**Wayne, Laurel, Wakefield**

## Graduation Sunday at three area schools

Commencement exercises at Wayne-Carroll, Laurel-Concord and Wakefield high schools are scheduled for Sunday, May 20.

Wayne's graduation ceremony is being planned at 2 p.m. in the Wayne State College Willow Bowl if weather permits. In case of inclement weather the ceremonies will be moved inside to Rice Auditorium.

Salutatorian and valedictorian awards will be presented during the commencement exercises and speeches will be given.

**DR. JOE LUTJEHARMS**, commissioner of education for the State of Nebraska, will give the commencement address. Wayne High principal, Dr. Don Zeiss, will present the class of 1984.

Becky Keidel, president of the board of education, will present the diplomas. Guidance counselor, Curt Frye, will present honors to the students.

The Wayne High Varsity Band will play the processional and benediction.

**THE LAUREL-CONCORD** High School commencement will begin at 2 p.m. in the gym. Valedictorian Monica Hanson and Salutatorian Carol Osborne will be the speakers at the graduation.

Board of education members Richard Hanson and Tom Fredricksen will present diplomas to 30 graduates.

The band will play the processional, recessional and "America The Beautiful." Spirit Express also will perform.

**AT WAKEFIELD**, commencement and baccalaureate will be held together in the gym beginning at 2:30 p.m.

Board of Education president, James Stout, will present diplomas to 34 graduating seniors. The speaker will be Pastor Ray Greeneth. He also will present the invocation and benediction.

Wakefield will not have a valedictorian or salutatorian but students with grade averages of 94 percent or higher will receive honor cards from Principal Joe Coste.

The band will play "El Capitan," a duet will perform "Best Friend" and the Swing Choir will perform "One Star."

Various scholarships and awards will be presented.

## Free labor for area farmers

AREA FARMERS can get a free hand with their spring work through the Wayne Chamber of Commerce.

Area farmers, running behind schedule with their field work because of a wet spring, are being offered free labor through the Wayne Chamber of Commerce.

The farmers assistance program, organized by the chamber board of directors, is designed to help area farmers in their spring field work.

Volunteers, many experienced in farm work, will drive tractors, fill planters with seed, do chores, go after gas, parts or supplies, do general help, run errands, babysit, cook meals or handle any type of labor that is needed.

**WAYNE BUSINESSES** that would like to participate should call the chamber office by 12 noon today (Monday) with names of volunteer workers, their skills and dates they are available to work.

Help for farmers is available on a first come-first served basis by calling the Wayne Chamber of Commerce office at 375-2240, beginning today. They should leave directions to their farms. Volunteers will work 12-hour days at no cost to the farmers.

"Wayne merchants know the predicament farmers are in and we've decided to volunteer free labor for spring farm work," said Anne Svoboda, chamber manager.

The free service will be offered to farmers in the Wayne, Winside, Carroll, Hoskins, Laurel, Belden, Allen, Dixon, Concord, Wakefield, Pender, Wisner and Pitger areas.

The program will begin Tuesday and run for approximately two weeks.

Members of the chamber board of directors said they initiated the program as a gesture of goodwill and appreciation.

## Renovation or destruction

# Fate of courthouse to be known tomorrow

The most important decision facing Wayne County voters tomorrow (Tuesday) night will be whether to construct a new courthouse or keep the existing one.

The Wayne County Commissioners placed the issue on the primary election ballot to let voters decide the fate of the county's courthouse.

Construction of the proposed new courthouse would require a \$13 million bond issue, according to Phil Lorenzen, vice president of the Municipal Bond Department of First Mid America Inc.

**SPREAD OVER** a 15-year period, the annual repayment would be approximately \$70,000, requiring a levy of about 6 1/2 cents per \$100 of tax base, Lorenzen said.

Renovation of the existing courthouse could reach a cost as high as \$918,985 if total renovation is done, according to engineer estimates. That would require a \$390,000 bond issue according to Lorenzen.

Spreading that figure over a 10 year period, annual payments would be approximately \$67,000, requiring a levy of about 7.6 cents per \$100 of tax base.

However, plans released by Jackson & Associates, architectural engineers, gave priority to certain areas of renovation and indicate that renovation work could be stretched over a period of years.

The county has approximately \$500,000 in a sinking fund that would be available for either construction of a new courthouse or renovation of the old one.

**RENOVATION WORK** would include fire safety improvements to meet the State Fire

Marshal's Office requirements. An elevator for the handicapped also would be required.

Other work listed as necessary in the near future includes replacement of the roofing and gutters as well as replacement of electrical, heating and plumbing systems and air conditioning.

Inadequate vault space has been listed as one of the main concerns with the existing courthouse. Registered engineer Jack H. Jackson said it would be difficult to add vault space in the existing courthouse.

Proponents of courthouse renovation have suggested that existing records be microfilmed so the amount of required storage space can be greatly reduced. However, courthouse employees have said that the law requires all existing records to be kept.

The new courthouse would have 1,744 square feet of vault space compared to 890 square feet in the existing courthouse.

**A COMMITTEE** which was formed several weeks ago is fighting to save the existing courthouse. The group is concerned about the historical and architectural value of the building.

Members of the group have suggested that the old courthouse be renovated over a period of three or four years. The county's sinking fund and revenue sharing funds could be used to pay for the renovation, they said.

Proponents of constructing a new courthouse have said that it would be wiser to build a new courthouse than put money into an old one that needs considerable work.

Wayne County voters will have their say tomorrow.

## Bauer: Wayne won't be here if farmers don't get help

Democratic Congressional candidate Monica Bauer, making a stop in Wayne Thursday, said everyone will be hurt if farmers don't get help soon.

"If farmers don't get a parity floor, there won't be towns like Wayne left by the year 2000," Bauer said. "This is the year to be voting for change. If you like the direction our family farm is going, vote for Bereuter."

Bauer, who is running against Donald Bercey and Marilyn Pats in the First District Congressional Democratic primary race, hopes to face Congressman Doug Bereuter in November's general election.

**THE 30-YEAR-OLD**, on a two-day swing through the counties in her district, said Bereuter hasn't had a serious challenge since 1978. When asked if Bereuter is beatable, she replied, "Absolutely."

"Then (1978) he was a challenger. Now he has six years in Congress to defend. I don't think it was a good six years for farmers," Bauer said.

The Omaha native said that if Bereuter claims he can't do anything to help the farmers "he is just plain wrong." She suggested a one-year moratorium on farm foreclosures and added that we should be working toward a fair price for farm crops.

"A parity floor of at least 80 percent is needed, Bauer said. "If we lose even 20 per-

## Council seat, Winside school board top races in country

Wayne County voters will decide the fate of the courthouse in the primary election tomorrow (Tuesday). Polls will be open from 8 a.m. to 8 p.m.

The two main races in the county will involve the First Ward of the Wayne City Council and the Winside Board of Education.

In Wayne's city council race, five candidates hope to be finalists for next November's general election. The top two vote-getters will battle head-to-head in the November election.

Candidates are Larry Creighton, Kent Hall, Stanley Hansen, John Radel and Richard Reed. Incumbent James Craun's name also will be on the ballot but he submitted his resignation as councilman last week and will not seek his seat.

**IN WINSIDE**, nine candidates are running for the Winside Board of Education and the top six vote-getters will advance to the general election. In November, three will be elected to the board.

Candidates for the Winside school board are Bill Burris, Sharon Haller, Gerald Hamm, Richard Jenkins, Gene Jorgensen, Date Topp, Dean Mann, Randall Miller and Robert Wacker.

The contest between Gerald Conway and Merle Von Minden for the 17th District of the State Legislature will be merely a popularity contest in the primary election. A favorite will emerge from Tuesday's election but both candidates' names will be placed on the November ballot.

The same situation applies to Elroy Hefner and Bert Evans in the 19th District.

**WAYNE'S CITY COUNCIL** seats are up for grabs in all four wards but two candidates are uncontested. Darrel Fuelberth is unopposed in the Second Ward and Keith Mosley is unopposed in the Third Ward.

Freeman Decker and Gordon Nelson are seeking the Fourth Ward seat with both candidates advancing to November's general election. There will be no voting for those three seats in the primary election.

Voters will not get to cast their ballots for Wayne Board of Education candidates at this time. Because three seats are available and only three individuals are running, all three automatically qualify for November's election.

**VILLAGE ELECTIONS** in Carroll, Hoskins, Shoes and Winside will decide who will serve on the boards of trustees in those communities. They will not be on the November ballot.

In Carroll, four candidates are seeking three seats on the board. Candidates are Susan Gilmore, Harold Loberg, Mark Tietz and Wayne Ulrich. There are no real races in Hoskins, Shoes or Winside.

## Eddie's brother by Randy Hascall

With students everywhere taking final examinations last week, this week and next week, this might not be a bad time for everyone to take a quiz.

Being in the mood for a true test, this multiple choice exam was prepared purely for fun. See how well you do. But, don't cheat.

**1. Question: Why do politicians smile so much?**  
A. They know if they're elected they'll get their paws on all our tax dollars.  
B. When they're smiling they can't stick their feet in their mouths.  
C. They're hoping to get a commercial contract with a toothpaste company.  
D. You'd smile too if you didn't have to work for a living.

**2. Question: How old is Ronald Reagan?**  
A. Old enough to know better.  
B. Old enough to be my grandfathers.  
C. One year older than he was last year.  
D. One year younger than he'll be next year.

**3. Question: What is more exciting than watching professional basketball or hockey on television?**  
A. Watching paint dry.  
B. Turtle races.  
C. Counting blades of grass in a lawn.  
D. Watching bread dough rise.

**4. Question: What is it like driving on Seventh Street in Wayne?**  
A. Like water skiing the Atlantic Ocean.  
B. Like roller skating down the Rocky Mountains.

C. Like doing the fox trot in a fast-moving freight car.  
D. All of the above.

**5. Question: How much time does Boy George spend putting on facial makeup?**  
A. Not near enough.  
B. Way too much.  
C. He doesn't put on makeup, he just takes a shower and sticks his face in a bag of wheat flour.  
D. He spends too much time putting on makeup and not enough curling his hair.

**6. Question: Can you give an example of a figure that is bigger than the national deficit?**  
A. The number of vacation days given to government workers in a year.  
B. The amount of rainfall in inches that has been recorded in northeast Nebraska this spring.  
C. The amount of Joanna Carson's alimony check.  
D. Property taxes and interest rates on loans.

**7. Question: Where did Michael Jackson learn his dance moves?**  
A. From sharing the supper table, bathroom and mirror with all of his brothers.  
B. From stepping on ants during picnics.  
C. From carrying his weekly pay check through high crime districts.  
D. He doesn't know any dance moves, he just goes into spasmodic convulsions when he sings.

**8. Question: What works more efficiently than government?**  
A. A broken down bicycle.

B. A lawnmower without a blade.  
C. An illegal alien.  
D. Almost anything.

**9. Question: What do Nebraskans dream about in their nightmares?**  
A. Omaha.  
B. Their crops.  
C. Iowa.  
D. The Oklahoma Sooners football team.

**10. Question: Why are you wasting your time taking this dumb quiz?**  
A. It was either do the quiz or take out the trash and I didn't think there was any use taking out the trash until today's paper was included in it.  
B. I had to see what kind of stupid things Hascall would come up with in his dumb column this week.  
C. I wanted to be sure there wasn't anything worth while on this page before I lined out the parakeet's cage with it.  
D. The only other reading material in the house is Webster's unabridged dictionary and this is shorter. Besides I enjoy being bored.

Here are the answers to today's quiz: 1.—D, 2.—A, 3.—B, 4.—A, 5.—C, 6.—C, 7.—B, 8.—D, 9.—D, 10.—A. Give yourself 10 points for each correct answer. If you think your answer was better than the correct answer, give yourself 11 points. Then grade yourself according to this chart: 0-20—Excellent. Give yourself a pat on the back; 20-40—Good. You're on the right track; 40-60—Average. Work a bit harder; 60-80—Poor. You better go back and study some more; 80-100—Fucking. Terrible score. You think too much like the editor with the warped mind who contrived this quiz.

### Modern workplace should not be criticized

To the editor: In view of the intensive campaign being waged to save our courthouse, I feel it is my duty to make some comments so the voters have an opportunity to make a fair evaluation and vote accordingly.

The existing courthouse contains 16,428 square feet on three floors, 9,297 square feet or 56 percent of this is usable space, the remainder being taken up by walls, lobbies, restrooms, stairs, boiler room etc. The proposed courthouse contains 18,800 square feet on one floor, 13,359 or 72 percent of this being usable space. There is an additional 5,021 of usable space in the basement which will have a ground level entrance.

The cost of renovation of the existing building is estimated at \$896,985. Divide this by the usable 9297 square feet of usable space we have a cost of 96.48 per square foot of usable space. Using the same formula for the proposed building estimated cost of \$1,735,565, does not include site work, costs of \$97,935, for parking lot, sidewalks, lawns, shrubs etc. to make a fair comparison) divided by 18,800 square feet of usable space your cost per square foot is \$93.41. I ask you, where are the savings?

In the final analysis, if we renovate the existing courthouse at a cost of \$896,985 we will still be short 9,283 square feet of usable space that will be available in the proposed

new building at a new building cost of \$93.41 per square foot. It will cost \$867,125 to provide this space at some other location, plus the cost of the land.

Having spent some time working with the commissioners and the various department heads at the courthouse along with the architect I feel the space requirement in the proposed courthouse is not excessive. There is some space in the basement for future expansion when the need arises approximately 3288 square feet of usable space.

There has been some comment about the slate roof on the court house not leaking. I can assure you that the roof leaks and will continue to leak until it is removed and replaced. The problem areas are in the valley and where the roof meets the masonry. Over the years they have smeared various forms of tar and roofing cement in these areas to try to stop the leaks to no avail. The gutters are also leaking and the water is entering the masonry walls that support the gutters, causing considerable deterioration to the brick and mortar.

The proposed courthouse will have a minimum slope roof covered with a loose laid rubber membrane. It has not been determined yet just how long this material will last because it is relatively new but it has been in service as a liner for sewer

ponds for over thirty years. There is a 15 year leak free warranty available for this roof backed by the manufacturer. In either case if a problem did arise I would much rather hunt for a leak on a flat roof than crawl around on a steep roof.

The existing courthouse will require an elevator and fire escape to meet the fire and handicapped requirements. The elevator will probably be constructed on the north side of the building and the fire escape on the west side of the building. To the best of my knowledge the brick and stone needed to match the existing building are not available. I wonder what these additions will do to the architectural value of the building.

I know our taxes are too high but I don't think it is the fault of the administrative portion of our county government. I believe the solution to our tax problem should be a broader tax base.

In closing I am sure our fore fathers were extremely proud of the courthouse when it was completed back in 1899. It has done its job well but after 85 years it is time to replace it and I don't feel we should be criticized for providing a modern efficient work place for our county government. I am sure we will be proud if we can do the job this time around.

### Least expensive alternative questioned

To the editor: Is the old courthouse really the least expensive alternative? It's a question that needs to be answered before we vote on the bond issue. Recent letters have tried to tell us that restoring the old courthouse is best. Are they telling the whole story? I think not.

They tell us that we can do the remodeling over several years to save money. Do they guarantee that inflation won't raise the cost of remodeling spread over a period of time?

Are they prepared to find their way through the mess of remodeling to visit county offices for the next few years.

Cost comparisons in ads have included interest costs for the new courthouse. No costs of interest are included for renovating the present courthouse. Does this mean that there will be no interest costs or just omission.

We are encouraged to preserve our cour-

thouse for its historic value. How will the addition of an elevator and fire safety features impact on the historic value of the courthouse. Extensive remodeling cannot be done without some alteration of historic features.

We have been asked why we should spend \$3,150,000 for only 2,800 square feet of additional room in a new courthouse. Did C.A.S.T.L.E. include the attic and lobbies in their figures of existing space in the old courthouse? Can that really compare with the space in a new courthouse?

Is it a good idea to spend 35 times the cost of the courthouse when it was constructed to make it useable for the next 25 years? I'm sure our forefathers would not have spent their money so foolishly for such a short term solution. They did build a structure to carry them into a new century. Let's use the wisdom of our forefathers and build a new structure to carry us into the future. Vote FOR the bond issue on May 15.

Douglas Tenme  
Wayne

### Building has served purpose

To the editor: The Wayne County Courthouse was served its purpose. I say tear it down and build a new one. If we would stop wasting our tax dollars to heat the old, inefficient building, we could probably use that money to repair some of the streets in this town.

The courthouse was good in its time but is now an eyesore and a fire trap. Why spend a million dollars to try to fix a courthouse that's past its prime? Putting good money into the old courthouse is like putting a new engine and transmission into an old clunker

of a car. It costs more than it's worth. The courthouse is listed on the National Historical Register but I understand we don't receive any money from that group to keep our courthouse in shape. No one has bothered to take care of the building and it is decaying.

There's one fitting word to describe tearing down the courthouse and building a new one—PROGRESS. Our nation has survived because of it.

### Fine architecture example

To the editor: As a former resident of Wayne County and a visitor almost every year, I was quite surprised to read recently of a plan to possibly raise the Wayne County Courthouse and replace it with a \$1.3 million structure.

This would be a mistake indeed as the courthouse is one of the finest examples of the architecture of the period and of a type so rare today. The citizens of Wayne can justly be proud of their museum and of their

present upkeep of the town and college campus.

Surely this tradition will continue with the defeat of the bond issue on May 15th and an all-out effort will be made to save a fine city, state and national landmark, since the building is listed on the National Register of Historic Places.

I would urge the voters to soundly defeat the bond issue. Renovation is surely a much better alternative for all.

The Soviet Union announced this past week that they plan to pull out of the 1984 Summer Olympic competition in Los Angeles. The Wayne Herald asked five people for their initial reaction to the Russians withdrawal from the games.

"It will lower the level of competition for the athletes. Now America will be able to bring home more of the gold." — Sherri Smith

"It is unfortunate, but due to the political situation existing between the two countries, it was to be expected." — Randy Shaw

"I wasn't surprised since there had been rumors about it, and we had done it to them in 1980. I was disappointed." — Jodi Kessinger

"It was a retaliation based on President Carter's withdrawal in 1980, and so now the Russians feel it's their turn." — Deryl Lawrence

"I was surprised because I thought they would have done it earlier. Since we did it to them four years ago, they do have a type of justification for pulling out. Wish they hadn't done it, it will make the Olympics less interesting." — Kent Blaser

## Blue Devils lose championship

Wayne High School's baseball season came to an abrupt halt last Wednesday afternoon, as Omaha South claimed the district championship with a 12-2 beating at the Wayne State baseball diamond.

The key to Omaha South's win was the Blue Devils' pitching. Four Blue Devil pitchers walked 15 batters in the contest which was ended after six innings because of the 10-run rule.

A downcast Blue Devil Coach Mike Mallette was understandably displeased with both the pitching and defensive aspects of the Wayne loss.

"It's a shame we had to end the season like this," Mallette said.

"We failed to obtain outstanding individual performances from anyone on the team," he said.

Despite finishing a successful season with a 9-1 record, the game with Omaha South was more of a "win-for-prestige" rather than a district championship game, he said.

Sieve Overin, who started the district semi-final game against Bancroft-Rosalie on Monday, again got the starting nod. He struck out the first Omaha South batter of the game before walking the number two hitter, Limones, who was later forced out at second base after a grounder hit by Ruffcorn.

Ruffcorn moved to third on consecutive walks issued by Overin and then scored on a wild pitch.

WAYNE CAME BACK with a run in the bottom of the first inning after Kevin Maly reached base on an error and moved to third when pitcher Flyr of Omaha South erred on the throw to first base trying to throw out Jeff Sherer. Maly later scored on a passed ball to tie the score going into the second inning.

Omaha South scored two runs in the second inning after Overin walked Genier, then Flyr executed a sacrifice bunt to advance Genier to second. Genier stole third base and scored on a throwing error by Blue Devil catcher Chris Wieseler.

The Wayne Blue Devil baseball team, which ended its season at a record of 9-1, selected the team's most valuable player.

The MVP Award went to Steve Overin, who was the team's batting average leader. Overin batted .386 this season, with 17 hits in 29 at bats (including three doubles, three triples and five homeruns).

Overin also led the Blue Devils in runs batted in with 21.

Selected as honorary team captain was Blue Devil catcher Chris Wieseler.

Lead-off hitter Andrade walked and Limones then hit a fly ball to short leftfield which was misjudged by Sherer who also misfired to third base and the ball went into the Wayne dugout to score Andrade.

Blue Devil Don Larsen came in to relieve Overin and walked Ruffcorn before retiring the side on a pop up to Todd Dorsey at first base.

Wayne failed to pick up a run in the second inning, but came close to scoring after Wieseler was out at home plate trying to score on a passed ball.

LARSEN PITCHED a scoreless third inn

ing before succumbing to control problems in the fourth inning, walking three of five Omaha South batters.

Ted Lueders relieved Larsen and also experienced control problems, walking two batters and struck one in the same inning before Flyr fled out to centerfield.

Lueders gave up no Omaha South runs in the fifth inning, but ran into trouble in the sixth inning as Bugay singled, two Omaha South batters walked and Gonzalez singled. After a walk to Andrade, Mallette substituted Jeff Hausmann for Lueders.

Hausmann was tagged for three hits and

also gave up a walk. Overin blasted a homerun over the left field fence to score Wayne's only other run in the ballgame.

The Blue Devils only got four hits off of Omaha South's lefthander Flyr -- the first left-handed pitcher which Wayne had faced this spring season.

Overin had two of those hits while Jeff Sherer and Shannon Dorsey each picked up a hit.

Limones led the Omaha South hitting attack with three hits -- a double and two singles.

## WSC bid for championship foiled

Kearney spoiled Wayne State's chances of earning the District 11 tournament title Friday evening by trimming the Wildcats 9-5.

Wayne State must now play at 1:00 p.m. on Saturday to decide the District 11 championship. The winner of this game will go to play in the NAIA area play-offs.

"Kearney didn't have a lot of big hits, just a lot of singles. They just put the bat on the ball," said Wildcat Head Baseball Coach Lenny Klaver.

The linescore showed Kearney earning nine runs on 15 hits and committing one error. Wayne State had five runs on five and had no errors.

Max McDonald was the losing pitcher in the game. Trent Herman relieved McDonald and Randy Frink later came on to pitch for Herman, shutting out Kearney in the last two innings.

Wayne State's Pete Miller had two hits in the game. Kurt Brosamie hit a triple for the Wildcats.

WAYNE STATE won its first game of the four-team double elimination CSIC District 11 baseball tournament Thursday, scoring five runs in the ninth inning to edge Doane, College 5-4.

Doane held a 4-0 lead going into the top half of the ninth inning as the Wildcats could

only muster three hits. Wayne State broke into the scoring column with five runs on two hits, three walks and three Doane errors.

Wildcat Jeff Strain, who drew a walk in the ninth inning, scored the tying run when Rich Murcek was walked with the bases loaded. Pete Miller then walked, scoring Rich Neely who had reached base on an infield single.

Winning pitcher for the Wildcats was Dan Hilgenkamp, who lifted his record to 2 wins and 6 losses. Hilgenkamp went the entire distance on the mound, striking out nine and allowing only one earned run.

Miller had a pair of hits in the game -- a single and a double. Strain also singled in the fifth inning and Kurt Brosamie singled in the second inning.

Wayne State's linescore read five runs, five hits and four errors. Doane had four runs on four hits and had committed four errors.

Doane's record fell to 6-13. Neil Brown of Wayne State increased his season pitching record to 5-2 as the Wildcats picked up their second win of the district tournament over Kearney State by a score of 15-5.

Brown scattered six hits, struck out seven and allowed only one earned run.

THE WILDCATS blasted 15 hits in the game and scored four runs in the fourth inning, two runs in the fifth, six runs in the sixth and three runs in the eighth inning.

Gregg Cruickshank had three hits in the game, cracking his first homerun of the season, which also scored Pete Miller who got on base with a walk.

Another two-run homer was blasted by Jeff Scharn, which scored pinch-runner Craig Robb.

Catcher Jeff Clark also had three hits in the game, including a pair of doubles and an eighth-inning triple. Mike Hutcheon also had a pair of singles and smacked a triple in the sixth inning.

Kearney scored five runs, had six hits and committed six errors in the ballgame. Their record falls to 13-25.

"Our players realized they had something to prove by not hitting in the first game," said Lenny Klaver, Wildcat head baseball coach.

"We thought that if we wanted to win this thing, we had to get the bats going in the second game [against Kearney]," Klaver added.

Going into the finals of the District 11 tournament, the Wildcat team record now stands at 10 wins and 21 losses for the season.

## Junior high boys compete in W-P invitational

Wayne Middle School boys tallied five first place finishes in Thursday's Wisner-Pilger Middle School Invitational.

### 'Outstanding citizen' search is on

The Lavitset Time Board is now taking applications for the "Outstanding Citizen" from various communities. Anyone who has performed outstanding service for a community over the years is eligible. Communities are asked to provide the transportation for the "Outstanding Citizen" in the parade. Deadline for entrants is June 1 and applications should be sent to the local chamber of commerce or mayor. When a community has picked an "Outstanding Citizen," the name should be forwarded to Box 1512, Norfolk. The Lavitset Time Fall Festival will be Sept. 27-30.

### Service academy applications

Service academy applications are available from Senator Edward Zorinsky's Omaha office. The applications are for nominations to U.S. service academies for classes entering in 1985. Any unmarried student, age 17-21, who is interested should send a letter requesting nomination to the senator. An application and additional forms will then be sent to the individual. Zorinsky has two vacancies available for the Naval and Military academies. Anyone interested should write Senator Zorinsky's Omaha office at 8311 Federal Building, 215 N. 17th Street, Omaha 68102.

### Energy ed workshop set

The Nebraska Energy Office is sponsoring seven energy education workshops for teachers this summer across the state. These workshops are a cooperative effort between each host college or university, and the Nebraska Energy Office. Wayne State College will be sponsoring a workshop July 23-Aug. 3 for teachers of grades kindergarten through ninth. ## Watchers cautioned

# Eclipse to occur

One of nature's most dramatic events, a solar eclipse, occurs on Wednesday, May 30. According to the National Society to Prevent Blindness, Nebraska Affiliate, the safest ways to watch this late morning event are by indirect viewing, on television, or at a professionally sponsored eclipse watch.

Viewing the eclipse directly can be dangerous," said Barbara H. Allen, executive director of the Nebraska Affiliate. "When you look at the sun, your eye's lens focuses the intense light on the retina that delicate layer of cells at the back of the eye that sends visual images to the brain. The retina does not feel pain. You don't know it is being burned. But it can be, at the very center of your field of vision. And nothing can be done about it."

UNLIKE THE TOTAL eclipse of 1979, this May's eclipse will be annular. Even though the moon

will cross over the sun, an outer ring or annulus of the sun's atmosphere will be visible at all times.

The Astronomical League reported that the eclipse will cross directly through the southeastern United States, and will be in partial view throughout the rest of the continental U.S., Hawaii and Puerto Rico.

At about 11 a.m., the moon's shadow will race northeastward at 1,400 miles per hour, beginning in Louisiana, crossing Mississippi, Alabama, Georgia, the Carolinas and Virginia, and reach the Maryland shore less than one hour later.

To view the eclipse indirectly, the society recommends the following:

1. Get two sheets of white cardboard.
2. Make a pinhole in the center of one of them.

3. Stand with the sun at your back.

4. With one sheet of cardboard in each hand, hold the sheet with the pinhole so that the sun shines through the hole onto the other sheet.

5. Adjust the sheets to focus the light. (You can change the size of the image by changing the distance between the sheets.)

6. Now, by looking at the bottom sheet, you can see an exact image of the sun and its eclipse. As the moon slowly crosses in front of the sun, you can see it all happen!

The society cautioned that people using this method should not look at the eclipse through the pinhole. Similarly, photographers shooting this event are cautioned not to look at the sun through their camera viewfinder.

**HIGH BLOOD PRESSURE:**

Coping with hypertension, commonly known as high blood pressure, can be as simple as removing salt shakers from the dinner table, engaging in exercise once a day and losing weight. Or coping can be as complex as having to be on medications for the rest of your life.

It all depends on your age, sex, lifestyle, family history of blood pressure and whether the elevated readings are consistent over a matter of weeks and months. Blood pressure readings can bounce up and down in a matter of minutes depending on the level of stress the person is under at the time the readings are taken.

Readings on a spasmodic basis are of little or no value other than that the individual knows he/she could have high blood pressure. There are many persons who do not know they have this widespread disease. That is why high blood pressure is often called the "silent killer."

What does high blood pressure mean? Why does it pay to lower your blood pressure when the readings are consistently above normal?

When you have high blood pressure, it means that your heart is being overworked. The heart's job is to pump blood to the blood vessels throughout your body. An overworked heart can lead to heart attacks, strokes and kidney failure, all of which are major causes of death in this country.

Whether your heart is being overworked is determined by measuring the pressure in the arteries at the time the heart is contracting, or forcing blood into the arteries, and at the time when the heart is at rest. The results are recorded in fraction form with the systolic (contracting cycle) on top and the diastolic (resting cycle) at bottom. Using the American Heart Association's current upper limits of normal, a blood pressure reading looks like this: 140/90. When either the systolic or diastolic is above the normal limits, the individual should seek treatment. The higher the readings on a consistent basis the more urgent your need to see your family doctor.

The payoff for reducing and controlling elevated blood pressure is that the individual can live longer. The likelihood of heart attacks, stroke and kidney failure will be reduced. It's not the high blood pressure that kills individuals; it's what the increased pressure does to such body systems as circulation.

TREATMENT FOR HYPERTENSION FITS INTO THREE CATEGORIES: lifestyle changes, such as cutting down salt intake and losing weight; behavior changes to reduce stress, such as relaxation and medication, and drugs to stimulate elimination of waste and to decrease the pressure in the blood vessels.

The reward for monitoring and when necessary treating hypertension, even in mild cases, is that the risk of a person dying before age 65 is reduced by 50 percent. Treating hypertension can add years to an individual's life and those can be happy years.

The old axiom of what goes up must come down does not apply to blood pressure. The individual with hypertension must act to bring down the pressure.

**SAVE OUR COURTHOUSE**

- Historic preservation makes good economic sense.
- Significant cost benefits can be realized by fixing rather than replacing.
- It is structurally sound. If repaired and maintained, it will serve indefinitely.
- It is an architectural and historic jewel. It just needs some polishing to make it shine again.
- Never again will we be able to achieve the level of skill, character, and craftsmanship which is inherent in the current building.
- The Wayne county courthouse is an important part of our pioneer heritage that can never be replaced.

**Vote AGAINST**

## To build----- or -----not to build

### That is the question

It will be up to Wayne County's voters to decide whether to build a new courthouse or renovate the existing one.

Those favoring renovation point out the exceptional architecture of the building, both inside and out. The pictures on the right half of this page show some of the finer points in architecture including the columns, ar-

ches, windows, stair rails, peaks and wooden jury chairs.

Those favoring construction of a new courthouse point out the deficiencies of the existing building. Pictures on the left side of this page show bat droppings in the attic, inadequate vault space in the offices, the leaking roof, deteriorating entry steps and worn electrical wiring.
