANCE, counties with less than \$10 million in retail sales in 1971 recorded a decade increase of about 120 percent, compared to a statewide average of 162 percent. Counties with retail sales in excess of \$100 million in 1971 gained 154 percent during the decade," he said.

He noted two major exceptions among the small sales counties, Rock County which had a decade growth of 203 percent and Chase County, 216 percent.

Get a number before the job

Many young people in the Northeast Nebraska area are planning to take their first job after school is out and one of the most important things they have to do is to get a social security number, according to Dale Branch, Social Security district manager, Norfolk.

Most employers will not hire a person unless he or she has a social security number. Therefore it is important to have a number before applying for a job, Branch said.

A person must submit documentary evidence of their age, identity and citizenship or immigration status. A person 18 years of age or older must apply in person.

THE BEST evidence of age and citizenship is a birth or baptismal record made before the person's first birthday. Immigration and Naturalization Service documents can be used to show immigration status.

Examples of evidence of identity include a driver's license, school identification card, voter's registration, school record, or any other document giving identifying data such as physical description, photograph or signature. Original documents or copies certified by the issuing agency can be used. Uncertified photocopies cannot be used. Documents are subject to verification with the agency that issued them.

A person who has trouble locating proper evidence should contact the Norfolk Social Security office at 1-800-442-9316.
