Proporty tax boaring planned

The Legislature's Revenue Committee will be holding a public hearing on the subject of property tax relief in Norfolk on Wednesday (Sept. 14) In the Commercial Federal Community Room, 802 Norfolk Avenue, beginning at 10 a.m. According to Committee Chairman Senator Cal Carsten, the purpose of the public meeting is to listen to the opinions of average citizens on the present level of property taxes and what can be done to reduce property taxes.

"Too often meetings of this type are well attended by lob bylists and special interest groups, but not by average citizens. We would like to have more input from average citizens. We would like to have more input from average citizens because those are the people who pay the taxes," Carsten said. He emphasized that the public hearing will be informal and that average persons who do not represent special interest groups will be given preference to say what they think about property taxes, which are generally high in Nebraska.

I'm the kind of guy who usually does things backwards. Last weekend was a good example.

I had all summer to camp out, so when do I do It?—in the middle of

September.
I love the outdoors but never seem to spend much time there. Last weekend I decided to do something about it, so the Hascall clan camped out.

We borrowed a pickup with a camper, borrowed a tent, packed the few sup-plies we own and took off for Sioux Falls with a crew of softball players

Since I had to work through the night at the Horald to get my work done, I caught a few Z's on the trip up as Barb took over driving duties. Two year-old Scooter, riding every mile of the trip in his car seal, provided conversation.

Saturday night was a cool one. We set up our lent early that evening and put our duffle bag, blankets and sleeping bags inside.

Naturally, there were three of us and

enty two sleeping bags. Guess which one of us was left out?
We stayed at a secluded, take side girl scout camp which was ideal for our crew. A camp tire was built that night and most members of the group crowded around the flames to keep their toes warm.

That was about 30 degrees too low to me. I've never wrapped a blanket around me so tightly in my life. It was so tight that Creamed a boa constrictor was putting a hold on me.

And it was so cold, I saw my breath everytime I snored.

Getting out of bed is always a chore for me but it's even worse when the thermometer hits 41 and ice forms on

my lips.
Taking the blanket with me I finally managed to pry my stiff body off the hard, cold, plastic covered ground and make a mad dash for the camp fire.
Once thawed out, I went back to the tent to wake Barb and Scooter, who had

No breakfast in my entire life tasted as good as the scrambled eggs and bacon did that morning. They seemed to warm my lonards and perk me up for the day ahead.

Once the tournament ended, it was back to Wayne and the nice, warm

Despite my complaints of the cold weather, our threesome had a fun time camping out.

We plan to go camping again some time in the future—like next July when the temperature hits 100 degrees and we sweat instead of freeze.

Although I usually prefer to stay home, a weekend away from Wayne was refreshing for a change.

A couple of days away from a televilation set also was an enjoyable experience. Other than "I willight Zone" rerus, there isn't much on TV. It's mostly just junk.

tricity, running water or telephones much.

However, I did find myself having to buy a newspaper at Sioux Falls.
In addition to Keeping up with the week's international news, I wanted to read about Nebraska's win over Wyoming, the Baltimore Orioles' wins over. The New York Yarkees and tind out how Wayne State's football team did against Chadron State.

It's town to completely isolate.

It's fough to completely isolate oneself from society—even if it's only for a day or two.

Tax revolt spreads

By Richard L. Lesher

U.S. Chamber of Commerce
George Clemenceau, the prime minister
of France, looked out over the carnage that
was World War I and observed that "War Is
much too serious a matter to be entrusted to,
generals."

French military leadership lost hundreds
of thousands of lives fighting a modern-war
against barbed wire and machine gues

of thousands of lives flighting a modern-war, against barbed wire and machine gues-while using the tactics of the 1870s — massive frontal assaults.

The history of stagflation in the 1970s has added a corollary to Clemenceau's observation. Just as war is too important to be left to the generals, tax policy is too important to be left to the polificians.

THE INTERESTS of those young men-who flight and die in the trenches are not always those of the generals who plan-strategy in the war room. And lite in the economic trenches for working men and women who must pay taxes provides a dif-ferent viewpoint from that seen by politi-cians who enact higher and higher laxes each year. Charge that hill! Pay that taxi

each year. Charge that hill! Pay that tax!

You can do it. (I'll supervise.)

It is easy to raise taxes: Raise your hand and say "Aye." It is not easy for families with mortgages, car payments and grocery bills to pay those taxes. As taxes — income taxes, sales taxes, property taxes — have risen, the gulf between taxpayers and politicians has widened.

As a result, American taxpayers have moved to put some meaning back into the phrase, "consent of the governed." In 1978. California's citizens gathered hundreds of thousands of signatures to place Proposition 13 on the ballot. Despite the opposition of virtually every leading politician in the state, Proposition 13 passed by a two-to-one margin and property taxes were halved.

At the nätional level, the calls and letters of taxpayers forced Congress to pass President Reagan's 1981 tax cut, and when the government threatened to impose withholding on interest and dividend in—

come/an unprecedented 20 million letters descended on congressional offices. Con-gress got the message and repealed the withholding tax. But the tax revolt is not yesterday,s

TAXPAYERS IN Ohlo were furjous when Governor Richard Celeste Increased the state income tax by 90 percent — mimicking Herbert Hoover's attempts to close a deficit by raising taxes. Ohloans, hard hif by the recession, were handed a double whammy with the sharp tax increase. Down, but not out. Ohlo's taxpayers collected more than 50,000 signatures on they initiatives.

The first will repeal all the tax increases passed in the last year. The second will re-

passed in the last year. The second will require any further tax hikes to be passed by three-fifths of both houses of the state tegislature. Both initiatives will be on the November ballot and are expected to passerous the pas

overwhelmingly.

The tax revolt has spread into Michigan as well, where an initiative to repeal Goveras weit, where an intrainte to repeat Gover-nor. Blanchard's massive tax filkes has garnered over 250,000 signatures to date and the initiative will appear on the November 1984-ballot. The Michigan initiative also has

1984-ballot. The Michigan Initiative also has an interesting feature:

It would require any new tax Increase to be approved by a vote of the people. Michigan taxpayers will not have to pay any new taxes they don't vote for themselves. That is true "consent of the governed." Similar efforts are under way in Oregon and Florida.

GOVERNORS, congressmen and state legislators should take note that the patience and bank accounts of the taxpayers are running out. Taxpayers simply will not "take it any more." They don't have to. In those states that allow the Intitative process, excessive taxes can be repealed by the people. In those states without an initiative, the solution is equally simple — refire those politicians who think they need your paycheck more than your family does.

Q: I recently wrote a check to license a truck with the county treasurer. When my checks were later returned from the bank, I noticed that someone had added 50 cents to this check. I called the treasurer's office and they said yes, I had made the check out for 50 cents too lift les of they just added the proper amount. I had always understood that no one could legally after the amount of a check except the person signing if.

The treasurer's office said that they did it as a service to me, so that I didn't have to come back and write a new check, and that no one else had ever complained about them doing it. It's not the 50 cents. I'm concerned about — it's the whole idea of someone having the right to change the amount of my check, or having it as a public policy to do so.

A. It is unlawful in Nebraska to after any written instrument, such as a check, that creates or affects an individual's legal rights or obligations if the afteration is done with the intent to deceive or harm.

or affects an individual's legal rights or obligations in the difference of the county treasurer's office probably had no such intent it is doubtfut that their action in changing your check was a criminal act.

However, this does not mean that they have the right to after your check. No one has the right to change the amount of anyong else's check and having an "office policy" to that effect doesn't change this.

It probably would have been better for the treasurer's office to contact you by phone to ask if you wished to have the check aftered to reflect the correct amount.

A continuation of this policy could lead to legal difficulties between the treasurer's office and the banks involved.

Aerial photo remembered

To the editor:

I have admired the aerial pictures in The Wayne Herald taken by your photographer of Wayne farmsteads.

If it interesting to notice the buildings and grain bins and if the owner is a large cattle feeder by the number of cattle in his yards.

Also if is interesting to see the groves of trees that serve as a windbreak in severe weather.

Irees that serve as a windbreak in severe weather.

I have a framed colored aerial photo of my farm home taken quite some years ago by the late Ervin Erxibeon and shows even the smallest objects plainly.

If was taken in late July during the small grain harvest season. The combine is shown in the oal stubble. Even the martin house is visible and there is a water hole in the hog tot where the porkers liked to get cooled off. There are many trees which we all loved, even a lone willow by the posture ience final provided shade for the cattle. There is a good windbreak from all sides. The buildings were welf kept up and painled. This photo is framed and I am so thankful that I have it in my room. It is one of my most treasured possessions and brings back many fond memories.

It was any tong from 1911 until 1978 — 67 years. It was a busy life but rewarding to us all as we all worked together.

It is wonderful that The Wayne Herald is running—these form—photos as—the farm families can have a photo of their farm.

Bait and switch factics

After the Nebraska State Fair. In Batter Business Bureau received a flood of calls and complaints about offers made at the fair, sen frrough the mail after the fair, and even follow up calls by telephone. This is a good time to be aware of the age-old practice of bait and switch factics used by some businesses.

Bail and switch advertising is one practice outlawed by Nebraska's Consumer Protection Act. This form of deception occurs when a seller advertises a product or service at an affractice price, but without the intention of selling for that price.

ONCE THE SELLER has batted the consumer with an attractive of for and gains their interest, the seller tries to switch the consumer to considering the purchase of a higherpriced item. Even though the practice is Illegal, the consumer can be persuaded by many methods to upgrade the original purchase plan. The result is the consumer buying a more expensive—item or model than was originally intended. How can you protect yourself from that one unscruppious business in a hundred? The following list of tactics should be a red flag that the business may not be dealing with you honestly. If any of them happen to you, report the business to the Better Business Bureau and to the state's consumer protection agency in the afformey general's office.

—THE SELLER tell<u>s you</u> the last one of the advertised product has just been purchased and they're all sold out. Instead of offering a rain check, the setter encourages you to look at similar more expensive

dels. The product is no longer available even though advertised recent It would have to be <u>ordered, cousing a considerable delay. You are</u> wn another higher priced item that is available now and pressured

shown another higher priced tiem had 15 branches.

A demonstration model that performs poorly is shown to the consumer. The seller then switches the buyer to a higher priced model that usually works as the advertised product should have performed.

The seller accepts money for the advertised product and then does not deliver it within a reasonable time. An excuse is made for non delivery and the seller acters a similar product that can be provided immediately for a slightly higher price.

THESE ARE ILLEGAL practices. If a business persists in one of these practices or if happens frequently, then it is time for the concerned consumer to take action.

Bubke lauds Eagle defense

Stubborn Allen bows to rated Wakefield

night.

Both defenses played well, but it tooked as if Allen was better-prepared to play football for most of the first helf.

The Eagles kicked off and held the Trojans on three downs, forcing a punt.

Wakefleid returned the favor but also statled and gave the ball back to the Eagles.

Quarterback Shawn Mahler then set sail from mid-field on a roll-out keeper and scored the game's first fouchdown before a sturned, highly partisan Wakefleid crowd. The PAT run was good and the Eagles led 50.

OPPORTUNITY KNOCKED again for Allein after the ensuing kickoff as Wakefield fumbled on the first play from scrimmage and the Eagles recovered.

Back to back penalties on Wakefield gave the Eagles a first-and-ten at the Trojanis-yard filme.

Lady luck decided to change sides at that point, though, as Allen lost five yards on a fumble and Wakefield sacked Mahler twice to bring up fourth-and-27. The Trojans took over after a punt, but a swarming Allen detense, led by Kevin Chase forced another kick.

Mike Hingst returned the punt to mid-field and Allen was in business again.

FORTUNATELY FOR Wakefield, efense rose again and the Trojans

defense rose, again and the Trojans took over with 8:17 left in the half. If took Wakefield only three plays to score as Jason. Erb hauled in a Brian Soderberg bomb for Wakefield's initial TD. The PAT pass was good and the score was tied After an exchange of punts, Wakefield got

Two long runs by scatback Jeff Cobie took ne ball down to Allien's four-yard line before oderberg rolled to his right and crashed into the endzone. The PAT pass falled and the core went to 148 in favor of the Trojans at laboration.

THE SECOND half began with both teams starting drives and then stalling.
Wakefield appeared as if if was going to score on its second possion as Coble pounded away at the middle of Allen's defense until the Trojans had a first-and-ten at the 11.
Soderberg then lost 10 yards on a keeper and a ten-yard blast by Coble made it third-and-ten. Coble fought his way to the nine to bring up fourth down.
The Trojans went back to the well once to often, though, as Coble was met head-on-by defensive end Jay Jones.
Allen took over, but fumbled the ball right back to Wakefield a few plays later.
The Trojans drive down the field, and on first-and-ten from the 12 yard-line. Failing to suistain a drive, Allen punted again and Wakefield took over.

SODERBERG THEN found number 88, Jason Erb down the far sideline and hit him with a 31-yard touchdown strike to put the score at 20-8.

Greve ran in the PAT and the fally

Troy Greve ran in the PAT and the tally went to 22-8.
Coble later added a 38-yard touchdown scamper and Allen's Mahler countered with a touchdown pass from his own 29 yard-line to Rick Boyle. The PAT was no good and the final score stood at 28-14.
Allen head coach Rod Bubke said he was proud of his team's efort.
"That TD pass to Erb really broke our backs," said Bubke. "We were still in there at 14-8."
Oftensively, Bubke said that the Eagles had trouble moving the ball (they only had three first downs) but that the Eagles played good defense.
He said he isn't sure if Wakefield is good enough to be rated. "They might be — it's still too early to tell." Bubke said. "I think Newcastle is just as good."

ed.

Wakefield head coach Dennis Wilbur also thought Allen played well.

"They played a heak of a gamu — they're very well-coached." Wilbur said.

He wasn't as quick to praise his squad.

"We didn't execute tonight." Wilbur said.
"It might be a combination of our being rated and a let down after the Coleridge game."

Oltensively, the Trojans were led by Coble, who garnered 137 yards on 13 carries. Soderberg gained only 14 yards on 16 totes, but fossed two long touchdown passes.

THE EAGLES were led by Mahler in both passing and rushing. He completed two of five tosses for 47 yards and rushed for 52 yards on 19 carries.

Wakefield's Coble was also the team's leading tackler with 13 stops, five of them

Laurel Bears lose third game, 31-0 to Ponca Buckwalter said that his squad never lost its intensity during the game. "We would jam 'em and jam 'em (or defense) and then they'd break the long one," he said. "The kids did what they were supposed to do," Buckwalter added, "but when you look up on the scoreboard and see all those points, it gets a little discouraging." Laurel will host Emerson-Hubbard this Friday night.

Buckwalter.
"I haven't totalled them all up yet, but I'm sure we had well over 100 yards in penalties tonight." Buckwalter said.
The Bears lumbled six limes, losing five of them.

Laurel's first fumble came at its own 25-yard line and the Indians quickly marched in for the score. The PAT kick was good and Ponca led 7-0.

The Bears then mounted an impressive drive, marching all the way down to the five yard line, but a costly penalty stalled things and Ponca fook over on downs.

The indians wasted no time in putting the ball inside the ten yard line with a long bomb to the tight end.

Buckwaletr said the pass caught Laurel off guard.

"We just got burned deep," he said. "Our cornerback came up on the play and it was all over — fivey just pounded it in after that."

Ponca later intercepted a Mark Herrman pass on the 35-yard line and quickly converted it into another touchdown as the score stood at 19-0 at the half.

Fumbles on, the 25- and 15-yard-lines helped the Indians add two more scores in the third and fourth periods.

Hunting dates, limits announced by commission

Cottontail rabbit, mourning dove, rail and common shipe and squirrel hunting seasons are in full-swing and area hunters are eagerly awaiting the start of several others.

Nebraska offers a wide variety of game for hunters. Only shotguns 10 gauge or smaller may be used for any game birds. For waterfowl and other migratory game birds, federal law requires that shotguns capable of handling no more than three shells in the magazinre and chamber combined be used.

Several animals may be taken with bow and arrow, but hunters are urged to check restrictions.

Further information is listed in the Nebraska 1983 Hunt Guide, published by the Nebraska Game and Parks Commission. The guide is free and available at any hunting and fishing license vendor.

LANDS FOR CONSERVATION BUILDING IN A

LOWER ELKHORN

NATURAL RESOURCES

DISTRICT

Landowners in Lower Elkhorn NRD are now in the process of completing con-struction of terrace systems on 1300 acres which are enrolled in the Lands for Conservation program. The landowners are paid \$40 per acre

for idling land so terrace construction can occur during the summer months. Construction may begin after June 1 and must be completed by September 15, which is now upon us.

The program extends a normally short

construction season in Northeast Nebraska which allows more conservation practices to be installed. Without this program, terraces must be constructed before spring planting or after

Participants in the Lands for Conservation program may also receive costassistance through local ASCS offices or Lower Elkhorn NRD.

CONSERVATION COST-SHARE

Landowners interested in constructing conservation practices should contact their local Soil Conservation Service or ASCS office to apply for cost-sharing funds. Soil Conservation Service personnel do technical design work on conservation practices and can assist you in applying for funding. ASCS offices will be receiving Fiscal 1984 funds October 1, and will then be accepting cost-share applications.

Lower Eikhorn NRD has cost-share funds available for dams and terrace systems. Application for these funds will be accepted when ASCS funds are exhausted, or if the cost of the project exceeds the \$3.500 cost-share limit of ASCS

Lower Elkhorn NRD also administers approximately \$65,000 annually from the Nebraska Soil & Water Conservation Program. For more information or to ap ply for cost-share funds, contact your local Soil Conservation Service office.

FORESTRY FIELD DAYS

Forestry Field Days will be held September 17 and 18 at Harning State Farm near Plattsmouth. The event is sponsored by Lower Platte South NRD ind the Department of Forestry, Fisheries, and Wildlife, UNL. This year's theme is "Plant a Tree or a Forest.

card of thanks

THANKS TO ALL my friends and relatives for the many lovely cards and letters that I received for my birthday. Louise Splitterber.

I'D LIKE TO THANK the Providence Medical Center and Wayne Police Department for being so prompt when I needed to be taken to the hospital. To all the special care from Dr. Walfer and Bob Benthack and Gary West, the nurses, and the kitchen help for the good food. Also, for the visits and prayers of encouragement from Pastor and Mary Monson and Sister Gertrude. A special thanks to Dave Jording for therapy and encouragement. Also, to Betty Reeg for Home Health Care, I appreciate all the gifts and cards from children, grandchildren, friends, neighbors and relatives. The Lord bless all of you and keep up the good work.
