## Highway work plans near Allen announced

by Chuck Hackenmiller

Plans for the fiscal 1987 highway construction and improvement program, calling for expenditure of \$159.9 million on the state highway system and local system projects eligible for federal aid or state aid, were recently announced.

Major new projects scheduled in this area (District 3) include the following:

— Nebraska Highway 9, from Allen south, 3.5 miles of grading, culverts and surfacing, \$1,336,000.

— Nebraska Highway 12, between Maskell and Newcasle, 4.5 miles of grading, culverts and surfacing, \$2,718,000.

— US Highway 81 in Norfolk, 13th Street and Omaha Avenue, 1.3 miles of urban construction and a viaduct, \$5,735,000.

— Nebraska Highway 121, Wausa north, 7.7 miles of grading, structures and surfacing, \$2,897,000.

District Three area road projects listed in the five-year program (fiscal year) 1988 through 1992 include the following:

• Dixon County, Nebraska Highway 9, Wakefield to Emerson, 7 miles of grading, structures and surfacing, \$1,567,000.

• Dixon County, Nebraska Highway 9, Allen north, 3.4 miles, grading structures, surfacing, \$1,855,000.

• Wayne County, Nebraska Highway 15, Wayne south, 8.2 miles, resurfacing, surfacing shoulders,

\$1,644,000.

• Wayne County, Nebraska Highway 15, in Wayne, half a mile, resurfacing, \$210,000.

• Cedar County, Nebraska Highway 15, Laurel to Concord Junction, 4.5 miles, grading, culvert and resurfacing, \$1,508,000.

• Dixon County, U.S. Highway 20, from Nebraska Highway 116 to West Junction of Nebraska Highway 9, 8 miles, resurfacing and surfacing shoulder, \$1,244,000.

• Dixon County, U.S. Highway 20, from West Junction Nebraska Highway 9 to Nebraska Highway 12, 11.1 miles, resurfacing and surfacing shoulder, \$1,839,000.

• Wayne County, Nebraska Highway 35, Hoskins east, 7.4 miles; grading, structures and resurfacing, \$2,674,000.

• Wayne County, Nebraska Highway 35, Winslow north and south, 7.3 miles, grading, structures and resurfacing, \$2,556,000.

• Wayne County, Nebraska Highway 35, Wayne east, 7.5 miles, grading, structures and resurfacing, \$1,829,000.

• Cedar County, Nebraska Highway 57, Belden north, 4.2 miles, grading, structures and surfacing, \$815,000.

**OF THE NEWLY announced state highway projects,** an estimated \$23.6 million will be spent on 29 projects originally scheduled for fiscal 1986 which could not be placed under contract before June 30, 1986.

Nebraska Department of Roads Director State Engineer R.H. Hogrefe noted that Congress had not yet passed a new Federal Highway Act when plans were announced. He said the 1982 Surface Transportation Assistance Act is scheduled to expire Sept. 30 of this year.

The fiscal 1987 state highway improvement program is predicated upon Nebraska's receiving the same federal fund obligation authority it received in fiscal 1986. If Congress makes significant changes in the new Federal Highway Act, it will have an impact upon the fiscal 1987 improvement program.

Of the \$125.1 million in specific new projects, \$48.2 is scheduled for the improvement of 74 miles on the Interstate Highway system, and \$3.1 million is slated for the Interstate Substitution project (North Omaha Expressway).

Hogrefe also noted that Nebraska's current motor fuel tax of 19 cents per gallon for gasoline and special fuels, and 16 cents for gasoline, will drop to 17.1 cents per gallon for gasoline and special fuels, and to 14.1 cents for gasoline, during the second quarter of fiscal 1987, beginning Oct. 1, 1986.

The reduction, he said, is due to the lower price state government paid for its motor fuel in July, the base against which the variable excise tax for the next quarter is applied.

## House route — no parking!

A house-moving venture on Monday will limit parking on several Wayne streets, according to Wayne Police Chief Vern Fairchild.

The large house, located immediately south of First United Methodist Church, will be relocated by Kay House Moving of Wayne.

Parking will be restricted along the route where the transported house will travel.

That route, according to Fairchild, is on Main Street from 5th Street to Third Street, then on East Third Street from Main Street to Nebraska

Street, on Nebraska Street from Third Street and Fourth Street, and on East 4th Street between Logan Street and Nebraska Street.

"There will be no parking on this route until the home passes by," remarked Fairchild.

# Center helps in forgetting about loneliness

by Chuck Hackenmiller

In 1968, two Vista volunteer workers raised the interests of some Wayne residents by recognizing a special need aimed toward the community's senior citizens.

That need was to organize a place for those who desired some friendly conversation or to share a meal with someone — rather than spending the day-long hours alone without the atmosphere of company or without the enjoyment of joining a local, informal and entertaining type of organization.

To some, today's Wayne Senior Citizen Center offers all the luxuries of home, plus more.

"I like it here. It's just like a second home to me. And it's handy and close. We can do as we please down here," said Lucille Wert, a frequent visitor to the Senior Citizen Center.

When helping to organize the Initial Center, Vista workers Frank Renaldo and Chuck Smith might not have envisioned how essential it has become toward fulfilling senior citizens' social and nutritional needs.

"The Senior Citizen Center is just an outlet for me," said

This is the third in a series of articles concerning services and activities that are available to area senior citizens.

Amy Lindsay of Wayne, who often rides the Senior Citizens Bus or catches a ride with someone to the Center. She said she is now handicapped with poor vision.

"It's an awful lonely life when you have to live alone," Lindsay said.

**THE FIRST** meetings of the newly organized Senior Citizens Center took place in the Women's Club Room. Later, the mayor (Al Koplin) and the city council approved a proposal expressing a need for establishing a Wayne Senior Citizen Center. A contract was made with the Nebraska Commission on Ag-

ing for a Title III grant to the city of Wayne for the Center.

On July 1, 1969, Mrs. Jociell Bull was hired as director of the Senior Citizen Center. She served as director of the Senior Citizens Center until October of 1981.

When the city offices moved to the present site at 306 Pearl, the renovation included making the basement into the present Senior Citizens Center.

In June of 1979, the Senior Citizens Center began serving congregate meals. Prior to this, volunteers were contacted by the Senior Center for the home delivered meal program.

Those congregate meals, which meet the nutritional needs of the Seniors, are presently prepared by the staff from the Providence Medical Center in Wayne. Volunteers at the Center distribute food to those attending the congregate meals.

"These are wonderful meals. More people should take advantage of it," said Lindsay.

**GEORGIA JANSSEN** is currently the coordinator of the Wayne Senior Citizen Center. When the city of Wayne purchase a 1979 Dodge

van as a means of transportation for senior citizens, Janssen was the first driver of the mini-bus.

She became coordinator in 1981. "I feel that I'm one of the luckiest persons in the world to have a job that I truly enjoy," she said.

Senior citizens coming to the Center find the place is "good for everyone to congregate, to eat their meals together and to share life experiences," Janssen mentioned.

Meeting and socializing at the Senior Citizens Center is a practical way for senior citizens to stay healthy — meeting the social, nutritional and physical demands that some senior citizens require.

Activities, in addition to the congregate meals and home delivered meals, are numerous at the Center, according to Janssen. There are crafts to do (particularly in the winter months) and a blood pressure clinic is conducted by volunteers once a month, available for anyone who wants to come to the Center.

"Groups come down here and perform with accordions and fiddles. Sometimes the

## Center

Cont. from Page 1

AT THE CENTER is an exercise bike and also a television with a VCR that was donated recently by Northwestern Bell. The organization publishes a newsletter to distribute to members.

And the Senior Citizens Center rhythm band sometimes entertains for residents at the Wayne Care Center.

Congregate meals are served at the Center five days a week. Janssen said she must know a day in advance how many are coming to the Center to eat the congregated meals, since the meals are catered there by Providence Medical Center.

From 25 to 35 congregated meals are served daily at the Senior Citizens Center, and

another 15 meals a day are prepared for delivery to senior citizens' homes.

"Last year, we served 10,400 meals. That's a very good number considering our size and limited space," said Janssen.

The suggested price for the meal is a \$1 donation, but if it is up to the individual as to how much they believe they can donate.

Last year, the city of Wayne contributed \$15,000 to the Senior Citizens Center. The Northeast Nebraska Area Agency on Aging picks up the difference in cost between what is donated and the cost of the meals.

STATE AND FEDERAL programs pay up to 75 percent of the cost to operate the

mini-bus program — a large portion of that amount coming from the Nebraska Department of Roads. The city of Wayne contributes a share along with what is collected through donations in financing the bus program.

Last fiscal year, over 4,000 individuals rode the mini-bus as it traveled approximately 9,000 miles mostly throughout the Wayne city limits.

"Coming here is a whole lot better than eating at home when all you got to do is have time to think about yourself," said Larry Osnowar, a frequent visitor of the Center.

"I've been to New York City and Los Angeles. For a town this size, this is a beautiful Center. Wayne should be proud of it," Osnowar mentioned.

"We could use some new people, more new blood here," he added.

## Tickets are on sale for summer musical

Tickets for "Kiss Me, Kate" are on advance sale now before the musical comedy opens in Ramsey Theatre Friday night.

Wayne Community Theatre President Clyde Flowers said tickets are available at Wall to Wall Decorating and Sav-Mor Pharmacy, but also will be sold before 8 p.m. certain times on Friday and Saturday and 2 p.m. Sunday in the Peterson Fine Arts Center at Wayne State.

Prices are \$5 for adults, \$4 for senior citizens and students (including college).

"Kiss Me, Kate" is billed as a musical, and practically everybody in the cast of 25 sings several songs. Some of them sing almost all of the show's 16 songs.

That's considerable singing for co-directors of music Tanya and Sherwin Langholdt to perfect, but a week before opening night, they declared "it's beginning to sound good."

Tanya has the title of musical director in charge of all the music, but she specializes in the orchestra while husband Sherwin coaches the chorus. He also plays in the orchestra. Both are from Schleswig, Iowa, but they call Wayne home.

For this show they decided, in consultation with director Andre

Sedriks, to try a new position for the orchestra. After experimenting, they put it offstage — in the wing to the spectators' right.

From there, the orchestra — behind a wall — will be somewhat muted to audience ears, but actors can hear the music to sync their singing. In past musicals, orchestras usually have played in front of the Ramsey Theatre stage, between cast and audience.

Members of the orchestra are Gayle Hightree, pianist and Evan Lee, trumpet, both of Wayne; Sharyn Whipple, flute, clarinet and saxophone and Denise Whipple, French horn, both of Stanton; Rachel Boeckenhauer, flute, Laurel, Dan Chase, Bassoon, Wakefield; Sherwin Langholdt, euphonium; John Alpers, trombone, Randolph; Keith Krueger, trumpet, Wakefield; Curtis Jeffries, bass, Wayne; and Neal Schnoor, percussion, Pierce.

Construction of the play's set is proceeding, with technical director Janet Roney of the Wayne State faculty supervising. Stage manager Barbara Cunningham, a theatre major from Lake City, Iowa, heads the set crew. Eric Selk, also a theatre major from Schleswig, Iowa, has charge of lighting design.

## Stray trailer collides with other vehicles

A trailer on the loose hit three other vehicles in a bizarre accident that took place recently in Wayne.

Darryl E. Socha of Norfolk was driving a pickup owned by Virgil Kardell of Wayne. A Restful Knights trailer became unattached from the pickup on the 200 block of Logan Street in Wayne.

The runaway trailer managed to strike a parked wrecker, owned by Arnie's Ford Mercury, and then hit the towed vehicle owned by Tim Grangquist of Laurel.

The trailer then went on another 75 feet and hit a parked car belong to Kenneth and Jack Day of Pierce.

## Musical promoted

Chuck Higbee and Lisa Soseman, who play the two lead roles in "Kiss Me, Kate," will appear on Sioux City's KTVI Channel 4 today, (Monday) during the noon news. Dave Madsen interviewed them Friday for his 12:25 p.m. feature segment.

Higbee plays the role of theatre director Fred Graham in the show's comic plot, and Soseman takes the role of Lilli Vanessi. In parts of the play — when they are acting as actors — they go by the stage names of Petrucchio and Katharine, but they argue and fight in both roles, most of the time.

Higbee and wife Teri, who also has a major role (as Lois Lane and Bianca), moved to Wayne in March and is making his local stage debut. He is an engineer at Timpie, Inc. Mrs. Higbee works at Mines Jewelry. She already has local stage credits — as the defendant in Community Theatre's "Night of January 16th" last spring.

Lisa Soseman, of Omaha, majors in theatre at Wayne State and has taken many college stage roles, most recently in "Toad of Toad Hall" and "Company."

## weekly gleanings

THE RANDOLPH Board of Education last Monday night adopted a budget that asks for \$1,053,360 from a tax call. The tax call is identical to last year's.

STAN Carlson of Coleridge hit a hole in one at the open tournament at Sanborn, Iowa recently. He used a 7 iron for the 145 yards on the 12th hole. He placed third in the fifth flight.

ROBERT Earl Jackson, 48, of Dunlap, Iowa was appointed last

Monday as assistant superintendent of the South Sioux City School Board.

THE FIRST new construction project Lyons' Main St. has seen for several years will soon be underway. Lyons Apartments, Inc. will be building another complex of six units only a block from their original site near the First National Bank. The new location for the proposed complex is at 4th and Main, where the former Coop Creamery stood. The projected construction cost is \$139,992.

## 'hacken' away

by **chuck hackenmiller**

What if both the husband and wife each have a fulltime job during the same daily working hours, and they have children not old enough to start school?

Normally, the working couple would begin a painstaking search for a person to watch your sons or daughters.

Fulltime babysitters that watch children while parents are busy with their fulltime occupations are often acknowledged and accepted as trustworthy guardians.

Yet the significance and impact of what each babysitter makes on a child's future is one that cannot be disregarded, and the decision should be researched with the utmost sincerity if any parent's concern exists about the well-being of the child.

What do some people look for in finding the perfect babysitter?

Trust, dedication and personality are virtues some might rank highly as the qualities sought by some. Many can carry that trademark.

There are other distinct characteristics which can be overlooked.

Your child is with the babysitter for 40 or more hours a week. Working parents, on the other hand, have at the most the weekend and about five hours a day to be with their children. Most parents don't like the situation, but options are limited.

WHAT HAPPENS at the babysitters can be a direct influence to a child. It makes all the difference in the world if a child accepts the babysitter as a friend. Having a friend takes the sting away from leaving mom or dad for a good portion of the day. Acceptance of a babysitter is critical — to both the child and to the parents of the child.

There is nothing wrong with finding someone that you feel will be a "second mother/father" to your child. Many parents hope that the babysitter will offer whatever is conveyed by the parents at home, particularly in the areas of patience and understanding — mixing those qualities with a measured portion of affection and tenderness.

You hope that they are able to praise a child and at the same time try not to neglect the areas of necessary discipline and scolding.

How do you know when that "right" babysitter comes along? You can tell good things are happening when your child, when at home, talks about his friends and activities they share at the babysitter's house.

Or when the child excitedly looks forward each day to be with his babysitter and the other children, and doesn't mind when mother and father must work late and he/she must stay there a few minutes, or hours more.

A PARENT then realizes a babysitter's job is more than just watching over a child. Responsibilities in building character can be enormous, and hectic — we're sure.

But more importantly, a good babysitter soothes the worries and apprehension from parents and instills a confidence that continues to grow from day to day. In turn, the babysitter becomes the parent's friend as well.

So it isn't easy, when the time comes, to say good-bye to a babysitter. Or to a friend.

And when the child, from out of the blue, says "I'm sad, I'm going to miss her," then you know she or he has done something right in your absence.

No, a babysitter shouldn't try to fill in as a role model of mother or father to the children entrusted in her or his care.

But they do the next best thing: they create a friendship and an impression that will stay for the duration of the child's life.

And that's nothing that any babysitting fee can buy.

Exon says

## Restrain President spending

The U.S. Senate has approved a measure cosponsored by U.S. SENATOR JIM EXON (D-NEB) limiting federal spending for former U.S. Presidents.

The legislation (S.1047) which curtails spending on former presidents office allowances and secret service protection was unanimously approved Friday.

"This legislation will take important steps in reducing the unrestrained spending on our former presidents," Exon said. "The spending for the former presidents now exceeds the \$22 million annual costs to operate the incumbent President's White House office," he added. Federal spending on former U.S.

presidents has "gotten out of hand growing from \$63,000 in 1955 to an estimated \$27 million for 1985.

The legislation would put a limit of \$300,000 annually for office staff and allowances for each of the first year years after leaving office. In the fifth year after leaving office the annual amount declines to \$250,000 until the ninth year when it falls again to a report detailing how the funds were spent.

"This is a time of fiscal restraint in all areas of the federal government," Exon said. "It is only reasonable to ask that our former presidents curtail their spending, just as the Congress reduces spending throughout

the federal government to reduce the budget deficit," he added.

The bill also specifically prohibits the federal funds from being used for partisan political or income generating purposes. This would include preparing materials for which the former official will receive income or other compensation.

The legislation states a former president would have automatic around the clock Secret Service protection for five years instead of for life. The Secret Service would also be authorized to protect the former President's spouse and, each child up to age to sixteen, around the clock for two years.

## Being first isn't everything

Most people may think the 4-H division of the Nebraska State Fair is geared towards "winners," those who win the purple ribbon or the grand champion trophy. While being first in a class is part of 4-H, William E. Caldwell, assistant extension director, 4-H, at the University of Nebraska-Lincoln, said there is much more to 4-H at the State Fair than selecting champions.

"We look at the State Fair as recognition for 4-Hers for their achievements," Caldwell said. "Whether a 4-H'er places first, a second, middle, or dead last in their event, they have achieved a great deal by participating in 4-H and knowing that they have benefited by staying with a project to its completion."

Caldwell said State Fair is also an activity to provide new experiences for youth, 4-H volunteer leaders and the extension staff who participate. In the past several years, new opportunities have been developed for teens and adults to accept leadership roles during the fair.

"We're constantly identifying and selecting volunteers, both teen and adult, to help our staff be more effective during State Fair," he commented.

The State Fair also provides the general public with awareness of the educational learning opportunities available in 4-H, Caldwell said. The general public may think of 4-H as "cows and cooking," but by observ-

ing the varied activities and contests at State Fair, along with thousands of exhibits, non-4-H'ers can understand how broad the 4-H experience is.

"Four-H draws a large crowd to State Fair each year," Caldwell said, "so we help the State Fair because of the increased attendance for 4-H activities and events. There are literally hundreds of 4-H activities, contests, and exhibits at the Nebraska State Fair, Caldwell said.

Because 4-H is the youth-serving organization of the Cooperative Extension Service and the University of Nebraska-Lincoln, the general public will be exposed to new practices and ideas, which they may apply to their own personal lives.

## Looking out for suicide

It is estimated that each year, over 400,000 young people attempt to kill themselves, about 6,000 succeed. Suicide is the third leading cause of death among adolescents after accidents and homicide. Since 1950, the suicide rate for 15- to 24-year-olds virtually has tripled, according to the national Center for Health Statistics. The problem affects all income levels, both sexes, and all races and nationalities.

Why the increase? There are no clear answers to why a teen would commit or attempt to commit suicide. The teenage years are like an emotional roller coaster and there are a variety of problems facing adolescents today which may be contributing factors. A teen's stability may swing from elation to despair in a matter of days or even hours. Although there is no single cause, researchers find certain situations that may be contributing factors.

- Stress from external sources... school grades, rules, college requirements and admission deadlines, poor nutrition or health care.
- Loss of a loved one... a boyfriend or girlfriend, a friend, a parent, a relative.
- A major disappointment or humiliation... either real or imagined — not being selected for athletics, a music group, cheerleader, honor society, rejection by the opposite sex.
- Lack of communication especially with parents about teachers, about feeling of unhappiness, loneliness, isolation, failure, frustration.
- Problems dealing with the physical and psychological changes in their lives... dating, dealing with pregnancy and abortion, pimples, doubting their abilities and facing rejection.

- Loss of the traditional support system in today's society... breakdown of the family unit, homelife disrupted by tensions, or alcohol/drug abuse.
- Unrealistically high expectations and inability to compete... in school, or a job, too much responsibility or too many privileges and little understanding of how to cope with pressure. They cannot deal with defeat.
- And unclear perceptions of death... today's youth depend so much on television and movies for entertainment. It is possible they do not truly understand that death is final and that it can happen to them even though their heroes escape.

MENTAL HEALTH professionals have identified clues that may indicate suicide tendencies. They include:

- A waning interest in schoolwork, falling grades, and a general decline in quality of work.
- Changes in eating or sleeping habits or energy level and neglect of personal appearance.
- Withdrawal from family, friends, and regular activities.
- Alcohol or drug abuse: Many teens who tried were drunk or "high" on drugs.
- Sudden behavioral shifts, particularly rebellious and violent behavior.
- Difficulty in concentrating.

Radical personality changes such as helplessness, loss of interest, persistent sadness, feelings of guilt or worthlessness.

Physical symptoms often related to emotional disturbance such as stomachache-headache-fatigue.

Thoughts and expressions of despair, death or suicide.

Putting affairs in order... giving away favorite possessions, throwing things out, cleaning up his or her room meticulously.

And direct or indirect verbal hints... statements such as "I won't be a problem for you much longer" and "nothing matters — I don't care."

YOUR ATTITUDE toward an adolescent is a key to keep dependency from possibly turning into thoughts of suicide. Experts give us these suggestions:

- Don't lose patience with the person and their behavior which may seem hostile or even infantile.
- Take threats seriously. Talk of suicide often precedes the act so keep the lines of communication open.
- Demonstrate your love and acceptance of the person, complete with his or her hang-ups and problems.
- Talk it out and don't be afraid to talk to your teen about feelings of unhappiness and inadequacy. Constantly remind them that even seemingly unsolvable problems can be worked out.
- Offer direction... once a warm, caring, trusting, rapport has been established, suggest professional help.

If a teen exhibits warning signals, particularly over a period of days or weeks, seek professional help. Family physicians can help and refer you to a health specialist or a hospital or clinic, family service agency equipped to help. Teachers, social workers and counselors can also be helpful.

The above teenage suicide story was written by Ron Joeket, associate dean of the Teachers College at the University of Nebraska-Lincoln. Although it is a topic not often discussed, we feel that for the sake of all parents and teenagers, the article carried important information.

### Poor facts

What do you know about poverty in Nebraska? Governor Kerrey says there are many myths about poverty about its origin, its nature and the most appropriate public and private response to it.

Some side with Governor Kerrey, saying that it is the most dangerous and pressing problem on this earth. Others believe its unchecked growth is the greatest threat to world peace and the successful progress of democracy against communism.

Nebraska has been making a strong effort to employ the poor who receive public assistance. They have found that the poor self-esteem is the single greatest barrier to successful employment.

What are the facts about Nebraska's poor? A report on "Being Poor in Nebraska", compiled by the Nebraska Department of Social Services, reveals the following:

- Two out of three ADC recipients in Nebraska are children. Almost half the children receiving ADC in Nebraska are under six years old.
- Two out of three ADC recipients are white.
- Most families stay on ADC for less than two years.
- The typical family on ADC assistance is a mother and one child.
- The average age of an ADC mother is 28. Over 8 percent of ADC mothers are teenagers.
- Most ADC families would not need assistance if absent parents provided child support.

Although Nebraska ranked 20th among states in ADC benefit levels in 1985, a family receiving both ADC and Food Stamps still lived 29 percent below the poverty line, which is an income of \$9,120 annually.

An ADC recipient receives an average of \$110 monthly in benefits.

And finally, 12.1 percent of Nebraska's children are living in poverty. And over 10.7 percent of the state's population lives in poverty.

Any way we look at it, poverty cannot be dismissed as a small problem in this state — or in this nation.

We should encourage those we know who are at the poverty level to seek assistance and to let them know that it isn't shameful to want help.

Too many peoples' means of existence rely on ADC relief and other social service programs.

a public service of the nebraska state bar association

Q. I am adopting a child in a private adoption. The mother is giving up the child on her own free will. Could she ever come back and take the child away from us in years to come?

A. Most adoptions are either handled by an agency, or on a private basis. In either case, the natural mother must relinquish her rights to the child and give her consent to the adoption. (In the case of unwed parents, if the baby's father has filed a "notice of intent to claim paternity" within five days of the date of birth, his consent is also required. If such notice is not on file with the Department of Social Services, then his consent is not required.)

In an agency adoption, the mother usually relinquishes the child to the agency. Under Nebraska law, the agency must then accept responsibility for the child in writing. When this requirement has been met, the relinquishment, if voluntarily given, is considered irrevocable.

In any adoption, a final decree cannot be entered until the child has lived with its adoptive parents for six months. During this six-month period, it is possible that the decree could be set aside and the child returned to its natural mother, if the natural mother could convince the court that her consent was not given voluntarily, or that undue influence was used to secure her consent, or that she received money (other than for medical expenses) to give up her child. However, the fact that the birth mother has simply had a change of heart in agreeing to the adoption has generally not been considered sufficient grounds for a court to revoke a relinquishment and return the child to its birth mother.

After the six month period has passed and a final decree of adoption has been entered, courts have consistently refused to set it aside at the insistence of the natural parents.

This information relates to adoptions in Nebraska. Adopting a child from another state involves some complicated legal procedures which should not be attempted without the advice of a lawyer or individual familiar with the laws of the state in question.

Dear Friend:

August 22, 1986

I just received back the letter I sent to you. It was marked, "Return to Sender." I wish you had read it. I feel that what was in the letter was worthy enough to print below.

This letter contains a description of present reality in our relationship. It also proposes solutions to what has become a very painful situation. I have done my human best to insure that no judgement or criticism are present.

I can't smile at you. You can't smile at me. I can't look you in the eye. You can't look me in the eye. We can speak to each other only with great tension in our voices. I see that you are very bitter. I am very bitter. You have many reasons in your mind that justify your bitterness. I have many reasons in my mind that justify mine. We are both caught in a vicious circle that just seems to keep hurting one another more and more. We are both carrying emotional baggage in our hearts that weighs us down and makes us less effective as people. Yet, most people who know you or me would say that either one of us is a very free, caring, loving and kind individual. That vast difference between how we deal with other people and how we are currently dealing with each other is a great paradox.

We need to talk with each other before you leave Wayne. I want to stop the bitterness. I want peace. I recognize that hate or bitterness in the heart of a person poisons the person that carries it. We are both poisoning ourselves. Let's get it out of our systems.

The purpose of us talking to one another is not to prove you right or me right, but rather to make things right. I blame you for the emotions and feelings that I have and you blame me for the emotions and feelings you have. We both need to sweep blame from our thought processes. In reality my emotions are my choice and your emotions are your choice. I seek peace with you. If I start wallowing in the past when we talk, please stop me. I seek a resolution to our present bitter state.

I grieve greatly at the loss of your friendship. I have recently spent time trying to think of things from your standpoint, as if I were you. It has helped me to understand your views on my actions. Please, as a memorial to a cherished friendship, sit down by yourself where you won't be disturbed for a period of time and contemplate the past two years as if you were me. Think about the time when we were friends and what that meant. Try to understand my views on your actions. Think about how great peace would be for all concerned.

If I had only 24 hours to live, you are the only person that I would need to make peace with. If we go our separate ways having made peace, we will both be able to be better people. If we can look each other in the eye and know that we have forgiven one another, it will be like dropping great huge weights that we have been lugging around.

Friend, let's drop those weights. Let's make peace between one another before our ways part. Let's talk. Both our lives will be happier when we do.

When you leave Wayne, wherever you may go, I want to look into your eyes, genuinely smile and say to you without strain in my voice, "Friend, I wish you only the best." I want you to be able to do the same thing back to me.

Seeking Peace,  
A Friend

It is musical stage comedy, and it's 100% Cole Porter — his music, his lyrics — spicing a hilarious story by Sam and Bella Spewack.

## Inexperienced and experienced describes '86 Wildcat football team

By Jean Berger  
WSC Sports Information Director  
Inexperienced, but experienced. Seems like a contradiction of terms, but the two words accurately describe the 1986 Wayne State Wildcat football team.

With only four returning starters on the offensive side and six on defense, inexperience seems to be the appropriate description. But virtually all the players who figure to step in for the lost starters are experienced.

"We're inexperienced and young as far as starting experience goes," head coach Pete Chapman said. "But we're not short of playing experience. We've exposed them to playing on the varsity level and a few even earned a part-time starting job."

So the real question facing the Wildcats this season is how fast those inexperienced starters adjust to their starting role.

"How well and how fast they put their inexperience behind them will tell a lot about our season. They're young, but they're talented and if we play well early with some emotion and enthusiasm, we could get on a roll," Chapman said.

Offensively, the tone remaining

starter on the line is Mike Anderson of Tekamah. The 6-4, 265-pound right tackle will be counted upon to lead the line. Ben Lehr and Rich Ruffcorn, both of Omaha, have over two years of experience, but must adjust to new starting roles. James Bester has been moved from the defensive side to bolster the offensive line.

Quarterback is an untested spot for the Wildcats' run and shoot offense. Jeff Mathers of Kingsley, Iowa, and Scott Raue of Piere, S.D., fought it out in spring ball and appear to be the leading candidates. But John Lawrence, a transfer from Drake, and Mark Priegnitz, a former pitcher on the Wayne State baseball team, could challenge for the starting job.

"Building confidence in our signal caller will be a top priority for us in fall camp," Chapman said. "Right now, we're not sure who's going to step forward and take charge of our offense. Any of those four players has the talent."

Todd Buchanan, a senior who played for Chapman and Yankton College, transferred to Wayne State from Drake when the football program was dropped. He appears to be the top candidate to replace Carl Calvert at running back. Calvert graduated last spring.

One spot the Wildcats are not short of talent is in the receiving corps. Sonny Jones of Omaha and Darin Blackburn of Malver, Iowa, both return for their fourth year of starting. Chuck McGinnis of Glenwood, Iowa, and Glenn Mathews of Omaha return for their second year as starters. Two others have varsity experience.

Defensively, the Wildcats will build around all-American cornerback Lamont Lewis and Randy Hupp of Norfolk. Lewis is the lone returning starter in the secondary. Mark Volf of Aurora, Rob Hotsir of Sheldon, Iowa, Brian McKinley of Saginaw, Mich., and Doug Heys of Elk Horn are the leading contenders for the three other spots. But a talented group of eight freshman recruits, including all-stater Eric Anderson of Omaha Central, could challenge for a starting position.

Hupp, an honorable mention all-American last year, as well as an all-conference and all-district selection, has been moved from the defensive line to outside linebacker for the 1986 season.

Hupp joins Greg Cavill and Judd Meentley, who split time last season at linebacker, and the three appear to be yet another group following the Wayne State tradition of strong linebackers.

Dave Uhlers, Greg Hunke, Drew Walker and Doug Blair all started at one time or another on the defensive line last season. A talented newcomer, Robert Donelson, a 6-4, 240-pound lineman from Detroit, Mich., could also challenge for a starting job.

Overall, Chapman considers this year's defenders the quickest he's had in three years at Wayne State. Chapman's fourth year brings with it the first group of seniors recruited by his staff. In addition, a good recruiting year brought the Wildcats, "the best and largest quality group of kids we've ever had." That includes eight freshmen who played in the Nebraska Shrine Bowl.

Five of Wayne State's first eight games are in the friendly confines of Memorial Stadium, including the season-opener against Morningside Sept. 6. That home field advantage could help the young Wildcats adjust to their starting roles.

## Lewis shines in grid test

At 5-10 and 185 pounds, Wayne State's Lamont Lewis isn't a very imposing site. But one thing is for certain, when Lewis tackles opposing players this year, they'll feel it.

Despite his small frame, the defensive back finished second on the team in the bench press with 365 pound lift.

In addition to Lewis' surprising power display, the Milwaukee, Wis., native also flaunted his speed and explosiveness during football testing by placing second in the 40 yard dash with a 4.49 clocking and second in the vertical jump with a leap of 32 inches.

Ben Lehr, a 6-2, 230-pound offensive lineman from Omaha, lifted the most weight in the bench press with a 385 pound lift, while Randy Hupp, a 6-2, 240-pound senior linebacker from Norfolk, leaped the highest in the vertical jump with a 34 inch effort.

Sonny Jones, a 6-2, 205-pound senior receiver from Omaha, tested the fastest in the 40 with a 4.41 clocking, while the hip sled title went to 6-2, 240-pound junior lineman Dave Uhlers who lifted 910 pounds.

THE 4TH JUG won the Women's Softball Association Tournament with a 5-2 victory over the Rusty Nail. Members of the team are: front, left to right — Nan Weber, Sylvia Ruhl, Monica Eddie, Patty Beiermann, Lisa Jacobsen and Kelly Zirke. Back, left to right — Coach Kevrin Nissen, Teresa Kay,

## Limited squad hurts Rusty Nail

# 4th Jug wins women's softball title

The 4th Jug took advantage of a depleted Rusty Nail squad to claim a 5-2 victory for the championship of the Wayne Women's Softball Association Tournament.

The Rusty Nail only had nine players. A minimum of 10 players participate in slow pitch softball and when a team has only nine players, an automatic out is issued once every 10 at bats.

The 4th Jug opened a 1-0 lead in the second inning when Monica Eddie lead off by reaching on an error, advanced on a fly out and scored on a fielder's choice.

The 4th Jug increased its lead to

three with a pair of runs in the fourth. Kelly Zirke got things started for the victors by reaching with one out. Shelly Carroll followed with a single and both base runners eventually scored on a Rusty Nail error and a Sylvia Ruhl single, respectively.

After being shut out over the first five innings, the Rusty Nail finally broke the ice with a pair of runs in the top of the sixth.

Marilynn Strommann and Pam Nissen started the frame off by stroking consecutive singles and after both base runners advanced a base on a force out, they both scored on a 4th Jug error.

But the 4th Jug answered the Rusty Nail's uprising with two runs of its own in the bottom of the sixth.

As Strommann and Nissen did for the Rusty Nail, Zirke and Carroll started the 4th Jug's half of the inning off by stroking consecutive singles and both eventually scored on a series of fly balls and force outs.

June Janssen started the top of the seventh off by reaching on a single, but was then tagged out in a run down. The Rusty Nail's next batter then fanned and the game ended because of the automatic out.

The Rusty Nail had several oppor-

tunities to score in the early going, but the 4th Jug always managed to escape without any damage.

For example, Nissen and Vicki Mayer both reached base in the first, but the 4th Jug escaped without allowing any runs. Gale Hightree then singled to lead off the second for the Rusty Nail and Janssen later reached on an error, but the 4th Jug again escaped without allowing a run.

Carroll (the 4th Jug's clean-up hitter) led the victors offensively with two hits, while teammates Lisa

## DeSoto Wildlife Refuge is accepting 1986 reservations

MISSOURI VALLEY, IOWA — DeSoto National Wildlife Refuge is now accepting applications for reservations during the 1986 waterfowl hunting season on portions of the refuge located within the state of Iowa.

Hunting on the controlled Iowa unit will run continuously from Nov. 1 through the end of the Iowa state season and is limited to the taking of ducks, geese and coots, only. The DeSoto hunting area will be the same as that opened last year.

The 1986 fall flight of ducks is expected to increase slightly over last year's flight due to improved habitat conditions in southern Manitoba and the north-central United States. Likewise, fall flights of Canada geese in the Mississippi Flyway are also expected to increase slightly over 1985 levels.

In contrast, however, reduced fall flights are projected for lesser snow geese due to less than favorable nesting conditions on the Canadian breeding grounds. Nevertheless, good snow goose hunting is still expected at DeSoto National Wildlife Refuge during the 1986 season since the population and the fall flights have generally increased in recent years.

Applications for hunting in the Iowa unit will be accepted Sept. 1 through Sept. 27, and a drawing to determine successful applicants will be held Monday, Sept. 29.

All applications for reservations must include the applicant's name, address, and telephone number. Applications should include the specific date the applicant will accept, and a \$5 reservation fee, payable by check or money order, to the "U.S. Fish and Wildlife Service."

The reservation fee of \$5 is an increase over last year's fee of \$3. Hunters are reminded that each applicant is allowed only one advance reservation and that all applicants must be at least 16 years of age.

Applications should be mailed to DeSoto National Wildlife Refuge, R-1, Box 174, Missouri Valley, Iowa 51555. No special form is required, but all necessary information must be included for the application to be valid.

Applications will also be accepted in person at refuge headquarters, located midway between Missouri Valley, Iowa, and Blair, Neb., on U.S. Highway 30 during normal weekday business hours.

Should openings remain after the Sept. 29 drawing, reservations will be issued on a first-come, first-serve basis by mail or in person, on and after Monday, Oct. 6. Thus, successful applicants in the Sept. 29 drawing will not be eligible for another reservation until after they have used their initial reservation.

Hunting methods and check-in procedures will be the same as those used during previous years. Again this year, shells loaded with steel shot are required and hunters must furnish their own shells.

No loads other than steel shot will be allowed, regardless of shotgun size. A maximum of 25 shells will be allowed each hunter for the half-day hunt.

Hunters are required to have an Iowa Habitat Stamp and both Iowa and Federal Duck Stamps, in addition to a state hunting license.

The Federal Duck Stamp is now

They expect 300 women from across Northeast District to attend. The noon luncheon will be held at the Laurel city auditorium, served by the Methodist Men. Courtesy cars will be available for those unable to walk to the auditorium.

The coffee hour will begin at 8:30 a.m. with the meeting convening at 9:20 a.m. by the President of Northeast District, Vivian Miller of Johnston.

Laurel members are to buy their luncheon tickets from Agnes Burns or Mary Ann Ward. Mrs. John Hartman of Laurel will be receiving

money and reservations for the luncheon from women throughout the district.

Volunteers will be needed at 1 p.m. on Monday, Sept. 15 to help prepare for Tuesday's luncheon.

A cleaning day will be held at the Laurel church on Wednesday, Sept. 3 beginning at 8:30 a.m.

It was voted to send a donation for the dedicated light to burn for one minute at the district meeting from the Laurel Unit. Marge Ward and her committee were chosen to decide who it would honor.

The program on "The Power of Positive Risking" was very informative. A group discussion was held on the question "Do You Feel The United Methodist Women's Organization is Fulfilling your Needs as a Women in Today's World?" The lesson was given by Joan Hartman and Pat Andersen.

On the serving committee were Audrey Hinrich, Violet Wicklett, Edna Christensen, Lois Preston and Thelma Hatlig.
